MARCONI SCANDAL AGAIN INTERESTS GREAT BRITAIN—BIG SALARY FOR BASEBALL PLAYER

VERY DULL DAY IN HOUSE GOVERNMENT BILLS READ

THE TIME TAKEN UP WITH DISMISSAL OF ALLEGED PARTISANS IN NOVA SCOTIA

(Special to The Daily News.)
Ottawa, Feb. 13.—There was nothing exciting in the house of commons today. A few government bills were advanced a stage. The estimates were also voted on. Private bills considered. Much time was taken up in consideration of the dismissals by the government of alleged partisans in Nova Scotia. The proposal to limit the time

during which railways shall commence construction was discussed. It was suggested that they be allowed one year to commence and complete in three. J. J. Douglas' bill respecting the Calgary and Edmonton railway received its second reading. A bill to amend the Canadian Shipping Act was introduced by Hon. J. D. Hazen, who said that the new provisions do not apply in inland waters.

HOUSE OF LORDS ACTIVE MARCONI SCANDAL RESUMED

CHIEF WITNESS IN INVESTIGATION ARRESTED IN PARIS—WHOLE TRIAL MAY BE GONE OVER AGAIN

(Special to The Daily News.)
London, Feb. 14.—The conflict between the two houses of parliament is already emphasized by the house of lords passing an amendment to the address. This will be further illustrated next week in another direction. It is announced that the Unionist

members in the lords intend to reopen the investigation into the Marconi share affair which created so much excitement last year. This announcement is coincident with the report of the arrest in Paris of C. E. Fenner, the stockbroker interested in the Marconi deals, who bankrupted and absconded.

PRINCE RUPERT PILOT BOARD TO BE APPOINTED SOON

Consist of Five Members Who Will Select Pilots

Now that Prince Rupert is about to become a big ocean port with transpacific steamers making regular calls, it will be necessary to have harbor pilots on the big boats.

Arrangements are about complete for the appointment of a pilot board. It will consist of five members whose duty it will be to select efficient harbor pilots and establish a pilot station. The five will likely be business men of the city and, naturally, will be of the Conservative party, as the appointment will be recommended by H. S. Clements, M.P. The board will have a secretary independent of their own members. These appointments will be made very soon.

Nugget in Hog's Head

Brokenridge, Colo., Feb. 13.—While Mrs. Kate Warren of Dillon, who is manager of the telephone company, was cutting up a hog's head to make head cheese yesterday, she discovered that one of the back teeth of the hog had a large gold nugget about the size of the first joint of her finger.

Miss Maud Haslett, who left yesterday for Vancouver, will be a bride in about two weeks. She is to wed a Mr. Talbot, master mechanic of the saw shops at White Horse. They will reside in that city.

BOARD OF TRADE GETS 13 NEW MEMBERS

Monthly Meeting Shows Lively Interest in City's Commercial Welfare

It was Friday the thirteenth and there were thirteen new members elected to the board of trade last evening. That ought to be an omen of good luck. Certainly last night's meeting showed a good interest in the organization for 1914.

President Naden, who occupied the chair, took occasion to express his thanks for his election to the position. From the enthusiastic start the board had this year it looked to him as though it will be the most prosperous in the history of the board. With the efficient secretary and commissioner the board ought to be able to show results by the end of the year.

The commissioner's report showed considerable publicity being done and progress in the campaign for financial aid. It also presented the names of the following business men, who were later formally elected: V. A. Cole, Dr. Tremayne, E. Finad C. H. Handasyde, M. Lofquist, G. S. Fitzmaurice, R. F. Raik, J. A. Smith, E. D. Harris, Mason Ramsay, T. J. Jamieson, R. J. D. Smith and Sol. Mussalem.

The chairman of the port committee said the commissioner had heard that the Dominion government intended appointing a pilot commission here. He suggested the board request the privilege of nominating one member, but as the information was vague it was left with the committee to deal with.

Blossoms From Muskeg

Last evening a meeting of the Horticultural society was held and arrangements made for holding a public meeting on Tuesday, Feb. 24. At that meeting Mr. Tomlinson, provincial horticulturist, will give an address on how to treat muskeg in order to make it grow vegetables and flowers. The society is making big efforts to encourage the beautifying of the city.

On account of the Orpheus Glee club concert next Wednesday evening, the weekly meeting of the Presbyterian club will be held on Tuesday, Feb. 17th.

