MEXICAN REBELS SCORE ANOTHER VICTORY--PARLIAMENT TO MEET ON JANUARY FIFTEENTH

HOW THE TANGO CRAZE IS NOW AFFECTING ENGLISH SOCIETY

INTRODUCTION OF ARGENTINE DANCE RESPONSIBLE FOR REMARKABLE FURORE, EXCITING BOTH LONDON AND LEADING CITIES IN PROVINCE.

London, Dec. 2.—Tango is good Latin for "I touch." It is no exaggeration to say that English society is exhibiting a touching enthusiasm for this Argentine dance, which has already surpassed any previous craze, like ping-pong, roller skating, jigsaw puzzles, limericks and costume balls.

Court exhibition, is forming a West End tango club, where those who have danced all day may dance all night.

Professors of old fashioned dances like the bunny hug and the turkey trot have caught the spirit of the times, and are now exponents of the tango.

So the provinces are in a fever of excitement. Manchester declines to be out of the running. Birmingham is advertising non-stop runs for tango tea parties. Liverpool is offering any price for tango professors. Expert dancers in London are already beginning to pay flying visits to these distant towns, which would lose all their prestige in the world of fashion if they did not tango with the times.

Even the churches have not neglected the obvious duty of Christianizing this pagan dance. It is expected that rural deans and vicars will abandon the bazaar as an old fashioned institution and invite their parishioners to tango on behalf of the church building fund or a new organ loft.

Skating rinks are hastily being converted into tango saloons. Great restaurants like Prince's, the Hotel Cecil, the Savoy and the Trocadero, have turned out some of their tables to make way for the tango dancers. Mr. F. H. Payne, chairman of the Earl's

TRAIN STALLED BY SLIDES

Dug Its Way Through Mud All Night—Dining Car Ran Short

Nearly 20 hours late the G.T.P. train pulled into the yards at one o'clock today. It was due last evening but was stalled by mud slides along the road between Tye and Woodcock Prairie. The train men were digging through them all night.

The first slide was encountered just east of Woodcock, and then more and more of them all the way down. None of them were serious and the only inconvenience the passengers suffered was sleeping in the seats and going without supper and breakfast. The cafe car ran short of provisions but everybody got a little.

There were about 35 passengers aboard.

German Visitors Leave

Herman Neimphius, and H. Stromeyer, two German visitors who have been spending a couple of weeks in Prince Rupert left on the George today for Victoria. They have been very much interested in the development of the new city and sized it up as a place for investment. Mr. Neimphius is an architect of wide reputation and hopes to some day erect big buildings in this city.

EARLY MORNING WEDDING

Anna McLeod and Bernard MacDonald Married This Morning

A very pretty little wedding was solemnized this morning, when Miss Anna Christene, eldest daughter of Mr. and Mrs. N. J. McLeod, of this city, was married to Mr. Bernard MacDonald. The event took place at 7.30 a.m. and the ceremony was performed by the Rev. F. W. Kerr, assisted by Rev. W. W. Wright. The bride looked handsome in a travelling suit of brown and was attended by her sister, Miss Lillian McLeod, of the hospital staff. Mr. Victor Tompkins was best man.

After the wedding breakfast was served, motors were in attendance and all the guests were conveyed to the boat, where a royal send-off was given to the happy couple as they departed for the south on their honeymoon.

Only the immediate friends of the contracting parties were present. These included Mr. and Mrs. Arenie McDougall, Mr. and Mrs. Geo. Wilson, Mr. and Mrs. H. F. McRae, Misses Carlston, Hicks, McNair and Mr. R. O. Boulton.

After a ten days sojourn in the south Mr. and Mrs. MacDonald will make their home in Prince Rupert.

