PRISONERS FLOURISH IN GAOL SAYS POLICE CHIEF VICKERS

QUESTION OF COST OF MAINTAINING PRISONERS WAS RAISED AT THE MONTHLY MEETING OF THE POLICE COMMISSION.

The cost of keeping prisoners is an interesting point raised by the meeting of the police commission, held yesterday afternoon. In response to Alderman Maitland's inquiry, Chief Vickers said that the cost was very high. Twenty-five cents a day will cover the cost per prisoner. What kind of fare do they get? asked Alderman Maitland. They are pretty well fed for those who are not doing really hard work," said the chief. They have oatmeal, cornmeal, bread, soup, meat, beans, tea, and they get no butter. The rations served to prisoners here compare very favorably with those served under the provincial regulations. The prisoners are not overworked. They get plenty of

NEW YORK GUNMEN HAVE PUT THE CITY IN STATE OF TERROR

YOUNG MAN FALLS VICTIM TO FOUR THUGS—DIRTY WORK RESEMBLES SAME PLAN USED IN ROSENTHAL MURDER.

New York, Aug. 5.—William Lustig, a young man of whom the police know very little except that he comes from a respectable family and who has a father who is a process server attached to the district attorney's office, is dying in Bellevue Hospital, the victim of assassins. The police recall the gunmen's methods in the Herman Rosenthal murder more than a year ago. Lustig is believed to have been shot by "Bumpy" Jackson's cohorts by a woman last night. The couple had just taken a seat at a table when the woman sud-

MULVIHILL CHARGED WITH KELLY'S MURDER

Further Developments in Burns Lake Affair—Prisoner Is Taken South.

On the charge of murdering his partner, Ed, Kelly, at Burns Lake, Harry Mulvihill is at present on his way to the gaol at New Westminster. He went on the Prince Rupert train this morning under the charge of Constable MacAulay. It seems that Kelly had an altercation with his partner. Exploited by Mulvihill's abuse, Kelly gave him a severe beating about 2 o'clock in the morning. Mulvihill was standing at the counter in Springsteen's cigar store talking to two friends, a man and a woman, when the bullet struck Kelly's head, causing death two hours afterward.

The Juvenile Bostonians are expected on the steamer Sophia tomorrow on their return trip from Dawson and Alaska. An effort is being made to get them to stay off here for a short engagement.

GROWING BUSINESS DEMANDED EXTENSION

Wallace Department Store to Be Again Enlarged by the Erection of New Addition.

It seems but a very short time ago when the Wallace department store was enlarged by the addition of the crockery and wallpaper department, yet the rapid growth of business has now necessitated a still further addition. For this the contract was let to Messrs. Mitchell & Currie, contractors, yesterday, and the work is to be started at once.

The new building will be 25 by 45 feet, situate at the rear of the crockery and wallpaper department. This additional space will be fully utilized as soon as the building is completed, the H. S. Wallace Company, Limited, having for some time felt the need of more space for their rapidly growing trade; not only for the showing of goods but in order to be able to carry large stocks in all lines and thus be able to offer a much wider range of choice. The new building is to be completed early next month.

BERMUDA TO REMEDY ADMIRALTY MISTAKE

London Newspapers Think the Views of American Press Are Unwarranted.

London, Aug. 5.—The Washington reports of Great Britain's intention to establish a naval base in Bermuda are regarded by the London press as reflecting a misconception in America of the admiralty's plans. It is admitted that the British squadron at Bermuda will be increased to four armored cruisers with a rear-admiral in command, and a dock yard and coaling station will be established. It is declared, however, that this is merely to remedy a mistake that was made under Admiral Fisher's regime, and for the very natural purpose of affording greater protection to British shipping which makes use of the Panama Canal.

GERMANY'S OPINION

(Special to The Daily News.) Berlin, Aug. 8.—The decision of the British government to station a number of cruisers at Bermuda is taken in official circles here as an indication that the intense anti-German feeling in England is relaxing.

SCOLDED BY KING

Prince Is Said to Have Left Big Note Unpaid.

London, Aug. 4.—The Prince of Wales received a severe scolding from the King yesterday. The Prince, it seems, has inherited from his grandfather an indifference to the value of money, which King Edward displayed before his accession.