RESIDENT PHYSICIAN FOR CITY HOSPITAL

Board Decided to Have One but Appointment Not Yet Made

The petition and recent agitation for a resident doctor at the city hospital apparently had its effect on the hospital management. The board met yesterday and decided to have their own physician in the buildings. This question has been under consideration for some time, and the agitation probably hurried the decision.

Among the expenditures which will be made this year are \$2,000 for X-ray machine, improved kitchen \$2,000, renovating and kalsomining old building \$1,000, resident doctor \$2,000, loss in maintenance \$3,000, totaling \$10,000. The city council will be asked for this amount.

Another plan proposed by the finance committee is to sell tickets at \$1 per month, payable annually. These tickets will entitle the holder to free treatment. The provincial government, which now allows 75c per day for each patient, will be asked to increase the allowance as the increased cost of living has made maintenance expenses higher.

Tenders for groceries were received from Lynch Bros., \$247.55 and Musalem Grocery company, \$248.95. The lowest bid was accepted. Frizzell's meat market got the contract for meat, being the only tender.

Another Indian Case

Wm. Nelson was in police court this morning charged with procuring liquor for an Indian. He was found in a drunken state yesterday with an Indian woman named Mrs. Nelson of Kincolith. He claimed he had been living with her four years, having met her in Vancouver. The woman was also charged with being drunk. The case was adjourned until Monday for further evidence.

Vancouver, Feb. 14.—George Walker, the Canadian middle-weight wrestler, defeated Sam Clapham of London, England, in two straight falls for the title, winning both falls. The first fall took 34 minutes 15 seconds, the second 30 mins. 40 sec.

EASTERN SECTION WILL COST G. T. P. \$15,000 A DAY RENTAL

POSSIBILITY THE GRAND TRUNK MAY REPUDIATE DEAL AND THROW ROAD BACK ON GOVERNMENT'S HANDS

(Special to The Daily News.)
Ottawa, Feb. 14.—The real significance of the report on the construction of the National Transcontinental railway lies in the possibility of the Grand Trunk Pacific repudiating the agreement with the government and refusing to take over the eastern section on completion.

The terrific cost of the road, amounting to \$234,000,000, will entail rental charges upon the

lessees of nearly \$15,000 per diem. That burden the G. T. P. will likely refuse to assume. If the agreement be repudiated the result will be that the whole eastern section, from Moncton to Winnipeg, will remain a charge upon the government and would either have to be operated by them or allowed to pass into the hands of some other railway at a rental far below what the G. T. P. expected to pay and at a consequent loss to the country.

WILLIAM MANSON CHAMPIONS OTHERS BUT FORGETS SKEENA

DEBATE ON MUNICIPAL ACT SHOWS FIGHTING CALIBRE OF PRINCE RUPERT'S MEMBER—AFRAID OF WHAT THE NEIGHBORS MIGHT SAY

(Vancouver Province)
In the discussion on the Municipal Act before the legislature in Victoria on Tuesday Dr. McGuire said:

"It strikes me that the provincial government might as well guarantee the bonds of municipalities and be done with it. Under the present proposals the certificate from the government inspector will be an evidence to the purchaser that all the formalities of the law have been complied with, so that the only question the purchaser will have to consider will be whether the borrowing municipality is actually good for the amount. On this point, it is the well-known policy of the provincial government to sustain the credit of all British Columbia municipalities by seeing to it that any indebtedness they may incur is paid in due time. If any municipality gets into financial trouble a receiver is appointed to straighten out its affairs and if the money needed to pay its bonds cannot be collected by taxation, I have no

doubt the deficit would be met from the provincial treasury rather than allow a default."

What Would Others Say?

Mr. Wm. Manson of Skeena, on the other hand, is inclined to take a somewhat different view. "If you guarantee municipal bonds out and out," says he, "you are liable to get into trouble. Municipalities will be coming here to get power to issue bonds, and when the government says 'You are already in debt deeper than you ought to be,' the municipality will reply: 'Oh, that makes no difference. As long as we have the government guarantee we can sell them all right.' How are the provincial authorities going to be able to stand the pressure? Moreover, it must be remembered that if British Columbia undertakes to guarantee such bonds the investing public in Great Britain is sure to demand forthwith that all the other provinces shall do the same. We would hear from the other provinces if we got them into a fix of that kind."

DAILY EDITION Saturday, Feb. 14, 1914

The following are two clauses selected from the new Municipal Act. Let the readers of The News decide if they are proper clauses to be in the hands of a dictator like W. J. Bowser:

Section 475. "The inspector of municipalities shall have such powers and duties as may be assigned to him and shall be attached to the office of the attorney-general and be under his control."

