DOMINION MAKES BIG RUPERT APPROPRIATIONS

BORDEN BLAMES MILLERS FOR FREE WHEAT AGITATION - ALASKA RLY. WILL BOOST NORTH

QUARTER MILLION DOLLARS APPROPRIATION FOR RUPERT

DOMINION ESTIMATES SHOW BIG PORTION OF B. C. APPROPRIATION COMES TO PRINCE RUPERT—PART IS A REVOTE—BUILDING OPERATIONS GO ON

(Special to The Daily News.)
Ottawa, Jan. 30.—The main estimates are on the table of the house. The total is \$146,786,126. The ordinary expenditure incurred last year was \$3,573,312. The capital expenditure is estimated at \$43,949,050, being a decrease from last year of \$15,430,1. The net increase in the estimates compared with last year is \$11,820,990. There is a considerable increase in the estimates for agriculture, the total for 1914 being \$3,987,087 against \$338,000 last year.
The public buildings include the Prince Rupert drill hall, \$35,000; immigration detention building, \$100,000; quarantine, \$100,000; the building, \$100,000; new addition for public building, \$10,000. There is a decrease in the appropriations for British Columbia of \$600,000. Miscellaneous votes include \$25,000 of statue to the late King Edward.
The above despatch came to the Daily News by wireless and the details of the estimates are lacking.
The \$35,000 for drill hall is probably an additional grant to \$65,000 voted last year but used. The two items would

BUILDING ALASKA RAILWAY GREAT BOOST FOR NORTH

PROBABLY BE A RUSH FOR NEW SEAPORT CITY—SPECULATION ON WHERE IT WILL BE—SHOULD BRING PR. RUPERT SOME TRADE

The new Alaska government railway is interesting to every city on the Pacific coast now and all of them see visions of a small boom in the wake of the commencement. The United States government has authorized one thousand miles of railway into the interior at a cost of \$40,000,000, and following this will be many more miles for the development of the coal and other minerals of the country which it will open up.
There is great speculation all along the coast as to which seaport the new railroad will make its terminal, and all the old time promoters are getting ready for an announcement. Here in Prince Rupert several of the men who make a habit of pioneering are anxiously enquiring for information and they will make the jump as soon as the town is located.
"I think Seward is the natural port for such an undertaking," said a well known business man who is familiar with all the ports and cities of the north. "It has a splendid harbor. It is an excellent place for a city, and there is already 160 miles of railway built into the interior."
Seward is on Resurrection bay in the peninsula of Kenai, and the country back of it has the big coal fields. Naturally this looks like one of the first sections which the railway will go into.
Seattle and San Francisco business men are delighted with the business prospects resulting from this proposed railway, and are beginning to make preparations to take care of the trade they will get from the railway construction and the development of the country. C. B. Yandell, the secretary of the Seattle chamber of commerce, says:
"Alaska has been stagnating for years on account of having no adequate transportation facilities for its development, and this chance of getting the needed rail lines built by the government is too good an opportunity to be wasted. It will mean millions in the development of the country and will open up the rich agricultural valleys in the interior, which are now unable to raise anything for export because there is no way to get products to tidewater."
As Prince Rupert will be linked up by rail with the east before construction on this new railway begins she should come in for a share of the transportation business. Prince Rupert will save two days on all freight to the north, and that will be a big consideration in that country of short seasons.
Social Dance
In Sons of England Hall, 819 Second Avenue, Saturday evening, commencing at 8:30. Conducted by Mr. M. M. Cooper. Good band in attendance. 23-25

THREE MEMBERS RESIGN QUEBEC LEGISLATURE

Charged by Newspaper With Accepting Bribes for Incorporating Fair Association

Quebec, Jan. 29.—Three members of the legislative council of the province of Quebec who have been charged with receiving bribes have tendered their resignations. They are Joseph Mousseau, member of the legislative assembly for Soulanges and chairman of the private bills committee of the house; Achille Bergevin, member of the legislative council for de Salaberry, and Louis Philippe Berard, member of the legislative council for Le-naudieu. The latter is a law partner of the premier of the province, Sir Lomer Gouin. The charges are that \$9,500 was paid for the incorporation of the Montreal Fair Association of Canada, which incorporation carries with it extensive privileges relative to race meets.
It is alleged that the Fair Association Bill was a frame-up by detectives to catch legislative crooks. The charge is laid by the Montreal Daily Mail.

