

NEWTON IS ELECTED MAYOR BY 87 MAJORITY

NEW COUNCIL IS SWORN IN—THREE BY-LAWS DEFEATED—ORIENTAL QUESTION AT OTTAWA

NEW CITY COUNCIL SWORN IN TODAY

Magistrate Cars then turned over the City Corporate Seal to Mayor S. M. Newton

At 11 o'clock this morning Mayor-elect S. M. Newton and the eight successful candidates for aldermen assembled in the police court room. Police Magistrate Cars was presiding as usual and seven men before the bar were charged with the serious offence of having beaten their opponents. They pleaded guilty and Magistrate Cars imposed the penalty prescribed by law—the oath of office. The new council is composed of:

- Mayor**
S. M. NEWTON.
- Aldermen**
T. MAITLAND.
GEO. W. KERR.
THOMAS McCLYMONT.
W. MONTGOMERY.
JOHN DYBHAVN.
D. W. MORRISSEY.
V. BASSO-BERT.
D. H. MORRISON.

Magistrate Cars then descended from the bench and placed the seal of the city in the hands of Mayor Newton. The seal being a cumbersome article he picked up with a heavy hemp rope. P. M. found it necessary to hold both hands and be careful that it did not fall upon his toes. He was rather distracted somewhat by the solemnity and grace with which similar scenes were enacted at Ottawa and Victoria yesterday. A spectator suggested that a pink ribbon and a silver-mounted crane should be installed to add to the decorum of this annual ceremony.

In concluding the ceremony P. M. remarked:
"The citizens have placed you in an honorable and responsible position and I trust you will exert your best influence in advancing the interests of the city. I trust the council will endeavor to give you a year of progress and glory."

Mayor Newton on behalf of the council expressed thanks for the kindly sentiments which were most appropriate at the outset of this year's work. The advice just given would no doubt be of material benefit in attaining the objects expressed by the magistrate. He thanked the P. M. for his interest in attending to administer the oath of office. The first meeting of the new council will be Monday evening.

A "Smoke" Boat

A prominent marine man says the explanation of a "smoke" boat given in a recent issue of the Daily News is not correct. A "smoke" boat as understood on the waterfront is a small power craft having a mast and funnel, but using gasoline or other smokeless fuel.

THREE NEW SENATORS FOR BRITISH COLUMBIA

Asking Dominion Parliament About Oriental Labor—Want Divorce Reform

(Special to The Daily News)
Ottawa, Jan. 16.—Judging from the number of questions of which notice has already been given, the opposition members regard the Oriental immigration question as very important, and it promises to be very much to the fore this session. Mr. Oliver wants to know if the order-in-council prohibiting the entry of skilled and unskilled labor into certain British Columbia ports was administered to prevent the entry of Chinese and Japanese laborers. J. J. Sinclair wants to know all about the employment of Orientals in the collieries of Vancouver Island, and he also asks if it is the intention of the government to take steps to prohibit Oriental labor in British Columbia or elsewhere in Canada, and if so what is proposed.

Mr. Oliver has a question in regard to the Kitsilano Indian reserve, and wants to know if it was acquired by the Dominion, and if so on what terms and what use is to be made of it. There is a growing number of divorces in Canada. Forty applications are before parliament and has forced the attention of parliament to the necessity of divorce reform. W. B. Northup has given notice of a resolution asking that the problem be taken up with the immediate consideration in view of changing the law. Mr. Borden gives notice of a resolution providing two additional senators each from Manitoba, Alberta and Saskatchewan, and three for British Columbia.

Mr. Oliver asks about the safety of the Stefansson expedition.

Why Some Merchants Succeed

It is very striking to notice that the merchants who have been most successful in Prince Rupert are the ones who have persistently advertised in the local papers. The strange thing is that others do not take their cue. Such men as George D. Tite and Martin O'Reilly are not the kind who would spend money in advertising that does not bring results. These are two of our leading merchants in their particular line. They are persistent advertisers in The Daily News, and their business is growing by leaps and bounds. Besides having the keen insight to appreciate the value of advertising, they are also so progressive that their stores are the headquarters for the best to be had in their lines.

