

PRINCESS SOPHIA RAN AGROUND NEAR NARROWS

PUBLICITY COMMITTEE ASK CITY COUNCIL FOR \$10,000.00 GRANT—ALASKA R.R. BILL PASSED

FINANCE COMMITTEE WILLING GRANT \$10,000 FOR PUBLICITY

CITY COMMITTEE FROM BOARD OF TRADE ASK FOR FUNDS FROM CITY—JOINT COMMITTEE WILL SUPERVISE EXPENDITURE

Chairman D. H. Morrissey and the finance committee met the publicity committee of the board of trade this morning and discussed the problem of financing a publicity campaign. The resolution of the board of trade for a grant was met with favor. Saturday Vice-president D. Stewart appointed a publicity committee for the board of trade, composed of W. M. Law, J. H. Johnson and M. J. Hobin. The committee met this morning and the publicity committee of the board of trade explained that the board is under heavy obligations to the public to maintain an exhibition room and postal charges on voluminous correspondence. Applicants contended that the bulk of city property is owned by non-residents, who are interested in speculative pur-

poses to take advantage of the thrift and industry of those residing in the city. The only equitable way of reaching these people to compel them to bear a portion of the publicity expense is to make a general tax. The committee intimated that Mr. McNicholl, the G. T. P. industrial commissioner, would be happy to co-operate with the publicity department in providing free sites for industries to locate here. The transportation companies will also be asked to contribute towards the campaign fund. Ald. Morrissey was favorable to the request and suggested that a special tax be levied every year to make the publicity department permanent. Ald. T. Maitland, Ald. Montgomery and Ald. McClymont also looked upon the request favorably. The question will probably be brought up at the council meeting this evening.

AT SMITHERS DECLARED A DRAW

Went Twelve Rounds to Good Crowd of Sports

Interest in the boxing match between Frank Smithers and Brown of Toronto, late of Montana, attracted considerable attention at the Theatre, Smithers, on Saturday evening. The fight was timed to commence at 10:30, but owing to unforeseen circumstances some little later than this the contestants entered the ring. The fight of the evening created excitement from start to finish. Smithers was the aggressor, carried the fight to Brown throughout. It was early seen each was out for the other's skin, but nothing of a really exciting nature occurred until the eighth round was reached. In the ninth round both were still as good as when they commenced, half way through Brown and Smithers a smashing up-blow which caused the latter to fall profusely. Smithers was, however, to ward Brown off the conclusion of the fight. In the next round Smithers led as he had done from the commencement, on this occasion slipped to the boards owing to his opponent taking the advantage in weight. In the tenth round Brown edged and caught Smithers very close on his head, cutting the fighter's eye and his own head, and the blood to flow freely from both.

From the tenth to the twelfth round each was eagerly looking for this opportunity to get in a knockout blow but in this neither was successful, and the bout was declared a draw, which result was well received by the participants of both men. The betting was very brisk at the money, and the boxing fans at Smithers are eager for a rematch at an early date. It is arranged it will in all probability be fought in Prince Rupert.

PLEADED THAT HUSBAND KILL HER AND HE DID IT

Tottering Old Man Killed Invald Wife After She Fell Down the Stairs

Philadelphia, Jan. 25.—Tottering under the weight of his 80 years, William Eberwin stood in the criminal court today and told a dramatic story of how his wife, fifteen years younger, had pleaded with him to kill her, and how he committed the deed. After the old man had completed the story, Judge Walling surveyed the bent form of the prisoner, fixed the crime at murder in the second degree and imposed the minimum penalty, which, in this case, was practically a life sentence. It was solitary confinement in the penitentiary for not less than seven years nor more than fourteen.

Holding to the prisoner's dock with trembling hands, Eberwin, who is a veteran of the civil war, told the court that his wife was an invalid and that one day last October he came into their home and found her lying at the bottom of a stairway down which she had fallen. He offered to have her sent to a hospital, but she wouldn't go.

"End it all for me; it's no sin when I'm suffering so," Eberwin alleged she said. "I had a board in my hand that I brought in out of the yard. I looked at her and guessed it wouldn't be a sin. 'Go on, William,' she said; 'go on.'"

"Then I tapped her on the head with the board and I tapped her again. She didn't moan much, and once when I stopped she kinder whispered, 'go on, it won't be long.' So I kept on tapping and she got quiet."

