

B.C. TO GUARANTEE 137 MILLIONS FOR RAILWAYS

EXTENSION OF P.G.E. FORT GEORGE TO PEACE RIVER — AGRICULTURAL COMMISSION REPORTS

AGRICULTURAL COMMISSION PRESENT REPORT TO GOVT.

RECOMMEND LOANS TO FARMERS TO BE HANDLED BY COMMISSION — EMPLOYMENT OF PRISON LABOR TO MAKE TILE WANT MINISTER OF AGRICULTURE AND BETTER SCHOOLS

(Special to The Daily News)
Victoria, Feb. 25.—The main recommendations in the report of the Royal Commission on Agriculture which has just appeared are the establishment of a commission to make loans to farmers on improvements; employment of prison labor to make tile for drains; lime for work while so employed; enlargement of the rural telephone system by government recommendations; contract systems on government roads; the establishment of a board of immigration to afford financial aid to immigrants; the establishment of training schools for immigrants; the development of the co-operative system; government aid to central markets; the enlargement of agricultural education by creating separate portfolios of agricultural and horticultural; the inauguration of closer settlement in liveable areas; the establishment of a commission to investigate the report suggests the creation of a board to be known as the Agricultural Credit Commission,

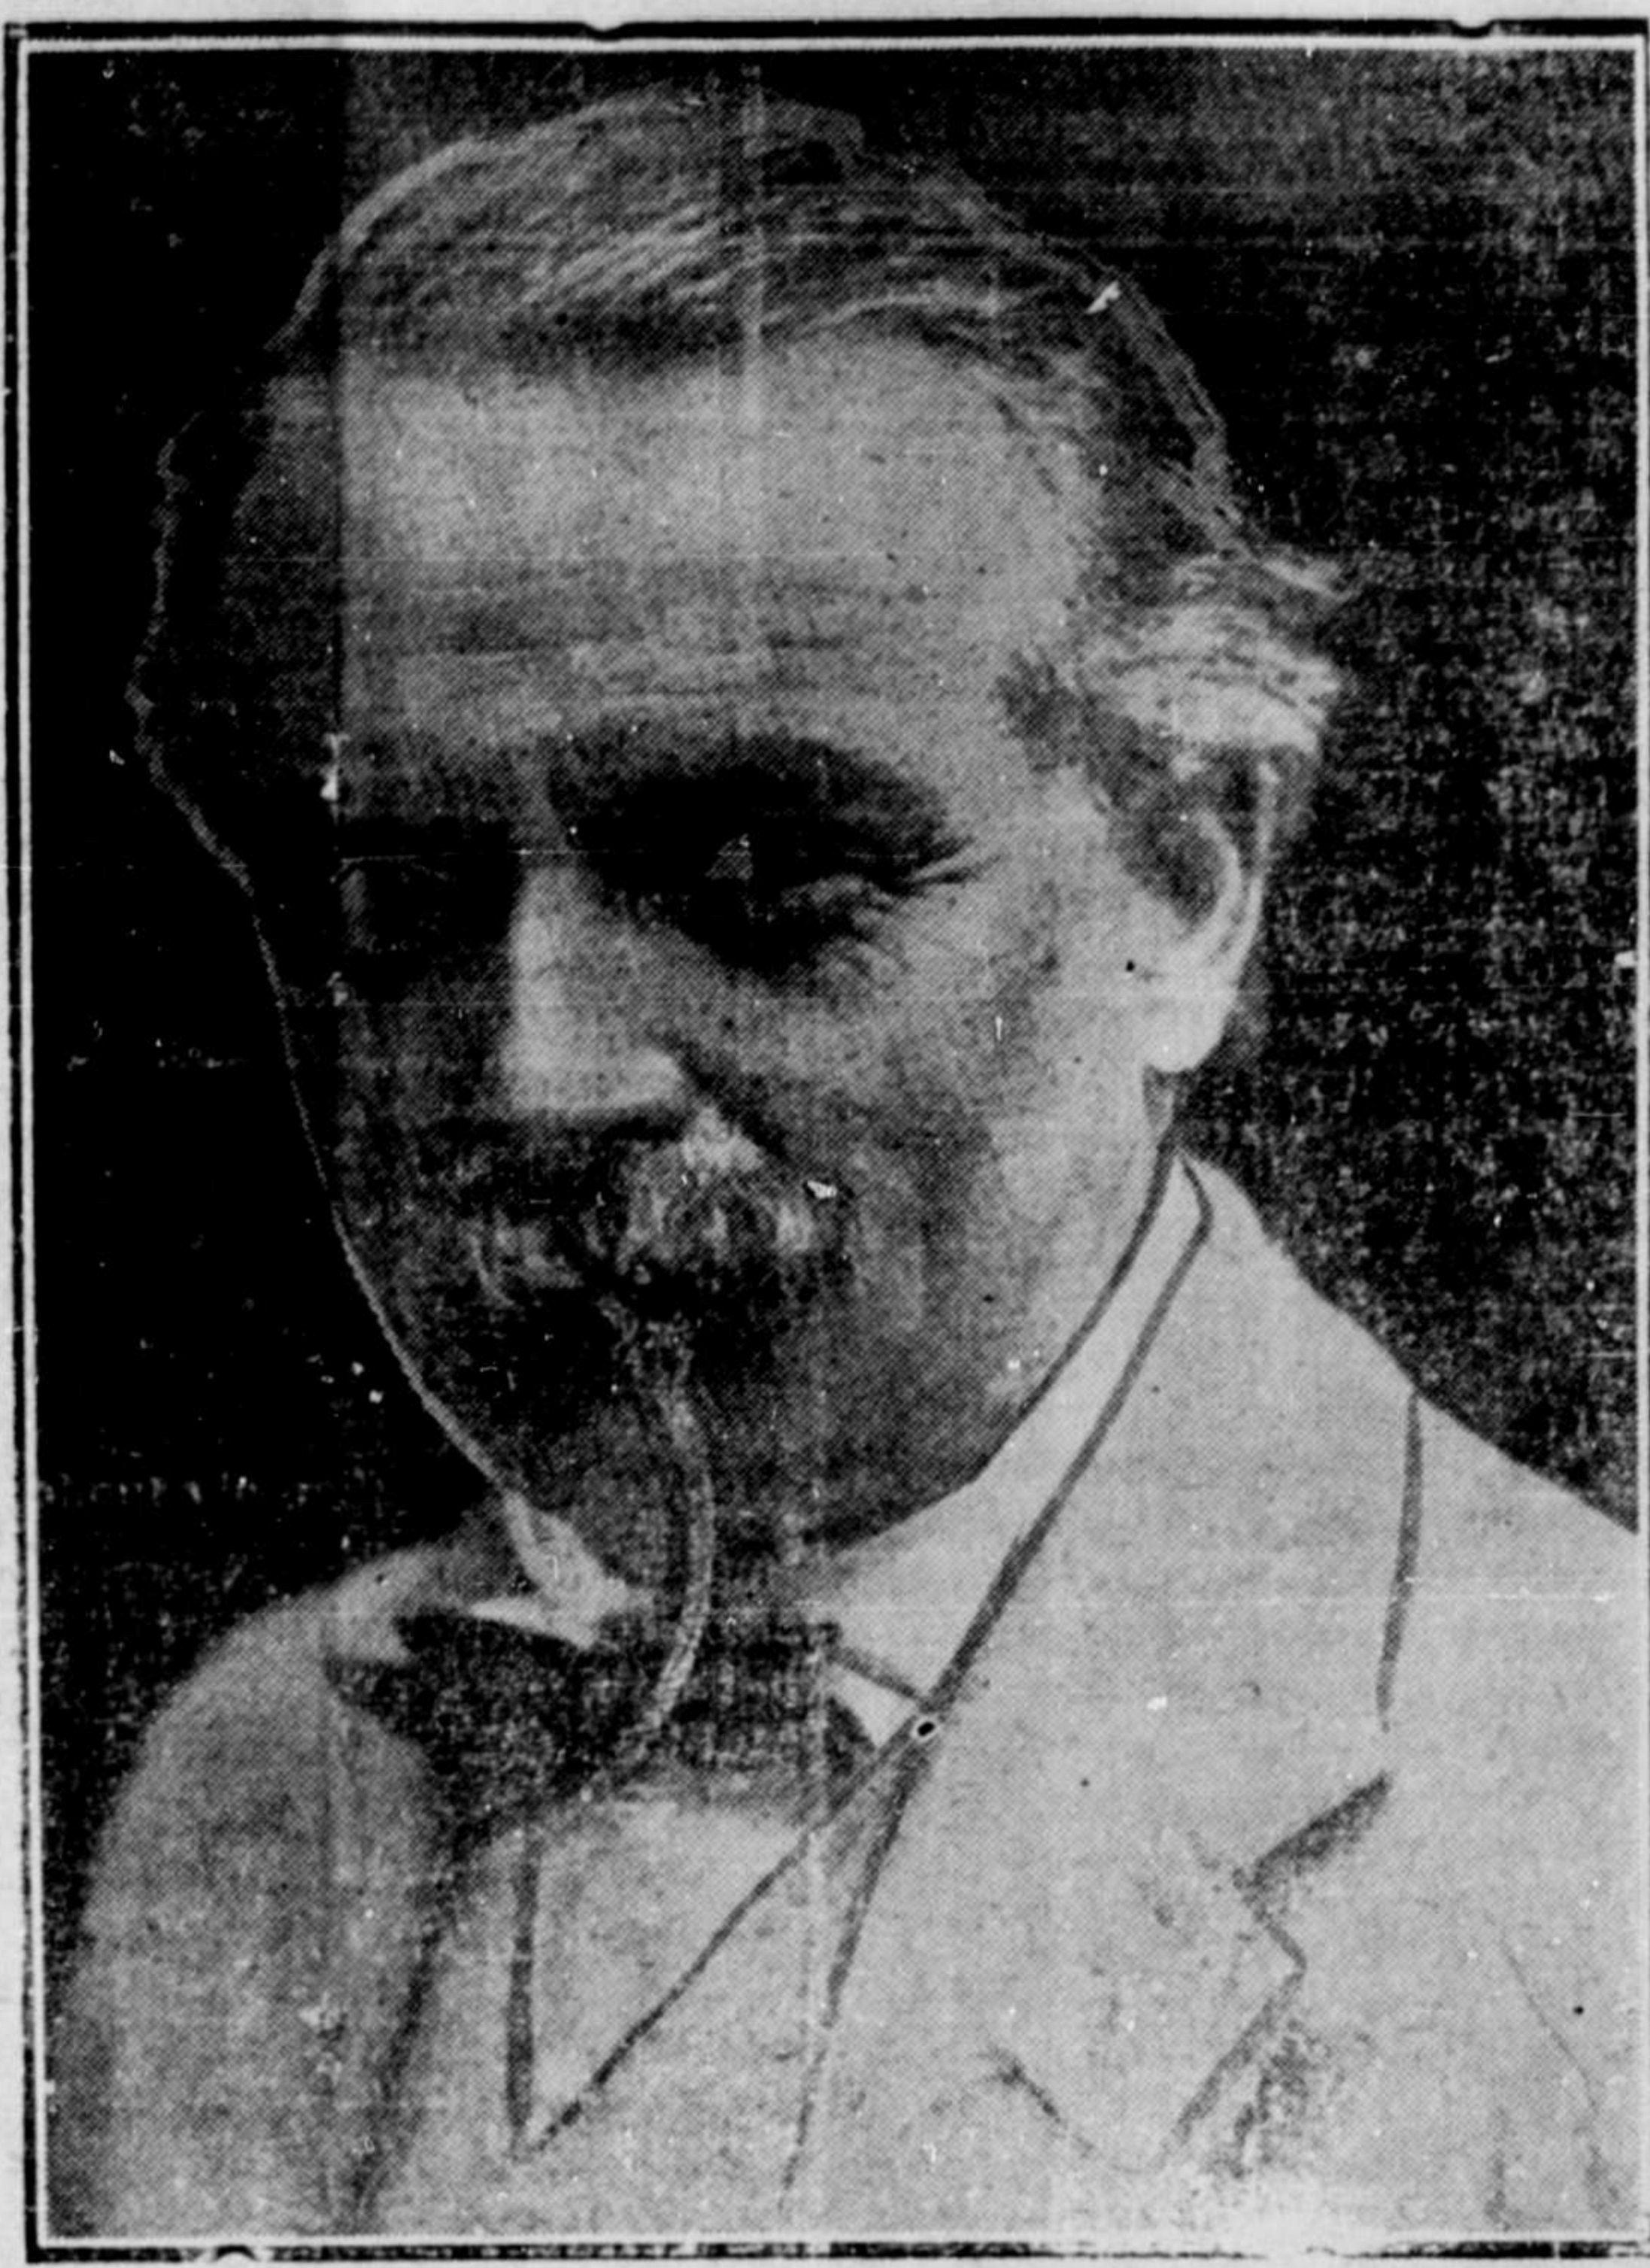

consisting of a superintendent and four directors who shall deal with all matters pertaining to the administration of government loans to farmers. It is proposed that the Legislative Assembly will authorize the Minister of Finance each year to borrow up to