S. M. NEWTON MAYOR FOR 1914

Today the remains of yesterday's battle are being cleared away and there is now left but the exultations of the winners and the regrets of the losers. The new city council have now the problems of the city and the welfare of the people before them and the hope is generally expressed that they will be worthy of the job.

The vote on the money bylaws presents a rather ludicrous condition of affairs. The electors passed a bylaw for city lighting extensions, or distributing plant, yet they defeated both bylaws which were to provide the necessary additional electric power. The distributing bylaw is passed but before the city can get any more power it will be necessary to pass another bylaw.

The telephone extension bylaw was passed, but the bylaw for the building to put the larger system in was defeated, which practically nullifies the bylaw which was passed.

Ald. Tom Maitland headed the poll by a good lead, as was expected, and his friends claim it puts him in direct line for the mayoralty. There is considerable speculation about the streets as to how much influence the Conservative machine will now have in civic affairs. It is well known that the Conservative boss muzzled the mayor in the last days of the campaign, but no one who knows the mayor expects he will stay put. He has a habit of breaking loose. The politicians

(From Last Night's Special)
S. M. Newton is mayor for 1914. His strength surprised his opponents and is only accounted for in the swing of the Conservative party in behind him at the last moment.

The contest waged keenly all day and the largest vote in the history of municipal politics in Prince Rupert was rolled up. The total was 977. Party politics played a big

part in today's contest. Several of the leading works of the Conservative party threw off the mask today and worked openly for a man they denounced as a menace to the welfare of the city. The party whip was used to bring many job holders and workmen into line with the party boss, in open violation of an agreement to keep party poli-

Celebration Meeting

Soon after the announcement of the polls on the mayoralty contest the candidates held a meeting in the Westholme Theatre and the citizens soon jammed the house full. J. E. Merryfield, campaign manager for Mr. Newton, was chairman. In opening the meeting he complimented Mr. Pattullo on the clean campaign he had conducted.

S. M. Newton, mayor-elect, was given an enthusiastic reception. He did not take the credit to himself. The victory was due to the splendid efforts of the chairman and the committees.

Mr. Pattullo accepted the expressed opinion of the electors with good grace. His own interests with those of others would remain in the city and he hoped the year 1914 would be a good one. He urged that we should go forward and build up the city. Messrs. Dybhavn, Naden and Montgomery also spoke.

Comments on the Result

Ald. V. Basso-Bert—I made a better run than I expected.

Ex-Ald. Naden—I am the luckiest man in Prince Rupert today.

Ald. T. McClymont—I want to express my sincere thanks to all

the citizens who gave me such a splendid vote.

Ald. D. H. Morrison—The vote showed plainly the work of the party whip.

Ald. T. Maitland—Everything will be all right if we refrain from knocking each other.

Fred Shaw—The result was all right. It is now up to those elected to show what they can do.

Ald. Geo. Kerr—I am convinced the hydro-electric bylaw materially affected Mr. Pattullo's vote.

Ald. Dybhavn, when asked how he accounted for the result, stated that it was the combined Labor and Conservative parties that defeated the mayor. Had Mr. Newton not been a candidate the Labor party would have had a candidate of their own as a protest against the late administration.

Mayor S. M. Newton—I am going to leave no stone unturned to go right into the financial situation and I will use every endeavor to secure all possible financial aid. If the money we secure amounts to any considerable sum we will promise the citizens a development commensurate with the means secured. Our first effort will be to give the citizens those public utilities most needed. I do not believe in closing down the city. I believe in development, and we will have development according to our success in obtaining money.

BANK ROBBERS MAKE ANOTHER BIG HAUL

Five Robbers Being Chased by Armed Posse in Granite Falls

(Special to The Daily News.)
Everett, Jan. 16.—Five armed men held up Granite Falls State Bank and escaped with \$1,500 or \$2,000 after engaging in a running pistol fight with a posse of citizens. The alarm was given by the postmaster hearing a cry. He seized a shotgun and ran to the defence of the bank, and shooting through the window he alarmed the burglars. The burglars ran into the street and started east. A posse started in pursuit, firing at the burglars, who returned the fire. No one was hurt and so far they have not been arrested.

