

## WAR OFFICE SENDS MEN TO PROFESSIONAL RUIN

### NIGHTS OF PYTHIAS CELEBRATE GOLDEN ANNIVERSARY--GRANITE CO. BRINGS IN SAMPLES

#### D. PATTULLO IS PRESIDENT PRINCE RUPERT LIBERAL ASSN.

ANNUAL MEETING DREW BIG CROWD OF REPRESENTATIVE MEN—OFFICERS ELECTED AND DELEGATES TO PROVINCIAL CONVENTION—GOOD SPEECHES DELIVERED

The annual meeting of the Prince Rupert Liberal association drew a good crowd to St. Andrew's hall last evening. The program included many of the most prominent citizens represented all the professional, commercial businesses and trades of the city. When the streets of Prince Rupert were reek with road superintendents and government officials. The qualifications necessary for a road boss seems to be a good drinker and vote-getter. The woods are infested with inefficient road bosses.—on Rhys at the Liberal meeting.

of the speakers suggested victorious Liberalism would rule from Prince Rupert throughout the whole province, put into words the spirit of the meeting. The principal items of business were the annual election of officers and the appointment of delegates to the provincial Liberal convention at Victoria next week. President A. M. Manson was in the chair. In his opening address he reviewed briefly the work of the association during

the past year. The cancellation of the old voters' list by the government had been looked upon as a probable attempt to disfranchise many Liberals. As a result more Liberals than ever had been put on. He had been greatly surprised at the good work of the party men in outlying districts. Of the 3,000 names put on he estimates the Liberals had over 50 per cent. The actions of the provincial government had caused a feeling of unrest throughout the district. There are now three or four Liberal papers in the riding and the people have means of expressing their indignation over the manner of expending public monies. The tour of Messrs. Brewster, Oliver and Macdonald in the southern portion of the province had brought good results which were surprising the Conservatives. Mr. Manson advocated a campaign of education. The people will not rally to a leader until they know his platform, his doctrine and what manner of man he is.

The prospects for Liberalism were good and it was a hopeful sign to see so many out. There was every reason to anticipate a change of government in the province. He regretted that the Conservatives had reintroduced party politics into civic affairs.

(Continued on Page 2)

#### COUNTY COURT MONDAY MARCH 2

Seven Cases on the Docket, Two of Which Were Adjudged From Previous Court

The following is the list of cases on the docket of the county court, which opens on Monday, March 2. The first two cases were adjourned from the last sitting:

R. J. McDonnell vs. Nellie E. Vandell in action to recover money advanced and for board. Amount claimed, \$229.

Wm. Czerniawski vs. Wm. Woreberg. Plaintiff claims defendant as interpreter drew \$100 of plaintiff's money from bank.

Broughton & McNeil vs. E. W. Willburn, for \$139 for goods sold.

H. G. Helgerson vs. E. J. Hicks, asked \$25 commission for sale of real estate.

A. J. Prudhomme vs. Kaien Hardware Co., \$304 on contract. Defendants claim contra account.

A. Trainer vs. Queen Charlotte Island Land Co., \$43 for advertising.

A. W. Agnew vs. J. R. Talpey, \$250 for money had and received on purchase of Portland Canal mining stock.

#### BIG HALIBUT CATCH BY COX OF ATLIN CO.

Fishing Boat Borealis Broke Gear—Is Being Towed in From Hecate Straits

Last evening a crew of fishermen working for the Atlin Fisheries came into port rowing a dory. They were off the Borealis, which is a cripple in Hecate straits. The fishing boat broke her intermediate gear three days ago and her big engine is helpless. The crew have continued fishing for the past three days and put up a catch of about 30,000 lbs. She is lying about 25 miles from the harbor and another boat has been sent out to tow her in.

The trawler Cox of the same company came in last evening from the Yakutat fishing banks and left again for Vancouver, taking her whole catch south for shipment. She had 80,000 lbs. aboard, almost a capacity load.

#### MARCONI SHARES AGAIN IN LIMELIGHT

Committee of House of Lords to Make Enquiry Into Dealings in Party Funds

(Special to The Daily News) London, Feb. 20.—The house of lords, on the motion of Lord Lansdowne, the Unionist leader, passed a resolution appointing a committee to enquire into the dealings of Lord Murray of Elibank and his associates, Lloyd George and Lord Reading, with the American Marconi shares when they used the funds of the Liberal party.

PRESIDENT GILMORE

President of the new Federal Baseball league and the most talked of man in baseball.

The local Conservative organ is devoting a lot of space to the forty million dollar waste on the National Transcontinental railway, which has been constructed under both Liberal and Conservative governments. It is tremendously shocked at this long distance scandal. The newspapers' nose seems to be so high in the air scenting the ammunition from afar that it cannot smell the scandal at home. Why is it the morning apologist does not expose the wasteful extravagance of the excavation work being done on the city postoffice site? That would make interesting reading in Prince Rupert.

#### BANISH BULLY BOWSER.

#### 45 STATION GANGS WANT WORK ON HYDRO

There Will Be Five or Six Stations of 1,100 to 1,500 Yards Rock

The city engineer received some 45 requests for work from station gangs wanting a section of the hydro-electric pipe trench at Shawatlans lake. The gangs consist of five or six men each. The work will be divided into either five or six sections and will consist of from 1,100 to 1,500 yards of rock.

The board of works committee will meet and fix the price per yard this afternoon.

#### The Gradle

To Mr. and Mrs. Horace Du Vernet, a son, February 18.

Pantorium Pioneer Cleaners, Phone 4.

#### GRANITE INDUSTRY READY FOR BUSINESS

Outlook Appears Excellent and N. J. McLeod is Very Optimistic

Mr. N. J. McLeod of the Granite Syndicate, located on Smith Island, is in town with samples of his crushed rock and sand. Mr. McLeod has the machinery all set up and will be ready to take orders in a few days.

