NEPHEW OF MEXICO'S DICTATOR FOR PRESIDENT

McGILL CONFERS DEGREES ON DISTINGUISHED LAWYERS—BRITAIN AROUSED BY DUBLIN RIOTS

DICTATOR'S NEPHEW NOW IS PRESIDENTIAL CANDIDATE

McGILL BARRED BY THE MEXICAN CONSTITUTION—PROTEST AGAINST WITHDRAWAL OF AMERICAN CITIZENS FROM THE REPUBLIC OF MEXICO.

(Special to The Daily News.)
London, Sept. 3.—It is announced here that the presidential election in Mexico is to be on October 26th. General Diaz, upon this announcement, stated that he would return to Mexico in time to make a campaign.
London, Aug. 30.—"I am now a candidate for the presidency of Mexico," General Diaz, who recently arrived in Canada, told the Associated Press this morning.
His friends in Mexico are fighting in my behalf," he continued. "Unfortunately at this time I myself am unable to do much, but I am awaiting instructions which may simplify matters.
Even if I am ordered to proceed to Japan, it is not certain I shall go there. My actions depend on developments in Mexico."
General Felix Diaz apparently

is pleased with the course of events in Mexico. He said the contention that Victoriano Huerta's candidacy for the presidency was barred by the Mexican constitution was quite correct. He declared the fact that being still an official representative of the Mexican government debarred him from discussing President Wilson's message or the Mexican replies.
Protests Against Withdrawal.
New York, Aug. 30.—Senor Sebastian Camacho, president of the Mexican senate, has sent a telegram to James A. Scrymser of New York, president of the Mexican Telegraph Company, requesting him to protest to President Wilson against the withdrawal of American citizens from Mexico. The message, made public here today, declares that the American colony in Mexico "is satisfied and tranquil," and that "tremendous damages" will result from its withdrawal.

EASTERN CITIES NOT AS OPTIMISTIC AS WESTERN

THE OPINION EXPRESSED BY V. A. HALFORD OF LONDON, ENGLAND, COMMERCIAL MANAGER OF "CANADA."

Among the arrivals by the Prince George this morning is V. A. Halford, commercial manager of "Canada," the well known English publication devoted to the development of the great northern half of the American continent. When asked by The News this morning for his impressions of Canada he remarked he had, unfortunately, seen the country at a very bad time. Business conditions throughout the country were about at their lowest ebb. One thing that struck him very forcefully, he said, was that in the eastern cities, Toronto and Montreal particularly, there was a lack of spirit and optimism among business men which he had not noticed in the west. He thought that the east does not fully realize the importance of the west.
Mr. Halford's visit to Canada is chiefly for the purpose of writing up the principal cities and districts from the standpoint of investment. The English investor, he said, as a rule has a very limited knowledge as to the value of Canadian investments, referring to the recent visit of Mayor Pattullo to London for the purpose of disposing of the city's bonds, he said that the city has no reason to regret that he made the trip. The information that was able to give to the financial concerns in London at first and would have its effect.
Speaking of immigration to his country, Mr. Halford said he

was surprised to see such a large Asiatic population in Vancouver and the southern part of the province. He could not understand why nearly all of the truck gardening in the south is done by Chinese, and hoped to see the northern agricultural districts settled and tilled by a white population.
Mr. Halford will leave Friday morning for Vancouver.

WILL TRAVEL EAST VIA GRAND TRUNK PACIFIC

P. Acland, Late of The News Reportorial Staff, Will Make Trip East via G. T. P.

P. Acland, who has resigned his position on the reportorial staff of The Daily News to accept a government position at Ottawa, left this morning for the east. Mr. Acland will have the distinction of being probably the first person, outside of railway officials, to make the trip right through to the east along the line of the Grand Trunk Pacific. It is his intention to write for some of the eastern papers a story of his trip.
During his sojourn of three months in Prince Rupert Mr. Acland made many friends who sincerely regret his departure.

FIRE CHIEF RETURNS FROM BIG CONVENTION

Chief of Rupert Held High Rank with Hundred and Fifty Fire Chiefs.

Fire Chief D. H. McDonald returned from the Prince George this morning from the convention of fire chiefs recently held in Tacoma. The convention, he says, was in session four days, and many new ideas in fire protection were presented and discussed. On the fifth day the citizens of Tacoma gave them a trip to Mount Rainier, or Mount Tacoma as the people of that city so long insisted on its being called. They went by the Chicago & Milwaukee Railway for seventy miles, by autos eighteen miles and by horses fourteen miles to a place called The Clouds, where they had luncheon. On their return trip they reached Tacoma at midnight.
The next evening a banquet was tendered the fire chiefs, who numbered about one hundred and fifty, all the coast towns being represented from San Diego to Prince Rupert. Chief McDonald said great interest was taken in this part, everyone being impressed with its great future, and he was kept fully occupied in replying to questions about it.

The communication was referred to the license committee.

LABOR ANGRY ABOUT POLICE BRUTALITY

Gigantic Duel Between Labor Boss of Dublin and Boss Owner of Dublin Tramways.

(Special to The Daily News.)
London, Sept. 3.—The brutality of the police at the rioting of the tram car strikers in Dublin on Sunday has aroused the labor ranks of England to a high state of indignation. The violence shown by the police is claimed even by anti-labor newspapers to have been absolutely uncalled for.
The strike is really a gigantic duel between Jim Larkin, the labor boss of the city of Dublin, and John Murphy, the capitalistic boss owner of the tram system and president of the chamber of commerce.
Larkin, it is said, is determined to sweep all non-union labor out of Dublin.

POLICE COURT CASES

Several Fines Imposed on Charges of Drunkenness.

Several cases of drunk and disorderly were disposed of in police court yesterday afternoon.
Herb McMillan, an Indian, answered to the charge and was found guilty. A fine of \$10 or ten days in jail was the penalty.
A. E. Gibbs, on a similar charge, was fined \$5 with the option of five days, and Pat Harvey received the same award.

CEMENT FOUNDATION FOR RETAINING WALL

Ald. Bullock-Webster Wanted to Know Why One Had Not Been Built.

Last night's session of the council occupied less than half an hour. Besides the mayor, there were only five aldermen present. The absent ones were Aldermen Dybhavn, Leek and Kerr.
Alderman Bullock-Webster wanted to know why in the building of the retaining wall on McBride street, at the junction with Third avenue, steps had not been taken to provide a solid foundation so as to prevent it settling and breaking the sewer. The city engineer explained that the matter had been considered and that it would cost between \$7,000 and \$8,000 to do that work. In view of the fact that a similar wall on Third avenue on the same kind of ground had not caused any damage it had been decided to run the risk.

The exhibition board having set that day aside as "Citizens' Day," a motion was carried proclaiming a civic holiday.

