LAST OBSTRUCTION IN PANAMA CANAL REMOVED BY BLAST — FOR PACIFICATION OF ULSTER

RAILWAY EMPLOYEES TO FORM MUTUAL INVESTMENT ASSN.

SCHEME FULLY EXPLAINED AT MEETING LAST NIGHT — WILL BE CAPITALIZED AT \$100,000.00 — A LARGE AMOUNT SUBSCRIBED

At a largely attended meeting of the United Railway Men's Association of this city in the K. of P. Hall last night, Mr. Johnstone, formerly paymaster on the line, explained fully the details of a proposition for the formation among the members of a mutual investment and building society. According to the plans outlined the company will be capitalized at \$100,000, divided into shares of \$1 each. The shares will be sold to railway men only and if a shareholder at any time wishes to dispose of his stock he must sell it to an employee of the railway. The principal object of the company is to provide funds which can be loaned to any railway employee who wants to build his own home rather than pay rent to a landlord. According to the plans the money loaned to any individual is to be paid back in instalments about equaling the rent that would have to be paid for the property built. Len Bell, one of the most popular locomotive engineers in the city, P. A. Warren, Frank McIntosh, Herman McLeod and Geo. H. Loney have already been elected provisional directors of the company and some \$4000 has been subscribed. The officers who

shall be elected to manage the affairs of the company shall give their services gratuitously.

In connection with the company it is proposed to erect a large block somewhere in the city where the railway men could have comfortable club rooms in which to spend their leisure hours. A good revenue could be derived from stores and offices in such a building.

An active canvass is to be made in the near future to supplement the funds already subscribed.

The meeting, which was attended by nearly two hundred men, partook of the nature of a smoker and as further entertainment a good programme was provided. Among those who took part were L. Green, T. McKinnon, J. McKenzie, W. Whitley and J. Murray. There were also a couple of boxing exhibitions which were decidedly interesting. In a contest between Sherman and Gilmour, two local men, the award was given to the former. No decision was given in the contest between Frank Smithers, a recent arrival from Toronto, and the Mexican Wonder. Len Bell, president of the association, acted as chairman in a most acceptable manner.

PREPARING FOR ANOTHER WILD TRIP TO ANTARCTIC REGIONS

BRITISH EXPEDITION, HEADED BY MR. J. FOSTER STACKHOUSE, EXPECTS TO LEAVE NEXT YEAR FOR LONELY KING EDWARD LAND.

London, Oct. 7.—Preparations are far advanced for a new and important British Antarctic expedition under the command of Mr. J. Foster Stackhouse, nephew of the famous physician, the late Sir Jonathan Hutchinson. Mr. Stackhouse was intimately associated with Captain Scott, and his objective will be King Edward the Seventh's Land and the unknown area to the east of it.

King Edward Land was discovered by Captain Scott in 1902, but he did not land there, and no man has ever trodden its soil. For the voyage, a special boat, the *Polaris*, has been built in Norway, according to designs approved by Nansen. Captain Scott also saw the plans and made suggestions regarding them.

According to present arrangements, the expedition will start from the Thames about August 15, and enter the ice at latitude 70 degrees south, and longitude 100 degrees west. It will winter in the pack ice and stay, if necessary, a second or third winter.

The return journey will be made by way of the Panama Canal. Mr. Stackhouse himself has never been to the Antarctic, but he has had a good deal of Arctic experience. The *Polaris* is built entirely of oak and is specially strengthened to resist ice pressure. In the bows she is over nine feet thick, and on the beam she has a thickness of two feet. The *Polaris* is fitted with engines of an indicating horsepower of 400, and has on her trials given the satisfactory speed of 10.25 knots.

She is the first vessel built for exploring purposes which has accommodation for members of the staff in staterooms, ten of which are fitted, giving single berths for ten persons. She is also fitted with harpoon guns. The *Polaris* is 148 feet 6 inches long between perpendiculars, has

a beam of 25 feet and draws 15 feet 6 inches by the stern. Electric light is used, and this is so wired as to give no cause for fear of fire by the fusing of the wires. Her storage accommodation is very extensive, and she can carry a very large supply of coal.