a specified amount and issue stock debentures bearing interest of not more than 4 1/2 per cent, and having currency at 36 1/2 years. These monies are to be available to the Commission to lend to the farmers in respect of permanent improvements made to the land or other productive measures. The loan is to be repayable by mortgaging over such a period as the Commission shall divide. The applicants for a loan will be investigated as to personal character, responsibility and adaptability of their lands. The maximum loans which may be made on any land is not to exceed 60 per cent, of their value, calculated on the productive basis. No loan will be made for less than \$250, nor more than \$10,000 to one applicant upon one property. It is suggested that applicant's loans not exceeding \$2,000 be given the priority.

The new railway policy of the provincial government details of which are being issued day by day, provides for a mortgage of between \$300 and \$400 on every man, woman and child in British Columbia to back bonds for railways that will sidetrack Prince Rupert and boost Vancouver. Where is Wm. Manson, the representative of Skeena while this deal is going through?

PROVINCE AGAIN TO AID C. N. RAILWAY PROJECTS

Bill Before the Legislature for Additional Guarantee of \$10,000 per Mile

Premier McBride sprung a surprise on the legislature last Friday when he introduced a bill to give further aid to the Canadian Northern railway. The bill provides that British Columbia shall guarantee \$10,000 a mile for 511 miles with interest at 4 1/2 per cent