HONORS FOR AMERICANS

Montreal, Sept. 3.—Among the distinguished men attending the annual meeting of the American Bar Association here McGill University selected several upon whom to confer the degree of LL. D. Among them were William F. Taft, former president and member of the Supreme Court of the United States; Joseph H. Choate, former United States ambassador to the Court of St. James and a brilliant lawyer and public speaker, and ten members of the United States government. Premier Borden and other prominent Canadians were also honored.

A SPLENDID SUGGESTION FOR PRINCE RUPERT EXHIBITION

TO AWARD PRIZES FOR BABIES FOUND TO BE NEAREST PERFECT PHYSICALLY AND MENTALLY.

In view of the abnormally high birth rate in Prince Rupert the example set by the directors of one of the county fairs in the State of Washington is worthy of consideration by the directors of the approaching exhibition to be held here this month.
At the King county fair, to be held in a few days, parents of babies will have a splendid opportunity to learn of the mental or physical defects of their children through a "Better Babies" contest, to be held in the women's department.
Mrs. C. E. Bogardus, representing the Mothers' Congress, together with a committee of club women, will conduct the contest, which will consist of certain physical and mental tests for babies between the ages of 1 and 3 years. The idea is to score the children entered along lines laid down, ascertain their defects, see how far they fall short of the perfect score and suggest means to parents of remedying these defects. The scoring will be done by a number of physicians and trained nurses.
The entries will be limited to 100. Four substantial prizes will be offered, two for children of the county from the rural districts or communities of less than 2,000 inhabitants, there being a prize each for the babies between 1 and 2 and 2 and 3 years, making the records nearest perfection. Similar prizes will be offered for babies entered from the town or city districts of more than 2,000 people.
Children may be entered by addressing Mrs. C. E. Bogardus, or Miss B. L. Beals, at Room 440, New York Block. Entries will close on Thursday, September 4,

CONSERVATIVE GOVERNMENT AND THE GREAT STRIKE AT NANAIMO

MINISTER OF LABOR VISITED THE SCENE AND THEN LEFT FOR ENGLAND TO FIND OUT WHAT STEPS THE GOVERNMENT SHOULD TAKE

Hon. T. W. Crothers sailed for England on Aug. 21 and will not return until October 1. It is announced that the Minister of Labor has gone primarily to study labor conditions in England, particularly with regard to coal mines and mining unions. In order to facilitate these studies, the Minister is accompanied by Mrs. Crothers.
Meantime there are over 2,000 soldiers on active service with rifles, bayonets and Maxim guns in the coal district of Vancouver Island, thousands of miners are on strike, every coal mine in the district abandoned and several of them flooded, with damages that will take years to repair, hundreds of strikers and strike leaders are in jail, arrested under military guard and kept under patrol by armed soldiers; one of the most flourishing interests of British Columbia is temporarily ruined and western Canada is compelled to import its coal from the United States.
This disastrous strike started last September and has continued ever since with enormous loss to the whole country. It was only about a month ago that Hon. Mr. Crothers became cognizant of the "trouble." Then he had a "magnificent trip" across the continent, took a cursory glance around and returned with nothing done. He appointed his friend and law partner, Mr. S. Price of St. Thomas, to study the conditions in the

strike district. The only result was that from being quiescent, the strike suddenly flamed up into riots which compelled military intervention. The loss to Canada will run into many millions of dollars.
There is trouble on the I.C.R., where the high handed policy of Hon. Mr. Cochrane has stirred up the men until they have been several times on the point of striking. Hon. Mr. Crothers was conspicuous by his silence throughout.

If the Minister of Labor needs to study labor conditions he could find ample scope to do so in Canada. Probably however, Premier Borden is wise in sending his troublesome colleague on this pleasure trip to England at the country's expense. His absence is evidently a saving to the country no matter how high his expenses mount, judging by the effect of his interference in B.C. Labor men have not forgotten Hon. Mr. Crothers' statement at Montreal that he had no sympathy with labor unions.
Under the Laurier administration, which organized Canadian labor legislation, the labor department was most effective and practically every serious strike was successfully dealt with by conciliation methods under the Industrial Disputes Act. Under the Tory regime, conciliation is forgotten, and strikers are handled with bayonets, rifles and artillery.

THE OPIUM TRADE.

The commendable efforts of the Chinese government to get rid, root and branch, of the opium traffic in that country are falling short of the success which such a great moral movement deserves.

The latest proposal is that these stocks should be destroyed or shipped back to India, and that compensation should be awarded the owners for their loss out of the balance of the Boxer indemnity.

large demand for the drug throughout China. Human nature cannot be changed in a day by a revolution, and it is reported that an illicit trade is being carried on, with the connivance of corrupt officials, with opium merchants in India and Persia.

The Chinese government is beset with many difficulties, and is doing its best under the circumstances to solve this opium problem. It is in the power of Great Britain to make sacrifices to put an end to a traffic which, as the ruler of India, she created and fostered as a source of revenue.

CHAMPION BOXER'S GOLD BELT WAS PURLOINED FROM WINDOW

IN BROAD DAYLIGHT THIEF TOOK WELSH'S TROPHY FROM STORE — BELT WAS WON IN BOUT WITH HUGHIE MEHEGEN, THE AUSTRALIAN

Vancouver, Aug. 28.—Freddie Welsh's gold belt, which he won in a bout with Hughie Mehegen, the Australian pugilist, at the National Sports Club in England, entitling him to be called the champion of the British Empire, was stolen from the show window of Reid's drug store, Davis and Denman street, about 3 o'clock yesterday afternoon.

The belt, valuable for the large amount of gold it contains, and for the workmanship and inscriptions, was exposed to view behind a screen. Because of this the daring and skill of the thieves is obvious. It is thought that a confederate or confederates held

the store attendants in conversation while the thief extracted the belt and walked away. Although aided by clues, detectives are making an effort to trace the robbers, but it is feared that the belt may be melted down for the gold there is in it.

The belt consists of a series of gold chain links, and there is an oval centrepiece of enamel, depicting boxers in action. On each side there is another enamelled panel, one of a man skipping and the other of a man at the punching bag. Two solid gold plates bear inscriptions naming the contest in which Freddie Welsh won the trophy.

NELSON TO PAVE ITS FIRST CEMENT STREET

The Work Will Commence Shortly — Purchase of Gas Works Discussed.

