THIS IMPORTANT QUESTION OCCUPIED THE ATTENTION OF JUDGE AND LAWYERS YESTERDAY.

When a meal is not a meal" the question argued between the question argued between Judge Young yesterday afternoon in connection with the appeal by Corley & Burrows, of the Royal Hotel, against the decision of Magistrate Young convicting the appellants of selling liquor during prohibited hours.

Cross-examined by Mr. Fisher for the Crown, the witness admitted that there was a special menu for lunch and dinner, which was off at 8 o'clock.

#### GERMAN EMPEROR MAKING NO INVESTMENTS IN THE PROVINCE

ALVO VON ALVENSLEBEN DENIES THE STORY OF THE KAISER HAVING BOUGHT REALTY IN VANCOUVER OR BRITISH COLUMBIA.

Vancouver, Sept. 22.—Germany's Kaiser has not bought real estate in Vancouver or in British Columbia. The report, emanating from Berlin and sent broadcast from London that Emperor Wilhelm II had purchased real estate in this province through Mr. Alvo Von Alvensleben, managing director of the financial and real estate corporation of that name, is incorrect.

Mail, from which the story originated, I have negotiated the deals by which His Majesty was supposed to have acquired land in the province.  
"As far as His Majesty is concerned, I have to deny this report most emphatically and I will ask you to deny it for me."  
Mr. Von Alvensleben has negotiated several substantial deals for British Columbia city property, agricultural and farming lands for German syndicates. His business has taken him back to Germany on some occasions and the extensive transactions in which he has interested Germans probably gave rise to the erroneous report wired from London yesterday.

## PRINCE RUPERT'S FIRST FAIR IS NOW IN FULL SWING

Hon. C. Price Ellison, Minister of Agriculture, Formally Opened The Exhibition This Morning---Great Variety of Exhibits in All Lines

The first exhibition for Northern British Columbia to be held in Prince Rupert is now open, and judging from the auspicious conditions under which the formal opening was held it is off to a good start. All that is required to make it a complete success is a continuance of the ideal weather conditions which prevailed this morning.

Pattullo said that it afforded him the utmost pleasure to be present at the opening of the first agricultural and industrial exhibition for Northern British Columbia at Prince Rupert. He took advantage of the opportunity to congratulate the officers of the exhibition on the success which had so far attended their efforts and on behalf of the citizens conveyed to the energetic secretary, Alderman Bullock-Webster, their appreciation of his untiring efforts in bringing the exhibition to such a success.

On behalf of the city he extended to Hon. C. Price Ellison and his daughter a most hearty welcome to the city. Nothing could be more appropriate than that at the opening of Prince Rupert's first exhibition the honorable minister of agriculture should be present. Mayor Pattullo at the same time extended a hearty welcome to the other visitors from the surrounding district who are here to attend the fair.

#### BILLY WILLIAMS ON HAND FOR THE FIGHT

Lived on Prince George This Morning and Begun Training at Windsor Gym.  
A group of fight fans were on the wharf this morning waiting to shake the hand of Billy Williams, which they did as soon as the class pugilist came down the plank of the Prince George. Williams looks fine and fit. He is clean cut and built on the lines of Pat Scott, who he slightly resembles. He is to give a pre-fight bout at the Windsor gym at 6 o'clock tonight and there will be many to see the defeater of Benchy Vaise, who later on won the championship of Canada from the Bayley.

#### "SERGEANT BRUE" WAS NO DISAPPOINTMENT

Queenie Williams and Charlie Bennett Were the Funmakers Last Night.  
For genuine side splitting comedy, catchy songs, pretty dances and lively choruses, one would have to go a long way to get more than was presented by the Pollard Juvenile Opera Company last night in that amusing and entertaining bill, "Sergeant Brue." They were again greeted by a packed house, a large percentage of which is likely to be in attendance throughout the entire engagement.

ward, and they have theirs in the personal pride each one must feel in the result of his efforts.

But this is not a patch on the Prince Rupert Agricultural and Industrial Exhibition of 1914. Not by a large jugful.

The growth of great cities in the past has been comparatively slow and only accelerated by the forces of location and the gradual growth of its surroundings.

We have been boastfully hopeful of the future, but at the same time merely plodding slowly along, each in his individual way and with too little thought of his fellow and his hopes and ambitions.

No one can look upon this exhibition of the product of our great fisheries, the minerals which show to the trained comprehension the richness and vastness of the hinterland.

And you must remember that but for this exhibition we ourselves would not have known what we have as the centre of so productive an area.

