SULZER LOST IN FIRST LEGAL SKIRMISH--DR. SUN YAT SEN IN HIDING AT VANCOUVER

LATE MAYOR GAYNOR'S BODY HAS REACHED NEW YORK CITY

LIE IN STATE AT CITY HALL TOMORROW--IMPOSING PUBLIC FUNERAL ON MONDAY--BRIEF POINTS IN HIS CAREER.

(Special to The Daily News.) New York, Sept. 10.—The body of the late Mayor Gaynor arrived on the steamer Lusitania yesterday and was taken direct from the steamer to the Gaynor home in Brooklyn. It will remain there until this evening, when it will be removed to the city hall in Manhattan, there to lie in state on the scene of the mayor's activities until the funeral on Monday. The funeral will take place in Trinity church on Lower Broadway, with Bishop Greer, of the New York diocese of the Protestant Episcopal church, officiating. The interment will be in Greenwood cemetery, Brooklyn. Both the stock exchange and the produce exchange, the sub-treasury, the banks and business offices generally, will be closed Monday out of respect to the

memory of the deceased, and it is believed that the funeral pageant will be one of the largest seen in the city since Gen. Grant was laid to rest.

Two ex-presidents of the United States—Mr. Theodore Roosevelt and Mr. William H. Taft—probably will appear in the Gaynor funeral line.

Mr. Taft has been made as one of the honorary pall-bearers and Colonel Roosevelt is included in a committee of 100 notable citizens named today by Mayor Kline to act as an honorary escort.

This committee will be headed by the two living ex-mayors of New York—Mr. Seth Low and Mr. George B. McClellan.

The police escort will consist of 1600 bluecoats. A public memorial meeting in honor of the late mayor will be arranged for later by the committee of 100.

GOVERNOR WILLIAM SULZER AND THE IMPEACHMENT PROCEEDINGS

SULZER COUNSEL LOSES THE FIRST SKIRMISH IN THE LEGAL BATTLE--THE EIGHT ARTICLES OF THE IMPEACHMENT VOTED.

(Special to The Daily News.) Albany, N. Y., Sept. 20.—Counsel for William Sulzer, the first governor of New York to be impeached, lost the first skirmish of the legal battle at the bar of the court of impeachment. The court is made up of members of the senate and the judges of the court of appeals, and Sulzer's counsel objected to four of the senators being permitted to sit as judges. The objection was overruled.

The eight articles of impeachment voted against Governor Sulzer by the assembly are, in substance:

That he filed with the secretary of state a false statement of his receipts and other monetary transactions during his gubernatorial campaign.

That he committed perjury in this statement.

That he bribed witnesses to withhold testimony from the legislative committee which in-

vestigated his campaign accounts. That he suppressed evidence by means of threats to keep witnesses from testifying before the investigating committee.

That he dissuaded a particular witness, Frederick L. Colwell, from attending under subpoena the sessions of the investigating committee.

That he committed larceny in speculating in stocks with money and checks contributed for his campaign.

That as governor he threatened to use his office and influence to affect the vote of certain public officers.

That while governor he corruptly used his authority to affect prices of securities on the New York Stock Exchange, in some of which securities he was at the time interested.

All but one of the forty-nine senators and the nine judges were present and Governor Sulzer was permitted to appear by counsel.

TWO MORE GOLD STRIKES ARE REPORTED AS MADE IN ALASKA

PLACERS DISCOVERED IN METANUSKA COAL DISTRICT--FIND ON ALFRED CREEK IN THE CARIBOO COUNTRY.

(Special to The Daily News.) Seward, Alaska, Sept. 20.—News was brought here yesterday of the discovery of large placer gold fields near Metana, in the Metanaska coal district. Forty claims have been recorded at Metana. A stampede is in progress.

Seward, Alaska, Sept. 18.—After receiving Tuesday night by mail, Charles C. Daggett from Frank Brown, a former resident of Seward, who is now on Alfred Creek, says the Alfred Creek strike in the Cariboo country is good. The letter continues: "Olsen and Getchell have struck pay and are shovelling in dirt that averages better than \$10 per yard, but are mining under difficulties. There is a continuous paystreak on Alfred Creek. I have a lay of 550 feet of ground above Olsen and Getchell and I am taking out money."

"Tuesday night my wife panned \$3.25 in one pan. I am running a bedrock drain, and as soon as it is completed will be taking out good pay. At present I am only on the edge of the pay."