and principal until 1950, amounting to \$12,360,000. This, added to the \$112,000,000 odd which the province has already guaranteed, makes a total of \$125,000,000 for the Canadian Northern Pacific Ry. Further, the time for completion of the C. N. P. R. has been extended for two years, that is, to 1916, though the act of 1910 specified it was to be completed from Yellowhead pass to Barclay sound, July 1, 1914.

MR. LLOYD GEORGE

Taken on his fifty-first birthday a few days ago. Whether you agree or disagree with the little Chancellor, there is no doubt that he is today the most potent, the most hated, loved, feared, and admired figure in the British political arena. His career from the time he was a barefooted boy in a Welsh village till now has been a romance of politics, a triumph of persistence. The age of 51, despite his stormy and hard life, finds him as young as ever, and passing through a reshuffle and disturbance in social and political life as he is, it is interesting to conjecture down which path the Chancellor may choose to lead an immense personal following. Mr. Lloyd George's future is in any case a problem of extreme importance to the community.

PROVINCIAL GOVT. WILL AID EXTENSION P. & G. E. 330 MILES

NEW ROAD TO GO INTO PEACE RIVER COUNTRY FROM FORT GEORGE—BOND GUARANTEE TO P. & G. E. WILL AMOUNT TO NEARLY \$12,000,000

(Special to The Daily News)