MAJOR GEO. E. GIBSON NOW A BENEDICT

Popular Old-timer Weds Charming English Girl Who Visited Prince Rupert Last Summer

A great deal of excitement has been caused around town for the last day or so by rumors that one of our most popular old-timers was about to enter the ranks of the benedicts. These rumors became so persistent that finally it was announced that Major George E. Gibson was the happy man referred to.
The Major left for Seattle a couple of weeks ago on what he referred to as a very pressing business, and now it turns out that a very beautiful and popular English girl had left the old land about the same time on a similar errand. The lady in question is Miss Doris Rietchel, a sister of Mr. E. O. Rietchel, who is well known in this city. Miss Rietchel had been visiting her brother here and only returned to her home in England about six months ago.
The details of the affair have not yet reached town, but it is admitted by the Major's closest friends that he is either married or about to be within the next day or two.
The Major is one of Prince Rupert's real old-timers, and besides that is one of the most popular men in the city. Both parties to the contract will have the best wishes of a very large circle of friends. They will make their home in Prince Rupert.

SENSATIONAL PICTURES WESTHOLME TONIGHT

"A Message to Headquarters" is the title of a three-reel Thanhouser feature which will be shown at the Westholme Theatre tonight and Saturday. It is a story of the U. S. secret service, beginning with the capture of a wealthy American and his family by bandits in Italy, their rescue and subsequent developments after their return to New York. The methods of the Black Hand society are accurately shown, all the principal scenes being authentic as shown by the police records of New York City. Interest and excitement never flags for an instant and there are many hairbreadth escapes by the hero of the play, a young Italian nobleman who first rescues and finally marries a beautiful American girl.
In addition to this great feature a very funny Keystone comedy and an up-to-date Weekly Gazette will be shown, making all in all a program of exceptional merit well worth seeing.

ROWING AND YACHT CLUB HAS GOOD YEAR

Annual Meeting Last Evening Received Reports and Elected Officers

The Prince Rupert Rowing and Yacht Club is growing to be an important organization within the city. The club has just completed another very successful year and its future is very bright. The election of officers last evening resulted in good live sportsmen being placed in charge, and this year will no doubt see the club making good progress.
The financial statement showed receipts for the year to be \$2,230.19. Of this amount \$1,826.46 was in subscriptions, \$294 from raffle of a lot, \$60 from a dance, and the balance in boat hire. The assets of the club include a racing shell worth \$250, a club house \$700, and row boats \$137.
Quite a number of outstanding subscriptions and dues are uncollected and these are to be gone after vigorously.
The officers for the year are:
Hon. commodore—W. C. C. Mehan.
Commodore—Judge Young.
Vice-commodore—S. P. Mc-Mordie.
Captain—F. H. Mobley.
Vice-captain—V. F. G. Gamble.
Committee—A. J. F. Vidler, H. B. Cambie and C. E. Bainter.
Secretary—R. A. McGee.
Assistant Secretary—P. M. Miller.
Votes of thanks were tendered the retiring officers and some amendments to the bylaws were passed.
The club will endeavor to have electric lights placed on the club house this season.

TUNNEL MEN KILLED BY POWDER FUMES

Two Went in Tunnel Too Soon After Blasting at Rogers Pass

(Special to The Daily News)
Glacier, Jan. 29.—Two men were suffocated here by going into a boring in the Rogers Pass tunnel which the C. P. R. is carrying out. They went in too soon after a blast was set off.
Nine other workmen had a narrow escape from a similar fate. They were rendered unconscious by the fumes before they were got out.

Handsome Residence

The new residence for the medical superintendent at the quarantine station across the harbor is just completed and it is probably the finest residence in the north. The house has 11 large, airy, well-lighted rooms. It is fitted with hot and cold water, modern conveniences, electric light, and all the details of a modern dwelling. It presents a very handsome appearance from the harbor.

Board of Trade Advertising

The following has been suggested to the Board of Trade as a means of advertising. It is proposed to print this ad on cards to be distributed in hotels and public places:

STRANGER

The Prince Rupert Board of Trade maintains a bureau of reliable information, where questions may be answered, as to the district in general, and the City of Prince Rupert, in particular. Our commissioner will be pleased to meet all strangers in the city, and you are cordially invited to call at the publicity room, situated in the Westenhaver block, corner of Second Avenue and Third Street.