RETURN ENGAGEMENT
Popular Opera Company to Open Saturday Night.

The Pollard Juvenile Opera Company, which must be acknowledged the most popular organization of its kind that has ever visited Prince Rupert, will arrive in the city from the north on the Princess May on Saturday for a short return engagement. They will open at the Westholme on Saturday evening with "Sergeant Brue," the most pleasing bill of their previous engagement. The prospects are that they will be greeted with a bumper house.

AGAIN ARRESTED
ON THEFT CHARGE

Fred Benson, the Indian from Stewart who was dismissed a week or so ago on a charge of stealing a blanket from a cache, was brought to the city again this morning on another charge of theft. He is to appear before Magistrate McMullin at 2:30 this afternoon.

VANCOUVER MAY BUY THE ELECTRIC ROADS

Plebiscite Will Probably Be Submitted to the People at the January Election.

(Special to The Daily News.)
Vancouver, Oct. 10.—F. R. Clover, for the B. C. Electric Railways, told the civic committee last night that the company was willing to dispose of the system to the city if a reasonable offer was made before the expiration of the company's franchise in 1918. The committee recommends that a plebiscite of the citizens on the question be taken whether the city should buy immediately and giving the council power to act. A plebiscite is likely to be submitted at the January election.

MOTHER ACCIDENTALLY SHOT BY DAUGHTER

Kitsumkalum Woman Brought to the General Hospital Last Night.

Mrs. Emma Johnson, a native woman, of Kitsumkalum, the victim of a shooting accident, was brought to the city by last night's train and immediately taken to the hospital. A .22 rifle in the hands of her 12-year-old daughter was the cause of the mishap. The weapon was discharged accidentally and the bullet passed through the mother's leg, between the knee and the ankle. The little girl was not aware that the gun was loaded.

DR. DRYSDALE MISSING
Is Known to Have Started on Return to Nanaimo.

(Special to The Daily News.)
Seattle, Oct. 10.—Dr. W. F. Drysdale, a physician of Nanaimo, B. C., is missing, and the police of this city have been asked to search for him. Dr. Drysdale arrived here on Monday on the steamer President from San Francisco and proceeded directly for his home at Nanaimo.

PHILADELPHIA WINS.

(Special to The Daily News.)
Philadelphia, Oct. 10.—By the most hotly contested game of any of the world series so far played Philadelphia won the game today. For the four games played Philadelphia won two in succession, the result now being 3 to 1 in their favor. Today's score was:

New York. 0 0 0 5 0 0 3 2 0—5
Philadelphia 0 1 0 3 2 0 0 0 0—6
New York scored eight hits and two errors, and Philadelphia nine hits and no errors. Bender pitched for Philadelphia and Demare and Marquard for New York. At yesterday's game in New York the attendance was 36,888, exceeding by several hundreds the attendance at the opening game of the world series on Monday, and these fans paid to see the game \$75,675.50. This would give the National Commission \$7,567, the two teams \$5,810 each and the balance for the players, \$56,486.85.

FORCIBLE FEEDING FOR THE MILITANTS

Cat and Mouse Act Does Not Apply in the Case of Miss May Richardson.

(Special to The Daily News.)
London, Oct. 10.—The belief of the militant incendiaries that under the Cat and Mouse Act they could always obtain their freedom by a hunger strike received a rude shock yesterday. The home secretary announced that Miss May Richardson, who had been in prison since October 4th, and who was still refusing to take food, would not be released, but that the prison authorities had been instructed to resort to forcible feeding.

PAID FIFTY CENTS TO SLEEP IN THE OPEN

Travellers at Smithers Could Not Get Decent Sleeping Accommodation.