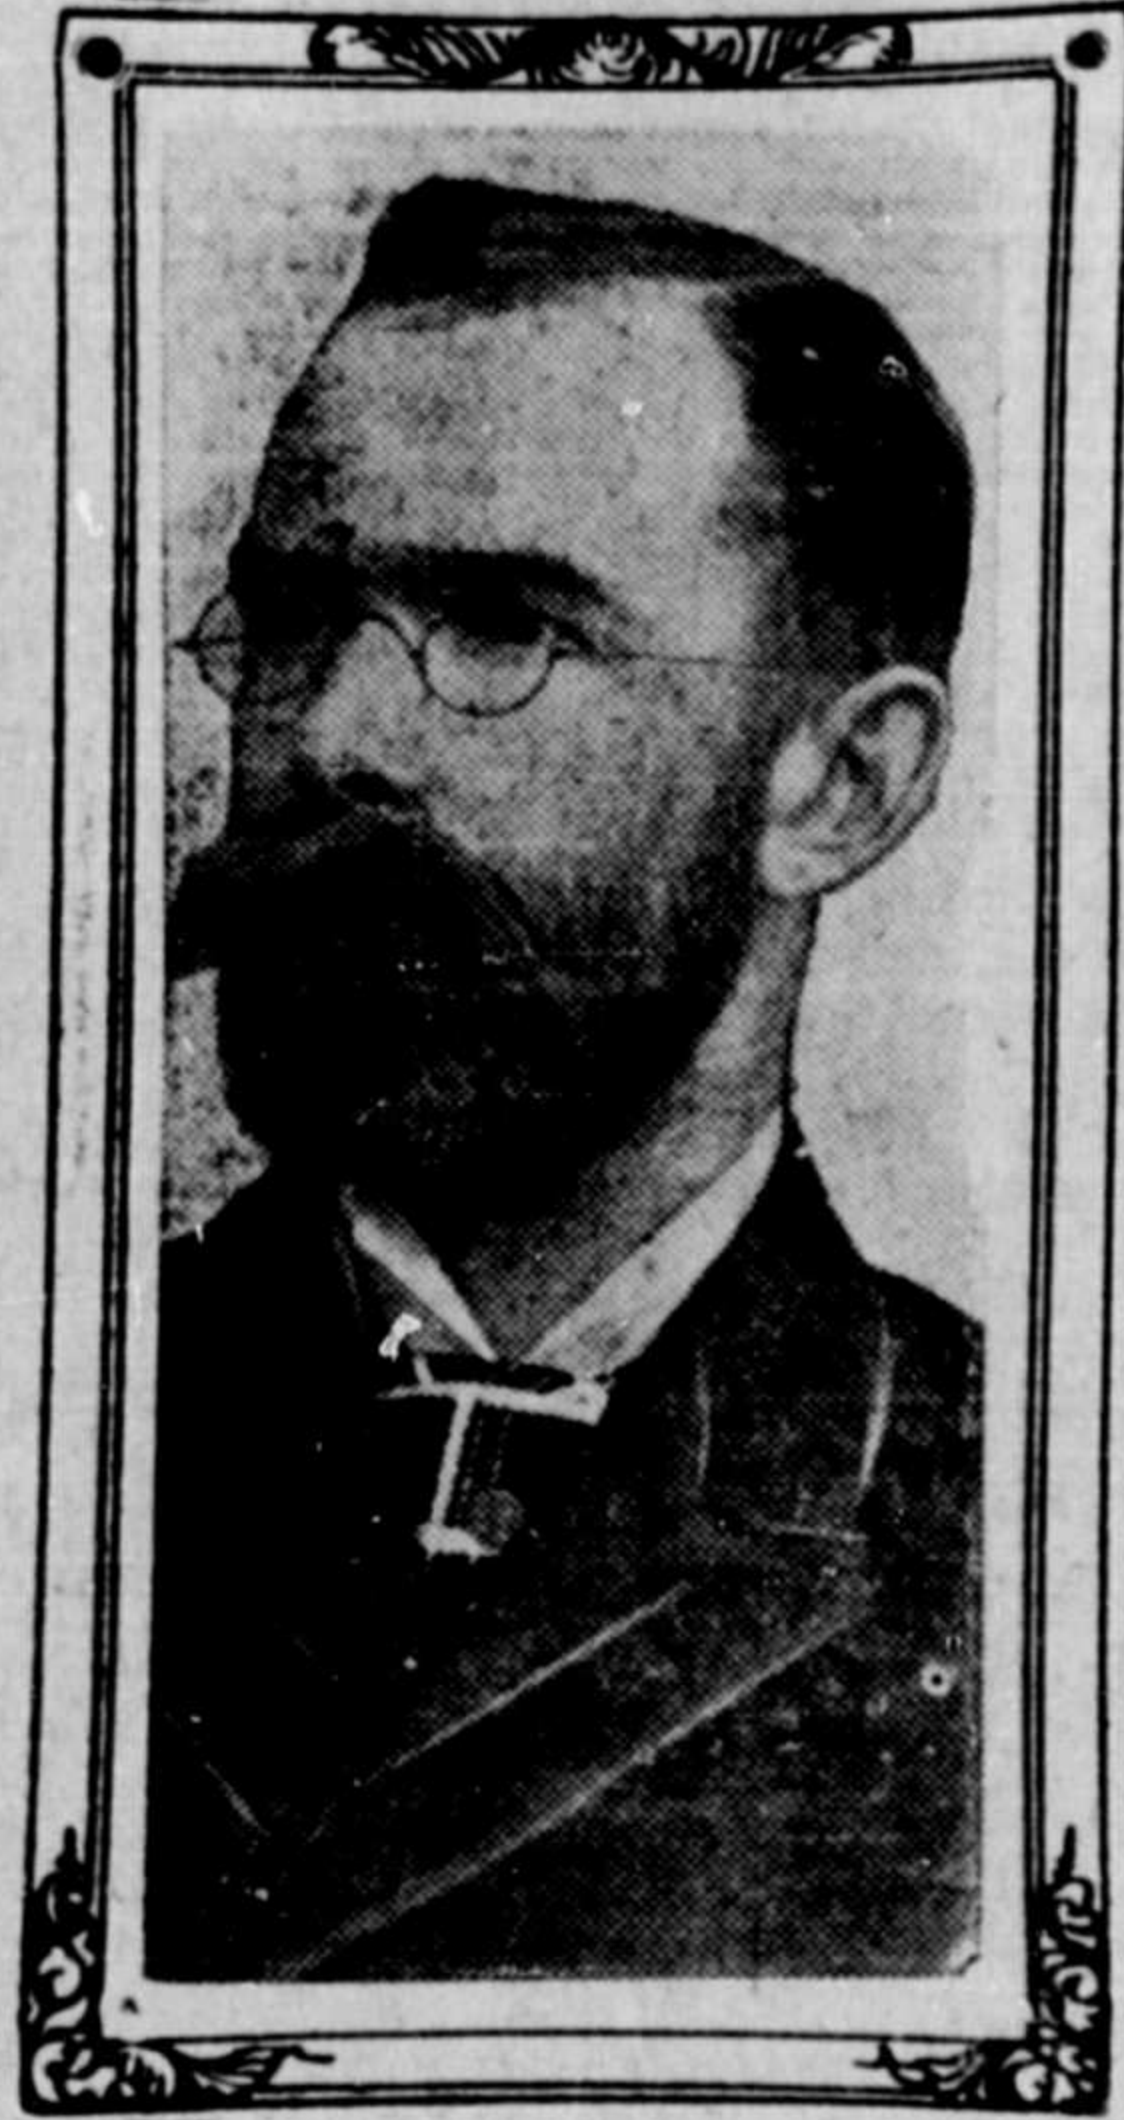

Nelson, Aug. 26.—Continuing its policy of making all public improvements possible out of revenue, Nelson city will shortly commence the construction of its first cement street by paving the block leading from the steamer wharf.