ALL IS NOT QUIET ON THE RIVER POTOMAC

Icy Floods Drive Virginia People Into the Hills for Safety

(Special to The Daily News.)
Cumberland, Md., Jan. 16.—Huddled in rude shacks about a blazing camp fire hundreds of flood refugees waited in the West Virginia hills while the northern branch of the Potomac River is swollen with ice and the flood has swept away the homes in the towns that do the valley. Rumors that several men were caught in the flood are unconfirmed. The damage is estimated at \$200,000.

To Lead Caucus Reform

Baltimore, Md., Jan. 15.—Former Speaker Noble L. Mitchell of the Maryland General Assembly, has planned some sweeping reforms to introduce in the present session of the legislature. He wants Maryland to lead in the fight to reform the method of holding caucuses in the various states. Instead of waiting until the eve of the legislative meeting to select presiding officers for the ensuing session, he wants a caucus held at an earlier period, so that these officers may be chosen and such arrangement for the selection of committees be made as will enable the legislature to get down to work immediately upon its opening.

POMP AND SPLENDOR PARLIAMENT OPENING

House of Commons the Scene of Magnificence—Nothing of Naval Bill

(Special to The Daily News)
Ottawa, Jan. 16.—With all the heraldry, pomp and magnificent ceremony usually associated with the opening of parliament, the legislative body of Canada assembled today at the parliament buildings to transact the business of the nation. For nearly two hours previous to the opening men and women stood in the corridors and in the chilling cold outside in order to be in time to witness the interesting ceremony.

In the face of snow flurries, H. R. H. the Duke of Connaught, Governor-General, and his staff, escorted by the Princess Louise Dragoons with heads bowed to the wind, swept up Parliament Hill and stopped at the main entrance. The Governor-General's Foot Guards, which form the guard of honor, came to salute as H. R. H. stepped from his motor. The guns posted on Napoleon Point roared out a royal salute.

The Duke of Connaught read the speech from the throne, which made no reference to the naval bill.

It is expected the speech from the throne will be taken up Monday at 3 o'clock.

FERGUSON JUMPED HOTEL BILL IN JULY

Appeared in Police Court This Morning Charged With a Criminal Offence

A case under the new criminal code was aired in police court this morning. The charge was for fraudulently obtaining meals and board at an hotel. Under the revision which came into force last September, a man who misrepresents himself to get credit for meals or board is liable to a fine of \$100 or three months in jail. Last July a man named Ferguson beat the Savoy Hotel out of a lodging bill. He left town but recently returned, and when discovered the charge was laid. Ferguson admitted the debt, but as it was incurred before the new act came into force the charge would not hold.

The police, however, have another charge of a similar character pending which is dated since the revision of the code.

Ferguson asked to be let out and promised to pay all bills within 24 hours. He is to report at 10 o'clock tomorrow.

The attention of the editor has just been called for the first time to a statement which appeared in a private letter in Wednesday's paper which might be construed as applying to the city engineer. The letter when received was set aside and its publication was due to an oversight in the rush of the present campaign. This paper holds no ill will toward the said official, nor does it know anything derogatory to his professional standing, and herewith apologizes for the appearance of the letter above referred to.

DRAWN BY MR. MANTANIA, THE WORLD-FAMOUS ARTIST OF THE SPHERE

Mr. Matania's work has always been noted for its wonderful accuracy and wealth of detail, executed with a speed which is well-nigh incredible. This scene was taken from a beautiful episode in "Narkiss," a fantastic Egyptian ballet playing at one of the prominent London theatres.

"The King is dead; long live the King!" In this language Britain has celebrated for ages the succession of its kings. Yesterday Prince Rupert experienced a change of heads and today a few people can be found who say, "Long live Sam Newton!"

As far back as the mythical "social contract" humanity has been ruled by a majority. This may either be a majority in numbers or in strength. Sometimes it is a hoodwinked majority, but even as such it holds good.

This paper has opposed S. M. Newton for mayor for reasons that are patent to everyone. A majority of the citizens, however, have decided in his favor, and The News meekly bows to this modern "divine right of kings."

An election is a good deal like a horse race and no man should get in the game who is not a true sport and ready to take his medicine like a man. If the reports one hears on the street are true, however, there will be a sting left in the minds of a good many people that will have far-reaching effects. While it is true that a good sport takes a square beating with a smile, it is a different matter entirely when the knockout blow comes beneath the belt.

