BRITAIN AND UNITED STATES ONCE MORE FRIENDS

HUERTA'S ELECTION MAY BE DECLARED ILLEGAL—MCBRIDE FAVORS CASH CONTRIBUTION

GREAT BRITAIN WILL CONSULT UNITED STATES AS TO MEXICO

NOTIFICATION TO THIS EFFECT RECEIVED FROM BRITISH FOREIGN OFFICE—VOTES FOR HUERTA MAY BE DECLARED ILLEGAL

(Special to The Daily News.)—Washington, Oct. 28.—A communication from the British foreign office to the effect that now an election has been held in Mexico Great Britain will take no action in Mexican affairs without consultation with the United States, has aroused great interest in official circles here. Also it has added strength to the persistent rumors that the United States government plans a note to the Powers which it is hoped may result in a concerted Mexican policy for the future. The British recognition of Huerta was only until the election was held, and he may not be recognized a second time even though declared elected.

Mexico City, Oct. 28.—There is no indication of the definite result of the election of president, and no official report is expected until toward the end of the week. Out of 970 polling places in the federal district the Catholic party claims a majority. Their candidates claim that enough votes were cast for Huerta to invalidate the election. In view of his declaration that he was not a candidate Congress will declare the votes cast for him as illegal.

Mexico City, Oct. 28.—Fifteen federal soldiers were killed when the rebels yesterday derailed a troop train near San Salvador.

CITY MAY COLLECT RENTALS FOR USE OF THE OLD SEWERS

RECOMMEND THAT RENTALS DATE FROM JUNE THIRTIETH LAST—REPORT LAID OVER FOR ONE WEEK FOR FURTHER ADVISEMENT

The public works committee, in a report presented to the city council last night, recommended that sewer rentals be charged, dating from June 30th when the present sewer bylaw went into effect. The recommendation was made upon a report by the city solicitor, which stated that in regard to the sewers now in operation, which were put in by the provincial government prior to the incorporation of the city, rental could be collected. The objection that had been raised that the city would have to maintain the lines of sewer pipe where they now existed, which might be costly, Mr. Peters answered by the opinion that the collection of sewer rentals by the city did not necessarily imply that the city was responsible for the upkeep of the sewer lines. Some of them were in such shape that to repair them would cost immense sums, and it would not be reasonable in his opinion to expect the city to do this. On the other hand he did not think it would be advisable to collect back rentals for the use of these sewers.

of the city solicitor and wipe out these back rentals.

Ald. Dybhavn saw in this course a question of principle involved and suggested that the matter might be laid over for one week so that it might be more carefully looked into.

Ald. Bullock-Webster concurred in this suggestion, as the settlement to be made with the provincial government affected the whole city while but a few were using the sewers in question. He would like to see only the users made to pay for them, and they should pay the full amount.

The mayor observed that if these collections should have been made it should have been done by the two previous councils.

Ald. Bullock-Webster asked why the mayor, as a member of one of those councils had not suggested such collection.

The mayor replied that he had not been a member of the finance committee and was a member of that council for a few months only, when the treatment accorded to him was not what was extended to all the members of the present council. He had no objection, however, to the report being laid over for the present.

No other objection being raised this course was unanimously adopted.

UNITED STATES INCLINED TO DICKER WITH MEXICAN REBELS

CARRANZA, THE LEADER OF THE CONSTITUTIONALISTS, EXPECTS TO RECEIVE AN ENVOY FROM WASHINGTON—THIS CONFIRMS PREVIOUS REPORTS.

Nogales, Ariz., Oct. 25.—Reports from Hermosillo today indicate that the Washington government is preparing to negotiate with General Venustiano Carranza, leader of the Constitutional movement in the north, through a special envoy to be appointed by President Wilson. It was said that General Carranza had already wired instructions for the preparation of quarters to be occupied by the special representative.

This tends to confirm previous reports that the United States is preparing to recognize the revolutionists of Mexico as a factor in its attempt to bring about the restoration of peace. As reported, the envoy to Carranza will

undertake duties similar to those imposed upon John Lind, special representative of President Wilson, who is now at Vera Cruz.

Nelson O'Shaughnessy, the American charge d'affaires, says he considers the report circulated in the United States that the French minister had called a meeting of members of the diplomatic corps to devise a plan for averting a crisis as fiction.