Passengers coming from the interior by last night's train report accommodation at Smithers as inadequate. As many passengers as could sleep in the coaches on Wednesday night. During the previous afternoon one man, realizing the opportunities, constructed a small platform, over which he threw a tarpaulin. Sleeping space thereon sold readily at 50 cents per person, the sleepers providing their own blankets. Several lodging houses are in course of construction and better accommodation is expected in the near future.

SIR WILFRID SPEAKS FOR SYDNEY FISHER

Distinguished Veteran Advises Borden to Leave Imperial Affairs to Asquith

(Special to The Daily News.)
Ormistown, Que., Oct. 10.—Speaking at a meeting in favor of the candidature of Hon. Sydney Fisher, former Minister of Agriculture and now the Liberal nominee in Chateauguay, Sir Wilfrid Laurier advised Premier Borden to leave the Empire to Premier Asquith. Home affairs, Sir Wilfrid said, demanded more attention than Imperial questions.

He declared that while the increase in the cost of living in Great Britain according to the Board of Trade report had been seven per cent., in Canada it had been fifty-one per cent.

BRITISH GOVERNMENT OFFERS TO MEET THE ULSTER TERMS

HOME RULE BILL TO BE PASSED, BUT ULSTER EXEMPTED FROM ITS OPERATIONS—WINSTON CHURCHILL'S SPEECH OF CONCILIATION.

(Special to The Daily News.)
London, Oct. 10.—It is stated this morning that Winston Churchill's speech at Dundee represents the government's official attitude toward Ulster, which is one of conciliation. It offers the exclusion of Ulster and the north-

west of Ireland from the home rule bill conditions. Upon this the Unionists have agreed to work with the Liberals for the future success of the settlement. The greater part of the newspapers declare the speech was conciliatory and a long step toward peace.

OPENING OF PANAMA CANAL IS CELEBRATED WITH GREAT NOISE

PRESIDENT WILSON PRESSES BUTTON WHICH RELEASED TREMENDOUS BLAST THAT REMOVED LAST PHYSICAL OBSTRUCTION IN CANAL.

(Special to The Daily News.)
Washington, Oct. 10.—At 2 o'clock this afternoon, eastern time, President Wilson, seated in the White House and surrounded by his cabinet and several senators, pressed the button which released an electric current that travelled overland and under sea to Panama, there discharging the big blast which destroyed the Gamboa dyke, the last great physical obstruction for the opening of water communication between the two oceans. In ten minutes afterward the White House operator handed a message to the President from Colonel Goethals that the explosion has been in every way a

success and the Panama Canal now open. A number of complimentary telegrams were then exchanged.

When the President touched the button the fact was recorded instantly in all the telegraph offices along the Pacific Coast from San Diego to Seattle, and the great noise started. From all the battleships and all the forts booming salutes were fired and in addition each city contributed its own big din. There are many banquets to be held tonight in the several cities along the coast, in celebration of the great event. Nothing has been officially announced yet as to the date when the canal will probably be open for commerce.

CARNEGIE COMMISSION SENT TO INVESTIGATE ATROCITIES

REPORT THAT THEY WERE HINDERED IN THEIR ENQUIRIES ON BALKAN BATTLEFIELDS IS DENIED—REPORT TO BE PUBLISHED.

(Special to The Daily News.)
Paris, Oct. 7.—Baron D'Estournelles de Constant presided at a meeting of the Carnegie foundation for international peace yesterday. The members of the commission which went to the Balkans to investigate the recent wars there and report on the alleged brutalities and the economic results were present. The commission's report probably will be published in November.

Prof. Dutton declared after the meeting that the reports which had been published to the effect that the mission of the commission had been a failure and that the commission itself had dissolved, were untrue.

