SIMPLICITY OF THE ROYAL WEDDING CEREMONY—NANAIMO IS BEGINNING TO SHIP COAL

OVER FOUR HUNDRED MINERS HAVE PROBABLY BEEN KILLED

**TERRIFIC EXPLOSION IN WELSH MINE WHEN NINE HUNDRED
AND THIRTY MEN WERE AT WORK—FIVE
HUNDRED RESCUED.**

(Special to The Daily News.)
Cardiff, Oct. 15.—More than four hundred Welsh miners are believed to have perished in the Universal Colliery, near here, from fire and afterdamp. There was a terrific explosion when nine hundred and thirty-one men were at work underground. Five hundred were rescued and then fire broke out, halting the work of rescue.

The deafening report brought the inhabitants of the vicinity to the pithead. They heard the machinery in the mine blown to atoms. Men working sixty feet from the explosion were decapitated by the force of the blast.

Rescue parties of eight workers each were soon organized to enter the mine in the effort to save their companions and five hundred were brought to the surface. The worst fears are felt for the remainder.

COAL SITUATION IS LOOKING SERIOUS

**Rogers & Black Got Word That
Steamer from Coos Bay Is
in Trouble.**

J. H. Rogers, of the firm of Rogers & Black, coal merchants, is in receipt of a wire from the Coos Bay Collieries advising that the steamer A. M. Simpson, loaded with coal for Prince Rupert, is in trouble and cannot proceed on its voyage. An effort is being made by the company to charter another boat. Rogers & Black are also endeavoring to secure a boat themselves and hope to secure a shipment of coal elsewhere.

E. A. Mann, clerk in Orme's drug store, returned this morning from a holiday trip south.

PUBLIC WORKS EXPENDITURE.

It was learned at the city hall yesterday that the figures given in response to Alderman Kerr's question at the council meeting on Monday evening were not complete. The sum of \$5,700 given as public works expenditure for September covers only the expenditure on waterworks. The total expenditure under the engineering department for the month was approximately \$11,000, and this amount does not include the expenditure on telephone and electric light. The actual facts put an entirely different aspect on the matter.

EXPECTS BIG RUSH TO NEW DIGGINGS

**Whitehorse Merchant, in the City
Today, Says Splendid Reports
Come From Chisana.**

Robert Low, a member of the Yukon council and a well known merchant and contractor of Whitehorse, was in the city this morning, en route south on the steamer City of Seattle. Mr. Low said that the most encouraging reports are being received from the Chisana diggings. His present trip south is for the purpose of buying horses and supplies to be ready for the rush that is expected into the new field.

VANCOUVER MAN GETS CONTRACT AT GOVERNMENT BUILDINGS

**WORK ON TUNNELS WILL START IMMEDIATELY AND ACTUAL
WORK OF CONSTRUCTION WITHIN A FEW
WEEKS.**

A. A. Cox, the architect for the permanent provincial buildings here, arrived in the city this morning, accompanied by W. H. Smith of Vancouver, to whom has been given the contract for the construction of the lanes and tunnels from First and Third avenues that are to lead into the basement of the main building. Interviewed by a representative of The Daily News this morning, Mr. Cox stated that the construction of these lanes and tunnels will start at once, which will mean an additional demand for labor for some months. While the contract has been let to a Vancouver man, it is expected that mostly local labor will be employed.

The plans for the buildings are now practically completed and are only awaiting the final approval of Premier McBride, who is expected in Victoria within a couple of weeks. Mr. Cox says that he hopes to be able to make public the plans on the occasion of his next visit here and is confident that actual construction work will be started within a few weeks. The excavation work, he expects, will be completed by the end of the year.

Referring to the materials to be used, Mr. Cox said that reinforced concrete will enter largely into the structure, but there will also be used a large quantity of granite and brick.