MUCH ROUGHNESS IN BASKETBALL GAME

Men's Own Defeat Brotherhood by Score of 9 to 3 in Second Game of Series

The second game in the basketball series was played at the Auditorium last night between the Men's Own and the Brotherhood. There was a fairly good attendance of spectators but the exhibition was not up to that of the opening game. Throughout the match there was considerable rough play and several offenders had to be ruled off. There was little, if any, real good combination play. Both teams, however, have good material and with practice will show improvement. The score was 9 to 3 in favor of the Men's Own.

For the Brotherhood Ives and Mobley undoubtedly put up the best game, while Weston, Corkill and Davis did work for the Men's Own.

Following is the line-up: Brotherhood—Guard—Ives and Mobley; centre, Shaffer; forwards, Johnston and Rogers. Men's Own—Guards—Barrie and Shrubbsall; centre, Davis; forwards, Corkill and Weston. Adair Cars acted as referee and J. W. Scott as umpire.

THE USUAL OBJECTION

Ald. Bullock-Webster Makes His Customary Plea

The fire and light committee recommended to the council last night the purchase of 1000 feet of hose at \$1.10 per foot, of hose for the fire department, upon which Ald. Bullock-Webster desired emphatically to know why such important matters were disposed of secretly in committee instead of coming before the whole council. The mayor quietly observed that it was before the whole council, and that there had been nothing done during his term of office of which the full explanation was not at all times available to anyone.

More Bodies are Recovered

(Special to The Daily News) Dawson, N.M., Oct. 28.—There now remains but sixty bodies to recover from the shaft wrecked in the coal mine.

PUBLIC WORKS DEPT. TO ERECT DRILL HALL

Only One Tender Was Sent in by Local Contractors—Plans to be Returned

Plans for the proposed drill hall have been open for inspection at the city hall for some time to give local contractors an opportunity of tendering. City Clerk Woods is today in receipt of a letter from the department of public works at Ottawa asking for the return of the plans, it having been decided that the department will carry on the work itself. The letter does not state whether the work will be done by day labor or by letting out separate contracts. It is understood that only one tender was sent in from Prince Rupert and that it was not complete.

Home Rule Squabble

(Special to The Daily News) London, Oct. 28.—According to the report from a high personage the informal exchanges of views have occurred between the Ministers and the Opposition leaders but the hope of an agreement is very slender. Earl Grey, speaking last night, says the government is willing to give Ulster control over her own education, police and matters of that kind.

Premier Gouin's Choice

(Special to The Daily News.) Quebec, Oct. 28.—Premier Gouin, who has been representing two counties since May last year has resigned his seat for St. John and will sit for Port Neuf.

EMPIRE'S TACTICS OF NO AVAIL

If the public were not familiar with the dishonest tactics to which the Evening Empire will stoop for the purpose of accomplishing certain personal ambitions of its editor, its leading article yesterday on the enrichment of the coffers of The News at the public expense might be taken seriously. Any one who desires to do so can ascertain at the city hall the amount of money The News has received this year for work done for the city. While the amount is too trifling for discussion, The News challenges the Empire to point out a single case where The News has received a dollar of the city's money without due competition. In this connection it might be mentioned that some time ago tenders were asked by the city for the printing of the building bylaw. The price tendered by the Empire printing office was the lowest, but when offered the job it was refused. Will the Empire take the trouble to explain why a ridiculously low price was tendered and then the job refused?

MORRISSEY THINKS THEY'RE ALL CROOKED

Ex-Ald. Morrissey in a letter to the Empire yesterday "courteously" invites Mayor Pattullo to publish before Nov. 10th an itemized statement of the expenses of himself and city solicitor Peters in connection with their trip to London made for the purpose of disposing of the city securities. At the same time he intimates that the Attorney General will be invited to appoint a commission to inquire into the matter. Apparently the ex-alderman places no confidence in the men elected to transact the city's business who passed the account.

LOCAL ARTISTS TO TOUR ALASKA TOWNS

Gray Family Left Yesterday Put on Series of Concerts in Northern Towns

Mrs. J. S. Gray, Misses Florrie and Ethel Gray and James N. Kelly left yesterday afternoon on the Princess Sophia for Juneau. It is their intention to put on a series of concerts at various Alaskan towns, including Juneau, Douglas and Ketchikan, and possibly Skagway. The Misses Gray who have frequently appeared before Prince Rupert audiences, are both accomplished young ladies. Their singing and dancing have always been well received here and it is not unlikely that their tour will prove a success. They expect to be away ten days or two weeks.

