MEXICAN REBELS NOW ATTACKING TAMPICO---BRITAIN SENDS TWO MORE SHIPS TO MEXICO

HUERTA'S ARMY IS DWINDLING AWAY AND AIDING THE REBELS

Dictator Officially Recognized as Provisional President — Overwhelming Rebel Force Threatens Tampico Any Moment

Vera Cruz, Dec. 11.—The attack on Tampico by the rebels began this morning, the rebels advancing on the city from various points in great force. The United States battleship Louisiana received orders to proceed to the besieged town and left here during the night.

Washington, Dec. 11.—Reports received here from Mexico City indicate that efforts are being made to induce Huerta to negotiate an armistice with General Carranza, the Constitutional leader, pending the time of the election next July.

Kingston, Jamaica, Dec. 11.—Great Britain has despatched four warships to Mexico and two additional cruisers were yesterday ordered to steam there at full speed. The cruisers were summoned by Admiral Craddock, who is now at Vera Cruz.

[Special by Dominion Wireless.]
Washington, Dec. 10.—The end of Huerta regime in Mexico seems to be fast approaching according to the advice that are being received here from reliable sources. The most trusted officers of the Huerta army

are deserting daily. They are going over to the ranks of the rebels in constantly increasing numbers. This action on the part of the army is such that it is confidently predicted that the day is close at hand when the avalanche will be on the Huerta government. It is felt that the government here has but to wait and let the work be done in Mexico itself.

Tampico Danger.
Vera Cruz, Mexico, Dec. 10.—An overwhelming force of rebels are threatening to attack Tampico. At any moment according to the dispatches received here by wireless by Clement A. Miller, the American consul, the attack upon the place may commence.

Ratify Election.
Washington, Dec. 10.—The word has been received here that the Mexican congress has officially recognized Huerta's election. This has caused no surprise among the officials here in view of the fact that the congress is so under the dictation of the provisional president. The official notification of the recent election and the ratification of Huerta as the provisional president to continue in power until another election can be held, probably in next July, was received here today.

"FROM THE MANGER TO THE CROSS"

Story of the Saviour Told in Motion Pictures

The Westholme theatre was crowded to the doors last night when the film "From Manger to the Cross" was produced, and today the wonder of it all is in everyone's mouth. For a few hours at least, the Christ of Galilee became a living, moving man among men. There he was, the Man of Ages, walking on the hills leaning against the mast, smiling into the faces of the children, or in a fine fury driving the temple traffickers out of the holy place. No longer was he an abstraction, but a man of flesh and blood, whose hands Mary clasped in love, and whose shoulders were rudely clutched by the Roman soldier. If Jesus of Nazareth had been mingling with the crowds on the streets of our city, He would not have been much more real than He seemed through the scenes of last night's pictures.

At first he is a happy curly headed boy with great wistful eyes at the knee of the Holy Mother. Then one of the finest scenes is that of the mother (the woman with a holy secret) fast asleep before the Sphinx with its inscrutable secret. As the scenes climbed up to the crowning tragedy of his life, something like a stifled sob seemed to shake the whole audience, and more than ever before one realized the pathos of this young man's death. To the ordinary theatre-goer much of the details may have seemed gruesome; yet they could not be more tragic or diabolical than the historical facts they seek to portray.

There is no doubt that much of the impressiveness of the scenes was due to the wonderful rendering by the Westholme orchestra of the choicest sacred music from all sources to accompany it. The bright Christmas carols were appreciated just as much as the solemn dead march, or the stately 'Holy City,' or Handel's 'Largo.'

TAYLOR FOUND GUILTY

Two Theft Cases Disposed of by the Assize Court—Benson Case this Afternoon

The Assize Court which was convened yesterday morning continued again in the afternoon.

