

BRIGHT OUTLOOK FOR PRINCE RUPERT BUSINESS

DOMINION ELECTION ACT TO BE REFORMED--BOTH HOUSES APPROVE ALASKA RAILWAY BILL

CONSERVING WATER RIGHTS

When the morning organ asks if it is to be supposed that the government is to reserve all rights which it holds in water for its own purposes, the answer unequivocally is that all water required by, or even remotely likely to be required by the state for its own purposes, should certainly be reserved for the state.

At the time of the incorporation of the city one of the excuses given by the premier, Sir Richard McBride, as to why his government could not make certain reservations asked for by the city was that the government was trustee for all the people of the province. As trustee for all the people he could not allocate (we use his words) for the use of the city what belonged to all the people of the province. In spite of the fact that he was not willing to give the city the rights which could only be of benefit to that portion of the state which these rights could serve (in this case the city), the McBride government gave away these same rights to private individuals. The city's water supply was given away, not to a Liberal, as the morning paper suggested might have been the case, but to the president of the Conservative association in Vancouver.

Perhaps the morning apologizer of the Bowser-McBride machine should get busy and tell us in what particular that combination of which we are ashamed to have to designate as a government committed to the city the rights which properly belonged to it.

PRINCE RUPERT BUSINESS BRIGHT GROWING COMMERCIAL CENTRE

OPINION OF PROMINENT BUSINESS MAN IT IS THE BEST COMMERCIAL PROPOSITION IN THE COUNTRY—COMMENTS THAT JUSTIFY OPTIMISM

Two prominent Prince Rupert merchants voluntarily mentioned in the Daily News this morning that business in the city is exceptionally good. The statements were entirely independent of each other, and each was unqualified. It was also a coincidence that both men are in the mercantile occupation which is in close touch with the wage-earning public, it has a significance which cannot be overlooked.

This has been the best February for business I have experienced since opening in Prince Rupert," was the statement of Martin O'Reilly. "All these things you see on the street seem to have money and are putting it in circulation. You know men don't usually dress up with the money they have in their pockets. There is a good pay-off on regular occupation here. I find this is becoming more and more a shopping centre every day.

We have customers coming in now from all over the coast and interior districts."

Over on Second avenue The News representative met Mr. N. Scheinman, who has just returned from a business trip to the east. Mr. Scheinman said: "After looking over a great many towns and cities of the east, I am satisfied Prince Rupert is the best proposition of them all. Business continues to make a good showing here in spite of the off season. There is every indication of a splendid year for Rupert. In fact I am satisfied the next two years will be the best in the city's commercial existence."

Voluntary comments like these have a musical ring to the ears of Prince Rupert people and those who retain the optimistic spirit in spite of all the hard time rumors from outside seem to be justified in their opinion.

This is the dawn of Prince Rupert's big growing time.

The New York American Banker says: "Bankers at this centre predict that we are to have a period of easy money rates, and the prospect of this condition has induced a large increase in investment trading, both of bonds and stocks. The stock market after reporting on Monday that the January trading record had greatly exceeded the record for preceding months, started in to establish new records for the current period. We are now facing the condition of favorable money markets, broad investment demand and a widening of the activities of general trade."

NOTICE

The annual meeting of the Prince Rupert Liberal Association will be held in St. Andrew's Hall, Thursday, Feb. 19, at 8 p. m., for the purpose of electing officers for the ensuing year and the transaction of any other business that may come before it. P. W. Anderson, Secretary.

**ORPHEUS GLEE CLUB
MADE A GREAT HIT**

Grand Concert in Westholme Last Evening Pleased Many Music-lovers

A full house greeted the Orpheus Glee club in the Westholme last evening. It was a critical audience, too, but the unanimous verdict before the program was half over was that Prince Rupert has a musical organization and artistic talent which the city may well feel proud of.

The Glee club with nineteen members was particularly fine in the five numbers in which they appeared. Their work showed individual merit and excellent training and musical judgment on the part of the conductor, Mr. J. E. Davey. The members of the club are:

First tenors—W. Barker, J. L. Evans, H. G. Fletcher, M. Henderson, S. Massey and J. G. Steen.

Second tenors—F. Derry, R. S. Dowther, H. Shruball and G. Waddell.

First bass—M. Davis, C. W. W. Gault, E. V. Ling and W. H. Melliar.

Second bass—A. Clapperton, J. Clapperton, M. Gorkill, J. Roberts and W. G. Walford.

Accompanist—G. W. Chalmers.

The accompanist was G. W. Chalmers.

The Westholme orchestra, another of the city's excellent musical organizations, gave two numbers. Their Rossini overture won particular praise.

Mr. C. A. G. Armstrong, who gave two solos, is a tenor whose talent is well known in the city. A few heard him for the first time last evening and they were enthusiastic in their praise of his voice.

Mrs. Wm. Millar has a rare soprano voice which is a real pleasure to hear.

Mrs. G. A. Bryant has much skill and showed finished work in her guitar solo.

Mrs. E. H. Paterson, elocutionist, has dramatic ability much above the average and her readings were thoroughly enjoyed.

Several other members also deserve mention, but the whole program was made up of good talent and pleasing selections.

Mr. T. D. Pattullo, president of the association, was chairman.

**HYDRO EXPERT HERE
TENDER ON MACHINERY**

Visited Site of Power House Yesterday and Claims Scheme is Economical Proposition

Mr. M. Wright, travelling hydro expert of the Canadian General Electric company, arrived in the city yesterday. In the afternoon he visited the site of the power house for the city hydro-electric scheme. He was accompanied by the city electrical superintendent.