Victoria, Feb. 25.—A bill to provide for the extension of the Pacific & Great Eastern railway from the junction of the G. T. P. at or near Fort George, in a northeasterly direction into the Peace river country for a distance of 330 miles, was introduced in the legislative assembly last evening. The bill also provides for a bond guarantee on the new extension of \$35,000 per mile at 4 1/2 per cent. The legislation further provides for an

increased bond guarantee of \$7,000 per mile on the main line of the P. & G. E. already projected from Vancouver to Fort George. With the extension provided in the new legislation, together with the bond guarantee added to the \$35,000 per mile already given on the construction of the road from Vancouver to Fort George, the total bond guarantee given to the P. & G. E. amounts to \$11,960,000 at 4 1/2 per cent. The mileage covered is 810.

THINKS RUPERT PLAYS PROFESSIONAL BALL

College Graduate from Spokane Seeks Job in this City's Pro. Baseball Team

Apparently Prince Rupert's optimistic advertising has not been entirely without effect. There is at least one young man living no further away than Spokane who thinks Rupert is big enough to have a professional ball team. Yesterday the sporting editor received a communication from a young man who has been playing baseball on the University of Washington team. He wants to come to Canada and applies for a job as first baseman on the Prince Rupert baseball team. He evidently appreciates the fact that bush leagues can't play baseball every day and he intimates that he could take a side order in the way of a position in an architect's office at odd times. If some of the baseball boys want to interest themselves in this find, The News will put them in touch.

