

## MAYOR PATTULLO SUMS UP MORRISSEY "FACTS"

### GREAT FUNERAL TO "BIG TIM" SULLIVAN—VANCOUVER WELCOMES CHAMPION RIFLE SHOT

#### LONGEST FUNERAL TRAIN EVER SEEN ON EAST SIDE NEW YORK

ALL CLASSES PAY THEIR RESPECTS TO REMAINS OF BIG TIM SULLIVAN, WHO ROSE FROM NEWSBOY TO CONGRESSMAN.

(Special to The Daily News)  
New York, Sept. 16.—The longest funeral train the East Side of this city ever saw was that of "Big Tim" Sullivan, the New York politician. Around the bier it lay in the chance of the church yesterday morning rustled Fifth Avenue matrons in silks and five Points women in rags, and among the men leading capitalists rubbed shoulders with notorious criminals and professional tramps, for hearty Big Tim had friends in all the walks of life.

For many months, "Big Tim's" mind had been under a cloud. Elected to congress last fall, he had never taken his seat because of this trouble. A commission was appointed to administer the affairs of his large estate and to watch over his person.

On the night he disappeared he sat up till 2 o'clock playing pin-ochle. Two of the nurses went to bed at midnight, leaving the third to continue the game. The third nurse became drowsy; "Big Tim" did not. When the nurse finally slumbered, "Big Tim" crept noiselessly out of the house and went to his death.

Washington, Sept. 16.—"Big Tim" Sullivan was elected to the congress now in session, but did not take his seat because of illness, and as far as records of the capitol show he has not been in Washington since it began work. He drew his pay, however, "by commission," the house agreeing to pay his salary to those appointed by the New York courts to look after his affairs. He had been a representative in the fifty-eighth and fifty-ninth congresses, and was then very active.

His death will necessitate a special election in the thirteenth New York district, which comprises New York county. That will be the fifth special election caused by death since the sixty-third congress began work in March.

STRANGE THINGS YOU WILL SEE IN RUPERT DURING NEXT WEEK

#### GOVERNMENT MUST APPEAL TO COUNTRY ON HOME RULE BILL

BALFOUR'S ONE ALTERNATIVE IS TO REFER BILL TO COUNTRY OR TO PASS IT AND REFER IT BEFORE IT COMES INTO EFFECT.

London, Sept. 12.—Mr. Arthur Balfour, speaking to a great Unionist meeting at Haddington last night, declared that the government in endeavoring to pass the home rule bill before reconstituting the house of lords had fallen back on a political expedient which was ingenious enough but had brought them into conflict with elemental forces. These elemental forces, he said, were the resistance of Ulster, the strength of which they had never calculated on.

The country at once, the other was to pass the bill and refer it to the country before it came into effect. They proposed to adopt the latter, but if they did their conduct would be not only wildly imprudent but grossly immoral.

The result was that they had just two courses before them. One was to refer the matter to

He believed that as the date of home rule became nearer the cabinet would feel that it must have the country behind them and would be driven to dissolve or resign. It was the duty of the Unionist party to stir the country to its depths, and to raise such a storm of indignation that the ministry would not dare to face the consequences of their own policy.

#### FACTS ABOUT CHISANA STRIKE GIVEN BY DAWSON STAMPEDE

MOUNTAINS ARE ALL STAKED AND NOTHING LEFT TO STAKE BUT THE GLACIER—NOT LIKELY TO BE A BIG CAMP.

William McLennan, writing from the Chisana camp under date of August 24 to his friend and grubstaker, Howard Pearce, of Dawson, has this to say of conditions and prospects in the new diggings:

but there are two creeks that have gold, and they may pay big. One is rich, all right. It leads against a mountain of porphyry.

"Friend Howard: I am back here on the same old creek from which I took the gold that Archie Campbell's ring was made from, and it looks as though I ought to work for wages and get poor grub when I see men cleaning up from one to three thousand dollars in a day with only three or four men shovelling in. Now, I did not see any gold weighed up, but I saw a one pound baking powder tin half filled with gold from one day's work with two men shovelling in. One outfit has the sluice boxes that we had here, and it is those boxes that the two hundred ounces were shoveled into in two days by two men.