The visitor expressed the opinion that the proposition was one of the most economical schemes he has seen. He gave every encouragement to believe that it would be possible to get the machinery in and the power operating by September 1. He took a copy of the city's plans and will submit them to the company's chief electrical engineer for suggestions as to the means of getting the greatest efficiency from the power available.

The Canadian General Electric intends putting in a bid for the machinery required and their representative was sent to make a personal survey of the situation.

The visitor said it would take three months from the time the machinery is ordered to get delivery.

LIBERAL MEETING TONIGHT

Tonight in St. Andrew's hall the Liberal Association of Prince Rupert will hold their annual meeting. It will be an interesting session. Some of the principal items of business will be the election of officers and the selection of delegates to the provincial convention in Victoria.

On January 9, 1914, the provincial government cancelled the reserve on all the water rights on Kaien Island and Tsimpsean Peninsula. From that date to January 13 anybody could have staked the streams in this district. On January 13, 1914, a reserve was placed on "all unrecorded waters" of McNicholl Creek, Denise Creek and Cloyas River.

Is it possible that another officer of the Conservative association has slipped in in the meantime and secured those streams. At any rate, what about the Wark's Channel power? This, apparently, is not reserved. William Manson promised to keep this for the city. He has not succeeded in doing so. Why not?

**ASKED FOR FOUR BITS
GOT BLOODY NOSE**

Little Son of Italy Butted in on Irish Dinner Party and Was Butted Out Again

Pete Nicolette is a young Italian boy with more nerve than politeness. He entered the noodle shop on Third avenue the other day and accosted an acquaintance who was having lunch with some friends. He wanted a drink or four bits in lieu thereof. One of them told the kid to beat it, and the little son of Italy, not understanding Irish characteristics, responded with some cuss words.

Presently the boy picked himself up outside. He had a bloody nose and badly ruffled feelings. He reported at the police station and laid a complaint.

The case was heard in police court this morning. The Chinese waiter, who was called by the prosecution, was very discreet in his evidence. He thought they were only playing.

The magistrate dismissed the case.

Building New Wharf

The Westholme Lumber company has taken over the waterfront lease of the Swanson Bay company which adjoins the Westholme dock. The local company intend extending their wharf and Mark Hyatt has his pile driver on the site ready to start operations. Creosote piles will be used in the wharf.

Want Bridge Over Nechaco

Mr. T. Collart has received a newsy letter from his partner, who is wintering in Ft. George. Mr. Reynolds among other things says there is an agitation on between the townsites owners and citizens now for a bridge over the Nechaco at a point where the two townsites join. This bridge would give access to a large country north of the city.

Announcement

Mrs. D. H. Morrison will not receive tomorrow (Friday).

Capt. Babington started out last evening to rescue the Zelta May, a fishing boat which the Spokane reported to be in distress. The captain's craft hit a rock and broke her propeller and had to come back for repairs.

He anticipated the good which would come from such an organization in the city. Recently he had heard McCormick sing in Victoria, brought there by such an organization. The Orpheus club would within a few months be able to bring great artists to Prince Rupert. Besides there might even prove to be a Caruso or Tetravini among our own talent.

WILL REFORM ELECTION ACT QUESTION AGITATED IN HOUSE

McLEAN OF HALIFAX MOVED APPOINTMENT OF A COMMITTEE—MINISTER OF JUSTICE SUPPORTS IT—FAVORS PRINCIPLE OF BRITISH ACT

(Special to The Daily News)

Ottawa, Feb. 19.—The parliament of Canada has formally committed itself to the task of dealing with the question of electoral reform. This momentous step was decided upon as the result of a resolution moved by Mr. McLean of Halifax.

Mr. McLean moved for the appointment of a committee of the house to investigate corrupt practices and to provide for greater purity at elections by making it necessary that amendments which controvert the elections act be reviewed in principle. This is a feature of the act in force in Great Britain, including the provision of a public prosecutor. While not advocating their adoption, he said the advisability of incorporating all or some in a Canadian act will engage the attention of the house committee.

Mr. Doherty agreed to the proposal that a committee be named. He thought much could be done in the way of improving the elections act. In some respects it was too stringent, in others not severe enough. He thought a distinction should be made between candidates who were personally honest but whose agents were guilty of offences against the act and candidates who done corruption.

BRIBERY CASE IN BRITAIN SENT TO JAIL FIVE MONTHS

ITALIAN TRIED TO INFLUENCE RESULT OF GAME OF FOOTBALL—FAMOUS PLAYER LAYS A TRAP AND HAS HIM ARRESTED

(Special to The Daily News)

London, Feb. 9.—An Italian by the name of Bioletti has been sentenced to five months in the second division for unsuccessfully tempting one of England's most famous footballers, Jesse Pennington, in the interests of the football betting system run by his son in Geneva.

Bioletti offered Pennington £55 to make the result of the match between West Bromwich Albion and Everton end in a win for Everton or a draw. Pennington pretended to fall in with the idea and communicated with the manager of the club. The match ended in a draw and Pennington demanded the money, which Bioletti handed over. Then the manager and the police came up and arrested him. A similar charge is pending against Bioletti with regard to the Birmingham club.

