

PRIESTLY MURDERER MAKES SECOND CONFESSION

ANOTHER BOMB FOR GENERAL OTIS—FIRST CHISANA GOLD ARRIVES—THAW SCORES AGAIN

PRIEST'S FURTHER CONFESSION OF HIS MOST HORRIBLE CRIME

SAYS HE WAS ATTRACTED BY HER BEAUTY AND BECAME INFATUATED WITH HER—GORY TASK OF CUTTING UP THE BODY.

(Special to The Daily News.)
New York, Sept. 17.—Slowly but surely the detectives are stripping from New York's river murder all its mysteries. The skill with which Miss Ann Miller's body had been dismembered caused the belief at first that the work had been done by a surgeon. In the flat occupied for five days by Schmidt and the girl detectives found one hundred printed cards, which indicated that Schmidt had masqueraded as a surgeon, and was possessed of more than an ordinary layman's knowledge of surgery.

Yesterday Rev. Hans Schmidt, the self-confessed slayer of Anna Miller was found to have had a boon companion in the person of Dr. Muret, a dentist by day and a counterfeiter at night. It was the janitress of the latter who made this exposure, stating that Muret and the murderer passed long hours together posing as medical students.

Schmidt has admitted all this and last night was induced to make a further confession, in which he again went over the details of his horrible crime. He said that he killed his victim as she lay in bed, cut up her body in the bathtub of the apartment where he had established her, wrapped it in five bundles and

dropped the bundles into the Hudson River.

"I was attracted by her beauty," reads Schmidt's alleged confession. "I became infatuated with her. I loved her. I killed her. She was so beautiful, so good, I could not let her live without me. I had made up my mind that she and I should not live together. I was a priest and must remain with my church. I could not let her go away from me. So I opened the door of the flat. I awakened her. I told her I had come to fulfill my threat. Then I drew the knife across her throat."

When her heart had ceased beating, according to this alleged confession, Schmidt carried the body from the bed to the bathroom and placing it in the tub began immediately his gory task of cutting it up. With the keen knife and the saw he cut off the head, arms and legs. Still fearful of detection, he then cut the body in two.

Five bundles, wrapped in bed clothes and papers, were made of the six parts. Five times Schmidt left the apartment house with a bundle to cross the Hudson River to the Jersey shore. Five times he leaned over the stern of the ferry boat in midstream and gently gave the river his burden. Then he returned to his church.

ANOTHER STAY FOR THAW.

(Special to The Daily News.)
Littleton, N. J., Sept. 17.—Thaw's millions have secured another checkmate to his immediate return to New York state, having secured a federal writ in New Jersey. The judge issuing it declares that this will indefinitely suspend the hearing of the writ of habeas corpus.

ANOTHER BOMB MEANT FOR GENERAL OTIS

That He Was Not Blown to Pieces Due to Care of Japanese Servant.

(Special to The Daily News.)
Los Angeles, Sept. 17.—For the second time within two years a bomb yesterday placed in jeopardy the life of General Harrison Gray Otis, owner of the Times newspaper, the building of which was destroyed and many lives lost by dynamiting in 1910.

That the general was not blown to pieces was due to the watchfulness of his Japanese servant, who received the infernal machine from the postman and handed it over to the police.

The machine had been mailed in this city. When taken out to some vacant lots and investigated it was found to possess sufficient force to kill twenty men.

Continued Drouth in Some of the Central States Increases Interest in B. C.

Mr. and Mrs. C. A. Smith returned by the steamer Prince George this morning from a two months' trip spent in the Central and Southern States. After experiencing the hot, dry weather that has prevailed in Kansas, Missouri and some of the other southern states, Mr. and Mrs. Smith are more than satisfied with the climate of Prince Rupert. The crops in a few of the southern states are practically ruined.

In many of the places which Mr. Smith visited he was besieged with inquiries concerning Prince Rupert and British Columbia, the people being thoroughly discouraged on account of the continued dry weather.

Among the larger cities visited were Chicago, St. Louis, Denver and Seattle.

Halifax, Sept. 17.—"The highest future of the Dominion lies with Empire unity," said Premier Borden, speaking at the Conservative Club last night. GREAT SUFFERING IN DUBLIN CAUSED BY GENERAL LOCKOUT

INDUSTRIAL CRISIS DEVELOPING UGLY FEATURES—NO WORK FOR MEN WHO WILL NOT ABJURE TRANSPORT WORKERS' UNION.