"Don't encourage anyone, to come in here, as the mountains are staked and nothing is left to stake but the glacier. I feel a bit sore at myself, but it's all over, I guess. If I can't land a lay, I will hit new fields as soon as I can, and will be in Dawson within a month.

"Now about this place for a big camp. I don't go much on that,

"There is lots of claim jumping and some gun plays, but no shooting as yet. Dud McKinney put a man off his ground at the gun's muzzle, so I am told.

"Now, as I have said, in my opinion there is one creek that is rich here, with a narrow pay streak, and will be worked out in a couple of years. I give this as my opinion only. My reasons are that they are the only creeks that are being worked, and I can't nor could I find colors on the others when I was here before."

#### CHARGED WITH FORGERY AND CASHING STOLEN PAY CHEQUES

CHEQUES BELONGED TO TWO MONTENEGRINS ENGAGED ON A STEEL GANG OF THE GRAND TRUNK PACIFIC RAILWAY.

The case of Rex vs. Zaloff occupied the attention of the court the greater part of yesterday afternoon and was continued this morning. Zaloff is charged with forging half a dozen cheques made in favor of two Montenegrins named Militch and their brother-in-law, all of whom were employed on a steel gang on the S. T. P. Thomas Militch testified that the cheques, which he had been keeping, disappeared on July 6th, but could not say whether they were lost or stolen from him. Valdo Zelich, a bartender at the Empress Hotel in this city, gave evidence concerning the accused cashing one of the cheques and his endorsing the cheque. On the same day, about twenty minutes later, the accused

asked Mr. Ross, manager of the Empress pool room, to cash another cheque. Ross, who gave evidence yesterday, said that he immediately noticed the cheque was one of the lost cheques, a list of which had been furnished him. He asked Zaloff if he had any more cheques, saying he would cash them all, whereupon the accused produced three more of the lost cheques. A comparison of the cheques with the list showed that they were the stolen or lost cheques. Mr. Casley, proprietor of the Empress, then made the accused return the money he had obtained on the first cheque cashed and later Zaloff was placed under arrest. Further evidence in the case is being taken today.

#### MURDERER PLANNED TO RETURN TO HIS HOME

Slayer of Anna Aumuller Wrote His Parents in Bavaria Announcing His Visit.

(Special to The Daily News)  
Aschaffenburg, Bavaria, Sept. 16.—That Hans Schmidt, the assistant rector of the Roman Catholic Church of St. Joseph, New York, who on Sunday confessed to the murder of Anna Aumuller, intended to return home to Bavaria at an early date is indicated by a post card he sent to his parents a few days ago. This shows that although he had lived for weeks in apparent security he had begun to be afraid that his crime would eventually be brought home to him.

#### INJURIES TO BOY MAY PROVE FATAL

Fell Over Edge of City Wharf and Sustained a Fractured Skull—Taken to Hospital.

Constantine Michaeloff, a boy about 10 years of age was the victim of a very serious accident last evening. While playing around the city wharf, where the scavenger scow is kept, he fell over the edge a distance of some ten or twelve feet, landing on his head on a piece of iron. The whole side of his head was crushed and the base of the skull fractured. The unfortunate lad was rushed to the hospital, where he was operated upon. Reports from the hospital today indicate that he is in a very precarious condition. The little fellow is the son of Russian parents who have been in the city only a month or so.

