## NEW YORK'S LATEST MURDER MYSTERY IS SOLVED

### FOUR INDIANS MURDERED AT KIMSQUIT—HUNDREDS OF AMERICANS IN HANDS OF REBELS

#### ASSISTANT RECTOR ARRESTED FOR MURDER OF YOUNG GIRL

NEW YORK MURDER MYSTERY AT LENGTH SOLVED BY THE ARREST AND CONFESSION OF CATHOLIC PRIEST WHO CUT BODY INTO PIECES.

(Special to The Daily News) New York, Sept. 15.—One of the greatest murder mysteries of this city was solved yesterday, the murderer arrested and his confession placed on record. For weeks the newspapers have had articles in regard to the discovery of parts of the body of a young woman floating in the Hudson River. But the head was not discovered and the parts of the body secured gave no clue to identification.

While the search was going on hundreds of letters were received by the police department telling of missing girls of about the assumed age of the remains found, and hundreds of clues have been carefully run down without effect.

The last gruesome remnant picked up was contained in a flow slip that bore an embroidered monogram, and it was this clue that put the detectives on the track of the murderer and resulted in his arrest.

From the manner in which the body had been severed it was generally believed that it was the work of a skilled surgeon, and this led to many practitioners and medical students being placed under police surveillance. But the murderer is of another profession, and his arrest was as

startling and caused as great a degree of public excitement as any other of the sensational episodes connected with the mystery. The clues secured led direct to the Rev. Hans Schmidt, assistant rector of St. Joseph's Catholic Church. A few minutes after his arrest he broke down and confessed, telling the horrible story in detail. The name of the girl is Anne Aumuller. He admits that he was in love with her and says that because of his vows they could never marry and it was for this reason that he committed the crime. The police believe it was because the girl was about to become a mother, but upon this point the priest refuses to admit any knowledge.

His confession of the actual murder, however, is complete. He states that he killed the girl with a butcher knife while she slept and then left the apartment house. Afterward he returned and cut the body into pieces and disposed of them one by one. He says that after the deed was done he made six visits to the girl's room, each time bearing away parts of his unfortunate victim. Later he admitted there had been a marriage ceremony, in which he acted both as priest and bridegroom. There were no witnesses to the ceremony, he said.

#### HUNDREDS OF AMERICANS IN MEXICO TAKEN BY THE REBELS

MINISTER OF WAR BLAMES IT ALL ON NEUTRALITY POLICY OF UNITED STATES, WHICH PREVENTS DEALING FIRMLY WITH REBELS.

(Special to The Daily News) El Paso, Texas, Sept. 15.—Three hundred rebels were killed by federalists in a recent battle at Saltillo, according to official federal advices received here.

Mexico City, Sept. 15.—Hundreds of Americans, including women and children, refugees from Torreon, are reported to have fallen into the hands of rebels. The federal authorities

at Saltillo decline to take the responsibility of sending a force to their rescue, fearing the rebels might then commit atrocities.

Minister Ganboa expresses great regret at the occurrence, but says it is no more than might be expected as the result of the neutrality policy of the United States, which hampers the administration and prevents its dealing with a firm hand with the rebel bandits.

#### FOUR INDIANS MURDERED AND TWO ARRESTS ARE MADE

CHIEF OWEN LEFT ON PRINCESS MARY LAST NIGHT FOR BELLA COOLA TO ATTEND PRELIMINARY HEARING—MEAGRE DETAILS RECEIVED

Chief of Provincial Police Walker Owen received a wire yesterday advising him that four Indians had been murdered at Kimsquit, near Bella Coola, and that two others had been arrested and charged with being participants in the outrage. No details whatever were given, as to whether the men arrested are whites or Indians. The telegram stated that the preliminary hearing could proceed immediately on his arrival.

Chief Owen left on the Princess Mary last night for Nanaimo, where it will be necessary to engage a launch to take him to Bella Coola.

middle of the inlet, the men proceeded to imbibe freely of whisky supposedly supplied by a Chinaman. A heated altercation commenced, resulting in the death of Charles Wilson and his wife, and Watchy Guss. George Paul was shot above the hip and was taken to the cannery by his wife, who was with him in the boat.

A gasoline launch was dispatched to Bella Coola, conveying the wounded man, Paul, who died soon after his arrival.

It is not definitely known who fired the fatal shots, but for years past serious trouble has been brewing between two factions of the Kimsquit Indians.

