PRICE FIVE CENTS

NEW PARCEL POST IS CONFINED TO PROVINCES

SOUTH AFRICAN LABOR LEADERS DEPORTED—SOCIALISTS OUTVOTED AT LABOR CONVENTION

D. MORRISSEY'S SCHEME IF BANK WILL NOT FINANCE

NOT MEET WITH APPLAUSE BY BUSINESS MEN—GENERAL VERDICT IS THAT IT IS AN ABSURD PROPOSITION

The mayor addressed the Association delegation Monday evening he said the hoped to dispose of the hydro-electric debentures lately, which would enable to go on with the power plant at once. Failing in the sale of debentures or treasury notes, he intimated that Ald. Morrissey had an alternative scheme which was about made up.

Morrissey tipped off this in a speech made a few days later. He said in effect that they proposed buying the machinery and lumber on the installment plan, which was a small cash payment on the order and notes for the spread over a term of years. He claimed further that the installation of the water-gravity system would save \$28,000 a year, and the saving in coal at the plant would be \$25,000 a year. The labor, which is the main expense, would be met with these savings and from a general fund account.

The casual reader this may like a very easy and safe scheme, but to the avowed business man it is a fairy tale.

The Daily News reporter questioned a number of business men concerning it and the verdict was that it was a practical and absurd proposition.

One man: "I know it is a lie for the manufacturer pays his machinery on payments to get a mort-

gage on his plant. No money lender will take a mortgage where there are lien notes against the machinery. If the machinery and lumber for this hydro plant is bought on credit it means that the vendors will demand notes as security, and such notes will make it impossible to sell any debentures on that plant."

"I don't see how," said another citizen, "they are going to pay for the labor with the \$53,000 which they claim they will save on coal and operating expenses of the water system, when they cannot begin to make that saving until after the hydro-electric plant is installed."

"Probably they will stand the working man off for his wages until after they make the saving next year," suggested another man.

Another said: "If the saving in coal has to pay for the installation of this new plant we will not have any lower rates for light and power for ten years to come. That doesn't look healthy to me."

"This talk of paying for the labor out of the saving on coal is child's talk," said a Second Avenue man. "It means that if the undertaking is proceeded with without first passing another money bylaw the whole cost of it will have to come out of the general fund. I would estimate that it would add ten mills to the tax rate this year. If the taxpayers can stomach that they have more money than they appear to have just now."

NEW PARCEL POST LIMITED TO ELEVEN POUND PACKAGES

Comes Into Effect on February Ten but Applies Only to Provinces Special Local Twenty Mile Zones

(Special to The Daily News) Ottawa, Jan. 27.—The new parcel post scheme was announced today. It will be provincial in its character and somewhat different from what was generally expected. It comes into effect on February 10.

Every post office will be the centre of a local 20-mile zone. There will be a provincial rate and then a special lower rate to apply to each local zone.

Each province is a zone by itself, the exception being the maritime provinces, which are combined in one. The rates apply only within the provincial zone. A special rate is made for the local zones and a provincial boundary does not interfere with these local zones.

The new rates are:

One pound 5 cents
Two pounds 6 cents
Three pounds 7 cents
Four pounds 8 cents

Five pounds 10 cents
Six pounds 12 cents

It has been decided that for the first six months nothing over six pounds will be accepted. This is to avoid swamping the post office with business on the start. After six months packages up to 11 pounds will be carried. The rate will be seven pounds for 14 cents and two cents additional per pound up to the maximum.

OFF IN A RAGING BLIZZARD TO INSPECT WOODWORTH LAKE

CITY AUTHORITIES AND ASSISTANT ALDERMEN MAKING AN INSPECTION OF SITE FOR HYDRO-ELECTRIC PLANT

The mayor, the city engineer, the light superintendent, several aldermen and assistant aldermen, Dr. Clayton, Cy Peck and J. A. Kirkpatrick, left this morning for Woodworth Lake. The wind whistled up their skirts and the snow rattled around their ears, but this did not deflect the city authorities from the path of duty nor chill the enthusiasm of the ex-officio members of the city council.

They had planned to start the city hydro-electric scheme by an official picnic on the site and no

tail end of a blizzard would be allowed to interfere. They left by launch in the early morning. Ostensibly the party is out to inspect the lakes and size up the situation. Ald. Morrissey's easy payment plan (a dollar down and a dollar a month) may prove a feasible proposition if it is viewed on the ground itself, or the party may decide that it will cost real money to install the plant. There is nothing like seeing it yourself.

On their return the aldermen will probably have some real good stories of hardships to tell.

LOCAL TORIES BACK FROM CONVENTION

Have Assurance That Island Road Will Be Started Immediately

Messrs. J. E. Merryfield, Geo. Kerr, Frank Cullin, H. Douglas and Geo. Tite attended the Conservative convention last week in Victoria. Ald. Kerr and J. E. Merryfield returned this morning.

"It was the best and most enthusiastic convention I have ever attended," said Mr. Merryfield. "I see The Daily News is complaining about that island road not being started. I can tell you we have the assurance of the minister of public works that an early start will be made on that island road. The government wanted the G. T. P. to pay a larger share, but they have decided not to wait for that. The work will go on very soon."

The officers of the British Columbia executive are:

President—W. T. Shatford, Vernon.
Vice-president—A. E. Planta, Nanaimo.
Second vice-president—H. L. Edwards, New Westminster.
Third vice-president—H. H. Johnson, Rossland.
Directors—Comox—Atlin, J. E. Merryfield; New Westminster, D. E. McKenzie; Kootenay, M. McNeish; Yale-Cariboo, H. S. Cleasby; Vancouver, E. J. Weeks; Victoria, H. Guthbert.

