VOTE DOWN THE BY-LAWS DON'T LET THE COMPANY IN

Opponents of Power Agreement By-Law Worked Enthusiasm into Large Gathering at Empress Theatre

A crowded house and impartial receptive audience went to hear the opponents of the Prince Rupert Hydro-Electric agreement in the Empress Theatre last evening. The speakers were all given a fair hearing and hearty applause, and the audience seemed to enjoy the occasional interruptions, roasts, and sarcasms. There were five speakers on the programme as arranged, but the advocates of the agreement asked for the privilege of replying and at the end of the meeting three of them did five minute stunts.

Wm. Manson created the sensation of the evening when he advocated beating all the by-laws and wiping out the proposed sewers until such time as the city could meet all its obligations and build the city hydro-electric. He is credited with having made one of the best speeches he ever delivered in Prince Rupert and was greeted with more real applause than is usually accorded him even in the heat of an election campaign.

J. A. Kirkpatrick was chairman. After a few reels of moving pictures he introduced the speakers. In opening the meeting he said:

"I have no personal interest in this question, nor am I advocating either candidate for mayor. This question is more important than twenty mayors."

Attention of Mr. McLennan to the fact that the province of Ontario buys all its power at Niagara Falls from a private company.

William Manson

My advice is to vote all the by-laws down, including the Diesel oil plant. This is a sweeping declaration made on account of our financial position.

A blackboard was exhibited showing items totaling our long term debenture debt to be \$1,511,000. The sewer bylaw already passed amounted to \$660,000 and proposed new bylaws amounting to \$300,000 the speaker wiped over the board.

Our debt is too high. We can not sell debentures. Better wait until we have wiped out obligations already incurred.

By selling our present debentures we would be able to handle our hydro-electric.

The revenue from our own hydro scheme would help pay water works debentures.

This agreement would leave the company supreme in handling power for the city.

When we complete one unit it will be time enough to see how far we can go.

We should not agree to buy any specific amount of power from the company. If this company is in the field they will be glad to furnish us power from time to time.

The city engineer and electrical superintendent have not given reports recommending or condemning this agreement. We want detailed information from the council.

Regret question is submitted during a municipal campaign. We cannot get calmest judgment. The citizens' committee cannot call in experts.

Mr. Ross of Seattle in a letter said he did not like the agreement. It was one-sided and he would be sorry to see the city accept it. It would make them political masters. The primary charge is a money-maker for the company. The cost is greater than the city can buy it for. Rates are out of the question and should not be considered.

We are under no obligations to this company. When we were passing our hydro-electric power one of the engineers of this company wrote to our bankers and tried to injure us.

A voice--He was hydro adviser for the bank and the bank asked for his opinion.

Company representatives are trying to influence the people by offering them business. I would like to see the people free to handle their own business.

The company has made misrepresentations. The speaker here read prospectus advertising of the company's stock selling brokers.

The advertisement in the daily papers showing the cost of power under the agreement to be 7c and 5c was contradicted by the figures of the city superintendent. The city council ought to refute these figures.

L. W. Patmore--Why don't you refute them?
Wm. Manson--I am.
L. W. P.--No, you are just saying so.
W. M.--Mr. Patmore seems interested in these figures. Perhaps he can tell us about them.

Mr. Patmore is interested with the company and can confuse the people of Prince Rupert. I am not a mathematician but I claim the council ought to submit correct technical figures.

Every candidate should be pledged on this question.

This bylaw if passed will have to be ratified by the legislature and will come before me again, but if you pass it do not expect

us to stop it there. It is not up to me, it is up to you.

Everyone condemned the charter of the Tsimpsan Power Company which this company bought out. They condemned me for not having it cancelled in the legislature. Even Mr. Patmore condemned it. It makes all the difference whether a man is solicitor for the company or not.

Lady's voice--He was solicitor then.

If you vote for the agreement you can bid goodbye to the development of our water power.