"The pay is from four to six feet in depth, and how wide is not known. The country reminds me of Fairbanks and looks good to me. I am going to stay here till the freeze up, and then will go to Knik and return in the spring with a big outfit."

Several parties left Seward on the steamer Dora and more are leaving overland.

COUNTERFEIT NOTES MADE IN THE PRISON

In Printing Them Convicts Used Paper in Which Their Rations Had Been Served.

(Special to The Daily News.) Peterhead, Scotland, Sept. 20.—That counterfeit bank notes, made so skilfully as to deceive local bankers and shopkeepers, were the work of convicts in the Peterhead prison was the startling discovery made yesterday by Scotland Yard detectives. In printing the bank notes the prisoners had used the paper in which their rations had been served to them.

Maquinna Struck Rock

While the C. P. R. steamer Princess Maquinna was steaming in Yukutat Bay, Alaska, with seventy members of the International Geological Congress on board, she struck an uncharted rock and sustained damages to her hull which necessitated her being hauled out for repairs at Esquimalt at the completion of her voyage. Before the vessel is again ready for service some dented plates will have to be replaced forward.

Mr. Rogers, of the firm of Bates & Rogers, contractors, arrived this morning from Chicago and left immediately to inspect progress on their several contracts along the G. T. P.

(Special to The Daily News.) London, Sept. 20.—The impending strike of the 10,600 motor bus men and omnibus drivers has been averted for the present, the British board of trade having succeeded in persuading the employers and employed to go into a conference together.

A FINE COLLECTION

Prospector Will Show Pressed Ferns and Flowers at Fair.

Gustav Gervain, a well known prospector in the north, will exhibit at the Prince Rupert fair a collection of pressed ferns, wild flowers, etc., which will be of exceptional interest. Mr. Gervain values the collection very highly, as he has spent years in getting it together. He has species from the northernmost parts of the province and others obtained as far south as the Ootsa Lake country.

Mr. Gervain, who has spent many years prospecting, is a most interesting man to talk to. He is staying at the G. T. P. Inn and will remain in the city until after the fair.

DISTRICT ORGANIZER CHRIS PATTINSON GETS THREE MONTHS

TRIALS OF ONE HUNDRED AND SIXTY-EIGHT MINERS START AT NANAIMO NEXT WEEK--RESUME OF SITUATION.

(Special to The Daily News.) Nanaimo, Sept. 20.—Chris Pattinson, district organizer of the United Mine Workers of America, was yesterday sentenced to three months in jail under the vagrancy act.

By the first of next week everything will be in readiness for the final act in one of the most spectacular and most destructive labor disturbances which has ever taken place in Canada. Then will be commenced the trials of the 186 men who have been arrested in connection with the riots, pillaging and destruction of property during the three days when law and order were ignored in South Wellington, Extension, Ladysmith and Nanaimo, and mob violence ruled supreme. All who possibly could chose trial without a jury, the exceptions being the cases which the law makes it imperative to have a jury.

His Honor Judge Charles Barker, resident judge of the county court, a man respected by all classes of the community, will try the cases, which will occupy many weeks. They are nearly all of a most serious nature--aggravated assault, riot, riotous destruction of property and attempted murder. If heard at a rate of two cases per day,

nearly six months will elapse before the docket can be cleared, for there are over two hundred charges against the men in custody, and the number of witnesses in each case is large. It is likely, however, that the men will be tried in batches as in the preliminary hearings, although each man is entitled to a separate trial.

The completion of the big ditch, he says, will change the gravitation of the American continent and west of the Rocky Mountains will become as Europe to the American people. Traffic will be doubled and will be not less than ten and a half million net tonnage in ten years.

(Special to The Daily News.) It goes on to say that the Democrats have adopted bodily the foreign policy of the Republicans.

The west is flooded with immigrants. The cities are filled with unemployed. We are going to have, in my opinion, the worst experience we have ever had." This is the statement of W. R. Trotter, of the Vancouver Trades and Labor Council, who is en route to attend the congress at Montreal.

HAS SCIENCE DIS-
COVERED SOUL?

When materialistic men of
science announce publicly that
there are grounds for presum-
ing the existence of a soul in
man, and its persistence after
death, the average lay believer
may feel that his faith may be
justified by demonstrable fact.

It has long been the belief
of many advanced psycholo-
gists that a soul is the heritage
of every child born of earth,
and that it may grow or wither
with the growth of the indi-
vidual, according to cultivation
or lack of cultivation; that the
soul, nurtured and cultivated,
grows and expands into an in-
destructible though elusive
element, regnant beyond the
grave; that the soul, unculti-
vated and neglected, withers
and dies, leaving its clay tenement
on the same plane with the
brute, with hope of immor-
tality gone.