Rex vs. Taylor

The first case called was that of the King vs. Taylor. W. E. Fisher was crown prosecutor, and A. M. Manson appeared for the defence. The prisoner was charged with having stolen \$15 from a pocket book lying on a counter in a Hazelton drug store. This occurred about six months ago and the prisoner having elected a jury trial, has since been detained in jail at New Westminster. The evidence appeared to bring out that the proprietor was in the store during the whole time that the money was lying on the counter with the exception of about a minute and a half, and that the accused was the only person in the store at the time. Another point was brought out is the fact that one of the bills stolen was of a rather unusual character and that the accused had shortly after the theft handed over such a bill to one of the local storekeepers. The jury brought in a verdict of guilty.

Rex vs. Washington

The next case was the King vs. Leon Washington, charged with entering the store of Henry Letourneau, on Sixth Avenue, with intent to steal. The following jury were selected: D. H. Morrison, foreman, J. S. Gray, H. C. Black, V. A. Cole, C. A. Haward, F. R. C. Brown, Geo. Levick, H. O. Crew, J. W. Potter, A. R. Phillips, H. B. Rochester and Lee L. Baker.

The chief witness was Miss Letourneau, who lived with her brother in the store building. She was awakened during the night by noises and rising to discover the cause found a man whom she believed to be the accused. The case was unfinished at 6 o'clock when the court adjourned.

During the afternoon the grand jury brought in true bills in the cases of Rex vs. Wilson and Rex vs. Benson, and these cases will be tried at the present sittings.

Today's Court Sitting

The assize court resumed this morning at 10.30 with the continuation of the case Rex vs. Washington. The evidence for the defence was that he had been on familiar terms with the lady who lived in the house, and on the occasion on which he was arrested he had been under the influence of liquor, and had no recollection of entering the building. He had no criminal intent in his mind in any case and there was nothing in the tinshop that he would desire. The lady in question denied all his statements with regard to her.

The judge in his charge showed that the crown must show that the accused entered the building to steal as this was the only point charged. He also reminded them that British law knew no race or color, and asked them to be unbiased in this case where the accused was colored. At going to press there was no verdict.

The next case was that of Rex vs. Benson, who was charged with stealing lumber and other building material from the Westholme Lumber Company. The case is still unfinished.

ROBBER WHO KILLED THE BANK MANAGER CAUGHT IN WINNIPEG

HAD BEEN KNOWN AS A STUDENT NAMED ANDREWS — 20 POLICE SURROUNDED THE HOUSE—HE TOOK HIS ARREST VERY COOLLY

Winnipeg, Dec. 11.—John Krafcenke, the notorious criminal who is charged with robbing the Bank of Montreal at Plum Coulee and murdering Manager Arnold, was captured yesterday in a house on College Avenue, St. Johns, where he was known as a student by the name of Andrews. Strong suspicion being pointed in his direction the house was surrounded by a squad of twenty police. Half a dozen of them burst into the room where the alleged student was writing. As soon as he saw them he exclaimed, "It's all up; I'll come quietly. I never did intend to shoot anybody anyway."

Two loaded revolvers were found in his room, one under the mattress. Fifteen hundred dollars of the stolen money has also been discovered. This was found in packages that were hidden in the ground in different parts of the city.

It appears that soon after the hunt for him started he assumed the name of Dr. Fairchild, and that under this assumed name and profession he treated two patients.

From the clothing found in his room it is inferred that he was about ready to escape in the garb of a woman.

Holds it Would be a Good Thing if Cheap Labor was Prohibited for Years

(Special to The Daily News.)
Victoria, Dec. 11.—"The new immigration rule will assist the labor market," declared Premier McBride yesterday. He said it would restrain the Hindus from flocking to the province, and it would be a good thing if the influx of cheap labor could be prohibited for several years to come. The B.C. Government concurred with the Dominion government because the slackness of railway work in the United States this winter would have caused a tremendous influx of labor to this province.