The city has staked Wark Channel power, but I do not know yet what has been decided about it.

Mr. Agnew here arose and explained the figures in the advertisement. He challenged any one to show that they were not correct.

Dr. Clayton

If any one is in favor of this agreement I want them to tell me why.

I am opposed to it on principle. I am a believer in municipal ownership.

It is fatal to this company's enterprise to develop ours.

If this company can put up this fight in its initial stages, what will it be able to do in twenty years when it has influence and owns newspapers?

Prince Rupert is sending out the S. O. S.

This is only a plug view, but I think a municipality can float bonds cheaper than industrials.

Great is the persuasion of gold on the newspapers.

Don't let the immense amount of work promised becloud the issue.

C. V. Bennett

If the city wants to cancel the agreement it will take seven months to get it into the courts. I don't question the good faith of the company, but if they get us into court--ad infinitum.

In this company are some of the shrewdest minds in the country.

It took four years to open Cow Bay.

C. W. Peck

I'm Cy on the spot. We have had range finders, pom poms and I am to give the fireworks.

I am for public ownership all the time. It is the greatest manifestation of democracy. The only two things that would bring me on the platform are public ownership and single tax.

This agreement is a franchise and a monopoly. This company asks that they be protected from competition, even the competition of the city itself.

Many of us came up here with packs on our backs. We were not protected from competition. We

(Special to The Daily News.)

Portland, Jan. 6.--The terrible rain storm of the last few days has moderated but another forecast warning for small craft has been posted. The Willamette River is still rising fast. Eight hundred stations of the Pacific Telephone Co. are entirely destroyed and the city fire alarm switchboard is out of service. Slides in the hill districts have done great damage to the railway service, which is interrupted for miles. A gale is blowing all over Cape Flattery, but no damage to shipping is yet reported.

THREE THOUSAND TONS OF CONCRETE

Hundred Four Horse Teams to Haul Material to Nechaco Bridge

Supt. Graham, for Bates and Rogers, concrete contractors on the G. T. P., returned Saturday night after a business trip to the south. To the Herald he stated that the concreting of Ross' big tunnel would be completed within the next six weeks. The tunnels around Kitselas are done and the slow order to the trainmen are taken off. At mile 44 about forty feet at the western entrance to the tunnel is being concreted and it will be ready in a few days.

The big job Bates & Rogers have for this winter is hauling three thousand tons of cement from the end of steel to the site of the Nechaco bridge. Over a hundred four-horse teams will be on the job and as many more as can be secured. Good prices for freighting are being paid. Omineca Herald.

A Fine Play

"In Australia," as performed at the Westholme Opera House by the Josephine Deffry Company, proved an unequalled success and pleased those present without exception.

The play is thoroughly English, both in sentiment and character and gives every member of the company ample scope for the display of their talents. Miss Deffry in the leading role was as usual splendid and played the role of the persecuted wife excellently. She was well supported by the entire company and the entire performance was creditable indeed. The play will be repeated tonight.

Wednesday and Thursday this company will be seen here for the last time this season in the great comedy success entitled "The Marriage of Kitty."

Delayed Christmas Gift

A Christmas gift for the fire department in the shape of another fire automobile hose wagon and chemical engine is on its way but will arrive late. It was shipped from Walkerville on Christmas Eve, but will not get here for a week or two yet. The city fire department will be well equipped when this second wagon arrives.

GIRL CLOSED TOWN SALOONS UNDER ORDERS GOVERNOR

BACKED BY MILITIA, PRIVATE SECRETARY OF GOV. WEST SHUT UP BROTHELS OWNED BY CITY OFFICIALS

Copperfield, Ore., Jan. 5.--Flanked by state militiamen, Miss Fern Hobbs, private secretary to Governor West, yesterday closed the saloons of this place and martial law was declared.

The members of the coast artillery, with rifles loaded and ready, stopped off the train at 2 o'clock yesterday afternoon, after the saloon men had become defiant and refused to close their brothels.