It was true, he said, that Serbia had objected to the presence of Prof. Miliukoff on the commission. Greece objected to Mr. Brailsford, the English representative, although he had once fought for them. Nevertheless, Greece had been offended at his writings about Macedonia. He added: "We were entirely free, we went where we pleased, with slight exceptions. We were undoubtedly under supervision all the time, but this fact was almost unapparent. We arrived at Belgrade during the celebrations over the Servian victories. We

went southward as the demobilization was proceeding, and got to Salonica. We remained there a fortnight and made excursions to various places. "Afterward we went to Sofia, where we spent another fortnight. We went 150 miles by motor car to Vidina, Bulgaria, where we expected to cross into Roumania, but cholera was prevailing in that neighborhood. We found cholera everywhere after we left Belgrade. There were hundreds of deaths every day while we were at Salonica."

FOUGHT MOUNTAIN LION

Finally Killed the Animal With a Rock.

(Special to The Daily News.)
Los Angeles, Oct. 10.—Edwin Eatlake, rancher, is in a serious condition as the result of a battle with a huge mountain lion. Although he had a rifle, Eatlake had not a chance to use it when the beast sprang at him. He finally killed the animal with a rock.

After Municipal Honors.

It was rumored on the street yesterday that two candidates are already in the field for municipal honors at the next election and that if either backs down he must forfeit \$5. It is said that George Frizzell will have to stand for aldermanic honors and Harry Rochester for the mayoralty. The understanding is that if either runs and the other backs down the latter must pay the forfeit.

DAILY EDITION Friday, Oct. 10, 1913.

NEW BRITISH COLUMBIA.

The Victoria Colonist is impressed with the fact that daily trains are now running to Smithers and are also running through the Yellowhead Pass some 90 miles down the Fraser River, and it goes on to speak of this new British Columbia being opened up by the railway. Its area, it says, is about 80,000 square miles, which makes it about twice as large as the three maritime provinces. Speaking of Prince Rupert, it says:

"The magnitude of the development which will ensue from the building up at Prince Rupert of a great ocean and railway terminal cannot very well be estimated, nor can we measure the importance which the fisheries will assume. We speak of these things only in a very general way, but they are factors the value of which cannot be measured. They mean a large population, which will furnish a market for all that can be produced upon the farms of the interior. The whole statement of facts regarding the great area, soon to be opened to colonization and enterprise, shows what a magnificent heritage we have in New British Columbia, a region where, ten years ago, there was scarcely a settler, except at a few points along the coast and in the immediate vicinity of the old gold fields of Cariboo. Surely there is great promise in all this to those persons who think of British Columbia as a whole."

ANOTHER BENEFIT TO THIS PROVINCE.

It was pointed out in this column a few days ago what an impetus would be given to the fishing industry of this port by the new American tariff taking off the duty on fish. In another direction the new tariff is to be of great benefit to Prince Rupert and the province. This is in the removal of the duty on paper and pulp. This clause was bitterly fought by the paper combines in the States, which declared that free paper would put them out of business because it could be manufactured much cheaper in Canada near the source of an almost inexhaustible supply of raw material close at hand to water powers which were available under the most favorable conditions.

The pulp and paper industry of this province is steadily growing, although up to the present the market has been limited. We may reasonably expect now that there are greater possibilities in this direction that the ratio of growth will be radically larger.

There are five pulp mills in the province, but only two of these are now in operation. The one near here, at Swanson Bay, is not at present making pulp. But doubtless with the advantage of the new tariff it will start up again, as will the others. Also, the industry is bound to grow very rapidly under such favorable conditions, and the growth of the industry will rapidly increase the trade of this port.

MOTTO OF PRINCE ERNEST**

REFUSAL TO RENOUNCE RIGHTS TO HANOVERIAN SUCCESSION MAY BALK KAISER'S AMBITIONS

Berlin, Oct. 7.—An utter deadlock apparently exists in the negotiations for placing Prince Ernest of Cumberland and his bride, Victoria Louise, of Prussia, on the throne of Brunswick, and Emperor William may be disappointed in the hope of seeing his only daughter the wife of a reigning sovereign. This has been

PRINCESS VICTORIA LOUISE

brought about by the failure of the Prussian officials to realize clearly before the betrothal of the young princess, the determination of Prince August Ernest and his father, the Duke of Cumberland, never formally to renounce their rights to the Hanoverian succession.