RUSSIAN POLAR EXPEDITION HAS MADE A NEW DISCOVERY

**PLANTS RUSSIAN FLAG ON NEW LAND NORTH OF SIBERIA—
MOUNTAINOUS CONTINENT BELIEVED TO BE
AS LARGE AS GREENLAND.**

St. Michael, Alaska, Oct. 13.—The Russian flagship Taimyr and its consort, the Waygate, which constituted a Russian polar expedition under Commander Wilkizky, which left Vladivostok on June 10th of this year, reached St. Michael, stormbound, on October 9th and brought to the port news of the discovery north of Siberia in latitude 81 north, longitude 104 east, of a new uninhabited mountainous land, possibly a continent as large as Greenland. The expedition landed with difficulty on the new land, raised the Russian flag on it and took possession in the name of the Czar. Commander Wilkizky christened the new land "Nicholas II Land."

shore a depth of water of ninety-five fathoms was sounded.

The expedition started from Vladivostok by way of Petropovsk and East Cape and thence westward along the Siberian coast to latitude 96 east.

Commander Wilkizky says that the shore of the new country where the expedition landed and along which the vessels travelled is rocky, with high, abrupt cliffs, formed evidently from volcanic activity. Volcanoes of the district possibly may have been in eruption recently. Many high peaks, he said, were discernible inland from the vessels and what seemed to be vapor could be seen arising from one of these. The temperature taken on the water near the shore line was 51.8 degrees Fahrenheit, while that taken on the shore was 62.6 degrees Fahrenheit. The land was covered with snow almost to the sea.

In July and August the expedition saw such evidence of the presence on the land of reindeer. Many walrus were seen and bird life was plentiful. A number of polar bears also were noticed. The vegetation on the new land, Commander Wilkizky stated, was but scant. Twenty fathoms from

Discovery Is Confirmed.

St. Petersburg, Oct. 13.—Confirmation of the discovery of new land in the Arctic Ocean was received by the Russian admiralty today in a brief official wireless report from Commander Wilkizky of the Russian navy.

The new land extends in a narrow strip from about sixty miles north of Cape Tchelyuskin, also known as Northeast Cape, the northern termination of the Asiatic continent, to 81 degrees north.

Last Discovery to Be Made.

Washington, D. C., Oct. 13.—Members of the National Geological Society said here that the Russian discovery of a continent 500 miles north of Asia, if true, would be the last great discovery of lands. They pronounced it the most important discovery within the Arctic Circle in the last century. The report came as a distinct surprise to the members of the society.

ROYAL WEDDING THAT TOOK PLACE TODAY

**Nuptials of Prince Arthur and
Duchess of Fife Remarkable
for Simplicity.**

(Special to The Daily News.)

London, Oct. 15.—Remarkable simplicity for a royal ceremony characterized the wedding of Prince Arthur of Connaught and the Duchess of Fife, which took place this morning in the chapel royal of St. James' Palace, compared with the wedding of the daughter of Emperor William of Germany. It was devoid of all military display and the ceremony was as simple as adherence to traditions would permit. The King gave the bride away.

WILL BE DETAINED

**Mrs. Pankhurst Will Be Taken to

(Special to The Daily News.)
Washington, Oct. 15.—According to present plans, when Mrs. Pankhurst lands at Ellis Island seeking admission to the United States, she will be detained for the board of enquiry to consider her case.

Sir Richard With Royalty.
(Special to The Daily News.)
London, Oct. 15.—Sir Richard McBride was at the evening party in St. James' Palace last night, given in honor of the marriage of Prince Arthur of Connaught to the Duchess of Fife.

MAYOR PATTULLO MAKES HIS STATEMENT ON CITY FINANCE

**Gives the Public Some Interesting Facts and Figures Connected
With the Civic Finances Showing Exact Condition of
Affairs at the Present**

The Editor of the Daily News:

Dear Sir,—In view of the fact that a campaign of abuse and misrepresentation is being carried on to prejudice the public mind against the present civic administration, I would be obliged if you would give me space to illustrate the situation by citing one or two instances of statements made, which will show very clearly the kind of argument that is being used.

I would like also to make clear a phase of the financial situation perhaps not fully appreciated by the public.

The Evening Empire in one of its issues contained an open letter, signed by ex-mayor Newton, to Hon. Mr. Ross in connection with the proposal to have the Government come to the assistance of the city.