The governor's special representative, accompanied by Col. Lawson, went directly to the town hall, where she read the governor's proclamation. The guardsmen remained at the railroad under Col. Lawson's orders.

Mayor Stewart, leader of one faction of the town, and Martin Kneisovitch of the other, were on hand with their followers.

Martial law was not declared while Miss Hobbs was here, but ten minutes after she left, all her requests not being obeyed, the military authorities took control of the situation.

All the saloons were seized, the saloon men being given until 4

o'clock to ship their bar fixtures and liquors out of the county on penalty of confiscation. All of the city officials were placed under arrest. They were not even permitted to communicate with their attorneys.

The situation, which reached its climax yesterday, arose two weeks ago, when Governor West announced that he had received a protest signed by more than half the residents of Copperfield against alleged law violations by saloons here, one of which was run by the mayor and another by a councilman. It was charged that liquor was sold to minors and at all hours.

The governor called upon Mayor Stewart to close the saloons. The mayor declined. Governor West then called upon Sheriff Rand, at Baker, to act. The sheriff refused, declaring he lacked authority, as no legal complaint had been filed. The governor then declared he would close the saloons himself, and remove the city officials if they hindered him.

DAILY EDITION

Tuesday, Jan. 6, 1914

The anti-hydro-electric meet-
ing last night was full of en-
thusiasm. The opponents of
the agreement were out in full
force and everything that was
worth saying was said, besides
many things that had no con-
nection whatever with the is-
sue.

To a disinterested spectator
it would appear as if undue
advantage was taken of the
popularity of municipal owner-
ship and the antagonism at
one time shown locally toward
the Tsimpsean Company. All
fair-minded citizens favor pub-
lic ownership and no one would
support the present proposals
were it shown that it was any-
thing but a temporary expedi-
ent. The Tsimpsean Com-
pany was a nightmare com-
pare to the present scheme.
That company had the affront
to declare that they had a
monopoly of all our franchises,
while the present company
comes to the city on its knees
seeking the best agreement we
will give.

It was a rather base attempt
that was made to show that
the morning paper was influenc-
ed in its opinions by the few mean
advertisements that were re-
ceived. This paper carries the
exact same advertisements
and no one even dared to in-
sinuate what our attitude
should be.

Candidates for office should
not be asked to declare them-
selves on the agreement. That
is a matter for the citizens to
decide. Should the bylaw
carry surely no council would
dare refuse to do the will of
the people and if it is voted
down that settles it. No one
pretends to agree with every
proposal of either mayor or
alderman, but while we may
disagree on several points we
are at liberty to support their
general policy. This is what
should be done in choosing

candidates. Select the best
men at your disposal and do
with the Hydro-Electric agree-
ment what you will.

Newspapers are often criti-
cized for not taking a definite
stand on complicated issues.
As a matter of fact, a paper
may be of more real service in
maintaining an independent
ground. Questions of this kind
are nearly always manipulated
by the local politicians, and it
behoves a few at least to hold
their heads above the troubled
waters of party strife.

The suggestion made by Mr.
William Manson that all by-
laws should be voted down was
foolish in the extreme. That
would mean that this city, just
at the time when it should be-
gin to forge ahead, would have
to come to a standstill. It
would mean that even with a
great inrush of population this
city could do nothing in the
way of water, streets and
sewers, which are an absolute
necessity.

This suggestion, too, is made
in order that the city may
enter the commercial sphere
of supplying their own elec-
tric energy. In other words
we are asked to stop all city
undertakings, to leave undone
the very first things a city
should do, in order to satisfy
our own whim for municipal
ownership. This, too, in the
face of the fact that we can
buy energy cheaper than we
can develop it for a long time.
The opponents of the agree-
ment will have to supply better
arguments than that if they
expect the public to think with
them. Furthermore, it will
not do for them to say that
they prefer paying double the
price for the product of their
own plant. Modern democracy
is leaning strongly toward pub-
lic ownership, but not the kind
that cannot stand on its own
feet.

