### MEXICAN GENERAL WILL FIGHT HIS WAY TO CAPITAL—BRUTAL MURDER AT FORT GEORGE

#### CO. WILL SELL NO POWER LOWER THAN CITY RATES

When the original agreement between the city and the Prince Rupert Hydro-Electric Company was drawn up the intention and spirit of the agreement was that the company would not enter into competition with the city in selling of power for industrial purposes.

On the agreement being presented to the people for approval one of the objections was the doubt cast that the company would underbid the city in offering industrial power. To overcome this objection Mayor Pattullo has succeeded in getting a revision in the agreement which

#### GENERAL VILLA WILL ACCEPT NO COMPROMISE

Chihuahua, Mexico, Dec. 29.—Nothing less than the fall of Huerta and his banishment from the country will be considered a preliminary step toward the peace of Mexico, said General Villa today. He further added that any other overtures would be treated with contempt by the revolutionists. They demand a complete surrender of Huerta and his followers and that an independent person be chosen for provisional president. The constitutionalists

#### CHAMPION TIGERS PRESENTED WITH CUP

Basketball Boys Had Dinner and Speeches at G.T.P. Restaurant Yesterday.

Thirty-five members of the basketball league teams gathered around the banquet board at the G.T.P. Restaurant yesterday afternoon. It was the occasion of the celebration of the winning of the city championship. The host of the affair was L. J. Marren, the manager of the rink.

The G. T. P. Restaurant put an excellent spread before the boys, who were lavish in their praise of the menu. It was one of which the restaurant might well be proud.

Following the edibles came the presentation of the handsome silver cup. The address was delivered by Adair Carrs in excellent style and Capt. Lee Dell of the Tigers accepted the donation with sincere thanks. Mr. Eddie Marin of the Tigers also expounded appropriately on behalf of the team.

Other addresses were made by the captains of the various teams, completing a pleasant afternoon, and ending the season with the best of good feeling between the various organizations.

#### EMPRESS THEATRE BLOCK THREE INCHES OUT

Engineers Find Big Building Projects Into Acme Clothing Company's Lot.

When engineers sought the lot peg for the Acme Clothing Company's new store they met with trouble. The Empress Theatre Block is said to be three inches too wide. It encroaches on the Acme lot.

Another engineering staff is working on the same job today to prove up the survey.

In case the first figures prove correct it will be up to the theatre company to tear down their wall and rebuild it, or make arrangements with the neighboring lot owners.

The theory is advanced that the building has bulged the three inches.

Of Terrace in speaking to the Presbyterian congregation of the possible removal of Rev. Kerr, last evening.

Mr. Scott, the student preacher at Terrace, took charge of the Presbyterian services here yesterday. In the evening a song service took the place of the annual service. The choir, under the leadership of Mr. Davey, did splendid service and the singing of Mr. Scott himself was very much enjoyed. Mr. Scott also gave a short address on the First Christmas Carol, which was very much enjoyed.

During the evening service reference was made to the possible removal of Mr. Kerr from this district and the speaker expressed the general feeling that it would be a distinct loss to the whole city.

(Special to The News.) San Francisco, Dec. 29.—This city is furnishing work for its unemployed. Five hundred dollars were paid today to one thousand men for four hours' work. A new rule has, therefore, been made that meals will only be given to those who will work.

#### JAPANESE FIGHT.

Quarrelled Over Christmas Festivities and One Is in Hospital.

Christmas joy among the Japanese at Georgetown became so hilarious that it changed to a quarrel. The sake helped some too, being a fighting brand. There was a lot of laughter and then some Japanese swear words, followed by a flash of knives and a mix-up.

A Jap named Mara came out with a badly cut eye and nose. He was taken to Port Simpson Hospital by one of the Georgetown bosses. Later Government Agent Dean of Port Simpson went over and arrested another Jap named Sazuki, who is charged with the stabbing.

#### HAVING TROUBLE.

Owing to a serious break in The News' linotype machine this morning, the paper has been considerably delayed and is compelled to appear without much of the live news copy which had been prepared. The News deeply regrets having to disappoint its great family of readers, but lapses in holiday week are excusable even in machinery. Probably you have troubles of your own. The Daily News hopes to renew of full service tomorrow.

