

BIGGEST TAX PAYERS FAVOR POWER AGREEMENT

CANADA NOT PRODUCING CAUSE OF HIGH COST OF LIVING -- C. H. I. C. INVESTORS MEETING

Campaign News and Views

There is no virtue in OWNING an electric plant. That will not save the financiers.—O. N. Nelson.

A policy that has given Ontario the cheapest power in America ought to be a pretty safe policy for Prince Rupert.

This cry of a franchise grabber not ring true from a man who wanted to give a franchise to the B.C. Telephone Company, the most selfish corporation in British Columbia.

Our public utilities at this moment are unable to supply even the present population. Light, telephone and water extensions have had to be refused. What will it be next year if the tactics of the opposition should succeed?

A year ago Newton was going to finance this city by selling \$100,000 of one year treasury notes. Those notes would be due in 1915. What position would this city be in with \$400,000 to pay for in the present financial market.

One half of the critics of Mayor Pattullo say he has not given the people sufficient information; the other half say there is so much information they are mud-headed on the subject Saturday evening.

When a Seattle expert says a company can make themselves the political masters of the citizens of Prince Rupert he is expressing a biased opinion which is not complimentary to the intelligence or morality of the people in this city.

Shut-Down-the-City is a policy for the money lenders. Does it appeal to you? When Prince Rupert completes its twenty year contract with the company, can, if it chooses, throw off the switch, and the company will be on the outside looking in.

This is what the mayor's opponent calls "legitimate criticism for the public good."

"What does the local Italian boy think of the mayor's ignoring of his Italian ancestry and the emphasizing of the Scotch he claims to possess?"

If the bylaws are all voted on the outlying sections will be unable to get water, light and telephone service for some years. That is the good of putting in a hydro-electric scheme if the city is unable to provide any facilities to take care of our population?

The opposition are in favor of finding bylaws passed last year and voting down all the new laws. This means that no new whatever could go on in the city except the hydro-electric scheme, and that cannot go on until a new bylaw for approximately \$100,000 is passed and the proposition is financed. If that is done

all other work in the city must cease and this town will look as dead as the Deserted Village.

One consumer of electric light in this city will save over \$1000 a year on his lighting bill if the power agreement passes. That means he will have \$1000 more to distribute among the business men of this city. That \$1000 at the present time is absolute waste, benefitting no one.

The issue between the present administration and that of the opposition is a clear-cut one. The present administration has a constructive policy along safe but progressive lines, the policy of the opposition is a purely destructive one, with actual stagnation and ruin facing the city.

The appropriation for the construction of the combined hydro-electric and waterworks plant is \$200,000 short of the amount necessary to complete the works. It means that after the debentures are sold another bylaw for \$250,000 will have to be passed and the additional debentures disposed of before the plant could be put in. That is the policy of the opposition. They also advocate defeating the \$45,000 by-law for electric distributing extensions, which would mean even if the city got the hydro-plant installed the outlying sections could not get light because there would be no money for extensions. Their policy is a paradox. It fights itself.

The present mayor says that he will start a publicity campaign which will show to the outside world in a thoroughly legitimate fashion the potential resources of this city. He proposes to invite the premier of the Dominion, the leader of the opposition, the premiers of the various provinces, including the premier and ministers of this province, the mayors of interior cities and the mayors of all the coast cities, as well as a general invitation to all who wish to come here, in recognition of the completion of the G. T. P. Railroad across the continent, with Prince Rupert as its Pacific terminus. If we are able to show these distinguished visitors that we can take care of the population that wishes to come here and can offer electrical energy to any industry that wishes to establish here, we have something upon which to base in a sane, sound way the claims of this city as a commercial centre. If the policy of the opposition is carried out it will be useless to invite anybody, because we will be unable to take care of the incoming population and will not be in a position to give electrical energy to industries that want to come here.

Health or a Hobby?