London, Sept. 20.—The illustrated papers today bring home to Englishmen a vivid realization of the astounding and unparalleled situation in Ulster.

The Irish political situation as viewed in London looks menacing but not hopeless. It is obvious that Ulster's military preparations, capped by the appointment of a distinguished retired British officer, General Sir George Richardson, to lead the Ulster volunteers, have put serious difficulties in the way of a settlement by consent.

WAR AND MOBILIZATION LOANS TO BE FLOATED IN PARIS—GLASGOW AND MANCHESTER PREPARING TO PURCHASE CANADIAN BONDS.

London, Sept. 20.—Manchester and Glasgow are likely to become the financial Mecca of Canadian municipalities and industries seeking capital, following the rather favorable reports of the influential delegations which have just returned from the Dominion. The idea is to deal direct and save the London commission, using the funds now hoarded in the banks of North Britain and held by wealthy industrial kings. The delegates who have been to Canada report that there is no big risk in loaning to western municipalities, as was suggested in the financial press found only two questionable cases. It is understood that negotiations are proceeding for the handling of the Winnipeg water-works issue between Manchester and Glasgow, but the underwriters will not be ready for such a large amount until January. By then, it is believed, London will also be ready to take care of some municipal and industrial issues, as practical confirmation has been received of the report that continental nations are arranging to float their war and mobilization loans of 4,500,000,000 francs in Paris. The total of the loans is less than was estimated and London fully expected to have to bear the brunt of it. But now it is going to Paris. Financial news from the continent is optimistic, principally because of the good feeling existing between Austria and Russia. So, with the chances of war or even a crisis abroad eliminated, the British money market will soon be ready again to assist legitimate Canadian enterprises.

WIRELESS SHOWING PICTURES AT NIGHT

California Inventor Claims to Have Machine Which Will Prevent Collisions.

Vallejo, Cal., Sept. 20.—A local inventor has evolved a wireless photographic instrument which works only at night and reflects on a mirror, it is said, a moving picture of everything within a radius of several miles. He has been invited by Secretary of the Navy Daniels to take the machine to Washington for inspection by experts of the navy department. The instrument receives its impressions from a web of wires attached to a tall mast. For this reason it is adaptable to ships, making impossible, its inventor claims, night collisions, accidents due to fogs and running afoul of icebergs. It would be valuable too, it is claimed, for army use, as the movements of any enemy at night could be easily followed.

The new plan of Imperial citizenship will not interfere with the Canadian naturalization laws as they stand at present and for those who aspire to Canadian citizenship only, the three years' residence in the Dominion will continue to apply.

IMPERIAL CITIZENSHIP UNDER RECIPROCAL SCHEME MISLEADS

BUT THE NEW PLAN DOES NOT INTERFERE WITH THE CANADIAN NATURALIZATION LAWS AS THEY STAND AT PRESENT

The announcement made recently to the effect that under the agreement with the British Government in reference to British naturalization four years' residence in Canada and a fifth in the United Kingdom is required in order to qualify for Imperial citizenship, is somewhat misleading.

It would indicate that before a foreigner can become a citizen of the Empire he must reside a year in Great Britain. That is not necessary in all cases, how-

**Saving of Fuel**  
Then again the special Reversible Grate saves coal bills by burning the coal to a fine white ash. No unburnt coal can lodge in the rounded corners of the firebox.

Its smooth, clean top is polished and requires no black lead.

The Gurney-Oxford is "different" from all other ranges—its exclusive devices make an irresistible appeal to every woman.

**Even Bakings**  
By means of a Divided Flue Strip, the heat is divided evenly over the top and down the back and sides of the oven. A pan of biscuits in the front and back of the oven will brown with perfect evenness without having to change their places many times during the baking. The two back lids of the range also receive an equal cooking heat that will boil two kettles at the same time.