MYSTERIOUS ROBBERY PUZZLING THE POLICE

Two Men From Queen Charlotte Island Claim to Have Lost Money in Hotel

H. Bruhn and A. Jones came in from Queen Charlotte Islands a few days ago and registered at a local hotel. They reported to the police yesterday that two pocket books had been taken from their clothes while they slept. One contained \$100 and the other \$60. The men stated that the key had been knocked out of their door while they slept, the room entered and the pocket books taken from their coats. There was a \$100 bill in one wallet. A slash had also been made in a suit case which was locked, but nothing in the case had been disturbed.
One of the men had money after the robbery, and explained that he had hidden it in his shoe. Those who slept in the adjoining rooms and the man on duty all night in the hotel heard no sounds and the robbery is hard to explain.
Everyone is watching for a hundred dollar bill.

WOMAN'S SUFFRAGE SUBJECT OF DEBATE

Progressive Debating Society Argued Problem Vigorously Last Evening

The question of the extension of the franchise to women was the subject for discussion at the weekly meeting of the Young Men's Progressive Debating Society last night, under the presidency of Mr. T. Roberts.
Mr. C. R. Murray for the negative presented a closely reasoned case, citing instances of the unimproved conditions where the franchise was enjoyed. While the question had been a good deal in the public eye of late, and the intellectual equality of the sexes had been more or less admitted in many professions, there still remained the fact that law-making and law enforcement were inevitably bound up together, and so long as right prevailed by virtue of might they must remain in the hands of the stronger sex.
Mr. J. M. Clague for the affirmative argued that the present opposition to the vote and the subjection of woman was based on traditional sentiment which had its root in savagery. Since intellectual equality had been established the most potent argument of the opposition had been destroyed. The principle of no taxation without representation would appear to have been abandoned, and the qualification to bear arms substituted. If that were so we must continue to groan under the iron heel of a thinly disguised militarism, and indefinitely postpone the day of universal peace. An interesting discussion followed.
At the next meeting Mr. W. R. Jones will give a paper on "Am I my brother's keeper?"

STORM DELAYS TRAIN ALSO SS. PRINCE RUPERT

The heavy snow storm yesterday tied up the G. T. P. outbound express up the Skeena valley. Yesterday afternoon the train ran into five feet of heavy snow and got stalled at Kwinitsa. She was there all night and had to be rescued by a rotary plow from this end. She will arrive late this afternoon.
The steamer Prince Rupert tied up at Granby Bay yesterday and last evening waiting for a blinding snow storm to slack up. She pulled out at daylight this morning and arrived here at one o'clock. She will await the arrival of the train.

BORDEN SAYS IT IS MILLERS WHO DEMAND FREE WHEAT

CRUSE SAYS THE DEMAND IS FROM THE FARMERS AND THE FARMERS OF ONTARIO ASK FOR IT AS WELL

(Special to The Daily News.)
Ottawa, Jan. 30.—Premier Borden is again in his seat after several days' absence through a slight illness.
The debate on the address was continued by Mr. Borden in referring to the fact that Saskatchewan and Manitoba passed resolutions favoring free wheat. He said this opposition came from the milling interests, certainly not from the farmers. There were strong indications that the market to the south was the logical one for the trade to flow.
Mr. Cruse, Dauphin, said he took the ground that ample proof already justified the reasonableness of the demands for free wheat, not only by the organized farmers, who demanded the removal of the duty. They had discussed these questions and organized the farmers of Ontario before it was brought before the government.

SOCIETY GETS NEW THRILL FROM VANDERBILT WRECK

MILLIONAIRE'S YACHT POUNDED ON REEF FOR A DAY AND NIGHT UNTIL RESCUED BY THE ALMIRANTE

(Special to The Daily News)
Colon, Jan. 30.—The steamer Almirante arrived here with Mr. and Mrs. F. W. Vanderbilt, the Duke and Duchess of Manchester and Lord Faulkner, who were rescued from Vanderbilt's yacht which ran ashore in the storm on Monday. Apparently the guests suffered no ill effects in their thrilling experience, which included one day and night of uncertainty while the yacht was being pounded on the high seas and the trip through the breakers from the stranded vessel to the Almirante in the wrecking tug from Kingston. The yacht is lost and great anxiety is felt for the captain and crew, who were left aboard.