(Special to The Daily News.)
Liverpool, Eng., Sept. 17.—The freight handlers of this city yesterday came out in a sympathetic strike with the transport workers of Dublin and refuse to handle any Dublin traffic.

London, Sept. 15.—The industrial crisis in Dublin is developing ugly features. The lockout involves the following industries: The transport trade, flour milling, match making, biscuit making, the cattle trade, agricultural labor, fish supply, gardening, the coal trade, the building trade, the timber trade and box making. Before any man is allowed to work he must sign a pledge not to support Larkin's Transport Workers' Union. Larkin made a dramatic appearance at a meeting in Manchester on Sunday when he said:

"I care for no man. I believe I have a divine mission to make men and women discontented. Some say the workers should not be aroused until after home rule is an accomplished fact. My father gave his life for the right of the Irish people to govern themselves. But this is an economic, not a home rule, question. I am the son of a Fenian and I have never felt ashamed of any man who called himself a Fenian. The Fenians were the outcome of certain conditions in Ireland. But now we have a broader gospel, a wider gospel, a clearer gospel. Since I went to Ireland in 1907 I have raised the flag of discontent from Belfast to Cork, and I have brought a new hope and a new gospel to the working classes of Ireland."

"Murphy, the capitalist leader, is one of the men who drove Parnell to his grave twenty years ago. He told Parnell he would break his heart. I will break Murphy's heart or go to the grave."

Hunger is becoming the ally of the capitalists, and it is feared that by the end of the week actual starvation will excite many, already desperately poor. Pennies rattled cheerfully into the tin collection box when the strikers marched along Sackville street yesterday, but ten times as many filled boxes would not feed half the starving men, women and children.

CONDITIONS IMPROVED

INTERVENTION
IN MEXICO.

Yesterday's despatches told of hundreds of Americans, including women and children, being held by the rebels in Mexico and that the war minister of that country curtly intimated that it was only what the United States could expect as a result of its neutrality policy. It will be interesting to read what President Wilson has to say to that.

When the government of the United States advises Americans to leave Mexico while the present disorder prevails, it may wound American pride. But what is the alternative? Nothing less than the conquest and annexation of Mexico is the logical conclusion of a declaration that Americans must be allowed to live in Mexico, and have their lives and property protected by the United States.

Suppose, for instance, that some American is killed or his property destroyed and that the Mexican government refuses to make reparation. Suppose that the United States declares war, inflicts a severe defeat on Mexico, and exacts a heavy indemnity. That will not establish law and order in Mexico. There might be further outrages on Americans, further demands for compensation, and another war. The loss of American life and property, resulting from these wars, would be far greater than the loss which was the cause of the wars.

Therefore, the only way to solve the problem by war is to conquer and annex Mexico. Thus, and not otherwise, would Americans in Mexico have the full protection of American law.

As President Wilson does not desire to conquer and annex Mexico, he refuses to take steps which would inevitably lead to that action. His policy is to help Mexico to govern itself if it is willing to accept American aid for that purpose. If not, it must suffer practical ostracism and non-intercourse. It will have neither American money nor American energy for developing its resources or for governing the country.

If this policy is successful, it will be far better than war. If not, and the United States is forced to conquer and annex Mexico, there will be at least the satisfaction of knowing that the better way was tried honestly.

STRAIGHT GRAFT
OR HYPNOTISM?

If Sir William Mackenzie performed a "miracle" in getting \$13,000,000 out of London's money lenders this summer on good security, what are we to call the brief and painless operation by which he secured from the Borden government fifteen million dollars of the money of the Canadian people in return for seven million dollars of C. N. R. common stock? Is it hypnotism or straight graft?

At a recent roundup on a California stock ranch the cowboys were equipped with motor cars instead of ponies. When the veteran leaders of many a stampede sniffed the gasoline from their tireless pursuers they dropped their heads and trotted into the corral like little lambs.

SALVATION ARMY OFFICERS TO
ARRIVE ON SATURDAY STEAMER

ADJUTANT SMITH AND BRIGADIER GREEN ON A TOUR OF INSPECTION TO NEW METLAKATLA, ESSINGTON, HAZELTON AND OTHER POINTS.

