(Special to the Daily News) Mexico City, Nov. 7.—President Huerta, it is stated, will ignore altogether the request of the United States that he resign. He has resolved, according to current report, to immediately seat the Mexican congress which has just been elected.

Vera Cruz, Nov. 7.—John Lind, President Wilson's personal representative, accompanied by the military attaché of the Mexican embassy, departed suddenly last night in the direction of Mexico City. The object of the sudden trip remains unrevealed.

Havana, Nov. 7.—An attempt was made last night to assassinate General Felix Diaz as he was walking on the Malecon, the fashionable promenade. He was stabbed behind the ear and in the neck, besides receiving several blows on the head from a cane. The general was removed to the hospital and it is expected that he will recover. His assailant was arrested and proves to be a Mexican.

LABOR VICTORIOUS AT CITY ELECTIONS IN OLD ENGLAND

BOTH THE LIBERAL AND THE UNIONIST PARTY CANDIDATES WERE WOEFULLY DEFEATED IN MANY OF IMPORTANT CONTESTS.

London, Nov. 6.—Labor came out victor in the municipal elections held throughout England on Saturday. The Labor party won 24 gains, while the Unionists have the same number of losses. The Liberals, too, lost a few seats.

ary by-election failed to retain his seat in the council. At Wigan the Unionists lost five seats to the Laborites, while at Bradford only three of seventeen Socialist candidates were elected. Several women candidates won seats in various towns.

The Battersea borough council proposes to appoint J. C. Archer, a photographer, and a negro as mayor. If he is chosen he will be the first colored mayor in London. His wife is also colored. Archer, who is a councillor and a poor law guardian, was nominated by the Progressives, who have a majority of three over the opposition.

NEW GOLD STRIKE ON THE PACIFIC GREAT EASTERN

TWO MEN FROM CONSTRUCTION CAMP, THIRTY MILES NORTH OF NEWPORT, REPORT THE DISCOVERY ON REACHING VANCOUVER.

The Vancouver Sun in a recent issue reports a rumored gold strike on the line of construction of the Pacific Great Eastern about thirty miles north of Newport. The article says:

and two companions made the find, which they claim is very rich. Sever, who worked for three years in Arizona gold mines, declares that the find is a real strike of importance.

Just as soon as the government offices open here in the morning the men will take out their certificates and will leave for the claim again. Two of the discoverers are now keeping guard on the strike while the others came to the city to register their claims. The find is located in the Chekamus valley, above Mile 47. The exact location has not been divulged, but it

LAURIER'S PROGRAMME BEFORE THE SESSION

Will Attend Opening of Quebec Legislature—Addresses to Young Liberals

(Special to the Daily News) Ottawa, Nov. 7.—Sir Wilfrid Laurier has mapped out an extensive programme for the time intervening before the re-assembling of parliament. He will be the guest of the Lieut.-Governor of Quebec at the opening of the provincial legislature. On the 16th he will address the Young Men's Liberal Clubs of Ontario at a banquet to be given at Brantford, and will also speak at about the same date at Hamilton. The middle of December the great Liberal chieftain expects to be in Toronto to formally open the Ontario club and address its members. He will address the University literary associations of that city, and a number of other fixtures are being considered.

CANADA'S PROBLEMS EQUALLY IMPORTANT

Ambassador Bryce Welcomed in London by Large and Distinguished Gathering

(Special to the Daily News.) London, Nov. 7.—A large and distinguished gathering welcomed the Rt. Hon. James Bryce, recently British Ambassador to the United States, at a dinner given by the Pilgrims' Club last night. The celebrated writer and diplomat devoted a good part of his address to criticisms of the press upon his work as ambassador, and in connection with this work he emphasized the idea that the British Ambassador to the United States had to deal with problems between Canada and the United States, for Canada's interests were as important to the empire as were England's.

WILL OPEN A BRANCH STORE AT SMITHERS

J. S. Gray Impressed With Business Facilities at the New Town

J. S. Gray, who returned last night from Smithers, announces that it is his intention to open a branch jewelry store in the new railway divisional town. He has secured one corner of Lynch's new block at the corner of Broadway and Main, the best location in the town, and will open up about December 1st. Mr. Gray reports everything humming in the new town. Plank roadways have been laid and a large gang of men is at work putting up the necessary buildings.