#### MORRISSEY'S STRICTURES ARE ABLY REFUTED BY MAYOR PATTULLO

In Not a Single Instance Were the Ex-Alderman's Figures Correct and His Deduction from these Figures is Therefore Shown to be Wilfully Misleading

To the Editor "Daily News":

Dear Sir,—Will you kindly grant me space in your paper to reply to a letter from Daniel W. Morrissey, ex-Alderman of this city, which appeared in two of the daily papers of this city on Saturday last. Ordinarily I pay little attention to communications of this kind, but in view of the fact that Mr. Morrissey is an ex-alderman of the city and that he has gone to the trouble of a carefully prepared statement which he himself states is an effort at a truthful exposition of the situation, I think it well that the public should be apprised of just how near the truth the effort of Mr. Morrissey is, because I think that we may take it for granted that there will be a large number of similar communications appearing from time to time between now and January next.

I shall deal with Mr. Morrissey's statements seriatim, quoting each item as set out by him and replying thereto.

"No. 1.—Remodelling the inside laying out of the city hall and installing an electric bell system (cost unknown), say \$100."

The actual cost of this work was \$168.70 and was carried out in order to bring the Mayor in closer touch with each department. No well regulated office is without such a convenience.

"No. 2.—Employing an expert in laying the water mains across Shawatlans Narrows, absolutely useless expenditure (total cost unknown), (nothing accomplished), \$2500."

Two attempts had been made to cross the Narrows without success. The City Engineer very properly laid the matter before the Board of Works, and while he felt that the next attempt would

be successful, the Board and the Council thought that under the same circumstances a private individual would call in additional advice, which was done. The passage was then successfully negotiated, and the thing we were after was accomplished. Cost of expert, \$1501.75.

"No. 3.—Employing an expert to pass on sewer plans, no change effected (cost unknown) say \$600."

It was not thought advisable to start a work of such magnitude as the sewers without having the work of our own engineer verified. A slight change was suggested by the consulting engineer in the curvature of the outlet, but here it may be said that the consulting engineer was not called in for the express purpose of making changes but for the purpose of finding out whether any changes were desirable. It was gratifying to find the work of our own engineer so well verified and we can now tackle the item of \$350,000 for trunk sew-

ers with every confidence. Cost of consulting engineer \$453.

"No. 4.—Tour of United States, Canada and Europe of Mayor and City Solicitor, nothing accomplished, reported cost \$3,800."

The tour of United States, Canada and Europe consisted of Chicago, Montreal and London and our own Victoria. I am quite satisfied to let the future show the results of the mission. Actual cost to city \$3,850.

"No. 5.—Employment of extra solicitors to carry on public business (cost unknown), (three months), \$750."

Actual cost, \$245.

"No. 6.—Delegation of City Solicitor and Alderman to Vancouver (cost unknown), say \$100."

Prince Rupert perhaps more than any other city in British Columbia requires that certain clauses in the statutes governing municipalities should be amended and the assistance of the Union of B. C. Municipalities is not only of importance but is a necessity, besides which in a general way the discussion of municipal problems, by representatives from all parts of the province cannot fail to be of much benefit. Cost, \$186.

"No. 7.—A second remodelling of city hall (cost unknown), say \$500."

This remodelling gives more room and better light, besides bringing the city treasurer in closer touch with the collection department. Estimated cost \$200 (not yet completed).

"No. 8.—Neglect of proper care of water mains (loss by frost unknown), say \$20,000."

If there is any blame attaching to the city council for the

#### CHAMPION RIFLE SHOT OF WORLD WELCOMED

Winner of Great Trophy Welcomed by Civic Banquet at Vancouver

(Special to The Daily News)  
Vancouver, B.C., Sept. 16.—Major Hart McHarg arrived home yesterday from Fort Perry, Ohio, where he had won the trophy and title of champion rifle shot of the world. He was met at the railway station by the mayor and council, the local militia and the fire brigade, and given a triumphant procession. In the evening he was tendered a banquet by his brother officers which was attended by many of the leading men of the city.

The Canadian team made a great showing at Fort Perry, coming in second for the Palma trophy and carrying off ten valuable money prizes.

