NANAIMO COAL MINERS' STRIKE SUBJECT DEBATE IN COMMONS

NOTE OF CENSURE ON MINISTER OF LABOR LOST BY NARROW MARGIN—SUGGESTED C. N. R. DICTATED POLICY OF GOVERNMENT

(Special to The Daily News)
Ottawa, March 3.—After eight hours of bitter and incisive debate, the government majority held down the opposition motion of censure on Mr. Crothers, minister of labor. The motion was made by Mr. Verville of Moncton, who accused the minister of negligence and interference in connection with the handling of the strike at Nanaimo. It was defeated by a vote of 40 to 43. Several opposition speakers shared the correspondence and it was quite clear that all correspondence relating to the strike was with officials of the company. He said the men were no acts of violence by the action of the department, and the people responsible for the strike were more to be blamed than

those who committed offences against the law.
Mr. Crothers spoke at length in defence of himself and the officials of the department. He said nothing should have been done which was left undone and referred at length to instances where the late government had declined to interfere in labor disputes.
The Oriental phase of the question was discussed by Mr. Shepherd of Nanaimo. Mr. Shepherd was quite unable to credit the statement of Mr. Carrall that a large number of Oriental miners were imported since the strike had begun. Such a course, he said, was quite impossible under the mining laws of British Columbia. Every miner employed in British Columbia had to go before a board to secure a certificate of competency. The board sat monthly and did not grant more than fifteen certificates monthly. Consequently they could do no large importation of Oriental labor. Mr. Shepherd emphatically declared the opinion of the employment of Orientals was unfair. He closed by a repetition of his plea for an exercise of clemency on behalf of the imprisoned strikers.

MUNICIPAL ACT MUST GO THROUGH AS DICTATED

Bowser Fears Local Politics Would Interfere With His Triumphant March

(Special to The Daily News)
Victoria, Mar. 4.—An amendment to the municipal act to retain a clause permitting rural municipalities to make loans to farmers on mortgages on land was defeated in the provincial house by one vote. The attorney general opposed the amendment. While it might work well in some municipalities, it had not been successful in others and would mean the introduction of politics in the financial affairs of the municipalities.

VEREIN GERMANIA ELECT OFFICERS

New Organization May Also Train Choir of Male Voices

While almost every other city in the west is complaining of hard times, Prince Rupert is rapidly putting on the airs of a metropolis. Not only is this the case with regard to the construction of palatial public buildings and shipping facilities, but her social life is progressing equally rapidly.
Almost every nation is now represented in the terminal city and most of them already have their societies. Last week saw the inception of the Verein Germania, which has been formed by a number of enthusiasts to keep together the wanderers from the Fatherland. Club rooms have been secured above Messrs. P. Burns & company's store, and regular gatherings are to be held there. It is intended later to form a musical association and probably obtain a male voice choir from among the members. The following have been appointed officers:
George Werner, president.
P. Lorenzen, vice-president.
R. Priequitz, secretary.
C. D. Elling, treasurer.

HOME RULE BILL AGAIN BEFORE BRITISH HOUSE

(Special to The Daily News)
London, March 4.—It is definitely announced that Chief Secretary Burrell will introduce the Irish government bill this afternoon. The bill will be given the first reading and it is not expected that there will be any discussion. The postmaster-general will move the second reading on Monday, and will explain the changes that they are prepared to make for the sake of peace. Two days discussion will take place, when the big guns will be heard, and then an adjournment for a fortnight to permit the Nationalist convention at Dublin to declare on the changes.

PASSENGER DEPARTMENT G. T. P. MAKES CHANGES

(Special to The Daily News)
Montreal, March 4.—The announcement was made by the passenger department of the G. T. P. at Montreal that Mr. W. S. Duperow, passenger agent at Vancouver, was to be assistant general passenger agent of the G. T. P. with headquarters at Winnipeg; C. E. Jenny, city passenger ticket agent at Toronto, to be general agent of the passenger department at Vancouver; W. J. Moffatt, travelling passenger agent, Toronto, to be city passenger and ticket agent at Toronto, and S. R. Royce, ticket clerk, Toronto, will be travelling passenger agent with headquarters at Toronto.

SIR EDWARD GREY

In voicing the official British attitude in regard to the Benton murder case in Mexico, Sir Edward Grey has the support of an aroused public opinion throughout the British Dominions. The Secretary of State for Foreign Affairs is now undertaking his greatest test as a diplomat.