PRINCE RUPERT HOSPITAL PRESENTS SPLENDID REPORT

ANNUAL MEETING OF ASSOCIATION LAST EVENING—RE-ELECTED BOARD AFTER GOOD REPORTS—VOTES OF THANKS AND COMMENDATIONS

A representative gathering of business men met in the city hall last evening at the annual meeting of the Hospital Association. President D. G. Stewart was in the chair and W. H. Wright, the permanent secretary, read the minutes and the reports.
Board's General Report
The general report of the board shows splendid work during the year and a very satisfactory condition of finances.
The total number of patients admitted during the year was 607, who with 20 patients in residence on 1st January, 1913, made up a grand total of 627 patients treated during the year, an increase of 33.4 per cent. over 1912. Of these 428 were male and 199 female. There were discharged, cured or relieved, male 392, female 188, total 580.
Deaths—Male 16, female 8, total 24.
Remaining in hospital—Male 20, female 3, total 23.
The percentage of details to cases treated was 3.83, which low death rate compares very favorably with that of similar institutions in Canada. The total number of hospital days was 11,258, and the average period of residence was 18 days.
The board have pleasure in reporting that the new Connaught wing is now completed and that with the additional accommodation at disposal the working of the hospital has been made easier and more efficient. The electric elevator, the first of its kind in Prince Rupert, is proving a great convenience in transporting patients to the operating room and the several floors.
In March last the provincial secretary, the Hon. Dr. Young, was kind enough to perform the ceremony of declaring the new wing officially open. The board presented the minister with a golden key suitably inscribed as a souvenir of the event.
The board has had under consideration for some time the erection of a nurses home, and on their instructions a letter has been written to Mr. William Manson, the member of the local legislature for this district, inviting his good offices with the government to secure an appropriation of \$10,000 towards this end.
It is with regret that the board have to record the death of one of the life members of the association, the late Mr. C. D. Rand of Vancouver, a gentleman well known in Prince Rupert.
There has been written off the fees chargeable against patients the following: City patients, 35, \$2,196.86; provincial government, 10, \$1,955.15; directors' card, 1, \$721.75; bad debts, 20, \$605.85; total, \$5,479.61.
Also a reasonable sum from the building and equipment as depreciation.
The total cost of maintenance per occupied bed is \$2.69; this includes all cost of maintenance except depreciation and insurance. Every effort is being made to reduce this cost to the lowest figure without impairing the efficiency of working, and the system of purchasing supplies on tender inaugurated during the year has aided in keeping the cost low.
The board desires to express their thanks to the provincial government and to the council of the city of Prince Rupert for their handsome donations of \$10,000 each towards the com-

DAILY EDITION

Friday, Jan. 30, 1914

There was great joy in the Tory camp when President Wilson of the United States announced his Tariff Bill. All over the country it was loudly acclaimed that we were to have the benefits of reciprocity without any concession on our part. The cost of living would be immediately reduced and the hum of prosperity would again be heard in the land.

The American Tariff Bill has become law and instead of the results expected by the Tories, we have the exact reverse. It so happens that the articles placed on the free list by the United States are the very ones that are required for home consumption. The American tariff wall being thrown down, however, we find an additional demand for these very products, and consequently a big increase in the price. Instead, therefore, of a decrease in the cost of living, we find that an additional load is placed on the backs of the common people.

The Americans, however, have shown their usual shrewdness in framing the bill. They have not thrown down the whole wall as was expected. In the most important clauses there is a proviso to the effect that it shall only come into force when Canada has made a similar reduction. Consequently the Canadian wheat is shut out of the big American markets. The Canadian farmer is denied the high prices and the short transportation to which he is entitled by right because a few "old women" down in Ottawa fear the contamination of American trade.

The cause of the high cost of living appears to be the most elusive thing in the world. Indeed it must be something supernatural when so many royal commissions have failed to run it down. Perhaps these well paid gentlemen who constitute the boards are searching in the wrong direction. Indeed they appear to be on the will o' the wisp search of the "Elixir of Life." Why not get down to common sense and adopt the methods of medical science? The first and only treatment for a deranged physical system is a return to the "simple life." Throw down all the artificial barriers and let nature have full sway.