A statement was made that the city was embarking upon a policy of recklessness in proposing to expend \$600,000 in a manner which would seriously injure the credit of the city.

As a matter of fact the present council contemplates new work aggregating \$1,000,000.

I would draw the attention of the public to the fact that the same man who says that the plans of this year's council will injure the credit of the city is the same man who during his term of office tried to foist upon the city a scheme involving \$1,400,000 for a system of sewers alone, which was only part of a larger scheme, involving some \$4,000,000, and which scheme could not be completed within the lifetime of the debentures themselves.

I think that no article so injurious to the welfare of Prince Rupert has ever before been published in this city as the open letter from Mr. Newton to Hon. Mr. Ross, and it illustrates the limit to which depraved animosity will lead a mind actuated by personal considerations, and crazed by prejudice.

Another illustration: The same paper had another front page article ridiculing the idea of the city council appointing a city auditor-treasurer. The city council at no time made such a dual office. Mr. Johnson, who was city auditor, was transferred to the treasurer's office, and subsequently a new auditor was appointed. The statement of the Empire was made either through crass ignorance or by deliberate misrepresentation, or both. I believe it to both.

Here is another illustration of the kind of thing to which the public is invited to lend an ear:

Ex-Alderman Douglas, chairman of the finance committee last year, uses as an argument to strengthen the financial statement of last year an item of \$8,451.28 arrears on the electric light, which he claims was left as an asset for this year's council. The item of \$8,451.28 is partially made up of light burnt by the various city departments last year and partially of discounts allowed other consumers. In other words the finance chairman of last year would ask this year's council to accept as an asset the light consumed by the various city departments of last year, and also to accept as an asset the discounts to which consumers were entitled. The same gentleman also asks us to accept as assets two items of arrears of telephone and water, which are offset by bad debts not provided for.

These items well illustrate the inextricable confusion which existed in the methods of book-keeping, due both to lack of system in departments responsible and to lack of cohesion between the various departments.

These items show the kind of abuses which we are correcting. I think that no man enjoys the discussion of public issues more than I do, but I think it very desirable that the public should know the facts.

As I have iterated on several previous occasions any ratepayer can always get the facts from the city hall by simply asking for them. If it is too much trouble to do this no ratepayer has the right to accept as truth the hundred and one irresponsible statements of street rumor or newspaper misrepresentation. If he would be fair he must inform himself, and if he informs himself he can be fair.

Now, with regard to the financial situation and the criticisms that have been made because the financial mission to London has not so far resulted in the sale of our debentures, let me say a word. Whether we shall be able to sell our long term debentures before the year is out I am unable to say. However that may be, I assume that every citizen desires to know the facts of the situation up to date and a consideration of the financial situation may be interesting as well as illuminative to many who

have not given the matter careful thought.

The 1910 council obtained from the Bank of Montreal a credit of one million dollars on capital account. The total amount on capital account obtained since that time approximates \$272,000. Of this amount of \$272,000 \$132,000 approximately has been obtained by this year's council. The balance of \$140,000 was obtained by the 1911 and 1912 councils. All of the work carried on out of money obtained by the 1910 council, with the exception of approximately \$140,000.

The 1910 council left cash in bank on current account approximating \$18,000, and in addition left \$109,000 owing by the Grand Trunk Pacific and subsequently settled at \$15,000, besides arrears on general taxes and arrears on water, telephone and sewers partially offset by unpaid accounts. Since that time the city has never had a surplus until this year, when it will again have a surplus.

In the year 1910 I was chairman of the finance committee. The present chairman of the finance committee, Alderman Naden, was also a member of the 1910 council. That year we had a surplus on current revenue and obtained a credit of one million dollars on capital account. This year we will have a surplus on current account for the first time since 1910 and we obtained \$132,000 on capital account as against a deficit on current account and the obtaining of new money on capital account of \$140,000 by the 1911 and 1912 councils.

This year we have also reduced the capital indebtedness to the Bank of Montreal by \$9,000, while we have taken care of a capital charge on water of approximately \$50,000.