Reports have been circulating for several days that the Conservative Association was supporting Newton as the price of peace among the warring members of the party. It was hard for Liberals to believe such stories in view of the loyalty of several members of that party. In any case indeed Liberals are noted throughout Canada for casting an independent vote, while Conservatives always vote as

a body. Anyone following the counting of ballots for aldermen could have hardly failed to see the party tinge of the majority of the votes cast.

The strangest thing about the whole affair, however, is that the Conservatives hate Sam Newton as much as they are supposed to hate sin. Time after time have they flown into each other's teeth. It is even hinted around town that a bond has been demanded at this time as an evidence that he would keep the peace.

The recent visit of H. S. Cleents is also known to have had a direct bearing on the issue. Other elections no doubt are in the air, and with Pattullo as mayor a dangerous rival was in evidence.

From this point of view the election is a tremendous disappointment. When both parties united a year ago on Mr. Pattullo it was hoped that party politics had disappeared forever from the municipal stage. This was particularly hoped for on account of the fact that not even a suggestion was ever made that Mr. Pattullo was not true to his trust. Now that Conservatives have swung around again to this party game in local issues it may be rather difficult to convince Liberals and all fair-minded citizens in future that they intend to play straight.

Mr. Pattullo came out of the fight like a hero. From start to finish he has played the game straight. Throughout campaign he has demonstrated his firm grasp of civic business, and in his presentation he has displayed a mastery of eloquence that would do credit to any public man. Indeed there is no reason why such a

man should not some day be premier of the province.

The hydro-electric bylaw met the fate which many predicted for it. This is another proof of the fact that it is useless to oppose sentiment with reason. The question on which the public voted was whether or not public ownership was a good thing, whereas the question at issue was that in view of the difficulty of financing the many utilities we require, whether it would not be wise to make a temporary arrangement for power.

This paper has reiterated its belief in the principle of public ownership. It is part of a big democratic movement

that no Liberal would oppose. Notwithstanding this however common sense must not be set aside, and with the great demands that will be made upon our resources in the next year or two the hydro-electric agreement appeared to be a reasonable solution of our difficulty. Now, however, that the electorate have turned down that agreement, it is up to the opposition to make good their case. This city must not be held back for a lack of cheap power. If it is the odium thereof must lie at the door of William Manson and his supporters. Let him now show his statesmanship or forever after hold his peace.

Labor News and Notes

The steel trade expects renewed activity in early spring.

The unions of Toledo, Ohio, are agitating a labor temple project.

The first woman chauffeur of Paris has decided to change her work. She is studying to become a plumber.

The wages of seafaring men who ship on the shores of the marine provinces of Canada are now clearly double what they were ten years ago.

Two chains of restaurants in Chicago have been unionized. The agreement provides for a ten hour workday and one day of rest in seven for all employees.

The town of Independence, Mo., has twenty grocery stores, which formerly maintained 37 wagons for delivering goods to customers. A co-operative plan was adopted, and now nine wagons do the work that formerly required nearly forty.

Twenty states have enacted eight-hour laws for public employees and for those engaged in public works. It is estimated that fully half a million public servants of these states enjoy the benefits of the shorter day.

The government of Norway has established a new bureau, the purposes of which will be to elaborate and to carry into effect social reforms for bettering the conditions of wage earners in industrial employment, improving the working conditions of farm laborers, fishermen, seamen, etc., developing co-operative unions and regulating the employment of women and children.

At a meeting of the Washington Housekeepers' Alliance, plans will be formulated for getting new containers for eggs and milk and other products into the hands of nearby farmers, who will be urged to ship direct to consumers by parcels post in order to reduce the high cost of living.

France and a large part of Eu

rope are experiencing very severe labor troubles, due to the recent blizzards and floods. Many factories were so badly damaged that it will take at least a month to repair the machinery.

President Menocal of Cuba intends soon to obtain the services of a railroad expert to assist Cuba's railroad commission in preparing a general readjustment of freight rates along the lines recently followed by the United States.

Kills Girl; Attempts Suicide

Madison, Wis., Jan. 15.—John Spooner, a nephew of former U. S. Senator John C. Spooner, yesterday shot and killed Miss Emily McDonell, 35, a school teacher in Madison 14 years, and then turned the gun on himself, inflicting what is believed to be a fatal wound in the head above the right ear. Spooner is a son of Roger Spooner, a brother of J. C. Spooner. No reason is known for the tragedy.