No question in the present municipal campaign will appeal more strongly to the home makers in Prince Rupert than the proposition of the "Shut-Down-

BAXTER WAS ELECTED MAYOR OF VANCOUVER

Had Large Majority Over ex-Mayor Taylor

(Special to The Daily News.)
Vancouver, Jan. 9.—In the election here yesterday Baxter was elected mayor by a large majority over ex-Mayor Taylor. The contest was not very exciting but a large vote was polled.

CONTRACT HOLDERS WANT INFORMATION

Local Investors in the C. H. I. C. Appoint Committee to Investigate

There are between 200 and 250 contracts of the C. H. I. C. in Prince Rupert. Some investors hold a number of contracts and some have paid in as much as \$200 on a single contract. These contract holders met last night and want to know what can be done about their investment. They believe they have been stung. The Canadian Home Investment Company was sold to a broker in Victoria and afterwards resold to the Alpha Mortgage and Investment Co. of Vancouver. A big profit was made in the deal, but the contract holders, the people who put the money in, did not get the profit. The new owners of the C. H. I. C. have discontinued the contract system and offer stock in the company for the money the people have put in. The local investors don't like the offer and claim they can't get any information about the deal. Finally they appointed a committee to get information. The committee are: Messrs. Philpot, Millar, E. Brooksbank, M. J. McNeil, R. Williams, and John Dybbavn.

See the new American "E. Z. Wak" shoes for children at Scott, Froud & Co's. 9-14

Rupert With City Aims

The sale advertised in The News yesterday for the H. S. Wallace Co. was even the first day an unqualified success. Mr. Wallace says it is the best sale he has yet had in Rupert. His staff of twelve were rushed all day. There were fifty and sixty ladies at a time in the store. The cash carrier system which Mr. Wallace has recently installed was kept so busy that he had to take charge himself. This certainly speaks well for the financial condition of Rupert. The sale is still on and makes one feel as if Prince Rupert were already a big city.

D. H. Morrison is a practical man and should receive a place on the council board. 2tf

the-City" party to rescind the sewer bylaw. Are we going to live with the primitive sanitary conditions of pioneer days for all time to come? Are we going to crowd an ever increasing population into a townsite with a thousand cesspools and no drainage? Are we going to depend on a copious and persistent rainfall to keep our city clean? Does that strike you as a pleasant prospect for an appealing policy for a city which we have grown to think has a great future?

Will we do without sewers and endanger our homes to satisfy a political hobby that does not pretend to give us better or cheaper lighting service, but merely a service owned by the city? One human life is more sacred than all the municipal ownership sentiment in the world. One broken home cannot be mended by all the preachings of a thousand politicians. Nature gave us in Prince Rupert a healthy climate and a beautiful townsite. Let us at least observe the sanitary laws of civilization and do our best to keep it beautiful and healthy. Sewers come first.

PUBLIC MEETING SATURDAY NIGHT

Mayor Pattullo and his supporters are holding another public meeting on Saturday night in the Westholme Theatre. Everyone is cordially invited to be present. Particular attention will be given to the discussion of the various by-laws which are to be submitted to the electorate on January 15th.

Strike Will Fail

(Special to The Daily News.)
Capetown, Jan. 9.—Indications are that the strike of the railway employees will be a failure. The government has the situation well in hand. Loyalty to the Cape Railway is likely to upset the calculations of the strike leaders.

To Erect Memorials

(Special to The Daily News.)
Ottawa, Jan. 9.—At a meeting of the Canadian Centenary Association it was decided that part of the celebration should be the erection of a Perkan and Champlain memorial at Ottawa. The resolution is passed and the final meeting will take place at Niagara Falls.

Rebels Concentrating

(Special to The Daily News.)
Ojinaga, Jan. 9.—Returning from a scouting trip Gen. Orozco, commander of the Federal volunteers only encountered the outposts of the rebels. He believes that the rebels are concentrating their personal command in Villa.

For School Trustee

Mr. P. W. Anderson, a retiring member of the school board has agreed to run again for the office. He announced his candidature today.