At Greenwood races, last week, a prominent member of the firm of Tattersalls, that maintains the famous betting and auction rooms, informed Sir Frederick Ponsonby, equerry to King George, that he held a promissory note for \$2,500, indorsed by the Prince of Wales.

Sir Frederick Ponsonby demanded an explanation and was told the heir to the throne met Major Gascoyne at Lord Gervile's house last winter. For some reason not divulged the Prince put his name to the note, which finally found its way to Tattersalls.

Sir Frederick told King George, who was greatly vexed and ordered his treasurer to pay the note immediately.

HUERTA GETTING ANGRY

Lays Down the Law for the United States.

(Special to The Daily News.) Mexico City, Aug. 8.—The government of the republic has issued a statement that if the representative of the United States President, Mr. Lind, comes as a credited ambassador he will not be welcomed. He must, it is added, recognize the Huerta government or stay away from the country, as he will not be received.

DUCHESS AGAIN ILL

May Interfere with the Duke's Return to Canada.

(Special to The Daily News.) London, Aug. 8.—The Duchess of Connaught is reported to be in a dangerous condition again. According to the report, she has been seized with a very serious attack of illness. It is presumed that it is a recurrence of her old trouble. This may again upset the plans of H. R. H. the Duke of Connaught with respect to returning to Canada.

TAX ALL CHILDLESS OVER A CERTAIN AGE

Draft of Proposed Law in France Would Affect More Than Bachelors.

Paris, Aug. 4.—The Figaro has received from the Race Francaise Society the draft of a proposed law taxing not only bachelors but also all childless persons over a certain age.

According to statistics given by Dr. Bertillon, France has at present 1,350,000 bachelors, 1,800,000 childless families, 2,650,000 families with only two children each, and 2,400,000 families each with a single child.

The proposed bill, fixing for each citizen an obligatory minimum of three children, would impose a tax of \$6 for each non-existent child, so to speak, on every citizen of 40 years or over who has not three living children, or has not reared three children to the age of 21. The tax would, it is calculated, produce an annual revenue of \$12,000,000. The proposal has been submitted to the ministers of justice and finance, whose opinions have not yet been made public.

GERMANY ESTABLISHES A NEW NAVAL PATROL OF CRUISERS

WINSTON CHURCHILL'S PLANS FOR DOMINION IMPERIAL SQUADRON TAKEN UP BY GREAT BRITAIN'S RIVAL—CLOSE TO BRITAIN'S SHORES.

London, Aug. 5.—According to despatches from Berlin, the Imperial government has officially announced the creation of the long contemplated special cruiser squadron, which will be made available for foreign service, and the protection of Imperial German interests abroad. This is the German government's decision, which has been expected for some time in naval circles here, and which definitely creates a new phase of German naval policy. For many decades the German fleet was concentrated in the Baltic. It then overflowed into the North Sea, and became a standing menace to British naval supremacy by enabling a large and constantly commissioned force to be kept within striking distance of British shores. The new departure seems to be precisely the move which was anticipated by Mr. Winston Churchill in his introduction of the naval estimates. The Daily Telegraph says: "This report will serve to emphasize the importance of Mr. Churchill's scheme for establishing an imperial patrol with the aid of the dominions. Unfortunately, at the very moment in which Germany takes action to show her flag in distant seas in more power the British scheme is temporarily endangered by the adverse vote of the Canadian senate."

GOVERNOR LIND OF MINNESOTA IS THE AMBASSADOR TO MEXICO

WILL BE THE PERSONAL REPRESENTATIVE OF PRESIDENT WILSON TO REPORT—UNITED STATES WILL NOT RECOGNIZE HUERTA REGIME.