#### VENERABLE PASTOR DEAD

Forty Years Minister of Presbyterian Church at Sarnia

(Special to The Daily News)  
Sarnia, Sept. 16.—Rev. John Eady, for forty years the popular pastor of the Presbyterian church here, died yesterday of heart failure. His decease took place at Atlantic Highlands, New Jersey, to which stormy point he had gone under medical advice to spend his vacation.

#### MEXICAN REFUGEES ON BOARD WARSHIP

United States Cruiser Picks Up One Hundred and Thirty-Seven Refugees from Mexico

(Special to The Daily News)  
San Diego, Sept. 16.—A radio-gram was received here last evening from the auxiliary cruiser Buffalo, off the coast of Lower California, to the effect that she had one hundred and thirty-seven refugees from Mexico aboard, seven of whom were Germans and two British subjects. The vessel will be here some time today.

#### MEXICO'S CELEBRATION

(Special to The Daily News)  
Washington, Sept. 16.—Tomorrow will take place the anniversary celebration of Mexican independence, and state department officials believe it will be marked with some interesting developments. It is not thought, however, that these developments will in any way jeopardize the safety of Americans in Mexico, though there is no telling what course hot blooded Mexicans may take under existing circumstances.

DAILY EDITION

Tuesday, Sept. 16, 1913.

SUCH CRITICISM
IS OF NO AVAIL.

Mayor Pattullo's letter, published in this issue of The News, in reply to ex-Alderman D. W. Morrissey's recent attack upon the work of the present council demonstrates beyond doubt that the writer of the ridiculous criticism belongs to that particular type in municipal life described in Alderman Dybhavn's letter of yesterday as "the street corner critic." The statements made by ex-Alderman Morrissey, upon which his criticism is based, were so far from being in accordance with the facts that his attack loses any effect it might have had in moulding public opinion if he had taken the trouble to get the facts. One of the most glaring discrepancies between the critic's statements and the actual facts is that in reference to freezing of water mains. Ex-Alderman Morrissey's estimate of the loss was \$20,000, while the actual loss was \$2,779.30. When an ex-alderman will go so far beyond the facts as Mr. Morrissey did in this instance and then try to shoulder the responsibility upon a body which was in no way to blame, his attacks upon our public men will not be taken very seriously. Taken altogether, his letter was a mass of rubbish and the motive in writing it so evident that it carried absolutely no weight.

PROTECTING PUBLIC INTERESTS.

In its issue of yesterday the Evening Empire published a letter from the secretary of the Port Simpson Indian band, in which the board of directors of the Prince Rupert fair are most unjustly criticized. A copy of that letter was also sent to The Daily News, but in view of the fact that no good could be accomplished by its publication and a fair just in its infancy might be done much harm. The News declined to publish it. If the Port Simpson band decides that it cannot afford to come to the Prince Rupert fair on the terms that have been offered, the fair directors offer

no objection and do not complain. In addition to the cup put up for competition, the directors offered a bonus of \$50 to all Indian bands joining in the competition. This bonus was not offered as remuneration for the service of the bands in playing at the fair. Any person with experience in financing such an institution as an agricultural or industrial exhibition under conditions such as prevail locally will understand that it would mean ruin to attempt to engage a dozen or more Indian bands at anything like the remuneration which should be expected.

The News, acting in the best interests of the fair and the public generally, declined to publish the unjustifiable protest.

The Toronto Globe says that on the Pacific Coast everybody is talking of Shushanna, the new Alaskan gold field. One feels morally certain it got its title when a hilarious miner coming home after a night with the boys tried to pronounce the name of his wife. Since that was written the name of the new diggings has been changed to Chisana, which would imply that the aforesaid boozey miner had a fit of sneezing when he tried to call Anna.

Mrs. Emmeline Pankhurst threatens to visit the United States, to help the women to acquire suffrage rights in states where they have not received them. Those who are desirous of getting good results in that direction should raise a purse to keep her out of the country.

The inquest into the death of a Los Angeles pugilist will fall short of satisfaction if it fails to disclose what possible reason the doctors had for operating on the fighter's head.