#### MADAME X TONIGHT AT THE WESTHOLME OPERA HOUSE

The Josephine Deffy Company presents tonight and tomorrow night at the Westholme Opera House the famous sensational drama Madame X. This great play is a dramatized version of the popular novel of the same name and has for its foundation actual happenings of recent years, being taken from an authentic occurrence in the police courts of France. The story is not overdrawn in any respect and holds the intense interest of the audience from start to finish. A synopsis of this play is hardly necessary as the story is well known to the reading public. As produced by the Josephine Deffy Company this play has proven an unqualified success and should draw a crowded house both Monday and Tuesday. Wednesday and Thursday this company will present the Chorus Lady for the first time in Prince Rupert, Thursday (New Year's Day) a matinee will be given in the afternoon at 3 o'clock; special matinee prices, adults 25c, children 15c.

(Special to The Daily News.)

Rome, Dec. 29.—Negotiations have been concluded between the Vatican and the government with regard to the removal of the remains of the late Pope Leo. The intention is to transfer them from St. Peter's to a tomb erected in the church of St. John. The ceremony will take place in February.

#### STRIKERS BORE COFFINS THROUGH CALUMET STREETS

(Special to The Daily News.) Calumet, Mich., Dec. 29.—Yesterday was a sad day in this city when the victims of the terrible panic on Christmas Eve were buried. The strikers bore the coffins through the streets and as their arms wearied with the load and their feet tired from the slippery roads their comrades relieved them of their burden.

Thousands lined the streets. With men in tears and women sobbing openly, the scene was one of deep tragedy. Fifty miners, mostly Englishmen from Cornwall, chanted hymns as the procession passed. The whole country is in great excitement over the recent happenings. A special grand jury has been called to consider the deportation of President Meyer and the condition of the strike among the copper miners. Warrants have been served on the leading persons on both sides.

Word has been received that the Chicago Federation of Labor will take the matter up with Congress. Resolutions of that body have been sent to Washington asking for an investigation.

A Socialist newspaper in Hancock is charged with publishing mis-statements calculated to incite riot.

#### STRUCK AT M'KEEN WITH THICK IRON BAR

Blacksmith on McLeod and Muse Contract Got Fired and Lost Temper.

J. S. Brady was in police court this morning on a charge of assault. He struck at a man with an iron bar, but the blow was fortunately diverted by a pipe.

Brady is a blacksmith who had a job on the McLeod and Muse excavating contract. He did not appear for work Friday and H. E. McKeen was put on in his place. Brady turned up later and not knowing he was fired he ordered McKeen off. Naturally the latter refused to go and the trouble started. This misunderstanding was finally fixed up and the two blacksmiths shook hands. McKeen turned to his work and then Brady lunged at him with the bar. Fortunately it did not land. Brady paid a \$20 fine, and put up a \$250 bond to keep the peace.

G. R. Hughes Met Heavy Weather on Maiden Voyage—Crew Were Saved.

The news was received by the Dominion Wireless Station on Digby Island that the fishing vessel the G. R. Hughes is a complete wreck. The vessel left Vancouver on her maiden trip on December 22. After being out to sea her engines broke down in the heavy seas that were encountered. On December 24 at 8:45 she ran ashore on Secretary Point on Hope Island. Here the vessel lies a complete wreck. The crew: all of whom were saved, were picked up by the Grand Trunk Pacific steamer Henriette and taken to Alert Bay, which was reached Saturday night.

Mr. E. Strassburg of the Westholme Opera House left on the Princess Royal last night. He expects to make his headquarters in Vancouver for the purpose of securing special attractions for the Westholme Theatre. Particular attention will be paid to the moving picture programmes to be presented after the closing of the Josephine Deffy Company in about ten days. Extra attractions of exceptional merit may be expected and a special treat is in store for the patrons of this theatre on this occasion, of which further particulars will be given later.

DAILY EDITION

Ex-Mayor Newton's campaign is falling "as flat as an inflated balloon." He started off with a spectacular "entertainment" and everybody turned out to see the fun. The house was crowded, as it always will be when free pictures and loads of cigars are to be had free of charge, with the certainty also of a little vaudeville thrown in between the acts.

In the first place he tried to make an issue of the Hydro-Electric. He had hoped that Mayor Pattullo would make that issue his own and that a great opposition sentiment could be raised over public ownership. The wind was completely taken out of his sails, however, when the mayor put the case clearly that his share in the transaction was done when he had put the issue up to the people. It was for them to decide what was best.