Sec. 479 (4). "Notwithstanding anything contained in this act no municipality shall issue any debentures, stock or treasury certificates without the debentures, stock or treasury certificates being first approved by the inspector of municipalities under this act and evidenced by his certificate."

The above sections show the trend of politics in British Columbia. Step by step Bowser is backing the people up against a wall and soon all our boasted liberties will be gone. Indeed, it would not be surprising to see him introduce an act giving authority

to his agents to decide who shall be privileged to vote.

Prince Rupert might as well have no charter at all if this act becomes law. That charter will be absolutely in the control of W. J. Bowser. The act says the inspector of municipalities shall have such powers and duties as may be assigned to him by the attorney-general. Can any one imagine a more sweeping clause? Indeed it is possible that the powers of that inspector will be unlimited. Perhaps he will even have assigned to him the duty of keeping every Liberal off the voters' list.

The better class of Conservatives in Prince Rupert as elsewhere are strongly opposed to this act, yet the fact that the attorney-general has favored it makes it certain that it will be put through.

It remains for a few well-backed individuals to champion the cause of Bowser. Of course the quarterly "relief fund" would not be forthcoming unless they did this. The public, however, know from experience in licence and police matters that such a clause

is dangerous in the hands of a man like Bowser. Indeed they are dangerous in the hands of any man. So long as vote-getting is the outstanding feature of politics no city should be under the domination of the provincial party in power.

MEDICINE HAT GETS \$800,000 IN LONDON

Well Handled Issue is Over-subscribed, but London Market Still Thin

In announcing the over-subscription of the issue of £162,000 of five per cent Medicine Hat debentures in London, the Canadian Associated Press says: "Investors just now are biting freely and are in the most joyous mood for many months." Although the reception tendered the initial effort of Medicine Hat in London market must be gratifying to the municipality, its financial agents Messrs. Wood, Gundy & Co., and the Union bank, the agents for the loan, the result in financial quarters is not taken to mean that the London market is as easy of access to borrowers as ever. The success of any loan, according to private advices from London, will be problematical for some time to come, and the market can easily receive a further setback if requests for capital become very numerous in the near future. London cables to Canadian banks are to the effect that the Medicine Hat loan was exceptionally well handled. The debentures offered are payable at par at twenty, thirty and forty years, and were issued at 92.

PASSENGER TRAFFIC OF BIG SEA PORT

Nearly Million and Half Transatlantic Passengers Land at One Port

"It is surprising the number of passengers that will land from steamers at a big port during one year," remarked a transportation man in the C. P. R. steamship office this morning. "There were nearly one million and a half passengers landed in New York last year off the transatlantic steamers alone."

A tabulated list of the passengers coming in shows the North German Lloyd to have brought over 218,014 passengers, Hamburg American line 162,937, Cunard line 124,079, Red Star 89,753, French line 91,248, Holland American 69,747. In the grand total there were 152,446 first class passengers and one million steerage.

TWINS JOINED TOGETHER BY A TISSUE OF FAT

Another pair of "Siamese" twins born in France. The most astonishing case before the medical world today is that of the babies Susanna and Medeleine, who were born with a tissue of flesh connecting one to the other. The young ladies, as shown in the photograph, will be for some time compelled to live in the awkward face-to-face position seen here. Medical men the world over are watching and studying the case with the interest it deserves. A formation of cells about three inches long and seven inches in thickness, joins the two babies just above the navel. Professor Le Filiatre, the noted surgeon and dean of the French Academy of Medicine, will personally perform the operation, which he feels certain will separate the two youngsters, who will then become normal children. They were born about six weeks ago at Champagne, France. The operation will be a bloodless one, the tissue substance being similar to a lump of fat.

POLITICAL HISTORY

On February 3, 1894, the dissolution of parliament was announced and Sir John Macdonald made what was destined to be his last appeal to the country. Immediately following the announcement the first shot of the campaign was fired with the publication of a despatch which outlined the terms of reciprocity negotiations with the United States, contemplating a joint commission for the consideration of the renewal of the reciprocity treaty of 1854, with necessary modifications, and a consideration of fishery matters. The Liberals were willing to go much further in trade concessions than Sir John would, and the campaign was enlivened by the publication of a statement by James G. Blaine, then head of the United States department of state, virtually supporting the Liberal platform, and declaring that the Conservative reciprocity programme would not be considered. Sir John Macdonald's manifesto and Wilfrid Laurier's address to the people of Canada, by way of reply, were other features of a political contest that attracted international attention.