BELLA COOLA RAILWAY AGAIN LOOMS LARGE ON THE HORIZON

ALL RED LINE WILL BE SECOND SET OF CAPITALISTS DESIROUS OF TAPPING RICH VALLEYS HEADING IN DEAN CHANNEL

(Special to The Daily News.) Montreal, Dec. 5.—The All Red Line Railway Company has entered an application with the government for permission to build its transcontinental line from Cape St. Charles, on the Atlantic Coast, to the head of Dean Channel, on the Pacific. The announcement of the intention to build this railway has been kept very quiet by the British capitalists who are backing the scheme in order that there might be no trouble in securing rights of way and necessary lands before the prices become inflated.

Mr. Jacobsen of Bella Coola is known in that community and all along this northern coast as a far seeing man, and he can possibly see farther into these railway schemes than the next man. This is a trite conclusion drawn from the fact that he has recently invested several hundred thousand dollars in properties along the Bella Coola Valley, and in many instances cash payments have been made. This would seem to indicate that Bella Coola is to get a railway in the very near future.

ISLAND CLUB DANCE

BIG CHRISTMAS MAIL

Postmaster McIntosh Says It is Evidence of Prosperous Times Here

"The bulk of the English Christmas mail left this morning," remarked Postmaster McIntosh to the Daily News. It was not large in bulk but there was a great deal of registered matter involving considerable work. There will be a little lull in the Christmas mail for a week and then the big eastern outgoing and incoming traffic will start.

Already a few parcels are coming and going and on the whole indicates that compared with other years Prince Rupert post office will have the biggest month's business in its history. Certainly the registered mail does not indicate hard times.

Chappelle Party Were Hunting and Waiting for Good Weather

"We had \$70 worth of grub aboard," said J. W. Chappelle, when asked about his trip to Prescott Island. "We were hunting and as the weather was bad we did not come back. Our friends were over anxious about us."

Mr. Chappelle, Mr. Fellowfield and Jim Burrows, left here nearly three weeks ago for Prescott Island and their friends, believing they had only a few days' grub aboard, thought them lost and sent out a government boat to look for them.

Mr. Chappelle was at the Anglican church bazaar last evening and was a lion of the occasion.

Anglican Sale of Goods Popular Affair—Many Pretty and Dainty Articles Offered

Five hundred dollars were the receipts of the Anglican sale held in the Knights of Pythias hall yesterday afternoon and evening. The array of home products, fancy work, flowers and candies arranged as they were by artistic hands in many booths tempted the public to spend their money.

The sales ladies, too, were clever in finding purchasers. During the afternoon Mrs. Anderson furnished piano music. In the evening there was a programme of music. Mr. Allen, a pianist, performed very cleverly, in spite of an injured finger. Others who contributed were Mrs. Hemmell, Miss Brand, Mr. Mel-liar, Mr. Cummings, Mr. Chalmers and Mr. Chappelle.

The ladies in charge of the various booths were:

Fancy Articles—Mrs. Hart, Mrs. Ford, Mrs. Shockley, Mrs. Hom-er. Children's Stall—Miss Enoch, and little fairies. Arts and Crafts—Mrs. Hemmell, Miss Du Vernet. Candy—Miss Martin, Miss Kathleen Pillsbury.

MAIL ORDER DEPARTMENT.

The mail order department has come to stay. It is one of the products of the industrial revolution.

It does not necessarily follow, however, that the big department store tends to lower the cost of living.

Looking at the question from a local point of view it certainly seems to be a very short sighted policy to send huge sums of money to the lower centres that ought to be expended at home.

On the other hand we are told that in some cases the prices charged are exorbitant; that two or three hundred per cent. excess is often added to

many articles and that under such conditions to buy is simply to submit to a hold up.

Whatever amount of truth there is in this it is difficult to say. One thing, however, is true that whether or no this has been true in the past there is little chance for it to be repeated in the future.

The Toronto Globe seems to have private information to the effect that the redistribution bill at Ottawa is to be made a political football.

Without the possibility of an election for several years ahead there is always a danger that all public works will be held in abeyance to that event.