CRAZY MAN ATTACKS GERMAN CROWN PRINCE

Rushed Prince as He Was Alighting from Automobile—He Claimed to be Brother

Berlin, Jan. 27.—An unsuccessful attempt to attack Crown Prince Frederick William, of Germany was made as he was alighting from his automobile at his palace.

A man ran into the carriage way and reached the door of the

THE CROWN PRINCE OF GERMANY

motor car. The sentry on duty in front of the palace dashed forward and seized the would-be assailant of the prince and overpowered him.

The man appeared to be suffering from mental derangement.

When taken to the police station the crown prince's assailant gave his name as Leopold Salomon and his age as 26. He said confusedly that he was a brother of the crown prince and wished to ask him for assistance. Inquiries revealed that he was a tailor.

LEADERS DEPORTED UNDER MARTIAL LAW

Officers South African Trades Federation Will Not Be Allowed to Return

(Special to The Daily News.) Capetown, Jan. 27.—The government decided to liberate the principal labor leaders, including President Watson and Secretary Bain. Under a strong escort they were taken from the Transvaal to Natal late at night and put on a steamer which sailed before daylight, touching no port till reaching England. This action was taken by virtue of the martial law still in force in Natal. Measures are to be taken to prevent the men's return.

Three Burned to Death

(Special to The Daily News.) Melbourne, Australia, Jan. 27.—Three women were killed and seven seriously injured in a fire which occurred in the Salvation Army rescue home here. The entire contents of the building were consumed. A girl inmate was the cause of the outbreak.

Wants Interest Reduced

(Special to The Daily News.) Ottawa, Jan. 27.—H. H. Stevens, Vancouver, has introduced a bill to amend the Money Lenders Act and reducing the interest rates from 12 to 10 per cent, the law to apply to loans over \$500 as well as under.

Charged With Attempted Murder

A. Johnson, of Decker Lake, is now in the Hazelton jail charged with shooting with intent to murder a man at Decker Lake. The shooting took place some days ago. Johnson will get a preliminary hearing at Hazelton tomorrow. Mr. Linnell, of Williams & Manson, will represent the prisoner at the hearing.

No More Big Plumbing Bills

Modern inventions are revolutionizing former methods in every department of life. Instead of employing several men for the best part of a week to uncover and thaw about 300 feet of city water pipe, the job was handed over to Harry Hanson. By means of his electric machine he thawed it out in 15 minutes. His charge for thawing out the pipes for the ordinary house is only six dollars, which is quite a saving over the old way of doing it.

If you are in the market for a good reliable engine for business or pleasure, see Akerberg, Thomson & Co., machinists, corner Manson Way and 1st Avenue. 246-11-38

PROPERTY MUST GO TO FIRST PURCHASER

Orders Fulfillment of the Agreement of Sale of Fort Fraser Subdivision

Vancouver, Jan. 27.—Judgment was given for the plaintiff by Mr. Justice Macdonald in the action of Robinson v. Henry Holmes and Bevan & Elliott, Limited, regard subdivision of Fort Fraser, the sale of which was in dispute. The property consisted of 160 acres and is at the present time valued at \$15,000.

The plaintiffs sued for the specific performance of an agreement of sale given to them by Holmes, who was the owner. The second sale to Bevan, Gore & Elliott of Vancouver. The first agreement was proved in the court through evidence from Holmes. Holmes stated that the agreement with Bevan, Gore & Elliott was not effective on legal grounds, but his lordship found the contrary to be the case. He also held that Bevan, Gore & Elliott were not liable in the matter, as they had acted in good faith, and that the portion of the purchase price which had been paid by Bevan, Gore & Elliott to Holmes should be repaid by the latter to Bevan, Gore & Elliott and that plaintiff should have the property back. Plaintiff was ordered to pay the costs.

LABORITES PROTEST AGAINST ASIATICS

Socialistic Members Were Outvoted in Convention at New Westminster

(Special to The Daily News.) New Westminster, Jan. 27.—A large majority of the Federation of Labor decided to protest against the entrance of Asiatics on any terms. Socialistic members of the federation pleaded for the entrance of Asiatics, but on a vote they were defeated by a large majority.

A resolution favoring woman suffrage was adopted by the federation.

They refused to adopt a Socialist plank in their platform.

Annual meeting of the Presbyterian Church will be held tonight at 8 o'clock in the Church Hall. 23

CONCERT AND SOCIAL

A concert and social will be given in St. Peter's church, Seal on Tuesday evening, Jan. 27th, at 8 o'clock. A splendid programme has been arranged with Mayor Newton in the chair, a most pleasant time promised. Admission, including refreshments, 25c. 22