Authorization was given by the city council last night to a committee headed by Mayor Keefe to make a definite proposition to the Nelson Gas & Coke Company for the purchase of that corporation's plant here. The figure to which the council will go was not mentioned publicly. A special meeting of the council will be called to hear the result of the conference and it is considered probable that before the end of the week steps will have been taken which will insure the operation of the plant as a municipal owned utility.

The city already owns its electric light plant and will, it is believed, shortly take over the street railway system.

Labor Federation Will Use it at the Opening of Conventions

Trenton, N. J., Aug. 30.—Miss Julia Connell, representing the Porcelain Finishers' Union, caused a hot debate at the convention of the State Federation of Labor by presenting a resolution that future conventions be opened with prayer.

Opponents of the resolution argued in vain that religion should not be brought into the meetings.

EVELYN THAW AFRAID HARRY WILL ATTEMPT TO KILL HER

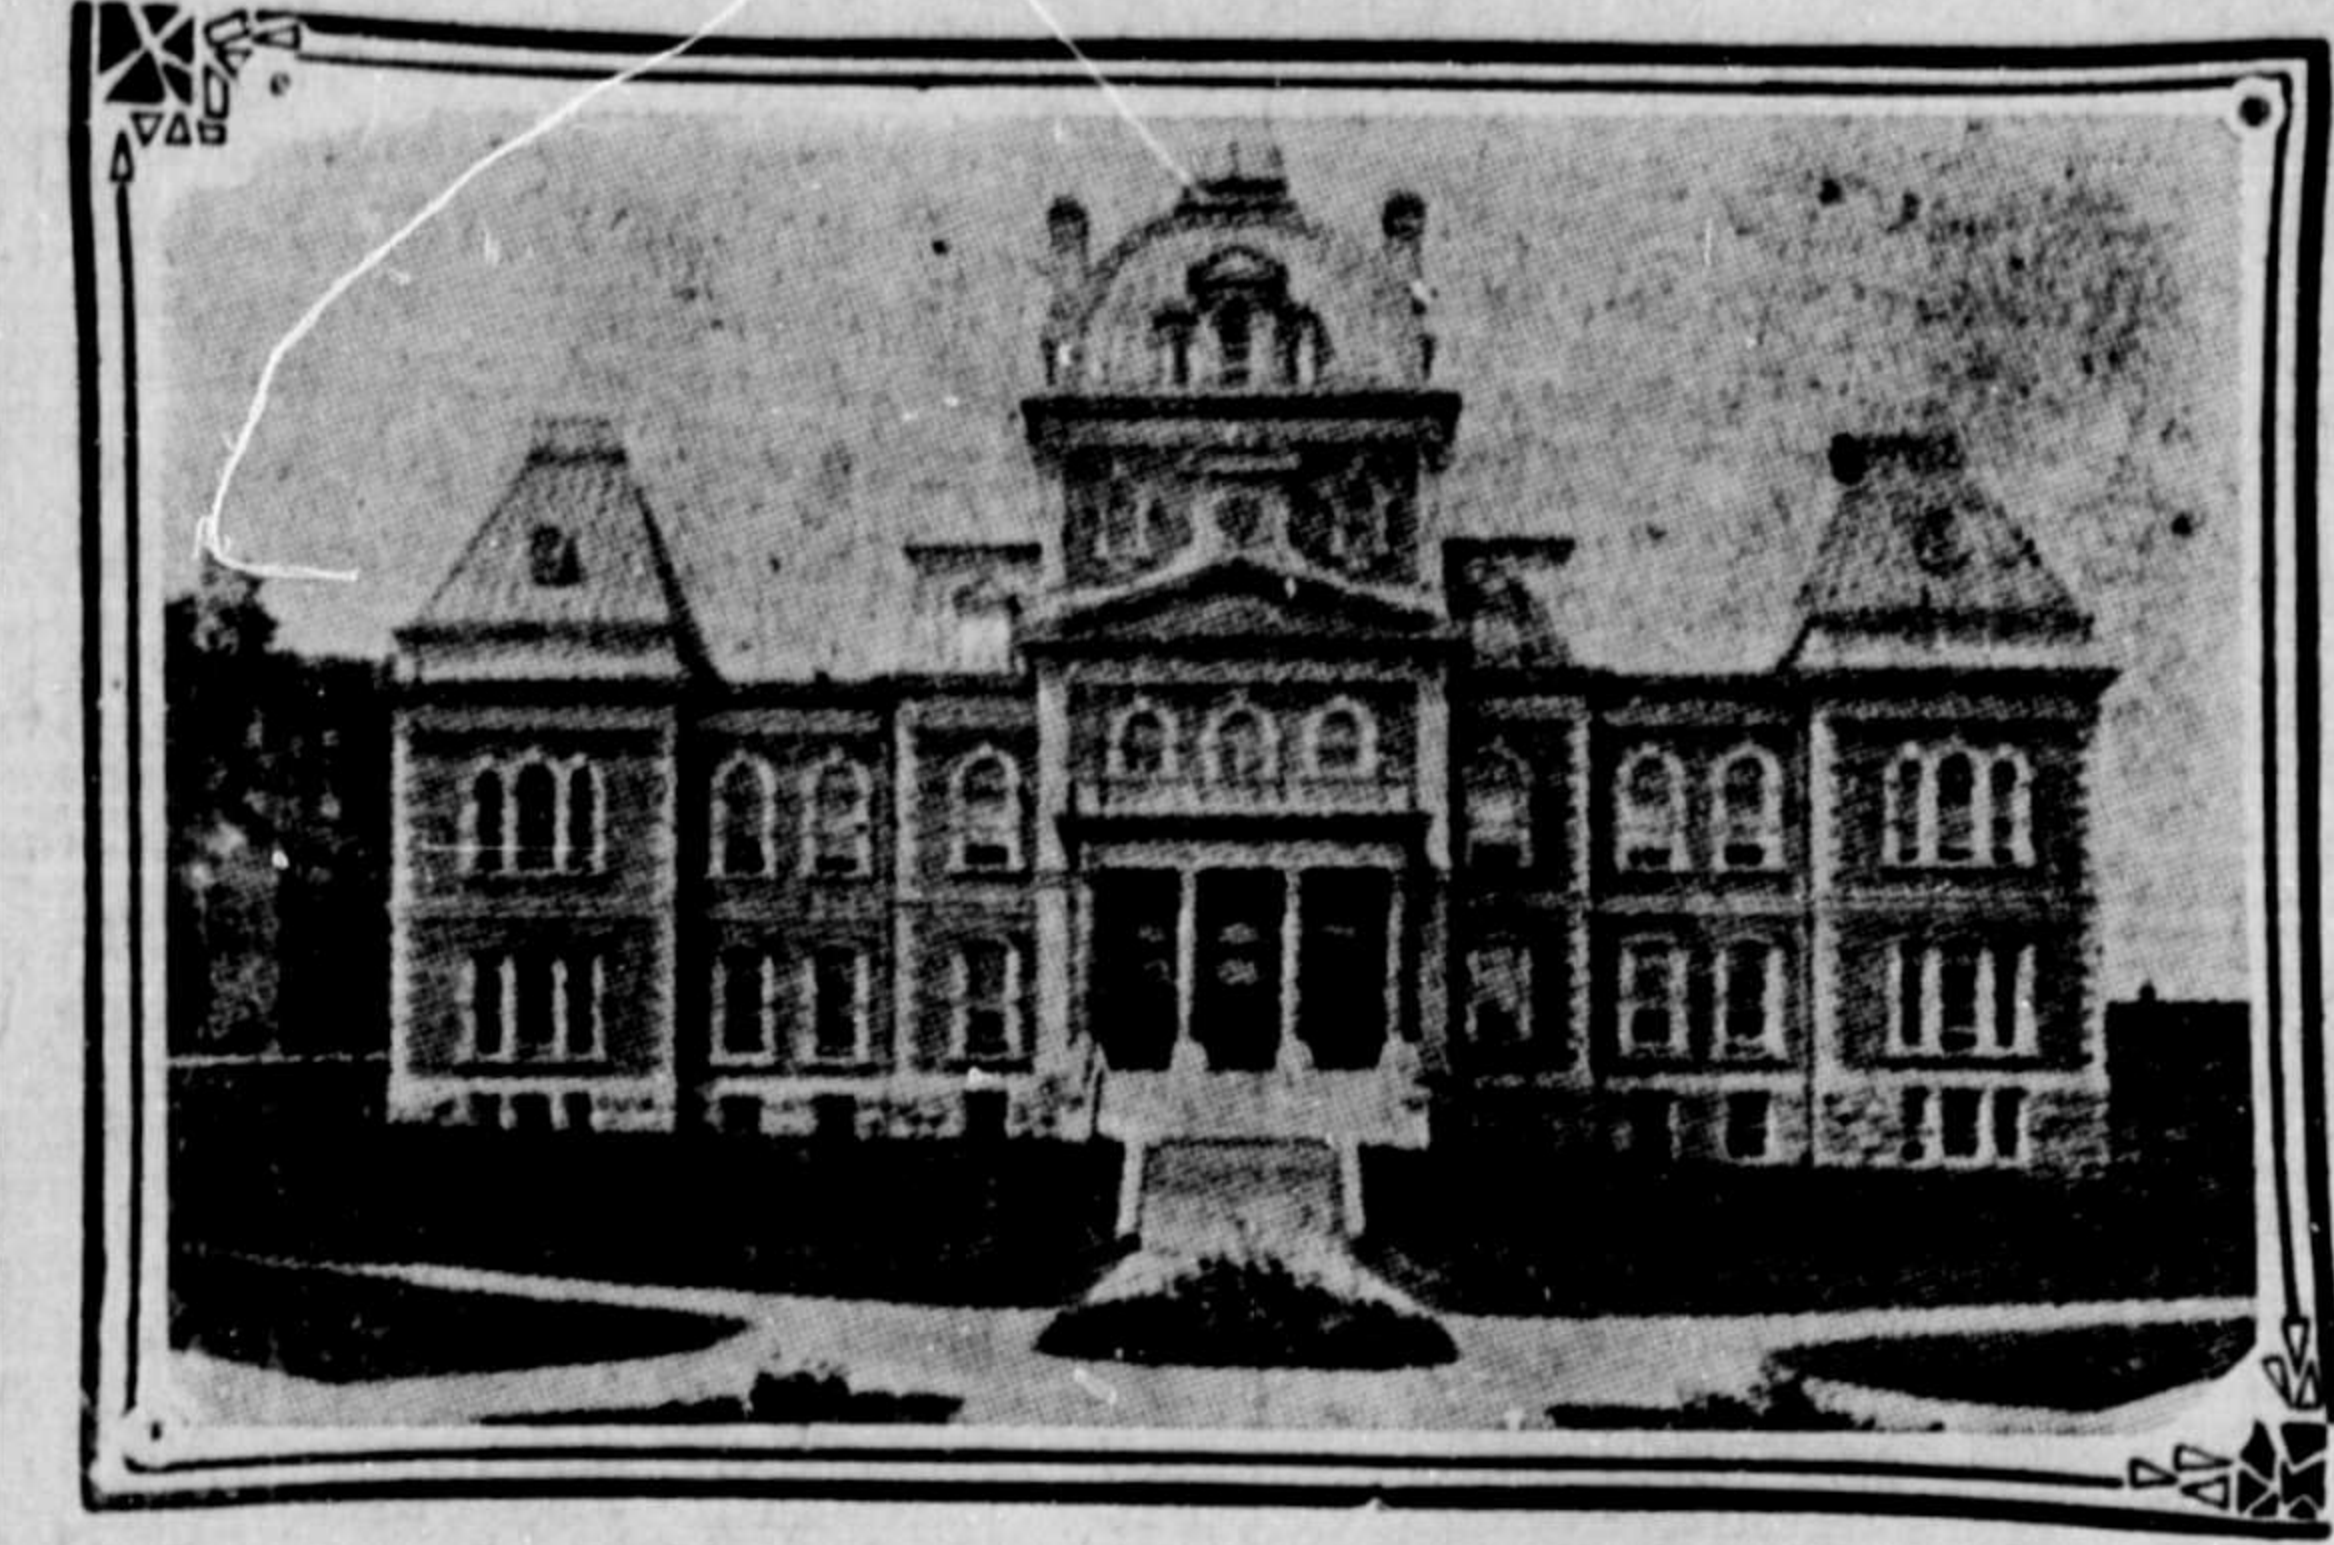

WILL STAY IN NEW YORK AS SHE BELIEVES HERSELF SAFER THERE THAN ANYWHERE ELSE—THAT HE LOVES HER IS ABSURE.