RUPERT TENNIS CLUB HAVE ANNUAL MEETING

The annual meeting of the Prince Rupert Tennis club was held yesterday afternoon, when the following officers were elected:
President—W. E. Fisher.
Vice-pres.—W. S. Marshall.
Sec.—treasurer—W. O. Fulton.
Committee—Adair Carss and C. D. Harris.
The club spent \$1,500 last year building their courts on Acadopolis Hill and have it all paid up with the exception of \$170. There are 55 members, the initiation being \$10 and the annual dues \$10.
It is intended to build a club house early in the season. In June a big tournament will be held.

Becker Gets Off

New York, Feb. 25.—The court of appeals has reversed the conviction of Lieutenant Becker, the former New York police lieutenant, who was charged with the murder of Rosenthal. The court affirmed the conviction of the four gunmen also concerned.

NO RESOURCES YET FOR PRAIRIE PROVINCES

Premier Borden Says Too Difficult to Carry Out Conservative Policy

(Special to The Daily News)
Ottawa, Feb. 25.—W. A. Buchanan precipitated what was probably the warmest discussion of the session in the house of commons, when he brought in the question of the natural resources of the three prairie provinces. Mr. Buchanan stated that the Hon. R. L. Borden had made definite promises to the people of the west that these resources should be given over to the provinces as soon as he came into power. Nothing has been done. Premier Borden made the statement that it was the intention of the government to let the question stand as a result of the policy of the Liberals. Circumstances have arisen which made it difficult to carry out the Conservative policy. The premier intimated that the proposal was unsatisfactory and needed further enquiry and consideration.

Jolly Surprise Party

Mrs. Frank Ellis with a party of young people braved the elements last night to pay a surprise visit on Principal and Mrs. Brady. The host and hostess were taken entirely by surprise, but rose to the occasion nobly, and the party had a most jolly and enjoyable time. Miss Brant supplied the music and Mr. Brady's recitation was appreciated as well. The party broke up in the early morning. Those present were: Mrs. Ellis, Miss Green, Miss Brant, Mr. Darton, Mr. Briggs and Mr. Harry Buick.

Mr. P. I. Palmer, formerly manager of the Prince Rupert Planing mills and a large operator in city real estate, returned this morning from a year's trip around the world. He started out last spring, visiting England, France, Germany, Egypt, India, China, Japan, the Philippines and Mexico. Pat's many friends here are glad to welcome him home after his extensive trip. Mr. Palmer says he heard Prince Rupert spoken of in many parts of the world.

RETURNED FROM CHURCH FOUND HUSBAND DEAD

W. H. Kincade of the Crown Agencies Passed Away This Morning

W. H. Kincade, a citizen of Prince Rupert for the past four years, was found dead this morning by his wife and daughter on their return from early mass. Deceased came to Prince Rupert from Colorado. He had lived in many of the western states, having at one time been in the lumber business in Wisconsin, and for many years he was with a large milling company in Kansas City, where he was married. When he came to Prince Rupert he opened the Crown Real Estate Agency. He was a member of the Real Estate exchange and of several clubs in the city. He had many friends among the business men. He is survived by a wife and one daughter. The remains will be taken to

GRAND TRUNK PACIFIC WILL LINK UP IN MAY

Statement From J. W. Stewart and Also From Angus Stewart

(Special to The Daily News)
Vancouver, Feb. 25.—Angus Stewart, a brother of J. W. Stewart of Foley, Welch and Stewart, contractors, informed Mayor Newton and Hon. F. Peters, city solicitor of Prince Rupert, who are here in connection with financial arrangements for that city's hydro-electric scheme, that the G. T. P. would be completed and the last spike driven in two months' time.

Simultaneously with this telegraphic despatch, Mr. J. W. Stewart stated in Prince Rupert this morning that the road would be linked up early in May. The grading is well under way and the temporary bridges over the Nechaco and Fraser will allow the rails to be joined in May. Mr. Stewart came in on the Prince George this morning and went up the line with Superintendent Mehan and Dr. Ewing. He will go through to Fort George and out the other way. Dr. Ewing accompanies him to Fort George, inspecting the hospitals as he goes through.