Princess William's lawyer son, who was sent to confer with him at Karlsruhe before the betrothal to induce him to renounce his rights was met by this statement from the Duke: "For me and my family, honor comes first, then love."

Princess Victoria Louise, therefore may find herself the wife of a pretender in much the same position as former King Manuel of Portugal.

Port Simpson Band Take Remains of Albert Wellington.

Conductor Pollard, Secretary D. A. Johnson and all the members of the Port Simpson band came over yesterday afternoon and took back with them the remains of Albert Wellington, who had been one of their prominent members for over sixteen years. He was with the band when it first played here on May 24, 1906, and also when the band won the first prize at New Westminster in 1905.

He was also one of the band when they received the honor from the Prince of Wales, now King George, at Vancouver in 1901, and on many other notable occasions he figured with the band and assisted his fellow members in winning marks of commendation.

**ACTORS PERSONATING
TURKS WERE MOBBED**

When King Nicholas' Play Was Being Aided Turkish Characters Nearly Lynched.

Cettinje, Montenegro, Oct. 6.—Riotous scenes, almost culminating in the lynching of the actors who represented Turks, marked the first performance tonight of King Nicholas' play, "The Siege of Scutari."

When the actor who played the role of Essad Pasha came upon the stage the tumult became deafening. A youth sprang on the platform, revolver in hand, and with difficulty was restrained from shooting the actor. When a member of the cast, before the battle scene, began to describe the assault on Taraboseh, several veterans in the audience arose and denounced him as a liar.

When the third act showed the Turks in full retreat the audience made a rush for the stage with the intention of lynching the wearers of the fez. The police were compelled to use force to restrain the frantic people.

New Loan for China

London, Oct. 7.—A Shanghai dispatch to the Morning Post, says it is understood that the Chinese government is arranging to borrow \$125,000,000 from the quintuple syndicate, consisting of bankers of France, Germany, Russia, Great Britain and Japan. The loan will be made on the same terms as the previous one.

SALMON BELLIES BEAT UP THE UMPIRE MOST OUTRAGEOUSLY

IT WAS ALDERMAN FRED LYNCH, ONCE A PLAYING MEMBER OF THE NEW WESTMINSTERS, AND SINCE AN EXECUTIVE OFFICER

An incident absolutely unparalleled in Canadian lacrosse says the Vancouver Province, took place after the Minto Cup game at the New Westminster Exhibition on Saturday afternoon when Ald. Fred J. Lynch of New Westminster, who had officiated as referee in the contest, which was won by the champions by a score of 5 to 3, was assaulted in the dressing room of the Westminster club by certain of the players.

Vancouver team from scoring in the last two periods. This money was naturally not forthcoming when the V. A. C. scored two goals in the last quarter after the champions had been left shorthanded by the rulings of the referee and the loss of the coin may have affected the temper of the players.

The case is all the more remarkable when it is considered that Ald. Lynch is not only a citizen of considerable prominence in New Westminster, but was formerly a player of the New Westminster team and has always been very closely associated with the club since in an executive capacity.

MOST WONDERFUL MURDER TALE EVER TOLD BY ANY MURDERER

UNPARALLELED CONFESSION OR BOAST OF MAN ARRESTED IN CHICAGO FOR ONE MURDER WHO OWNS UP TO TWENTY

The Chicago police on Friday last arrested a man named Henry Spencer for the murder of Mrs. Mildred Allison-Rexroat, a dancing instructor. Very shortly after his arrest he said to his captors: "My head is as clear as a bell. You have got me dead to rights on the Rexroat murder, and I know I shall be hanged in a couple of months. That's why I want to tell everything else and get it out of the way. I wanted to tell all and then be treated decently until they pull the rope."

Former wife, near Walkerville, Ont., beaten to death in woods. Robbed of \$300 and diamonds worth \$800 former maid to Helen Gould.

Aged man in Washington Park last spring; shot and thrown into lagoon. Got \$200 in cash. Two girls at Delavan Lake, Wis., in June. Killed with hammer and bodies thrown in lake.