New York, Aug. 30.—"Harry Thaw love me? That is the worst yet," Mrs. Evelyn Nesbit Thaw said today as she was preparing to go, under police guard, to the roof garden matinee where she was to appear as a dancer. She had just heard Thaw's latest alleged lament that she had returned to the stage.

MOST RECENT PICTURE OF EVELYN THAW

Mrs. Thaw is now playing in a New York theatre and is supporting herself and little boy with her earnings.

WHERE HARRY THAW IS HELD

The courthouse and jail at Sherbrooke, Quebec, where Thaw is detained. After demanding a new tie, a shave and clean sheets he consented to see the news paper reporters.

"Do any of his actions tend to show that he loves me? It is absurd nonsense. If he loved me would he have left me here in New York among strangers to shift for myself, to starve if I could not find some means of making my own living?" "I am really frightened now. The news that comes from Sherbrooke is simply frightful. What shall I do if that man gets back to New York? The situation is laxes its grip on that crazy man."

THAW'S LETTER TO HIS MOTHER

It was originally intended to be a night letter, but was mailed the morning of his escape. The writing is Thaw's but the address was written in a crude hand.

getting more serious every minute for me. If he should go free I would be desperate. "Harry's controlling impulse is his egotism. It has been this which has always got him into trouble. It was his emotion that caused his arrest. When he learned that I had made a success on the stage it made him furious. He wanted to see me in the gutter and to know I could get only by his aid."

This contract, the show girl testified, was made some time in 1907 or 1908, after Thaw had killed Stanford White, and was now in the possession of her lawyer, John Reilly, of this city. Mr. Reilly also had cheques for \$15,000—one of them for \$5,000—bearing Mrs. Mary Thaw's signature, none of which had been honored, the witness added. These cheques, she said, were the first payments on the contract.

QUEENSTOWN NOTES.

Freddie Ives got his first "duck" on Saturday last in the harbor. He fell into the chuck while skylarking on the Westover.

Rev. H. H. Greene visited Mayer Lake district during the week. He was greatly impressed with the country as one of the best for farming and says that with the completion of the wagon road the settlement will increase more rapidly.

A sample of the workmanship of the Hazelton brothers, boat builders, Woden River, was greatly admired by local people last Saturday on the arrival of Rev. H. H. Green's 14 foot row boat. The firm are to be congratulated on turning out such splendid work.

Henry Holland, the well known Woden farmer, paid his first visit to Queenstown this week. He was so pleased with the place and its future that he invested in town-site property. Mr. Holland is erecting a one storey frame building for Magistrate Harrison at the east end of the townsite.

Mr. Gray of Toronto, who is interested in a large number of timber limits in the vicinity of Ian Lake and Sewall, spent the past two weeks looking over the property, being accompanied by Arthur Robertson and Jimmie Stacks. This was Mr. Gray's first visit to Graham Island and he was quite delighted with the climate, scenery and his holdings.

Jim West, who has been located at the south end of the island for the past seven years, made his first visit to this end of the island during the week. He left Skidegate last Monday week and travelled along the east coast to Masset via Tow Hill, thence up the inlet to Queenstown. Jim is loud in his praise agricultural country, and the of this part of the island as a chance are that he will come back and locate.

Captain F. Evans of Nadu is as much at home in the water as on his farm digging spuds. While loading freight on his dinghy from the Kathleen a few days ago he was over anxious to take it all on one trip, with the result that when he finished loading there was no room for himself in the boat. He thereupon lashed a rope around his body and took to the water, swimming ashore with the dinghy in tow. Frank Van and Alex. Johnston can vouch for this.—Queen Charlotte Islander.

Druggists in Convention. Toronto, Aug. 26.—The delegates to the annual convention of the Canadian Pharmaceutical Association, numbering nearly two hundred and representing almost every province in the Dominion, were formally welcomed to the city by Mayor Hocken this morning.

Gurney - Oxford Baking Worthy of the Art of a Chef

The average woman abhors having to spend all her time in the kitchen striving to accomplish some new dish in baking. But when she can have a range like the Gurney-Oxford, cooking becomes a pleasure and a fascination because of its consistent assured success.

The heat of the whole range is controlled by one lever, called the Economizer, with remarkable ease and effect.