WASTING ROAD MONEY ON THE ISLANDS

There is an agitation now on Graham Island to form in municipalities in order to get control of the government appropriations for roads. The settlers think they can make a better job of it than the government. The Queen Charlotte Islander says:

"It is very well known that Messrs. Leary and Walsh are disgusted at the manner in which the appropriations are spent on the roads on the East coast. Not only there, but all over the island, where roads are being built, the same dissatisfaction is heard from the settlers. Thousands of dollars are being spent each year and still the same old cry goes forth that the money has been practically wasted. Everyone knows quite well that it is a hard proposition to build roads on this island, but there is no reason why the money should not be spent to the best of ability. Digging out stumps and filling the holes up with rotten wood is not road-building. That wouldn't pass inspection in any municipality and why it does here we are at a loss to know. Take for instance the Mayer Lake road, on which we understand nearly \$12,000 has been spent, a more rotten piece of work has never been seen. Unless proper road-building machinery is installed we never will have good roads, and if it is impossible to provide the machinery, why not introduce a system of plank roads, which we are certain would be much cheaper and at the same time give better satisfaction all round.

WILL KEEP OUT IMMIGRANTS

The order-in-council issued by the Dominion cabinet prohibiting the entry into British Columbia of all artisans and

laborers is a drastic measure which will probably have an unlooked-for effect. No citizen or laborer can come into this province before the first of next April. As British Columbia is over supplied with labor just now she will not feel any immediate effect. But what of the future? Rival immigration agents in the Old World will seize upon this government order and advertise it broadcast. British Columbia will be pronounced by these agents as a place impossible to get into. Though the embargo may be lifted next April it is certain that the immigrant agents of other provinces and states will not forget to play it up for months and years to come.

This order-in-council seems to be a hasty decision made to please some coast politicians who are making a play for the labor vote.

Today the editor "killed" two communications on municipal affairs because personal abuse was sandwiched in with the argument. The fact that the writer may be in sympathy with the News' point of view does not insure the publication of his communication. The letter must be free from personalities. No one person has a monopoly of seeing the mental defects and dishonest motives in their opponents. These deficiencies if they exist usually advertise themselves so that the average man can see them. The News is satisfied to let the public do their own detective work in cases of personal character.

One would think from the way the McBride organ rushes to the defence of the Bella Coola road expenditure with its ready explanations that the work there is under the control of the Tory executive in Prince Rupert, instead of the Public Works Department at Victoria.

JOE MARTIN'S CONCLUSIONS ON A PARLIAMENT OF THE EMPIRE

BELIEVES ANY ATTEMPT TO CREATE A PARLIAMENT WITH REPRESENTATIVES FROM ALL DOMINION WOULD CREATE HARMFUL DISCORD

Vancouver, Dec. 2.—Vigorous questions would not be settled from the Canadian standpoint, but from that of the majority in the parliament. That this would be pernicious and productive of real unrest, he said, was certain, citing the dissatisfaction in the Dominion at the time of the settlement of the boundary between Alaska and British Columbia. The commission was governed in its action not by the relations between Canada and the United States, as it should have been, but by matters at issue between Great Britain and the United States.

"Canada," he said, "is governed on a democratic principle. The people control the government. Why do we want to change it. I consider an Imperial parliament or council would be a most dangerous experiment. "Great Canadians come over to London, and make a lot of talk about 'Empire,'" he continued. "We generally find that they have two co-related objects in view. One is to express their loyalty to the Mother Country, and the second to induce wage-earners to part with their hard-earn-

ed cash to help in developing a province over the seas. Will anyone tell me how many of the companies floated by these great imperialists in the past ten years have paid a cent of dividends except out of capital?"

Montreal, Dec. 7.—After toying with Arthur Ellis, Freddie Welsh, lightweight champion, whipped one over in the eighth round that sent Ellis to the floor. Ellis took the count of eight and came back only to meet another right smash which disposed of him.

Freddie Welsh won the fight with Arthur Ellis in the eighth round.

THE ROAD TO THE RIGHT.