BIG RUSH TO CHISANA

J. W. Horne Has Great Confidence in the New Field

J. W. Horne, who arrived in the city from Dawson on Saturday afternoon, reports the season just closed in the north has been well up to the average in gold production. He feels confident that Chisana will be a good camp although it will not be a large one, as the territory itself is very limited. Little work has been done there up to the present but if the reports that come out during the winter are at all favorable there will be a tremendous rush to the diggings early next spring.

Mr. Horne is spending a couple of weeks in the city before going on to California.

SIR RICHARD M'BRIDE SEES A GREAT BORDEN EMERGENCY

SAYS BRITISH COLUMBIA LOOKS UPON NAVAL CONTRIBUTION AS NATIONAL UNDERTAKING WHICH SHOULD TAKE PRECEDENCE OF ALL ELSE

(Special to The Daily News.) Ottawa, Oct. 28.—Sir Richard McBride, at the dinner of visiting premiers last night, in the course of his speech said: "We deeply deplore the failure of Canada a few months ago to do her share in partaking in the defence of the Empire by a vote of thirty-five millions. The question of national defence should occupy a higher plane than that of political hustings or political platforms. We in British Columbia feel that we have come to the point where, in any fashion, we ought to do our share in the de-

fence not only of Canada, but of the Empire." Speaking at some length on the question of an existing emergency he said: "We believe that if there is any suggestion of trouble of a tangible kind Canada should make a contribution of this character, British Columbia looks upon the naval contribution as a national undertaking which should take precedence of all else, as it would clear the way for a larger imperial movement in which Canada might hope to co-operate, and to a scheme of Imperial federation."

BULLOCK-WEBSTER IS AGAINST BRINGING INDUSTRIES TO CITY

STRENUOUSLY OPPOSES GIVING APPROVAL OF CITY TO THE APPLICATION FOR FORESHORE RIGHTS AT SEAL COVE AS A BREWERY SITE.

At the meeting of the city council last night a letter was read from the federal interior department to the effect that F. L. Wilson had sent to Ottawa an application for foreshore rights at Seal Cove near the cold storage plant, and asking if there was any objection on the part of the city to the granting of such privilege and also for what purpose it was applied for.

The mayor remarked that the city solicitor had already replied to the department that the intention of the applicant to erect a brewery at the point.

Alderman Dybhavn said the finance committee had no objection and he therefore moved that the government at Ottawa be informed that the council had no objection to the application being granted.

Alderman Bullock-Webster thought there was undue precipitation in so suddenly acting upon so important a matter. Some members of the council might have all the information necessary to act upon it but he for one did not understand it.

The mayor said he could not help it if the alderman did not understand English and requested the city clerk to read the letter from the department again.

Alderman Bullock-Webster thought the mayor should frame his phraseology so that the man on the street could understand it. He was a man of common intelligence himself and could understand the English language, but he wanted to know just what this applicant wanted. He moved that the matter be laid over.

The letter was read again and then Alderman Bullock-Webster wanted to know what was meant by foreshore rights.

The mayor said the council was not a kindergarten but for

the benefit of the alderman he would explain. Mr. Wilson asked for similar foreshore rights to what the cold storage company had at Seal Cove, and his purpose was, as stated by the city solicitor, to erect a brewery. He saw no objection to a brewery being there and did not see why they should not notify the federal government to that effect.

Alderman Bullock-Webster would oppose anything being there on behalf of the citizens and must therefore vote against it unless it was laid over for further consideration.

The Mayor: If everything is to stand over we will never do anything, and we certainly do want industries established here.

Alderman Kerr pointed out that the approval of the application by the city was merely a matter of form, as the applicant had already secured these foreshore rights so far as the provincial government and the Grand Trunk Pacific were concerned.

Alderman Dybhavn could not for the life of him see how there could be any objection under these circumstances.

Alderman Maitland said that for himself he understood the matter fully and could see no reason why it should be held over.

The amendment was lost and the motion carried. Alderman Bullock-Webster bravely standing alone to vote against it.