BELLA COOLA WANTS ROAD WORK BUILT BY CONTRACT SYSTEM

COURIER CLAIMS WM. MANSON KNOWS NOTHING OF REAL CONDITIONS IN THAT VALLEY

The Bella Coola Courier replies to the editorial comment made in Prince Rupert about the roads and the building of them in that valley. The Courier talks candidly. Undoubtedly there is cause for dissatisfaction. The trouble with the provincial road system in this district is that the government uses road building to make a political machine instead of buying a machine to make roads.

The Courier says: The Prince Rupert News commenting on the Wm. Manson organ's defence of the road work at Bella Coola has this to say: "Of course if the editor of the Conservative organ in Prince Rupert is satisfied with the expenditure of the road monies in Bella Coola district the settlers in that valley should refrain from kicking about it."

The fact is that neither Wm. Manson, M. P., his supporters nor his newspaper in Prince Rupert, know anything about the roads, the conditions, or the people at Bella Coola.

Mr. Manson himself does not even know the Bella Coola Valley; how much less those responsible for the paper which defends his rotten methods of road building.

The sore point with Mr. Manson is that the people of Bella Coola are not backward in expressing their views on public matters, and were it only possible, it would probably suit his purpose to deport all the old settlers and populate the valley with a less intelligent people who would do and say only at his bidding.

It becomes tiresome to be constantly told by Mr. Manson or

GRANADA ISLAND IS NOW INCLUDED

Has Been Admitted to Canada-West Indies Trade Agreement

Ottawa, Jan. 14.—A special edition of the Canada Gazette has been issued admitting the Island of Granada, in the West Indies, to the Canada-West Indies trade agreement. A similar proclamation appeared simultaneously in Grenada.

While the agreement was concluded on April 9, 1912, several of the colonies with whom Canada had been negotiating hesitated to come in. Canada stated that Jamaica, the Bahamas, Bermuda, British Honduras and Grenada would be granted the privileges of the agreement for three years without return. Newfoundland was added to these as an expression of good will. After a year's experience of the benefits of the arrangement, Grenada thus has decided to adhere to it, and Canadian goods now will get preference in her market.

TORONTO'S UNEMPLOYED IS INCREASING DAILY

Toronto, Jan. 15.—A leading labor man, in touch daily with industrial conditions, says this morning that the number of men and women out of work in Toronto will reach 25,000. During this week he estimates that 2500 men and women employed in the big stores have been laid off for at least a month, and this evening at least 800 more will be given a month's holiday. A big addition to the unemployed this winter is the railroad employees, the movement of freight being never so small and freight handlers and teamsters have nothing to do.

Commissioner Rees Recovering

Commissioner David M. Rees, head of the Salvation Army in Canada, has made a most marvelous recovery from the serious illness which befell him about ten weeks ago. Since then his many personal friends, the members, as well as the admirers of the organization he represents, have watched his progress with eager and anxious concern. Many churches throughout the Dominion united with the Salvation Army in offering special prayer for his recovery. They will now be glad to learn that the commissioner is able to leave his room, and acting upon the advice of his physicians, will take further treatment at a sanatorium. Messages of sympathy have reached Commissioner Rees and his family from all parts of Canada, including all classes of people. For these, they desire herewith to convey their sincere appreciation and gratitude.

Lucky Is Doncaster

Doncaster is the only town in the Kingdom of Great Britain which runs races as a municipal enterprise and makes profit out of them, and it is the only town in the kingdom which is in the fortunate position of being able to dispense with a borough rate.

The races are managed by the corporation, just as they manage their trams, or gas, or electricity. They have a race committee, with an alderman as chairman. They pay all expenses, take all receipts, and appropriate the balance. What this means to the town may be understood when it is said that the races produce a profit of nearly £16,000 per annum. With this yearly surplus the corporation have no need to levy a borough rate; and if it were not for the district rate, including county and poor rate expenditure, Doncaster would be in the happy position of being rateless.

- FACT HUNGER -

As children, our first demand is for nourishment; our second for facts.

All through life we go about searching for information.