Wm. George, charged with perjury in his evidence in the late slander case, has been sent up for trial. He has elected for speedy trial and will probably appear before Judge Young tomorrow.

Wm. George, charged with rolling a man for \$100, has also elected speedy trial. The trial will commence at 11 Tuesday morning. For house furnishing requirements see and procure the Geo. D. Tite lines for good sale values.

ALASKA R. R. BILL PASSES U. S. SENATE

President to Build or Buy 1,000 Miles of Railway in Alaska

(Special to The Daily News.)
Washington, D. C., Jan. 25.—By a vote of 46 to 16 the senate has passed the Alaska Railway Bill, directing the president to purchase or construct 1,000 miles of railroad in Alaska. The cost is not to exceed \$40,000,000, or \$40,000 a mile.

ACCUSED OF LOBBYING HE HITS SLANDERER

Politician Then Ran for His Gun to Finish the Job Properly

(Special to The Daily News.)
Washington, Jan. 24.—A fist fight between Representative Johnson of Kentucky and John R. Shields, a Washington attorney, broke up a meeting of the house committee on District of Columbia. After the two men had clashed and several blows were struck, Representative Johnson broke away, shouting, "Get my pistol; I'll kill him." Mr. Shields was knocked down before the clerks and spectators could quiet the combatants. The clerks tried to hold the Kentuckian, but he broke away and dashed off for his private room, shouting for his revolver. A dozen persons were present when Johnson ran away, but the office was soon emptied. When Johnson returned, only the clerks remained. The Kentuckian berated them for their interference and the incident closed.

The clash followed a hearing on a bill to increase the salaries of policemen, whom Shields represented. Representative Johnson declared he heard that Mr. Shields had collected a large lobbyist's fee, and that to vote the proposed increase might be voting somebody a \$4,000 or \$5,000 lobby fee. Shields demanded an opportunity to reply the false statements, and at that Johnson struck the lawyer.

Madrid Wants Peace

(Special to The Daily News.)
El Paso, Tex., Jan. 26.—Appeals for peace in Mexico came from Spain in such numbers as to convince the rebel leaders in Juarez that an organized effort is being made in Madrid to induce General Villa to end hostilities as speedily as possible.

Revolution in Haiti.

(Special to The Daily News.)
Washington, D. C., Jan. 26.—A Haitian revolution, headed by Daular Theodore, the exiled senator who was recently driven into Santo Domingo, has reached such proportions as to command the serious attention of the state department.