This year we sold the first large block of debentures ever marketed by the city. The sale this year totals \$155,000, as against \$4,605 disposed of by the 1911 and 1912 councils.

The treasury certificates sold by the Bank of Montreal last year were negotiated solely by the bank to pay themselves back the one million dollars which had been obtained from them by the 1910 council.

It may well be asked of those

AN EASY MATTER TO ROB A TRAIN

**Rifled Registered Mail and Coolly
Rode to the End of the
Route.**

(Special to The Daily News.)
San Francisco, Oct. 15.—A masked bandit entered the mail car of the Southern Pacific at Burlington yesterday afternoon and at the point of a gun compelled the two mail clerks to crawl under a table. He then rifled the registered mail. The train made no stop between Burlington and here and the robber escaped when the train slowed down in the yards. The amount taken is unknown.

It took nearly the entire police force this morning to handle John Powers, one of the arrivals by the steamer Prince George. Powers started acting strangely as soon as he landed and kept getting worse until finally the police were notified of his unusual behavior. He was taken in charge in the vicinity of the Catholic Church. He will be sent south on Friday.

AN INDICTIONMENT OF MR. BORDEN.

Mr. Borden must be judged not by his promises of 1911, but by his utter failure of performance during two years. He must be judged by his secret knowledge of the infamous Nationalist alliance and his willingness to win office by deliberate deception. He must be judged by his breach of the Nationalist pledges. He must be judged by his bogus emergency which has just been completely exploded by the friendly tariff relations between England and Germany and the complete breakup of the British anti-German fleet in the North Sea. He must be judged by his neglect to reduce the tariff so as to give some relief to the consumers suffering by the high cost of living; he must be judged by the inordinate extravagance of his administration, which increases the public debt in spite of the greatest revenues on record; he must be judged by his refusal to give the promised civil service reform, and by his acquiescence in the most relentless campaign for the dismissal of all Liberals in the public service that Canada has ever seen. He must be judged by his systematic determination to force parliament to rob the provinces of their control of highways and to retain to himself the handling of the money to be provided under the highways aid bill. He must be

judged by his refusal to fulfil his promise of senate reform and the fact that he has not only hastened to fill every senate vacancy with Tories, but is planning to increase the representation in the senate by nearly a dozen so as to get more of his party supporters in the red chamber. He must be judged by the unfair manner in which he dragged parliament into adopting the "gag" closure rules.

DISCREDIT TO THE SUFFRAGE CAUSE.

Mrs. Emmeline Pankhurst will arrive in the United States shortly—if she is allowed to land—and she comforts herself with the vain suggestion that her London conduct may have had some influence in the progress of the suffrage cause in the United States. On the contrary, the equal suffrage movement in the United States has undoubtedly been impeded by the lawless and ridiculous conduct of the British militants. The cause has made far less progress during the last twelve months than in any other recent year. If there are strong opponents of woman suffrage in the United States they will welcome Mrs. Pankhurst and encourage American equal suffragists to endorse her campaign. In that way Mrs. Pankhurst may discredit and hinder the movement in the United States as she has in Great Britain.

PUNCH LAMPOONS CARSON AND THE BIG ULSTER REVOLUTION

MAKES A JOKE OF THE PREPARATIONS FOR AN UPRISING AND OF THE PROVISIONAL GOVERNMENT THAT WAS TO FOLLOW

Now that there is every reason to hope that the Ulster troubles are at an end, at least for a time, one can afford to laugh with Punch about it. In the form of a "curtain-raiser" Punch told of the preparations for revolution and the part taken in them by James McSmith, a hard-headed Belfast linen manufacturer. McSmith's son John wants to serve under the "Provisional Government," and hopes to become in-

my duty. (He turns to the north wall and salutes the large photograph of Sir Edward Carson and Mr. Bonor Law shaking hands.)

In the end McSmith's methods of protecting his property are justified, for in the rioting that follows Home Rule one of the opponents of the measure fires off a revolver, the bullet from which breaks a window in the McSmith mansion and lodges in Mrs. Mc-

PRIDE OF THE ULSTER UNIONISTS.