Samples have been delivered to the engineers of the dry dock and a test is being made of the material. It is believed by many competent authorities that crushed granite is far superior to ordinary sand and gravel and can be produced just as cheaply.

Mr. McLeod is very enthusiastic about the future of the concern. On this trip he has bought outright the holdings of one of the most heavily interested members of the syndicate, and is thus willing to stake both time and money on what he believes to be the best proposition in northern British Columbia.

It is his intention almost immediately to put in a set of bunkers on leases secured at Cow bay, together with a clamshell outfit for handling. In the meantime he is in a position to deliver by hand labor.

#### NAVY QUESTION BEFORE LOCAL DEBATING CLUB

Favor Granting Immediate Aid by Building Ships Across the Seas

The Canadian naval question was under discussion at the weekly meeting of the Progressive Debating society last night. The subject was introduced by Mr. J. Munro in a paper full of carefully prepared statistical facts.

The essayist maintained that in view of the efforts being put forth by other members of the empire, it was clearly Canada's duty to assist in relieving some measure the crushing burden of taxation now being almost wholly borne by the taxpayers of the mother country. The cost of a dock yard for the construction of ships on this side of the Atlantic was not a solution of the problem unless it was Canada's intention to come with belated aid six or seven years hence. Obviously the only reasonable course open was to place orders for the building of ships in the old country, where they could be more economically and efficiently constructed.

In the discussion which followed the majority favored Mr. Munro's solution, though they looked wistfully towards the "mountain tops of stately wisdom" and to the time when such questions as the present one will have ceased to exist.

#### Redistribution Committee

Ottawa, Feb. 19.—After the redistribution bill has been given its second reading this afternoon it was referred to the following committee of nine members: Hon. Robert Rogers, Hon. J. D. Reid, Hon. L. P. Pelletier, R. B. Bennett and E. N. Rhodes, representing the government side; and Dr. Beland, F. F. Pardee, W. A. Buchanan and E. M. McDonald for the Liberals. The work of the committee is to cut the boundaries of the constituencies.

#### Unionists Won

London, Feb. 19.—The by-election yesterday in the Wycombe division of Buckinghamshire resulted as follows: Dupre, Unionist, 9,044; Tennan Mosley, Liberal, 6,713. The seat has usually been Liberal. It was won in the general election by over 1,200 of a Liberal majority.

Port Edward's taxation will be very low. 391f

#### PYTHIAN KNIGHTS CELEBRATE THEIR GOLDEN JUBILEE

GUESTS CROWDED THE LODGE ROOM TO SEE PUBLIC RITUALISTIC WORK—MUSICAL PROGRAM AND DANCE FOLLOWED—PYTHIAN KNIGHTS AS A FRATERNITY

The golden jubilee of Pythian knighthood was celebrated last night in thousands of lodges over the country, but nowhere more enthusiastically and in better appreciation of the event than in Prince Rupert. Skeena Lodge No. 45 is one of the most active fraternal orders in the city and the occasion of the golden jubilee of their order was made a stellar event with them.

Invitations were issued to all the fraternal orders in the city and hundreds of people were in attendance at Castle hall.

The first part of the evening's program was public ritualistic work, which was well staged and appeared very interesting and impressive. The scenic effect was greatly added to by the use of colored lights.

Mr. Harry Daggett presided as chancellor commander. He is to be congratulated on the work of exemplification.

During the evening a musical program was given in which Messrs. Evans, Normandy, Melliar and Harry Daggett took part. Later dancing was indulged in and refreshments were served.

On Monday evening, February 15, 1864, the order of the Knights of Pythias was founded. From that small beginning it

has grown into a magnificent organization of twelve million souls and is spread over almost every town and city on the continent of America—both North and South.

The principles of the order are founded in the heroic story of Damon and Pythias. Dionysius, the "Tyrant of Syracuse," had condemned Damon, a senator, to death. Damon wanted to visit his home and take leave of his friends, and in order to permit of that Pythias, a soldier, offered himself as a hostage for Damon's safe return. The Tyrant agreed to the request. Dionysius in disguise told Pythias that Damon would not be allowed to return. His sweetheart urged him to escape, but he refused. Damon, however, overcame the obstacles put in the way of his return and arrived just in time to save his friend. The Tyrant was so moved that he granted a pardon.

The order, being thus founded on friendship and honor, has become a great force in the uplift of society. It teaches the highest principles of human duty. It does not stop at precept, however, for it is a great philanthropic institution and has contributed heavily to charitable work.

#### CONDEMN ARMY OFFICERS TO PROFESSIONAL RUIN

SYSTEM OF WAR OFFICE CONFIDENTIAL REPORTS IS VERY SEVERELY CRITICIZED—MEN NOT HEARD IN THEIR OWN DEFENCE

(Special to The Daily News) London, Feb. 20.—The British war office has a system of confidential reports in which it is stated that officers of the army are condemned or sentenced to professional ruin without being heard in their own defence. This system was severely censured by the judge of the king's bench court and the jury who awarded to Major W. A. Adam \$4,000 damages against Sir Edward Ward. In the capacity of a permanent secretary of war Major

Adam distinguished himself at the siege of Ladysmith. After that he was employed on a special service to Japan. He brought suit for libel against Sir Edward because of a letter written and published by him stating that Adam had retired from the army because of adverse reports. The letter was written in consequence of an attack made by Adams when he was a member of the house of commons on the late General Scobel, who made adverse reports.