CANDIDATE FOR MAYOR WANTS CIVIC SALOON

Thinks Two Would Satisfy Local Thirst and Help to Cut Down Taxes

Hamilton, Mont., Feb. 24.—Albert Murray Miles, a candidate for mayor, has announced in the local press a pre-election pledge that is unique. Mr. Miles claims to be a Democrat. He declares himself in favor of a municipal saloon, and agrees, if elected, to authorize an election to bond the city for \$15,000 with which to acquire, equip and operate a municipal saloon. Mr. Miles believes that two such institutions would be sufficient to satisfy the local thirst. He goes on to prove by statistics that these saloons would mean a profit of \$25,000 a year to the city and therefore the taxes would be cut down. Miles is the proprietor of a variety store.

DEPARTED LEADERS NOW IN ENGLAND

Refused to Leave Ship at First but Changed Their Minds

(Special to The Daily News)
Gravesend, Eng., Feb. 24.—Nine of the ten labor leaders deported from South Africa on board the Ugeni, which reached here today, declared their intention of refusing to leave the vessel when it arrived here. They said they would remain on board till the steamer returned. Mr. Bain, the general secretary of the Trades Federation of South Africa, who is one of them, said: "We were pressed on board against our consent. We don't intend to leave till we land in South Africa."

Arthur Henderson, labor member of parliament, after a conference with the men aboard the vessel, persuaded the South Africans to change their minds. Mr. Bain gave Mr. Henderson statements as to the events leading up to the deportation. He declared that hundreds of people were arrested during the strike for no crime whatever. The leaders of the movement, he asserted, surrendered in order to avoid bloodshed when the military officers threatened to attack them in the Trades hall at Johannesburg.

DAILY EDITION

Wednesday, Feb. 25, 1914

Premier McBride is apparently through with the north. It has been a good friend to him, but that friendship was only reciprocal in fair weather. The hard times which hit the provincial money chest is showing where the premier's heart is.

In discussing the necessity of the new loan and the cutting down of the annual expenditure by \$3,000,000, Premier McBride admitted that "Some of the newly projected works, such as new highways in the interior, particularly in the north, may have to be deferred until next year."

That means that the government is too hard up to open up the country for development. The few settlers and prospectors who have gone into the north and interior of British Columbia are to be left to their own resources.

The government has never had a policy of getting settlers on the land or of developing the great natural resources.

Now the premier admits that the few who have tried to open up the country in spite of the government are to be abandoned in the wilderness.

All the world is talking optimistically of the financial outlook and preparing to carry on big undertakings, but the premier of rich British Columbia finds his job too big for him.

The government may plead that it is so hard up it cannot give us roads, particularly in the north, but that plea does not hold good in the Wark Channel power request of Prince Rupert. The government needs nothing more than a proper conception of its duty to the people to grant that water right to Prince Rupert. Unfortunately, it is as barren of that conception as the treasury is bare of the late surplus.

With an easy money market and the Bank of England rate constantly dropping, Prince Rupert jumps in and pays ten per cent. The same treasury notes could have been sold a year ago when the market was tight at a better rate than this. Our financial experts who expect to realize around par for our fifty-year fives are going a pretty way about it.

DRAINAGE AND LIME ESSENTIAL FOR GARDEN

Horticultural Society Heard Lecture on How to Put Muskeg Under Cultivation

Very unfavorable weather conditions did not deter quite a number of citizens and those interested in pretty homes and gardens from meeting in the city hall last evening. The call was made by the Horticultural Society.

The feature of the evening was a talk by Mr. A. H. Tomlinson, provincial horticulturist, on how to prepare muskeg for lawn or garden. Muskeg, he explained, is imperfectly decomposed vegetation, which is acid and sour. The very first essential in bringing it under cultivation is drainage—deep under drains. Several kinds were described, but those he advocated as the cheapest and most serviceable are drains made with slabs of cordwood. Tile is not advisable, as it requires a hard, even base.

Lime is another necessary ingredient to be added to the muskeg. It can be put on generously without doing damage. It neutralizes the acid in the ground. Wood ashes aid chemical and bacterial action. Coal ashes in moderation supply some mineral and help to break up the muskeg. Sand, gravel and ground rock aid in drainage and add food for plant life. Manures are necessary to supply plant life.