PRESIDENT IS INCONSISTENT SO DECLARE HIS OPPONENTS

ACTIVE DISCUSSION IN UNITED STATES HOUSE—PRESIDENT CHIDED FOR OPPOSING WOMAN SUFFRAGE—ATTACK ON REPEAL OF PANAMA FREE TOLLS

(Special to The Daily News)

Washington, D. C., Feb. 19.—His opponents are accusing President Wilson of inconsistency in his views of the binding effect of the Democratic platform and charging that the greed of the railroads is audacious. They also claim that Great Britain seems even more modern than the president in his appeal to the womanhood of the nation. Senator Bristow, a Republican from Kansas, turned the discussion of woman suffrage in the senate into a vigorous debate on the proposed repeal of the free tolls provision in the Panama canal act.

MODERN APPOINTMENTS FOR NEW PREMIER

President George Morrow is Making Tour to Get the Latest Ideas

Mr. Geo. Morrow, president of the Premier Hotel company, is making a tour of the leading big hotels of the south to get ideas for the furnishing and appointments of the New Premier here. The company anticipates making the Premier right up to date in every detail, and Mr. Morrow is not likely to overlook anything that will add to the attractiveness of Prince Rupert's handsome new hotel.

ALASKA RAILWAY BILL PASSED BOTH HOUSES

Large Sum Set Aside for Development of Alaska—Will Open Up Large Coal Deposits

(Special to The Daily News)

Washington, D. C., Feb. 19.—The administration Alaska railroad bill authorizing the president to construct a \$35,000,000 road from the Alaskan coast through the great coal fields passed the house by a vote of 230 to 87. A similar bill has passed the senate. The bills were taken up at a conference between the two houses with a view of sending the measure to the president to sign the same.

DAILY EDITION

Thursday, Feb. 19, 1914

The McBride machine has
been so powerful in the past
that no one has dared to op-
pose them. Now that The
Daily News has entered the
lists and challenged the divi-
nity of that sway, it is most
amusing to see how some of
the mossbacks get in a flurry.
The News has, however, at-
tained to the full sovereignty
of British citizenship and will
continue to criticize the govern-
ment until they decide to
reform or give place to better
men.

It is wonderful the length to
which some people will go in
defence of a party which pro-
vides their bread and butter.
Some little Tories even defend
the granting of the Tsimplsean
Power company's charter. That
charter pretended to give
unlimited rights over Kaien
Island and the surrounding
country, and that at a time
when everybody knew that a
city was to spring up here,
They might just as well have
offered a monopoly on the air.
Now, however, the Liberal mi-
nority in the house at that
time is blamed for letting the
measure through. In a little
while the two Socialists now
in the house will be blamed
for the new and despicable
Municipal Act. Same logic,
gentlemen.

It is said that Woodworth
Lake could have been staked

by even a Liberal. That does
not defend the government. It
would be just as bad for the
city to have to pay \$15,000 to
a Liberal as a Tory. But why
give it away at all? Why did
they not save it for the city?
The striking thing, however,
is that it was a Tory who
manipulated the deal and that
the president of the Vancou-
ver Conservative association,
A Liberal might have staked
it, but a Liberal could never
have secured the rights. It is
only the men who stand at the
beck and call of the party who
get the juicy plums.

The News is also chided as
being socialistic because it
advocates the reservation of
water rights in the interests of
the people. It is not so very
long since "the member for
the district" was boasting
about having reserved for the
city all the water powers in
proximity thereto, and every
time he said it he was cheered
to the echo. Now it is a mor-
tal sin to advocate public con-
trol of water powers. Why
this change in front? What
"big stick" has been brought
down this time? As far as
The News is concerned, it will
not oppose any scheme in the
interests of the people because
it is socialistic. Whenever
Socialists are right The News
is with them.

Why doesn't somebody of

importance come out to defend
the new Municipal Act? There
are a great many Conserva-
tives in Prince Rupert whose
opinions carry considerable
weight. If it is a good meas-
ure they should defend it. One
word from them would be bet-
ter than a thousand from a
source that the people have
associated with piffle.

As a matter of fact the best
Conservatives in the city are
opposed to the measure. They
know that the bill gives Bow-
ser full control of the city.
They know that he will use it
as he has the liquor licenses
and the control of the police.
They know that every time
Bowser gets a new hold the
liberties of the people are
slipping away. In other words
these men are just as jealous
for the liberties of the people
as the Liberals are, and al-
though they are afraid to take
an open stand, in their minds
they hate the bill like sin.

WILD DENVER SCHEME
TO RECOVER TITANIC

Land Architect Would Raise Big
Wreck by Aid of Electric
Magnets

Denver, Colo., Feb. 17.—To
raise the Titanic, recover the
bodies from its holds and again
fit the ship for sea is a scheme
which Charles Smith, a Denver
architect, hopes to carry out this
year.

For several months Smith has
been drawing plans of submar-
ine boats, scows and other ap-
paratus to be used in raising the
Titanic.

His scheme is first to locate
the ship. He then intends to lo-
wer a submarine, carrying seven
persons, by means of a steel
cable. The submarine will be
attached to a ship on the sur-
face, and communication is to be
had by means of a telephone and
electric signal bells.

The submarine is to be oper-
ated by electricity furnished thr-
ough cables from the ship above
and is to be especially construct-
ed so as to withstand the terrible
pressure which is estimated to
be almost 40 tons a square inch.
As the submarine is lowered
powerful electric magnets will
be attached to its prow. Light steel
cables are to be attached to the
magnets, the other end of which
will be wound around steam win-
ches on scows on the surface.