#### MANY EXPLANATIONS MADE UNIONIST VICTORY IN ENGLAND

EACH PARTY CLAIMING THEIR OWN POLICY WAS THE CAUSE OF THE DEFEAT IN BETHNAL GREEN

(Special to The Daily News) London, Feb. 20.—The Unionists in both parliament and the press are naturally making the most capital out of the result of the elections in South Bucks and Bethnal Green, though the reduction of the Unionist majority was a feature in Buckingham, while the new member for Bethnal Green represents the minority. The Socialist candidate openly rejoices that he brought about the defeat of a member of the cabinet, taking votes that would otherwise go to the Liberals. Mr. Masterman himself attributes his defeat to the dissatisfaction against the working of the insurance act, the majority of the voters being casual rather than steady workers, and the misrepresentation of his opponents. It is announced that in order to

find a seat for Mr. Masterman, Sir Thomas Roe, the Liberal member for Derby, will resign his seat.

Visitors—Go to the Royal Cafe for your meals. It is the best service and best selected menu in the city. It is the popular restaurant.

#### GRAND BALL

under the auspices of  
**Fire : Department**  
in St. Andrew's Hall  
Second Avenue  
**TONIGHT**  
Tickets: Gentlemen \$2.00,  
ladies free.

#### HIGH RATES OF OCEAN TRAVEL CRITICIZED HOUSE OF COMMONS

PROPOSITION TO REFER IT TO IMPERIAL COMMISSION NOT WELL RECEIVED—LIBERAL WANTS GUILTY PARTY BROUGHT BEFORE PARLIAMENT

(Special to The Daily News) Ottawa, Feb. 20.—Apart from the second reading of the Redistribution Bill the announcement of the personnel of the committee was the feature of today's debate was the question of the man and lake steamship rates. The discussion was introduced by way of introduction in considering the estimates by Hon. George E. Foster, who explained that as the result of a trip taken to Great Britain by Chairman Layton of the railway board, it had been decided on the sugges-

tion of the British government that they do not name a joint commission, but leave the enquiry into ocean freight rates in the hands of the Dominion's trade commissioner.

A. K. McLean of Halifax took exception to this plan. He asserted that the railways and inland water combine was responsible for the increase in rates; that all should be under the jurisdiction of parliament. He said nothing would be accomplished in ten years if it was left to an imperial commission, and suggested that those responsible for the increased rates should be brought to Ottawa and examined by a parliamentary committee.

Mr. Foster replied that the rates were going up in 1910 and the late government did nothing. There had been a delay in naming the joint commission for a period of six months, and a letter from the colonial secretary was unanswered.

#### Firemen's Ball Tonight

The Prince Rupert firemen hold their first annual ball this evening. The boys have completed all the arrangements for the affair and it promises to be a very brilliant function. The fire boys are all popular and the ladies will find them gallant hosts, and good dancers, too. This being the first ball the boys have given, they should receive generous public support. The dance will be in St. Andrew's hall.

#### The Cradle

To Mr. and Mrs. W. R. Martin, a daughter, on February 19.

Rogers' cutlery and brass goods going at half price at Cameron's sale. 391f

DAILY EDITION

Friday, Feb. 20, 1914

Mr. H. S. Clements, the Dominion member of parliament for this district, visited Prince Rupert for about thirty-six hours just before the municipal elections. Announcement was made at that time that the visit of Mr. Clements was for the purpose of securing additional information with regard to the fishing industry. Since then we have heard nothing of the wonderful things likely to happen to the fishing industry as a result of this visit. Is there not some one who can tell us just what information Mr. Clements acquired upon this occasion as to the fishing industry and who was the source of information?

Was Mr. Clements during this same thirty-six hours able to find out what the excavation work on the new post office site is costing?

How long would it be before the city would be in bankruptcy if it carried out work along similar lines to the excavation work on the new post office site?

A suggestion has been made that it might be well to construct a wooden dam at Wood worth instead of a concrete dam. Action of this nature should not be taken without the most thorough investigation. It is said the present City Engineer greatly favors

the concrete dam. It is certain that a wooden dam must sooner or later be reconstructed. Anxiety to rush through this work for the purpose of bolstering up and giving appearance to an untenable position should not be allowed to jeopardise the best interests of the city. Those who defeated the hydro-electric by-law are beginning to realize what they are up against.

It has been stated that some forty millions was wasted upon the eastern section of the National Transcontinental railroad and this tiny morsel is seized with delight by some who are tickled to death to think that the money may have been wasted. If a Liberal administration is responsible for a waste of forty millions, why a Conservative administration can well afford to waste eighty millions because the cost of living has gone up. However anyone who would blame a minority of Liberals for acts passed by a Conservative government wouldn't stick at a trifle of forty millions.

Prince Rupert has not heard anything as to what our popular representative at Ottawa is doing for so long that it seems ominous. Wonder whether he is on the job for this

constituency or whether he is putting through a cannery deal for the Canadian Northern.

What do you think of trustees of the people whose idea of faithful stewardship is the allocation of the city's water supply to the president of the Conservative Association in Vancouver? Why didn't they give it to the President of the Conservative Association in Prince Rupert?

It is to be hoped that his worship the mayor is keeping a carefully itemized statement of the expenses of himself and the city solicitor during their visit to Victoria. The last time he visited Victoria upon behalf of the city he quite overlooked this important matter.

Wonder what success the mayor is meeting in trying to get an act of the legislature passed to force an expenditure of \$145,000 upon the city without first obtaining the sanction of the ratepayers who will have to foot the bill.

Bowser compelled this city to buy from his Vancouver friends, Wilson et al., all the old junk which remained after the fire at the sawmill at the eastern end of the island. He made it compulsory by inserting it in the act of incorporation of the city. Tory henchmen seemed to be able to get anything they wanted. All that the city could get was what it got in the neck.

T. D. PATTULLO PRESIDENT PRINCE RUPERT LIBERALS

(Continued from Page 1)

The Liberals had adhered to their resolution not to do so, while their opponents had combined to elect a man for whom they had no respect. He trusted they would see the folly of their course.