Provincial Constable Broughton, Special Constable Wheeler, Justice of the Peace McFarlane, Dr. Cavanagh and Indian Agent Fougner left early yesterday morning for Kimsquit, where an inquest will be held.

W. D. Vance left by the Princess Mary on Saturday to attend the sale of Fort George lots at Vancouver.

#### THE CHISANA OF THE MORICE RIVER VALLEY

Kid Price Swaggering Around with an Ounce He Panned from the Rimrock

There have been rumors of a gold strike coming in from over the Morice River divide for several weeks as the result of prospecting trips made by Andy Goodwill, George Ecksley, Ed. Pearson, and "Kid" Price, and when Price returned Tuesday noon with nearly an ounce of coarse gold which he said he had panned out from off the rimrock along the creek bed considerable excitement was created among the people of the valley.

Immediately after the news was spread the towns of Telkwa and Aldermere were thrown into a hubbub of excitement and preparation for leaving for the prospective gold field, and Wednesday afternoon nearly a hundred men were on the trail and most of those who were unable to go sent proxies. The office of R. L. Gale, deputy mining recorder, was a busy place all day Wednesday and Thursday, where free miners' certificates and powers of attorney were being made out for those who had the gold fever, and in and around the town the talk was all of gold.—Telkwa Tribune.

Special Moving Picture Representative Here to Take Principal Features of Exhibition.

"Between Gaumont's Weekly and the Animad Weekly fully six hundred films are sent out on moving picture circuits covering the civilized world," said G. A. Allen, the operating representative of the two concerns, who is now in the city arranging to take a series of moving pictures covering the chief features of the forthcoming Prince Rupert exhibition, which opens a week from next Wednesday.

Arrangements will be made by the management to have the visiting Indian bands massed at the Auditorium grounds, on Sixth avenue, where the exhibition will be held, on the initial day, when Hon. Price Ellison will formally declare the big show open to the public. Pictures of the athletic contests, horse races and aquatic sports will also be taken.

The A. B. C. Garage, agents for the Ford automobile, has ordered two new touring cars for exhibit at the fair.

The exhibition office was crowded this morning with anxious exhibitors making entries.

The Port Essington band attended and played the funeral march as the body was carried from the station. The interment took place on Thursday morning in the presence of over a hundred Indians and white men who were interested spectators. The service was conducted by Rev. W. J. H. Petter and Rev. A. J. #### INTERESTING FACTS ABOUT THE POLLARDS

Have Had Many Interesting Experiences in Varied Lands—Have Views Worth Fortune.

It is doubtful whether it is possible to find a group of young folks in the world who have travelled so far and visited so many countries as the members of the Pollard Australian Opera Company. Little Leslie Donaghey, who has made such a remarkable hit in the part of Mr. Crank, the eccentric magistrate in "Sergeant Brue," has perhaps done the most travelling. Beginning at the age of 6 (he is now 19) he has visited every country in the world with perhaps the exception of Russia. His collection of rare views got together during his travels are worth a small fortune. He and Willie Pollard (stage director) were two of the last people to cross the Modder River bridge before it was blown up during the Boer war, and many are the exciting experiences which these and other members of the company had in South Africa at that time.

Teddy McNamara, the leading comedian, is a very fine swimmer, and at one time held the under 16 championship of Australia.

Young Charlie Bennett, who plays the part of the sergeant in "Sergeant Brue," is the winner of no less than eighty prizes for humorous, dramatic and character sketches, won in competitions in Australia.

Some of the Canadian papers have pronounced Caspard Van, a young fellow only 20 years of age, to be the finest exponent of Dutch dialect characters in America.

It is no wonder that one of the Toronto papers once said: "The Pollard boys are as interesting off the stage as they are on."

#### TWO LOCAL PEOPLE WIN IN SWEEPSTAKES

Alex. McDonald, of the Fire Department, is Holder of One of the Lucky Tickets.

Alex. McDonald, a member of the Prince Rupert fire department, is one of the happiest men in the city today, being one of two local lucky ticket holders in the latest Salmon sweepstakes. His ticket, number 52355, drew Sailor Collar, but it is not known yet whether this is a starter or non-starter, and the amount of the prize is therefore uncertain. Ticket No. 29459, sold here, drew Kilkrock, but the purchaser of the ticket has not yet made application and the name is unknown.

F. Butler, a young Irishman who recently came to Victoria, is the winner of the big prize, \$28,350.

#### Return to University

George Williscroft, son of the Provincial Government road superintendent at Hazelton, and J. D. Moore, a brother of Mrs. S. D. Macdonald of this city, went south this morning to resume their studies at McGill University after spending the summer at Hazelton. Mrs. Williscroft accompanies her son as far as Vancouver and will return in about two weeks.