When the Titanic is found
the magnets against the side of
the wrecked ship and signal to the
men above to turn on the electri-
city, thus adhering mag-
net to the sunken vessel. Magnets
will be placed all around the
ship, and when the last one is in
place the submarine will be pul-
led to the surface and the work
of raising the vessel begun.

The more dollars a man has
behind an argument the more
convincing it is.

GETS AN ARMORED SKULL

Newspaperman Now Has Copper
Covering on Thinktank

Paris, Feb. 18.—A newspaper-
man has been supplied with an
armored skull by Dr. Martel, a
brilliant hospital surgeon. The
man suffered from a tumor of
the brain; the tumor was re-
moved after a trepanning operation,
but it was found impossible
to restore a portion of the wall of
the skull which had been cut
away, so Dr. Martel replaced it
with a plate of silvered copper,
only a millimetre thick.

If men were as perfect as
their wives expect them to be
the monotony of married life
would be debilitating.

Post Office Department Will
Start Making Deliveries by
G. T. P. on March 1

A change in the system of de-
livering mails in northern Brit-
ish Columbia is to be inaugu-
rated on March 1, according to
present intentions, it being be-
lieved that all the details of the
proposed reorganization can be
worked out by that date by the
post office department.

Mails will go in from Edmon-
ton over the G. T. P. three times
a week to Fort George, South Ft.
George, Quesnel, Cottonwood
Vanwinkle and Barkerville, the
collections being from all points
east of Calgary. From coast
points mail will go in twice a
week from Prince Rupert to Fort
Fraser, Stella, Endaco, Fraser-
town, Nechaco, Mapes and Chil-
co. This will all be in addition
to the semi-weekly service now
given by automobile from Ash-
croft up the Cariboo trail.

FATHER DUNCAN'S TROUBLE SAYS INDIANS REBELLIOUS

FATHER SHUT OFF WATER SUPPLY AND TRIES TO DRIVE GOVERNMENT TEACHERS AWAY FROM HIS COLONY

Controlling the pipe line from the high mountains of Annette Island, Southeastern Alaska, Father Duncan, aged missionary to the Tsimpsian Indians of New Metlakatla has cut off the fresh water supply of the village as punishment for "his children" who have been rebellious, and as an expression of defiance to the United States government.

The white-haired priest deeply resented Uncle Sam's entrance into the Indian affairs. Since Secretary of the Interior Franklin K. Lane's order was issued establishing a government school at New Metlakatla, a hostile move was expected from Father Duncan, for the government school robs the old missionary of his "children," but the shutting off of the water came as a paralyzing surprise.

In this extremity, the Alaska Native School Service and the New Metlakatla natives appealed to Governor J. F. A. Strong of Alaska and the territory's chief executive addressed a peremptory mandate to the old missionary ordering him instantly to start the mountain waters flowing through the pipes again.

But with the dignity of a ruler in his own domain, Father Duncan has completely ignored Gov. Strong, and made perfectly clear by his attitude that he also holds with as much contempt the powers that be at Washington, D.C. Meanwhile the waterbucket has come into vogue in New Metlakatla.

Determined that the new government teachers shall not suffer, the Indians themselves who petitioned Secretary Lane for the

with the guidance of United States school service, the younger generation of the Haida tribe of Southeastern Alaska natives have established an ideal municipality in which they rule themselves, operate their own lumber mill, general store and fish salteries.

Only twelve or fifteen of his old followers now remain with Father Duncan. His school has dwindled to almost nothing, while last week it was necessary to despatch an additional teacher to aid in handling the new government establishment.

But still there is a love and veneration among the Indians for the white-haired missionary who led them from barbarism to Christianity and a stage of civilization where, with awakened ambition, they now look for higher advancement. While openly hostile on week days, when the Sabbath comes around, all men, women and children of New Metlakatla gather for worship in the church that Father Duncan built and receive his blessing as they have done since 1887.

PICKLED HERRING ARE PUT UP IN NANAIMO

Experimenting With New Process in Fisheries of the Herring Town

Nanaimo, Feb. 18.—Another industry has been started in this city, with small beginnings it is true, but one that has all the earmarks of great possibilities. This is the pickled herring plant of the Great West Fisheries company, on Newcastle townsite.

The Great West Fisheries is a Victoria company that has decided there is a good market for pickled herring put up in Nanaimo. The herring will be put up in wooden barrels and kits.

Last summer nine young Scotch women, expert curers, were brought out to this country to assist in the plant. The plant expects to operate in some form the fisheries the year round.

100 SPITTERS ARE FINED

Maximum of Arrests Reached in Crusade in Chicago

Chicago, Feb. 18.—One hundred and ten men were fined \$1 each today for spitting on the sidewalk. This is by far the largest number of convictions for a day since the crusade began a week ago. Municipal Judge Uhlir discharged five men who spent the night in the cells because they could not furnish bonds. He ordered that the men arrested for this offence hereafter be released on their own recognizance.

G. T. P. at Panama Exposition

The local agent of the Grand Trunk system has been advised by the head office at Montreal that the Panama-Pacific exposition management at San Francisco has approved of the plans submitted for the Grand Trunk building on the fair grounds. The design has been taken from the Spanish renaissance, following to a certain extent the general scheme of architecture of the main palaces of the exposition.

THE ROAD TO THE RIGHT.

YOU'VE met at least one of those few good old souls, who are constantly getting the worst of it when shopping, who don't believe in advertising. A hundred disappointing and instructive experiences have failed to teach him their plain lesson.