Washington, Aug. 5.—No announcement of policy or further steps will be taken by President Wilson in the Mexican situation until Governor John Lind of Minnesota, personal representative of the President, arrives in Mexico City and familiarizes himself with conditions there. This was made clear at the White House today. Mr. Lind carries instructions to talk informally with prominent Mexicans. Administration officials indicate that no steps toward a mediation policy would be attempted until after Mr. Lind had

sounded out sentiment in Mexico and determined whether the assistance of the United States in adjusting the dispute would be received. Mr. Lind will inform inquirers, on the authority of President Wilson, that only the government constitutionally set up will be recognized by the United States. This will involve the resignation of Provisional President Huerta in favor of the provisional president selected by the Mexican factions, the new president to be first appointed minister of foreign relations, in conformity with the law of succession in Mexico.

MILITIA OFFICERS URGE SENDING OF FOUR BATTALIONS OF DOMINION'S WARRIORS TO JOIN IN BRITISH ARMY MANOEUVRES OF 1914.

THE CENTENARY OF PEACE.

Much has been said and written of a too controversial character concerning the commemoration of the various battles of the war of 1812-14 and also concerning the celebration of one hundred years of peace.

There is no need for the celebrants to quarrel. There have been celebrations of Canadian victories and of American victories. Perhaps it would have been better if we could have joined in honoring the brave men who fell on both sides without regard to who lost and who won. It is not victory, but effort and the doing of duty that deserve to be honored.

All this, however, belongs to the past. The coming celebrations of peace relate to the present and the future. We have had a century of peace. We ought to inquire into the causes of this condition, and then to consider how peace may grow into friendship and active co-operation; and how the example of Canada and the United States may benefit the world. Our celebration of peace ought to be more than a show. It ought to point the way to fresh achievements.

Labor Day will soon be here. It is the same day in Canada and all over the United States. Why not emphasize on that day the great truth that the interests of labor in Canada and in the United States are identical; that the Canadian workman is interested in the improvement of the condition of the workman in the United States, and that the American workman has the same interest in the conditions of labor in Canada? Labor is constructive. War is destructive. They are natural enemies.

During the month of September there will also be yet another excellent occasion for emphasizing the good will between the two nations. The fall fairs and expositions will soon be held in Canada and the United States. They are exhibitions of the arts of peace, of a kind of progress which war checks and hinders. Let this fact be emphasized wherever the fruits of the earth and the inventions of man are displayed.

No doubt the management of the Prince Rupert exhibition will contrive in some way to draw attention to the good international relations prevailing on this continent. Here, on the Pacific coast, more than in most other parts of Canada, Canadians and Americans are brought into frequent contact with each other and it is well that everything should be done which may tend to cement their friendships.

All of the official attacks upon women's dress seemed to be based upon the idea of protecting the morals of men. Would it not be better to first find the men with morals to be corrupted?

It is particularly appropriate that it was a Chicago woman who was first to vote with her foot. Chicago has long been famous for the feet of its female citizens.

TRIBUTE TO LORD KITCHENER FROM THE PEOPLE OF INDIA

LEADING PUBLIC MEN IN THE GREAT DEPENDENCY UNITE IN ERECTING COLOSSAL BRONZE STATUE OF THE FAMOUS GENERAL.

A colossal bronze statue of Lord Kitchener, weighing five tons, is about to be sent from the United Kingdom to Calcutta for erection on the Maidan, the famous riverside promenade in that city. A replica of the statue will be sent to Khartoum.

The figure destined for Calcutta has been cast from metal provided by old cannon sent from India for the purpose, while the replica is being cast from cartridge cases picked up on the field of Omdurman.

The scheme for the Calcutta statue originated with the leading public men in India, who desired that there should be a permanent memorial to the service which the field marshal rendered to India during the seven years when he was commander-in-chief. So great is the esteem in which Lord Kitchener is held there that there was little difficulty in raising sufficient money from the people of India.

The choice of design was left to a committee, and fell upon that submitted by Mr. Sydney March, at the request of Messrs. Elkington & Co. of Regent street. The work represents Lord Kitchener as a field marshal, wearing his decorations and mounted on his famous horse Democritus.

There are four panels on the pedestal of the statue, depicting appropriate Indian incidents, including the review of Indian troops by the King when Prince of Wales.

Lord Kitchener, who arrived in England a few weeks ago, spent a week end at his Kentish residence, and then paid a visit to the foreign office, where he had a long conference with Sir Edward Grey. His lordship was accompanied by his military private secretary. Scare stories cabled to the United States of Lord Kitchener ignoring the foreign office are consequently untrue.