#### Last Spike in August.

William H. Wark, of Wark & Son, returned to the city last night from an extended trip into the interior as far as Fort George. He reports great activity at that place and all along the line in the way of railway construction. Speaking to a News reporter this morning, he said he did not think it would be possible to have steel joined by April or May, but he had no doubt that the last spike would be driven in August.

T. J. Vaughan-Rhys, mining engineer of Stewart, is renewing acquaintances in the city for a few days.

#### A STREET CORNER EXPERT ON MUNICIPAL AFFAIRS

EX-ALD. MORRISSEY'S STATEMENTS REGARDING MUNICIPAL EXPENDITURE WERE MISLEADING AND NOT IN ACCORDANCE WITH FACTS.

To the Editor of The Daily News. Dear Sir: With Mayor Robinson's remarks in his address before the Progress Club of Vancouver a short time ago, that the most irresponsible and troublesome man in public affairs is the man who seeks his information and forms his opinions on the street corners without taking advantage of his right to go to the city hall and get the facts from the records still fresh in my mind, I was very surprised in the daily press of the 13th inst. to find that my friend ex-Alderman Morrissey has also joined this class of citizen, and I take the liberty to make a few remarks in this connection, not so much in defence of the present council's actions as in the interests of the public generally. I must say that I am at a loss to understand for what purpose my friend, ex-Alderman Morrissey is making this chain of absolutely misleading statements to the public.

In making the above remarks Mayor Robinson spoke from a six years' experience as mayor of the city of Kamloops, and any unprejudiced man, who has devoted some time to the interests of the public, will without hesitation endorse his statement. From my own experience I can say that I

have in our own city found more municipal experts on the street corners than in any other place. The class of people who take their inspirations from gossips and street rumors without even taking the trouble to look into the actual facts is a danger to any community. In most cases we will find that this class consists of men with no experience in public life and not acquainted with the laws and rules governing public administration. In this case my friend, ex-Alderman Morrissey has held public office in Prince Rupert for two years and should reasonably be expected to have some knowledge as to public affairs, so there should be no excuse for him making misleading statements. Personally, I fail to find very much of common sense in Mr. Morrissey's publications, and in my humble opinion they are merely misleading statements made by a man who has no responsibility in the matter.

I do not think there is more than one figure quoted within reasonable comparison with the actual figures. The cost of the expert in laying the water mains (this must refer to the crossing of the passage) was about \$1,500.

#### ALL REDMOND FIGHTS FOR IS SEPARATE IRISH NATIONALITY

DECLARES SIR EDWARD CARSON—ULSTER WILL NEVER ABANDON PRINCIPLE OF BEING GOVERNED BY IMPERIAL PARLIAMENT WITH RESPONSIBLE EXECUTIVE.

(Special to The Daily News) Durham, Eng., Sept. 15.—In a great speech here on Saturday night Sir Edward Carson declared that Ulster would never abandon the principle for which they fought—that of being governed by the imperial parliament with an executive responsible to that parliament. With Redmond it was not a question of good government for Ireland, but of a separate nationality. It was this point that should be kept in the

foreground, and Lord Loreburn's proposals should set men thinking. They were only just beginning to realize the gravity of the situation.

He concluded by insisting that he would be guilty of a false principle if he gave the slightest encouragement to the idea that any loyal Ulster man was prepared to forfeit in the slightest degree the protection of the imperial parliament and that of the executive which governed them.

DAILY EDITION

Saturday, Sept. 13, 1913.