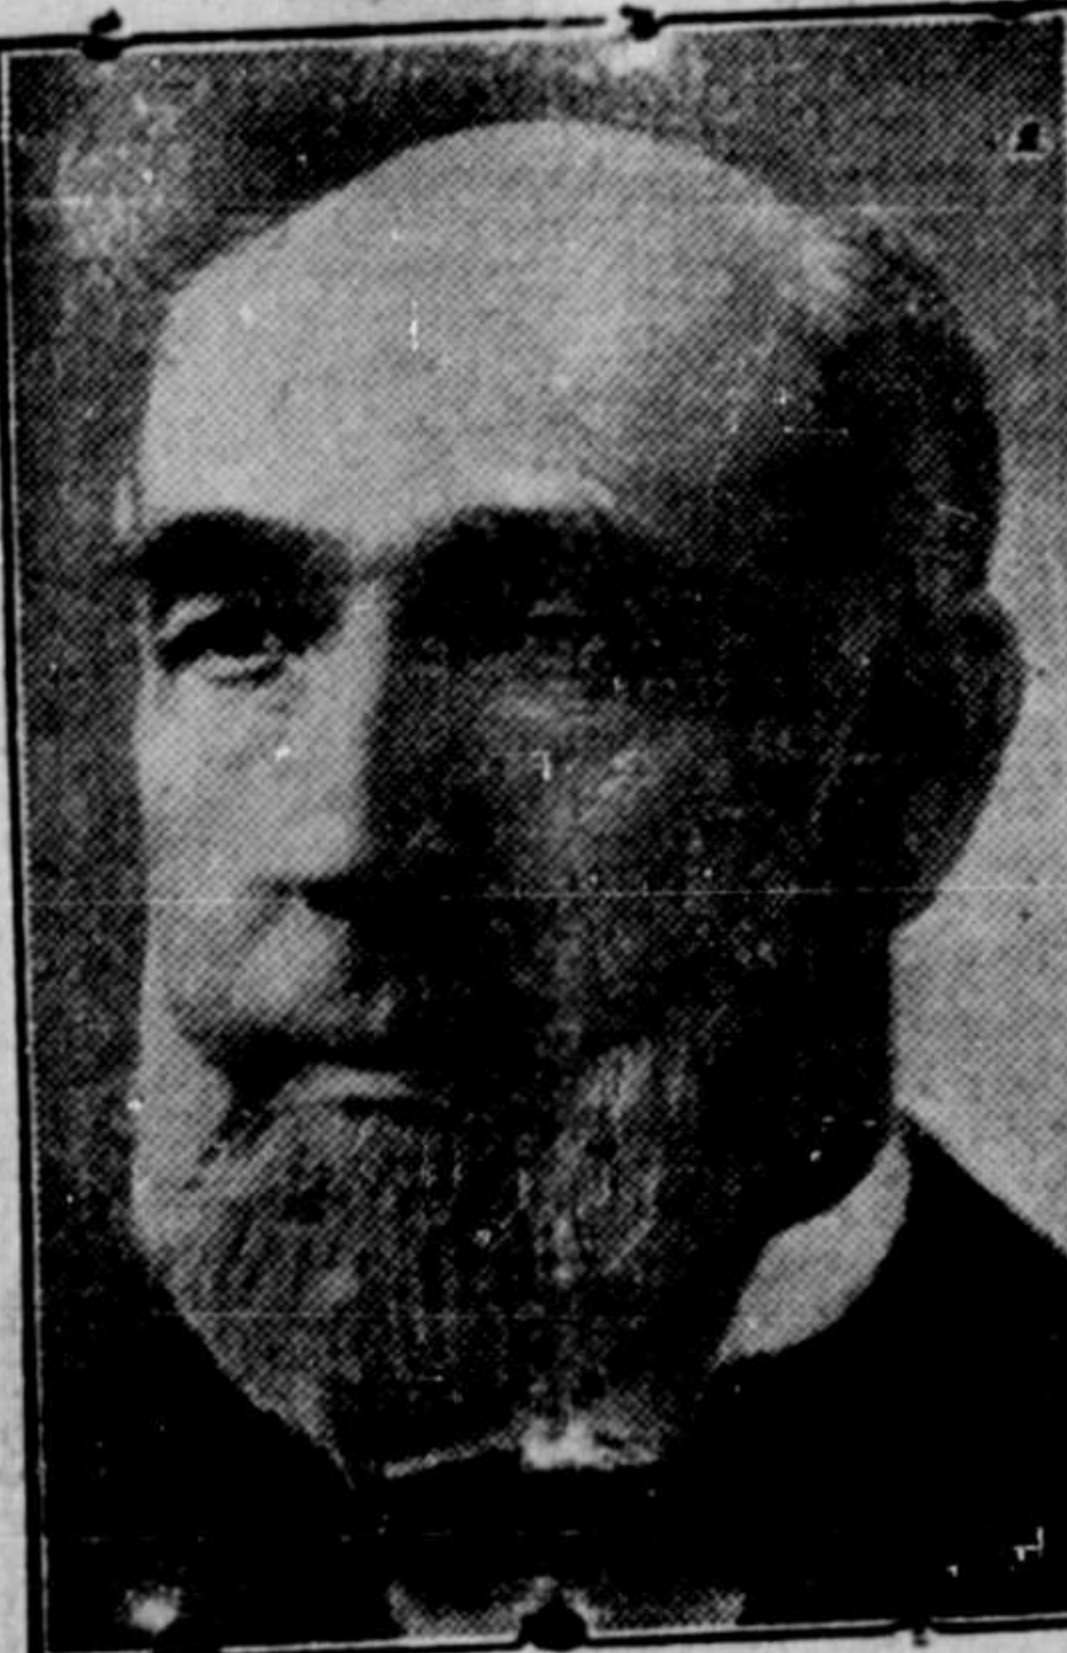

Skating Parties

Yesterday was a great day for skating. There were scores of parties over on the salt lakes and up at Shawatlans Lake. At Shawatlans over a dozen launches took up big parties and it is estimated that fully 200 people were on the ice. The ice was smooth and sound but a light fall of snow covered the surface. Bonfires kept the picnickers warm and many of them stayed out all day. Morse Creek pond also had many skaters all day.