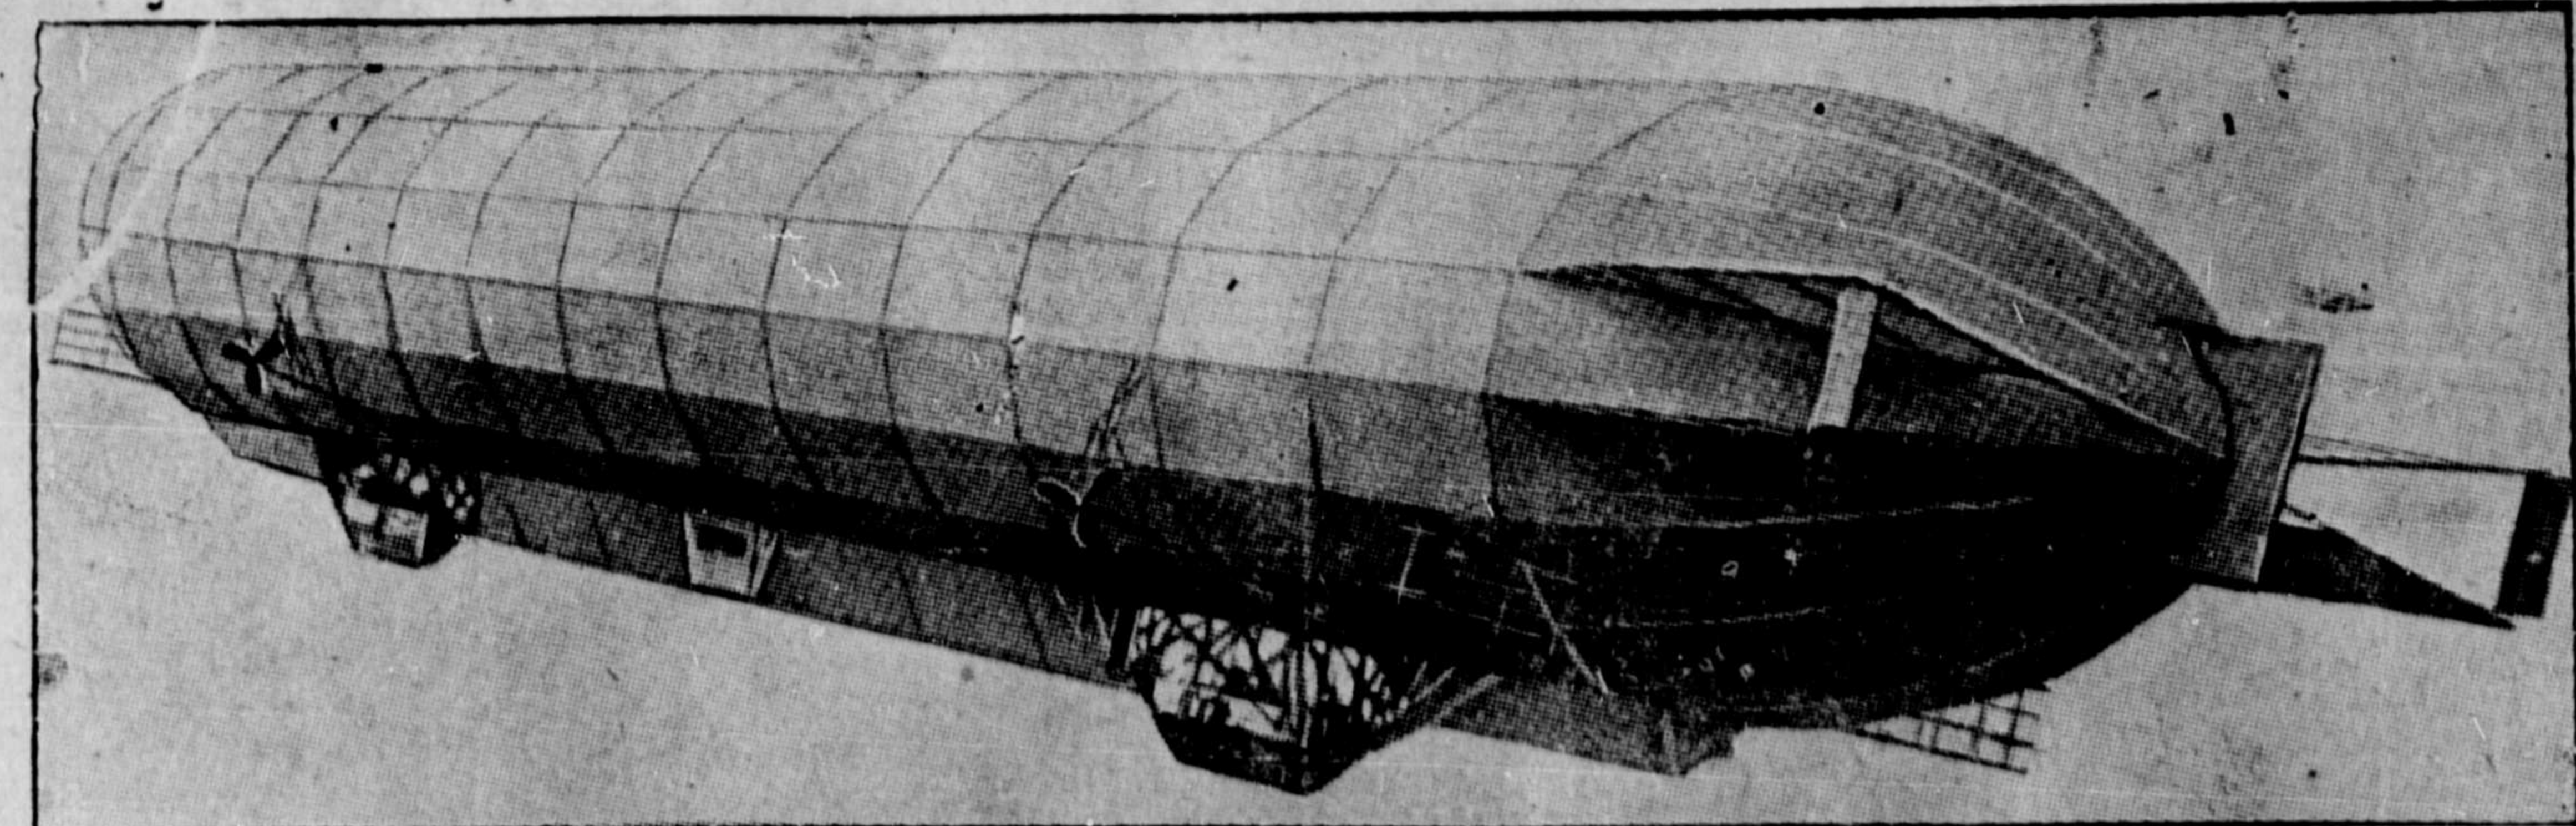

CITY SCAVENGING

Report for First Three Months Very Satisfactory.

At last week's council meeting Alderman Maitland promised that his committee would bring in a report of the scavenging since the work had been done by the city instead of its being done by contract within the next two weeks. He was better than his promise, as he brought down the report at last night's meeting. It showed that the cost of operations for the three months, including the expense of the scow, was \$1,790.92, and that the receipts amount to \$1,786.90, of which \$700 is still to be collected. The mayor observed that over \$500 of the \$700 due had since been collected. He considered it a very satisfactory showing and the council agreed with him.

CAN WE BUILD BATTLESHIPS?

According to the statement of a Canadian engineer in a recent issue of the Montreal Gazette, it is only a question of a short time till Canada is in a position to produce warships as well as commercial ships equal to those of any other nation. Here is a portion of the article:

"We Canadian engineers have time and again been asked to believe, against our better judgment, that the building of warships in Canada is an economical, if not physical, impossibility. The works, which are developing into material form, contradict all such prognostications; and reflection on the addition of such an establishment to Canadian resources opens up a vista of potentialities too vast to be accurately measured. The project materializing is not the conception of an inexperienced speculative mind, but is the embodiment of great and ripe experience. In their estimate of the possibilities of the project, in the arrangement and equipment of the works and in the design, construction and completion for service of ships to be built in the establishment the projectors have the same operation and technical assistance of the greatest naval firm in the home country—that