Sir Edward Carson, from a new photograph taken at the time he was leaving England for Ulster to review the army of the provisional government.

pector of the Brickbats, or Snap-shotter of the Marchers Past, but has to content himself with the Wardenship of the Voice Lozenges. His father is proud of him, and announces that when the time came he himself would sell his life dearly. Then follows this dialogue between McSmith and his solicitor:

"McSmith—But though I am prepared to shed the last drop of my blood, still more to shed the last drop of the blood of any troops sent against us, I should—er—naturally be very much upset if my property got damaged in any way.

"Rankin—I quite understand, Mr. McSmith. I may say that that feeling is extraordinarily prevalent in Ulster just now.

McSmith—You see what I mean? Death, particularly the death of others, is, after all, a little thing—a loyal Ulsterman can face it cheerfully; but financial loss hits him very hard. I propose, therefore, to insure this house and the factory against damage by revolution, and I want you to see about it for me.

"Rankin (moved more than a solicitor would care to admit)—My dear sir, your feelings do you infinite credit. And, let me assure you, you are not alone in your romantic and chivalrous idealism. All Belfast feels the same. The news, when it gets about, will be a trumpet call to England.

"McSmith (simply)—Say no more, Rankin. I am only doing

Smith's shoulder. Whereupon McSmith tells his horrified son to "bear up. It is not as bad as you think. The window is insured." If Punch really believed that the Army of Ulster means to fight we would find nothing like the McSmith lampoon in its columns.

Appeal to Empire Forces.

Belfast, Oct. 11.—The Ulster Liberal Association issued a manifesto yesterday announcing that the "Ulster Liberals would not recognize the authority of the proposed provisional government and claim the protection of the forces of the Empire in defence of their liberties, which would be gravely imperiled by the success of the anarchistic movement led by Sir Edward Carson."

FREDDY WELSH WINS ONE-SIDED CONTEST

Fighting Dick Hyland Beaten All the Way in Twelve Round Bout.

Butte, Mont., Oct. 11.—Freddie Welsh of England won a one sided contest from "Fighting" Dick Hyland of San Francisco, being awarded a decision at the end of twelve rounds by Referee Duncan MacDonald of Seattle. Welsh outboxed Hyland from beginning to finish, playing a tattoo upon his head and body and dancing and dodging around him with a speed that gave Hyland the appearance of almost a novice.

Hyland showed his gameness by taking all the punishment Welsh could inflict and came back for more at all stages of the contest. Hyland did not yield an inch of ground, but seemed powerless to do any execution against the Englishman's jabs, which, however, lacked the necessary steam to stop Hyland.

ROYAL WEDDING TODAY.

(Special to The Daily News.)

London, Oct. 15.—The royal chapel of St. James was used for a royal wedding this morning for the first time since the wedding of the Prince of Wales, now King George V. The pews had been removed and raised stands erected in their place. A semi-circle of gilt chairs was placed at the railing and behind were seated Queen Mary, a little higher than the rest, with the Queen Mother and three other Queens on either side of her. The bride, the Duchess of Fife, was attended by twenty bridesmaids, the flowers of royalty and the peerage, and Prince Arthur of Connaught's supporters were Prince of Wales and Duke of Saxe-Coburg-Gotha.

WANTED: A GENIUS TO WRITE THE EPIC ON PANAMA'S CANAL

"ALL THE RACES HAVE MET AND MINGLED AND DICED AND PRAYED AND CURSED AND LABORED ON THE CANAL ZONE."

A great undertaking that defied the resources of the Suez Canal maker and the old world's greatest republic is brought to triumphant conclusion by your federal government. Without whisper of slander or hint of graft, your engineers have conquered a deadly climate, brought sufficient labor into the jungle, drained and leveled and erected, until the Panama Canal is become a fact. The dry excavation was finished ten days ahead of schedule; dredging remains, but with the waters of the two oceans flowing into the great locks the end is within grasp. The Panama Canal is one of the world's nine wonders; to gaze upon it is to feel like the "watcher of the skies."