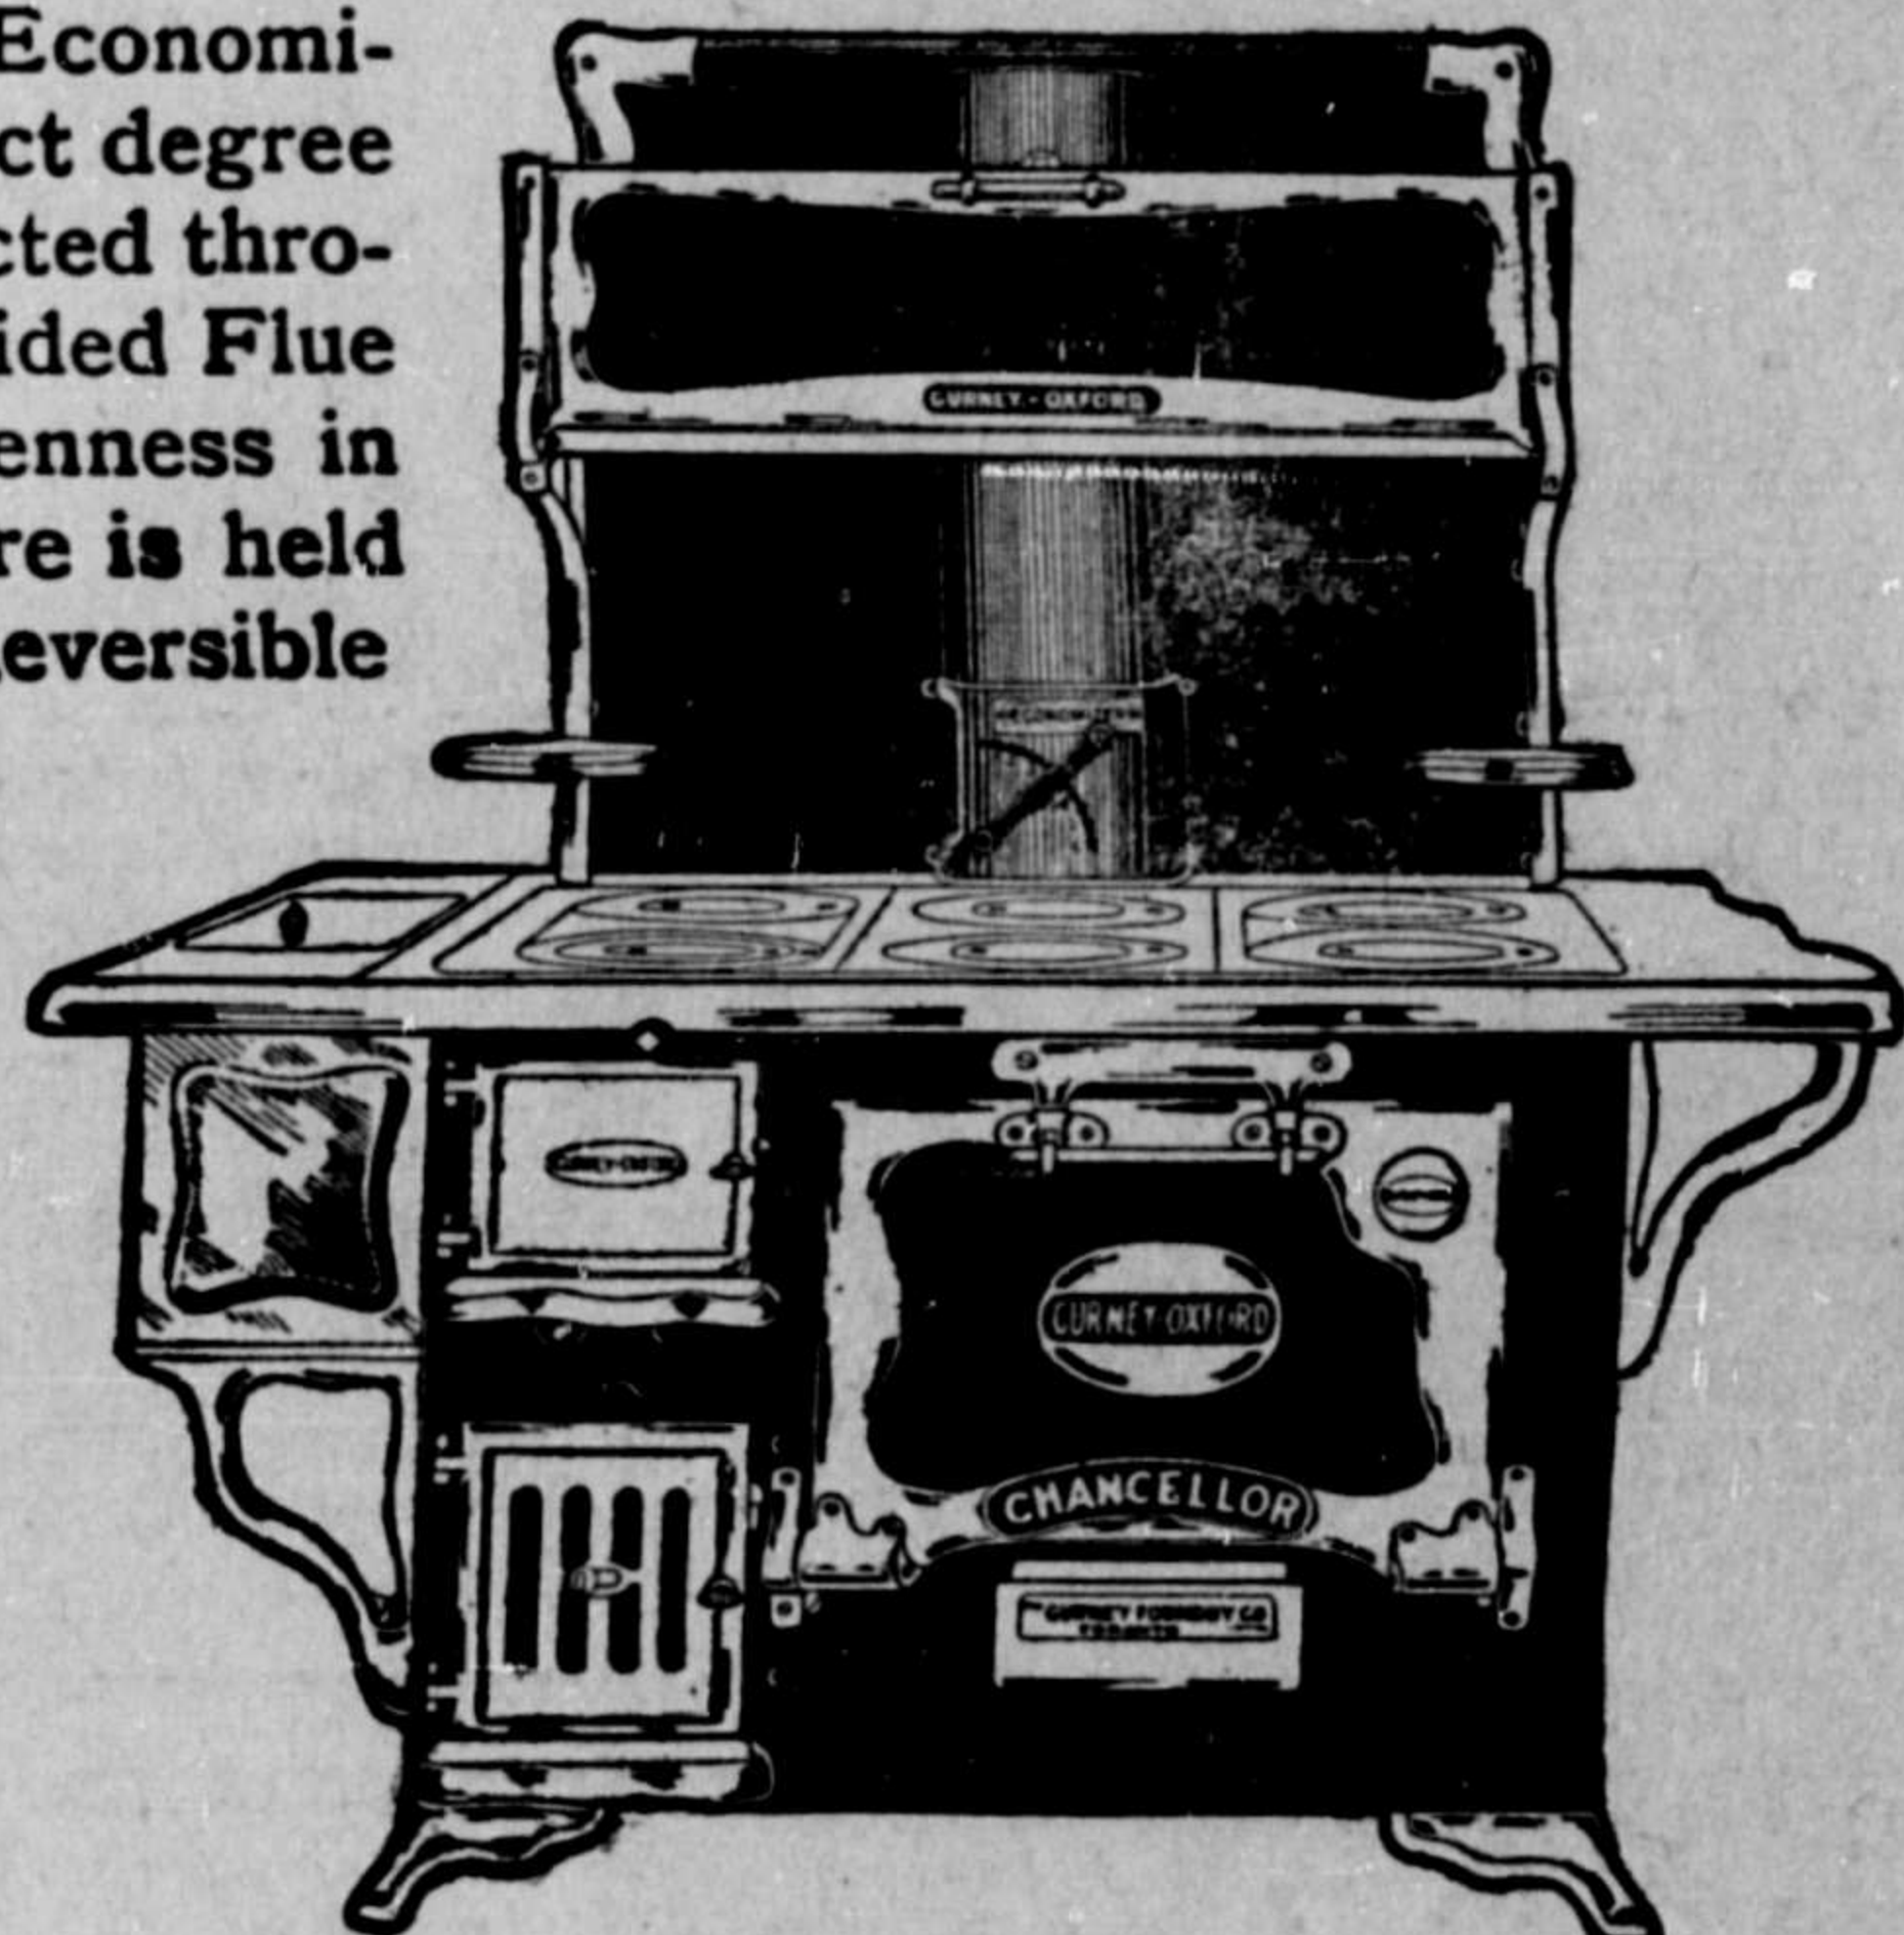

The oven is entirely surrounded by a perfectly even heat of any degree required for any kind of baking. Pans of biscuits, light rolls, or cakes, all cook evenly with a delicate, golden brown crust without having to be constantly changed around next the heat as in other ranges.

This perfect Gurney-Oxford oven encourages a woman to attempt delicious and unusual recipes of her own invention. Her reputation for being a "splendid cook" is at once established.

The Gurney-Oxford Economizer regulates the exact degree of heat which is directed through the oven by a Divided Flue Strip with perfect evenness in every corner. The fire is held low on a Special Reversible Grate which burns every coal to a white ash. There is a lift-up Broiler Top to expose the full fire, and a smooth polished surface that requires no black lead. The Warming Closet is big enough and strong enough to hold a whole dinner service.

This Gurney-Oxford is the range for women of to-day. CALL ON US—ASK FOR OUR NEW CATALOGUE, "STOVES AND RANGES"

WATER SYSTEM IS NOW UNDER CONSTRUCTION

Port Edward Townsite Company is Spending \$25,000 on Its Water Supply System.

Construction work on a system of water supply at Port Edward is now in progress. About thirty-five men are working on the job and it is expected that the present system will be completed no later than the middle of November. The installation consists of a dam on Wolf Creek with a main down Harrison street from Eleventh avenue to First avenue and laterals the full length of First avenue. Provision will be made for the extension of laterals along all the avenues crossing Harrison street between First and Eleventh avenues. This installation will be part of the permanent system of water supply and the present work will cost over \$25,000, and the townsite company is bearing the full expense of it. The Dominion Wood Pipe Company of New Westminster is supplying the pipe and will lay it itself. Mr. J. G. Watts is the general contractor and will build the dam and the trenches. Messrs. Ritchie, Agnew & Company are the engineers in charge. When this system is installed Port Edward will be the only town on or near the coast of B. C. between Vancouver and Prince Rupert that will have a system of water supply.

INDIAN COMMISSION MAY REACH CITY TOMORROW

Hon. J. G. Bergeron, Secretary and Solicitor for Commission, is in the City Today.