The next peg to which he hung his political ambitions was his criticism of the council's handling of Section Two improvements. When it was shown that this was entirely a matter between the property owners of that section and the contractor who did the work his uneasiness at once became apparent. Indeed it seems to have knocked the bottom clean out of all his ambitions and it is not impossible that before election day he will again refuse to face the music as he did on a former occasion.

Mr. Newton is strong just now on trying to play the working man. Having failed to make any impression whatever on the business fraternity, he hopes that the former body are more gullible. It is indeed possible that promises impossible of fulfillment will lead a few of them astray. Most people are first of all looking out for number one, and fair promises are very tempting.

The better class working man, however, will not cut off his nose to spite his face. He will reason out whether these promises are consistent with good business. He will refuse to follow the leadership of a man who says he can lift himself by his shoe straps, and this is the sort of logic used by Mr. Newton.

As an illustration of this Mr. Newton promises to have all future work done by day labor. As usual he does not know that the Provincial Government has put that beyond his reach. All local improvement work MUST NOW be done by contract.

Under proper circumstances the day labor plan has much to be said in its favor. The conditions necessary to make it a success are when the man in charge has an absolutely free hand. But with us the "boss" is always looking for votes. How can he urge his men to give a good return for their pay? Every time he does it he loses a vote. We have seen this before in Prince Rupert. We have seen a dozen men fiddling away at one man's job. Two dollars and fifty cents is considered a big price to pay in Section Two for removing rock, but it would pale into insignificance in the face of what similar work has cost by day labor, and that right in this city.

A city should not be run as a charitable affair. All fair minded people like to see a high rate of wages, but there is no sense in paying a high wage and getting nothing for it in return. A city should be run like any other business, and money should be paid out only for value received. So long as our public works department is in the hands of politicians we had better stay with the contract system. If we want a change let us check the evil at its source and give the department a responsible head.

WRECK OF STEAMER JEANIE  
TOLD BY RESCUED SAILORS

NO CHANCE OF SAVING VESSEL — PRAISE FOR ESTEVAN OFFICERS AND MEN WHO PICKED THEM UP

Lying in an exposed position on the rocky shores of Calvert Island, the American steamer Jeanie will become a total loss. With the arrival in Victoria of the Dominion lighthouse tender Estevan, it was stated that the stranded vessel was in great danger of being battered to pieces by gales prevalent in the north at this season of the year.

On board the Estevan were 22 ship-wrecked seamen, members of the crew of the Jeanie, who were picked up by the lighthouse tender when she chanced to put into Safety Cove on her south-bound passage to Victoria. Capt. Hickman and Second Mate Max Gunter were left at Clarke Point standing by the wrecked steamer to await the arrival of a salvage steamer.

Mate Redfern who was the last man to leave the Jeanie, stated that when he last saw her the vessel was keeled over to starboard, and that although she appeared to be intact she was badly exposed to the wind, and he feared that the chances of her being floated was small. She was badly holed and full of water, but in the opinion of the mate there was a possibility that the cargo might be saved.

"We hit the docks about 12:30 on Friday morning when steaming through a dense fog," said Mate Redfern.

"It was so thick that we could hardly see the bow of the ship. We were northbound at the time and had aboard some 900 tons of general cargo for Prince Rupert and Alaskan ports. As soon as the Jeanie struck the orders were sent below for full speed astern, but she was jammed fast and refused to budge an inch.

"She soon began to fill with water and took a big list to starboard. The skipper hailed the Estevan at Safety Cove, not far from the wreck, and Captain Barnes kindly offered his assistance. When he saw that the Jeanie was in a bad way, Captain Hickman ordered the men to get the mails out of the boat, and they were all recovered. If a southeasterly wind sprang up I fear she will break up.

as she is much exposed to the weather."

The men of the Jeanie had nothing but praise for Captain Barnes and the officers of the Estevan, who did all in their power to make the shipwrecked men comfortable.

"We were treated like kings," said Purser Foster, "and you may be sure we appreciate all that has been done for us."

In addition to the twenty-two men the Estevan brought south all the registered and other mails, and the seamen's personal effects. The men disembarked at the outer docks, where the Estevan put in at 4:30 o'clock.