When a new planet swims into his ken; Or like stout Cortez, when with eagle eyes He stared at the Pacific—and all his men Look'd at each other with a wild surmise— Silent, upon a peak in Darien. Have we no poet to chant this achievement of French imagination, American perseverance and many nationed muscle? He need not undertake to make official history of his poem; Keats in his sonnet unjustly named Cortez instead of Balboa, but that scarcely affects the grandeur of the poetry.

The Panamanian scene is as rich in legend and history as it is in vegetation; buccaneers have anchored in the sleepy old Spanish ports of the isthmus; Bernhardt acted in a gala performance at the Panama Theatre when poor old De Lesseps set to work digging the trenches Goethals was to complete; all the races have met and mingled and diced and prayed and cursed and labored in the city made sanitary by Gorgas and his men. State socialism has had a partial trial in Uncle Sam's paternal administration of his Canal Zone. The theme is tremendous; your poet would have an epic on his hands unless he chose just one side of it all. Here a few of its minor incidents are noted—nothing of the tremendous battle with Nature, nothing of the meaning of the victory.

Who can make a great poem out of this great adventure? Will it be some poet whom we already know and love, or will some

PARTIES OUTLINING THEIR LANDS POLICIES

Proposed Land Laws for Great Britain Certain to Bring On Political Battle.

London, Oct. 12.—Right Hon. David Lloyd-George's great land fight begins tomorrow at Bedford. The chancellor of the exchequer's speech will be the signal for battle all along the line. The Unionists, as well as the Liberals, however, have a land program, for the wants of the farmers and agricultural laborers cannot be ignored by either party.

The Unionist policy, of which Lord Lansdowne is the protagonist, is to make the worker of the soil the owner of the soil he works. He then will be a property person. The Liberal policy is to let the farmer remain a tenant, with his interests safeguarded.

Cost of Panama Canal.

The grand total of Panama Canal cost to May 30 was \$295,587,518, including construction and engineering, \$182,187,886; sanitation, \$16,132,056; civil administration, \$6,370,866, and the fortification, \$2,965,939.

Saskatoon Sells Bonds

Suing Railway Company.

Regina, Oct. 11.—Edward MacDonald is starting suit against the C. P. R. for \$30,000 damages for injury to his small daughter Alice, who was run down while playing on a C. P. R. track last June and had her left arm amputated, also the fingers of her right hand.

Turkey Buys Dreadnought.

Vienna, Oct. 11.—It is reported here that Turkey has purchased from Brazil the superdreadnought Rio de Janeiro, which has just been completed by Armstrong, Whitworth & Co., at Newcastle-on-Tyne. The Rio de Janeiro is a twenty-two knot vessel.

CAPITAL STRIKING FOR HIGHER WAGES

Lord Milner Refers to World-Wide Depreciation of Government Stocks.

Birmingham, Eng., Oct. 9.—Lord Milner in his presidential address at the Midland Institute here yesterday referred to the world-wide depreciation of government stocks and said: "Capital has struck for higher wages. The whole vast continent of South America is open."

"The twentieth century may see a competition there on even a greater scale than in the United States. Germany's dash into the front ranks of international nations has been stupefying."

"Really, only the United States, Great Britain and France has any surplus capital."

The Gurney-Oxford Attracts Madam To The Kitchen

THE GURNEY-OXFORD has a large following of fashionable cooks who dip into the culinary art simply for the pleasure they derive from trying dainty recipes previously not attempted. They are all most enthusiastic supporters of the Gurney-Oxford because it contains many exclusive devices that make a perfect cooking equipment.

Its oven is evenly heated in every corner to insure deliciously dainty cakes, golden brown biscuits, and light flaky pastry. A special Divided Flue carries the heat to every hole on the range. The top is perfectly smooth and clean, requiring no black lead polish.

But most important is the Economizer. It is a small lever that moves around a series of six notches giving the exact degree of heat required for any particular dish. The heat of the range can be shut off and the kitchen kept cool between meals by turning the lever to a certain number.