of Vickers, Limited. In the past five or six years the Vickers Company have been responsible for the construction of thirteen of the world's largest dreadnoughts—apart altogether from their contributions in armor, ordnance and propelling machinery for other battleships—and of a great variety of smaller warships. Their support and guarantee of the immense establishment now being created on the St. Lawrence must, therefore, rule out of court all predictions as to the difficulty of achieving complete success in the building of warships and merchantmen in the Dominion."

WHY FOSTER FEELS SO HUMILIATED.

The Woodstock Sentinel-Review says that the Hon. George E. Foster has been telling a Toronto audience how humiliated he felt while in Australia on learning that the Borden naval policy had been rejected in Canada. Too bad, too bad; but wasn't Mr. Foster to blame in some measure? Did he not, before leaving for Australia—some time before, in fact—counsel the people of Canada that a policy of contribution such as was proposed by the Borden naval bill was not such a policy as would do credit to Canada or one Canadians might be expected to take pride in?

FIERY-ELOQUENCE SMITH IN ACTION

There is a young Unionist M.P. who is being talked of very seriously just now as a possible successor to leader Bohar Law, of the British Unionists. His name is F. E. Smith, and they call him Fiery Eloquence Smith. Strangely enough he is a great friend of Winston Churchill, but on the Home Rule question they must differ much for in the Ulster crisis Smith represents English Unionism in his whole hearted support of King Carson. This picture shows him addressing Orangemen in his recent campaign.

