#### BONAR LAW DEFIES GOVERNMENT TO ARREST SIR EDWARD CARSON

IMMENSE MEETING IN DUBLIN OF SOUTHERN IRISH UNIONISTS—STREET FIGHTS, WINDOW SMASHING, SHOOTING—ONE WOMAN WOUNDED

(Special to The Daily News)  
Dublin, Nov. 29.—Bonar Law and Sir Edward Carson arrived here yesterday to meet Unionist delegations from the south of Ireland. These southern Irish Unionists refuse to accept any compromise which, while exempting Ulster, will hand the Unionist minorities of the rest of Ireland over to what they call Nationalist domination.

This was the chief difficulty Mr. Bonar Law had to face when he addressed the immense meeting held here last night. In his address he argued that the attitude of Ulster alone justified the demand for an appeal to the

country. He challenged the government, if they believed they had the moral right behind them, to arrest Sir Edward Carson and to suppress the armed movement in Ulster. This statement was wildly cheered.

The streets were densely crowded, both Nationalists and Unionists being out in strong force and making demonstrations. The students marched in procession, smashing the windows of tram cars and buildings and much damage was done. Some shots were fired and one woman was wounded. The police were kept busy all night stopping the various affrays.

#### SCOTLAND'S LADS AND LASSIES AT THEIR GREAT ANNUAL BALL

ST. ANDREW'S YEARLY FUNCTION THOROUGHLY ENJOYED BY LEADING SOCIETY PEOPLE OF PRINCE RUPERT UNTILL EARLY THIS MORNING

The members of the St. Andrew's Society added materially to the laurels they have already won as social entertainers, every one agreeing this morning that the ball of last night was the prettiest and most enjoyable ever. There were from sixty to seventy couples on the beautiful surface for dancing that the St. Andrew's hall presents, and Gray's orchestra of four pieces discoursed most charming music.

the other by a dainty supper at the witching hour of midnight.

The lady patronesses were Mrs. Wm. Manson, Mrs. A. M. Manson and Mrs. J. M. Carmichael, and to their gracious efforts in the conduct of the dance most of the success of the evening was due. The Master of Ceremonies was the president of the Society, Mr. S. D. Macdonald, and the ball committee comprised W. G. Dennis, Chas. Dennis, Geo. S. Russel, Cecil Brown, Malcolm McLeod and Athol Fraser.

The decoration committee not only worked hard but accomplished very praiseworthy results. It was not a blaze of color but an artistic blending of the colored banners of Scotland with the Union Jack and the ensign of Canada and looped festoons.

#### CITY'S FINANCES IN EXCELLENT SHAPE NOW

Officers of Bank Claim Better Than Any Other City in British Columbia.

"You might mention," said Mayor Pattullo to The Daily News this morning, "that the officers of the Bank of Montreal stated that Prince Rupert city is in better shape financially than any city in British Columbia. This should be a source of satisfaction to the citizens. Getting the city's affairs into this shape has entailed a lot of work on the part of the city council and staff which the public know nothing about."

JIM LARKIN, THE LABOR AGITATOR, WHO WENT UP LIKE A ROCKET AND CAME DOWN LIKE A STICK

This is a picture of James Larkin, the labor agitator, who was the leader of the Dublin strikers, before and after he had his mustache shaved off. He was imprisoned in Dublin and the people making a martyr of him the government found it politic to release him. He immediately left the starving strikers in Dublin to "carry the fiery cross to England" and order a general strike. He has hauled down his flag in view of the determined hostility of the English trade-unionists to his drastic plans. As was stated in one of the dispatches to the Daily News, "The Larkin rocket has gone up and come down a dead squib, so far as its effect on British labor is concerned."

#### PRINCE RUPERT BEST CITY ON THE PACIFIC COAST TO-DAY

MAYOR PATTULLO SPEAKS OPTIMISTICALLY OF HOME CITY—INTERESTED PROVINCIAL GOVERNMENT IN CITY FINANCES

"We are lucky to be living in Prince Rupert," remarked the mayor to The Daily News this morning, and he spoke with enthusiasm. "The more I saw of the cities down the coast the better I realized that Prince Rupert is the best of them all. There are more people talking of the north now than ever before. As I have previously intimated no city has a better outlook for the immediate future than we have."

The mayor came in on this morning's boat from Victoria, where he has been soliciting provincial interest in the financing of the city. The mayor had interviews with Premier McBride, the Hon. W. R. Ross, and another meeting with the whole executive Council. The final reply to these negotiations will be given the city next week.

While in the south Mayor Pattullo visited Tacoma and Seattle, and was surprised at the number of men out of employment. Conditions are so much worse financially in the other towns that he could not help feeling a pride in Prince Rupert.