Why not adopt this method in treating the ills of society? Cast off the artificial barriers that prevent the proper circulation of society's blood. Give lots of room for exercise. Do not fence up society in its own back yard. Allow free intercourse between neighbors. When this is done prices will soon reach their normal level and there will be no further need for royal commissions.

This is the solution offered by Sir Wilfrid Laurier for the high cost of living. He believes it is a result of the monopoly created by the high tariff. He would throw down that barrier so as to permit of healthy competition. In doing that he is curing the wound by getting at the cause, while the Tories are endeavoring to remove it by external treatment. Let us no longer halt between two opinions, but let us give Sir Wilfrid Laurier that support that will enable his cause to triumph.

CHAUNCEY DEPEW'S SECRET
TRAINING FOR BIG DINNERS

WORKS HARD ALL DAY AND MAKES DINNERS HIS RECREATION—RESTRAINS HIS APPETITE AND GOES HOME EARLY

When Mayor John Purroy Mitchell, of New York, confessed that his digestive organs were not strong enough to weather a series of dinners to which he had been invited just before the Christmas holidays, his weakness was attributed to youthfulness by ex-Senator Chauncey M. Depew, who heads the list of the country's famous banqueters and after dinner speakers. Mr. Depew has been attending big dinners for forty years, and says that it was by training that he learned how to attend public eating affairs and avoid night-mares, headaches, and kindred ailments. He talked with a reporter for the New York Press:

"If I am known as an after-dinner speaker I hope I am also known as a man who works harder than most others. My dinners never have interfered

with my business—they have been my relaxation. Most men get their relaxation in cards. That makes them keep late hours, and they sit in a room with bad air and drink cocktails. They die young. But the public never learns of their card playing. So it says they have been killed by overwork, and they are lauded as martyrs to their activity.

"When I was very young I decided to make dinners my recreation. Speaking was very easy to me. Every man has his forte, and I suppose that is mine. I find it easy to remember things. I find that, when I walk around my library table for an hour before dinner and think of the subject I am to talk on, everything I have heard or read about that subject comes back to me. After my speech I go home, and am in bed about 11 o'clock. The next morning I am fresh and ready to be at work at nine. For

years I worked in my office without going out to lunch—I ate it on my desk.

"At 6 o'clock I would go home and take a nap for ten minutes. Then I would find what I was to speak on and be ready to keep the engagement at 8.

"My digestion might have bothered me had I not been careful to eat the dinner just as I would have at home. Indigestion must be guarded against—it is the greatest enemy to a clear head and clear thinking.

"I experimented to find just what I could eat best. I soon determined to play with everything, but eat nothing except the roast and game courses. The trouble with the average young man is that he cannot restrain his appetite. The things are placed before him, and they are so good that he eats them. Of course, he is apt to eat too much. But a public banquet, if eaten with thought and care, is no more of a strain than dinner at home."

Ore by Parcel Post

Butte, Mont., Jan. 29.—The post office inspectors have been informed that the mines in the Elk River country expected to ship all their concentrates by parcel post in future, instead of by freight. The rate by parcel post is 54 cents for the maximum fifty pounds, or \$1.08 a hundred. The previous arrangement cost the mines much more than \$1.08. The carrier will haul as many of the fifty-pound packages as he can handle on his one trip a day until he is relieved by freighters. The mines have several carloads to ship.

Explosion Kills Five

Quebec, Jan. 26.—Five persons lost their lives in a fire which occurred this morning at Notre Dame, Dubois, a small parish in the mountains of Montmagny county. The victims are Mrs. Jos. Bobin, aged 37, her two children, a lad of 12 years and a baby of 15 days, and two other boys named Labrecque, one aged 13 and the other 11. The accident occurred through the explosion of an oil stove at 6:30 in the morning in a house belonging to Narcisse Proulx and occupied by the Robin and Labrecque families.

PRINCE RUPERT HOSPITAL PRESENTS GOOD REPORT

(Continued from Page 1.)

pletion and equipment of the new Connaught wing. The board also thank the various donors of furnishings, supplies and money during the year.

