INCREASING EXPORTS SHOW CANADA IS PROSPEROUS

Ottawa, Dec. 19.—Hon. J. D. Reid has just issued a statement of more than usual interest. It shows that the exports of Canada are rapidly increasing, while at the same time the imports continue to decrease. The month of November just past is the first time when such a condition existed. The total trade for the month was \$114,459,000 as compared with \$106,072,000 for November, 1912. Of this amount

\$61,257,000 was exports and \$50,202,000 imports.

DAUGHTERS OF EMPIRE RAISE \$100

Gave Several Popular Parties, the Final Being Held Last Evening

Every one of the many bridge players who attended the Daughters of the Empire bridge party at Mrs. J. C. McLennan's last evening thoroughly enjoyed the event. It was the last party of the series.

The funds of the society have been augmented by close on \$100 by a series of private bridge parties kindly given during the past three months by the following ladies: Mrs. A. E. Wright, Mrs. A. M. Manson, Mrs. H. F. McRae, Mrs. F. R. C. Brown, Mrs. J. C. McLennan.

A sixth party was arranged by Mrs. F. G. Dawson, but unfortunately had to be cancelled at the last minute as Mrs. Dawson was suddenly called away to her father, who is seriously ill.

A very acceptable prize of cut glass or silver was competed for at each party and won respectively by Mr. Percy Miller, Mr. Thos. McClymont, Mrs. G. R. Naden, Miss Beckwith and Mr. A. E. Wright.

The parties have all been thoroughly enjoyed and the guests turned their backs very regretfully on Emmerson Lodge and Mrs. McLennan, the regent of the order, realizing that the last party of the series had been given.

TIGERS WON CUP BASKETBALL LEAGUE

One More Game to Be Played—Will Not Change Result

The game played last evening between the Tigers and Brotherhood resulted in the former winning by a score of 22 to 8.

The line-up was as follows: Brotherhood—R. Blythe, R. Rogers, Daggett, Mobley and Garton.

Tigers—Ramsay, C. Blythe, Crane, Dell and Mann.

For the Tigers, C. Blythe played a splendid game. He was hurt on two or three occasions, but came back pluckily and played the best game of the evening. Crane at centre was all that could be desired, and for the Brotherhood Daggett and R. Blythe excelled.

By winning this game the Tigers head the league, and in consequence the handsome challenge cup presented by Mr. Luke Marren is their property until next season.

The last game of the league will be played on Monday evening between the Gallies and the Bankers, and as the winners of this game will finish in second place it should be an interesting one.

ROBBERS BROKE INTO CANNERY

Inverness General Store Entered and Small Amount of Goods Taken

On Tuesday night some one took out two panes of glass in the Inverness cannery store and entering helped himself to goods and a small amount of money.

The thief got a small cheque, some change and some letters from the till. In goods he took rubber boots, socks, underclothing and a lot of chewing gum. The latter is likely to lead to his capture.

Several letters in the postoffice were opened but apparently none taken.

The robbery was reported to Provincial Chief Owens and he started on the trail. It was discovered that the thief after leaving the store broke into the section shanty at Phalen and took out a handcar on which he came to Rupert. The car was abandoned at Fairview where it was found the next day. The thief took the city grade from Fairview into town.

An Indian is suspected and will probably be landed in the net.

LATER—An Indian suspect has been captured by the police.

STEAMER JEANIE WRECKED PILED ON CALVERT ISLAND

In a dense fog which hung over Queen Charlotte Sound, the steamer Jeanie with a barge in tow ran on a rock off Calvert Island.

The Jeanie is a Seattle freighter running north on Alaskan trade. She is known in this port, having made calls here.

She struck on the southeast corner of Calvert Island which is along the regular channel of the inside passage.

The government boat Esteven

of the marine department, which left Rupert southbound only a few days ago, was passing that point when she received a call from the boat in distress. She rescued all the crew and stood by for a time.

Word of the wreck came in here from the wireless station. The ship is supposed to have struck yesterday at noon. She is lying in an exposed position and leaking badly. A gale of moderate dimensions will break her up.

Mineral Collections

The publicity commissioner has added a new feature to the exhibition rooms of the Board of Trade, in the shape of several mineral show cases. One wall case was presented by the Stewart publicity department. It is the collection of Geo. Bruggy, which won the first prize for prospectors' collections at the first Rupert exhibition.

Other show cases contain samples from the Omîgeca district, Portland Canal district and Atlin district. A case has been reserved for the Hazelton exhibit, which is being collected by Mr. C. H. Sawie, the secretary of the New Hazelton Mine Owners' Association.

Heavy Christmas Mails

This year's Christmas mail in Prince Rupert is a heavy one, but fortunately it is spread over a longer period than in most cities. The heavy outgoing mail was yesterday, which was the last boat which would catch eastern offices by Christmas. The big incoming mails are now here. Last evening the Princess Beatrice brought 110 bags to Rupert and this morning the Prince Rupert brought in another 100. The local post office staff is now very busy, but so far have been able to cope with the rush without trouble.