ONE HOUR LATE

Globe Trotter Was Delayed at Vancouver.

Spokane, Aug. 4.—Speeding eastward on the last lap of his 21,000 mile race around the world against time, John Henry Mears, of the New York Evening Sun, passed through Spokane, this morning on the Northern Pacific North Coast Limited, practically on schedule, and, barring unforeseen delays, will arrive at the Sun office Wednesday night at 10:10, thirty-five days from starting.

The train was an hour late into Spokane, having been held in Seattle awaiting his arrival from Vancouver, B. C., but officials gave the order for a clear track east, and it is expected the lost time will be made up between here and Paradise, Montana.

MANY PRIZES WILL BE GIVEN FOR BEST MINERAL EXHIBITS

MANAGEMENT OF THE PRINCE RUPERT FAIR PURPOSE GIVING DOUBLE THE AMOUNT OFFERED BY THE BIG VANCOUVER EXHIBITION.

The Prince Rupert exhibition, to be held September 24th to 26th, has set a new pace in the liberality of its treatment in cash prizes for the mineral department of the fair. The management purpose giving double the amount offered by the big Vancouver exhibition, besides a wider variety of commercial minerals, coal, building stones, marble, clays, etc. The district prize amounts to \$50 and a diploma. Five dollar prizes are offered for the best displays of gold, silver, silver-lead, copper-gold and zinc ores. To this the Portland Canal Mine add a special \$10 prize for the largest exhibit of ore from any individual prospect or mine shown by bona fide owners. The prospectors have also been generously treated in three cash prizes of \$15, \$10 and \$5 for the best collection of district specimens. R. W. Cameron of Prince Rupert, to encourage an exhibit

of the black diamond, has offered the association a \$25 silver cup for the finest exhibit of coal. Diplomas and cash prizes of \$5 for first and \$3 for second will be awarded for the best displays of marble, brick, clay, lime, gravel, building stones and cement. Diplomas are also to be given for the best collection of concentrates and smelter products.

Word has been received by the fair management that district exhibits will be contributed by Atlin, Stewart, Kitseles, Hazelton and Queen Charlotte Islands, and keen rivalry already exists between the several sections as to who will land the district prize. Arrangements were made yesterday for the lease of a building during the fair to be used exclusively for the mineral displays, and this feature will appeal to thousands of visitors, both at home and on the outside.

CENSORSHIP DEMANDED

Purity League Objects to Much of Current Fiction.

New York, Aug. 4.—The "too free" discussion of sex problems in current fiction has aroused the National Christian League for the promotion of purity, and that organization has appealed to Postmaster General Bursleson to establish a censorship over magazines.

Specific complaints have been filed against articles appearing in publications as follows:

"The Tiger," by Witter Bynner, in the May Forum and characterized by the purity league as "garbage"; "The Woman Who Tried to Be Good," by Edna Ferber, in the Saturday Evening Post of June 14, and "In the House of the Living Death," by C. Hilton-Turbey which appeared in another weekly magazine on June 28.

RIOT IN CAWNPORE

Police and Mob Engage in Fatal Conflict.

Calcutta, Aug. 4.—The demolition of a portion of a mosque at Cawnpore for street improvements, which had caused indignation meetings to be held in many parts of India and Burmah, led to serious rioting at Cawnpore yesterday.

A procession of natives carrying black flags visited the mosque and began replacing the bricks of the partly demolished edifice. An attempt to disperse the gathering resulted in a conflict with the police, who fired a volley into the crowd, killing thirteen persons and wounding thirty.

One policeman was shot and forty others were slightly injured.

THE CAPITAL OF ALASKA AS SEEN BY SEATTLE TOURISTS

SCOTT C. BONE, EDITOR OF THE SEATTLE P.-I., WHO WAS ONE OF SEATTLE CHAMBER OF COMMERCE PARTY ON ITS TRIP, DESCRIBES JUNEAU.