A signed contract with a company which has the money is better than two promises from politicians who have neither money, influence nor resource. 3tf

Speakers for Saturday Night

At the meeting on Saturday night in addition to the mayor and several of the aldermanic candidates there will be a number of other speakers, including O. H. Nelson, W. P. Lynch, M. P. McGaffery, J. H. Kelly, H. F. McRae and Fred Stork.

The meeting promises to be one of the rousing meetings of the campaign.

CANADA IMPORTING CAUSE OF HIGH PRICES

Evidence to Date on Investigation Into High Cost of Living

(Special to The Daily News.)
Ottawa, Jan. 9.—As far as the evidence taken to date, the high cost of living will be found in the lack of production. The increase in the urban population being so much greater than that of the rural, the agricultural production does not keep pace. In some lines where Canada used to be an exporter she is now an importer.

REV. KERR UNDECIDED ON WESTMINSTER CALL

Large Congregational Meeting Discussed Call Last Evening

A meeting of the Presbyterians was held last night in the church hall to consider the call tendered to Rev. Mr. Kerr from New Westminster.

The attendance was very large and the hall was crowded to the doors.

Mr. Kerr outlined the steps leading up to the call, telling how he had repeatedly refused to consider this call, which was pressed upon him at different times within the last few months. Finally, about December 10 he received another very pressing proposal, and this at a time when a few little matters had led him to think that perhaps a change would do the local situation good. About that time the attendance had not been as good as previously and the sympathy and co-operation of many not what he expected. On account of these conditions he had allowed his name to be considered.

The mayor and several prominent citizens were there and the addresses of those and of many others were to the effect that the services of Mr. Kerr were perfectly satisfactory and that should he leave it was very improbable that another man of his calibre could be obtained. Men who had lived in divergent centres had never sat under a more interesting and vigorous minister. Some had criticized him for his outspokenness and his disregard for custom, but that was the very element that thoughtful people required and not a minister who soothed their consciences and lulled them to sleep.

A resolution was unanimously passed strongly endorsing the people's confidence in Mr. Kerr and expressing the regret and loss they would feel should he decide to leave.

Mr. Kerr will take a couple of days to think, it over and will probably announce his decision on Sunday.

Comparative Statistics

The great growth of the business of the British Columbia Electric Railway Company Limited during the fifteen years of its operation is strikingly told in brief form by the following figures:

	1897-8	Present
General—		
Capital	\$2,700,000	\$30,000,000
Gross annual income	318,724	5,855,700
Population of districts served.....	50,000	220,000
Light and Power—		
Generating stations (output)	2,000h.p.	128,000h.p.
Lamps in service	28,068	707,000
Tramway System—		
Miles of single track.....	40	280.77
Passengers carried annually	3,654,300	60,563,300
Numbers of cars in service.....	50	700

In May, 1912, the number of lighting customers noted on the Company's books was 43,750 and the connected load for industrial purposes was 31,250 h.p.

GAS SUPPLY

Miles of Mains	36	139
Number of connections	2,258	14,750
Gross annual income	\$113,000	\$516,889

For the month of March, 1912, the payroll of the Company covered 5,086 employees, the total amount of the payroll for the period being \$391,255.77.

From the above it is seen that more than ½ h.p. is used per person, and this in a district where they have gas and cheap coal.

BIGGEST TAX PAYERS FAVOR HYDRO POWER AGREEMENT

WHAT AN ENQUIRING VOTER FOUND ON ENQUIRING OF MEN WHO HAVE BIGGEST INTERESTS IN THE CITY

A citizen and voter this week went to the trouble of looking up the ten biggest taxpayers in the city and discussing with them the hydro-electric agreement and its effect on the city. He says he found one of them non-committal and the other nine emphatically in favor of accepting the agreement with the Hydro-Electric Co.

"Their opinion carried more weight with me than all the politicians' talk," said this voter to The News this morning. "If these men who have the biggest stake in the city are not afraid of this agreement, I don't think the small property owner need be afraid."