The officers elected are:
Honorary president—Sir Wilfrid Laurier.

Hon. vice-president—H. C. Brewster.

President—T. D. Pattullo.

Vice-president—F. G. Dawson.

Second vice-president—P. W. Anderson.

Sec.-treas.—A. M. Manson.

Executive—Dr. W. T. Kergin, W. R. Martin, G. R. Naden, G. W. Nickerson, H. F. McRae, F. H. Mobley, L. W. Patmore, A. H. Allison, Martin O'Reilly, and ten more to be appointed.

The delegates to Victoria convention are F. G. Dawson, T. D. Pattullo and H. F. McRae.
The new president said he appreciated the work ahead and the necessity to bring home to the people the desirability for a change of government. Everyone feels it is coming. The feeling in Victoria has been changing rapidly. The new Municipal Act was the most iniquitous thing conceivable. The board system as adopted in Saskatchewan was not a parallel to the one-man power at Victoria. That one question ought to defeat the Conservative party. He would rather be president of this association than the leader of such a government as we have in Victoria.

Mr. von Rhys, president of the Stewart Liberal association, made a splendid speech on how Liberals should appeal to the business men of this district. There had been a disappointment in the development of the land, which was in the hands of speculators. Liberals should show business men that orders from settlers are better for them than the little petty graft they get from the government. Ac-

REBEL GENERAL'S WIFE
MRS. PANGHO VILLA

The wife of the rebel leader is a Mexican woman of the lower class. Her picture was taken recently to dispose of the story that Villa had married by force an American girl stenographer working in a branch clothing store at Torreon.

According to the government's own reports there are one and a half millions of acres of first-class land tributary to Prince Rupert. This is capable of producing \$30,000,000 of products every year. The Liberals have the land plank the first in their platform. At present the development of the country is crippled and the McBride government is perpetuating a policy which will rapidly bankrupt the country.

Bowser and McBride say this country is very prosperous. They are very prosperous and we have made them rich. Victoria parliamentary buildings have been created a big real estate office. British Columbia has resources but they are useless without development. There is less development today than there was ten years ago.

There have been great blunders in the way road work monies have been spent. The province does not get fifty cents value for a dollar spent. He spoke of \$5,000 being appropriated for a trail near Stewart. The road officials spent the money in opening a wagon road to their own pre-emptions. Five hundred and fifty dollars had been charged up to a bridge which could be built for \$50. Another \$5,000 had been spent for a bridge on a road which no one had used in two years. There were slides on that road with 150 feet depth of snow.

He advised having the Liberals adopt a plank in their platform to have the road work done under a commission outside of politics. The money already wasted on roads would give us the finest roads in the country if properly spent.

G. W. Nickerson wanted to see the police and licence departments also under commissions. An informal vote was passed suggesting the road work commission to the coming provincial convention.

Messrs. H. F. McRae, Charles Hastings and others spoke briefly.

True love may be a myth, but there are a lot of mighty satisfactory imitations.

HARRY HANSON GETS LETTER IN ENGINEERING JOURNAL

WROTE PERSONAL LETTER WHICH EDITOR THOUGHT WAS GOOD ENOUGH TO PUBLISH

The following letter from a well known Prince Rupert plumber was sent as a personal communication to the editor of the Domestic Engineer of Chicago. The letter is characteristic of Harry and the grim humor of it must have appealed to the editor as he published it as follows:
"Editor Domestic Engineering—What show has a plumber, when he starts in business with a debt of \$200 and nothing but a suit of clothes and a kit of journeyman's tools in a strange city with a population of 5,000 and with four established plumbing concerns doing all the business at prices lower than in San Francisco, and this where materials cost more?
"This is exactly what I went up against here in British Columbia. Of course, I could go to work as a journeyman, but when I asked \$6 a day, there was absolutely nothing doing.
"Luckily for me a prolonged spell of cold weather came at this stage of affairs, and this gave me a chance to make about two hundred dollars, after which I waited patiently till I went broke. I then secured a mucking job for 21 days, at 30 cents an hour, on the railroad rather than cut the price on plumbing work. Following this I joined the Longshoremen's union and worked at the wharf at 50 cents an hour. Having time to spare on this job I opened a shop, and took all kinds of jobs that came along. I piled lumber, posted bill signs and acted as messenger for a messenger bureau. After a while one job followed another, until I now have 50 customers on my books and \$200 to

collect, with bills payable \$150; material on hand, \$150; bank account, \$32; tools bought and on hand, \$150; and a well-equipped bachelor apartment. Plumbing, bookkeeping, collecting, doing favors and advertising keeps me so busy that I sometimes forget to eat; and now I have a drawer full of letters and bills to go over. Your letter was the third one. The two bones enclosed will answer it. The books you sent me so promptly and your paper are a great help to me. I consider Domestic Engineering the best and most interesting of all magazines.
"While business is not brisk at present, I am busy all the time. My spare time I spend in cutting nipples and in experimenting with water coil propositions. I have ordered a thawing machine for thawing frozen pipes, to be delivered December 1. It surprised me to see no such apparatus advertised in your journal. All the advertisements you carry are of great interest to me, and I expect to be able to order several things that I need but cannot afford to buy at present.
In the last few weeks I have installed fifteen coils in range stoves. By my way of installing them I have been able to heat 40 gallons of water in twenty minutes and draw a bath every fifteen minutes, and in one of my installations with a 100-gallon boiler 100 gallons of water are heated in fifty minutes. Five minutes after lighting the fire in my own little stove I draw water so hot that you cannot put your fingers in it without scalding them. I am creating quite a demand for jobs of this kind, and I

get \$15 for making the coil and connecting it up.
"The other day I did another unusual job. I cut the bottom out of a stove, connected an 8-inch galvanized pipe to it, fixed it up with two dampers, and this is now doing the ash-chute stunt to perfection, saving my customer a lot of travelling up and down stairs. This job cost him \$12 and he is a satisfied customer. I will no doubt get similar jobs from his neighbors. Another job, which I think will be a little out of the beaten track is on my book. This is a little heating system, where I am going to connect a radiator to a range boiler, and I am going to do it in my own way.
"Well, here is the professor from the business college, and it is after 10 o'clock. He joins me in a little collation. Then we have a game of checkers, and I am the champion so far. And now. Good night!
"HARRY HANSON."