DAILY EDITION Wednesday, Jan. 28, 1914

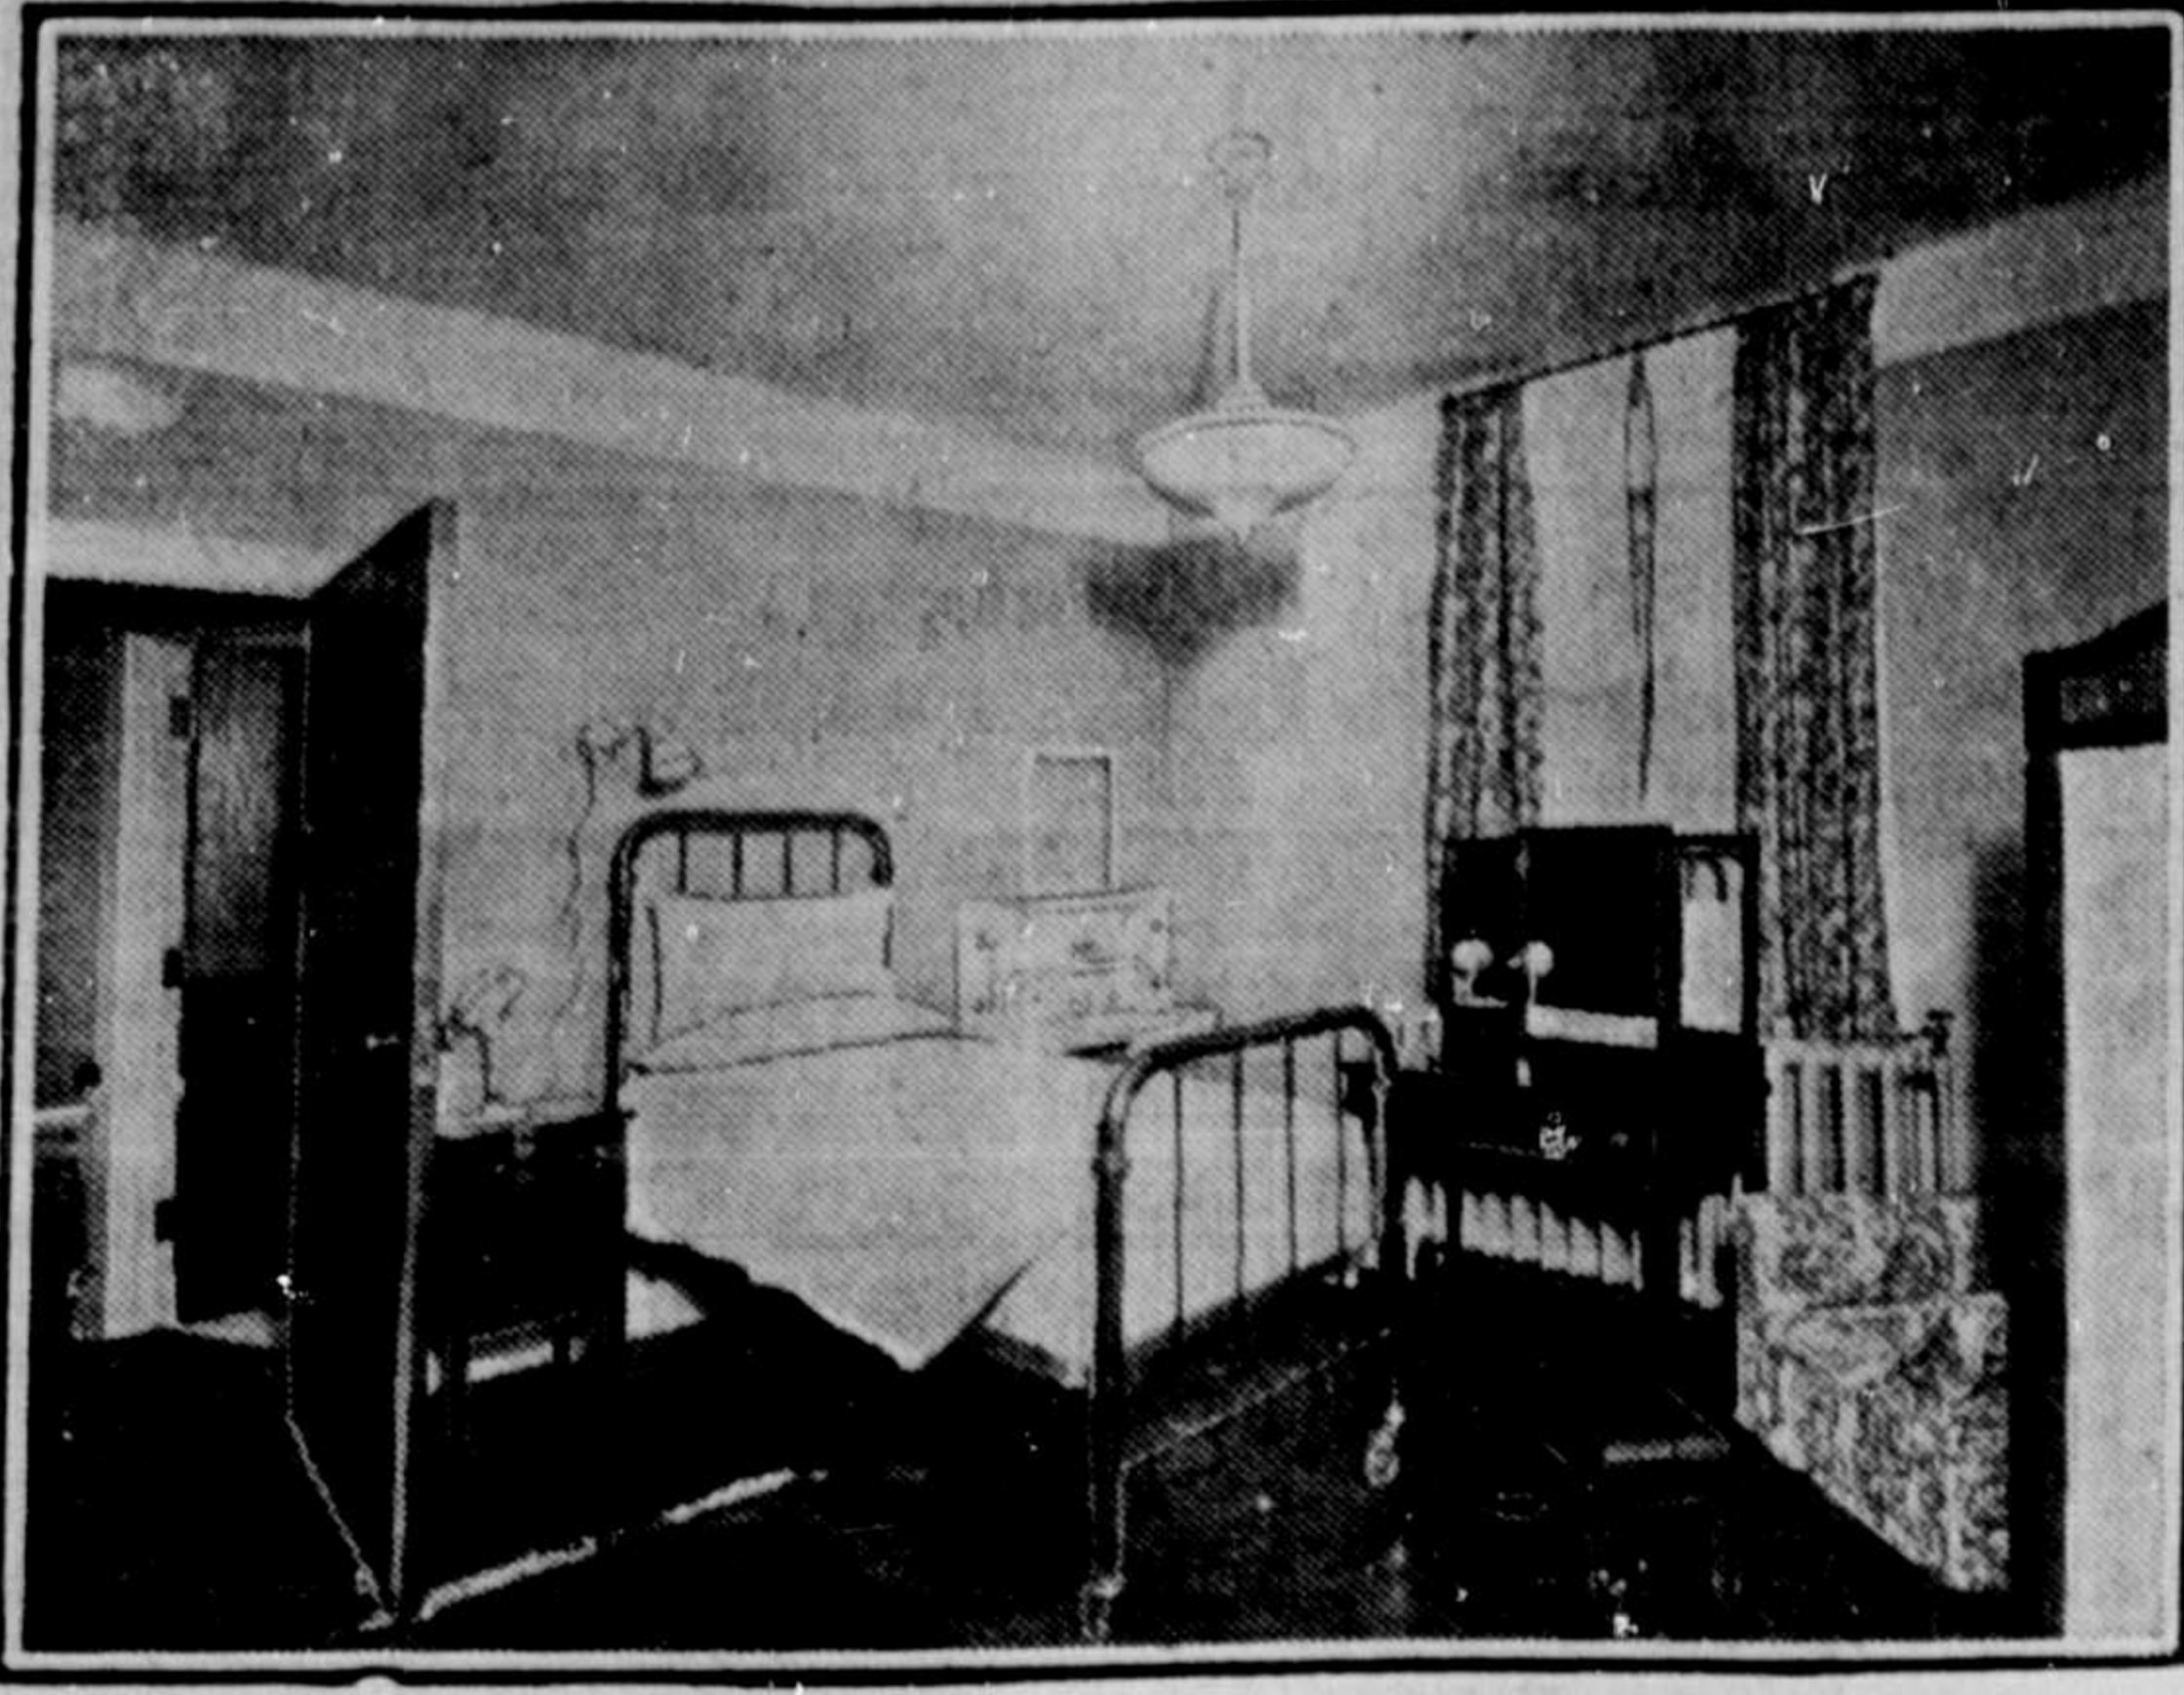

The present civic administration came into office by a fusion of the basest motives. In this they were assisted by the ever popular cry of "Down with the corporations."

While the people have most decidedly given their approval of public ownership, it is quite another thing to decide what form that policy shall take.

Woodworth Lake at best can develop only about 2,500 horse power. Wark's Channel is known to contain 10,000. The same initial cost—apart from a little extra pole line—will install a plant in either

place. What madness to proceed with the smaller stream. It is just like a farmer trucking his products to market in a wheelbarrow when he could as well send them by train.

This paper has no intention of following the knocking methods of last year's opposition. In order to do that successfully a person must be a born "knocker."

BEDROOM IN TORONTO GENERAL HOSPITAL OCCUPIED BY SIR JAMES WHITNEY

The premier arrived in Toronto on the morning of the 19th of January as a big surprise to the public. He came the 500 miles from New York in his private car and was transferred to the General Hospital, and is occupying the above bedroom.