**BELLA COOLA NOT SATISFIED.**

The local McBride organ makes a very poor explanation of the criticisms of the Bella Coola Courier on the expenditure of road monies in the Bella Coola Valley. The champion of Mr. William Manson, M. L. A., would have its readers believe that the dissatisfaction is all because the roads are not built faster. This is not the case. There is complaint from settlers 20 miles in that as it has taken ten years to build ten miles of the road they will have to wait another ten years before they can team their supplies home, but the chief criticism is on the way the road money has been spent. The Courier charges that the roads have been routed contrary to the wishes and convenience of the settlers, that bad judgment has been used and much of the money wasted.

If the explanation made by Mr. Manson at the meeting of the settlers was satisfactory, as the Tory organ suggests, why is it that the kicking continues and the settlers themselves are adding to the complaints in public letters printed over their own names?

When Prince Rupert property holders were able to pay in over \$200,000 cash in time to secure the rebate on city taxes, one begins to question this complaint about the scarcity of money.

The Calgary oil boom has a real knocker in the Herald of that city and the newspaper has practically put a quietus on the wildcatting in oil. The Herald has handled its campaign with a courageous and caustic pen. In referring to the men at the head of some of the new stock selling companies it said: "Whose relation to legitimate business is about the same as that of the coyote to the animal kingdom."

Prince Rupert boosters will note that the Edmonton Capital says: "Before long Alberta will have lost its monopoly of being able to hold out the inducement to the prospective settler of immunity from personal property taxation and from taxation upon improvements. This immunity from taxation which Alberta has been able to offer to the intending settler has been a most magnetic advertisement for this province."

The Toronto Star claims that a large majority of the students at Toronto University are Liberal, which leads one to believe that Ontario has prospects of good times ahead.

A New York agitator wants the coinage of a two-and-a-half cent piece in order to reduce the high cost of eating in a town where you cannot buy a pleasant look from a waiter for less than a dollar.

**WESTERN WHEAT WILL NOT GO THROUGH THE PANAMA CANAL**

**STATEMENT OF SIR WILLIAM VAN HORNE THAT IT MAY BE GOOD FOR THE BRITISH COLUMBIA LUMBER TRADE.**

Montreal, Nov. 25.—In an interview regarding the possibilities of the Hudson Bay route, and also regarding the Panama Canal, Sir William Van Horne expressed the opinion that while the Panama Canal ought to be good for the British Columbia lumber trade he did not think that Canadian wheat would be sent by the canal route. "It would be impossible," he declared.

Moreover, Sir William stated his belief that not more than 20 cargoes of Canadian grain would be carried out by the Hudson Bay route in 20 years. Sir William, however, declared that he was in

favor of the building of the Hudson Bay railway.

"I am, and always have been, heartily in favor of the construction of this railway," he said. "Chiefly because it will not cost much, and will settle in the public mind the question of transportation in that direction. While I do not believe that 20 cargoes of Canadian grain will be transported by that route in 20 years, it is just as well to know positively what the possibilities are in that direction. If the route is ultimately found to be impracticable due attention may be given to more effective means of transportation."

**GENERAL NEWS NOTES**

The name given by the Canadian Pacific Railway to the new town south of Medicine Hat, Alta., where the Canada Cement Company is building its plant, is Dauntless. It was formerly called Delane.

Disclosures of the British Columbia Fisheries Company's finances are characterized by the Financial Times as one of the most amazing confessions of mismanagement and reckless expenditure ever heard of. Some shareholders demand compulsory liquidation and a thorough investigation of the whole history of the concern and the exact present value of the properties.

The famous violinist, Professor Petschnikoff, while playing at Casset, dropped his violin, worth \$10,000, and smashed it beyond repair.

The Labor Council of Prince Albert, Saskatchewan, has endorsed a movement to petition the provincial legislature favoring "taxation of the increased values of real estate."

A despatch to the London Daily Telegraph from Shanghai says the foreign officers have discovered documents revealing a plot of wide ramifications to overthrow the Peking government.

Sir Lomer Gouin, premier of Quebec, was invested with the order of K. C. M. G. by the Duke of Connaught at Rideau Hall.

Numerous requests for a piece of Jessie Wilson's wedding cake caused to be issued at the White House an official statement describing the size of the cake as too small to gratify the desires of the public.

Efforts to secure a retrial of Herman Clarke and Frank Davis, who are now awaiting a death sentence for the murder of Policeman Archibald, are being taken by Elmer Jones and R. L. Maitland, counsel for the defence. The contention is that they should have had separate trials.