MEXICAN REBELS ARE PLANNING TO MARCH DIRECT ON CAPITAL

WITH JUAREZ IN THEIR POSSESSION AND CHIHUAHUA EVACUATED BY THE FEDERALS GENERAL CARRANZA SEEMS ASSURED OF SUCCESS.

Juarez, Mex., Dec. 2.—Northern Mexico, embracing the states of Sonora, Chihuahua, Coahuila, Nuevo Leon and Tamaulipas, and including the territory from the border to a line 500 miles southward, will be wholly under the authority of the rebel forces within two weeks.

This is the rebel plan of campaign, General Francisco Villa, the rebel leader, asserted today. This campaign, Villa said, contemplated not only the capture of Chihuahua City, which has since been evacuated by the rebels, but also the spreading of the rebel and constitutionalist authority farther south, in which Villa is to be joined by General Carranza, the head of the revolutionary movement.

So far as the north is concerned, Villa said, the campaign is between 14,500 federal troops, mostly in garrisons, and 20,300 rebels or constitutionalists, in garrisons or roaming the country.

The approximate strength of the opposing forces in the north, as gathered from official sources by Villa and made known by him today is:

At Guaymas, Sonora, 3,000 federal troops, commanded by Pedro Ojeda. At Chihuahua City, 5,000 federals, commanded by Mercado. At Saltillo and Monclova, 3,000 federals. At Monterrey, Nuevo Leon, 2,000 federals. Scattered, 1,500 federals.

Opposing to the federals and their positions are: In Sonora, about 5,000 rebels, under command of General Carranza, head of the constitutionalists. At Juarez and en route to Chihuahua City, 5,800 rebels, commanded by Villa. South of Chihuahua City, 1,500 rebels, commanded by General Chao. Scattered, 8,000 rebels.

"We will move right on to Mexico City," said Villa. "That is our destination. Our forces are working together. The troops now in Sonora will move southward, attacking Guaymas on the way. Those in the east now centred around Victoria will move southwest, while I will go right down through the heart of the country. On the way I shall stop at Chihuahua, where I will be in command. Then I will join the eastern and western wings of our army at Guadalajara. Combined we will march to Mexico City."

GENERAL NEWS NOTES

Princess Patricia is one of the Canadian Royal Academy exhibitors this year, as she was on previous occasions. One of her three paintings in this year's exhibition is "Morning at Lake Louise." One sympathetic and enlightened critic says of the Princess: "It is wonderful how well she paints considering her opportunities."

A half million dollars is the minimum salary demanded by the Prince of Wied as King of Albania. The Prince has already accepted the throne, and the Austrian and Italian cabinets are inducing the other powers to accept him.

During the past summer the telephone company in Temple, Texas, placed a transmitter in the bandstand at the city park, and so arranged that its subscribers might listen to the evening concerts given there by calling central and getting telephone connection.

We are told Americans have \$600,000,000 invested in Canada. Britishers have \$2,000,000,000. Is it not about time for Canadians to do a little more of their own financing? Has thrift become a lost virtue among us?

The largest electrical hatching plant in the world is owned by Frott Bros., Plymouth, England. They have 94 incubators, each of

about 500-egg capacity, and the average output is about 8,000 chicks a week.

Seventy-five percent of the passengers on the liner Tunisian which left Liverpool for Canada recently, were women, with their babies, on their way to join their husbands, and young women coming out to be married.

Novel means of raising funds for a church institute have been adopted at Carshalton, Surrey. The committee purchased 40,000 lead pencils and offered them for sale at 2 cents each, the profit to go to the institute fund. Up to the present they have disposed of 37,000.

During last year the tramways of Great Britain carried over 3,127,000,000 passengers, or about seventy times the estimated population of the country. There were 2,642 miles of route open. The total number of cars in use was 12,944, of which 12,435 were electric.