When he bought his first watch he was beguiled into buying one without a known name or a trustworthy guarantee. That watch—a poor timekeeper—cost him dearly by reason of missed appointments and missed trains, and for frequent repairs. Yet he paid the price of a good watch.

It is the same story with regard to his underwear, his shoes, and his fountain pen.

This good old soul's case is not unique. Many of us, if the truth be confessed, resemble him; we allow ourselves to be sold merchandise with an unknown brand or trade mark instead of buying merchandise which is well known to us through the medium of advertising. In slang language, we get "stung" pretty often.

In most of these cases we have ourselves to blame, for "the road to the right" thing to buy has been made plain by advertising.

There is no good reason for passing by the known thing, soundly guaranteed, to buy a dubious article, which, quality for quality, cannot be cheaper than the known, branded article.

"It is better to be sure than sorry."

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

ENGLISH HAND-MADE LACE

MADE BY THE COTTAGERS OF BUCKINGHAMSHIRE.

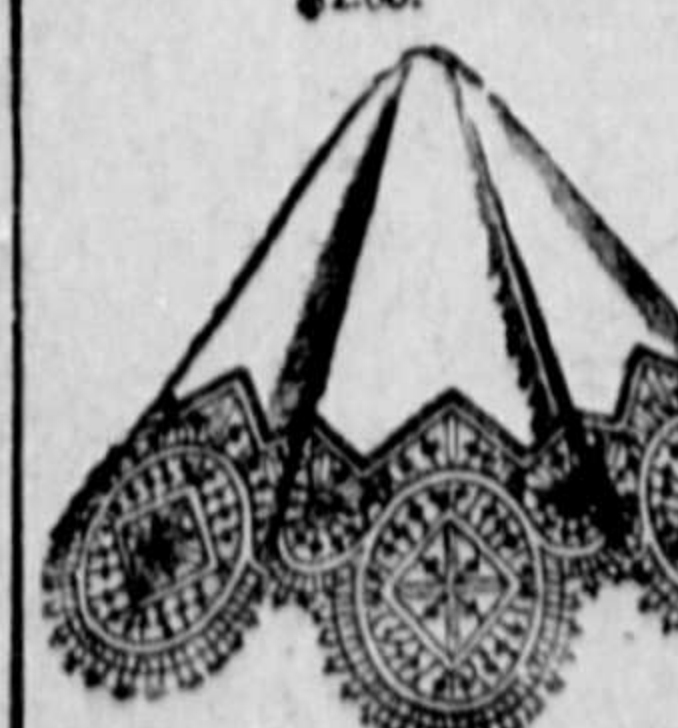

This is the old-fashioned lace made on the cushion, and was first introduced into England by the Flemish Refugees. It is still made by the village women in their quaint old way.

Our Laces were awarded the Gold Medal at the Festival of Empire and Imperial Exhibition, Crystal Palace, LONDON, ENGLAND, for general excellence of workmanship.

BUY some of this hand-made Pillow Lace, it lasts MANY times longer than machine made variety, and imparts an air of distinction to the possessor, at the same time supporting the village lace makers, bringing them little comforts otherwise unobtainable on an agricultural man's wage. Write for descriptive little treatise, entitled "The Pride of North Bucks," containing 200 striking examples of the lace makers' art, and is sent post free to any part of the world. Lace for every purpose can be obtained, and within reach of the most modest purse.

COLLAR—Pure Linen. \$1.00.

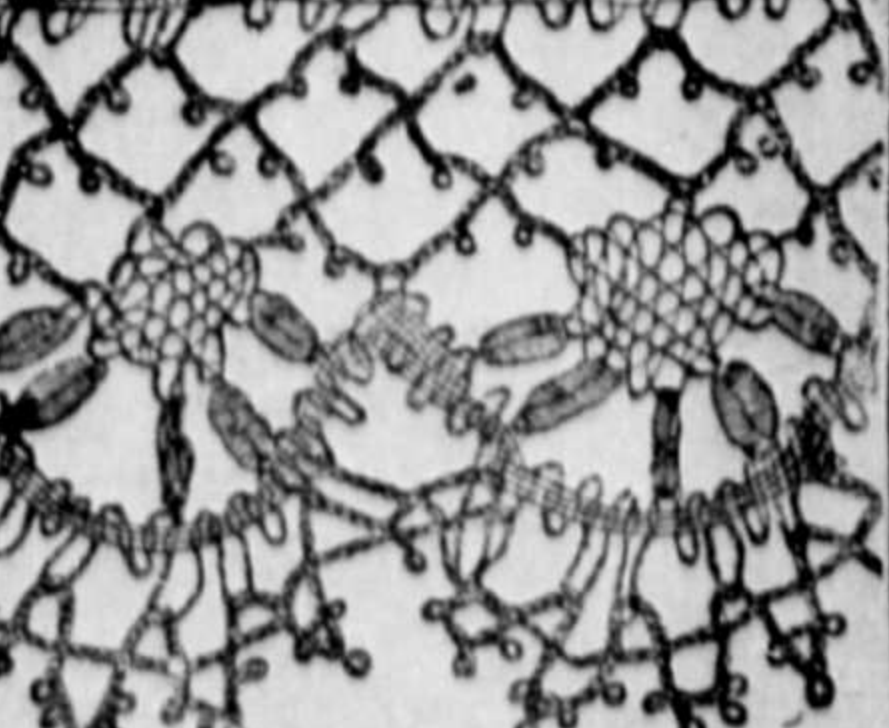

DAINTY HANDKIE—70c. No. 910.—Lace 1 1/2 in. deep.