So eminent an authority and
material reasoner as Sir John
Oliver Lodge, president of the
the British Association for the
Advancement of Science, re-
cently announced that "facts
reduced to order by the methods
of science have convinced me
that memory and affection are
not limited to the association
of matter by which alone they
can manifest themselves here
and now, and that personality

persists beyond bodily death."

This is advanced ground for
the man of material science,
emphasized by the further
statement of Sir John that it
"is error to deny the existence
of anything which makes no
appeal to organs or sense, and
no ready response to labora-
tory experiment."

The words of the scientist
will bring cheer to many half
doubting believers in immor-
tality who have desired to be
sincere in their belief, but who
have been unable to fully ad-
just their matter-of-fact ex-
periences in this workaday
world to the theory of the im-
mortality of so fleeting and in-
tangible an essence as the
soul.

THAW MAY RUN AS
A NATIONALIST.

Those handmen who played
the national anthem and the
individuals who waved the flag
under Harry Thaw's window at
Coaticook are evidently Tories
who have not yet recovered
from the election of 1911. It
is possible that Thaw may run
as a Nationalist in the next
election, in which event the
Honorable Louis Phillip Pelle-
tier, no doubt, will give him a
helping hand. Come to think
of it, is it not strange Bob
Rogers has not gone to Coati-
cook?

KING GEORGE AT BALLATER, SCOTLAND.

The King had arrived at Ballater, in the Highlands, and after in-
specting a guard of honor of the Scottish Rifles, he entered a
motor car and drove to Balmoral Castle, where the Queen,
Princess Mary and Princes Albert, George and John were al-
ready in residence. Queen Alexandra arrived the same even-
ing, accompanied by the Dowager Empress of Russia and
Princess Victoria.

STROLLER WHITE HAS SETTLED
THE THAW CASE EFFECTUALLY

WHILE HARRY CHOPS THE WOOD EVELYN WILL WARM OVER
THE BEANS FOR TRAVELLERS ON THE WHITE PASS
STAGE LINE

To President O. L. Dickenson, W.
P. & Y. R.

It may surprise you to learn
that the Stroller has become a
philanthropist, but he has. While
it has been his object in life to
elevate undone and sodden hu-
manity in a general way, he is
now endeavoring to specialize in
one particular case — a case in
which the reading public of prac-
tically the entire world has been
more or less interested for sev-
eral years past. And it is in your
power to aid the Stroller in his
specializing.

You have no doubt, Mr. Dick-
enson, heard of Harry and Evelyn
Thaw. You will remember that
Harry "got off on the wrong leg."
Evelyn evidently got off the same
way. Of the latter, of course,
neither you or the Stroller is cer-
tain. Anyway, Harry escaped from
a New York prison a few
days ago and is now fighting ex-
tradition from Canada. If he
succeeds, the Stroller has an idea
for providing a position for him;
also of endeavoring to persuade
Evelyn to retire from the lime-
light and join Harry in the rural
retreat which the Stroller will en-
deavor, with your co-operation,
to provide. It is this:

You have a number of road-
houses on your winter mail trail
and it is necessary that each road
house have both a man and a wo-
man to preside over its destinies
— the man to provide wood and
water and the woman to warm up
the beans every time a stage is
due.

Now what is the matter with
having the Thaw family come to
the Yukon and conduct one of
your road houses? The Stroller
trows it would be the most popu-
lar station on the route. From a
financial point of view it would
also be a great advertisement for
the stage line, especially if Ev-
elyn waited on the table. You
have no doubt met the man who
says "Shake the hand that shook

the hand of John L. Sullivan."
How much more renown would
attach to being able to say "Be-
hold the man who ate a stack of
hots baked by Evelyn Thaw."

In addition to the pecuniary
advantages it would be the means
of reuniting a once happy couple
whom circumstances have some-
what estranged, and who, to
once more set ailing o'er mar-
rimony's tempestuous sea in a
craft ballasted with love and con-
jugal devotion, might forget the
past in the happiness of the road
house and become good and use-
ful members of society.

The Stroller has not yet com-
municated with either of the
Thaws regarding his scheme for
their future welfare. In fact, he
just thought of it while wonder-
ing to himself what you could
possibly do to make your scenic
route more popular, and decided
to put the proposition before you
before writing to either Harry or
Evelyn. The Stroller has been
corresponding with the latter for
some time, but not concerning
road houses.