MONROE DOCTRINE LIABLE TO BE SWAMPED IN FLOOD OF OIL

RUSH OF EUROPEAN NATIONS AFTER CONCESSIONS FROM THE CENTRAL AND SOUTH AMERICAN GOVERNMENTS LIKELY TO EMBARRASS WASHINGTON.

Washington, Dec. 1.—That relations between European nations and the United States may soon come to a strain over oil concessions in Mexico, Colombia, Venezuela and Ecuador is the opinion of officials here who are versed in international affairs.

President Wilson's statement of policy against granting concessions in the Central and South American republics is looked upon as certain to eventually be the source of controversy between this country and Europe.

Great Britain, it is pointed out, is now reaching out for oil lands in the new world, being in need

of oil for naval purposes. From this condition is drawn the necessary conclusion that it will only be a question of time until France and Germany will be moving in some direction with the same end in view.

With the three dominant nations of Europe fretting over the Monroe Doctrine and with the South American republics more or less hostile toward it, it is predicted that American diplomacy will before long be taxed to its greatest capacity to preserve this doctrine and at the same time maintain the present amiable relations with foreign countries.

NO LONGER DREAMERS

Stewart People are From Missouri on Railway Rumors

The flutter of excitement in the camp caused by the lower coast papers announcing that the Canadian North Eastern Railway was to continue construction in the spring has more or less subsided and in a Toronto financial journal absolutely denied. We are no longer framers of dreams, but have at last come to earth; in other words, we come from Missouri. This is not to say that our faith has in any way weakened, or our enthusiasm abated, but we found it was not business to lay our plans dependent entirely on the C. N. E. R.—rather have we found it policy to develop our own resources and endeavor to show a balance on the right side of the cash book. So when the boom comes—as we know it eventually will—then shall we be able to place the shekels in our jeans and call it overs. What we are endeavoring to say is this: That for the last three years we have been kept in a state of chronic chaos by reports similar to the one recently current. Prospectors who owned property from which it was possible to mine high grade ore and ship it at a profit would not be bothered to do so because he blissfully imagined that the capitalist would follow in the wake of the railroad and he would be able to sell out at a good figure. Again the poor, deluded individual who owned lots would not deign to work for a few dollars a day when some speculator was going to pay him thousands in the near future. The camp is now down to a solid business basis and making a living independent of Sir Donald or any other man. We venture to say that if some real estate man comes along next spring when one of our respected citizens is planting his spuds and tells him he may as well cease because a skyscraper will be built on his patch before the crop is dug, we don't think the latter will chuck his spade. He will keep going, happy in the knowledge that if his informant is correct he is a winner anyhow, and if not—well—he will at least have potatoes for the following winter.—Portland Canal Miner.

ADMIRALTY LORDS WENT OUT ON STRIKE

Grievance Was Result of Winston Churchill Interfering in a Personal Matter.

London, Dec. 2.—An astonishing story of a strike among the lords of the admiralty is told in this week's Truth. It seems that Winston Churchill, the first lord, brought the strike upon himself by personally interfering in a personal grievance on the part of the junior officers.

The incident having been reported to Whitehall through the usual official channels, the sea lords respectfully remonstrated with their chief and then, the remonstrance not being favorably received, resigned in a body.

Apparently this had the desired effect, for the affair has evidently blown over.