We make a new acquaintance; but before we will accept him as a friend or invite him to our home we ask for facts about him.

We visit a foreign land; and from the moment we step across its border we are asking questions—searching for facts.

We are asked to try a new food product; isn't it instinctive with us to ask at once:

"Who makes this new article?"

"How is it made? what goes into it?"

"Is it worth the price charged for it?"

Facts—we are simply hungry for them.

Strange, isn't it, that we should so often have to search for them? Odd, that some manufacturers still withhold the facts about their product. Not always because they are facts to be ashamed of—for there are many worthy articles yet unadvertised.

But it will not be so much longer. The fact-hunger of the human race is becoming keener and keener. The more facts we get, the keener our relish for more of them.

Soon it will be impossible to sell a man or a woman anything until everything has been told about the goods that can be told through Advertising.

The public has discovered that Advertising tells much-needed facts—that, in fact, Advertising satisfies fact-hunger.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

Henry Birks & Sons, Ltd. Thank their many out-of-town Customers for their splendid patronage during the past year

Looking backward from the threshold of 1914 we cannot but congratulate ourselves on the splendid increase of our out-of-town business during 1913. Therefore, on account of the staunch support and this display of confidence in our service, we must thank our many out-of-town friends for their patronage during the past year. We do not claim that our service is perfect beyond mistakes, for where so many hands are employed small errors in despatching orders are bound to occur. These, however, when brought to our notice, are rectified with the utmost haste and care, while we are particular that our customer shall suffer no loss.

We trust that each of our customers will interpret this message as directed to them personally.

To all we send sincere wishes for a happy New Year.

In The Realm of Fashion

(By Maude Hall)

New York, Jan. 15.—Dame Fashion is busying herself at present with new colors, for some of the latest materials are so exquisite that it is necessary to glorify them with high-sounding names to give them the aristocratic tone which their creators intend they should boast.

The yellows are going to be very popular again, and the more vivid tones are to replace the delicate effects. Dor is one of the newest tones. Argent is not new, but among the metal gauzes it appears in combination with a delicate blue tint and is called silver twilight. Several of the novelties have atmospheric names; then fashion runs to the other extreme and borrows terms from the metal and animal kingdom for the cloths, closely-woven silks, etc.

While she is awaiting the declaration of spring styles, the woman who cannot afford to indulge in passion fashions would do well to pay attention to the details:

Following are some fashionable ideas worth remembering: The butterfly is still dominant. Scotch plaids are fashionable for children.

Hats for little girls are of bonnet shape.

Leopard is the favorite fur for the motor wrap.

There is a revival of ostrich feather trimming.

Flowers for the hair and corsage are made of ribbon.

New handbags are made of silk embroidered with beads.

The high school girl is wearing the tam o' shanter hat.

The chrysanthemum is the favored flower for corsage wear.

Modified Norfolk suits are being worn by the older school girls.

Ribbons brocaded with velvet thistles are among the novelties.

All the winter wraps show the upward movement in the draping.

Metal woven tissues continue to attract attention for evening wear.

Underwear is daintier than ever. Never was there so much silk worn.

A few new sweaters of shetton or angora have collars and cuffs of fur.

New colors are russet brown, bronze grey, foster green and mahogany.

Over houses of chiffon vests of ecru lace bordered with narrow bands of fur, are worn.

Children's coats are fur trimmed, with collars made to turn up and keep small ears warm.

The most elegantly dressed women prefer sealskin, baby lamb, or moleskin for coats.

A movement is on foot to remove the headquarters of the International Union from Indianapolis because of the alleged hostile attitude of Indianapolis business men toward organized labor.

PRINTING

Summer is over and the Fall trade has begun. To get your share you must have some sort of printed matter—a circular, folder, booklet or catalogue. Be sure to have that work done properly. You would not send out a shabby salesman to represent you; then don't make the mistake of sending out a poorly printed circular or booklet. We are QUALITY PRINTERS and can produce a piece of printed matter that you would be proud of and which will get results. Try us. Phone 98.

ENGLISH HAND-MADE LACE

MADE BY THE COTTAGERS OF BUCKINGHAMSHIRE.

This is the old-fashioned lace made on the cushion, and was first introduced into England by the Flemish Refugees. It is still made by the village women in their quaint old way.