The Ladies' Auxiliary

The board desires to express their thanks to the Ladies' Auxiliary for their very valuable assistance during the year. The tag day and bazaar carried out under their auspices were very successful. During the year they have added considerably to the equipment of the hospital and have advanced a loan to the association of \$400 for the purchase of sterilizers. These are now on order and are expected in a few days.

The training school for nurses is now a recognized branch of the institution and the classes are making excellent progress. The board wish to tender their thanks to the Prince Rupert Medical Association for their kindness in providing gratuitously the lectures necessary for this course of training.

The nursing staff consists at present of a matron, five graduate nurses, eight junior nurses in training and one probationer, but it is the intention of the board to decrease the number of nurses by two so as to secure more economical working. It is very gratifying to the board to put on record their appreciation of the services of the whole staff.

The board would again bring before the notice of the general public the necessity of funds for the upkeep of an institution of this kind. There are only 96 members of the association and this seems to the board a very small membership for a city the size of Prince Rupert.

A very satisfactory report was also received from the Ladies' Auxiliary, showing they had a balance of \$400 in the bank and had loaned \$400 to the association.

The matron's report was also received, and in speaking to it Mr. Nelson said that while there were now five graduate nurses in the hospital they would soon be reduced to three.

In moving the adoption of the general report, Mr. Stephens remarked that he was glad to see the hospital were getting their supplies by tender.

Votes of thanks were passed to the provincial government and the city council for liberal grants; to Wm. Manson for his efforts in getting the provincial grant; to the Ladies' Auxiliary; and to the retiring officers. A vote of confidence in the staff was also passed.

The New Board

The new officers of the association were then elected, and it resulted in the re-election of the old board: Messrs. D. G. Stewart, J. A. Kirkpatrick, C. V. Bennett, O. H. Nelson and Dr. Clayton. Wm. Manson is honorary president. The provincial government and the city council also appoint two members each.

TANGO IS RECOGNIZED BY STATE OFFICIALS

New Dance Gets Place on Program of Ball and Reception in Olympia, Jan. 28

Olympia, Jan. 29.—The tango has gained official recognition in Olympia, as the State Capitol Social Club, which includes in its membership all of the state officials and all state employees, has a tango on its program for January 28, when a big dance and reception, the first of its kind, will be given at the Tumwater Club. At the dance the state officials and the employees will meet for the first time in a big social gathering, and the affair promises to be of more than usual interest.

LOCAL NEWS ITEMS

The Princess Beatrice is expected in this afternoon from the south.

The Prince John arrived late last evening with a number of passengers from Masset.

The Malaspina of the fisheries department pulled into port at noon today.

The steamer Leona came in last evening with 700 tons of cement for Batters & Rogers, cement contractors for the G. T. P.

The Vadsø will be in tomorrow with 300 tons of coal for Rogers & Black, and lumber and lime for the Westholme Lumber Co.

The steamer Venture will make one more trip north and will then go on the dry dock. When she is finished overhauling she will resume the northern run with the Chelohsin and the Camosun will take the Bella Coola run.

The fishing boat Cox of the Allyn Fisheries pulled into port yesterday without a cargo. She had just gone out and met with heavy weather off Ketchikan. She was partially disabled and Capt. Mark Wicks decided to return for repairs.

Reid Got Seven Years

Winnipeg, Jan. 29.—Ex-Convict R. J. Reid, one of the guards of Krafchenko, is to serve a term in the penitentiary. Reid confessed to his participation in the plot to effect the escape of Krafchenko. He has been sentenced to seven years in the penitentiary.

Father Hogan Very Ill

Dr. W. T. Kergin has just returned from Massett where he has been attending Father Hogan, who is very ill. Miss Hogan, a nurse, of Hazelton, is coming down on the train today and hopes to get over to see him immediately, as he is very low.

Congratulations, Tommy!

Mr. Tommy Arneil, the popular accountant for Messrs. Kelly, Douglas & Co., is being congratulated on the arrival yesterday of twins at his home. One is a boy and the other a girl. Tommy says he is taking out some new life insurance.

Frozen - Pipes

Don't follow the old expensive methods of thawing pipes. It costs more than the pipes are worth.

I have just received a new device for thawing pipes by electricity. You don't have to open up your pipes. Just turn the current on and in three minutes the frost is gone.