PROVINCE HAS POTLATCHED RESOURCES, SAYS WILLIAMS

CLAIMS GOVERNMENT SUPPORTERS ARE INFECTED WITH PREMIER WORSHIP—CONDITIONS ARE DUE TO THE BOUNTY OF NATURE AND MERCY OF GOD

"Premier worship" was the phrase coined by Parker Williams in the legislature last week to describe the attitude of government supporters toward their leader.

"We refuse, however, to waste our time glorifying the premier, and we refuse to give him credit for that which should be credited to the forces of Nature. We believe our mission here is to deal with these matters which need remedying and those conditions which may be improved to benefit the people, and not to tickle the vanity of the premier."

Turning to the debate on the address, the speaker criticized the member for Dewdney, who, he said, "the other day treated the house to a sort of mental lango for an hour or so," mainly because some people had dared to press upon the electors in the Islands riding in the recent election the claims of a candidate other than the government's choice.

want some other representative. There was a definite attempt, Mr. Williams charged, to blacklist any one not in accord with the government. In the recent case of the Islands election, certain people from Victoria who had taken part, had too much influence, so the blacklist had not worked in that instance.

Pursuing his criticism of the remarks of the member for Dewdney, Mr. Williams pointed out that he had been safe when he stuck to generalities, but had made one mistake when he went into figures for the purposes of comparison of conditions in 1903, when the government took office, and 1913. He had tried to show that the difference in revenue in 1903 and 1913 proved prosperity. But he had overlooked the question of overdraft.

treasury. No government is broke when it had resources as large as the government of this province had ten years ago. This government has 'potlatched' the resources of the province in the past ten years."

Big Cargo Halibut

Yesterday the trawler James Carruthers, belonging to the Canadian Fish & Cold Storage Co's. fleet, pulled into the company's dock with a cargo of 100,000 lbs. of halibut.

News Notes from Terrace

(Special Correspondence.)

A church concert under the auspices of the Presbyterian church, Terrace, will be held in the church building on Wednesday evening, January 28, beginning at 8 p. m. Mr. William S. Scott, who is the student in charge at Terrace, is musical director of the program. Mr. Scott is a L. Mus., London, and a gold medalist and first prize winner at the Feis Ceoil in Londonderry, Belfast and Dublin, 1913. He will sing, amongst others, two songs of his own composition entitled "The Call of the West" and "Back to Ireland." A chorus from "Iolanthe" (Sullivan), "The Soldier's Chorus" from Faust, and a male quartette will also be outstanding items. The program is a long and varied one, and promises to be a great success. A large crowd is expected from the surrounding district.

The debate held on Tuesday evening by the Literary Club on the subject, "Resolved that it

would be in the best interests of society at large to levy a special tax on bachelors," resulted in a victory for the affirmative. The next meeting is announced for Thursday week, when the feasibility of abolishing war will be discussed.

The Civic Club held their first meeting on Tuesday and it was decided that in future the meetings should be held in the homes of the various members. Already the executive have received applications for aid along many lines, and great things are expected from this organization, which is being enthusiastically supported.

The meeting of the Women's Auxiliary on Tuesday night will take the form of a missionary tea at the rectory.

Mr. S. Gilbertson returned from a few days' visit to the coast, today.

done in British Columbia, and they know it. The men in high positions have just grabbed off big chunks of natural resources, and are trying to grab off some more, and at the same time blind the people with little bits of cheap talk.

There is an independent class in British Columbia, and that class is increasing. We do not mean this in a political sense whatever. In fact the people are beginning to break away from the steel grip of politics and are now doing things and thinking for themselves. In other words there is in British Columbia today a class who do things for themselves and do not look to the provincial government and all the petty larceny politicians who make up the smaller cogs of the machine, to help them. The faster this class of independent workers grows the faster British Columbia will come to the front. With everybody crying around the government for cheap loans, for work on the roads while their ranch is lying idle, for the government to give them big tracts of land, etc., as in the old days, this province would continue to suffer from the same complaint that she has had for many years—a windy stomach.

Hospital Directors Meet

The directors of the hospital board met yesterday afternoon and prepared the hospital business for the annual meeting to be held tomorrow. Ald. Morrissey, one of the newly appointed directors, took his seat. A vote of thanks was tendered the president, D. G. Stewart, who responded fittingly.

TIME FOR CHEAP AND SLUSHY SLOP HAS PASSED

MEN IN HIGH PLACES GRAB OFF THE NATURAL RESOURCES AND ARE LOOKING FOR MORE

(Omineca Herald) Can anything more sickening be handed out to sensible people, people who have a spirit of independence and who have done something for themselves, than the cheap, slushy slop that some of the papers of the province are printing in connection with the position of this province during the shortage of money? Men in high positions, who have an object in view, hand out that soft

stuff about "the magnificent way in which British Columbia has weathered the hard times, and that no other province could come through half so well." It is bad enough for those men to give such stuff out, but it is far worse for a paper, even though its ideals are "follow the dictator," to publish it. The common people do not swallow the guff, because it is the common people who have done what has been

Noblesse Oblige

Rank imposes obligations— or—as the French put it—"Noblesse Oblige."

It is a very natural and right principle that those who by their position in life command the respect of others should deserve it and be worthy of maintaining their position. "Much is expected of those in high station."

But this principle is not confined to persons of noble birth—it has a hundred applications. It applies, for example, to those manufacturers of reputation and prestige who make goods of high quality and who advertise them constantly in the newspapers of the land.