SCIENTIFIC NOTES

Scotland produced about 65,000,000 gallons of oil from shale last year.
Of the 37,000 electric vehicles in the United States about 25,000 are pleasure cars.
Italian state railways will use three-quarters of a million tons of Welsh coal this year.
A telephone transmitter that works perfectly when completely submerged in water is a novelty.
Semi-official statistics place Russia's beet sugar production last season at about 1,703,340 short tons.
A rubber band around the bell of an alarm clock will lessen its noise without impairing its effectiveness.
With the opening of new cables to Ceylon, messages have been transmitted from London within half an hour.
For warming the feet a foot rail for steam radiators adjustable as to height and length has been invented.
Gold fields in northeastern Siberia which have not been worked since 1907 will be reopened early this year.
Harvard university has opened a special course for training men for the duties of municipal health officers.
The German pound is exactly one-half a kilogram or about one-tenth more than the English pound.
Adjustable canvas shields have been invented for protecting freshly planted trees from too much sunlight.
Begging Off
"Can you direct me to the best hotel in this town?" asked the stranger who after sadly watching the train depart, had set his bag on the station platform.
"I can," replied the man who was waiting for a train going the other way, "but I hate to do it. Why?"
"Because you will think after you've seen it that I'm a liar."

THE ROAD TO THE RIGHT.

YOU'VE met at least one of those few good old souls, who are constantly getting the worst of it when shopping, who don't believe in advertising. A hundred disappointing and instructive experiences have failed to teach him their plain lesson.
When he bought his first watch he was beguiled into buying one without a known name or a trustworthy guarantee. That watch—a poor timekeeper—cost him dearly by reason of missed appointments and missed trains, and for frequent repairs. Yet he paid the price of a good watch.
It is the same story with regard to his underwear, his shoes, and his fountain pen.
This good old soul's case is not unique. Many of us, if the truth be confessed, resemble him; we allow ourselves to be sold merchandise with an unknown brand or trade mark instead of buying merchandise which is well known to us through the medium of advertising. In slang language, we get "stung" pretty often.
In most of these cases we have ourselves to blame, for "the road to the right" thing to buy has been made plain by advertising.
There is no good reason for passing by the known thing, soundly guaranteed, to buy a dubious article, which, quality for quality, cannot be cheaper than the known, branded article.

"It is better to be sure than sorry."

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.
If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 505, Lumsden Building, Toronto.

Cascade Beer
a clean, tasting, delicious table beer brewed from B.C. Hops, pale barley malt and Capilano water.
Bottled clean and only in brown bottles. Standard of the west since 1894
Beaver Liquor Co. LIMITED
Distributors, Prince Rupert

Keena Land District—District of Coast—Range Five.

TAKE NOTICE that I, Thomas McLymont, of the City of Prince Rupert, in the Province of British Columbia, broker, intend to apply for permission to lease thirty (30) acres of land bounded as follows:
Commencing at this post planted where the northerly limit of the right-of-way of the Grand Trunk Pacific Railway Company crosses the westerly bank of the Zimergosta River, and being about 400 feet east of Mile 87; thence in a northerly direction along the westerly shore of said river a distance of thirty (30) chains; thence easterly parallel with the northerly limit of the Grand Trunk Pacific right-of-way, a distance of ten (10) chains; thence southerly parallel with the westerly shore of the said river to the northerly limit of the right-of-way of the Grand Trunk Pacific Railway Company; thence westerly along the said northerly limit of the said right-of-way ten (10) chains more or less to the place of commencement.
DATED this seventh day of January, 1914.
THOMAS MCCLYMONT.
Pub. Feb. 3 to April 6.

A NEWSPAPER for Prince Rupert and Northern B.C.
THE DAILY NEWS
IS SAFE SANE SPICY IMPARTIAL INDEPENDENT INTELLIGENT
THE DAILY NEWS
The Daily News goes into nearly every home in Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate optimism and reliability.
The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.

Announcement!

LADIES AND GENTLEMEN:

We find pleasure in announcing that the very latest novelties in materials, design and trimming for the spring and summer of 1914 have now arrived.