Woman in house near Cook County Hospital. Used hammer and burned clothes. Got \$160 and rings.

Woman in house at Fulton and Halstead streets, about eight months ago. Used hammer and burned clothes. Robbed house.

Saloonkeeper on Vanburen street, near Aberdeen. Shot man and wounded wife while robbing saloon.

Man shot and killed in alley under South Side elevated about a year ago.

Ida Oliver, killed with hammer November 9, 1912. Body thrown into drainage canal and decouered May 29, 1913.

Mrs. Mildred Allison-Rexroat shot near Wayne, September 25, and body placed on railroad track.

Unknown man and wife killed at Fox Lake, Ill., on September 11, 1911, and bodies thrown in lake.

Unknown man who brushed against at Forty-second street and Indiana avenue last spring. Shot, body dragged into alley and robbed.

Saloonkeeper in Park Row killed about two months ago and robbed.

The man who claims this almost unbelievable record is a Chicago product. He does not know his real name and the first he remembered he was in the home for the friendless, located within a block of the scene of his arrest.

He has spent his last twenty years in the state prison at Joliet. He was sentenced twice for robberies and was returned twice following violation of paroles.

After the long siege of questioning by the police he put his hands to his head and said: "I am too tired to remember any more just now. I got to have some sleep. Maybe when I am rested I can remember some more. The truth is I killed so many I can't remember all of them."

GOLD FOUND IN THE HEART OF PORTLAND

City is Possessor of a Mint Much More Valuable Than Alderman Morrissey's.

Portland, Ore., Oct. 6.—Gold bearing gravel assaying \$1,092 to the ton has been found by city workmen in Mount Tabor Park, and as a result Commissioner of Public Works Brewster has ordered a guard placed around the property until the extent of the find can be ascertained.

The gold was discovered when workmen in the roadway through the park struck sand and gravel. In digging through this an amount of yellowish substance was uncovered, and when seen by the workmen all made a dive for it.

An assay was made a few days ago but the matter was kept secret until the park department could get the situation in hand before making it public.

WHO IS TO BLAME?

How a Government Job is Being Jobbed at Bella Coola.

The story of how tenders were called for the building of a lock-up and constable's quarters at Bella Coola as long ago as last May, and how the public works engineer sent a certain firm's tender to the local road superintendent for him to report upon. How—as it so happened—this latter official reported adversely and finally how his work is now being held as a winter's job for certain persons on the inside is now too well known to need repetition.

Enough for us to say that apart from a little work done toward clearing the proposed site, Bella Coola is as far from having a lockup as it ever was.—Bella Coola Courier.

If a man is always making new friends it's a sign his old friends are on to him.

After the long siege of questioning by the police he put his hands to his head and said: "I am too tired to remember any more just now. I got to have some sleep. Maybe when I am rested I can remember some more. The truth is I killed so many I can't remember all of them."

YOU HAVE HEARD OF THE FAMOUS Bulkley Valley

Which contains one of the largest and richest bodies of agricultural land in British Columbia.

You have heard of the tremendously rich Babine, Hudson Bay Mountain and Copper River mining districts.

The Grand Trunk Pacific is now operating trains from Prince Rupert to a point 301 miles east.

The trade centre and future city of this wonderful section is HUBERT—located in the very heart of the Bulkley Valley, and from where branch railroads must be built to open up the great surrounding country.

HUBERT is located three miles east of the old towns of Telkwa and Aldermere, both of which will move to the railway.

HUBERT is the recognized location for the future city, and has behind it the same organization that created and made Fort George famous.