TUNNEL IN 2860 FEET UNDER STEWART MINES

GENERAL MANAGER TUNNELS COMPANY INTERVIEWED LAST EVENING—DRIFT STRIKES VEIN MINERALIZED GALENA

W. J. Elmendorf, general manager of the Portland Canal Tunnels Limited, was down from Stewart yesterday in a launch. He is en route to Victoria to attend the annual meeting of the company.

Mr. Elmendorf when interviewed stated that the big tunnel was in 2860 feet when he left. They are still pushing it ahead and making drifts as well. A drift

on No. 1 vein under the property of the Glacier Creek Mining Co. makes a most promising showing, being freely mineralized with galena.

The object of this tunnel is for draining the contiguous properties and for general mining purposes. It is about 2000 feet below the works of the Portland Canal Mining Co. The tunnel will be used by all the properties in taking out their ore.

C. P. R. Expenditures

(Special to The Daily News.)
Montreal, Jan. 9.—Discussions involving expenditure in the west by the C. P. R. is being carried on. The Shaughnessy and Bury appropriations have been passed. It will mostly be used for completing the work now in hand including double tracking from Winnipeg to Vancouver. Rogers Pass tunnel is to be rushed.

Grain Growers Raised \$900

(Special to The Daily News.)
Brandon, Jan. 9.—The feature of the Grain Growers' meet was their enthusiasm. They support a fighting fund by every member giving \$2.50 on every car of grain sold. \$900 was collected in half an hour. All of the old board of directors were re-elected.

Let your slogan be "Cheap power by September, 1914."

DAILY EDITION

Friday, Jan. 9, 1914

It has often been said that a city is like a big joint stock company, and that the same care should be exercised in choosing its officials. No shrewd company ever changes its general manager every year. This would be folly from a business point of view. It takes at the least two years for a man to put his thoughts into effect and a yearly change means that city affairs will be the continual experiment of new men.

In this year's council Mayor Pattullo has done this city a lasting service in segregating the different city accounts and making it impossible for subsequent mayors to mix them up. In his reforms in the City Hall, however, his work has only just begun, and it will require at least another year to complete these plans. He has placed a capable man at the head of the clerical department and has given him a free hand. A responsible head in choosing his staff is sure to fail in pleasing everybody. His object is to secure efficiency, and his present staff appears to be all that could be desired. This endeavor to secure sim-

plicity and economy in the City Hall is being pressed forward, and with another year of Mayor Pattullo at the helm this ought to be accomplished. It would be sheer madness to turn the city's business over to a party who has bungled it in the past and who always puts favoritism before efficiency.

If the hydro agreement is accepted this city will be foot-loose to take care of all its other public utilities. Sewers, streets, water and telephone can be extended to all parts of the city and this public work will have an optimistic effect upon ourselves and upon those who visit us.

If Vancouver had sat still without extending streets and other public utilities at the time the hour had struck for her she would not occupy the place she does today. Visitors coming to a new city expect to find things going, and if this is not found it is put down as a dead town and people will not stay.

Let us not jeopardize our immediate future by any sentiment we may have for public ownership when this can be taken up when we are ready.

WANT TO CAPTURE FALLOW DEER TO STOCK GRAHAM IS.

PROVINCIAL GAME WARDENS BUSY WITH DOGS—EXPECT TO GET HERD OF THIRTY TO BE TRANSPORTED

With the interesting and exciting purpose of rounding up a herd of about thirty fallow deer, and transporting them from James Island, near Sidney, to Graham Island in the Queen Charlotte group, a party of game wardens with a big launch, a small pack of hounds and a number of canoes have left Vancouver. If their enterprise meets with the success they expect, it will result in Graham Island—the largest island in the province, next to Vancouver Island—becoming stocked with handsome fallow deer within a few years.

The fallow deer on James Island were imported there four or five years ago by Mr. Wheatfield, an American racing man who purchased the island for his private use. At that time the herd numbered but five. Since then they have multiplied until recent reports place the number at thirty.