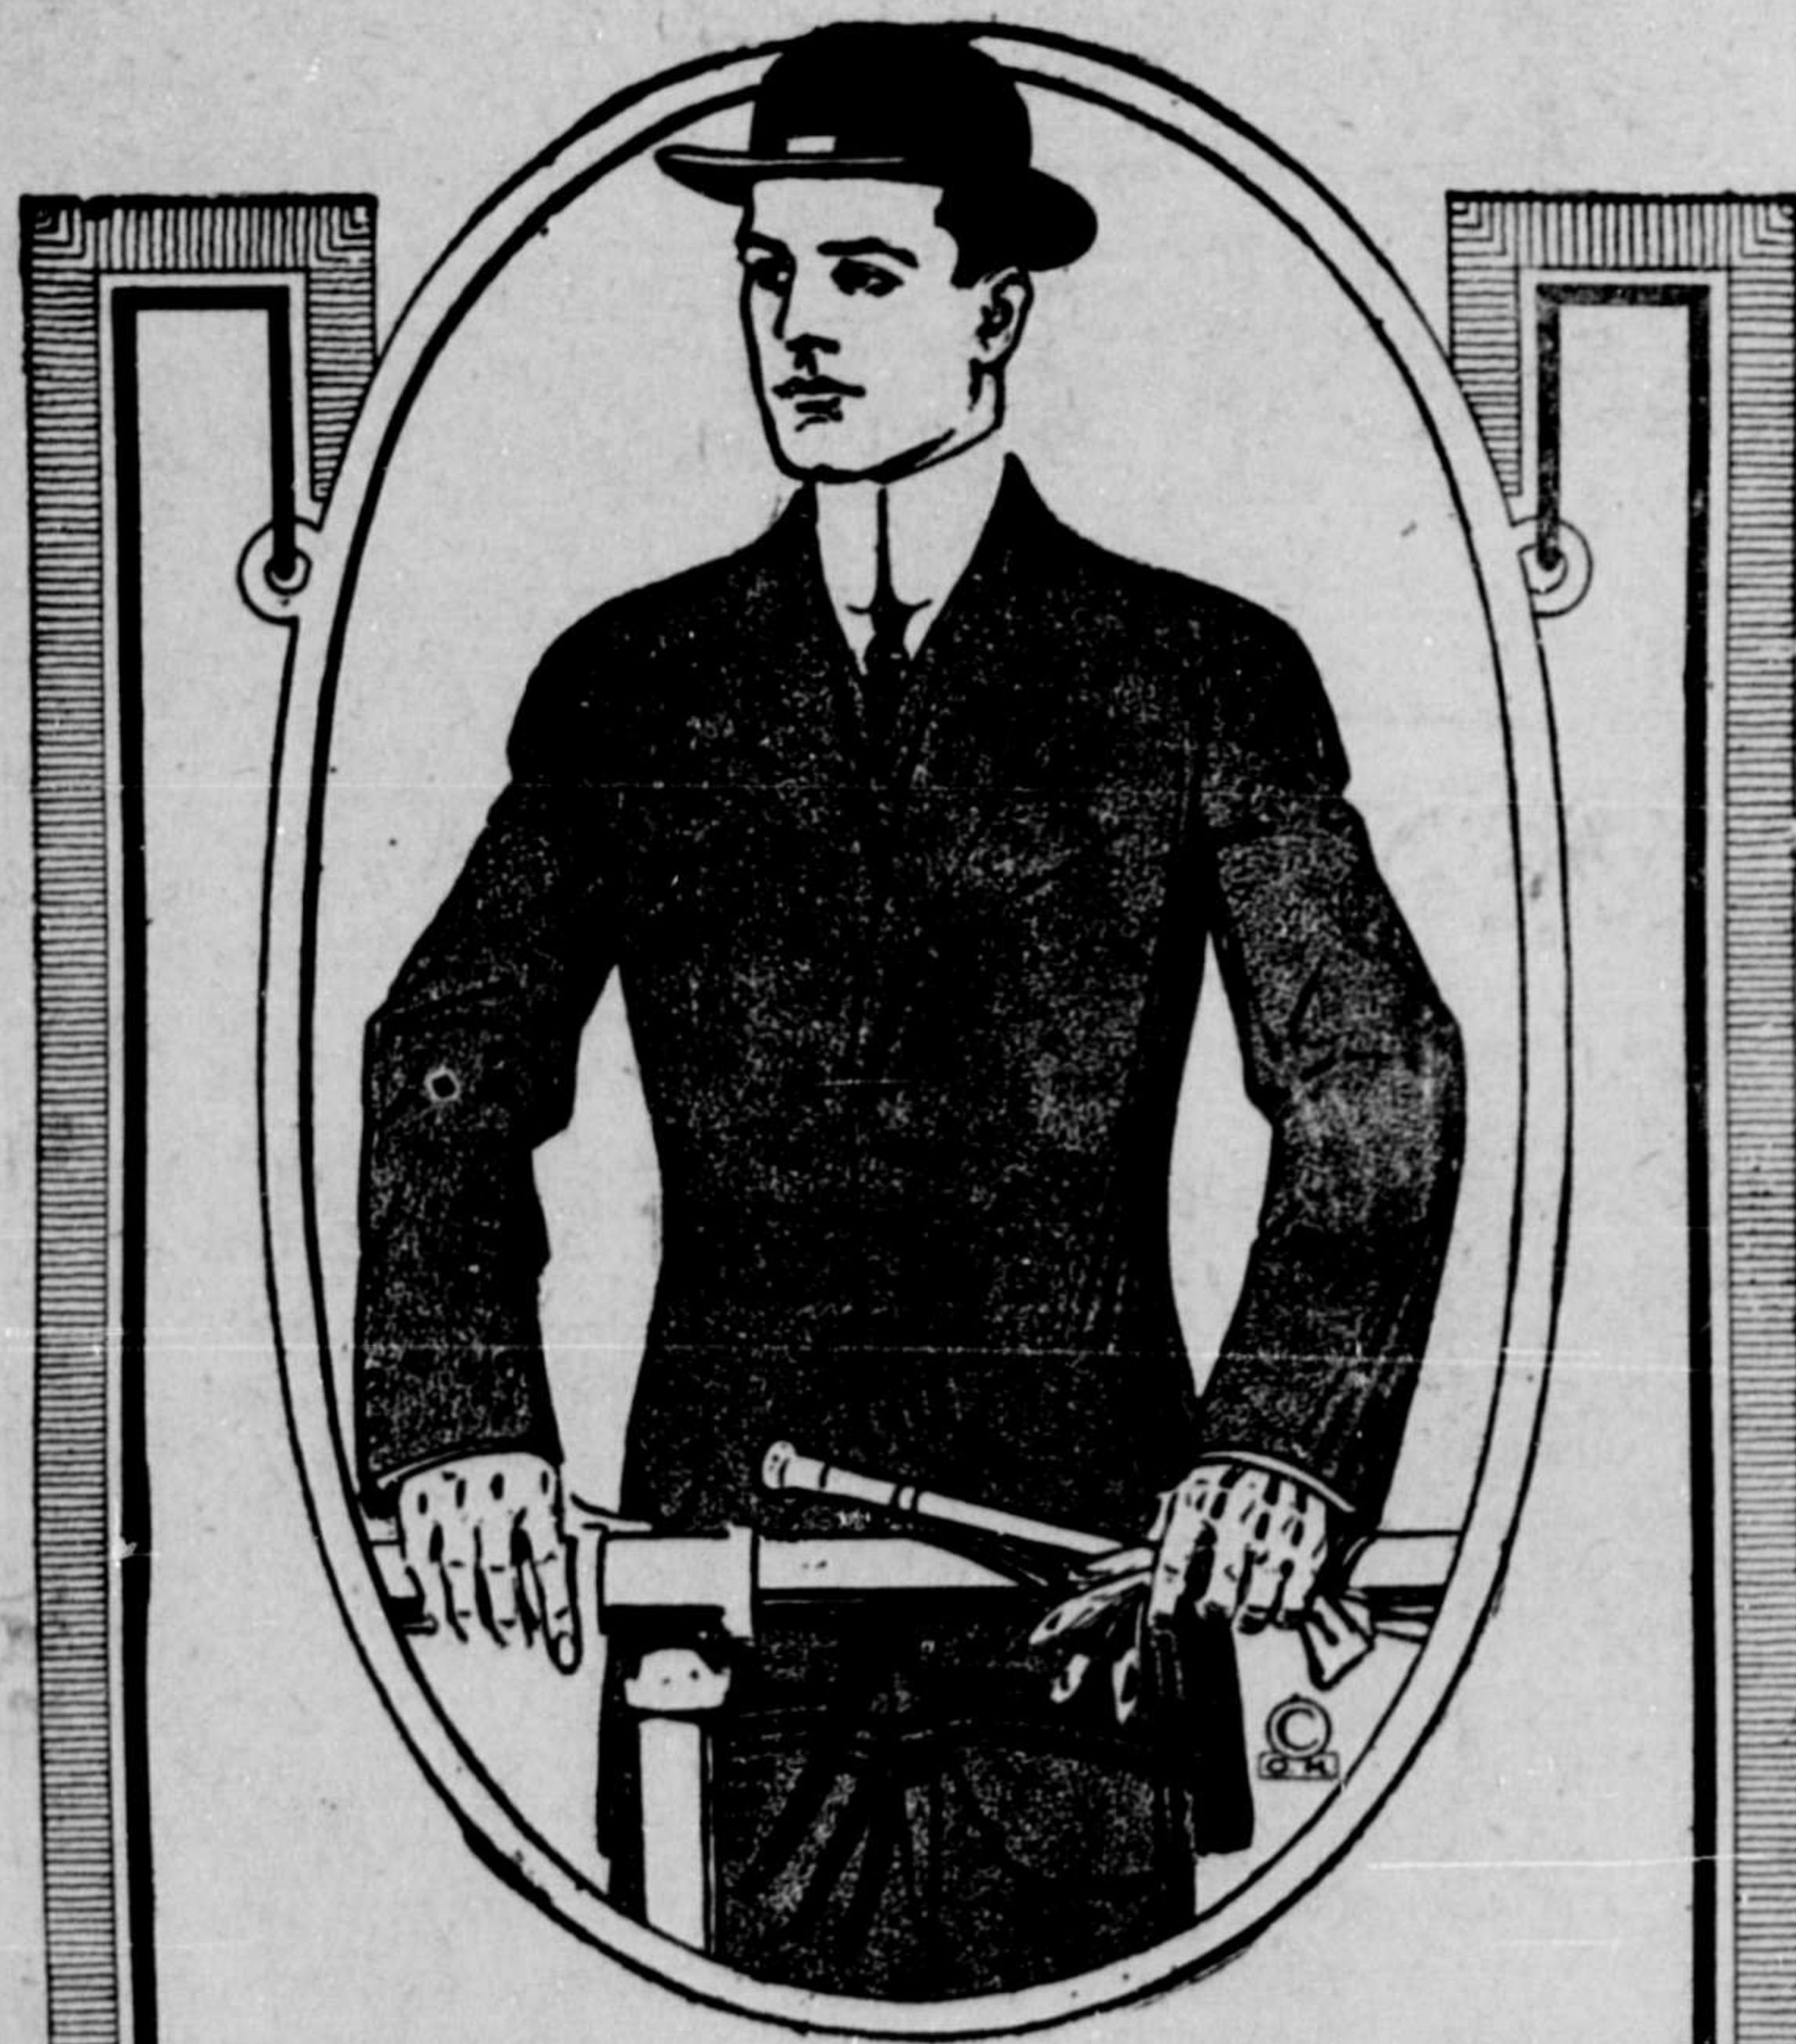

By placing your order early before the busy season sets in you will receive garments when desired and thus avoid annoying disappointment.

Thanking you for past favors and soliciting their continuance.

We are, respectfully,

SWEDER BROS.

Tailors to Ladies and Gentlemen Sixth Avenue

"TWO classes of people worry about money—those who have too little and those who have too much."

Both classes appear to be satisfied with the price of

ART CLOTHES

Both classes also appreciate the youthful lines, the high art tailoring, the natty fabrics, the marked value of the special garments which await your early glance.

Delivery boy wanted. McRae Brothers. 42-44

Mr. D. Green left for a trip south today.

Keep your eye on Port Edward. 39-1f

The Princess Beatrice will be in from the south this afternoon with mail.

BANISH BULLY BOWSER.