Collars, Fronts, Plastrons, Jabots, Yokes, Fichus, Berthes, Handkerchiefs, Stocks, Camisoles, Chemise Sets, Tea Cloths, Table Centres, D'Oyleys, Mats, Medallions, Quaker and Peter Pan Sets, etc., \$1.50, \$2.00 up to \$5.00 each. Over 200 designs in yard lace and insertion from 10c., 15c., 25c., 50c., up to \$2.00 per yard.

IRISH CROCHET.
Mrs. Armstrong having over 100 Irish peasant girls connected with her industry, some beautiful samples of Irish hand made laces may be obtained. All work being sold direct from the lace-makers, both the workers and customers derive great advantage.

(1 1/2 in. deep) STOCK—Wool Design. Price 50c. each. (Half shown.)

No. 122.—50c. per yard.

Mrs Rupert Armstrong, Olney, Bucks., England

AN EARLY SPRING TAILOR-MADE

Of dull blue cloth relieved with embroidered linen collar and cuffs; bow and waist belt of black silk.

Skene Land District—District of Coast Range Five.

TAKE NOTICE that I, Thomas McClymont, of the City of Prince Rupert, in the Province of British Columbia, broker, intend to apply for permission to lease thirty (30) acres of land bounded as follows:

Commencing at this post planted where the northerly limit of the right-of-way of the Grand Trunk Pacific Railway Company crosses the westerly bank of the Zimmereitz River, and being about 400 feet east of Mile 87; thence in a north-easterly direction along the westerly shore of said river a distance of thirty (30) chains; thence easterly parallel with the northerly limit of the Grand Trunk Pacific right-of-way, a distance of ten (10) chains; thence southerly parallel with the westerly shore of the said river to the northerly limit of the right-of-way of the Grand Trunk Pacific Railway Company; thence westerly along the said northerly limit of the said right-of-way ten (10) chains more or less to the place of commencement.

DATED this seventh day of January, 1914.