By their advertising they have attained an eminence where the very best in quality and good service is expected of

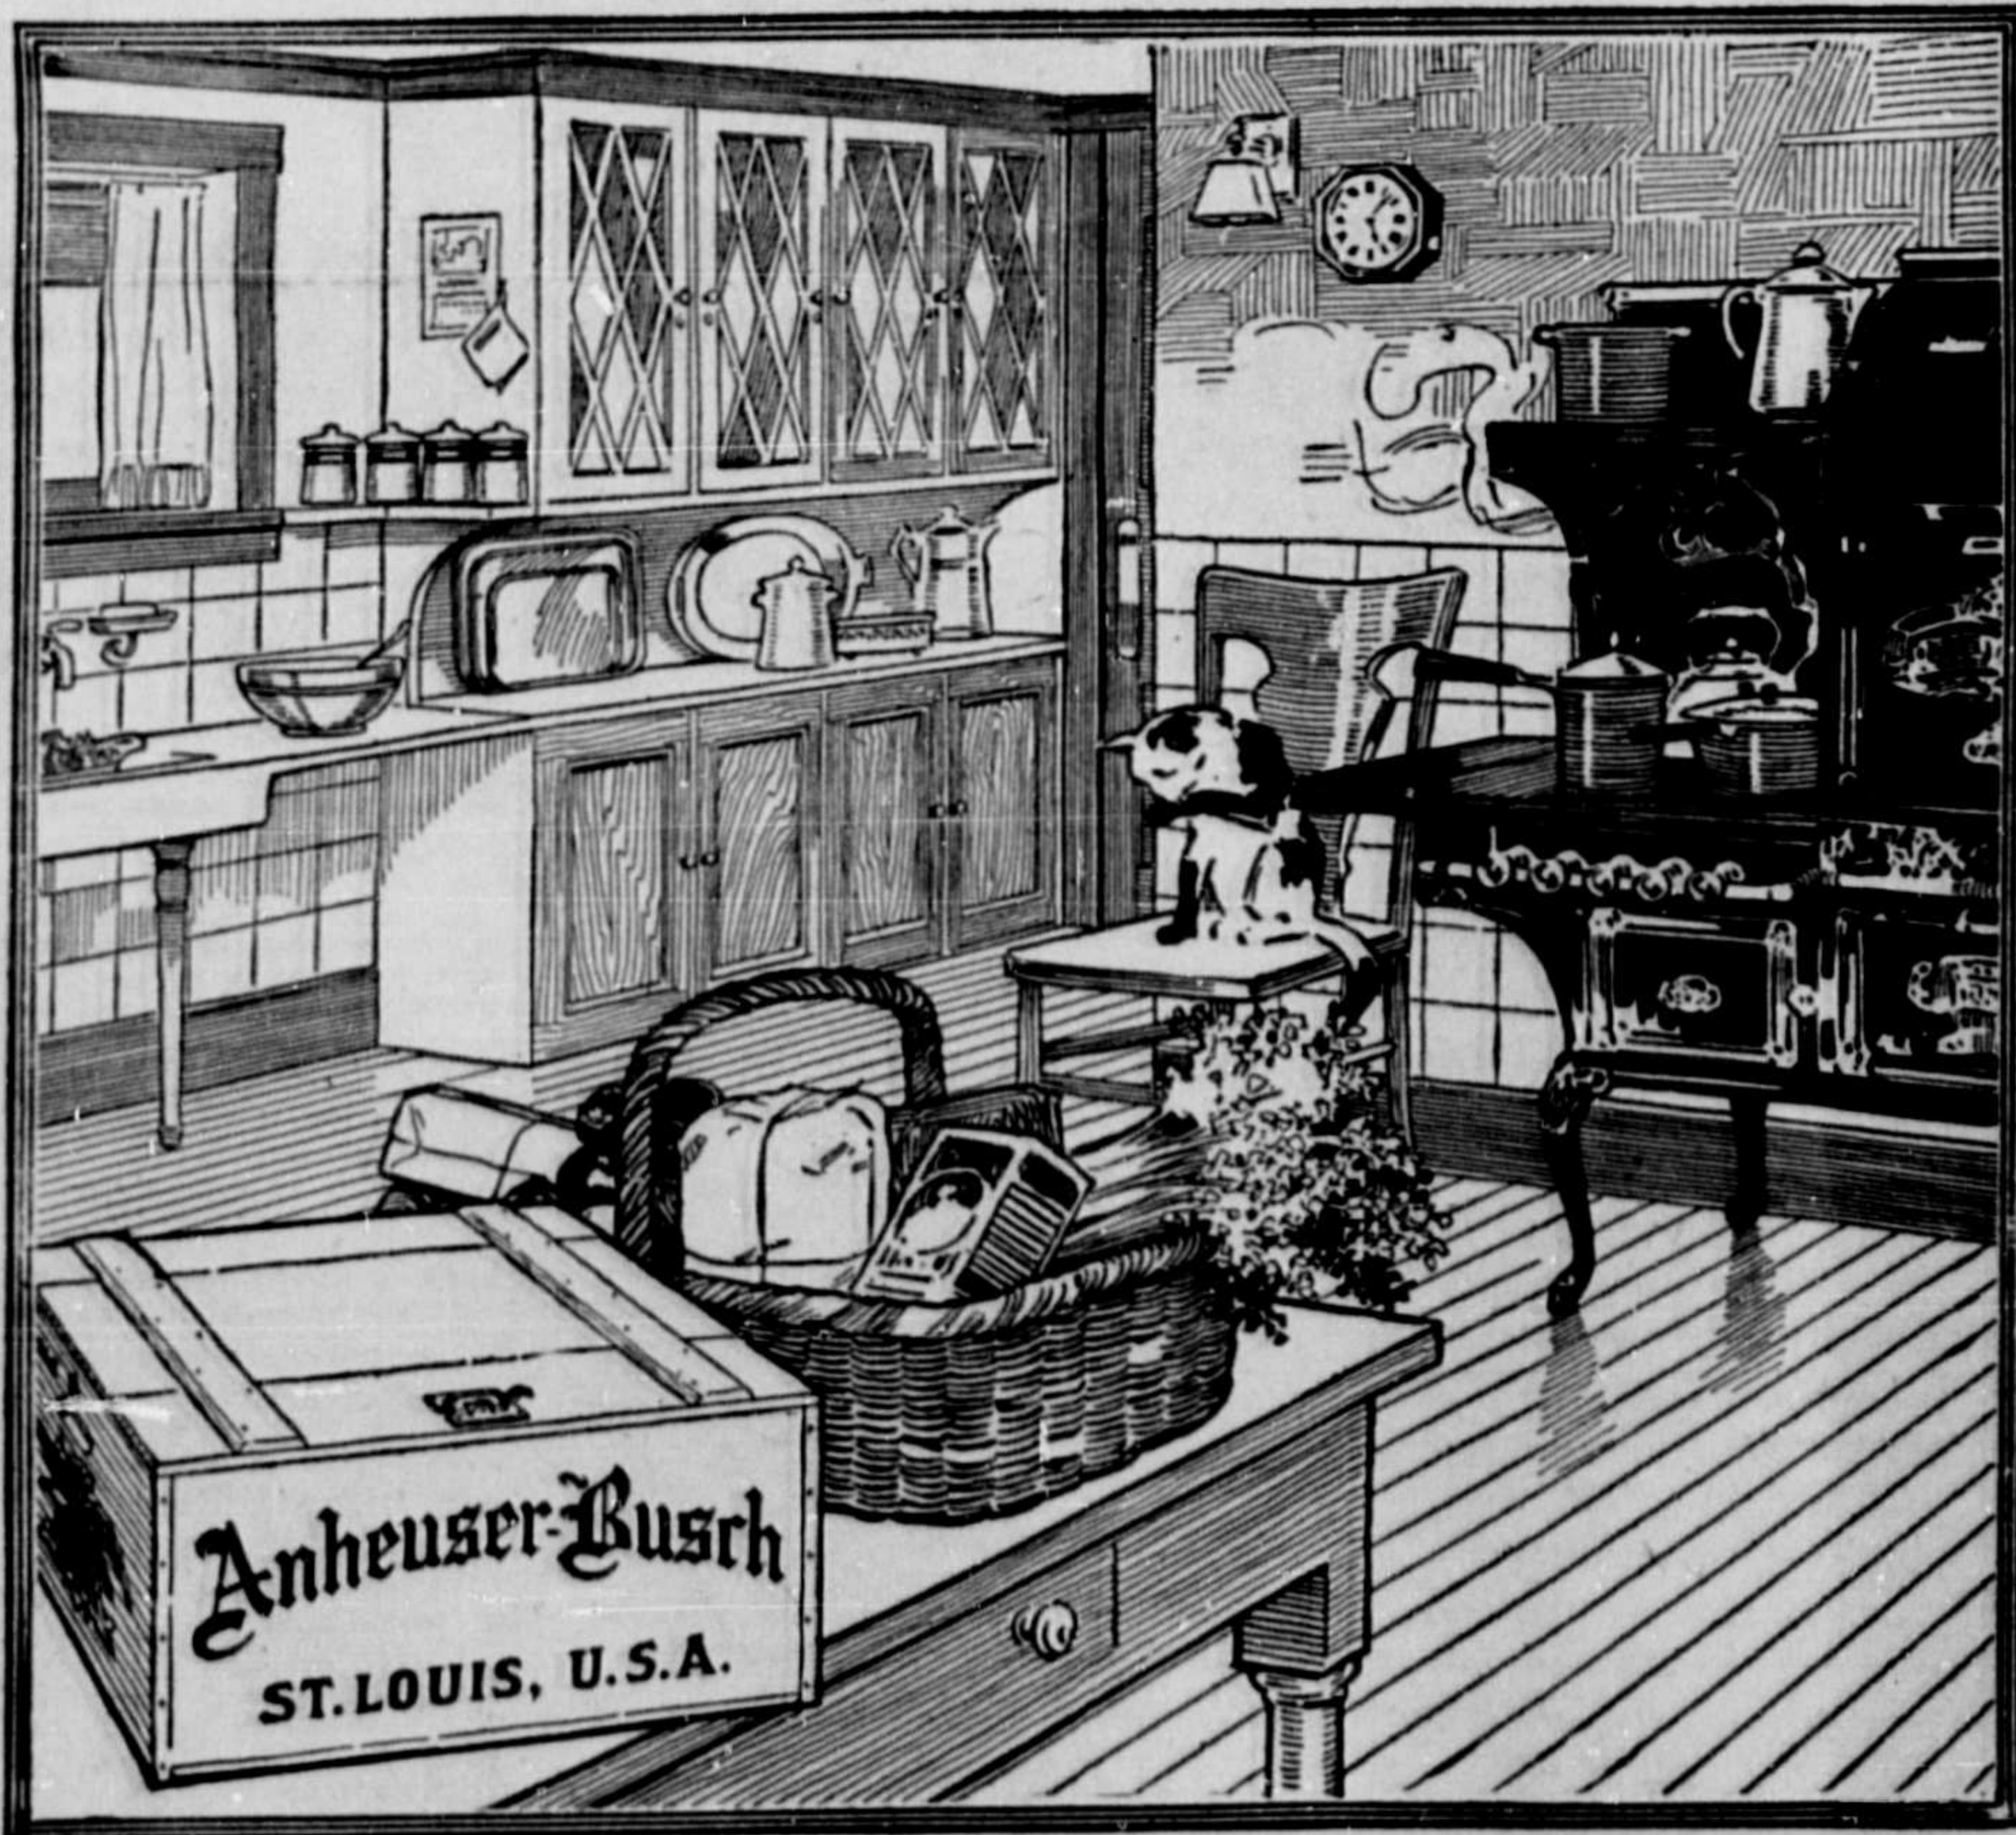

them. They have set a standard and their very business life depends on the constant maintenance of it.

So that when you buy advertised articles you rest assured that you are getting the best value that money can buy.