QUEEN CHARLOTTE OIL FIELDS TO BE TESTED BY GOVERNMENT

GREAT BRITAIN ANXIOUS TO SECURE OIL ON BRITISH TERRITORY—EXPERT TO BE SENT OUT—GRAHAM ISLAND WILL GET ATTENTION

Dominion government oil experts are to be sent to British Columbia to make examinations of the various oil discoveries which have been made here. News of this was communicated recently to several companies who have obtained leases of oil lands in various parts of the province. These were asked to send to Ottawa what information was in their possession regarding the fields in which they are interested. They were also asked to make reports on what work they have done, what improvements had been made and report also on the indications of oil as shown as work progressed.

It is explained that this season the government geological department, which has carried its inspection of general mining districts to such a point that accurate information regarding almost any section of the Dominion is now available, intends to proceed to obtain reports by its geologist on the oil lands of the country.

Several important oil discoveries have been made in British Columbia, most notably those on Graham Island, the largest of the Queen Charlotte group. On the rock-bound and storm-swept coast of this island oil tar exudes, natural paraffin wax is found in most unlikely places,

the rocks are saturated with oil and tar and burn rapidly on that account, the formations are good for indications of oil, but the drills at work thus far have not yet obtained sufficient depth to tap the flow.

The government has had reports on this field before, but nothing of late, nor anything particularly detailed from a geological standpoint. There are several other places in the province where indications of oil are strong.

The British Government is particularly anxious at this time to find oil on British soil, Mexico and California at present are the large producers of fuel oil, and this is the character of the oil most largely sought as fuel oil. It is fast taking the place of coal in the shipping world, and also for the furnishing of power for warlike vessels.

The fact that the Standard Oil interests will soon locate a refinery on Burrard Inlet, and in this connection will endeavor to obtain possession of such oil lands as are proven, is lending a great deal of activity to the efforts to discover the flows. Government experts last fall examined the discoveries in the vicinity of Edmonton. Attention this season is to be devoted to British Columbia.

Chinaman Got Off

Habeas corpus proceedings were argued before Judge Young yesterday. Stank Kip, who was found guilty by two magistrates at Port Nelson of selling liquor to Indians, was lodged in jail in default of paying his fine. He employed a lawyer, who discovered that this imprisonment was technically illegal. After argument Judge Young allowed the Chinaman his liberty.

under the British flag, still the conditions were such that only those of the strongest character could survive it. The environment was antagonistic to their ideals; they could only work five days a week if they were true to these ideals, and it was difficult to bring up their children in the true Jewish spirit because they breathed in a secular atmosphere even a Christian atmosphere. The loss of Judaism was a picture of desolation, a large number of the people drifted away to "nothingness," and if they could get the figures upon the subject they would be appalled.

"It is tragic," said the speaker, to see Jews slain in Russia, it is just as heartbreaking to see the fading of Judaism in this part of the world. There must be found a land where the Jewish spirit can be fostered, and that land is Palestine. Even in Canada and the United States they are beginning to close the doors to the Jew because they require passports from the Russian government."

Then came the propaganda of the Zionist movement, which was to buy land in Palestine and encourage Jews to settle there, because there Judaism would flourish, and it would mean the giving of a new heart to the Jewish people.

The meeting was held under the auspices of the Norda Zion club, and at the close \$100 was collected for the movement. Ten thousand dollars is the amount aimed at in Canada, and of this amount over \$8,000 has already been collected.

Paul Gerlach of Afton, Sask., Grows Best Wheat in World

An evidence of the fertility of the soil through which the Grand Trunk Pacific railway passes is given in a circular recently issued by Mr. Paul Gerlach of Afton, Sask. Mr. Gerlach is the winner of the world's grand prize for growing the best sample of wheat. The circular describes his method of improving the seed through a process of several years. The seed used was originally a sample of Marquis secured from the Dominion government. This was planted in small plots and carefully selected each year until last year Mr. Gerlach produced 35 bushels to the acre with a sample which weighed 71 pounds to the bushel.

The prize was awarded at the International Dry Farming congress held in the United States recently.