Our Laces were awarded the Gold Medal at the Festival of Empire and Imperial Exhibition, Crystal Palace, LONDON, ENGLAND, for general excellence of workmanship.

BUY some of this hand-made Pillow Lace, it lasts MANY times longer than machine made variety, and imparts an air of distinction to the possessor, at the same time supporting the village-lace-makers, bringing them little comforts otherwise unobtainable on an agricultural man's wage. Write for descriptive little treatise, entitled "The Pride of North Bucks," containing 200 striking examples of the lace-makers' art, and is sent post free to any part of the world. Lace for every purpose can be obtained, and within reach of the most modest purse.

Collars, Fronts, Plaistons, Jabots, Yokes, Fichus, Berthes, Handkerchiefs, Stocks, Camisoles, Chemise Sets, Tea Cloths, Table Centres, D'Oylies, Mats, Medallions, Quaker and Peter Pan Sets, etc., from 25c. 60c., \$1.00, \$1.50, \$2.00, up to \$5.00 each. Over 300 designs in yard lace and insertion from 10c., 15c., 25c., 45c., up to \$3.00 per yard.

IRISH CROCHET. Mrs. Armstrong having over 100 Irish peasant girls connected with her industry, some beautiful examples of Irish hand made lace may be obtained. All work being sold direct from the lace-makers, both the workers and customers derive great advantage.

HON PELLETIER WILL MEET RAILWAY HEADS

Postmaster-General Planning a Parcels Post System—Agreement May Be Made in May

Ottawa, Jan. 15.—Conferences between Mr. Pelletier and the representatives of the railways in regard to the payment to be made by the post office department in connection with the parcels post system and for the carriage of the general mail will be resumed at once, the postmaster-general having returned to the capital.

According to a statement made by Sir William Mackenzie there is a possibility of some time elapsing before a final agreement is arrived at between the railways and the department.

"We are carrying the mail for nothing," said Sir William, when questioned on the subject. "We are making nothing out of it."

"Has an agreement been arrived at yet between the railways and the government concerning the inauguration of the parcels post service?" he was asked.

"No agreement has been reached and we don't expect any until May or June," he answered.

"Can the service be inaugurated without such an agreement?"

"I am not volunteering any opinion on that," he replied, "but the railways are an important factor in the question of course."

Asked as to the new service between Toronto and Ottawa, Sir William stated that he expected a first-class passenger service would be inaugurated about the beginning of June.

Sir William had heard nothing as to what reductions the railway board intended to order in western freight rates and did not consider that any surmise could be made at present.

"The west is about as well teared as any country I know," he remarked.

Sir William declined to discuss any other of the phases of railway gossip, and stated there was nothing of great importance in his visit to the capital.

Provincial House Open

Victoria, Jan. 15.—Lieutenant-Governor Paterson opened the thirteenth session of the provincial legislature today amid a scene of exceptional brilliancy.

After the reading of the speech of his honor an adjournment was made till 3 o'clock tomorrow. The reply to the speech of his honor will be moved by W. J. Manson of Dewdney, seconded by W. W. Foster, representing the Island constituency. Mr. Foster is the newly-elected member for the ridings, and so the newest member in the house.

LONDON IS EXCITED OVER STRANGE MURDER

Body of Nine-Year-Old Boy Is Found in Coach on Sub-urban Train

London, Jan. 15.—This city is greatly excited today over a murder, mystery which appears likely to baffle the skill of the best detectives. Yesterday afternoon the body of a boy about 9 years old, who had been strangled to death, was found at Shore-ditch, under the seat in a suburban train on the North London railway. Two boys made the discovery. The absence of the dead boy's collar and the presence of twine suggests that the crime was deliberately planned and perpetrated.

It is even suggested that the body may have been carried to and fro over the six miles of track many times before being discovered. The officials of the company state that the carriage in which the body was found was examined at 3:45, and the body was not found until 4:30.

The police theory is that the murder was committed off the railway; that the murderer carried the body to the railway, boarded the train, hid his victim under the seat, and left the train at the next stopping point. The victim is so far unidentified.

The newspapers recall a parallel case in 1899, when a similar find was made at the next station, Dalston, under similar circumstances. In that case the crime was afterwards traced to a French governess, who was afterwards hanged for the crime.