The Leila R., the new launch of the forestry branch here, is on an inspection trip to Portland Canal and Alice Arm. Mr. McGorkindale is in charge.

The highest bridge in the world 360 feet from the surface of the water, is over a gorge at Constantine, in Algiers.

British Columbia is to have three new senators, and all the politicians of the province are speculating on the allotment of the honors. Naturally Northern British Columbia should get one of them. But who is there in the Conservative party in the north who could claim one. Apart from Hon. Dr. Young, who would not likely relinquish a cabinet position for a senatorial seat, there is no one eligible by virtue of their service to the Conservative party. The one exception is Joe Merryfield, but Joe is not likely to give up the machine now that he has just got it newly rebuilt and running smoothly.

HON. GEORGE ALBERTAS COX
Of Toronto, member of the Senate of Canada, former president of the Canadian Bank of Commerce and the Canada Life Assurance Company, and director in a dozen other big concerns; was a strong Liberal, a Methodist and multi-millionaire, and generous philanthropist. He died on January 4, aged 74 years.

NO ONE IS PUNISHED FOR ASSAULT ON MOYER

Prosecutor Said There Was No No Law to Cover the Case

(Special to The Daily News.)
Houghton, Mich., Jan. 24.—Members of the crowd which assaulted Charles H. Moyer, president of the Western Federation of Miners, in Hancock on the night of December 26th when deporting him, were identified to the satisfaction of the special grand jury, but no true bill was returned. The special prosecutor decided that there was no law under which the men who are alleged to have forced Moyer on the train could be punished, even if they could be identified, and he so informed the jury.

Section Seven Booming

There are seven houses at present under construction in section seven. A building permit for John Lindseth was issued today to build a house costing \$750. C. K. Ytreberg is the contractor.

Concert at Seal Cove church at 8 o'clock tomorrow night. Admission 25 cents.

Burns Banquet tonight, Central Hotel.

BURNS BANQUET

Under auspices St. Andrew's Society will be held in CENTRAL HOTEL Monday Evening, January 26th Tickets, \$4.00, can be had at Williams & McMeekin's and George P. McColl's.

TWO BIG FIGHTS GO ONE ROUND EACH

Sam Langford and Bomb. Wells Winners on Saturday

(Special to The Daily News.)
Paris, Jan. 24.—Sam Langford knocked out Patrick Curran, the English heavyweight, in the first round of a scheduled twenty-round bout here today.

Cardiff, Jan. 24.—Bombardier Wells knocked out Pigot, the French heavyweight, in the first round.

ESCAPING CONVICTS USED GIRL FOR SHIELD

Telephone Operator Protected Them From Guards' Bullets

McAllister, Okla., Jan. 24.—Miss Mary Foster, the telephone girl in the Oklahoma penitentiary, who was used as a shield by the three convicts who mutinied yesterday, gave an account of the affair today. After describing the killing of former Judge Thomas and three prison employees, Miss Foster said: "The convicts then broke the telephone and grabbed me just after I was shot and carried me with them until they seized Parole Clerk Rice. Pushing us in front of them, they told the guards in the tower to drop their guns and come down. Rice begged them to come down or the convicts would kill me. Then they put me in the buggy and one of the convicts held me down on his knees as we hurried along. "The convicts must have been out of cartridges, for they fired but one shot back. The convict who was wounded told me to get out of the buggy, and I got out while the horse was running. I begged them time and again to let me get out of the buggy, but they still held me."

Tonight's Banquet

- Whit the Buddies Will See an' Dae.
- Toast List
- The King, the chalm.
- The Immortal Memory. Rev. F. W. Kerr.
- Song, Jas. Black, "Star o' Robbie Burns."

Took Albert South

The Prince Albert sailed at 6 o'clock last evening with the following passengers: W. Connors, Mr. and Mrs. Oliphant, F. Rynjoffson, A. T. Ellison, C. McMillan, Mr. Walker, Mr. Atkins, T. W. Scott and W. Ford.

Pantorium Pioneer Cleaners. Phone 4.