A NEWSPAPER

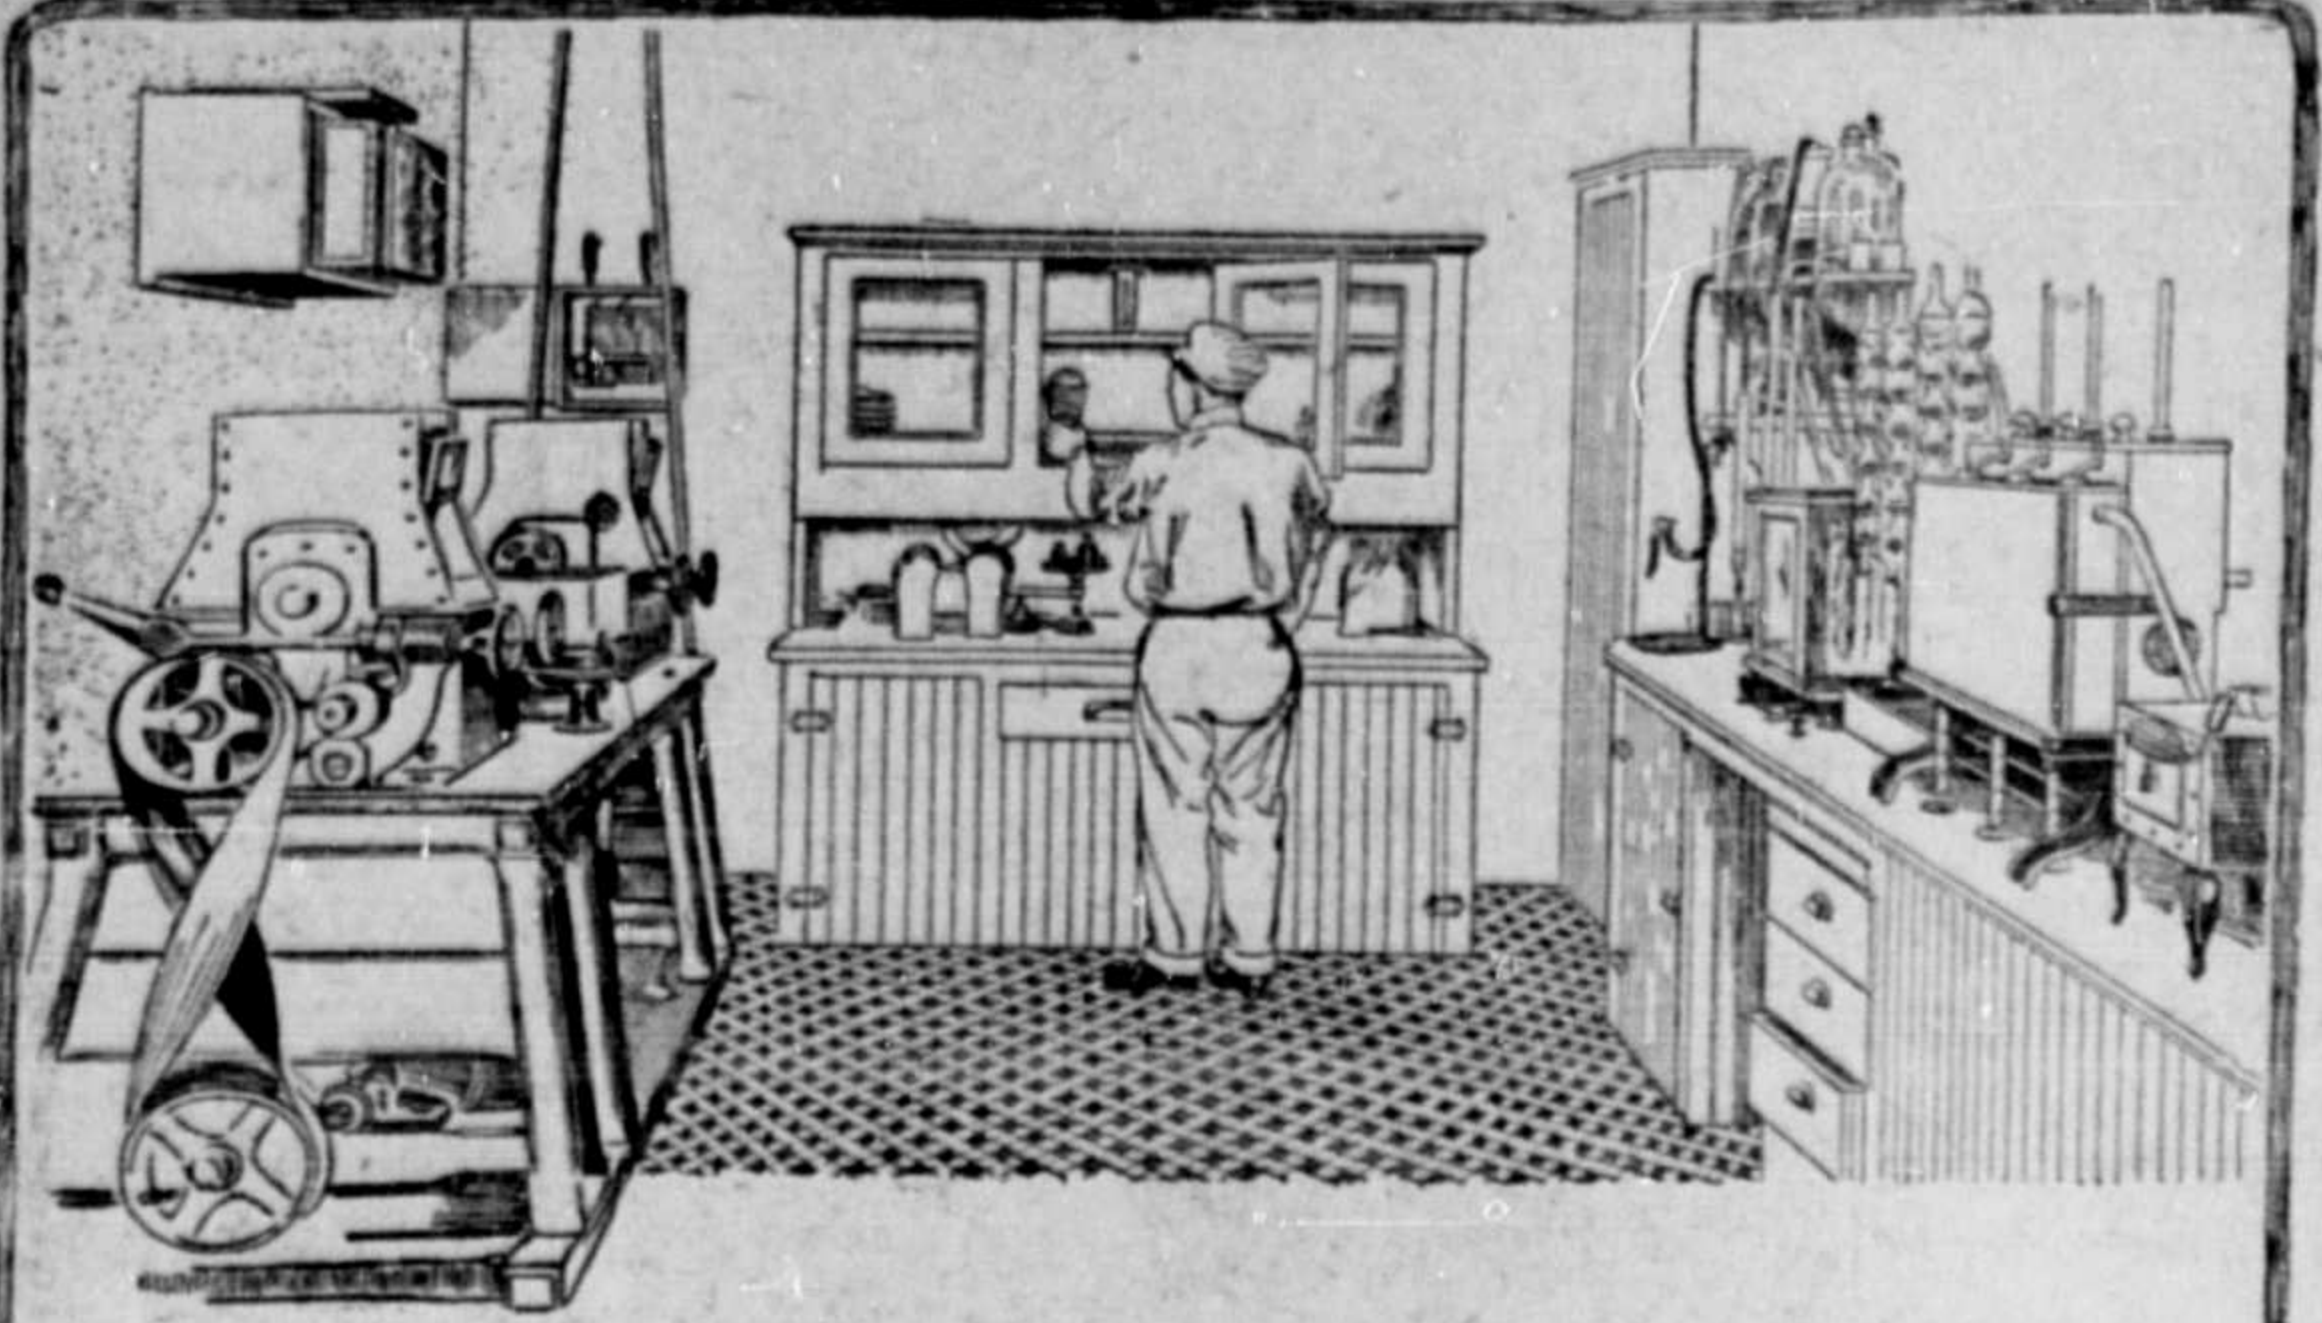

for Prince Rupert and Northern B.C.

The Daily News goes into nearly every home in Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate optimism and reliability.

The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.

The Royal Standard Test

Here's where we test the choicest samples of Canada's six million acre wheat crop. We grind them into flour in the little mill you see on the left of the picture. Then comes the supreme test—bread-baking. If the bread is perfect in every way we pronounce the wheat A1 and the flour—ROYAL STANDARD.

BANISH BULLY BOWSER.

Mr. H. W. Bower, son of the store-keeper at Granby, passed through on his way to Seattle last evening.

Wm. Miller came in from Porcher Island yesterday afternoon in the Asawalgit. He expects to make the return journey today.

Lot in Victoria, B.C., for sale cheap. Must have the money. Worth \$1,000. No reasonable offer refused. Box 110, Daily News. 40-41

The British Columbia came in yesterday afternoon with several hundred tons of coal. Two hundred tons are for Rogers & Black, and the balance for H. B. Rochester.

Mr. Johnson, manager of the Inverness Cannery, shipped out a scow load of herring yesterday afternoon. They are to be used as bait for the halibut boats which are rapidly getting into commission.

Miss Dorothy Tremayne has been confined to her room for a few days with an attack of tonsillitis. She is now on the high road to recovery and her mother expects to have her out again in a few days.

The Capilano came in yesterday with 150 tons of coal for Rogers & Black. She was on her way south, having unloaded 15,000 bricks and 500 cases of dynamite at Granby Bay.

The Chelohsin went south about 8 o'clock last evening with the following first cabin passengers: H. W. Bower, J. E. Harlin, Byron Park, V. W. Smith, Mr. and Mrs. Dolan, Mrs. Schafer, Dr. Gavit, G. M. Ferries, Miss Freda Frost, N. D. Roberts, R. Smith and A. Ross.

The Chelohsin was delayed on her schedule yesterday by taking on heavy loads of fish. There were three hundred cases of frozen halibut and salmon from the Naas and a large consignment of canned salmon from Port Nelson.