G. R. HUGHES TOTAL WRECK
ENGINE FELL THROUGH RIBS

FURTHER PARTICULARS OF MARINE TROUBLE—WAS FORM-
ERLY ROSINE FISHING OUT OF PRINCE RUPERT

Further particulars are re-
ceived of the wreck of the halibut
schooner G. R. Hughes, which
was making her maiden voyage
under that name. The Hughes
was formerly the Rosine, which
fished out of Prince Rupert. She
met with disaster on April 24 of
last year when her gasoline tank
exploded. Two of her crew were
badly burned. The hull was
taken to Vancouver and practi-
cally rebuilt.

The G. R. Hughes sailed from
Vancouver some three weeks ago
on a halibut fishing venture and
she was southbound with 2,000
pounds of fish when the breaking
of the shaft left the disabled ves-
sel plunging violently in a heavy
southeast gale.

The schooner was making good
progress south on Wednesday
under her hundred horse power
gasoline engine and it was Cap-
tain Petersen's intention to go
into Hardy Bay for more fuel.
The engine reported trouble
with the engine and stopped to
investigate, and sail was made on
the schooner. The engine start-
ed up again, but after running
for a short time the shaft broke
and put the engine out of com-
mission.

The weather had been getting
steadily worse and a gale from
the southeast with a velocity of
forty miles was blowing, bringing
with it heavy seas, and against
this combination the schooner,
under her scanty canvas, could do
nothing. She only drifted to lea-
ward and would not look up into
the wind at all.

take the dories and only active
fishermen, used to the work,
could have got the dories away
without accident. The men pulled
clear through the breaking
seas and saw the G. R. Hughes
lift up on the crest of a sea and
drop on to the rocks.

Dragged Dory Overland
In a very short time she began
to break up and finally went to
pieces in the deep water which
ran right up to the cliffs. The
engine dropped through the shat-
tered hull and went to the bot-
tom and the men then rowed
along until they found a patch of
beach which enabled them to
land.

The crew had got away with
nothing except what they stood
up in, and Captain Petersen lost
all his gear. Then came forty-
eight hours of hunger, for they
had no provisions.

The men spent Christmas Day
cutting a trail through two miles
of bush, and over this rough
trail, cleared with their hands
and a few knives; they dragged
one of the dories, intending to
launch it at Bull Harbor and row
to Hardy Bay.

However, anchored in Bull
Harbor was the schooner Emma
H. of the Canadian Fishing Co.,
and on board her they got their
first meal in forty-eight hours.

Then the Henriette came in and
the men transferred to her and
and on board her they got their

Two More Days to Buy that Present, Scoop

Drawn for The Daily News by "Hop"

A multi-panel cartoon titled 'Two More Days to Buy that Present, Scoop'. The cartoon depicts a man sitting at a table with a large list of gifts. He is looking at the list with a thoughtful expression. The list includes: TANGO SHIRT \$2.00, SAFETY RAZOR .35, FOUNTAIN PEN 3.00, TOOTH BRUSH .15, DIAMOND RING 22.85, PORTABLE GARAGE 88.00, SUSPENDERS .50, THREE STOGIES .50, FIRELESS COOKER, VACUUM CLEANER, RUBBER HEELS 1.00, and GARTERS .19. The man says, 'I'VE MADE A LIST OF ALL THE PRESENTS THAT I COULD GIVE THE BOSS—BUT I DON'T KNOW WHICH ONE TO CHOOSE FOR HIM'. He then says, 'LET'S SEE NOW—'. In the next panel, he says, 'THE ONLY SYSTEM IS TO SHUT YOUR EYES AN' PUT YOUR FINGER ON THE LIST—WHUT EVER YOUR FINGER LANDS ON'. In the final panel, he says, 'THAT IS THE PRESENT THE BOSS WOULD LIKE THE BEST—'. The cartoon ends with the man saying, 'PORTABLE GARAGE—\$88.00! LET'S TRY IT AGAIN!' and 'EYES POPPING OUT—'. The cartoon is signed '© 1913-INTL-SYND-BALTO-MD.'