DUKE AND DUCHESS AT HOME ONCE MORE IN RIDEAU HALL

NO FEWER THAN FORTY-TWO ROOMS HAVE BEEN ADDED TO CANADA'S WHITE HOUSE—OTHER ALTERATIONS CARRIED OUT.

(Special to The Daily News.)
Ottawa, Oct. 28.—The Duke and Duchess of Connaught and the Princess Patricia are once more installed in Rideau Hall, but many costly improvements and alterations have been made during the last few months for their comfort and convenience. No fewer than forty-two rooms have been added. A feature of the redecoration work was the carving of a huge coat-of-arms on the front of the house over the porch. It is the biggest of its kind in Canada, and probably in the world. It is fourteen feet high and sixty-eight feet long, and took fifty-three men three weeks to carve, the short time taken on the work constituting a record.

The work has been finished within ten weeks of the contract time, despite many delays. Much of the material used is Canadian product, but some has been imported from France and England. Dominion marble was used in the construction of the balustrade and stairs, etc.

Many internal alterations have been effected and rooms enlarged, but the principal change is noted in the exterior. The face of the building is gray, but it has been treated with acid to prevent the rain having a rapid effect.

The general color scheme for the bedrooms is blue, the famous blue room for festivities having been remodelled. Forty men had to work day and night for fifteen days to complete the painting of the ballroom in time. The porte-chaise in the porchway is another rarity. In fact, there are only two in Canada, the other one being at the Chateau Laurier.

The original contract price was \$125,000, but it was afterward found that extras would

cost \$75,000. The work was commenced in the middle of July, and was originally to have been completed by December 6. The government then wanted it finished by November, and finally by October.

TORONTO MAY SELL MEAT

Council Considers Proposal that City Enter Business

Toronto, Oct. 25.—The City of Toronto may engage in the wholesale meat business. If the City Council endorses the action of the board of control, a plebiscite will be taken on January 1 on the question:

"Are you in favor of the city engaging in the dead-meat trade to supply retailers and to raise \$200,000 by an issue of debentures in order to carry on this business?"

The proposal was brought forward by Alderman Dunn. If it is favored by the people, the city will probably kill live stock at the new city abattoir and endeavor to compete with private companies which are now supplying the retail butchers.

To Command Highlanders

Victoria, Oct. 25.—Lieutenant Colonel Currie, commanding officer of the Fifth Regiment here, will have the command of the new Highland regiment to be formed in this city, it was announced here today. The appointment will be gazetted in the next issue.

When a man's enemies make a display of friendship he always wonders what he has that they want.

Marconi Scandal Again

London, Oct. 25.—The Financial News asserts that strong ministerial influence is being used to prevent action by the stock exchange, which, it is understood has framed a grave report in consequence of its investigation regarding members of the cabinet holding American Marconi stock.

LORD ALVERSTONE, WHO RESIGNED AS LORD CHIEF JUSTICE, AND HIS SUCCESSOR

LORD ALVERSTONE

Lord Alverstone, the man whose decision gave a great part of Alaska to the United States, is probably the first lord chief justice in the history of England to resign his high office. Since the post was established each holder has died in harness. In retiring voluntarily, owing to continued ill health, Lord Alverstone will create another precedent. He has several to his credit. He is to be succeeded by Sir Rufus Daniel Isaacs, K. C. V. O., K. C., attorney general, to which position Sir John Alsebrook Simon, K. C. V. O., K. C., has been promoted from the position of Solicitor-General.

LORD ALVERSTONE

and received the contents of the barrel. But the child who was standing a few feet in front received seven or eight pellets in the side of the neck. Dr. Schmidt was immediately sent for and he gave her every attention. She is now doing well and no dangerous results are anticipated.

MANY PASSENGERS LEFT FOR INTERIOR PONTS

Passengers and Baggage Had to be Transferred near Kitwanga

The first passenger train for the interior since a week ago Saturday left Sunday morning when a special train was sent out. It proceeded as far as Mile 152, one mile west of Kitwanga, met the train from Rose Lake and passengers, baggage and express were transferred. Both trains returned to their starting point the Prince Rupert train reaching here about three o'clock yesterday morning, enabling passengers to transfer to the Prince Rupert for the south at 9 o'clock. Both the outgoing and incoming trains were crowded with passengers. It is expected that the damage to bridges will be repaired so that Wednesday's train can make its run to Smithers according to schedule.