Mr. and Mrs. Dolan, who passed through here twice, making the round trip on the Chelohsin, are delighted with their journey through the Pacific Thousand Isles. They don't believe there is anything in the world to beat our weather or our scenery.

Mr. Vernor W. Smith went south on the Chelohsin on business to Vancouver and Victoria. He will be back by the fourth of next month, in time for the annual general meeting of the Silver Cup Mining Company. While in town he purchased two lots on Fraser Street.

On his recent trip south Capt. Babington let a contract for a new tow boat 58 feet long and thirteen and a half foot beam. The contract calls for early delivery in Prince Rupert, where the Rupert Marine Ironworks will install a 70 h.p. British Kromhout semi-diesel oil engine.

Mrs. Werner was at home to her friends yesterday afternoon. Among those present were Mrs. Frank A. Ellis, Mrs. Sigelair, Mrs. Wilson Murray, Mrs. Hoffman and Mrs. Steen. Mrs. Ellis is to be congratulated as the prize winner at a most amusing game which made the afternoon fly. A most daintily served tea completed the afternoon's enjoyment.

Mr. Geo. M. Shirley, brother of Sheriff Shirley, returned on the Prince George from Vancouver, where he has been visiting since the New Year. He intends to go out to the Shirley ranch, just beyond Sokeeye, where he has five acres of fruit trees and strawberries under cultivation. There is a good six-roomed log house on the ranch so Mr. Shirley expects to make himself comfortable out there.

Mr. Joe Howe of Messrs. Howe & McNulty is on a buying trip to Vancouver.

Tennis and Boating

Outdoor sports are getting an early start this season due to the continued fine warm weather. The tennis club court on Acropolis hill has been kept busy every afternoon during the past week and it has occasioned the donning of summer garments in the midst of what is supposed to be Canada's winter. Boating on the harbor has also been a popular sport and the yacht club house has been a busy spot. The waterfront is lined daily with fishermen.

Good for Sightseers

The fine summer weather of the past week has been favorable for picnics and walking parties, and many have taken advantage of the chance to visit the outlying sections of the city. The weather has also been a boon to the automobilists and the owners of garages claim it has been the best week the business has ever had. They have had many sightseeing parties out.