PRINCESS SOPHIA HIT A ROCK PASSENGERS WERE TAKEN OFF

ALAMEDA STOOD BY ALL NIGHT—SOPHIA GOT OFF AT TWO O'CLOCK BUT IS LEAKING BADLY

The Princess Sophia, the splendid passenger steamer of the C. P. R. on the Skagway route, ran on the rocks yesterday afternoon on her southbound trip. She hit at a point in Johnston Strait between Port Neville and Blinksop Bay.

There was considerable excitement at the time because the steamer struck hard and was taking water rapidly. Fortunately the steamer Alameda of the Alaska Steamship Line came to the rescue and took off the passengers and mail. She also stood

by the Sophia all night, finally sailing on to Vancouver.

The Sophia got off the rocks at two a. m. this morning and is proceeding to Vancouver, although she is leaking badly. The news came in by wireless this morning.

The Alameda left Skagway about the same time as the Sophia, but the Sophia is a faster boat. She made a stop here and at Alert Bay, which accounts for the two steamers being in Johnston Straits about the same time. Several Rupert passengers were aboard the Sophia.

JURISDICTION OF FISHERIES STILL DISPUTED BY PROVINCE

RECENT DECISION OF PRIVY COUNCIL DOES NOT APPEAR TO HAVE SETTLED ANYTHING—DUAL ADMINISTRATION WILL CONTINUE WITH MORE TAXES

The recent decision of the privy council on the fisheries of the tidal waters in British Columbia does not appear to have settled anything, and apparently the industry is going to be at the mercy of a dual administration just as much in the future as it has been in the past.

The Hon. W. J. Bowser in giving his interpretation of the verdict says the jurisdiction of the province has not been affected in any way. He will continue to administer the fisheries as he has in the past in a way which gives him absolute control of the fisheries policy.

On the other hand the Dominion minister of fisheries claims the Dominion has absolute jurisdiction in the fisheries. "The decision," says Mr. Hazen, "leaves exclusive jurisdiction over fisheries in tidal waters of rivers, bays, etc., in the railway belt and in the territorial waters of the coast in the hands of the federal government, so that hereafter licenses, except possibly as a mere matter of local taxation, will be required only from that government."

Mr. Hazen adds that in view of the large expenditure by the federal department in administering and protecting the fisheries and maintaining hatcheries, which is more than double the amount of revenue received, it has been decided to restore the licenses on salmon gill net licenses to the

original amount of ten dollars, as it was before the provincial government reduced it to five dollars in 1907.

It has also been decided to double the fees on trap nets, purse seines and drag seines.

In conclusion, Mr. Hazen notes that the privy council expressly refrained from passing any opinion upon the question whether the province could levy any tax in respect of tidal fisheries.

Heretofore the salmon licenses have been collected by both Dominion and provincial departments. A gill net license cost \$5 to each government. If the Dominion raised their license to \$10 the fisherman would not be paying any more unless the province undertakes to collect a special license.

The province has been charging a special fee to all canneries and also collecting a business tax on every case of salmon. These taxes will no doubt be continued, but whether an additional tax will be made remains to be seen.

The provincial fisheries department has always made rich pickings off the salmon industry, but it has never done anything to encourage the industry or utilize it to develop British Columbia. Anything that has been done in the way of protection and the establishment of fish hatcheries has been provided by the Dominion fisheries department.

DOMINION CONTROLS FISHERIES LICENSES

Federal Authorities Make Decision of Privy Council Notable by Doubling Fees

Vancouver, Jan. 24.—A decision of the Privy Council in London has just been given the Dominion government and not the provincial the exclusive right of control over salmon fisheries on the British Columbia coastal rivers. The Federal authorities have made notable this announcement by another doubling the fees for salmon nets, purse seines, gill nets, etc. The former fee charged to ordinary salmon fishermen was \$5 for license. It has been raised to \$10, but the fishermen will be required to pay no provincial license.

Not Yet Found

(Special to The Daily News.)
Bingham, Utah, Jan. 26.—Up to a late hour the search for the two Austrian miners believed to have been suffocated in the burning Boston mine has been unavailing.