YOU'VE met at least one of those few good old souls, who are constantly getting the worst of it when shopping, who don't believe in advertising. A hundred disappointing and instructive experiences have failed to teach him their plain lesson. When he bought his first watch he was beguiled into buying one without a known name or a trustworthy guarantee. That watch—a poor timekeeper—cost him dearly by reason of missed appointments and missed trains, and for frequent repairs. Yet he paid the price of a good watch. It is the same story with regard to his underwear, his shoes, and his fountain pen. This good old soul's case is not unique. Many of us, if the truth be confessed, resemble him; we allow ourselves to be sold merchandise with an unknown brand or trade mark instead of buying merchandise which is well known to us through the medium of advertising. In slang language, we get "stung" pretty often. In most of these cases we have ourselves to blame, for "the road to the right" thing to buy has been made plain by advertising. There is no good reason for passing by the known thing, soundly guaranteed, to buy a dubious article, which, quality for quality, cannot be cheaper than the known, branded article.

"It is better to be sure than sorry."

INTEREST TAKEN IN THE NIGHT SCHOOLS

Mayor Pattullo Offers to Aid in Every Way Possible Up to New Municipal Year.

A meeting was held last evening in the City Hall, in connection with the proposed night school for the place. There was quite a fair attendance present, most of them being interested in the movement and ready to take part in the school as pupils as soon as it started. On motion O. H. Nelson, chairman of the school board, was elected to the chair.

He outlined at the start the position in which the school board placed itself. It had decided that next year it would initiate a night school system in the city providing for the instruction that is authorized by the department of education, being in line with the regular course of studies in the public schools. It was hoped that there would be a ready response on the part of those who would be benefitted by the course which would be absolutely free.

The department provided the books and in large measure provided the necessary funds for the paying of the teachers.

Mayor Pattullo, who was present, also expressed his sympathy with the movement. He said that if it were found that there was not quite the number attending as had been suggested to make it come under the class to be aided by the department at Victoria he would as mayor lend his endorsement to the voting of the necessary funds to carry it along until the end of the present municipal year provided the trustee board endorsed the proposition as a necessary one.

He explained that the city council had not found it possible to vote money to the technical school scheme proposed because the council would then be voting money to be spent by next year's council. The mayor promised further to take care of any expenses that were found necessary with this work.

Wm. Manson, M.P.P., believed the move a step in the right direction. He promised that anything he could do in the way of aiding it would be willingly done.

Mr. Shockley of the committee having the matter in hand explained to what extent the committee had gone. He felt that there would be a good-sized class in the preliminary branches such as the school board would provide for. The difficulty now with was the technical division.

W. Shaw, as another member of the committee, spoke on the subject. He thought it would be well to start up in the line of the preliminary subjects and then let the other follow.

W. Godson was satisfied that there would be a good attendance.

Harrison Rogers was favorable to making a complete canvas, but this was not deemed the wisest course.

It was decided to get out application forms and have a definite enrolment, the trustee board being asked to try to start the movement on or about January 5.

It was decided to go on with the technical end of the work also and this will be more thoroughly looked into by the committee.

STOCK COMPANY WILL BE HERE NEXT WEEK

Josephine Deffry Company Will Play Four Weeks' Engagement at Westholme

Starting next Wednesday night the Westholme theatre will house the Josephine Deffry Company for a season of four weeks, with a change of play three times a week. This company has been an organization under the present management for the past eleven years, and as it stands now every member has been associated together for over three years, which should assure the smoothest of performances and the best team work to be secured. The plays are all of the best of their different classes ranging from the strongest and best in the dramatic line through the comedy drama, comedy and melodramatic lines. Each play picked to suit the ability of the different members of the company presenting them.

The company comes direct from Seattle, after an eight months' tour of the larger cities of the Puget Sound country, which has followed extensive tours of the middle west and coast cities, as well as long stock engagements in every city of prominence west of the rocky mountains.

The members of the company have been secured for their ability in their different lines of work, and each and everyone have served their apprenticeship, and made names for themselves in various stock and touring attractions.

The play for the opening night will be "The Spoilers," the scenes of which are laid in Dawson and Nome.

The tug McCullough was able to pick up a boom of logs for Georgetown at Metlakatla today, after being storm bound for many days.