The fire is held at a low ebb on a special Reversible Grate until a baking oven is required. Then the necessary heat can be obtained quickly by simply turning the Economizer lever to another notch.

Such control as this enables many smart women to invent some very tempting dishes which they set triumphantly before their friends. It will pay you to investigate the Gurney-Oxford.

LOUISE HARRIS MEETS DEATH BY DROWNING

Body of Half Breed Woman Found in Skeena River Near Glen Vowell Crossing.

The body of Louise Harris, a half breed woman, was found in the Skeena near Glen Vowell crossing on Saturday evening. The woman's husband, Fritz Harris, also a half breed, notified the police on Saturday that his wife had left their home some time during the night and had not returned. Search having resulted in the discovery of the body, Government Agent Hoskins, acting as coroner, held an inquest at Hazelton, the jury returning an open verdict of death by drowning. It is supposedly a case of suicide.

OLD TIME RESIDENT IS VISITING CITY

Is of the Opinion That Business Conditions in Rupert Are Better Than Elsewhere.

Stanley Spain, one of the old timers of Prince Rupert, was among the arrivals by the steamer Prince George this morning. Mr. Spain, who was engaged for about three years in the provincial land registry office here, left over a year ago with his family for England. He has just recently returned to Canada and it is his intention to again take up his residence in this city next spring. His family is at present in Vancouver.

Mr. Spain reports that the financial depression is quite evident in the east as well as the west. From what he had been able to learn after a few hours here, he did not think that conditions are as bad in Prince Rupert as they are in many other towns and cities in the west. Throughout the prairie provinces reports indicate that the crops are away above the average both in quality and quantity and the general feeling is that financial conditions will be soon improved as a result.

Mr. Spain will return to Vancouver on Friday morning.

IN PRISON ONCE MORE

Sylvia Pankhurst Did Not Escape This Time.

(Special to The Daily News.) London, Oct. 15.—Sylvia Pankhurst, who escaped from the police Tuesday night, was arrested last night as she was about to enter Powell town hall to address another meeting. A demonstration outside the gaol followed.

Patient from Smithers.

James Dyer was brought in on the train last night with a fractured arm, received while at work in the railway company's gravel pits at Smithers. He was taken to the hospital and is doing as well as could be expected.

Took Another Chance.

The Pacific Coast steamer City of Seattle called here at 7 o'clock this morning southbound. There were on board a large number of Alaskan cannery employees going south for the winter. Among those taking passage from here was S. D. Russell, one of the survivors from the recent wreck of the State of California. He said he was willing to take one more chance at least on the same line of steamers.

SCOTCH LASSIE JOINS HER SCOTCH LADDIE

Walter Longwill Reached Vancouver Same Day That His Bride Arrived from Scotland

The Princess Sophia brought up on Monday a bride and bridegroom who have taken up their residence in Prince Rupert. Walter Longwill, a popular young Scotchman, has been here two years, during which period he was constantly writing to "the girl he left behind him." This was Miss Margaret Stevenson Henry, of Muirkirk, Ayrshire, Scotland. Both arrived in Vancouver on the same day. Wattie from Prince Rupert and Miss Margaret direct from Scotland, showing what canny planners they are, and they were happily married by Rev. Dr. Fraser. The wedding supper was given at the home of Mrs. Mercer Campbell Avenue, Vancouver, at which twenty young Scotch people congratulated the bride and groom. Charlie Dennis went down from here with Mr. Longwill and figured as the best man, while Miss Henry brought with her from her Scotch home Miss Margaret Grieve to stand up with her. Miss Grieve will visit the young couple at Prince Rupert in the early future.

SALOON PASSENGERS ON PRINCE GEORGE

MAYOR PATTULLO MAKES STATEMENT

(Continued from page 1)

who take us to task for not disposing of our long term debentures this year, why were those debentures not sold in 1911 and 1912, when the markets were infinitely better than they have been this year? Yet, in spite of the stringency of this year, almost as much money has already been obtained on capital account as for two years previous, while current account will show the I am reciting these facts not in a spirit of criticism of the 1911 and 1912 councils nor to take any special credit to myself, for without the capable and loyal support of the majority of the council this year very little could have been accomplished. I simply wish the position of affairs to be made clear and not to be obscured by the efforts being put forth to blind the public eye.