MUNICIPAL NOTICE

TAKE NOTICE that the Municipal Council of the City of Prince Rupert has fixed Thursday, the Fifteenth day of January, A. D. 1914, at the Council Chamber in the City Hall, Fulton Street, as the day and place for taking the vote of the ratepayers on the following bylaws:

A bylaw of the City of Prince Rupert to provide for the purchase and installation of an improved telephone system and to create a debt for the purpose of making such improvements amounting to the sum of Sixty Thousand Dollars (\$60,000.00).

A bylaw of the City of Prince Rupert to authorize the purchase and installation of an improved system for generating electrical energy in the City of Prince Rupert, capable of producing to the extent of One Hundred and Fifty Thousand Dollars (\$150,000.00).

A bylaw of the City of Prince Rupert to authorize the purchase and installation of an improved system for generating electrical energy in the City of Prince Rupert, capable of producing to the extent of Forty-five Thousand Dollars (\$45,000.00).

WHEREAS the City of Prince Rupert at present operates its own telephone system and such system is now insufficient to serve the requirements of the citizens of Prince Rupert and it has become necessary to improve and extend the said system:

AND WHEREAS a petition has been duly signed by the required number of property holders of the said city requesting the Municipal Council of the City of Prince Rupert to introduce this bylaw and same has been introduced pursuant to this petition:

AND WHEREAS for the purpose of making such improvements and extensions it will be necessary to incur a debt to the extent of Sixty Thousand Dollars (\$60,000.00):

AND WHEREAS the City intends to issue debentures for the amount of the said debt in the sum of Sixty Thousand Dollars (\$60,000.00) by the sale of which to realize the monies necessary for the said purpose, said debentures to extend over a period of twenty (20) years, from the second (2nd) day of January, A. D. 1914, and to be secured in manner hereinafter appearing:

AND WHEREAS the assessed value of the lands and improvements in the City of Prince Rupert according to the last revised assessment roll, namely the assessment roll for the year 1913, is the sum of Twenty-eight Millions, Two Hundred and Eighty Dollars (\$28,215,980.00):

AND WHEREAS the aggregate debt owing by the said City exclusive of debts for works of local improvement and school purposes does not exceed One Million Two Hundred and Fourteen Thousand Dollars (\$1,214,000.00) nor does it exceed twenty per cent. (20%) of the value of the assessed lands and improvements according to the last revised assessment roll:

AND WHEREAS the total amount which will have to be raised annually for the interest on the said debt shall be Five Thousand One Hundred and Twenty-one Dollars and Sixty-six Cents (\$5,121.66):

MEN WHO PROBE HIGH COST OF LIVING—JOHN A. McDUGALL, C.M.G., AND C. C. JAMES

The Borden Government has appointed a commission to investigate the high cost of living in Canada in response to many requests for an enquiry. John A. McDougall, C.M.G., chief commissioner of customs; C. C. James, chief adviser on all agricultural matters to Martin Burrell, and R. H. Coats, the chief statistician of the Labor department.

STEWART NOTES

Harry Smith, formerly a pioneer merchant of Stewart, is now in Duncan and it is said will embark in the newspaper business again. In 1900 he established the Duncan Enterprise.

Albert Johnson has returned from a holiday spent at his old home in Sweden.

All arrangements are completed for the Miners' Union ball and dinner on Christmas night. The dance will be given in the Stewart News Agency hall and the dinner will be served at midnight at the Hotel King Edward.

Bert Kergin and Harry Fowler have of late been busy emulating the example of Noah. The explanation they give is that their ark is to be towed down the canal and is to serve them for a house while they are logging in the vicinity of Granby. To the casual observer it would appear the weather had begun to get on their nerves.