Among the round trip passengers on the steamer Prince George this week are Hon. and Mrs. J. G. Bergeron of Montreal, who have been spending the last four months in Victoria. Hon. Mr. Bergeron is secretary and solicitor for the Indian commission, at the present time making an investigation into Indian affairs on the British Columbia coast. Interviewed by a News representative this morning, Mr. Bergeron said he had very little information as to the details of the work that has so far been done by the commission. According to their itinerary, the commission was to have spent the first four days of last week at Bella Coola. He understood, however, that only one day had been required there and in consequence the commission had gained time on their schedule. He was of the opinion that the commission is today sitting at Kitkatla. According to the itinerary, the commission should arrive in Prince Rupert on Sunday next, leaving for Masset the same day. Hon. Mr. Bergeron said he should not be surprised if the commission, which has a special boat chartered for its trip, should arrive here tomorrow. Although this is not Mr. Bergeron's first trip to the coast, it is his first visit to Prince Rupert. From the numerous questions which he asked concerning the development of the city and the mineral and agricultural resources of the district he is taking a deep interest in this part of the province and is gathering as much information as possible concerning it.

Hon. and Mrs. Bergeron will leave tomorrow morning for Stewart, returning south Friday morning.

EDITOR IS KILLED

Because He Refused to Eat His Own Words

Sulphur, Okla., Aug. 30.—J. Y. Schenk, editor of the Sulphur Democrat, was shot and killed here today, and John Lindsay, former treasurer of Murray county, charged with the killing, was hurried from the Sulphur jail tonight to the more secure prison at the nearby town of Norman, when mob violence was threatened. Lindsay, it is alleged, opened fire on Schenk with a shotgun when the editor refused to "eat" a copy of his paper which contained adverse editorial comment concerning Lindsay.

PRETTY WIDE AREA FOR ONE CONSTABLE

From Hazelton Along the Bulkley River to Stella Lake.

Smithers, B. C., Sept. 1.—Those who walk city streets and often complain that policemen are few and far between should travel into Northern British Columbia, where they would find in this district eight constables doing duty over a stretch of country about three hundred miles long.

Chief Constable Gammon, with headquarters at Hazelton, is responsible for law and order as far east as Stella Lake along the Grand Trunk Pacific and westward to the Copper River, yet despite the fact that the district has been full of railroad laborers gathered from everywhere, a shifting, migratory population, offenses rarely occur.