THAW EPISODE NOT
FLATTERING

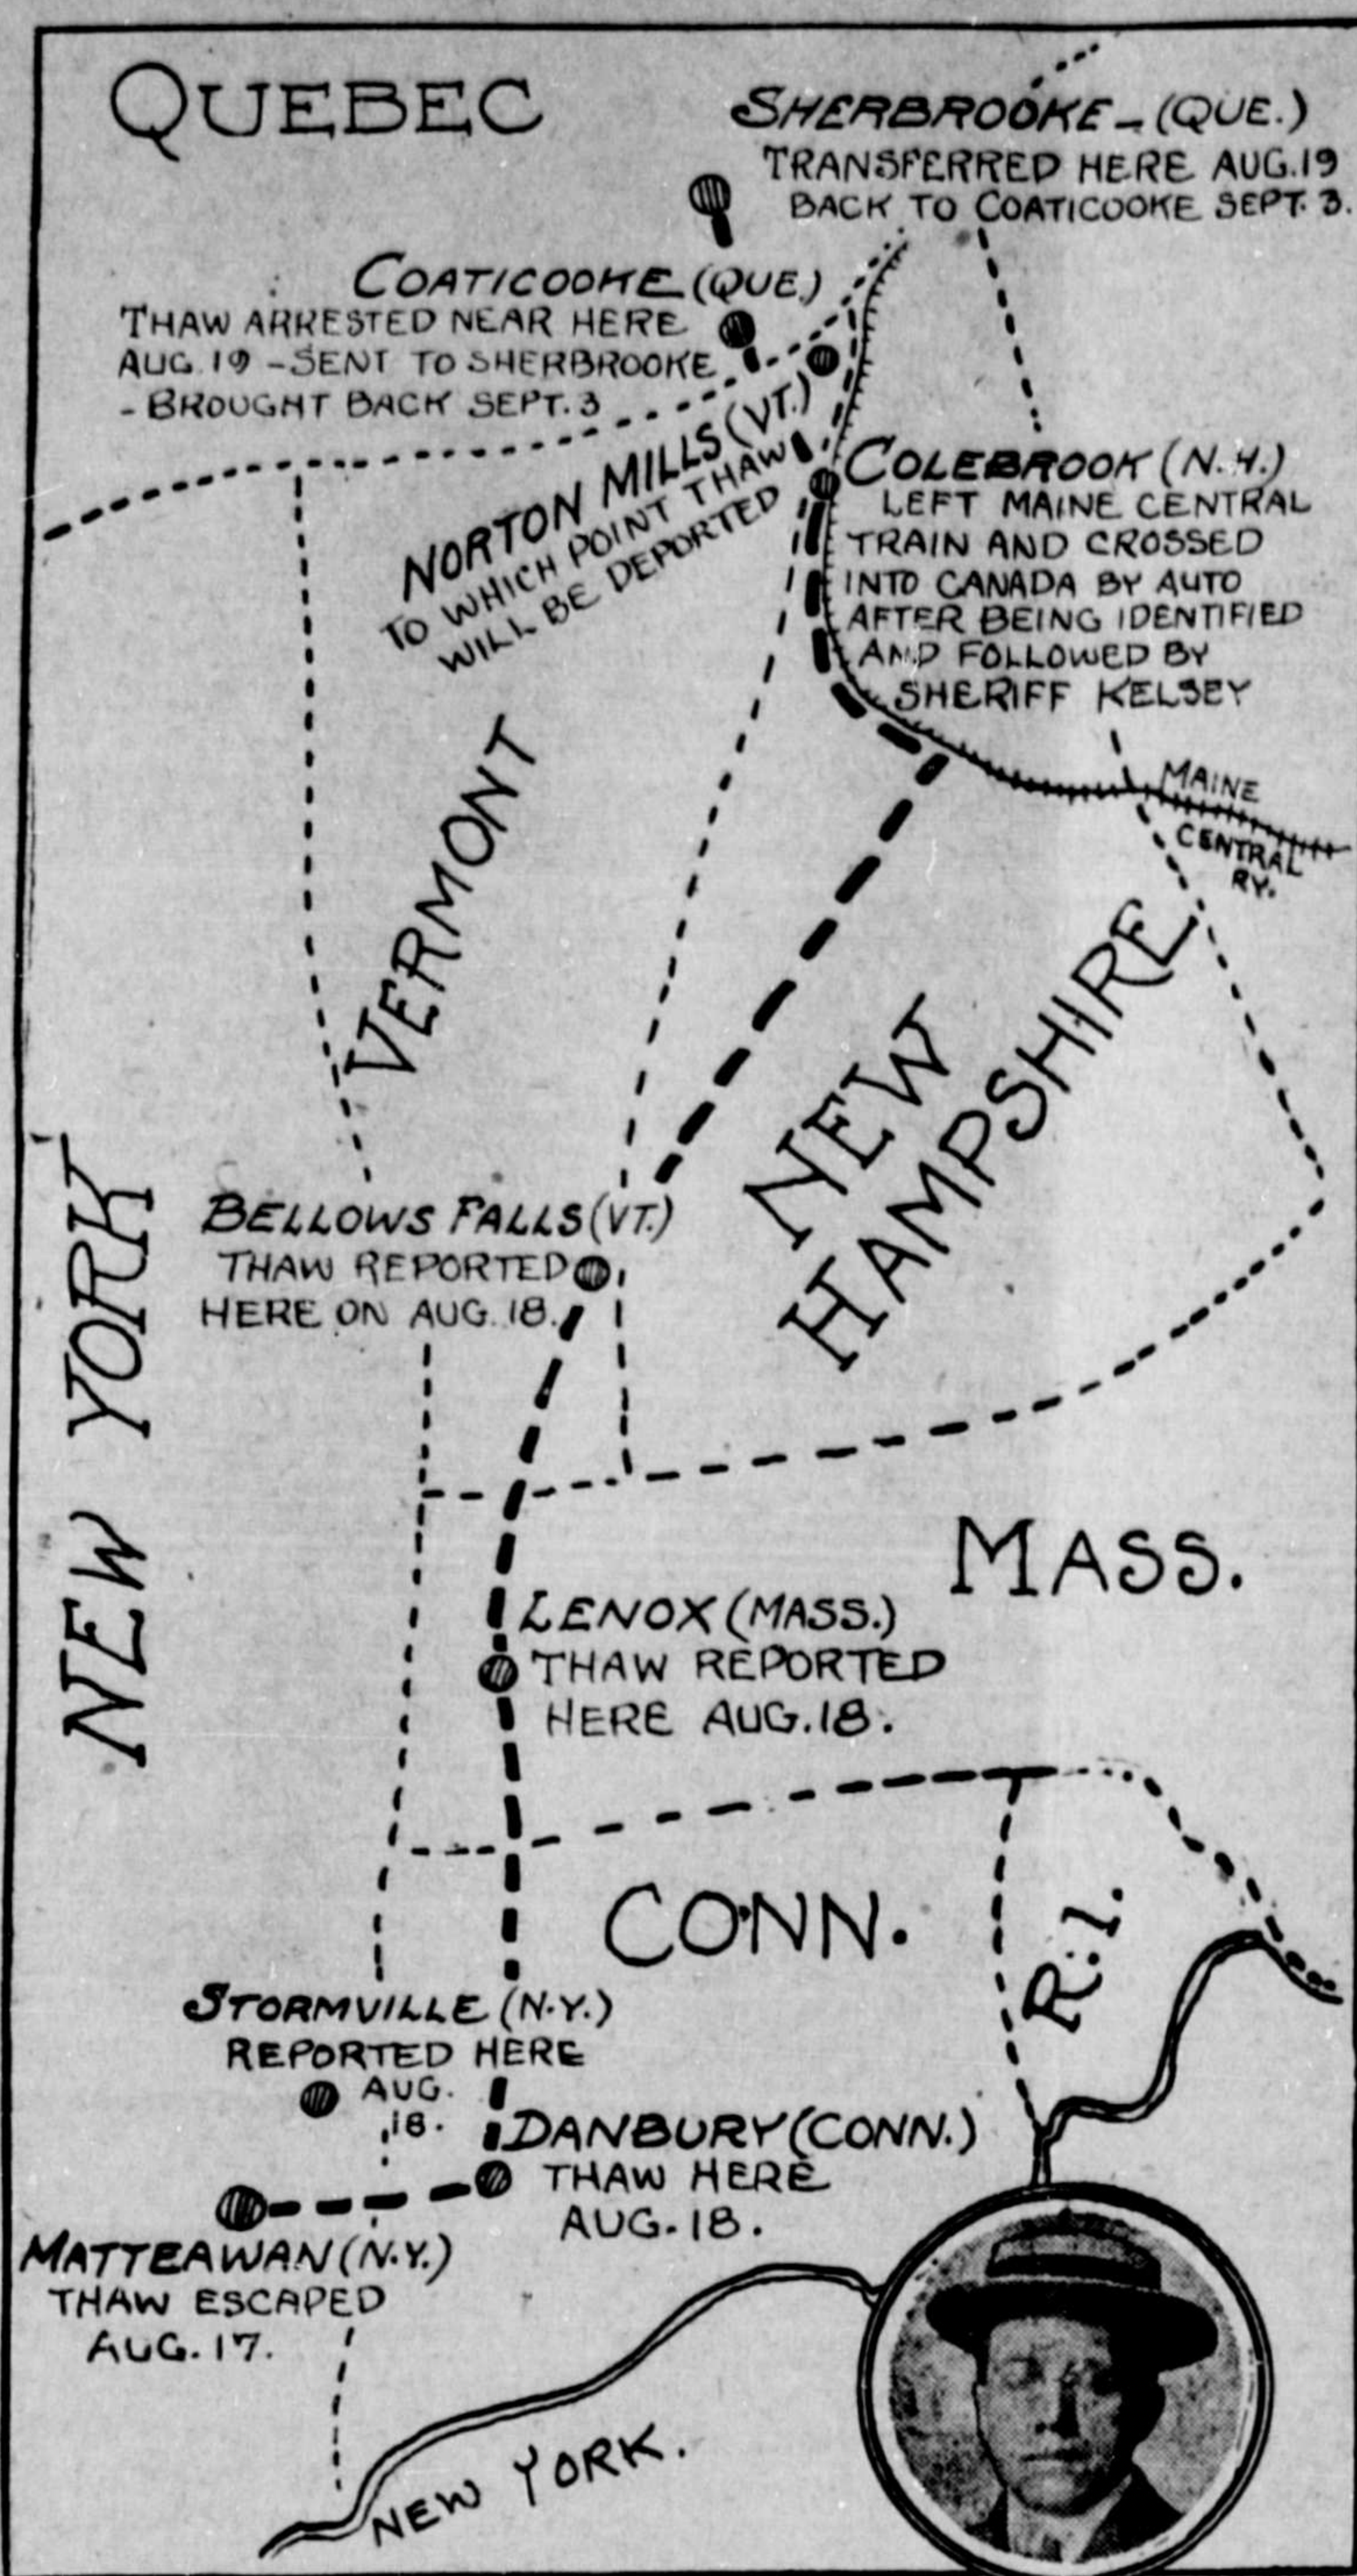

So far as Canada is concern-
ed the Thaw incident may be
said to be closed, and it is not
likely that the fugitive will ag-
ain seek sanctuary on this side
of the line, and the talk of his
lawyers as to what they will do
to the Canadian immigration
officials sounds like piffle. The
Thaw incident is ended but it
cannot be said to have added
to anyone respect for the ad-
ministration of justice in the
Dominion. It cannot even be
compared with that of the United
States.

The rushing of Thaw out of
the immigration pen by im-
migration officers at Coaticook
and the carrying of him across
the boundary line, without fur-
ther explanation than that they
were acting under the orders
of the Minister of Justice, was
a move by the immigration of-
ficials that was scarcely regu-
lar and not spectacular. It sim-
ply meant that a number of
big, strong immigration offi-