Vancouver, Sept. 13.—Another of the Salvation Army emigrant trains, with a party of domestics, left Montreal yesterday morning and is due in Vancouver on Wednesday next. The party is in charge of army conductors. These are Brigadier and Mrs. Rawling of Montreal, Major Jennings, immigration officer for Montreal, Quebec and St. John, N. B., and Adjutant Smith, who has been in charge of the army native work at Wrangell, Alaska. After fourteen years of toil among the natives he recently decided to revisit his old home in England and greet his aged mother, whom he had not seen for thirty years.

On Thursday, the day after the arrival of the train, Adjutant Smith will leave Vancouver in company with Brigadier Green on the steamer Prince Rupert for the north. The brigadier goes on an inspection tour. After stopping for a short time at Prince Rupert, they will visit New Metlakatla, Port Essington, Andimaul, New

Hazelton and Glen Vowell. The last place mentioned is a village established and controlled wholly by the Salvation Army. Here is an Indian school and other enterprises for their welfare. The Dominion authorities regard this as the best conducted settlement in all the north country.

So favorable has been the impression created by the class of instructors furnished by the army for this native work that the government inspector of Indian schools has just communicated with Brigadier Green requesting that the army send more teachers into the Skeena River district. This request will be acceded to and some of those who will be furnished will be requisitioned from faraway Newfoundland.

AMERICAN SURVEYOR PRAISES NORTHWEST MOUNTED POLICE

TRAGEDIES OF CHISANA TRAIL BLAMED TO INEFFICIENT POLICE PATROL IN ALASKA—PITIFUL EXHIBITIONS OF INEXPERIENCE HEART RENDING.

Seattle, Sept. 13.—"Had Alaska a system of mounted police similar to that of Canada the tragic tales of the trail between McCarthy and the Chisana River would never have been told. There would have been no deaths at the fording of the streams on the way; the ill equipped Chechahco would not be stumbling along the trail without food and facing a winter during which he must either starve or steal, and the government would not be appealed to later on to rescue those ill prepared persons. I have advocated for years a system of policing Alaska similar to that which Canadian authorities have installed in the Yukon Territory and British Columbia."

So declared Thomas Riggs, who returned to Seattle yesterday after having completed the final inspection of the boundary line between Canada and Alaska, from the Yukon River to the Pacific Ocean. Riggs has been in charge of the American survey party and will be in charge of the final map work, which will require another year to complete.

"However," he said, "the pitiful exhibitions of inexperience on

the part of Chechahcos is heart rending. We met one man—as an example—going into the interior with a horse on which he had packed ten pounds of raisins, having been informed that raisins were very efficacious in sustaining life in that country. We found scores of persons who had absolutely no idea of how to pack their horses and who were carrying in supplies that could not possibly sustain them. All along we were appealed to as government representatives to help out the raw newcomers, and frequently to sell them supplies."

Murderer from Canada.

Chillicothe, Mo., Sept. 10.—William J. Collins, who confessed to the murder of Mr. John P. Benson, an attorney of Calgary, Alta., last April, was ordered held yesterday for the Canadian authorities by Judge A. B. Davis, at the conclusion of his preliminary hearing. The Canadian authorities have asked for his extradition.

THOUSANDS OF MEN NEEDED FOR HARVEST AND THRESHING

WITH A TOTAL OF FIFTY THOUSAND AT WORK THE PRAIRIES ARE STILL CALLING FOR MORE HELP, SO BOUNTIFUL IS THE HARVEST.

Winnipeg, Sept. 13.—With a grand total of 50,000 men at work in the harvest fields of the prairie provinces, Mr. J. Bruce Walker, commissioner of immigration, this morning mentioned the details of the number of laborers and the distribution of help over the country. The excursionists from the eastern provinces were rather less numerous this year than they were last year, but the western supply of labor has been greater.

According to the returns which are now available, 15,000 men have journeyed west from the eastern and maritime provinces. From cities of Manitoba, Alberta and Saskatchewan about 25,000 men are said to have gone to help garner the great crop, and the remaining 10,000 of the estimated number at work is made up of immigrants, for the greater part from the old country, many of whom intend to permanently settle on the land.