ADD ANOTHER MEMBER TO HIGH COST BOARD

Commission Finds Much Work Ahead and Has to Get Help

Ottawa, Jan. 24.—J. U. Vincent, the assistant deputy minister of inland revenue, has been added to the high cost of living commission. There is a tremendous amount of work developing in connection with this commission and the board is anxious to complete the enquiry as soon as possible. It was thus decided to add another member. The commission expects to visit Montreal, Quebec and other points in the province of Quebec this week. They seek the addition of a French member to add to the usefulness of the Board.

DAILY EDITION

Monday, Jan. 26, 1914

Immediate prosperity lies right ahead for British Columbia. The Provincial Government has discovered how to get farmers on the land and how to make them successful. The deputy minister of agriculture has been telling English audiences that every prospective farmer should begin by taking a three or four-year course in college. With such a training, he says, if they cannot make a success on the land they are sure of getting an appointment as a government expert on farming.

Why didn't the deputy minister go on to say that there were scores of other such appointments to be had in British Columbia? Why, anybody who can learn to keep his mouth shut can get a job as a fire warden, road boss or government inspector, providing he will agree to ignore his duties and spend all his time in getting votes for his party.

But must all our immigrants take a college course before they begin to till the soil? It would have taken a long time to make Canada what it is today had Sir Wilfrid Laurier adopted that theory. No sensible man discounts the value of education, but the better advice for a good many English boys would have been to advise them to place themselves for a time in the service of some good practical farmer and learn at the same time both theory and practice, as well as the development of brawn, which is after all the most important asset.

What is William Manson going to do about the Wark's Channel power? He was one of the advocates of municipal ownership in the recent cam-

aign. He believes the city should at once begin the installation of its own electric plant. It has been demonstrated beyond the question of a doubt that the Woodworth Lake power is inadequate. Will he now step out and demand that the power concession at Wark's Channel be granted to this city?

This paper does not believe that he will. That would be too much like disinterested business, and William Manson is too much of a politician to do that. He cannot forget that it was his own defective judgment that first decided on Woodworth Lake, and what difference if the city gets a defective power system on its hands so long as his judgment is not interfered with? Then the Wark's Channel power is a good club to hold over the heads of the people, and who would throw away such a good club with a couple of possible elections in the air?

British Columbia is badly in need of a change of government. This is not because every member of the Conservative party is inherently bad. It is rather because the prosperity of the past number of years has made possible the corruption of the party in power. Anglo-Saxon countries are noted for the short lives of their governments. Consequently they are noted for the best governments in the world. In British Columbia we have a party which has been rolling in wealth for a number of years without any opposition to check their mad extravagances. With this wealth they have purchased power on every hand. A complete turnover would have a wholesome effect on all concerned.

Daughter of the Earl Spencer, who will marry the Hon. Sydney Peel, brother of Viscount Peel. They have extensive interests in Canada and will take a trip through the Dominion on their honeymoon.

HOW EUROPE SOLVES PROBLEM OF THE HIGH COST OF LIVING

MUNICIPAL ABATTOIRS SLAUGHTER HORSES, MULES AND GOATS—HORSE FLESH HELD AS A GREAT DELICACY

The packers' convention, held recently in Chicago, warns of a beef famine. In Europe, where a similar crisis has impended for years, there are countries which meet the situation by sanctioning the slaughter of animals against whose consumption there is in America a sentimental prejudice. Abroad, this attitude has been so modified by necessity, experiment and acquired habit that, annually, thousands of horses, mules and goats are sold to municipal abattoirs, which slaughter the animals and send them out to the licensed shops patronized by all classes.

for the revivifying of a decadent people. The public charities of the French capital dispense daily 1,600 pounds of horse flesh in the free hospitals and asylums. Its lower cost has made it accessible to the sick poor, who accord it with tonic properties superior to those of any other meat. Certain pharmaceutical establishments employ the product of the horse in the compiling of tonics, hemoglobines, peptones, extracts of meat and meat powder which are in demand in both Europe and America.

France, land of gourmets, has an association which gives banquets to exploit the savoriness and healthfulness of the flesh of the horse, of the mule, and even of the ass, the famed roast of the Romans. Partly as a result of this propaganda, the demand for these viands is now so great that the consumers are disturbed over the possibility of underproduction, which is already threatened.