TWO THOUSAND MILITIA Encamped in Indianapolis for Duty During Car Strike

(Special to the Daily News.) Indianapolis, Nov. 7.—Indiana's entire national guard of more than two thousand soldiers are encamped in different parts of the city, ready for duty in connection with the strike of the employees of the street railway company. The town is practically surrounded by troops.

is known in the camp that some of the men have made a find, and there is likely to be a sudden rush from the construction camp when the location is made public. The samples of quartz and dust which the men have brought down have every mark of being of the best quality. They state that both placer and quartz mining will be good in the vicinity. They expect to make arrangements for receiving supplies from Vancouver and will work the ground during the entire winter.

"LAPSE OF MEMORY."

The Evening Empire has had another of those attacks of "failing memory."

In its leading article last night it said: "If it had not been for the Empire's criticism the city long ere this would have run a very great risk of having been robbed of all its valuable franchises." Strange, isn't it, that its memory is so poor on this particular question of franchises? It was only during the last municipal campaign that the Empire was forcefully reminded of its attitude on the question of the telephone franchise. The public has not forgotten that the Empire advised making terms with the B. C. Telephone Co. and discouraged the idea of starting off with municipal ownership. The public will hardly be generous enough to attribute the Empire's statement of last night to "lapse of memory." It will simply put the statement down as another of the Empire's deliberate lies made for the purpose of deceiving the people and making them think the editor of the Empire is the "trusty watchdog of the city's interests."

(Special to The Daily News.) London, Nov. 7.—"Captain Scott's Last Expedition," published today, clears up many obscure points in the diary of the famous explorer. Such interesting features as the astonishing failure of Evans, the strongest man of the party; Amundsen's triumph due to condition of Captain Oates as a contributing factor, and others. Oates' last thoughts were of his mother and his regiment.

PRESBYTERIANS WILL BUILD NEW CHURCH

Over \$1600 Has Been Subscribed Towards Building Fund—Will Ask for Tenders

At a meeting of the congregation of the Presbyterian church held last night the report of the building committee appointed at a recent meeting was received. At the previous meeting it was decided that if the committee could raise \$1500 the congregation would proceed with the building of a new church. The report of the committee last night was a most encouraging one, the chairman reporting that although the field had been by no means covered, over \$1600 had been subscribed. The committee had no hesitation in guaranteeing \$2000. The committee was therefore instructed to advertise for tenders. The plans prepared by architect Procter were examined and considered satisfactory. The estimated cost of the new building is in the vicinity of \$4,500. The building committee consists of Thos. McClymont, H. F. McRae and D. C. McRae.

MR. JUSTICE CLEMENTS CHARGED WITH DRAWING TOO MUCH MONEY

CLAIMED THAT HE WAS NOT JUSTIFIED IN CHARGING PER DIEM EXPENSES WHILE ON DUTY — AN INTERESTING TRIAL

(Special to The Daily News.) Vancouver, Nov. 7.—An unusual trial, in which the crown is complainant and Mr. Justice Clements of the Supreme Court defendant, opened here yesterday before Justice Cassels in the Exchequer Court.

The charge is made that Justice Clements, between August, 1907, and March, 1910, misrepresented to the crown his place of residence and thereby secured about \$4000 under the rule which allows a judge six dollars per day expenses, during the days that he is absent on duty from his place of residence. The defence is that during the whole time complained of the defendant had a place of residence at Grand Forks in the Kootenay district, and was therefore properly entitled to charge expenses for the time he was on duty in Vancouver or elsewhere.

F. C. McLennan of Montreal, is appearing for the Crown, Sir Charles Hibbert Tupper, E. P. Davis, E. V. Bodwell and J. McD. Mowatt for the defence.

ABUSIVE LANGUAGE LEADS TO FATAL SHOOTING AT TELKWA

CLARENCE HOWELL SHOT IN THE BREAST IN BAR ROOM BY A RUSSIAN FINN — DIED EIGHT HOURS LATER

News reached the city last night of a fatal shooting affair at Telkwa on Tuesday afternoon. From the information to hand it appears that a young man named Clarence Howell, employed in the sawmill at Telkwa was hanging around the bar-room in the Telkwa Hotel on Tuesday afternoon when a Russian Finn entered. Howell, it appears, had no money and wanted a drink. He kept asking the Finn to buy him one until the Finn started to abuse him by calling him names unfit for publication. Howell took exception to the language used by the Finn whereupon the latter pulled a gun and deliberately shot Howell through the lungs. Howell then walked out of the bar to a barber shop where he inquired for a doctor's office. He was able to walk to the lat-

er but nothing could be done to save his life. The shooting occurred about 1.30 in the afternoon and the unfortunate man died at 9.30 the same evening. The Finn was at once placed under arrest and is awaiting his preliminary hearing.