INTERNATIONAL FISHERIES TREATY INOPERATIVE

Technicality as to Dates Destroy Usefulness of Agreement

(Special to The Daily News.)
 Ottawa, Dec. 20.—A simple technicality has rendered inoperative the International Fisheries Treaty between Canada and the United States and a new treaty will have to be arranged unless some way can be found to overcome the difficulty.

The trouble is simply a matter of dates. When the treaty was drawn up it was expected that it would be in force immediately. Dates were then fixed when certain clauses were to become operative and as these dates were to be in the year 1911 the bringing into force of the agreement at this late date seems to have insuperable obstacles.

DAILY EDITION  Saturday, Dec. 20, 1913

Reports from Victoria and Vancouver indicate that the southern cities are passing through a period of hard times. Civic employees are only working half time so that as many as possible may have a job.

Prince Rupert is fortunate in that there is not an idle man within her bounds. Work is plentiful and business is good and everybody is happy.

While a great deal of this prosperity is due to the fact that Prince Rupert is the centre of a rapidly developing territory, there can be no denying the fact that very much of this also can be credited to a competent handling of affairs. If the city's accounts were in the condition in which they were last year, with no one knowing how the funds stood, there would be little chance of steady employment for the city hands! This year we are in the fortunate position of showing a good balance at the bank, with no demands upon us that we cannot meet.

While we are in the throes of a Hydro-Electric discussion it might be interesting to bring up another closely allied subject.

Mr. William Manson takes the credit, and that rightly, for instituting the plans for our Woodward Lake scheme. Before many days are past we shall no doubt hear him in defence of that project. In view of this it might be profitable to ask him a few questions in order that he may enlighten the electorate.

Since Mr. Manson professes to be such a stout champion of public owned utilities (and in this he is right), why has he not urged the McBride Government to come forward with an electric policy similar to that which they have in Ontario? We hear a great deal of the large deposits the government holds in the banks (large enough we are told to relieve the money stringency in British Columbia). Why was not some of this money set aside for the developing of electric power throughout the province? That would be good constructive statesmanship, and especially so in a country like this where water power is to be had in abundance.

When Mr. Manson has answered that question (and it will not do to say that such legislation is "unusual") it might be interesting to have him answer another. Why was it that he did not strengthen the hands of the mayor when he was endeavoring to get financial support from the government? Nobody heard of him taking a trip to Victoria for that end or advocating that policy in the public press or platform.

If Mr. Manson and the McBride Government had done their duty there would be no electric problem to contend with in Prince Rupert today. The public utilities would be definitely in the hands of the people where they rightly belong, and the franchise-seekers would not be found in the land.

**GRADING IS ALMOST COMPLETE
SAYS PRINCE RUPERT REALTY MAN**

**F. M. REYNOLD MAKES OVERLAND TRIP TO FORT GEORGE,
WHERE HE WILL SPEND WINTER**

A few weeks ago F. M. Reynolds of the firm of Collart & Reynolds started on an overland trip to Fort George. He has arrived safely after looking over the country and he tells of his trip to the Fort George Tribune.

Mr. Reynolds left Prince Rupert on November 8 and reached Fort George November 19. Counting for a stop of two days at Fort Fraser, the trip was made in nine days, although it included a "mush" from the head of Burns Lake to Fort George.

"At Rupert we took the train to the end of steel, which at that time was Mile 303, Decker Lake. The first night we stopped at Smithers, which is the passenger divisional point.

"Sunday morning we left Smithers for the end of steel, which was then Mile 303, although when I passed through they had another stretch of 30 miles ready for the track-layer. This would bring the railroad to the head of Burns Lake, a place known as Freeport. Freeport is quite a town, and was very busy while I saw it. It had its start through being the head of water navigation in that region.

"Speaking of water navigation reminds me of the next step in the journey. We spent the night at the end of steel and on Monday morning left for Freeport on a gasoline scow, the first of its kind I ever saw. We went through Decker Lake into Burns Lake to the head of that water on this craft. Between the two lakes we passed through a beaver meadow about a mile along, but our course made it much longer than that. We wound this way and that, turning at times almost back towards our starting point, so crooked was the channel.

"From Freeport we went by foot to Pine Creek, about seventeen miles. I may say that I was a novice at walking with a pack, and the first few days on the trail proved to be somewhat hard for me. At Pine Creek we found a nice roadhouse, where we spent the night.

"Next morning we proceeded along the grade to the G. T. P. townsite at Endako, a mile the other side of Stella, and Dan Shedy, who has the contract for the work at that point, told us that he would have his work completed by the first of April. From Stella we passed through the Stella Indian Reserve and came to the G. T. P. townsite of Fraser Lake.