EDITORIAL ON THEFT

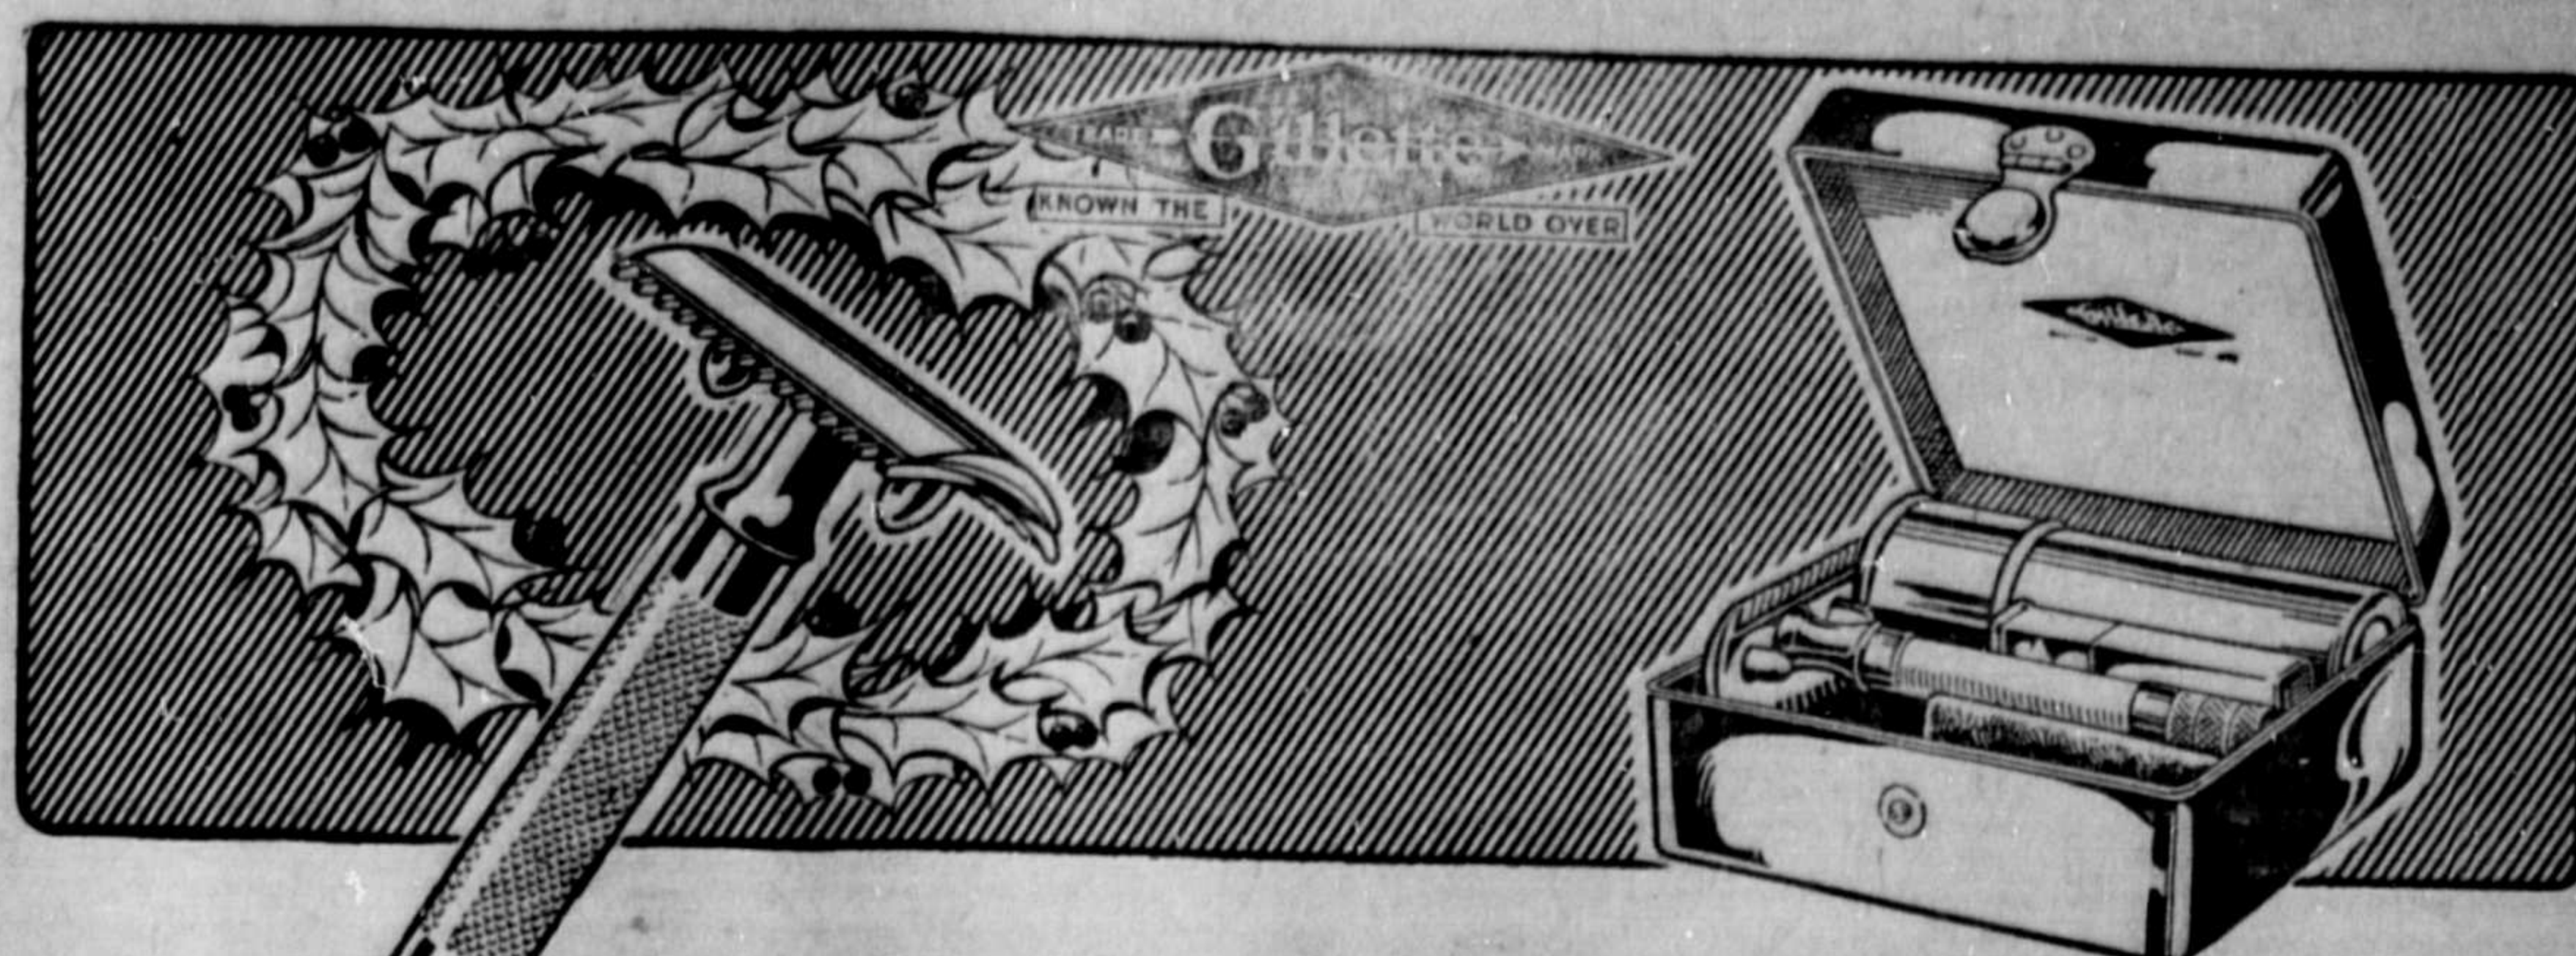

How Portland Canal Miner Regards Benson Conviction

Hope was entertained that with the arrest and conviction of Frederick Benson, the Indian sent to New Westminster for the theft of goods from W. B. George's cabin on Bear River, that the depredations by the Naas Indians would cease, but word comes in that a large quantity of food supplies cached by the government in the cabin at the head of Meziadin Lake have already been stolen. It was about time these cache robbers and petty larceny thieves were taught a lesson they will remember. For the last three years they have looted every cache they chanced upon, but this last outrage seems to be the height of insolence. When the work on the Groundhog trail was closed down, the supplies on hand at the commissariat depot at the head of the lake were cached in the government cabin for use when work opened in the spring, and it is now learned that everything has been stolen. This coming on the top of the burning of Pinkerton's cabin almost amounts to open defiance.