The following is part of an article by Scott C. Bone, editor of the Seattle Post-Intelligencer, in which paper it appears. Mr. Bone was a member of the Seattle Chamber of Commerce party which recently visited Prince Rupert and the north country. The article reads:

Juneau, the capital of Alaska, is the most flourishing city in the territory at this time. The mines here and thereabout—the Treadwell, the Perseverance and other big properties—have abundant monetary support for successful operation and are turning out a large amount of low grade ore.

Juneau, Douglas and Treadwell, although distinct municipalities, really form one large community, and the tourists of the Seattle Chamber of Commerce found activity and signs of prosperity on every side.

Looking at Juneau from the surrounding hills, or from the upper deck of the steamer entering the harbor, one could see many new houses, completed or under construction, and the closer range inspection furnished additional evidence of substantial growth.

It is no rash prediction to say that Juneau will double its population in a few years, for the mineral wealth of the adjacent country seems only to have been touched. Further development is sure.

The present capital of Alaska lacks the beauty, repose and romance of Sitka. Surrounded by water and mountains, its building area is restricted, but it is expanding, nevertheless, and is today an interesting and presentable if not a beautiful city.

Alaskans hold divergent views on many questions, but they are in perfect accord in indorsing the appointment of Governor Strong. He is one of them—a veritable sourdough, who pioneered with them and knows the country and its people as few others know them. Of course, the popularly applauded application of the home rule policy to Alaska is largely meaningless—sentimental rather than real—for Alaska continues to be ruled from Washington; but the choice of Major Strong for the highest position in the territory has given Alaskans implicit faith in the friendly and generous attitude of Woodrow Wilson and his administration toward Alaska and Alaskan interests.

SENSATIONAL CHARGE MADE AGAINST TORONTO CHARITY

ALEXANDER CRUIKSHANK, AN OLD HIGH SCHOOL MASTER, SPEAKS OF CRUELTY TO INMATES OF HOUSE OF INDUSTRY.

Toronto, Aug. 4.—Penniless, a candidate for an old man's home, if such an institution existed in Toronto, Alexander Cruikshank faced a court audience here and told a story of cruelty practised upon inmates at the house of industry that compelled the attention of Magistrate Dennison and will result in an investigation by the detective department.

He said he had been ejected from the house because he knew too much about the meeting and the atrocities committed within its doors.

The old man has been in turn high school master, professor and lawyer, and has lately spent much time in institutions for the improvident.

PRINCE HENRY WILL HAVE TO DO CHORES LIKE OTHER BOYS

THE KING'S SON WILL HAVE TO "FAG" FOR HIS SENIORS AT ETON—HE MAY GET BIRCHINGS, TOO, IF DISCIPLINE DEMANDS IT.

London, Aug. 4.—When Eton assemblies in splendor after the summer vacation for the winter "half" the famous old public school for the first time in its history will have as a pupil the son of the King of England.

The "new berry" will be Prince Henry, third son of the King and Queen, who is 13 years old, and until this summer has been at St. Peter court school, Broadstairs.

When the King, on his recent journey to Eton announced his intention of sending Prince Henry to the school, it was understood that the Prince would reside at Windsor, but he is really to be attached to the house of a house master as soon as he arrives. This is in accordance with the King's special wish that he should be treated like every other boy.

Prince Henry will start in the middle fourth—the average form for boys entering Eton. He will have no special privileges and will have to "fag" for his seniors like everyone else.

Rising at 6:45 a. m. on school days, he will have to be in school at 7:30 a. m. On full school days he will have to do six hours work a day and four hours work on half holidays. Like all the lower boys, he will have to "fag" for upper boys. That is, run errands, tidy the master's room, light the fire and keep it going, prepare tea, make toast, cook eggs, fruit and so on.

A house captain has two or three fags, with the privilege of applying corporal punishment if the needs of discipline demand it.

The question that is troubling the Eton boys above everything else concerned with the "new berry" is what they shall call him when he gets settled among them. Shall it be Prince Henry or plain, simple "Henry" or "Harry," as he has been called by his school mates at St. Peter Court. The majority are for "Henry."

Prince George of Teck, King George's nephew, is at Eton and is always called "Teck" by the other boys, while those who are intimate with him call him "George."

WAITERS IN BATHING SUITS SERVE MEAL

Coney Island Rathskeller Flooded but Patrons Insist on Being Served.