Making a reliability run into Chisana is undoubtedly a severe trial for even the best human machine.

Thaw's insanity will be a moot question as long as there is a Thaw dollar to be had.

CALIFORNIANS ALARMED OVER RUMORS OF JAPANESE ARMING

BELIEVED THERE ARE SECRET MILITARY ORGANIZATIONS IN THE SOUTHERN SECTION FULLY ARMED—ACCURATE WAR MAPS DISCOVERED.

Sacramento, Cal., Sept. 12.—The adjutant general's office, which for several months has been semi-officially and secretly investigating the reported existence of Japanese armed military organizations in California, reported they could find no such organizations.

Accurate war maps of the California coast were found, but the office refused to give out information as to their ownership.

For more than two years at various times Japanese associations incorporated as "non-profit" concerns have organized in this

state. They were formed, the articles of incorporation stated, to advance the interests of Japanese. The adjutant general's office found that on several occasions these associations had entertained visitors from Japan who had no government or private credentials.

A recent report from Los Angeles that several organized Japanese military companies are in existence in the south with arms available for immediate use, is to be investigated by the adjutant general's office.

BUSIEST PLACE IN THE NORTHERN INTERIOR

Smithers Has Dozen Stores and Business Blocks in Course of Construction

Not even a gold stampede can check the business of building up Smithers, on which everybody is engaged. The contractors are all busy along Main Street, putting up buildings which will be occupied by merchants and other business men, while the ditching and grading crews continue their work of improving the streets. A dozen stores and business buildings are now under way and in the course of a week or two the business section of the town will present a good appearance.

The Second Avenue ditching has been completed, and the roadway is now in good condition although not permanently as yet. Main Street is now being ditched and graded, and as soon as work can be done to advantage, the work of laying sidewalks will be completed. The opening up of the streets has had the effect of doubling the activity of all concerned in the development of the

REPRESENTING BIG COMPANY.

Ralph S. G. Stokes, a New York mining engineer, of the Canadian Mining & Exploration Company, arrived on the last boat to join W. J. Rolfe, also representing the same company, in making an examination of a number of properties in the district. Mr. Rolfe has already had the Hercules mine, in the Salmon river section, under examination and this property was the subject of much consideration by Mr. Stokes. The company the two gentlemen are connected with was formed a little over a year ago between Toronto and New York capitalists interested in mining development on this continent.—Portland Canal Miner.

School for Babine Village

LAND PURCHASE NOTICES.

Skene Land District—District of Coast, Range V. Take notice that I, Lancelot Russel Walrond Beavis, of Victoria, B. C., occupation farmer, intend to apply for permission to purchase the following described lands: Commencing at a post planted on the northeast corner of a bay, a little to the eastward of Skaki Bay, Stephens Island, on the foreshore, thence east 20 chains, on the foreshore, thence west 20 chains, thence south 20 chains to point of commencement, containing 40 acres more or less. RUSSEL WALROND-BEAVIS. Dated July 18th, 1913. Pub. July 21, 1913—Sept. 15, 1913.

Scene from H. M. S. Pinafore, one of the comic operas to be presented at the Westholme Theatre during the engagement of the Pollard Australian Opera Company, September 20th to 27th.

MINING NEWS OF HAZELTON.

Another important mining deal in the New Hazelton district this season was completed Thursday afternoon, and as a result Raleigh P. Trimble becomes the owner of the Great Ohio group of eight claims on Rocher de Boule Mountain, and William Sargent and Colin Munro receive \$35,000 in cash and a block of stock when a company is organized. The deal is one of the most important yet pulled off in the district and there is considerable excitement in the camp. It assures another one of the big promising prospects undergoing development immediately. Another pay roll will be established and kept going all winter.

George T. Stewart arrived here Tuesday night after spending the previous ten days on the top of Nine Mile Mountain. He encountered very bad weather conditions but accomplished his work and sent his pack horse back with the first sample of ore for the Prince Rupert fair. He left on Thursday morning with another horse to bring down the rest of the ore.