THE DIGNITY AND DUTY OF CANADA

It will be very hard indeed to find as representative of Canada as a nation a statesman with the grace and dignity of Sir Wilfrid Laurier. Those who have his published volume of speeches and who compare them with his most recent ones, will find no falling off in the clear, forceful but simple and dignified fibre of all his public utterances. Here is an abstract from one, for instance, that he delivered at South Bruce, where the Liberal campaign was fought and won on the naval policy. Sir Wilfrid said: "We are growing as a national people, and as a national people we are prepared to undertake all the duties and responsibilities which appertain to a people. Speaking for myself and the others who are about me, we are prepared to take our share to relieve Britain of the necessity of defending us. This is a duty which every Canadian, whether of French, British or German origin, should be prepared to undertake—to defend the trade of Canada, and to relieve the British taxpayer of the necessity of defending Canadian interests."

LLOYD GEORGE'S LAND POLICY

The British Chancellor of the Exchequer when launching his land policy drew particular attention to the advertisements of pretty homes for everybody in Canada, in fact the primary cause of his policy seemed to become the drain of Canadian emigration from the British isles. He proposes to nationalise the unworked

land of the United Kingdom and place it in the hands of those who will use it and make it productive, just as the wild lands of this country are made productive. In this course he is confronted with many obstacles.

Britain for more than a century has been guided by the false sentiment that the country was improved by shipping out of it thousands and hundreds of thousands of its population. Canada has been guided by the belief that population is invaluable and has offered inducements in land to immigrants. Britain has now come round to this belief and is attempting, in the Lloyd George bill, to offer the same inducements to keep its population at home.

But, Canada to offer the inducement has merely to open up her unused crown lands to settlers. Great Britain has to take the unused lands from private individuals and make them crown lands. Canada, if she had no other land open to the settler, might expropriate the immense holdings of the Canadian Pacific Railway, the Hudson Bay Company, or any of the big land proprietors and offer the same to settlers on terms without violating any deep-seated tradition of the Canadian people, because the Canadian people are accustomed to the idea of the settlement of unused lands. It is totally different in Great Britain. There Lloyd George is handicapped by the tradition of centuries, and his proposal to use lands heretofore held out of use in baronial estates for sport or pride is classified as a revolution. That is what it is.

PANKHURST LECTURES

London Militant Gives Offense by Raising Rates

Chicago, Nov. 4.—Crimes against women were given as a cause of the causes of militancy by Mrs. Emmeline Pankhurst, the British suffragist, in a lecture today, to an audience largely composed of women. She named numerous laws, which she said discriminated against her sex, as other reasons for the violent tactics adopted in England in the fight for "votes for women."

MRS. EMMELINE PANKHURST.

Leader of English militant suffragettes, who was allowed in the United States to lecture after being rejected by the immigration authorities. She was last heard from at Cincinnati, where she stated that the United States women had no need of militant methods to secure voting privileges.

ated against her sex, as other reasons for the violent tactics adopted in England in the fight for "votes for women."

Members of the committee on arrangement, displeased because Mrs. Pankhurst's manager increased the price of stage seats from \$1.00 to \$1.50 after agreeing that no seat should sell for more than a dollar, kept their promise not to occupy chairs on the stage.

RAILWAY FOR STEWART

Will the Peace River Road Have Terminus There?

A dispatch from Edmonton announces that President J. D. McArthur, of the Edmonton, Dunvegan & British Columbia Railway, states that track has been laid from that point northerly for over one hundred miles and it was expected to reach the site of the bridge across the Athabasca river at Mirror Landing, mileage 130, before suspending work for the season. Ballasting gangs are following up the track layers, and it was hoped to have the line open to Mirror Landing before the end of the year. Grading and other work beyond the river was being proceeded with and being built. On more than one occasion it has been announced that this line would be connected up with the proposed Canadian North Eastern Railway, of which Stewart is to be the Pacific terminus. Meanwhile the Alberta railway is heading as fast as possible for the Peace river valley, where a tremendous influx of settlers is now taking place.—Portland Canal Miner.