INFORMATION WANTED

Any person having seen or heard anything of Fred Hucker, please send information to Ann Hucker, Ketchikan, Alaska, Box 73. Other papers please copy. 4t-w

NOTE

Nancy Joyce, the sweet little five-year-old daughter of Rev. J. B. McCullagh, was shot and wounded in the neck on the 17th inst by the accidental discharge of a gun. The gun had been laid on a flower stand on the veranda in readiness for predatory hawks, and there for the time being, forgotten. One of the children in playing about must have touched the trigger, thus causing the discharge. Fortunately a tin flower pot full of earth happened to be in the line of fire

NEWS FROM SMITHERS

On the Hudson Bay ranch, near Smithers, R. J. McDonell has harvested one hundred tons of fine potatoes from ten acres of land.

F. D. Eason has let a contract for a large store building on Main, near Third. He is also building a bungalow on one of his lots.

Additional temporary buildings have been erected for station purposes. Work on the big station is expected to begin within a few days.

Sweeney & Orchard have begun building a residence, and next week will have work started on their bowling alley and pool room on Main, near Second.

Frizzell's meat market, under the direction of George J. Frizzell, the popular purveyor, is in full swing in temporary premises on Main street, near Alfred.

The mill of the Seymour Lake Lumber Co., near the railway yard, is turning out ten thousand feet of lumber every day, and is selling every foot of its product.

G. W. Spinning has arrived from South Hazelton with a restaurant and rooming house outfit, and will be in a position to give accommodation within a few days.

Chris Peterson, one of the progressive ranchers of the adjacent district, has brought in a car of fine cattle, including a thoroughbred Jersey bull of the highest class and fourteen Holstein cows. Chris is going into the dairying business in earnest.

Good evidence of the attraction Smithers has for the seeker for opportunity is afforded by the advent of the new firm of Wilcocks & Wolseley. Mr. Wilcocks brought his wife and family from London, England, to locate in Smithers, while Mr. Wolseley was drawn from South Africa by the fame of the Grand Trunk Pacific divisional town—Smithers Review.

TERRACE NEWS

(Special Correspondence to Daily News)

Terrace, Oct. 23.—A largely attended Harvest Thanksgiving service was held in St. Matthew's (Church of England) on Sunday evening last. The church had been prettily decorated with autumn leaves and evergreens, and here and there were arranged the usual offerings of fruit and vegetables. Everyone joined heartily in the singing of the harvest hymns. The Rev. W. J. H. Peter conducted the service, preaching on the Law of Growth.

WATER NOTICE

Take notice that the Prince Rupert Hydro-Electric Company, Limited, of Montreal, Quebec, has filed with the Honorable the Minister of Lands under Part 6 of the Water Act a petition for the approval of their undertaking in relation to the utilization of 1,500 inches of water from Thulme River, Quatoin Inlet, Skeena Water District, for power purposes.

Application for the said water rights was made on the 20th day of September, 1908, by the Continental Power Company, Limited, which last mentioned company has transferred to the Prince Rupert Hydro-Electric Company, Limited, their interest therein.

Copies of the petition, plans and exhibits for approval of the undertaking as required by Section 89 and Part 6 of the Water Act have been filed with the Controller of Water Rights and with the Water Recorder at Prince Rupert.

Objections to the application may be filed with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C. Dated at Prince Rupert, B. C., this 2nd day of October, A. D. 1913.

Noblesse Oblige

Rank imposes obligations— or—as the French put it—"Noblesse Oblige."

It is a very natural and right principle that those who by their position in life command the respect of others should deserve it and be worthy of maintaining their position. "Much is expected of those in high station."

But this principle is not confined to persons of noble birth—it has a hundred applications. It applies, for example, to those manufacturers of reputation and prestige who make goods of high quality and who advertise them constantly in the newspapers of the land.

By their advertising they have attained an eminence where the very best in quality and good service is expected of them. They have set a standard and their very business life depends on the constant maintenance of it.

So that when you buy advertised articles you rest assured that you are getting the best value that money can buy.

Well may you place your faith in advertised goods. Well may you give them preference over articles which you can only hope may prove satisfactory.

For the principle of "Noblesse Oblige" is your guarantee of excellence in Advertised Goods.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumden Building, Toronto.

AIYANSH VALLEY NOTES

(Special Correspondence to Daily News)

The weather in the valley continues to be very wet and sadly handicaps the efforts of the settlers to get comfortably housed before winter.