Speaking on the general employment situation in Western Canada with reference to the prospects for the winter, the commissioner stated that he is looking forward to a good winter from the point of view of work. The men of the country have all had a chance of earning sufficient money to insure that they will not suffer any hardship during the cold months.

The demand for help is still very urgent, and the immigration authorities cannot cope with demands which have been and are being received at the employment bureaus for help. The farmers

of Saskatchewan alone are demanding at least 4,000 men, and the only solution of the problem is to allow the threshing to wait until the cutting is complete.

The Gurney-Oxford Attracts Madam To The Kitchen

THE GURNEY-OXFORD has a large following of fashionable cooks who dip into the culinary art simply for the pleasure they derive from trying dainty recipes previously not attempted. They are all most enthusiastic supporters of the Gurney-Oxford because it contains many exclusive devices that make a perfect cooking equipment.

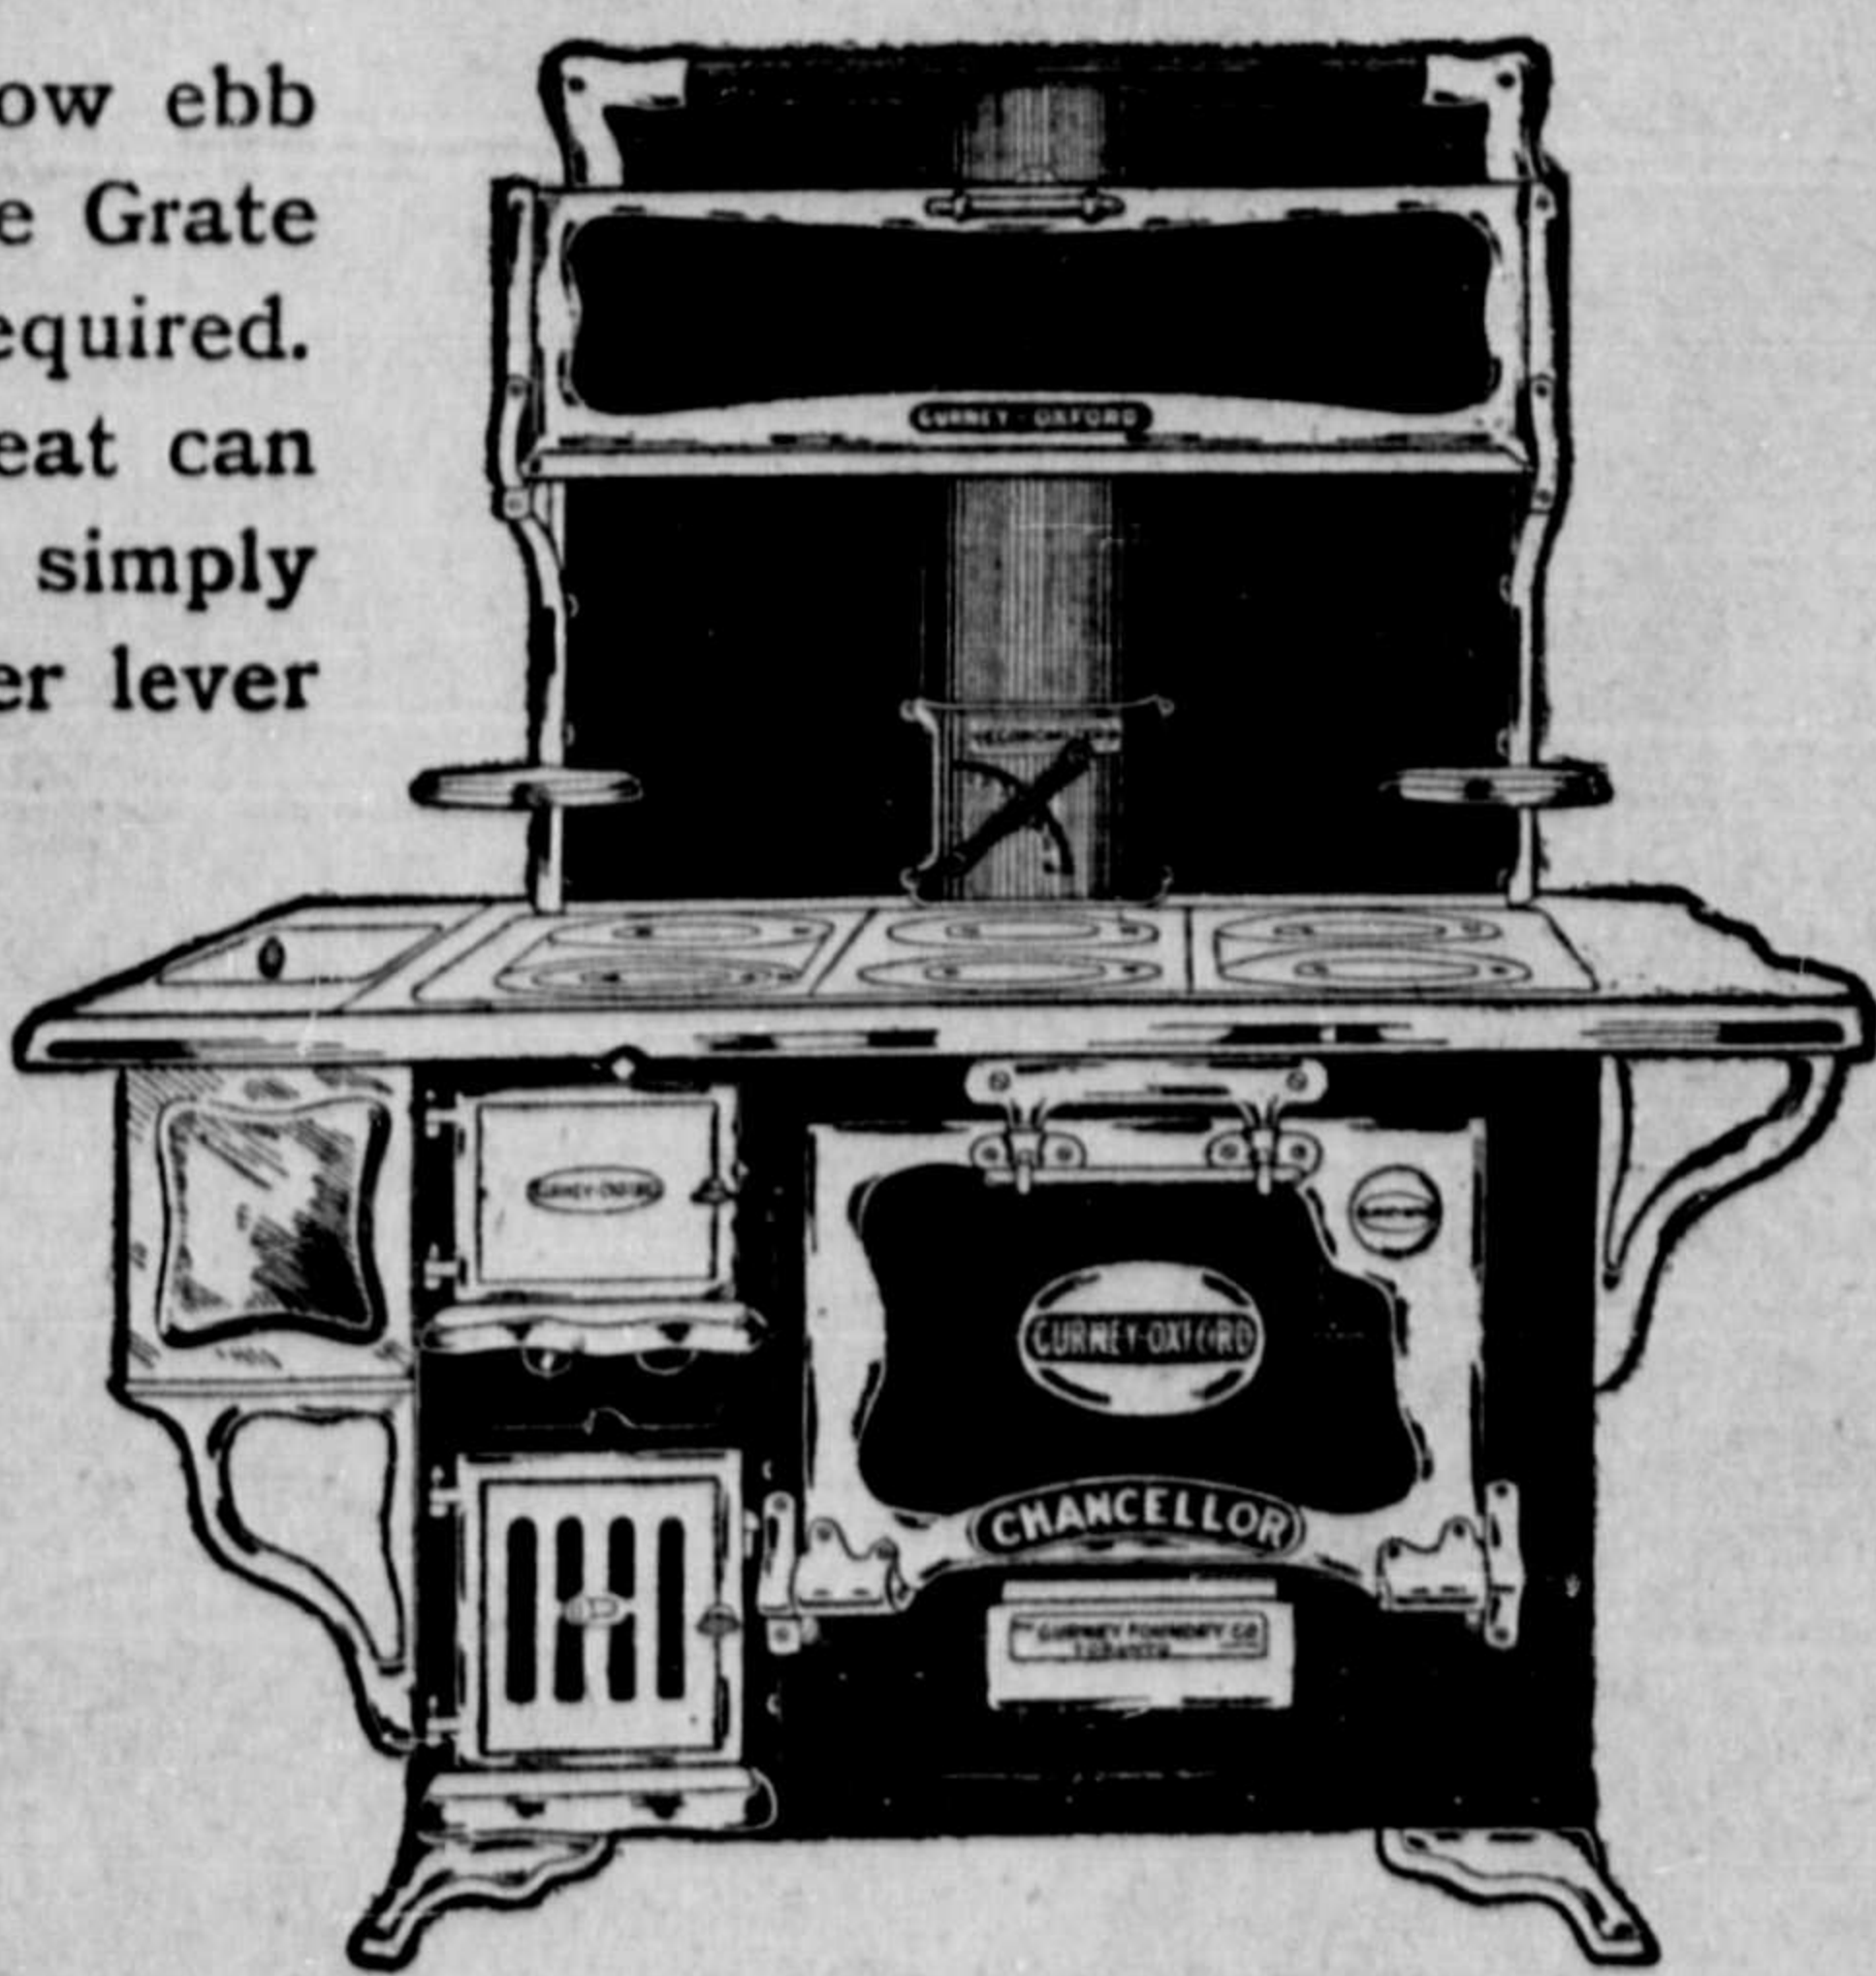

Its oven is evenly heated in every corner to insure deliciously dainty cakes, golden brown biscuits, and light flaky pastry. A special Divided Flue carries the heat to every hole on the range. The top is perfectly smooth and clean, requiring no black lead polish.