JEWS IMPORTUNED TO BUY PALESTINE

British Flag Gives Freedom but Environment Inductive to the Abandonment of Faith

It is doubtful if the Lyric theatre, Toronto, in all the vicissitudes of its strange and chequered career ever heard such an address as that given recently by Dr. Abramowitz of Montreal, the leader of the Zionist movement in Canada. The history of that strange, silent figure, the Jew (who is an alien in all countries) with all his hopes and aspirations for a final rehabilitation of his "homeland" was set forth by the speaker in so eloquent a manner, and with such beauty of language that even the most stolid was moved to enthusiasm.

The speaker deplored the fact that many Jews were taking merely an academic interest in the question of the return of the race to Palestine, and gave a thrilling recital of the persecution of the Jews in some countries of Europe, the atrocities which they suffered and the gradual process of extermination to which they were being subjected. "The Russian Jew is in constant fear of his life," he declared. The Jew in Poland was boycotted commercially, and this produced a result worse than the massacres, because the latter were only periodical.

Then came the question of Judaism, the gradual dropping away from the faith of their fathers. While they were allowed all the freedom possible

The Tale The Wagons Tell

My office window faces a street, close to the railway freight sheds.

All day long a steady stream of trucks and lorries lumber by—loaded with boxes, barrels and bales.

One truck I noticed the other afternoon was particularly interesting. No two boxes were the same, and stencilled on the end of each was the name of some well-known product—soap, tobacco, socks, breakfast food, cocoa, port, tea, chocolates, perfumery and baking powder.

Gathered there in prosaic wooden boxes were the results of thousands of hand's labor in all parts of the world.

There, behind that obviously prosaic truck-load of freight was the whole romance of modern commerce—the skilled production, the universal demand for food, drink and raiment, and the world-wide distribution of the things we use every day.

And then I speculated why we use these things every day, instead of some other things; and that brought me plump back to my own job of advertising.

The names of some of the boxes on the lorry were known everywhere to-day, but had been unknown a few years ago; and I saw then more clearly than ever before that Advertising is really a great channel digger. It is like the Panama Canal. You can sail from Montreal to Vancouver now, around the Horn. You can get there, but it is going to take months. A year or so from now you will sail through the Panama Canal and chop the journey to less than half. A new channel will have been dug.

The great names in commerce to-day are those of the manufacturers who have let modern advertising steam-shovel a channel across the isthmus of distributing difficulties.

The great names in the commerce of to-morrow will be those of men who widen and dredge this channel so that the greater traffic may pass smoothly and quickly from the source of production to the homes of the consumer.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

A NEWSPAPER for Prince Rupert and Northern B.C.

The Daily News goes into nearly every home in Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate optimism and reliability.

The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.

Raymond Love, brother of H. R. Love of the Imperial Machine works, is in New Hazelton finishing up a few contracts.

Mr. Maynard Mustard, who recently returned from Vancouver, is a guest of Mrs. H. L. Robertson pending his return home.

The music at the Eagles' dance was furnished by their own orchestra. Alex. Gray is the leader.

Have you read the objectionable clauses in the new Municipal Act? You can find them in today's editorial.

Mr. F. D. Kelly, formerly of this city, has sold out his hotel business at Lillooet and is spending the winter in Toronto.

Developing and finishing for amateurs, by Benson, the photographer, 621 Second Avenue, near Sixth Street. 36-37

Are the people satisfied with the government control of licences and police? The new municipal act will bring everything else under the same control.

Mr. A. J. Burrows of the Prince Rupert Lumber company is back from a trip to Seattle and Portland. He reports business quiet in the southern cities but thinks Vancouver will revive shortly.

Ladies' basketball game, married vs. single, of the Ladies' Own. Given for benefit of Men's Own gymnasium. In the Auditorium, Feb. 17th, 8 p. m. Admission 25c. 7-38

Mr. and Mrs. E. N. Valentine, lately of Skidegate, have come to Prince Rupert to stay. Mr. Valentine was assistant manager of the Doughty Fisheries company on the Queen Charlottes.

Wilfred C. Reddihough, who left Rupert for his home in Southport, England, last October, is on his way back to the Magic City. He intends to stay for a few days in Toronto, but will be in town before the end of February.

Does your piano need tuning or is your player out of order? Mr. A. L. Sparrler, of Vancouver, an expert in this line of work, is in the city and will attend to orders left at Kauffman's Music Store. 33tf

You no longer need to wait for the bright days to have your photo taken. Benson's Studio, 621 Second Avenue, near Sixth Street, is equipped with the latest methods of operating by electric light. Photos taken day or night. 36-37

J. Rutherford Murray of the municipal electric light plant expects to move into his new house on Alfred street before the end of the month. Jack Nelson and George Ambrose, the contractors, are making good progress with the work in spite of the weather.