DANGER IN RIOT OF PROGRESS NOW MADE IN WESTERN CANADA

PROFESSOR MITCHELL SAYS WINNIPEG IS EATING THE LIFE OUT OF THE SMALLER PLACES OF PRAIRIE PROVINCES.

London, Nov. 3.—Professor Humphrey Mitchell has an article in the new number of the Economic Review regarding the development of Northwest Canada.

"He would be a bold man who would dare to be a pessimist," writes the professor, "and yet there are certain aspects of the case which certainly make one pause and question whether, after all, there may not be a limit to all this riot of progress and prosperity."

In support of this contention he deprecates the "utterly unscientific and wasteful" methods of agriculture too long pursued in the west. The whole of the colossal increases in the production in the number of acres under the plow and not in the improvement of agriculture. Professor Mitchell also sees danger in the abnormal growth of Winnipeg, while the percentage of the rural inhabitants steadily declines. "Winnipeg is eating the very life out of the little towns and villages," he says.

The real estate business is another source of apprehension to the professor, and he has the gravest doubts whether the idea of Winnipeg having direct communication with Hudson's Bay will ever materialize. He sees, in fact, the Hudson's Bay Railway and the Panama Canal diverting vast quantities of the grain in other directions.

Setting aside the childish talk in the boosting of the west, Professor Mitchell says it can be affirmed, in sober earnest, that Western Canada has wonderful resources. Speaking of the mineral resources, he anticipates that such places as Lethbridge and Medicine Hat will eventually rival

Pittsburg. His final word, however, is that the solution of the problems of Western Canada lies in improved agricultural methods and the abandonment of exclusive grain raising for mixed farming.

May Never Happen Again.

Philadelphia, Nov. 3.—Sixty-three years ago a young girl took service in a family in this city, and today, although more than 80 years old, she continues in the same position and serves those she served when they were little children. This is the record of Ellen Hume, housekeeper for John T. Norris and his sister, Miss Lydia Norris.

Alfred Noyes is coming over to America to lecture on "The Sea in English Poetry." It will be interesting to hear his treatment of those aquatic classics, "Down Went McGinty," and "There Is a Hole in the Bottom of the Sea."

STEWART MINING OPERATIONS TO BE CONTINUED ALL WINTER

GLACIER CREEK'S BIG BORE NOW IN TWENTY-FOUR HUNDRED FEET—OPERATIONS AT INDIAN MINES AND LAKEVIEW PROPERTY

Up to yesterday the big bore being driven by the Portland Canal Tunnels, Ltd., had reached a distance of 2,400 feet and General Manager, W. J. Elmendorf, who left for the south on the Thursday boat, stated to The Miner that the face of the adit showed all signs of entering the Glacier Creek vein series as there had been a perceptible change in the rock being drilled into. It is more than possible that the tunnel will be in the vein proper in a very short period and interest locally is being maintained at a high pitch.

Indian Mines—Manager Geo. Clothier states that the upper tunnel has reached a distance of 370 odd feet and the lower is in over 60 feet, according to the last reports brought down from

this promising Salmon river mine. Both adits are being driven on the ore, and in each distance the grade is excellent.

Lakeview—This property has for several weeks past been undergoing surface development at the hands of the owner, James McKay, with most satisfactory results. The Prince George took south a test shipment of three tons for the Tacoma smelter and from a careful sample made by Assayer George E. Clothier, it is expected that the ore, which is a galena carrying high grade silver, will easily run over \$100 to the ton. The ore came from the surface, and it is more than likely as a result that work will be continued this winter.—Portland Canal Miner.

WONDERFUL SWIMMING BY A YOUNG FAT MAN

With Both Hands and Feet Tied He Tows Loaded Boat for Eight Miles

New York, Nov. 3.—Henry Eli-ionsky, of New London, Conn., who, though 19 years old, weighs 265 pounds, swam from Brooklyn Bridge to Bay Ridge, eight miles, yesterday afternoon with his hands and feet bound, and towed a rowboat in which were seven men weighing more than half a ton. He explains the fact that the feat took him three hours and eleven minutes by saying the tide in Buttermilk Channel was against him. The boat was attached to Eliionsky's shoulders by a sort of Dutch collar arrangement. The young swimmer was in fine physical condition at the end of his jaunt.

Jealousy Causes Two Deaths.