Scarcely a baker or delicatessen shop in Paris or Berlin but prefers the brains of the horse to sweetbreads in concocting meat pasties, and the delicacies known to tourists from abroad as well as to native patrons as vol auvent and timbales financiers. The decanted fat of the horse is rendered into an oil which in certain famous restaurants goes into the making of highly regarded mayonnaise. But the fat is chiefly used in frying the crisp and succulent potato in hotels and restaurant kitchens and at the hundreds of street stands.

Millionaire Weds Stenographer

Chicago, Jan. 24.—Jacob Goetz, millionaire mining man of Spokane, and widely known throughout the northwest as "Dutch Jake," was married here today to Miss Isabelle Sweeney, formerly a stenographer at Portland, Ore.

Miss Sweeney had been visiting relatives in the east and met Goetz here on her way back west. The discovery of the great mines of the Coeur d'Alene district proved the foundation of Goetz' fortune, and he was one of the picturesque figures of the district in the early days.

A man is as good as he has to be, and a woman as bad as she dares.

GIRL WHO HELPED KILL MOTHER IS SHIELDED

Prosecutor Promises to Free Miss Julia Flake if She Will Give Testimony

Galesburg, Ill., Jan. 24.—Julia Flake, who confessed to persuading Robert Higgins, her stepfather, to kill her mother that she alone might possess Higgins' love, probably will not be punished severely for her share in the conspiracy, according to John M. Wilson, state's attorney for Mercer county. Her relatives are shielding her from blame, and tonight Charles W. Ernst, brother of the late Mrs. Higgins, declared he had Wilson's promise to free the girl if possible, because she gave to the state evidence that Mrs. Higgins had been murdered.

Higgins in jail today repeated his stories that the girl had coaxed him into the murder, for which he professed no regret.

FOR THE OUT-OF-WORK AND HUNGRY
The little side door, a new and admirable church activity in most Canadian cities at present time

Newest Notes on Science

Small wedges of appropriate shape have been invented for straightening crooked toes.

Germany now leads the world in the use of machinery directly driven by electric motors.

Less quicksilver was produced in the United States last year than in any year since 1860.

Southern Italy will have a \$13,000,000 hydro-electric plant generating 150,000 horse power.

More than one-half of the fuller's earth produced in the United States comes from Florida.

Of German invention is a series of moulds to enable children to make building blocks out of snow.

Arizona last year made new high records for the production of gold, silver, copper, lead and zinc.

Two more European capitals, Vienna and Bucharest, have been connected by a direct telephone line.

A new electric churn for household use is operated by a motor of only one-thirtieth of a horse power.

The largest hens' eggs are produced in Manchuria, those weighing one-sixth of a pound being common.

A Pennsylvania inventor's rat trap can be set with the foot, eliminating the danger of broken fingers.

The Moscow museum of agriculture, the oldest in Europe, will celebrate its fiftieth anniversary next year.

For women's wear an adjustable hat lining has been invented, said to conform to any shaped headgear or head.

The first steamer designed exclusively for laying submarine cables ever built in France recently was launched near Havre.

Utah, which had a record production of copper in 1912, exceeded that year's figures and made a still higher record last year.

The first English plant devoted exclusively to making steel by electrical processes is being erected by a Sheffield company.

A recent patent covers a sickle with the blade adjustable to

FRAIL WOMAN CARRIES HUSBAND FROM FLAMES

Wife, Weight 120 Pounds, Drags Out Man, 200, Who Was Overcome by Smoke

Tacoma, Jan. 19.—In stumbling over the unconscious form of Capt. John T. Nolan, a contractor, and his wife tonight, just inside the door of their burning home, firemen found evidence of the strength of a little woman in an emergency.

Nolan, who weighs 200 pounds, was asleep on a couch when the flames broke out and was quickly overcome by smoke. His wife, middle-aged, frail and weighing about 120 pounds, was upstairs. Smelling the smoke she picked him up in her arms and half carried, half dragged him thirty feet to the doorway, when she, too, was overcome and then fell in a heap. Nolan died tonight and Mrs. Nolan is not expected to recover.

RUSE TO CAPTURE OUTLAW IS FAILURE

Beardsley Holds Rifle While the Pretended Photographers Take His Pictures

Mayville, N. Y., Jan. 24.—Sheriff Anderson failed today in two attempts to break the seven-day siege of the Beardsley farm at Summerdale and to arrest Edward Beardsley. In the first he used two out-of-town detectives, posing as photographers, to get close to Beardsley to grapple with him. Beardsley posed for a picture at the window, but never relinquished his rifle, and the detectives could not carry out their plan.

