### Mayor Pattullo leaves for Victoria on Monday morning in connection with city business. The following open letter from the ex-mayor of the city to Sir Richard McBride may be expected to appear in the Empire on Monday evening:

"Sir Richard McBride, Victoria, B.C.

Dear Sir,-His Royal Nibs the mayor left for Victoria this morning to interview you with regard to the city's spondoolicks. This is the fourth trip that His Mightiness has made this year at the expense of the taxpayers and we are getting tired of it.

For God's sake don't help him to get the dough. Already this year they have sold thirty-five times more debentures and have secured almost as much money as the two previous years put together, and where last year at this time we were at our wit's end to meet our checks on current account, this year the city is lousy with money, and all this in spite of the fact that this is the most stringent year in a decade. If His Nibs gets any more money I will sure blow up. I feel now flatter than an inflated balloon with the wind out of it. It is far better that the city should be ruined than that my stinking cussedness should remain unsatisfied.

How I wish I could find words to express what I feel without getting into trouble. As it is they hold me down to such generalities as "thieves," "grafters" and "assassins," and these are about worn out.

The worst of this autocrat who is going down to see you is that he knows I am a political fakir and the people believe him, and my job is about done.

Ho, Ho! He, He! Ha, Ha!

Yours, "EX-MAYOR."

### SQUANDERING THE PUBLIC FUNDS. The total cash subsidies paid the C. N. R. system by federal

and provincial governments and by municipalities, exclusive of the last federal session's munificence amount to \$11,-239,722. In land grants they have received some six million acres (two million from Ontario) and at a moderate estimate of \$6 per acre the cash value would be \$36,000,000. Add to this the last cash subsidy of \$15,640,000 and the total in land and cash comes to \$62,899,722. Federal government bond guarantees total \$58,043,250; provincial government bond guarantees bring this total up to \$120,120,151 The total public assistance to the Canadian Northern system in cash, land and bond guarantees may therefore be fairly estimated as \$183,010,183-a staggering total. Messrs. Mackenzie and Mann practically own the \$70,000,000 of the capital stock; they have made millions in their separate capacity as contractors for the system; they stand to make

One may be pardoned for wondering occasionally what it is all about and where the public come in on this arrangement which places a private firm in the position of enjoying all the patrimony that any government could consistently extend to a public road, if not more, accepting at the same time none of the responsibilities to the public whose money makes the enterprise possible.

### CALLED ON A FOUR FLUSH

When Sir Edward Carson started out to form his Ulster volunteers he evidently did so with the belief that a sufficiently strong bluff would cause the Asquith government to back down on the Home ernment would prove its undoing. Under the circumstances the repeated declaration of Premier Asquith that if a statue passed by parliament were to be met by organized, armed resistance, it would be the duty of the executive to assert the authority of the law, places Sir Edward in the position where he is discovered in possession of four hearts and a spade.

## Be Ready to Enjoy Christmas

LAN your gift - giving this year on a sensible, businesslike basis - start by sending for the "Ryrie" Gift Book. Just an hour or two spent in looking through it will solve your gift problems, not only for Christmas, but for the coming year.

You intended doing this last year, but each day put off "until to-morrow." The result was that Christmas came and went, not merry but unhappy, because you had so much to do at the last minute.

Your gifts did not represent your tastes—did not satisfy you in any particular. You paid more than you intended—went to all the bother and expense of parcelling and mailing them. If any of them went astray you had to stand the loss.

Profit by this experience—get the "Ryrie" Gift Book early. Order your gifts from it and order early. We will send them for you-pay all charges -assume all risk of loss or damage. This will leave you free to enjoy your Christmas as it should be enjoyed. Just put your name and address on a post card and say "Send Gift Book." It will go forward at

## B. SMITH has a dry goods store in a certain Canadian city. He does a good business, but wants

to do more. He believes that Advertising in his local newspaper is the way to get more business. So he advertises-every now and then.

This is where our friend Smith is wrong—in advertising every now and then. He should advertise regularly—as frequently as his local newspaper is published.

Smith says he wants to advertise regularly, but he can't always find the time to prepare advertisements, which is true, for he is his own buyer, salesmanager, director of store service, credit man and half-a-dozen other things. What Smith should do is this: If he is located in one of the smaller cities, in

which there are no advertising agencies giving a local copy service, and he has no one among his own staff qualified by instinct or experience to write the daily announcements, he should go to the publisher of the newspaper in which he means to advertise, requesting his help. In nine cases out of ten, the publisher, through his advertising manager, will be only too glad to give Smith the assistance desired.

If Smith is located in one of the larger cities he should secure the services of a recognized advertising agency which will take over the work of preparing his advertisements.

In this way Smith can be sure of having his advertisements prepared regularly and intelligently, with no more trouble to him than the supplying of the information required by the writer of the advertisements.

So Smith can do more business, and more business means a larger income for himself, to say nothing of other gains that go hand in hand with the doing of bigger business.

This man Smith---do you know him?

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.