"Along the south side of Fraser Lake and to the eastern of it we found a splendid agricultural country. We stopped one night at Fraser Lake, and the following day walked 13 miles farther to Fort Fraser, where we rested a couple of days, staying at the

hotel there. At Fort Fraser we crossed the Nechaco river on the ferry, and I made up my mind then that here was the point where the golden spike on the G. T. P. would be driven. Bostrom's contract is away behind, while the work on the other contracts is well advanced.

The grade is practically completed all along the line, and every contractor assured me that he would be finished by April. So far as I could see there are lots of supplies in the camps and no dearth of men.

"I would like to have the people of Prince Rupert know that the climate here is so mild. Over in Rupert I have heard some awful tales of the Fort George winter weather. I was really afraid to come here in the winter after what I heard. As a matter of fact

I have found the weather more like spring than winter.

As regards the land I saw on this trip, apart from the Pleasant valley in the Bulkley country, there seemed to be very little good land immediately adjoining the railway until we passed Burns Lake. From Burns Lake here, however, we found a very fine farming country.

"There is another point that I consider worth of remark also," he said. The roadhouses along the line seem to have figured out that this is their last year and their last chance. You now pay 75 cents for a meal and 50 cents for a bunk."

GILLETT'S LYE EATS DIRT

Believes in Newspapers

London, Dec. 19.—A newspaper advertising campaign for recruits to the British army is to be undertaken in all parts of the country. The war office has become convinced of the value of the newspapers as a medium, and has placed a contract with the head of a regular advertising agency to conduct a campaign during the next year on a large scale. Some 40,000 men are wanted.

Prince George Lots

are making money for local investors. The rails will be laid to Prince George early next month, and with them will come an increase in values. Don't wait until spring and say: "That lot is worth \$2000 and I could have bought it six months ago for \$1000." Get in now, before the boom.

I am offering the unsold portion of the Grand Trunk Pacific Development Company's lots at Auction Sale Prices.

VAISE AND BAYLEY

To Box at Steveston Arena on Boxing Day

Victoria, Dec. 18.—It is now stated that Joe Bayley and Frenchy Vaise will meet at Steveston Arena on December 26. Manager Condon completed arrangements for the bout at Seattle yesterday.

Farmers to Co-operate

Toronto, Dec. 17.—A delegation of western farmers have waited on the Dominion Grange convention, asking them to assist in arranging for the co-operation of farmers east and west. The idea is to enable the farmers of the east to exchange products with the farmers of the west and thus enable them to buy cheaper as well as to eliminate the dictatorship of the exorbitant and grasping middlemen and exploiters.

The Beautiful Rain

The following is taken from an exchange — no local reference at all:
The rain is such a beautiful thing
I said to a friend whom I loved quite well,
But he looked at me with a stony eye
And all that he said was "Is it?"
It maketh the beautiful grass to grow
And all of the flowers to smell.
We couldn't exist without rain, you know,
And all that he said was:
"Couldn't we."

ENGLISH HAND-MADE LACE

MADE BY THE COTTAGERS OF BUCKINGHAMSHIRE.
This is the old-fashioned lace made on the cushion, and was first introduced into England by the Flemish Refugees. It is still made by the village women in their quaint old way.

Our Laces were awarded the Gold Medal at the Festival of Empire and Imperial Exhibition, Crystal Palace, LONDON, ENGLAND, for general excellence of workmanship.

BUY some of this hand-made Pillow Lace, it lasts MANY times longer than machine made variety, and imparts an air of distinction to the possessor, at the same time supporting the village-lace-makers, bringing them little comforts otherwise unobtainable on an agricultural man's wage. Write for descriptive little treatise, entitled "The Pride of North Bucks," containing 20 striking examples of the lace makers' art, and is sent post-free to any part of the world. Lace for every purpose can be obtained, and within reach of the most modest purse.

Collars, Fronts, Plaistons, Jabots, Yokes, Fichus, Berthes, Handkerchiefs, Stocks, Camisoles, Chemise Sets, Tea Cloths, Table Centres, D'oyles, Mats, Medallions, Quaker and Peter Pan Sets, etc., from 25c. 50c., \$1.00, \$1.50, \$2.00 up to \$5.00 each. Over 800 designs in yard lace and insertion from 10c., 15c., 20c., 45c., up to \$8.00 per yard.

IRISH CROCHET. Mrs. Armstrong having over 100 Irish peasant girls connected with her industry, some beautiful samples of Irish hand-made lace may be obtained. All work being sold direct from the lace-makers, both the workers and customers derive great advantage.

DAINTY HANDKIE—70c. No. 910.—Lace 1 1/2 in. deep. No. 122.—30c. per yard.

I'm the man who puts Uniformity into ROYAL STANDARD
I came to Vancouver from the largest mill in the world. My sole job is to test ROYAL STANDARD products day in and day out. I do my work so well that a poor sack of ROYAL STANDARD is impossible.
I first test in my laboratory the choicest samples I can

procure of Canada's bumper wheat crop. Then I make bread from each. Only when delicious bread results—light, white and velvety—do I order wheat like my samples. My vigilance never relaxes. The delicious uniformity of ROYAL STANDARD never varies.