Mate Redfern stated that the Jeanie was making her first voyage this fall in the service of the Alaska Coast Company, her owners having taken the sailing of the steamer Admiral Sampson. She had no passengers on board.

Attempts will be made to float the Jeanie, and it was stated by the men that the Vancouver Dredging and Salvage Company had despatched a vessel north with a view to salvage.

The immigration authorities allowed the men to land, and as the American consulate offices were closed, they returned to the Estevan to berth for the night. They will leave by the steamer Sol Duc this morning for Seattle.

Monday the 29th, commencing at 8 p. m., Christmas tree entertainment to be given by the children. Admission free. All are welcome. Held in Salvation Hall. 302-304

## MAKING IT A TWENTY-FIVE THOUSAND DOLLAR A YEAR JOB.

The Ontario Hydro Electric Commission, which set the pace for the other Provinces in the development of electrical energy, has up to date been working without salary. The other day in Toronto, the Ontario Municipal Electric Association debated the question of granting \$25,000 for salaries for commissioners. The main argument presented by those in favor was that the enterprise had emerged from the experimental stage to a sound profitable business. The Mayor of London declared that the Hydro had saved that city alone \$200,000 in one year.

## SCEPTRE OF THE SEA

## Sir Edward Grey on Foreign Policy Closes With Poetry

On the recent occasion when Sir Edward Grey received the freedom of the city of Newcastle-on-Tyne he gave a long and careful address upon the foreign policy of Great Britain at the present and concluded as follows:

"I come back from London with a message which I am going to read you, and which sums up everything I gathered while there."

Old England's sons are England's yet;

Old England's heart is strong;

And still she wears her coronet

Aflame with fire and song.

As in their pride our fathers died,

If need be, so die we;

So hold we still, gainsay who will,

The sceptre of the sea.

We've Raleighs still for Raleigh's part,

We've Nelsons yet unknown.

The pulses of the Lion's heart

Throb on through Wellington.

Hold, Britain, hold your creed of old,

Strong heart and steadfast friend;

Be still unto thy motto true,

Defy not but defend.

Men whisper "Here are armies weak,"

Men say our blood runs cold;

Men say that we no longer speak

The clarion note of old.

But let the sword or spear come near

The sleeping Lion's den,

Our island shore will hear once more

The tramp of armed men.

## VOLCANIC ERUPTIONS IN THE SOUTH SEAS

## 500 Natives Lose Lives—Hospital Building Wiped Out—Awespiring Scenery

Sydney, N. S. W., Dec. 1.—Incoming steamers bring details of the recent volcanic eruptions on the island of Ambrim, in the New Hebrides group, in which 500 natives lost their lives. Witnesses of the disturbance describe it as having been so sudden and violent that they expected to see the western side of the island disappear.

With a terrific roar, which was followed by a rapid succession of artillery-like detonations, all the craters of the volcano entered into full activity, spouting flames and throwing out huge boulders. Great streams of lava began rushing down the slopes, cutting off the villagers from escape.

## Torrents of Lava

In one instance two currents of the molten mass joined, creating an island of one section of a village. Fifty or sixty persons perished at this point.

The scenes of the volcano at night were awe-inspiring. Flames shot into the air to a height of a thousand feet, illuminating the entire scene of destruction. The ocean seemed to boil, huge superheated masses of stone fell into the sea and streams of lava poured into the bay. Dust from the craters gradually formed a black

cloud which blotted out the light of the stars.

After the eruption the bay was filled with dead fish and large numbers of dead turtles. The water in the river was hot.

The British hospital buildings were wiped out of existence, but previous to their destruction the physician removed the patients to a launch and escaped with them.

## How Brown Learned How.

There is a man who makes shoes for children—and sells them to stores all over Canada But he is only just learning how people buy.

It was this way: His wife—let us call her Mrs. Brown—phoned to him and asked him to buy some underwear for little Brown.

Picture Brown now among the throng of mothers at the "Children's Underwear" counter. He asks for Underwear for a child of six. He looks it over helplessly. What on earth does he know about Children's Underwear? For lack of anything better to say he asks: "Is this good quality?" The answer is short and quite conclusive: "It's Blank's"—naming a well-advertised line. That short word says everything. Brown pays his money and goes home, quite satisfied with his purchase.