Seaweed also makes a splendid manure. It is best put on green and turned into the soil. The lime used should be caustic, but any kind is helpful.

A general discussion on the subject was indulged in.

M. M. Stephens, who was chairman, gave some information about the society. Secretary Harris had arranged to have a mixture of clay and muskeg which is taken out of the post office site excavation stored on an adjoining lot. This can be had gratis for use in making lawns, and it will be loaded free of charge. Mr. Harris is also making arrangements for a special price on seeds for members of the society.

A committee from the society had asked the city council for free water for lawns and for a stump puller. The council will probably comply with the request.

A series of monthly pamphlets on timely topics of local horticultural interest will be issued to the members.

It has been suggested that a summer flower show be given, which idea seems to be popular.

Those who want lime for their lawns should place the order through the secretary.

A general canvass for members will be made.

Big Mine Soon Working

D. J. Williams, manager of the Rocher de Boule mines at New Hazelton, has awarded the contract for clearing the right-of-way for the aerial tramway which will convey the ore from the mine to the railway. Work on this has already been started. The completion of the big towers for carrying the tram is all that now delays active mining operations. In six months the big works will be all under way and large shipments sent out regularly to the smelter. It is likely that the Granby smelter will handle this ore, which will all be shipped through Prince Rupert.

The North Coast Towing company's twin-screw tugboat is now in good shape for the season's work. The Imperial Machine works have just finished boring out the cylinder and giving the engines a thorough overhauling.

REV. KERR MAKES HIT IN NEW WESTMINSTER

Large Congregation Turned Out to Hear His First Sermons in New Charge

(New Westminster Columbian.)

Rev. F. W. Kerr's first sermon in his new ministry of St. Andrew's church, delivered before a well-filled church on Sunday morning, had for its topic the mission the Saviour gave to His church and the mission given to St. Andrew's church in the downtown section of New Westminster. In an earnest manner, the new minister spoke of the challenge there was to every Christian to do the Lord's work in that part of the city. Was it right, he asked, that the souls of the young men and women in this section should be lost, and were they ready to clasp hands with him in that work? He emphasized the important field of the work. What virtue was there in foreign missionary work if the Hindus and the Chinese and Japanese were not gathered into the churches here for instruction? What is home mission work if the waterfront workers, the residents in lodging houses and in all manner of places in the city had not the gospel brought to them? As the largest congregation in the city, St. Andrew's had a large work to do. If there was corruption in the city, the church was concerned about it; if there was not everything clean in sport, in all forms of recreation, in social life, there was work for this church to do. He asked the congregation if in this they were prepared to stand behind him. Referring to his Prince Rupert ministry, he said that he had left a congregation where there was harmony and earnest working together, equal to any congregation in the west. He answered the call to New Westminster, for he had felt that there was special work to be done here. The conclusion of a sermon which revealed the new minister's intense earnestness and zeal for social-religious work, was a prayer for deep harmony to be shown here in all religious and social betterment work, which, he reminded his attentive hearers, always exists when men work with an eye single to the glory of God.

Furs Plentiful but Cheap

The British Columbia trappers made splendid catches of fur early in the season and anticipated a good winter's work. The spring reports are not in yet, but it is thought some big packs will be brought to market. Since last year practically all raw furs have declined from 20 to 40 per cent, and a further drop is expected after the March sale in London. There will be no improvement in price until next winter, at least.

Princess Sophia Off Again

The steamer Princess Sophia has been turned out of dry dock where she was undergoing repairs after running aground off Blenkinsop Bay. She went on the triangle run yesterday, relieving the Princess Victoria, which will lay off for overhauling. The Maquinna will retain the northern run for some time yet.

HENRY JONES
UXBRIDGE FARMER

FIRST CASE OF ITS KIND IN CANADA

Jury awards verdict of five hundred dollars damages against Ontario farmer who married a second time when his first wife was living. Miss Maria Fisher and Henry Jones, pictured above, were the principals in a peculiar case at the Toronto assizes. Jones, who is a prosperous farmer, was married 26 years ago, but according to his own statements had not seen her for 26 years and had received an anonymous telegram that she was dead. In February, 1912, Miss Fisher answered Jones' advertisement for a housekeeper, and after a short courtship, they went through a form of marriage and lived together for nearly a year. Then the first wife turned up and Jones was arrested for bigamy, but acquitted by a jury. Miss Fisher sued for \$10,000 damages for loss of character and social standing, and was given five hundred dollars. The presiding judge said it was the first case of its kind in Canada.