W. J. Crawford, wife and children went south on the Prince George to spend a month's holiday with relations in Vancouver.

Jim Higgins has gone below to spend Xmas in Seattle.

G. A. and Roy Clothier have gone to Rupert for the holiday season.

We noticed a large consignment of sparkling Burgundy and Mumm's Extra dry, which the Northern got in this boat. It seems rather a sarcasm with the exchequer in its present condition. But if we can't buy it this Xmas we will next.

Mesdames Crawford and Braggy organized a dance which was held in the Stewart News Agency hall on Tuesday night, with the object of getting the floor in shape for the ball on Xmas night.—Portland Canal Miner.

VOTE DOWN THE BYLAWS DON'T LET THE COMPANY IN

(Continued from page 1) had to take a chance. Let them take a chance. With this maze of kilowatts, horse powers, peak loads, and stepping down and stepping up, it is hard to form an opinion. It is a healthy thing to see a city jealous of its franchise. This agreement has all the earmarks of a corporation grab. They dangle the bait in the darkest days of the year. If you bite you're hooked. Men who say everybody is trying to sell to the city at a higher price than any one else have no faith to build a city. They have not faith enough to build a dog house. I have faith, but I am not going to carry it to the feet of a corporation. Pattullo and Naden were supporters of public ownership platforms. Now just when the goal is in sight they turn tail and throw up their hands.

W. P. Lynch. As I figure out this proposition the prices under either scheme are about the same. But if the city installs 835 h. p. they will have to pay for the whole 835. If they buy it from the company they pay for what they get. The company are not philanthropists. They expect to make money. The costs of the hydro-electric development have been underestimated. It is for you to say whether you want to spend your money on this scheme and let your streets and sewers go, or buy power and spend the money on the streets. Fred Stork. I am sorry the proposition is submitted just now. We ought to discuss it without heat or feeling. Previous speakers have not yet reached the point. We are paying 18c for light and we want relief. If Ross and Thompson had been living here for years paying 18c they would want redress, too. Woodworth Lake power is too limited. If our city is only going to be big enough to use the amount of power available there we had better let it alone. This agreement is giving no franchise. It is an agreement to buy power at a fixed rate. It is up to the opponents to show some redress. I have been waiting six years now. If you could dispose of the sewers as easy as Mr. Manson did it would be very nice, but wiping them off the blackboard does not dispose of the sewers. This item is still before us. What are we going to do? We want payrolls and cheap power. If the city cannot furnish it let us make a contract with those who can. L. W. Patmore announced another field night when those favorable to the bylaw would be heard.

TERRACE NOTES.

Terrace, Jan. 1.--The festivities of Christmas and New Years here closed with a dance in the Progress Club Hall on New Years Eve. This event was largely attended and all present joined in "Auld Lang Syne" as the hour of midnight struck. The Christmas tree which was held on Christmas Eve was a great success. Previous to the giving of the presents the programme consisted of vocal and instrumental music, and a sketch entitled "Irish Justice." Among those taking part were: Messrs. Leila Brooks and Sparks, Messrs. Ryder, Eby, Pearson, Just and Large. Two numbers were rendered by a chorus of ladies and gentlemen, and several very much appreciated items were given by the local school children. Miss Gladys Kenney and Master Frank Lazelle captivated the audience by their rendering of various nursery rhymes. A large number came in from the country districts and from Terrace to attend the dance in "Dad Meek's" hall at Kitsumakum just before Christmas. The music was furnished by an orchestra consisting of two violins and a guitar played by Messrs. F. Lazelle, Frank and Lightwine. The ladies of Kitsumakum furnished refreshments. Mr. and Mrs. Head are now settled in their new house near the mill. Mr. and Mrs. Long are spending the winter in town. Mr. Editor: In reference to a little anecdote I related at the meeting last night in regard to a conversation between the manager of the Prince Rupert Hydro-Electric Co. and myself, I wish to state that I had no reference at all to Mr. Agnew. C. W. PECK.