cers bore down upon a miser-
able fellow mortal of insignif-
icant physique and rushed him
back to the soil from
which he had come. The man-
ner of his going compares but
ill with the manner of his com-
ing. He, at least, made a dash
for liberty; the immigration
authorities merely ran away
with a knotty problem.

The Acting Minister of the
Interior Department advances

with an explanation of the de-
portation of Thaw. It appears
that he had rejected Thaw's ap-
peal from the decision of the
immigration board of inquiry,
upheld the findings of the
board, and ordered the deporta-
tion of Thaw forthwith. The
writ of habeas corpus, or writ
of prohibition issued at Mon-
treal, he is further reported to
have stated, did not enjoin the
immigration authorities from
taking this step.

The gravity of the Thaw epi-
sode lies in the effect which it
cannot fail to have on the
course followed in similar cas-
es in which the immigrant is
of quite a different character
from Harry Thaw. The merits
of the Thaw case were not
Canada's concern, but the case
of which Coaticook was the
scene cannot pass without ef-
fect on existing laws and popu-
lar liberties on this continent.
It is not unlikely that, in many
parts of the world, there will
be a strong revulsion of popu-
lar feeling in favor of Harry
Thaw. The points in his case
that are all in his favor will be
recalled and dwelt upon at
length. These points are nei-
ther few nor weak. In the an-
nals of Canadian legal pro-
cedure, the deportation of
Thaw will not be pointed to as
a triumph of Canadian justice;
in the eyes of onlookers it will
appear a weak evasion of the
difficulties with which it brist-
led.

CHRONOLOGY OF THAW'S MOVEMENTS AND DISASTROUS EXPERIENCE IN CANADIAN LAW COURTS

This diagram reviews at a glance Thaw's movements after escaping from Matteawan asylum and his subsequent brush with Canadian law courts.