Some exceptionally fine bargains at Cameron's discount sale. See our show windows. 39-1f

Mr. M. J. Hobin, manager of the Continental Trust Co., left this morning for a trip to Vancouver.

Meet me at the Royal Cafe. We can have an excellent dinner and a quiet chat. 1f

J. Peters, an old-timer, has just returned from Seattle. He intends remaining in Prince Rupert. He is a painter by trade.

Rev. A. L. Burch came in on yesterday's train from a short run up the line.

Mrs. Harris, mother of the Harris boys, owners of the American Boy group of mines at Hazelton, was visiting friends in the city last evening. She is en route to Vancouver for a few weeks visit with relatives there.

N. J. McLeod of the Granite Syndicate returns to Smith-island today.

The road around the island seems to have dropped out of sight again. At the last report it was still in the bush. Probably next provincial election time the public will be told what a dandy road we are going to get.

One drunken Swede was the pick-up of the police net yesterday.

Chief Gammon of the interior provincial police came in yesterday in charge of a prisoner from Decker Lake whom he is taking to New Westminster. The prisoner is the man who chopped up a couple of men with an axe on account of a quarrel over a game of cards.

Steel was laid six miles west of Fort George on February 7. It is probably several miles further on by this date.

The delegates to the Liberal convention at Victoria will leave by the Prince Albert on Sunday evening.

Obrad Yosity was a guest at the city jail last evening. He is being taken to Westminster from Decker Lake, charged with attempting murder. Obrad was playing cards with two others and suspected he was getting a crooked deal. He went into a rage, chopped through the shoulder blade of one man with an axe and cut the neck of the other. The axe handle broke, which probably saved their lives.

Blyth Bros. & Co. have the contract for plastering the Presbyterian manse. The last coat is now being put on.

D. R. McLean of New Hazelton is in town for a few days, the guest of Mr. and Mrs. H. F. McRae.

Official permission has been received by the G. T. P. to run passenger trains to the end of steel, Mile 337. The company will take immediate advantage of the order and will start a new schedule on Sunday next. Trains will leave here at the same time in the morning.

Father Cocola, superintendent of Catholic missions in the interior, came in on yesterday's train.

From Smithers a mixed train will leave the next morning for the end of steel. Trains will leave 337 at 6:30 a. m. on Wednesdays and Saturdays to connect with the Rupert train.

Mrs. Harris of Hazelton was a passenger on yesterday's train and took the George for Vancouver today.

Running to End of Steel

Work has started on the clearing of the site of the Bank of Montreal corner where Mr. Albert is to construct stores.

The new schedule of the G. T. P. which runs a mixed train to the end of steel will be quite an advantage to the settlers beyond Smithers. They have been anxiously awaiting the time when they could get in by train.

Mr. A. E. Smith, a business man from the interior, left this morning for a trip to England. He will be gone some months.

Big Dog Scared Citizens

Rev. A. L. Burch returned last evening from a trip up the line. He leaves again for the south on Sunday evening after the church services.

The big Great Dane dog owned by Black Jack McDonnell of New Hazelton is no more. He was probably the biggest dog in the country. A few days ago he grew angry and bit a boy. He also chased several other citizens and the police had to shoot him. The dog was declared mad, but a veterinary said he did not have the rabies. The boy is not in any danger from the bite.

Several blind piggers and otherwise undesirable characters came in on yesterday's train having been ordered out of the country by the authorities. Their removal was demanded by the railway officials.

Keystone Comedy at the Westholme Opera House Friday and Saturday.

DONNEYSBROOK FAIR

At the Westholme Opera House Tonight

Tonight and tomorrow night a splendid two reel Irish feature entitled "The Filly," will be shown at the Westholme theatre. A feature of this picture is the horse racing at Donneysbrook Fair. The action throughout is realistic and the pictures perfect. A very fine Keystone Comedy and a new Gazette of unusual interest will also be shown. Besides this there will be new selections by Westholme violinist, Mr. Percy Harvey, whose beautiful playing created such a favorable impression on his first appearance here at the Orpheus Glee Club concert last Wednesday. Next Monday and Tuesday will be red letter day at the Westholme. "First of all a splendid three reel production of Carmen will be shown introducing a real Spanish bull fight and other exciting and interesting features. There will also be a Weekly Gazette, a Keystone comedy and a fine Reliance comedy, making a six reel programme with every reel a feature. Prices on this occasion will be as follows: Entire lower floor and first two rows in the balcony 25c; gallery 15c; children 10c.

Mrs. J. M. Carmichael expects to leave shortly for the old country on a visit to friends. She will be away for most of the summer.

JINGLE POT COAL

delivered by Lindsay Transfer

H. B. ROCHESTER Phone 115 231 2nd Ave.

A couple of days ago two gallant Tories rushed to the defence of the government with regard to the water powers in this vicinity. Yesterday The News threw it down their throats that for four days all those streams were unreserved and that perhaps they had been staked within that time by some good party henchman. Then Wark's Channel power is not reserved. Will some of these gallant defenders please step forward again? The people want to know.

STEFANSSON THINKS KARLUK CREW SAFE

If Boat Is Crushed Men Could Get Ashore on Ice but Might Not Save Much

(Special to The Daily News) London, Feb. 20.—A despatch to the Daily Chronicle from Point Barrow says that Stefansson, the leader of the Arctic expedition, gives further details of the disappearance of the Karluk. Though he is far from sanguine that the Karluk will be saved, he has little doubt of the ultimate safety of the crew. If the vessel were crushed in the ice there would be little difficulty in the men getting to shore safely, but whether any material aboard the vessel could be saved depends on the distance and roughness of the ice.

Special Council Meeting A special meeting of the council was held yesterday afternoon to pass a bylaw fixing the date for the selling of the treasury certificates. The bylaw will be given its final reading at another special meeting this afternoon. The amount of the certificates as \$81,700.