### RUPERT'S FIRST FAIR IS NOW IN FULL SWING

(Continued from page 1)

#### Hon. C. Price Ellison.

Hon. C. Price Ellison was given a most enthusiastic reception by the large gathering. In opening his address he drew attention to the many difficulties he had experienced in reaching Prince Rupert in time for the opening. For the purpose of gathering information concerning the interior he had come by way of Edmonton and Tete Jaune Cache. As the difficulties of travel increased he feared many times he would be unable to get here in time. Coming down the Fraser the boatmen objected to running at night, telling him of the chances they took of landing in Kingdom Come. "Turn her loose," I said. "Prince Rupert or Kingdom Come is good enough for me." He had cancelled nine engagements for opening other exhibitions in order that he might reach here in time. He was somewhat afraid that it would be impossible to congratulate Prince Rupert on its first exhibition, but from what he had already seen of it he was astonished and the citizens of the district had every reason to be proud. From his trip through the interior he had found the country immensely rich in resources of all kinds and it is up to the people to take a part in their development. To do so they must have faith and there is no reason why this should be lacking. The example set by the government in spending \$500,000 for government buildings in Prince Rupert and that set by the G. T. P. in building a hotel that promises to eclipse the Empress in Victoria should give ample courage to others. He referred to the excellent roadbed of the G. T. P., particularly the last 100 miles over which he travelled and to the scenic beauty of the route. This in itself is a great resource for Prince Rupert and will bring thousands of tourists here annually.

Referring particularly to agriculture, Hon. Mr. Ellison said that the products in the interior had astounded him. Coming through he had seen a fourth crop of alfalfa grown on one ranch this season. In the Okanagan, considered the most famous agricultural section of the province, he had been able to raise only three crops. Holding up to view a potato which he had a few moments before picked from a stand in the vegetable tent, he said that nothing better could be grown anywhere. The province of B. C. imported annually between \$15,000,000 and \$20,000,000 worth of agricultural products. He had no doubt whatever but that before long the province could and would produce enough for its own consumption.

Addressing the school children, the speaker endorsed the remarks of Mayor Patullo and said that the residents of the province had every reason to be proud of the splendid educational facilities that were offered. There was no reason, he said, why among the large gathering of children before him there was not even a future premier of Canada.

In formally opening the fair, the honorable gentleman said that it was but the beginning of what should become one of the best fairs in the province. The coun-

try through which he had travelled was undoubtedly one of the best parts of the province from an agricultural standpoint. He regretted that he could not remain in the city longer on this occasion but hoped to return at an early date and make a longer visit.

#### Medal Presented.

At the conclusion of the address, Mr. McMullin, the president, presented to Hon. Mr. Ellison a neatly engraved medal as a memento of the occasion. It was customary, he said, on such an occasion to present a key, but as there was no key for the present building a medal was substituted.

With the singing by the school children of "God Save the King" the opening ceremonies were brought to a close and the doors were thrown open to the public.

The first of the contests among the Indian bands was finished this morning. It was the station-had already seen of it he was as a silver medal for each member. The prize went to Kitkatla. The other bands participating were Metlakatla, Kincolith, Greenville and Aiyansh. Prof. Milton Douglas of Seattle is the judge. Other contests are being held this afternoon.

**Best Decorated Tables.**  
One of the prettiest features of this morning's program at the exhibition was the table decorating contest held in the balcony of the Industrial Hall. There were five entries and Mr. A. H. Tomlinson, the judge, had a hard task before coming to his final decision in awarding the first prize to Mrs. Percy F. Godenrath of Stewart. Mrs. A. Ackerberg won second place and Miss Du Vernet third. Each of the five tables were very tastefully decorated in flowers and ferns, but only two attempted to set their tables for service. Mrs. Godenrath had the full complement of silverware and cut glass for a party of four people, finishing her table with red ribbons, red carnations and red candle shades.

Mrs. Ackerberg's table was set for two people, featuring yellow chrysanthemums and yellow candle shades. Miss Du Vernet and the two other entries arranged their tables only with flowers, but in all three cases the floral decorations showed excellent taste.

**Band Contest Tomorrow.**  
Tomorrow at 11 a. m. sharp the five Indian bands will compete for the J. S. Gray silver cup for the best selection, members of the winning band also each receiving a silver medal. On Friday morning the bands will join the trades and labor parade and will play as they march. The winning band will receive the Wark cup and also a handsome kettle drum, given as a special prize by Whaley, Royce & Co. of Toronto.

**Water Sports.**  
The competition for the best decorated boat this morning was so keen that the judges were unable to decide which of the contestants was winner. The prize was therefore divided between the Poin Sette decorated by Mrs. A. G. McLaren and the White Swan by Lionel Crippen.

Owing to the length of time taken by the launch races all the other water sports are postponed until Friday morning.

**Directors' Luncheon.**  
At 12:15 today a complimentary

luncheon was tendered by the directors to Hon. C. Price Ellison, at the conclusion of which he was presented with a small package of Crippen's boneless herring. Responding, the minister said he fully realized that it was fish that had brought Northern British Columbia into prominent and therefore he would greatly prize the token given him.