New York, Aug. 4.—The worst storm in many years at Coney Island flooded that resort late yesterday. Rivers ran in Surf avenue, the water rising over the curb, and rowboats were used as a means of escape by some of the thousands marooned in hotels along the thoroughfare, where they had fled for shelter when the storm broke.

In one hotel's rathskeller, where the floor was under two feet of water, the guests remained and sat on the tables, while waiters got into bathing suits and served them.

STILL A BOY

Rockefeller Doesn't Feel the Weight of Age.

Cleveland, O., Aug. 6.—John D. Rockefeller, 73 years old, and Ebenezer Roberts, 105 years old, shook hands at the Euclid Avenue Baptist Church this morning and congratulated each other on their mutual good health.

"I was once a boy, but I am an old man now," said Mr. Roberts.

Mr. Rockefeller laughed and said: "I was once a boy, too, and am still a boy."

Mr. Roberts is a member of the Euclid Avenue Baptist Church, but has not seen Mr. Rockefeller before this summer.

Experience isn't much of a teacher when it comes to investing in gold bricks.

MERRIMENT ENDS IN HORROR; MURDER COMMITTED AT DANCE

YOUNG FARMER RESENTED ALLEGED ASSAULT ON WOMAN AND TOOK VENGEANCE—CUT THROAT OF THE OTHER MAN WITH RAZOR.

Lincoln, Neb., Aug. 4.—Clarence Clawson was arrested in Lincoln yesterday, charged with the murder of Ross McKinzey, whose throat was cut with a razor at the Wilber street carnival last night. Jail Guard Gross found Clawson in his room a few moments after he had arrived from Wilber.

Lincoln, Neb., Aug. 4.—Clarence Clawson was arrested in Lincoln yesterday, charged with the murder of Ross McKinzey, whose throat was cut with a razor at the Wilber street carnival last night. Jail Guard Gross found Clawson in his room a few moments after he had arrived from Wilber.

The prisoner, who is 20 years of age, was rushed to Wilber to appear at the inquest. He told how his wife had seen McKinzey strike May Craft, a Lincoln woman, while a dance was in progress.

His wife had rushed to the Craft girl's assistance and McKinzey had lunged at Mrs. Clawson. Clawson interfered, a fight ensued and Clawson cut McKinzey's throat, severing the jugular vein. All of the parties concerned hurried from the dance hall and McKinzey's body was discovered a short time later lying in the street.

Sheriffs of six counties searched for Clawson during the morning, after several women who had seen the cutting had told their stories. The murdered

man was a farmer living near Dorchester, Nebraska.

Clawson was returned to Lincoln for safekeeping tonight.

DIED TOGETHER

Modern Romeo and Juliet Take Their Lives.

New York, Aug. 4.—After eluding a policeman waiting to arrest him on the complaint of his wife, Harry G. Elliott, accompanied by Miss Ellen Sibley, 30 years old, Saturday night went to a point in Macombs Park, known as "Lovers' Leap," where early yesterday he killed his companion and ended his own life by shooting. Both had agreed to die together.

Mexico is so anxious to be recognized that a kick in a soft spot might be accepted as a form of salutation.

The consumption of ice water having failed to have any appreciable effect on some hundred million inhabitants of the North American continent, the doctors now declare that it does not injure the digestion. Next thing they'll be declaring hot biscuits not guilty.

THRILLING ESCAPE BY RIDING A MOOSE

Near to Swirl of Rapids When He Caught Swimming Moose by Antlers.

International Falls, Minn., Aug. 5.—A thrilling escape from drowning in Rainy River, near Fort Francis, Ontario, by catching hold of the antlers of a big bull moose which was swimming across the river, was the experience Sunday of Clyde W. Buell of Minneapolis, a student of the state university.

Buell was on a raft of logs. After striking a jam, the raft loosened and Buell, clinging to a single piece of timber, was carried down the river toward the rapids.

Buell had given up, when he saw the moose, with its head and antlers above water, swimming safely from the rapids. Buell let go his log and grabbed the antlers and shifted himself to the animal's back and rode it into shallow water.