Assistant Superintendent Perry of the Weber Chimney company, who broke his ankle while working on the dry dock chimney, is rapidly recovering. He says that if they don't quit dropping things on him he is going to camp at the top of the chimney in the future.

A very capable young woman has called at The News office in search of a situation. The only handicap is that she has a little daughter. She would like to take charge of a mess or assist in family work for a time. Surely there is some one who needs help of this kind. Apply at The Daily News office.

Mr. Wm. Angle, one of Prince Rupert's old timers, has just returned from a two months' trip to St. Thomas, Ont. A great deal of interest is being taken in Prince Rupert back east and Mr. Angle says there will be quite an influx of capital from Ontario as soon as the road is finished. Mr. Angle returned via Los Angeles, San Francisco and Vancouver, but says Rupert beats them all.

Special Sunday dinner 6 to 8 p.m. at the Bay View. 1f

John Smith, late of Prince Rupert, is now at Stornoway, Que.

The Prince John and Princess Beatrice sail for the south tomorrow evening.

The Princess Beatrice came in last evening with a large number of passengers and a full cargo of freight.

The Knights of Pythias will celebrate the golden jubilee of Pythian knighthood on Thursday next.

Whales or no whales, the herring seem to be crowding into the harbor. They are so thick in places that one could almost walk on them.

The Ladies Musical Club will be held at Mrs. Baker's, corner 4th Avenue and Hays Cove Circle, on Tuesday next (not Monday), at 8.30 p.m. 36-38

Mr. Scheinman of the Acme Clothing house is expected back in a few days. He has been away to the big centres securing stock for the new store.

Orme's Third Avenue drug store reports that the last two weeks shows the biggest business of any two weeks in the history of the store.

Jabour Bros.' new store is rapidly approaching completion. Mr. A. H. McPherson is putting in the shelves. Jabours will have one of the finest stores in the city.

Prince Rupert will soon be in the hands of a municipal inspector. That inspector will have any powers that Bowser may assign to him according to the act. Are we Britishers or Russians?

Mr. Woodlands of the Imperial Oil company left by this morning's train for Rose Lake. He intends to take in all places of importance on his way and will probably be back by Sunday week.

Fred Bacon, brother of old-timer B. J. Bacon of the fish market, has gone below to take up a position as second engineer on the Union Steamship company's boat Capilano.

In the hockey game between Hazelton and Smithers at Hazelton on Thursday evening, the home team won by six goals to three. This is their first win. A lot of money was lost on the Smithers team.

N. J. McLeod, manager of the granite quarry on Smith island, was in town yesterday. He says the installation of machinery is practically completed and expects to land his first shipment of crushed rock in Prince Rupert within two weeks.

Wm. Kimber, building contractor, of Vancouver, is in town enquiring into prospects. He has had considerable experience in South Africa, and thinks that Prince Rupert looks like a "live one."

Preparations are under way for a St. George's day banquet on April 23. The celebration last year was a tremendous success and it is expected that the banquet this year will be the biggest ever held in Prince Rupert.

St. Patrick's day, March 17, will be celebrated in Prince Rupert as usual. It is the intention to have a grand concert in the Westholme theatre. An organization with the following officers have it in charge: President, Ald. Morrissey; vice-president, E. C. Gibbons; secretary, Richard Moore; programme committee, Messrs. McNulty, Brady and Roache.

Pantorium Pioneer Cleaners. Phone 4.

Mr. Albert Davidson went up the line yesterday.

Valentine Tea

The Ladies' Aid of the Baptist Church gave a most successful tea yesterday afternoon in the church room. The tea room was prettily decorated with crimson hearts in honor of St. Valentine, the lover's patron saint. Notwithstanding the rough weather a large company assembled and did ample justice to the excellent refreshments provided. The arrangements were admirably carried out by Mrs. Wilson Murray, the President of the Ladies' Aid, assisted by Mrs. Neil McLeod, Miss Wark, Miss Clark and many other ladies. Tea was served by Mrs. Muse, Miss Daggett and Miss B. McDonald, Mrs. Melville and Mrs. Frank Ellis. Mrs. Wm. Manson looked in during the afternoon. The proceeds of the tea and other work undertaken by the Ladies' Aid is materially aiding the church work by paying off debts that have accumulated.