LATEST MINING DEVELOPMENTS
IN PORTLAND CANAL DISTRICT

REPORT THAT ORE HAS BEEN STRUCK IN THE BIG BORE—
WORK WITH KEYSTONE DRILL PROCEEDING—DIS-
COVERY ON HIGHLAND CHIEF

There is an unconfirmed re-
port that ore has been encoun-
tered by the big tunnel being
driven to tap the Glacier creek
vein series at depth. Intense in-
terest has been manifested the
past week locally regarding the
striking of a vein and as the big
bore is past the 1,900 foot mark
there is every reason to believe
that there is truth in the report,
though it may be too early to ex-
pect the tunnel to be in the main
ore body. The outlook, however,
is most encouraging and the work
of the Portland Canal Tunnels,
Ltd., is having much to do with
stimulating a renewed interest in
the mines of that section.

Work is proceeding satisfac-
torily with the Keystone drill on
the property of the Bear River
Gravel Syndicate, of which a full
report was contained in the last
issue of The Miner. To date
eight holes have been driven for
testing purposes.

Montana Group.—H. C. Magee
has gone to Victoria, taking with
him some splendid samples of
silver ore. Ben Lawrence and
Charles Knipple, who have the
group under lease, have taken out
and sacked some four tons of
ore. This consignment will be
brought out by dog teams during

the winter. It is expected to aver-
age around \$300 a ton.
Highland Chief.—A good re-
port comes from this property to
the effect that a new discovery of
ore has been opened up.

Iron Chief.—Charley Miller has
been doing the assessment on
this group.—Portland Canal Min-

EXHIBITS FOR THE FAIR

Charles Harrison Bringing One of
Gruesome Character.

Mr. C. Harrison has a splendid
exhibit prepared for the Prince
Rupert fair. Among them are
specimens of whale bone, oil, two
baby whales and a large variety
of the marine life around Gra-
ham Island. The most gruesome
exhibits are a portion of the pilot
house of the steamer Valencia,
which went down off the west
coast several years ago, and a
bottle, in which is a piece of com-
mon newspaper on the margin of
which is written in a firm hand:
"Going down off west coast.—
F. E. Hazzard." The latter was
a young lady of Seattle and a
passenger on the Valencia.—

SUBSTITUTE FOUND
FOR COAL GASOLINE

British Committee of Investiga-
tion Discovers Product Good
for Motor Fuel.

London, Sept. 8.—The joint
committee appointed by the Royal
Automobile Club, the Automobile
Association and the Society of
Motor Manufacturers to find an
efficient substitute for gasoline
has discovered a process which,
it is said, will produce 40,000,000
gallons of motor spirit annually
without in any way depleting the
country's mineral resources. It
involves the utilization of a by-
product of coal, hitherto unsuit-
able for motor fuel.

Experts have made a full in-
vestigation, with excellent re-
sults, and a full sized commercial
plant is being built. The spirit
can be sold for not more than 28
cents a gallon, probably for less.

The secretary of the commit-
tee shows that the annual con-
sumption of motor spirit in
Great Britain is about 100,000,000
gallons, and that the present
price of gasoline is 42 cents a
gallon.

ARTHUR PELKEY FEELS STING OF HIS GUILTY CONSCIENCE

CONFESSES BURNS LURED HIM INTO FRAME-UP MATCH AND TELLS HOW TOMMY SWIPE THE DOUGH—THEY DON'T SPEAK NOW.

Portland, Ore., Sept. 12.—Stung by a guilty conscience and smarting under alleged mistreatment by Tommy Burns, Arthur Pelkey, world's heavyweight title claimant, yesterday cancelled Burns' managerial contract and simultaneously unbosomed a confession. In a signed statement delivered to Roseoe Fawcett, sporting editor of the Oregonian, Pelkey makes the charge that he and Burns faked their six round fight at Calgary last March 26th.

Pelkey alleges that Burns lured him west from Chatham, Ont., and then finding him broke forced him into a "fixed" match, and staged nightly rehearsals of the battle in a garret. The expose was drafted in a hotel in Portland several days ago, signed and sealed by Pelkey and delivered over for release September 9th.

"Our six round fight was called a draw," says Pelkey in his confession, referring to his match with Burns. "But we had it all 'framed' up. I could have whipped him easily, but he wanted to make a good showing before his friends there, and made me take two knockdowns to one for him."

"Burns made me sneak around by a back way to his house every night for a week prior to the fight, and we had everything down pat. He had to knock me down in the second and fifth rounds, and I was to put him down on the mat in the fourth."

"We got away with it all right, but the crookedness of it has been hurting me ever since. I don't want any more of Burns. I want to fight on the square. I have never done another crooked thing in my life and I never will again."

Pelkey says he got \$600 for the fight, and that Burns got \$2,700. The French-Canadian says his knockout of Andy Morris on May 1st in eight rounds was on the square, as was his battle with McCarty on May 24th.