Now what bothers Brown—a manufacturer of shoes, is this: How would it affect the purchase of a child's shoes if the salesman said "They're Brown's"?

Nobody knows Brown's shoes. Brown doesn't advertise.

The name Brown signifies nothing when used in connection with children's shoes. The salesman must use all his persuasive wiles to induce people to buy them.

The point is—If the name Brown was as synonymous with Children's Shoes as "Blank's" is with Underwear, wouldn't Brown sell more shoes with less effort?

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

## Contract Awarded to Esquimalt Firm

On January 1 Operations Will be Commenced in Lengthening C.P.R. Ste. Princess Mary

Announcement was made last week at the C.P.R. offices of the British Columbia Coast Service that the contract had been let for the lengthening of the coastal steamer Princess Mary, and that the interesting operation of cutting the vessel in two would be commenced with the advent of the New Year.

The Contract has been let to the British Columbia Marine Railway Co., of Esquimalt, and the officials of this concern state that operations will be started on the Princess Mary on January 1. Negotiations for the lengthening of the Mary have been pending for some time but it was only last week that the final details in connection with the reconstruction of the steamer were arranged and the contract let. At the present time the B.C. Marine Railway Company have several steamers at the Esquimalt yards undergoing alterations and repairs but as the contracts in hand are well under way it is not anticipated that any difficulty will be experienced in making an early start on the Princess Mary.

As the spring season for the coastal shipping does not open before the end of March, the Esquimalt concern will have three clear months in which to complete and deliver the vessel in time for the early rush of travel to the north. By the first of January the Princess Mary will be hauled out on the Marine slips at Esquimalt after which the extraordinary operation of cutting her in two, forward of the smokestack, will be commenced. She is to be lengthened 40 feet. This will necessitate the after part being lowered that distance down the ways to allow the additional frames being placed in position on a new length of keel. Then the steel plates will be riveted to the frames and at the same time the steel decks will be placed in position. The additional forty feet will give the Princess Mary greater stability and at the same time her cargo capacity will be increased.

While the Princess Mary is laid up she will also have a modern oil-fuel system installed and by the time she is turned over to her owners she will be one of the handiest packets plying in the British Columbia coastal service.

Will Lecture in Canada.

London, Dec. 29.—Lieut. Evans, who assumed command of the Scott expedition when Scott died, will sail for Canada on March 4 on a lecturing tour.

## In the Letter Box

To the Editor of The News.

Dear Sir: I hope you will allow me space in your paper to compare the figures submitted by City Engineers Mason and Duncan pertaining to the city's Woodworth Lake power scheme. Mr. Thompson, Carver, Ross and Mr. Davis submit an estimate of \$140,000 for one 500 K. w. unit. Messrs. Mason and Duncan estimate \$221,000 for the same plant, a difference of \$81,000. It is a question of which figures we should accept. Messrs. Mason and Duncan's figures for four units to cost \$1,146,400 to develop approximately 3000 h. p., when we are told that there is only about 1800 h. p. available. How they come to submit such figures I cannot understand, but I expect they will explain, at least I hope so. Mr. Mathews, a former city electrical engineer, estimated the cost to develop the 1800 h. p. available at Woodworth Lake at \$600,000. There is a vast difference between these estimates. Mr. Mathews submits figures that with such a plant running up to capacity he could deliver direct to the consumers light at four cents per k. w. hour and power at one cent per k. w. hour and pay for all and every possible cost. I consider his figures just as reliable as Mr. Duncan's or Mr. Agnew's.

Mr. Agnew, when he submitted the water power at Falls River to the city to buy, estimated the power at 12,000 horse power; the cost to develop the power \$600,000. How does that compare with our city engineer's estimate of \$1,146,400 for 1800 h. p. and accessories? It appears to me that this report of Messrs. Mason and Duncan has been dictated and I challenge the mayor to prove otherwise and that he did not order the engineers to only take into consideration Woodworth Lake and not to mention anything about the 10,000 h. p. on Wark Channel and to give none of his own views regarding the agreement put up to the city by the P. R. H. E. Co. I as a ratepayer demand that the muzzle be removed off our city engineer. The ratepayers are entitled to his technical knowledge and experience regarding this agreement, and that it is given without prejudice regarding his position as city engineer. We the taxpayers pay his salary and are entitled to his services and can protect him from any dictator.

W. H. MONTGOMERY.