An order in council has been passed amending the British Columbia fishing regulations as follows: No one shall fish for, catch or kill any abalone that shall measure less than three and a half inches across the shortest diameter of the shell. The order in council of March 18, 1913, is amended so as to provide that no one shall fish for, catch or kill steelhead salmon in the waters of Vancouver Island from March 26 to November 30, in each year, both days inclusive.

THE ILL-FATED STEAMER WEXFORD THAT SANK WITH ALL ON BOARD

One of the thrilling tragedies of the Great Lakes storms, which threw the whole town of Collingwood, Ontario, into deepest gloom. Captain Bruce Cameron, the master of the vessel, came of a long line of lakefaring men of a Collingwood family, and most of his crew of twenty belonged to that port. Funeral services were held in all the churches and subscriptions started for the families of the lost sailors.

## THE OTHER SIDE OF MEXICO'S CASE STATED BY LANE WILSON

CONTENDS THAT TROUBLES WOULD HAVE ENDED HAD NOT UNITED STATES REFUSED TO RECOGNIZE HUERTA, WHO WAS LEGALLY ELECTED.

Washington, Nov. 25.—Before an audience which filled the Belasco Theatre tonight, Henry Lane Wilson, former ambassador to Mexico, compared the diplomacy of the administration to "a Mother Hubbard which covers everything and touches nothing." "We are now committed to a policy in the Mexican situation which will lead to humiliation or require us to play schoolmaster to every unruly republic between the Rio Grande and Cape Horn," said Mr. Wilson.

Since the announcement that the former ambassador planned a series of lectures on the Mexican situation there has been an unusual official interest displayed.

In the audience tonight, which frequently applauded, were diplomatic representatives of every Latin-American government. Mr. Wilson's version of the events which led up to the establishment of the Huerta government and his statement that peace would have been restored had the United States recognized the provisional government three months ago were received with applause. "The government of Huerta," he said, "was as legally established as the government of Theodore Roosevelt after the assassination of McKinley. Every step taken was in accordance with the constitutional provisions of that unhappy country."

### WORK ON BIG WINGDAM

With a crew of twenty men and three teams, Foreman Dan McPhee is hard at work on the 1,000 foot wingdam about a mile above the big bridge crossing the Bear river. The harnessing of the scores of glacial streams within his district is by no means the least of the many problems facing Road Superintendent C. J. Gillingham, and Bear river especially, swollen as it has been by the exceptionally heavy rainfall during the past season, has wrought havoc not only with the main bridge, portions of which it has washed out on two separate occasions, but acres of good land have been inundated. But for the present timely intervention of the Provincial government the main artery of this watershed threatened to change its entire course, and it is hard to estimate the amount of damage had it been allowed to do so.

The purpose of the new wingdam is to force the river back into its original channel and to check the inroads it has made this summer. It will also protect the graveyard from submersion. The work, which of necessity must be performed when the water is at its lowest, will be rushed with the view of having it finished before the heavy snowfall renders work practically impossible.—Portland Canal Miner.

### Latest of the Zeppelins.

## PORTLAND CANAL MINING

L. L. & H.—Rumor says that a deal is pending whereby the owners, J. Lydden, J. Lade and J. Hartley, may dispose of this valuable property at a good round figure. The L. L. & H. group is situated on Bitter Creek, about eight miles from the confluence of that creek with Bear River. The London Venture Company through the medium of a Mr. Hoffman endeavored to secure this property in the fall of 1910, since which time two tunnels have been driven and the vein crosscut in both cases. The ore carries good values in both gold and silver and the consensus of the opinion of those who know is that as soon as the right people get hold of the property it will quickly be added to the list of shippers.

Red Reef.—Work on this property has been suspended for the season and the owner, H. E. Newton, and his foreman, T. Prisk, left for Victoria on the last boat. Considerable work has been accomplished this year, including the extension of the main tunnel to the 300 foot mark and then a 40 foot drift to the south, in addition to considerable surface work. About six feet of copper ore was crosscut in the main tunnel and it is the intention of

the owner to drift on this as soon as possible in the spring. Mr. Newton will also in all probability install a diamond drill with a view to determining the extent of values of the ore bodies at a greater depth.

Swamp Point.—A force of 35 men is now engaged on the Grandby Company's property at Swamp Point. These claims were purchased by the company last summer from Hartley & Moulton and the lime therefrom is to serve as a flux for the Hidden Creek ore. The rock is to be extracted by the glory hole process and it is estimated that it can be placed in the bunkers at the smelters at a cost of 50 cents per ton. Two tunnels have already been driven, from which raises will be put up to the surface. A first class wharf has been constructed and everything should be in shape to ship in the immediate future.—Portland Canal Miner.

That lightning flashes appear to zigzag is an optical illusion, according to a German scientist, who says the effect is produced by the eyes twitching when flashes occur.