Well may you place your faith in advertised goods. Well may you give them preference over articles which you can only hope may prove satisfactory.

For the principle of "Noblesse Oblige" is your guarantee of excellence in Advertised Goods.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

For the Household Delivered to your kitchen door, like groceries

Budweiser

175,000,000 Bottles Yearly

That was the demand for Budweiser last year.

The Anheuser-Busch Plant covers today more than 142 acres—equal to 70 city blocks. It gives steady employment to 6,000 people, and to 1,500 more in its branches.

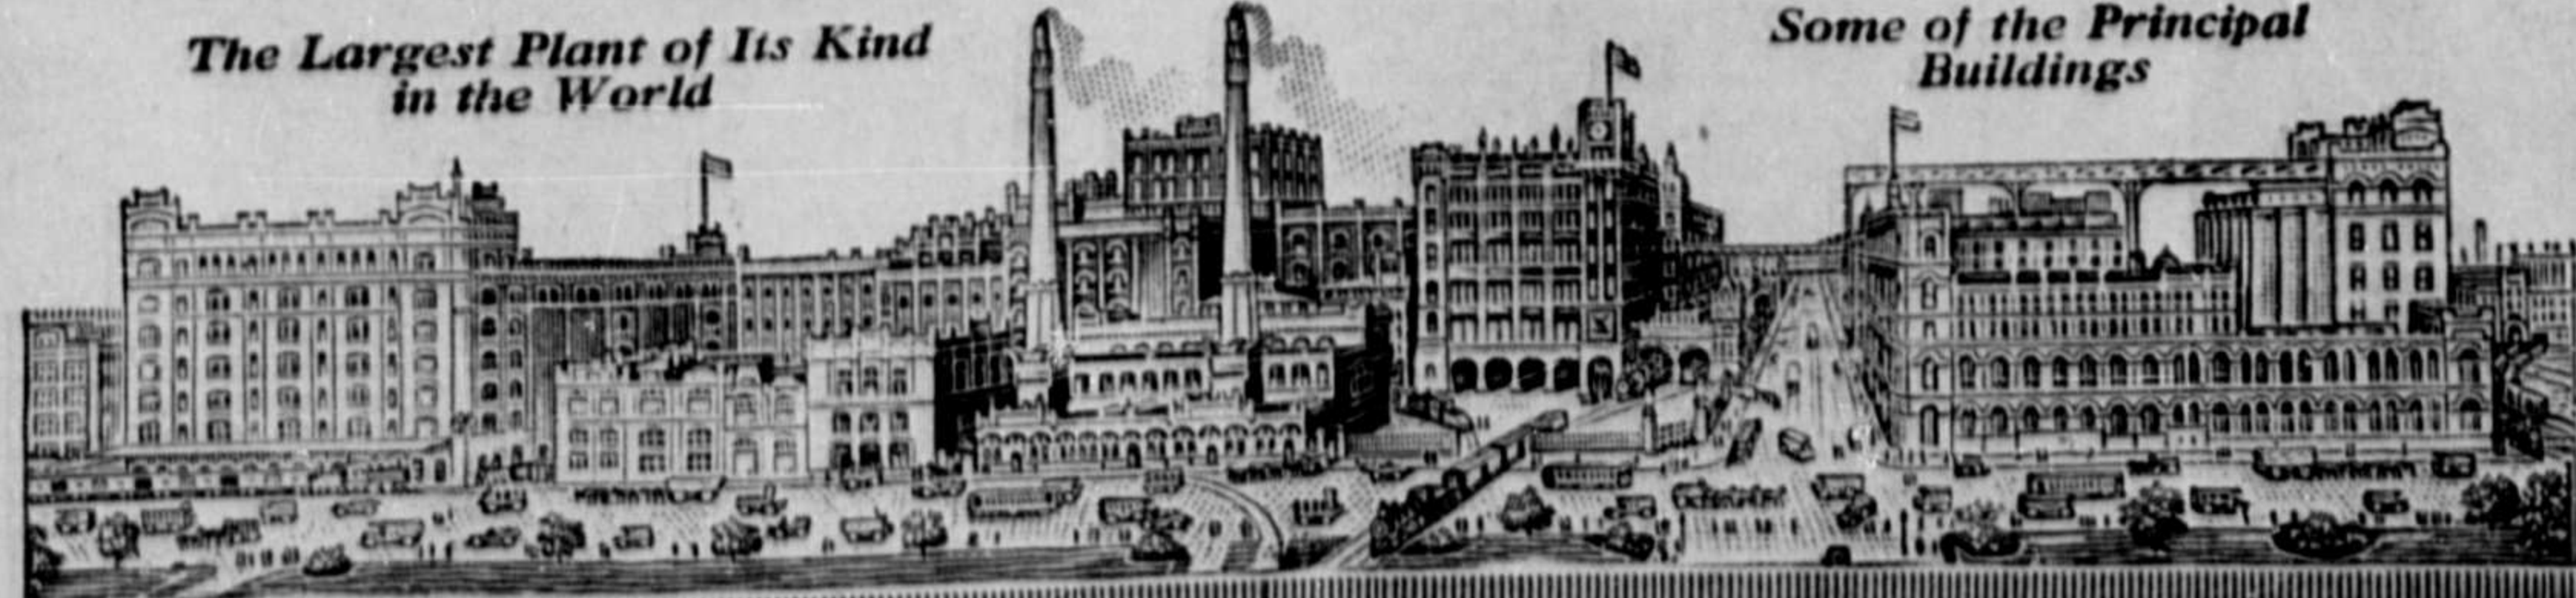

Every process, every room, is immaculate. Every bottle is Pasteurized and inspected. This Quality-Plant, started nearly 50 years ago, is a model of modern facilities.

The hundreds of visitors who go through every day know that nothing of its kind could be made any better than Budweiser.