The cables were strung across the Hagwilet Canyon this week and now the contractors are working on the bridge proper. Stringing the cables was a big job and especially here where the proper kind of labor is so hard to get. Good progress is also being made on the approaches to the bridge. Engineer Spencer says that with ordinary luck the structure will be ready for use the end of this month.

Frank Martin has completed arrangements for a pack train to go up the White Heather group on Hudson Bay Mountain and bring down the three or four tons of ore he has ready. This is the free silver ore discovered a couple of years ago. Since the discovery Frank has been piling the valuable stuff up as fast as he could

take it out, and he is now in a position to make his first shipment, which will be made from Moricetown through New Hazelton to Prince Rupert and then to the Trail smelter. There is little doubt but that this ore will run \$1,500 to \$2,000 per ton. When the smelter returns are received Frank will be in good shape to continue the work this winter.

William McDonald, Merrysville, was in town this week on business. He stated that he intended doing some more work on his Kitsegukla coal fields this fall, and he would have an exhibit of his coal ready for the Prince Rupert fair.

Duke Harris was in town this week and reported that the boys at the mine would complete the work on the drift at the hundred foot level this week. During the winter the shaft on No. 3 vein will be sunk another hundred feet. They will also continue the work on No. 1 drift until they get under the big shoot of ore shown on the surface, and also resume work on the long tunnel. The winter at the Harris mines will be a busy one in the development line.

George Jennings left this morning for the Highland Boy to move the summer camp down to the timber line and get things ready for the winter work, which will consist mainly of driving a thousand foot crosscut tunnel to tap all four veins and give a depth of about 1,500 feet on one vein. The completion of the government wagon road means everything to all the Rocher de Boule mines. The machinery for this mine is ready to be shipped as soon as the road is passable.—Omineca Herald.

NOTICE OF APPLICATION FOR THE APPROVAL OF PLANS.

Take notice that James Arthur Brown, of Port Essington, B. C., sawmill owner, will apply to the Comptroller of Water Rights for the approval of the plans of the works to be constructed for the utilization of the water from Brown's Creek, which the applicant is by Water Record No. 94 authorized to take and use for sawmill purposes, and in respect to which further application for 50 cubic feet per second from said creek (Water Permit No. 95) is now pending. The sawmill to be situated on Lot 121, Range 5, Coast District. The plans and particulars required by sub-section one of Section 70 of the Water Act as amended have been filed with the Comptroller of Water Rights and with the Water Recorder at Prince Rupert. Objections to the application may be filed with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., this 29th day of August, A. D. 1913. Dated at Prince Rupert, B. C., this 29th day of August, A. D. 1913. JAMES ARTHUR BROWN, Applicant. W-Sept. 1-22

WATER NOTICE.

Application for a license to take and use water will be made under the Water Act of British Columbia as follows: 1. The name of the applicant is B. C. Salt Works, Ltd., F. H. Mobley, agent. 2. The address of the applicant is Prince Rupert, B. C. 3. The name of the stream is Kwinitsa River. The stream has its source in mountain range about 5 miles west of the Skeena River. It flows in a southeasterly direction and empties into Skeena River about 1 mile south from Kwinitsa station. 4. The water is to be diverted from the stream on the south side, about 5,250 feet from mouth. 5. The purpose for which the water will be used is mining and manufacturing. 6. The land on which the water is to be used is described as follows: Mineral claims owned by the B. C. Salt Works, Ltd., and located adjacent to Lot 74 and Lot 75, Skeena River. 7. The quantity of water applied for is as follows: Twelve hundred (1200) miners' inches. 8. This notice was posted on the ground on the 6th day of September, 1913. 9. A copy of this notice and an application pursuant thereto and to the requirements of the Water Act will be filed in the office of the Water Recorder at Prince Rupert, B. C. Objections may be filed with the said Water Recorder, or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C. B. C. SALT WORKS, LTD. By F. H. Mobley, Agent. W-Sept. 8 to Oct. 6, 1913.