Ken C. Taylor who is in charge of the government surveying party on the pre-emption reserve, was accidentally shot at Ginskok on the 21st inst. It appears he was taking the gun out of his canoe, when it went off, ripping the muscles of the left forearm from elbow to wrist. It took the party twenty-four hours to bring him down to Aiyansh, where he arrived on the evening of the 22nd in a very prostrated condition. Fortunately Dr. Schmidt was at hand and having spent two hours on the wound, was able to make a favorable pronouncement of the case, though the patient is doubtless still in a serious condition. Mr. Taylor has the unstinted sympathy of all the settlers in the valley, having made friends of all during the time he has been here.

WHITEHORSE PEOPLE GET UP A STAMPEDE NEAR THE TOWN

EVERARD KISSICK JOINS THE RUSH FOR WOLF CREEK, TEN MILES SOUTH OF WHITEHORSE — WHAT WHITEHORSE STAR SAYS OF IT

Everard Kissick, who is on his way to the Chisana, writes to his brother Warren, manager of Pattullo & Radford, that during his stay in Whitehorse getting ready for the big rush to the gold fields, he took a day off and joined a stampede to Wolf creek, ten miles south of Whitehorse, and there staked a couple of claims for himself and brother. He thinks the creek may prove good when bedrock is reached, but is so far taking no chances. The editor of the Whitehorse Star, a stamper from way back in Florida, tells the following incidents of this last great gold rush as follows:

After sitting on the fence and watching stampedeers pass this way to Chisana all summer, Whitehorse now has a placid excitement just outside of her front gate. And it looks good, too.

Friday of last week, George M. Stevens, one of the pioneer miners of the southern Yukon came to Whitehorse and quietly informed a few of his friends of a discovery — three discoveries in fact — which he had made in the vicinity of Dugdale lake, ten miles south of town, one on Wolf Creek, the other two on old river bed in the same vicinity. Stevens, who has valuable quartz holdings back from Robinson, twenty-two miles up the railroad, had first "wised" the Wheaton miners of his discoveries and six or eight of them staked Friday of last week.

George Armstrong and C. A. Mowry "took a walk" Sunday and staked on Wolf Creek and one of the dry beds. On Monday morning Captain P. Martin, George Curtis, W. A. Puckett and E. J.

White went out on the train and all staked on Wolf and Extension. As none of the four weigh less than 200 pounds, the discoverer did not ask them to enter the free-for-all race for claims.

By Monday evening the whole town was excited. The news had been whispered around that a discovery had been made and that several claims had been already staked. By nine o'clock that night between thirty or forty men were hiking southward. Some on horseback, some in wagons, some on handcars, but the majority on foot — professional men, mechanics, laborers, loafers, rich men, poor men — but no beggars or thieves. Those who used horses and handcars beat some of the "mushers" only by a few minutes, but all staked claims and tired and weary men were wandering back to town from 5 o'clock in the morning until noon of Tuesday.

About a dozen went on Tuesday's train and secured claims "away up the creek" and that night a delegation from Tokio hot footed it out and staked further up and within the shadow of old Golden Horn. In all nearly one hundred claims have been staked and others will be staked.

The small amount of prospecting done on the creeks justifies the stampede. Experienced miners who have panned in the first hole — a mere surface scratch made by Stephens on Wolf creek say the dirt would wash an ounce per day to the shoveler if sluice boxes were used. From \$8 to \$12 per day is the estimations placed on the other two creeks — which are not creeks, only dry creek beds.

OFF FOR THE CHISANA

The Moore Brothers Have Had Attack of Gold Fever

B. G. and R. L. Moore, who have been in the transfer business ever since Prince Rupert was and helped to clear it for the Pacific Transfer Co. and Douglas Sutherland and are soon to hurry north to the Chisana. But first they are going to take a trip up the line to settle up some business.

This will not be the first stampede they have been on by many. They are not only pioneers of Prince Rupert but also of the Klondike, having stamped across the dead-horse strewn trail of White Pass in the early days and been in business at Dawson for years. They still retain their property interests in this city and hope to return just as soon as they get their pokes well filled with Chisana gold.

COLORED MAN STILL IN THE TOILS

Leon Washington, the colored man charged with breaking into Letourneau's tin shop a couple of weeks ago, is still in the cells. He was committed for trial by Magistrate Carss when he came before His Honor Judge Young for election, his counsel, A. M. Manson, asked for an adjournment which was granted. Bail was also asked for but this has not yet been arranged.