Late this afternoon Fred Beardsley, a cousin of the besieged farmer, Axel Olsen, a friend, and Luther S. Lukin, county clerk, visited the outlaw. The sheriff thought Beardsley might surrender to Mr. Lind. Beardsley received them at the window and talked freely, but stuck to his determination not to surrender.

GOSSIP SENDS BRIDE AND GROOM TO GRAVE

Man and Wife Who Was His Niece Drink Poison When Censured

Cortland, Ill., Jan. 24.—This village is silent and grief stricken preparing to follow in a body the funeral of John Aldis and his 16-year old niece, who killed themselves as a result of the denunciation that followed their marriage. The couple were threatened with being tarred and feathered. The indignant villagers refused to speak to the girl and the public prosecutor warned them that they must either have the marriage annulled or leave the state.

Sunday night they declined to give up the fight. Later they were found dead from poison.

Clergymen yesterday exoriated the villagers for their stand. A meeting was held, money was subscribed for flowers and all Cortland will follow the funeral to the graveyard.

ARREST TEN FOR WAR ON TEACHER

Officers Accuse Men and Women of Boarding Up School and Ordering Instructor Out

Tacoma, Jan. 20.—Opposition to D. M. Wolfe, school teacher in district No. 123, at Gertrude, on McNeil Island, resulted today in the arrest of ten men and women who boarded up the school after giving the teacher one hour in which to get out. The ten appeared before Justice Joe Larkin at Long Beach today and were released under \$200 bonds each to appear for trial this week. One of those arrested was Martin Ellison, clerk of the Board of school directors. The other two directors are said to be defending Wolfe.

Noblesse Oblige

Rank imposes obligations—
or—as the French put it—"Noblesse Oblige."

It is a very natural and right principle that those who by their position in life command the respect of others should deserve it and be worthy of maintaining their position. "Much is expected of those in high station."

But this principle is not confined to persons of noble birth—it has a hundred applications. It applies, for example, to those manufacturers of reputation and prestige who make goods of high quality and who advertise them constantly in the newspapers of the land.

By their advertising they have attained an eminence where the very best in quality and good service is expected of them. They have set a standard and their very business life depends on the constant maintenance of it.

So that when you buy advertised articles you rest assured that you are getting the best value that money can buy.

Well may you place your faith in advertised goods. Well may you give them preference over articles which you can only hope may prove satisfactory.

For the principle of "Noblesse Oblige" is your guarantee of excellence in Advertised Goods.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

Calgary Got \$3,500,000

London, Jan. 24.—Underwriting for the new city of Calgary five per cent. loan of \$3,500,000 has been eagerly sought by many intending participants. Last night it was announced that it had been entirely underwritten at 97, and small bidders were disappointed. The loan promises to be a big success. The market continues buoyant. Underwriting is proceeding for \$1,500,000 Pacific Great Eastern 4 1/2 per cents at 95, guaranteed by the British Columbia government.

BUOY TERMINATES REMARKABLE DRIFT

Information has been received at the marine and fisheries department of an almost incredible voyage on the part of a buoy marking the entrance to the harbor at Quebec.

The gas buoy in question was placed in the fall of 1911 to mark the wreck of the old Traverse pier at the St. Lawrence port.

It was thought that the buoy, which was missing in the spring of 1912, had been carried away by the ice and sunk, but the Dominion marine department has since been advised that the buoy was picked up recently by the lightship Hellewick off the New South Wales coast.

The driftings of this buoy, could they be recorded, would probably break all records for drifts of any kind. From the Atlantic coast to New South Wales is a distance of approximately 12,000 miles.

The buoy seemed to have been caught by the currents of the North Atlantic, and carried south until it was picked up by the equatorial currents and borne to the southernmost end of the American continent, around Cape Horn, and across the Pacific to a point where it was picked up.

Its total mileage must, therefore, have been about 16,000 or 18,000 miles.

NOTICE

To the Members of the Prince Rupert General Hospital Association

The annual general meeting of members will be held in the city hall at 8 p.m. Thursday, January 29th, 1914, to receive the directors' and other reports and to elect directors for the ensuing year.
