WHY NOT ESTABLISH A MINERAL BUREAU.

That the northern interior of

British Columbia, the district

which in the near future is to become tributary to Prince Rupert, abounds in minerals of every description has been demonstrated beyond all possible doubt, but those who are most interested in the prosperity of this city do not seem | GOES FARTHER THAN to be taking advantage of the CIVIC REPRESENTATIVES opportunities that are open to EVER DARED them for fostering the development of these valuable mines. Prince Rupert as the terminus of the greatest transcontinental line in Americ is attracting visitors from every part of the world, among whom are many capitalists ready and willing to invest their money in promising mining enterprises. When such men come to Prince Rupert they can obtain no reliable information concerning the mineral wealth of the interior. In this matter the board of trade might render the city valuable service by establishing a mineral bureau where samples of the ores from the numerous properties could be placed on exhibition and the reports of the mining engineers who have visited

them could be kept on file.

Your

Home

How difficult it is, sometimes, to carry out your good intention of writing a letter every week to your relatives or friends back home or in the particular locality in which you lived before you settled in Northern British Columbia. A good way out of the difficulty is to order the "Weekly News" to be sent to them. It gives all the news of Prince Rupert a ndistrict.

You will accomplish a twofold purpose by doing so. Not only will you be sending a weekly letter home, but you will be contributing in no small means to the advertising abroad of Prince Rupert and Northern B. C. Just think how a newspaper from Prince Rupert will be passed on by your faraway friend to some other person who will be interested in learning something of the wonderful opportunities of this pioneer land. Is it not your duty to do that much for your city? It would be money well invested.

The "Weekly News" posted to any place in Canada or the United Kingdom is only \$2.00 per year; to points in the United States, \$2.50 per year.