Save One Ton of Coal in Every Six

The Economizer will do it. While the cost of living has undoubtedly been growing greater, at the same time it is true there are some inventions that will offset this increased cost of living, and the careful housewife takes advantage of these inventions. On every Gurney-Oxford range there is an Economizer which controls not only the drafts but also the entire combustion or burning of fuel to create heat. This Economizer will save 1 ton of coal in every 6 that you would use with the ordinary range. The Economizer is a simple device, absolute in its control. By merely moving the lever you can obtain any degree of even heat in the oven. This insures the satisfaction of always having light, delicately crusted bread and biscuits. The kitchen fire ceases to be a worry if the Economizer is on your stove. The Gurney-Oxford is the final result of experimental thought. Science has given it a Divided Flue, a new Special Grate, and a Broiler attachment. This Gurney-Oxford range is primarily a saver of money, time, and energy.

RUPERT GLAZED FISH FOR EASTERN MARKET

Comparatively New Method of Shipping Fish Bound to Prove Great Success.

The Victoria Times of last Wednesday says: Glazed fish is to be shipped in large quantities from Prince Rupert to the eastern markets in a short time. Greer Starrett, manager of the Canadian Fish and Cold Storage Company is now on his way to Chicago, Toronto and other eastern points in connection with the shipping of the glazed article.

The glazing of fish is a comparatively new method of shipping fish. The halibut or salmon, or whatever fish it may be, is dipped into a certain preparation which coats it with a layer of ice. The fish is then wrapped in papers and all is then dropped into the preparation.

In order that the quality of the fish may not suffer while in transit they have to be carried in cold storage plants. The only practical substitute for the refrigerators for the storing of fish is sawdust. The Prince Rupert and Prince George, which are the only ships that have refrigerating plants on board, will be able to handle two carloads in their cold storage plants, which will mean that four carloads will be brought south every week.

The new method of shipping the fish will take a little more time than the former method. The salmon and halibut were frozen in solid ice previously, and shipped in that state to the eastern markets. The glazing has proved a better way of preserving the fish.

BELLA COOLA'S EXHIBIT Farmers Showing Great Interest in Prince Rupert Fair

The local farmers are showing the greatest interest in the forthcoming exhibition at Prince Rupert, and there remains no doubt that Bella Coola will be represented by a large exhibit. Mr. A. Hammer, secretary of the local Farmers' Institute, has wired the management of the exhibition at Prince Rupert asking that space be reserved for exhibits, which, according to Mr. Hammer, will be of the highest quality and of miscellaneous character.—Bella Coola Courier.

SALE OF LOTS AT PRINCE GEORGE BRITISH COLUMBIA

SITUATED at the confluence of the Fraser and Nechaco Rivers in Central British Columbia, 450 miles north-east of Vancouver, B.C., and 467 miles east of Prince Rupert, B.C., or midway between Prince Rupert and Edmonton, Alta., on the main line of the Grand Trunk Pacific Railway.

By reason of its central location, Prince George will be the natural distributing point for the extensive territory comprised in the Pacific Province of the Dominion, and it has therefore long been the expectation of the general public that upon the completion of the Grand Trunk Pacific Railway, Prince George will early become a large and important centre.

Having purchased what was known as the Fort George Indian Reserve No. 1 for the purpose of locating a townsite thereon, the Grand Trunk Pacific Development Company Limited has caused the same to be surveyed and platted and will offer lots in this townsite for sale by public auction at Vancouver, British Columbia, Wednesday September 17th, 1913, and at Edmonton, Alberta, Wednesday, September 24th, 1913.

The terms of this sale will be one-quarter cash and the balance payable in one, two and three years with six per cent interest. For further particulars and plans apply to:

G. U. RILEY,

Lead Commissioner, Grand Trunk Pacific Railway Company, Winnipeg, Manitoba

Substantial Values in Table Silver and Cutlery Genuine Worth in Every Piece