The Stroller has good reason.
Mr. Dickenson, for believing that
you have unbounded faith in ad-
vertising—that you believe prin-
ters ink, properly distributed, is
the greatest boon of the age to a
public man. In this the Stroller
concurs. Just imagine then what
a gigantic boost something like
this would be:

FOUR HUNDRED MEN FIGHTING FOREST FIRE AT LOS ANGELES

UNEMPLOYED MEN ROUNDED UP AND SENT ON MOTOR CARS TO ASSIST FOREST RANGERS AND RANCHMEN IN FIGHTING THE FLAMES

Los Angeles, Sept. 16.—Four hundred men were mustered today to fight fires which threatened the Tejuanga canyon forests. Winds today drove the flames due north. This averted any danger to the Arroyo Seco, which is the water supply of Pasadena and vicinity. The fires started yesterday in the Haynes canyon. During the night the flames near by skirted Sister Elsie mountain, about twenty-five miles north of Los Angeles. From there they threatened to proceed northeast into the Tejuanga canyon.

The only settlements endangered was Hoyt's ranch, where pleasure camps are located.

The fire fighters were commanded by R. H. Charlton, supervisor of the Angeles national forest. An appeal was sent early to Los Angeles. The police rounded up seventy unemployed men and sent them on motor

trucks to join the forest rangers and ranchmen already in the field.

Flames Under Control

San Diego, Sept. 16.—Reports received tonight from the localities where forest fires have been raging for two or three days, generally indicated that the flames have either been checked or are under control. Near Ramona on the San Vicente range, the fire swept over 1,500 acres, but the growth was small and the damage was mainly to the watershed. The fire in the Pamo valley, east of Escondido, was a stubborn one and threatened to sweep into Valley Centre, where the telegraph and telephone lines are. Citizens of Escondido, reinforced by help from the city, fought this fire and have it under control tonight. It burned over an area of 1,000 acres.

MOST WONDERFUL GOLFER.

Harry Vardon, the famous English professional who is on a golf tour through America. He has won the open championship of England five times and has been a runner-up four times. Vardon won the American championship in 1900, and has since been victorious in many tournaments, while he has seven times represented England against Scotland.

NATIONAL LIBRARY

To Be Built at Ottawa on Site of Printing Bureau

Ottawa, Sept. 16.—The Evening Journal says that the government is considering a large building programme for the capital. It is proposed to tear down the present unsightly printing bureau and replace it by a large modern building on another site.

On the present printing bureau site it is proposed to build a national library, the present parliamentary library being too small to meet requirements. It is also proposed to enlarge the archives building, which has become crowded to twice its present size.

That Skagway Smelter.

The construction of a smelter at Skagway for the treatment of the Pueblo mine ores will be definitely settled by Mr. Close, of Close Bros. & Sons, who is now in Skagway.

When the White Pass Railroad wants a million or two of spare change, Mr. Close is the boy with the long green. He takes a deep interest in the railroad, owning several million dollars of the company bonds and being painfully affected by the size of the yearly dividends. His word is the last one in added improvements, and President Dickson wants a half a million dollars to build a smelter at Skagway.—Juneau Dispatch.

Christian Science Criminal.

London, Sept. 16.—That a father is guilty of manslaughter following the death of his child if he relies solely on the services of a Christian Science practitioner during a serious illness was decided today by Justice Rowlatt in the Central Criminal Court. Though the case was actually tried, the defendant was acquitted because the charge was not technically proven.

Deputy Clerk of Senate Dead.

Ottawa, Sept. 16.—Mr. R. W. Stephens, deputy clerk of the senate and one of the best known officials of the upper house, died today at the age of 74 years, of paralysis. He had been ill for a number of months. The deceased had been an employee of the government since 1863.

NEWS NOTES FROM SMITHERS

The road connecting the proposed Bulkley River bridge at Smithers with the main Hazelton-Aldermere road has been completed and it is believed that the road connecting the bridge with Main street will be built before winter. With the completion of these roads and the Bulkley River bridge the farmers of Canyon Creek and Glentanna district will be able to land their crops at the new town without much difficulty to a ready market. J. L. King, in charge of Price's survey party, now at Smithers, will undertake the work of surveying the bridge site immediately.

The point from which the Hudson Bay Mountain sleigh road is being built is at the east end of the railway yards, and when seen yesterday the crew had the work well under way.

The Williams-Carr Co. have moved their temporary office from Squattersville over onto their Main street lots and have opened up the alley way through blocks 57, 55 and 50 so that lumber can be hauled to their building site, and will start the erection of their office building early next week, the work on which will be done by Mr. Schuller. The building will be a large affair with offices and living apartments on the second floor.