But most important is the Economizer. It is a small lever that moves around a series of six notches giving the exact degree of heat required for any particular dish. The heat of the range can be shut off and the kitchen kept cool between meals by turning the lever to a certain number.

The fire is held at a low ebb on a special Reversible Grate until a baking oven is required. Then the necessary heat can be obtained quickly by simply turning the Economizer lever to another notch.

Such control as this enables many smart women to invent some very tempting dishes which they set triumphantly before their friends. It will pay you to investigate the Gurney-Oxford.

EXCURSION TRAINS FOR THE FAIR ARRANGED

Steamer Prince George to Leave Here Early Wednesday to Bring Stewart Visitors.

As a result of a lengthy conference held yesterday afternoon between General Agent Albert Davidson and a committee of the Prince Rupert exhibition, the whole question of transportation and schedules for visitors to the fair from interior points, Queen Charlotte Islands and Stewart was definitely arranged.

A special excursion train will leave Morietown at 8 a. m. Tuesday, 23rd inst., making all local stops and reaching Prince Rupert early the same evening. This will provide more adequate facilities for those coming from interior points along the main line of the Grand Trunk Pacific Railway and permit visitors being in town for the opening ceremonies Wednesday morning. The usual freight train will be run Monday morning, arriving here early Tuesday afternoon, on which exhibits can be sent. Each agent along the line has been fully instructed regarding the matter.

To accommodate Stewart visitors the Prince George, arriving here from the south on the morning of Wednesday, the 24th, will proceed immediately after unloading her perishables for Stewart, about noon, arriving in the mining town at 10 p. m., and return the same evening, reaching here early Thursday morning.

Provision has also been made that the Prince Albert, due here Tuesday, the 23rd, from Vancouver, via Queen Charlotte Island ports, will proceed from Skidegate direct to Masset and thence to Prince Rupert, arriving some time in the early morning of the opening day of the exhibition. Returning the Prince Albert is scheduled to leave here Friday evening at 8 o'clock instead of Saturday, calling first at Masset and then proceeding south to Vancouver. This will permit island visitors staying here the whole length of the fair.

Over six hundred large posters have been distributed at points along the main line of the G. T. P., including every station and provincial road camp, besides Indian agents, Indian villages, farmers' institutes, all postmasters throughout the interior, members of the advisory board and members of the association. In several cases fireworks posters have been included. Besides this publicity every newspaper has been publishing stories of the fair, together with advertisements.

Though the date for entries was supposed to close yesterday, it is announced by Secretary L. Bullock-Webster that no one will be debarred by being late, though he requests that entries be sent in as speedily as possible.

G. T. P. ANNEX TO BE VACATED AT ONCE

The occupants of the G. T. P. Annex have received notice that they must vacate not later than Thursday morning. The work of tearing down the building will start within a few days.

He met hundreds of optimistic prospectors en route to the strike and has many stories to tell of the trip in. He will meet the representative of W. H. Gray's survey party before leaving for his home in Vancouver, Portland Canal Miner.

SENTENCES DEFERRED IN FORGERY CASES

Hearing Completed This Morning and Judgment to Be Handed Down Tomorrow.

After hearing a vast amount of evidence, a large part of which required the services of an interpreter, Judge Young yesterday afternoon rendered his decision in the case of Rex vs. Zalloff, finding the accused guilty on a charge of forging cheques, but deferred sentence until today. According to evidence previously published, Zalloff forged a cheque in favor of one Militch which he cashed at the Empress Hotel and attempted to cash several other cheques at the same place.

The trial of Chudhoff, charged with stealing these cheques, occupied the attention of the court from 11 o'clock this morning. The morning session lasted until after 4 o'clock in order to complete the case. Judge Young reserved his decision until tomorrow morning at 11 o'clock, when he will also give the sentence in the case of Zalloff, found guilty of forgery.