GROUNDHOG COAL FIELDS ARE BOUND TO RECEIVE ATTENTION

SYNDICATES HOLDING CLAIMS THERE CERTAIN TO DO LARGE AMOUNT OF DEVELOPMENT WORK DURING THE NEXT SEASON

According to W. C. Macdonald, a well known prospector of Prince Rupert, next season will see a considerable amount of development carried on by several large syndicates holding claims in the Groundhog coal basin. Now that an easier means of access is obtainable to the district, via the Stewart-Groundhog pack trail, he feels certain that owners will be prepared to carry out more extensive programmes of development.

In conversation with a representative of The Miner he said that it was principally due to lack of adequate transportation and the excessive cost of taking

supplies via the Hazelton route that made the question of any development on a large scale prohibitive. With the completion of the Stewart route he expects to see a considerable influx of miners in the spring and from that time on Stewart will be the outfitting point for the Groundhog and much of the northern interior.

"As soon as I receive instructions from my eastern associates I expect to go to the Groundhog when the snow is in a condition to take dog teams in, and I shall certainly make the trip by way of Stewart," he said.—Portland Canal Miner.

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have: Sincerity -- Enthusiasm -- Advertising: Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 301, Lumsden Building, Toronto.

GRANBY BAY NEWS

Construction Work Now All Under Cover—Shipping News—Foreman Hurt—Lots of Snow.

(Special Correspondence)

Granby Bay, Dec. 2.—The steamship Vado came in Monday morning from Prince Rupert with a cargo of steel rails for this point. Captain Richardson reports having experienced very bad weather on this trip. The Vado took 600 tons of coal at Union Bay, broke her crank shaft when a little way out and had to put back to Vancouver for repairs. This caused her a delay of about three days. She left here for Prince Rupert again Monday evening.

Rev. W. F. Rushbrook preached Sunday evening in the recreation hall before a moderately large congregation. He announced that the bishop of the diocese would be here, all being well, on the last Sunday in December. Mr. Rushbrook leaves for Prince Rupert on the steamship Venture today. Weather conditions have not improved here so far this week, copious rains having fallen during the last few days on the deep snow already on the ground. But all of the buildings are now under cover, permitting uninterrupted continuance of the work regardless of weather conditions, and the most of the mechanical equipment has been delivered.

The steamship Amur (Jas. Griffiths & Sons, Seattle) arrived Sunday night from Seattle with a barge in tow loaded with lumber and machinery. Captain Nelson reports running into heavy snow storms while coming up the coast. The Amur leaves for Swamp Point tomorrow, towing an empty barge for the Granby Company, which she will leave there. Thence she will proceed to Prince Rupert to discharge coal and go on to Seattle.

A. C. Flanders, one of the company's foremen here, met with a bad accident Sunday, a heavy timber falling on and breaking his leg. He has been removed to the hospital, where it is feared that the limb will have to be amputated.

His Views

"They say that women have no sense of humor."
 "Well, it's a good thing."
 "How so?"
 "If a woman laughed heartily it would endanger every button on these tight gowns."

GUESS WHO THIS IS.

There was a man
 Of history sad
 Whose every plan
 Went to the bad.
 He did not drink,
 He did not swear,
 Nor slyly wink
 At sirens fair.
 Ideals high
 He would reveal.
 He could not lie,
 He did not steal.
 His worth, you'd vow,
 Was something strong.
 And yet, somehow,
 His luck went wrong.
 The hoped-for bliss
 He'd never clutch.
 His fault was this:
 He talked too much.