Recently James Island was sold by Mr. Wheatfield to a powder company, which purports to erect a factory there. If the animals are left on the island it is certain they will be exterminated, so the provincial game authorities have decided to remove the fallow deer to Graham Island, where they will have ample opportunity to thrive and multiply under the most advantageous circumstances.

Graham Island, being situated in the course of the Japan current, enjoys an equable climate. It has an area of over 2,000 square miles, without wolves, cougar or other destructive beasts of prey. Wild cattle have thriven on the island and the herd of twenty-five coast deer placed there two years ago by the government is doing well. The fallow deer, which in England is usually regarded as a park deer, grows big running wild, the old Irish elk being a wild fallow deer. In size the fallow deer is about equal to a coast deer, but has a handsomer fawn coat, prettily marked with white spots. It is distinguished by enormous palmated horns, making it resemble a caribou. As venison it is better than the red deer.

The party expects to have a busy time in capturing the animals. James Island has an area of 800 acres, principally in wild

bush. The plan decided upon is to drive the animals into the water and then rope them and tow them ashore. Dogs—the use of which is ordinarily prohibited by the provincial game laws—will have to be used to drive the deer into the water. Under a special amendment to the Game Act, the department is allowed the discretion of using dogs under such special circumstances. The wardens will be stationed in canoes and will lasso the deer as they try to swim to the adjacent islands. The big launch of the game wardens' department will be requisitioned and will be in attendance. The wardens expect to be able to capture most of the animals, but if the worst happens and captures are not possible then they will, as a last resort, drive the animals to Sidney Island, two miles away. Two miles is an easy swim for a deer, which will often swim five miles to an island to escape an attack from wolves.

Fallow deer have been taken to New Zealand, have become acclimatized and are thriving. The reports of the wardens state that the second generation of fallow deer are James Island are much bigger animals than the deer of the first generation, showing the stimulating effect of the free life.

RESUME OPERATIONS

Glacier Creek Mining Co. Subscribe for Further Development

Since the recent annual general meeting of the Glacier Creek Mining Co., Ltd., transferring the head office to Victoria a quiet movement has been on foot among several of the directors to subscribe to a substantial development fund to resume work. Of the capital of the company fully a half remains in the treasury, and very little stock is on the market.

When the Portland Canal Tunnels, Ltd., encountered the Number One vein in the Melba ground, the workings were about 10 feet south of the south end line of the Lucky Boy claim, owned by the Glacier Creek Mining Co., Ltd., and the directors thereupon authorized the starting of a drift into their own ground. This work is now being actively prosecuted, and as the company's holdings contain splendid ore on the surface it is natural to expect that as the work progresses north ore will be encountered.

The officers of the Glacier Creek Mining Co., Ltd., are R. T. Elliott, president; Robert M. Stewart, vice president, and D. O. Rochfort, secretary. — Portland Canal Miner.

Prospectors' Cabins

A movement is on foot for the erection of twenty two-roomed cabins in New Hazelton for the benefit of prospectors and miners who are making their headquarters there. Plans are now under way and the work of construction will be started within a couple of weeks.

Mrs. Burke wishes to announce that she is prepared to do all kinds of fancy and plain dress-making at Mrs. Frizzell's store, Third Avenue. Prices reasonable. 307-313

Twenty-eight towns in Ontario buy power in bulk at the city limits with a less favorable agreement than the Prince Rupert Hydro-Electric Co. agreement and all these towns are in favor of municipal ownership.

PIRATES STOLE BOATS AND TRAIN OF CARS

Emptied Cars of Merchandise and Turned Boats Adrift—Desperate and Daring Robbery.

New York, Jan. 5. What was said to be the most daring and successful robbery ever effected by harbor pirates in this port was discovered yesterday morning when a long steel float bearing ten loaded freight cars was found abandoned and bumping into the piers of Staten Island, doing extensive damage. In a few minutes it was discovered that the harbor pirates had stolen a large tugboat in Hoboken, had crossed the river to Pier No. 23, at Franklin street, Manhattan, and there stolen the float of loaded cars from the New York Central freight terminal.