To-day's Impressions To-morrow's Sales
Many a September purchase is really decided in July.
Many a woman is gathering information to-day that will influence her selection of a stove two months hence.
Many a man is thinking right now about the store he will patronize for his Fall suit and overcoat.
Many an October piano purchase is really determined on the porch of a summer hotel or home in August.
How unwise, then, to put off the Advertising of these and similar articles until the actual time of their use arrives.
One advertisement seldom makes a sale. It is the repeated impressions created by Advertising that develops purchases by a discriminating public—and these impressions are seldom built up in a day, a week or a month.
Yet some manufacturers and merchants still procrastinate until the first nip of frost is felt—and then besiege the public with belated announcements of Fall clothes, kitchen ranges, home furnishings, winter underwear, and other articles usually purchased in the Fall.
Purchased in the Fall—oh, yes—but decided upon in the Summer. Decided in favor of the goods that are continuously advertised.
It's the Advertising read in July that bears fruit in September and October. For to-day's impressions inevitably lead to to-morrow's sales.
Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 509 Lunenburg Building, Toronto. Enquiry involves no obligation on your part—so write, if interested.

PREMIERS AGREE TO POSTPONE MEETING

Ottawa Conference Set Back a Week—Will Be Held on Twenty-seventh.

Victoria, Oct. 6.—The forthcoming conference of provincial premiers, arranged to be held in Ottawa on October 20, has been postponed for a week, and will now be held on October 27. Word to this effect was received here yesterday, and was immediately forwarded to Sir Richard McBride in London, so that he might alter his plans, if necessary, as he had arranged to be in Ottawa on the first mentioned date.

The information came in the form of a cable from Sir James Whitney, premier of Ontario, and Sir Lomer Gouin, premier of Quebec. The message was as follows:

"For reasons which will be explained when conference meets, we have agreed to postpone the meeting until October 27, at the same place and hour, and hope no inconvenience will be caused by the postponement."

A RECORD CROWD ON LAST NIGHT'S TRAIN

Last night's train from the interior brought in the largest number of passengers that has been brought in this season. This is largely due to the extension of the passenger service beyond Moricetown, many laborers in the far interior having waited until transportation facilities were afforded. Larger crowds are looked for on all incoming trains for some time.

MORAL AND SOCIAL REFORM CAMPAIGN

The regular monthly meeting of the W. C. T. U. was held at the home of Mrs. R. W. Rogers last night. There was a large attendance and matters of considerable importance were discussed. The question of moral and social reform was dealt with at some length and a campaign for the winter months is to be arranged. The W. C. T. U. has been steadily increasing in membership and there are now sixty members enrolled.

SUCCESSFUL CONCERT AT ST. PETER'S CHURCH

Encouraging Reports from the Night School at Seal Cove—Regular Classes Held.

In spite of the inclement weather and the disappointment of not being able to procure the piano so kindly loaned last time for the occasion, the second concert last night in Seal Cove night school was very successful. St. Peter's Church was crowded to the doors and appreciated to the full the interesting program presented. This consisted of songs by Mrs. McLeod, Mrs. Freeman, Miss Freeman, Messrs. Nichols, Gantz, Reynolds and Russell and the Men's Italian Quartette. Besides these there were readings by Mr. Pusche. Rev. Rix acted as chairman and refreshments were served by the ladies of St. Peter's Church.

A short statement was read showing that classes were already in operation in arithmetic, English, French, bookkeeping, draughting and German. Altogether the venture is proving a success and emphasizes the fact of the need of the proposed night school in the city.

The thanks of those having the school in charge were tendered to the local press for the cordial manner in which they had given the use of their columns for its publicity.

WILL GUIDE SHIPS COMING FROM ORIENT

New Light at Langara Point is Now in Commission—Can Be Seen Nineteen Miles.

A notice has just been issued by the department of marine advising mariners of the establishment of the light and fog alarm at Langara Point, the northwest point of Langara or North Island. This is one of the most powerful lights on the coast and will be the first light seen by incoming ships from the Orient to Prince Rupert. The light is 112 feet above high water and is visible for nineteen miles. It is an intermittent light of 450,000 candle power, flashing every five seconds.

The fog alarm stands in front of the lighthouse at an elevation of 100 feet. It consists of a diaphone operated with air compressed by an oil engine. It gives one blast of five seconds' duration every minute.