**SILVER STANDARD SHIPPED
 TWENTY-FOUR CARLOADS ORE**

ONE YEAR'S SHIPMENT OF OVER SEVEN HUNDRED TONS—WILL RESUME DEVELOPMENT—HAVE TWO THOUSAND TONS CONCENTRATING ORE NOW ON THE DUMPS

(Omineca Herald.)
 Ten carloads of high-grade silver-lead ore were shipped the past week from the Silver Standard mine on Glen mountain, seven miles from Hazelton. This makes a total of twenty-four carloads, or seven hundred and twenty-one tons. The last loads were brought down from the mine on Monday afternoon last and the last cars were shipped

from this point on Wednesday's freight.
 Last year the Silver Standard shipped just a little over three hundred tons, and it is safe to predict that this year's shipment, while more than double in size, will also be much more valuable, as greater pains were taken in sorting.
 Besides the seven hundred tons shipped, the company has on the dumps in the neighbor-

hood of two thousand tons of concentrating ore which will return an immense amount of money after treatment. Just when the concentrator will be installed has not yet been decided.
 Speaking to D. McLeod, general manager of the company, the Herald was informed that there will be another carload or two shipped out this winter provided the sleighing remains. At the present time the mine force is cleaning out the bunkers and sacking up what ore is left, preparatory to resuming development work. Mr. McLeod and Mr. McHugh are going up to the mine this week, and with Superintendent Haskins will decide upon the new development work to be undertaken first. It is most likely that the shaft on the

No. 3 vein will be continued to another level. Other work will be announced later.

**FIRST ANNUAL BALL
BEST DANCE OF SEASON**

Island Dancing Club Complete Series of Entertainments With Grand Ball

The Island Dancing Club had the sixth and final dance of the season on Monday evening. It was a brilliant finale to a most successful season and as a social event it was generally spoke of as the nicest ball of the year. The affair was held in the St. Andrew's Hall, where the elaborate decorations of a previous affair were left hanging. The floor was in excellent shape for dancing and the members claim Werner's orchestra never gave better music.

The ladies were all daintily gowned, many of them appearing in new costumes. The committee who had charge of the affair are being congratulated upon the success of their efforts.

Those present were:

Dr. and Mrs. L. Kergin, Mr. and Mrs. Lee Baker, Mr. and Mrs. Godenrath, Mr. and Mrs. Vaughn, Mr. and Mrs. Helgeson, Mr. and Mrs. Parker, Mr. and Mrs. Finegan, Mrs. and Mrs. Randall (Vancouver), Mr. and Mrs. McLeod, Mr. and Mrs. Walker, Mr. and Mrs. Willspinor, Mr. and Mrs. Frizzell, Mrs. F. Bowness; the Misses Kincaid, Irwin, Morrissey, Green, Sullivan, Taylor, Davidson (Montreal), Knight, Carlson, Bidding, Astoria, McKenzie, Hizzell, Emmons, King, Mason; Messrs. H. Rogers, E. Mann, Edwards, R. Rogers, A. McMaster, F. Wallace, E. Doyle, F. Booter, Henderson, L. Iver, Roche, J. Russell, A. Russell, L. Holby, N. Miller, F. Melliar, F. Waugh, E. Harris, Johns, G. Noble, W. Kissick, Knight, A. Little, Malcolm.

Mrs. Enright—Suppose I were to die, what would you do?
 Mr. Enright—Why, I should simply go crazy.
 Mrs. E.—Marry again?
 Mr. E.—Oh, not that crazy.

I'm the man who puts Uniformity into ROYAL STANDARD
I came to Vancouver from the largest mill in the world. My sole job is to test ROYAL STANDARD products day in and day out. I do my work so well that a poor sack of ROYAL STANDARD is impossible.
I first test in my laboratory the choicest samples I can procure of Canada's bumper wheat crop. Then I make bread from each. Only when delicious bread results—light, white and velvety—do I order wheat like my samples. My vigilance never relaxes. The delicious uniformity of ROYAL STANDARD never varies.