Out in the river the cars were broken open and, according to a New York Central officer, tens of thousands of dollars in merchandise stolen. When the looting had been completed the barge was cut adrift and the tug taken to Jersey City. After the goods had been taken off the tug the sea cocks were opened and she was set adrift.

The passing of the Agreement Bylaw means immediate work for many.

Some Men Are A Bit Touchy About Presents To Their Wives

Drawn for The Daily News by "Hop"

Local and Personal

A. Bailey, of Inverness, is in the city.

Silk dresses, worth \$30, going for \$12.50 at Wallace's Sale. 7tf

Mr. and Mrs. A. W. Agnew and Miss Agnew left for the south this morning.

C. J. Gillingham, road superintendent of Stewart, is in the city for a few days.

Bargains in fancy silks—Wallace's Sale.

Mrs. A. S. B. Lucas yesterday entertained at afternoon tea in honor of Mrs. and Miss Agnew.

Special values in ladies' shoes this week at Scott, Froud & Co's.

Though real estate continues quiet, one local firm reports six sales in the past six days.

Rails to Fort George

T. Collart, of the firm of Collart & Reynolds, has just received a letter from Mr. Reynolds to the effect that the temporary bridge across the Fraser at Fort George is completed, and at that date, Jan. 25th, the steel was ten miles east of the bridge. By this time the rails will be in the interior city.

Booster for Prince Rupert

Mr. F. A. Dietrick of the B. C. Equipment Company of Vancouver is here in connection with the delivery of machinery to the Granite Syndicate and pumps for the G. T. P. dry dock. He is greatly impressed with the importance of Prince Rupert, and particularly so because he has heard so much knocking in Vancouver. Mr. Dietrick will remain in town for a few days and expects to visit the granite quarry on Smith Island before he returns.

Notice

Committee rooms are being opened by the opponents of the Hydro-Electric Bylaw in a room adjacent to Rogers & Black's Steamship Agency on Second Avenue. Those opposing the bylaw are invited to attend this evening. 5-7

Make The Teapot Test

Put "SALADA" TEA in a warm teapot—pour on freshly boiled water—let stand for five minutes—and you will have the most delicious cup of tea you ever tasted.

"SALADA"

HAS THE FLAVOR! THE FRAGRANCE! THE DELICIOUSNESS that makes Ceylon Tea the beverage of delight. In sealed lead packages ONLY.

Mr. Ernest Gringras, of the public works department left today for Ottawa, where he will visit his home. Before returning he will visit Detroit, the Mardi Gras at New Orleans and San Francisco. He will be absent seven weeks.

Obituary

Mrs. Jane MacDonald, mother of B. R. MacDonald, formerly of the customs in this city, died at her home in Chilliwack on Sunday last. She was 80 years of age and was one of the pioneers of the province. She came to B. C. in 1859 and was the first woman on the Lillooet trail. Two sons and two daughters survive.

The price of furs is advancing, but ladies' muffs and stoles are going at half price at Wallace's Sale. 7tf

Frozen - Pipes

Don't follow the old expensive methods of thawing pipes. It costs more than the pipes are worth.

I have just received a new device for thawing pipes by electricity. You don't have to open up your pipes. Just turn the current on and in three minutes the frost is gone.

NOTICE

I, the undersigned, for and on behalf of the Granby Consolidated Mining, Smelting and Power Company, Limited, have deposited with the Registrar of the Prince Rupert Land Registration District, Prince Rupert, B.C.:

(a) A description of wharf which this company proposes to construct in front of Lot No. 479, Granby Bay, B.C., said lot and the adjoining under-water lot upon which the wharf will be constructed being the property of the said company.

(b) A general plan showing the position of the property relative to the proposed wharf.

(c) A general plan showing more particularly the relation of this wharf to the shore line, with cross-section of the proposed wharf showing type of construction.