Pendleton, Ore., Nov. 3.—Dave Rowan, who was shot here by Charles Cook, who then killed himself, died last night at a hospital. Jealousy is given as the cause of the crime, Rowan being in the company of Cook's divorced wife and his little daughter at the time of the shooting.

KAISER BUYS PAPER

Pays \$2,500,000 for Lokal Anzeiger for an Organ

Berlin, Nov. 4.—It is reported here that \$2,500,000 has been paid to retain a newspaper mouthpiece for the Kaiser's use. The money was paid to the August Scherl Newspaper Company, owners of the Berlin Lokal Anzeiger, in return for a pledge to keep the paper constantly at the government's disposal. This influential journal was in danger of falling into the hands of Rudolf Mosse, owner of the Berliner Tageblatt, which would leave the imperial party without an important newspaper.

NEW STYLES MANNISH

Women's Fall Hats and Collars Masculine

Paris, Nov. 4.—Fall styles as displayed at the Auteuil races today have distinct masculine features. Hats are black velvet, modeled on the lines of a man's top hat, and distinguished by a single feather rising two inches above the crown. Silk collars of the Gladstone type, slightly stiffened and held in position by a gold pin, were seen, worn with tailored suits. There were also self-colored ties worn with stand-up winged collars.

FRATERNITIES BARRED

Girl Was Forced to Walk Streets in Tights.

Gloversville, N. Y., Nov. 3.—Because a handsome young woman of eighteen in the Gloversville high school was required to walk down street attired in tights and an unwilling smile as a part of a sorority initiation, the board of education has issued an order barring fraternities and societies from the school.

The embarrassing ordeal to which the young woman was subjected became known to her parents, it is said, and they complained to the board. The ban on societies followed.

The Case of A.B. Smith, Retailer.

A. B. SMITH has a dry goods store in a certain Canadian city. He does a good business, but wants to do more. He believes that Advertising in his local newspaper is the way to get more business. So he advertises—every now and then. This is where our friend Smith is wrong—in advertising every now and then. He should advertise regularly—as frequently as his local newspaper is published.

Smith says he wants to advertise regularly, but he can't always find the time to prepare advertisements, which is true, for he is his own buyer, sales-manager, director of store service, credit man and half-a-dozen other things. What Smith should do is this: If he is located in one of the smaller cities, in which there are no advertising agencies giving a local copy service, and he has no one among his own staff qualified by instinct or experience to write the daily announcements, he should go to the publisher of the newspaper in which he means to advertise, requesting his help. In nine cases out of ten, the publisher, through his advertising manager, will be only too glad to give Smith the assistance desired.

If Smith is located in one of the larger cities he should secure the services of a recognized advertising agency which will take over the work of preparing his advertisements. In this way Smith can be sure of having his advertisements prepared regularly and intelligently, with no more trouble to him than the supplying of the information required by the writer of the advertisements.

So Smith can do more business, and more business means a larger income for himself, to say nothing of other gains that go hand in hand with the doing of bigger business.

This man Smith---do you know him? Are YOU Smith?

IT IS POSSIBLE—BUT

The stranger paused on Harlem's shores
 And blinked a startled eye
 To see the joy-mad multitude
 Go romping gaily by,
 With rockets, music, drums and fifes,
 And fire of crimson hue,
 To celebrate some great event,
 A longed-for dream come true.

The stranger watched the motley throng
 On mirth and pleasure bent,
 "Perhaps," quoth he, "they have at last
 Made Sulzer President;
 Or, maybe, Huerta's bit the dust
 Before a Yankee crew;
 Has Teddy dammed the Amazon,
 For something else to do?"

He plucked a roysterer by the sleeve,
 And begged him to reveal
 The secret of this triumph grand
 That made the senses reel.
 "What mean these shouts? This raucous roar?
 What for this wild acclaim?"
 The answer pierced the awful din
 "Boss Murphy's quit the game!"

LAST DERBY RACE

One of the Greatest Race Films that Has Been Shown

The crowds on the Churchill Downs on Derby Day, to attend which parliament adjourns and business is practically suspended, is a most interesting picture to be put on at the Empress tonight, together with the exciting race itself and the scenes which contribute to make the day one of the most memorable in England. Another film that will make British hearts throb is "The Victoria Cross," giving a magnificent reproduction of the famous charge of the Light Brigade "while all the world wondered." "The Sign of the Black Lily" is given again by request, and Pathe's Weekly is particularly interesting.