"I have never seen such confidence as that which the people of Prince Rupert have in their city, and I was surprised at the great progress in town development which they have made. I travelled along the G. T. P. to Hazelton and beyond for a distance of 240 miles, to Barrett's ranch, in the Bulkley Valley, near Telkwa."

"I have never seen a better valley than the Bulkley Valley, and I was impressed with the great prospects which the north country has in store. While there, I was informed that the railway construction gangs expect to meet and link up the line by April of next year."

DEMAND THE FRANCHISE

Haida Indians Before the Indian Lands Commission.

The Indian lands commission, appointed to determine whether or not the Indians have an ample amount of land for their needs, arrived at the Masset village Monday and on Tuesday held a conference with the Haida councillors, who presented their views. They claimed that the Haidas had but five acres of land, while white settlers were allowed 160 or more acres. They believed they were entitled to as much as the others and they also believed they should be given the franchise and the same rights as the white man. They also wanted a government boarding school and hospital and Rev. W. Hogan spoke in support of both features.

## DAUGHTERS OF EMPIRE NEAR ARCTIC CIRCLE

**New Chapter Has Been Organized in Dawson with Wife of the Commissioner as Regent.**

A new chapter of the Imperial Order Daughters of the Empire has recently been formed at Dawson, Y. T., and as far as is known is the most northerly chapter of that organization. Its regent is Mrs. George Black, wife of the commissioner of the Yukon. Mrs. Black, who is at present in Vancouver on a visit, proved herself an active clubwoman during her residence in Vancouver, and has gone on with her work in the new home in the north.

Early last March a number of Mrs. Black's friends gathered at Government house, Dawson, to form a chapter of the Daughters of the Empire. A chapter was formed, and in honor of the celebrated explorer was named the Dr. George M. Dawson Chapter, I. O. D. E. The young chapter now includes twenty-four members.

Through the kindness of Mrs. Black the meetings are held on the second Tuesday of each month at Government house. Their meetings have been profitable as well as pleasurable. Various members prepare papers on historical and patriotic subjects, while others contribute musical selections. That the children of this northern city may learn more of their country and its ideals the chapter offered two prizes on Empire Day to the school children of the city for the best essay on "Patriotism."

The Princess Sophia arrived from the south at 12:45 this afternoon.

## Save One Ton of Coal in Every Six

The Economizer will do it.

While the cost of living has undoubtedly been growing greater, at the same time it is true there are some inventions that will offset this increased cost of living, and the careful housewife takes advantage of these inventions.

On every Gurney-Oxford range there is an Economizer which controls not only the drafts but also the entire combustion or burning of fuel to create heat.

This Economizer will save 1 ton of coal in every 6 that you would use with the ordinary range.

The Economizer is a simple device, absolute in its control. By merely moving the lever you can obtain any degree of even heat in the oven. This insures the satisfaction of always having light, delicately crusted bread and biscuits.

The kitchen fire ceases to be a worry if the Economizer is on your stove.

The Gurney-Oxford is the final result of experimental thought. Science has given it a Divided Flue, a new Special Grate, and a Broiler attachment.

This Gurney-Oxford range is primarily a saver of money, time, and energy.

## STREET CORNER EXPERT ON MUNICIPAL AFFAIRS

(Continued from page 1)

The actual cost of the bridge across Morse Creek was about \$2,000.

Does it require more than ordinary common sense to understand that it was necessary to have some drainage and improvements done at the cemetery?

As for the employment of a city auditor, I will ask any fair minded man to give me the name of a corporation with a capitalization of \$27,000,000 (the present assessment) that considers it an unnecessary expenditure to have a man to audit their books. I am sorry to have to say that it reveals a great deal of ignorance when my friend, apparently in all sincerity, makes the remark that there is nothing to audit.

Ex-Alderman Morrissey ought to know that local improvement debt does not really count against the credit of the city as a whole.

Without in any way offering any criticism regarding last year's council, I am willing to admit that a great many meetings of last year's council gave more the appearance of a cheap vaudeville performance than those of a legislative body.

Because my friend, ex-Alderman Morrissey feels very disappointed with his relations to our present mayor it seems to me that he ought to bear this like a man, and not use it as an excuse for making misleading statements to the public.

I am making these remarks in fairness to the public and in order not to trespass too much on your valuable space I will confine myself to the above.

Your obedient servant,  
**JOHN DYBHAVN,**  
 Alderman.