Smith & Eggleston, the well known contracting firm, have their shops nearly finished and their machinery installed and will start turning out work Monday morning. The building is much larger than the one used by them in Telkwa, and is situated on Alfred avenue, near Queen street. They are now using a tent for an office, but will soon start the construction of an office building on the corner of Alfred and Queen.

Townsite improvement work at Smithers has received a slight setback owing to the fact that quite a number of men engaged in the work have left for the gold fields. Two members of Price's survey party have also joined in the rush.

R. S. Sargent, while in Smithers this week, gave orders for starting his store building on Main street next Monday morning. The building and warehouse will cover the greater portion of two lots.

H. P. Jones has nearly completed his pool room building on Alfred avenue.

Rev. H. G. Kingstone is now living in Smithers and when seen yesterday said that plans were being drawn up for an Anglican church at the corner of King street and Broadway.

Mr. Orchard has made all preparations for the removal of his restaurant and roadhouse from the temporary quarters to his Main street lots and will probably move tomorrow.

H. A. Bigelow has had his Main street lots cleared preparatory to starting his building, plans for which have already been drawn up.

W. R. Eggleston has his residence on Queen street well under way and it will be ready for occupancy within a week or ten days.

The lots of the Union Bank of Canada, at the corner of Second and Main, have been stumped preparatory to building.

H. W. Kraus has given orders for a building near the railway in which he will start business as soon as completed.

L. Schuller has his residence well on toward completion on his Alfred avenue lot.—Telkwa Tribune.

METLAKATLA BAND SHOWS RIGHT SPIRIT

Willing to Do All in Its Power to Assist the Prince Rupert Fair.

Loyalty to Prince Rupert and the north is the keynote that dominates the Metlakatla village council in spending money liberally to perfect a band organization that is probably the most unique and modern in the whole province. Not only have the Indian councillors of the nearby village treated their band very generously in equipping the musicians with the best instruments that money can purchase, but the twenty odd members have been supplied with attractive uniforms. Another feature that makes the band distinctive is the fact that it is under the conductorship of a native musician, Mr. Job Nelson, who is not only a bandmaster of merit but is also the only Indian composer in Northern British Columbia. In honor of the fair the Metlakatla band will render Mr. Nelson's latest composition, "The Prince Rupert Pioneer Exhibition March," in the march competition.

"Our organization is prepared to help the fair in every way possible," said Mr. Peter Venne, chief councillor of the Metlakatla village, this morning in discussing the forthcoming event. "The band will come across on Tuesday and stay until the exhibition closes. Not only shall we enter in the several band contests, but purpose doing our best to entertain the visitors here by giving several public performances, both downtown and at the exhibition bandstand. We are not, however, looking for money all the time like other organizations, but are willing and anxious to help Prince Rupert at any time when music is needed here," he concluded.

OPENING BALL WAS A GREAT SUCCESS

Music Was All That Could Have Been Desired and All Enjoyed Themselves.

The social season was most fittingly opened last evening when the Daughters of the Empire, famous as entertainers, gave their initial dance of a series of monthly affairs in the St. Andrew's Society Hall. The ball room was gay with bunting, the soft glim of shaded lights, adding a lustre to the many handsome gowns worn by the ladies. Mrs. McLennan, the Regent of the Chapter, received the guests in a smart gown of bronze sequins, over black satin. The program of eighteen dances and three extras had been most carefully arranged, and the music by the Westholme orchestra, the best ever heard in this city. The following ladies and gentlemen were noticed on the floor and in the cosily arranged spectators gallery: Mr. and Mrs. J. C. McLennan, Mr. and Mrs. Thos. McClymont, Mr. and Mrs. Bryant, Dr. and Mrs. L. W. Kergin, Mr. and Mrs. Morie Craig, Mr. and Mrs. Norman Broadhurst, Mr. and Mrs. A. M. Manson, Mr. and Mrs. J. H. Hilditch, Mr. and Mrs. J. G. STEAMER'S DECKS

Crowded with Live Stock for the Exhibition.

The Princess Mary arrived in port this morning just a few minutes before the Prince Rupert. The steamer looked as if it were running a fair in opposition to the Prince Rupert event of next week. On the forward decks were sheep and fowl that looked as though they would stand up well alongside of the best. Inquiries revealed the fact that instead of being in opposition the shipment is for exhibit at the Prince Rupert fair.