Thanking you, Mr. Editor, for your space, I remain,

Faithfully yours,
T. D. PATTULLO,
Mayor.

GET ON THE VOTERS' LIST

Householders and License Holders Have Only to End of Month.

Half the month of October is gone, so the days are getting few in which householders and license holders can get on the voters' list. Property holders need not be in such a hurry, as they have up to the end of next month in which to register. In order to facilitate the work of registration and to save intending voters a trip to the city hall, Lionel Crippen will attend at the office of Peter McLachlan, Third Avenue, each evening from 7 to 9 to take the necessary declarations.

ATTEMPTED BURGLARY ON SIXTH AVENUE

Woman Aroused from Slumbers to Find Colored Man Approaching Her Room.

About midnight last night Miss Letourneau, who lives with her brother at the rear of his tinshop on Sixth Avenue, was aroused from her slumbers by a noise in the shop and a moment later she saw a man approaching her door. Fortunately, she was able to get the door closed and locked in time to keep him from entering. By knocking on the floor she aroused her brother, who came upstairs in time to see a colored man standing outside the store with the door open. The man beat a hasty retreat while Mr. Letourneau notified the police by phone.

Constable Shiel at 1:30 o'clock arrested Leon Washington on Comox Avenue, charged with the attempted burglary. This morning he appeared before Magistrate Carss, when Mr. Letourneau identified him as the man he had seen. Washington was remanded until Monday next.

Inn Closes Tonight.

The G. T. P. Inn practically closes its doors to business tonight. The guests at present registered will be allowed to occupy their rooms until the departure of the Grand Trunk boat for the south on Friday morning. After tonight the bar will be closed and there will be no dining room service. Those applying for rooms this morning were advised to seek accommodation elsewhere.

WATER NOTICE.

Take notice that the Prince Rupert Hydro-Electric Company, Limited, of Montreal, Quebec, has filed with the Honourable the Minister of Lands under Part 6 of the Water Act a petition for the approval of their undertaking in relation to the utilization of 1,500 inches of water from Thule River, Quatton Inlet, Skeena Water District, for power purposes. Application for the said water rights was made on the 20th day of September, 1908, by the Continental Power Company, Limited, which last mentioned company has transferred to the Prince Rupert Hydro-Electric Company, Limited, their interest therein. Copies of the petition, plans and exhibits for approval of the undertaking as required by Section 59 and Part 6 of the Water Act have been filed with the Controller of Water Rights and with the Water Recorder at Prince Rupert. Objections to the application may be filed with the Controller of Water Rights, Parliament Building, Victoria, B. C. Dated at Prince Rupert, B. C., this 2nd day of October, A. D. 1913.

Three Fine Vessels for Rupert.

Information has been received that the Grand Trunk Pacific is now building in Scotland three modern 20 knot passenger ships to be placed on the same run as the Prince Rupert and Prince George. In the construction of the new vessels no effort is to be spared to make them the finest of their class. In order to insure that every care will be taken in catering to the requirements of passenger travel, little provision will be made for carrying heavy freight.

Government Clerks Disagree.

There is a dispute among the clerks and officials in the local offices of the Provincial government and it is all over an innocent willow grouse that made itself quite at home on the government lawn yesterday. Several say that it came over from Porecher Island to renew acquaintances with "Doc" Morgan, who returned from there empty handed a week or so ago. "Doc," however, is quite assured in the belief that the visitor was looking for Harry McLeod to give him a fair chance to test his skill with the gun.

Killed by Daughter.

Wanosh, Ont., Oct. 15.—Harry McDowell, 35 years of age, was shot and killed by his 9-year-old daughter yesterday. She playfully pointed a revolver and accidentally discharged it. "Hold up your hands, daddy," said the girl, and the weapon was discharged, the bullet striking just below the heart.