The Liberal convention at Victoria was a great success. Fully five hundred delegates were present from all over the province. Some of them had travelled a distance of a thousand miles to attend. In many cases men who even last year were presidents or secretaries of Conservative associations were this year Liberal delegates. These men say the present government are not Conservatives but exploiters and adventurers, and they are therefore throwing in their lot with the Liberals.
The Liberal platform of last year was adopted in toto and is one of the most modern and far-reaching platforms ever adopted by any party.
Mr. H. C. Brewster and Mr. John Oliver expect to pay the north a visit shortly. They will visit Bella Coola, Prince Rupert, Massett and several interior points.

Will Hang Friday
Vancouver, March 3.—A despatch received in Vancouver by Elmer Jones, counsel for Clark, one of the convicted murderers of Police Constable Archibald, is to the effect that the governor-general-in-council has declined to interfere with the sentences imposed on Clark and Davis, who will now be hanged in New Westminster on Friday next.

Captured Escaped Prisoner
Wm. Loehstein, who was under sentence of five months in Hazelton jail for supplying liquor to Indians, escaped from the jail some weeks ago. Constable Johnson of Hazelton came down a few days ago and yesterday picked him up here. He was taken back to Hazelton on the train this morning.

It is significant that at Ottawa yesterday the Conservatives had a majority of only three on a vote of censure for a cabinet minister. At the same time Hon. W. J. Bowser got only a majority of one against an amendment to his municipal act, which he insists on going through as it is.

M'BRIDE HAS LOST CONFIDENCE OF PEOPLE

Ex-Mayor Pattullo Thinks Provincial Government is Growing Desperate

Mr. T. D. Pattullo, who was one of the delegates to the Liberal convention in Victoria, returned on the Prince George this morning. He was questioned by The Daily News on the political aspect of the trip.
"The Liberal convention was a very successful one," said Mr. Pattullo. "The party is full of enthusiasm and fight. The provincial government is getting desperate and apparently determined upon making a final clean-up before being thrown out of office. I found many life-long Conservatives standing aghast at the latest railroad program of the government. Even our friend Woodworth, to whom was given Prince Rupert's water supply, and one-time president of the Vancouver Conservative association, has kicked over the traces.
"As a matter of fact the government is conscious that it has lost the confidence of the people and is now stopping at nothing to further its political ends. It is depending entirely upon the machine to see it through the next battle, and to this end all its legislation is throwing pretty nearly everything into the hands of the lieutenant-governor-in-council, which means Bowser."
In speaking of the commercial outlook, Mr. Pattullo thinks there is every evidence of increasing travel from the south during the year, which will mean considerable investment in Prince Rupert.

NEW YEAR'S HILARITY SHOCKED MAGISTRATE

Col. Denison Suspends License of Fashionable Toronto Restaurant
Toronto, Mar. 3.—McConkey's license was suspended for sixty days by Police Magistrate Denison as a penance for the hilarity which attended the New Year's eve celebration.
The conviction was made under section 81 of the license act, which permits the suspension or cancellation of the license of a tavern keeper convicted of "sanctioning or allowing riotous or disorderly conduct on his premises."
Colonel Denison, having heard a second grist of evidence, decided the behavior was all that and more.
"The whole thing was a disreputable affair," said he. "A drunken revel; what they call an orgy. Here were thirty or forty drunken women staggering out, while two had to be carried. There was drunkenness and noise and kissing, altogether the sort of conduct which should not be allowed in any respectable place."

HANDSOME ALBUM VIEWS OF INTERIOR

Book Put Out by G. T. P. Passenger Department on Exhibition at Board of Trade Room
A magnificent portfolio of 40 views of Prince Rupert and interior scenes has been received at the bureau of information of the board of trade, from the office of H. R. Charlton, general advertising agent of the Grand Trunk Pacific railway at Montreal. The album will be of particular interest to visitors and intending settlers in placing before them actual scenes of ranching, farming, stock raising and fruit growing that are being successfully undertaken at various points along the route of the G. T. P. railway, and was prepared at the special request of the board's commissioner, Mr. Godenrath.

BIG LIBERAL CONVENTION DEPRECATES CENTRALIZATION

NEW MUNICIPAL ACT SUBJECT OF VIGOROUS DISCUSSION AT VICTORIA GATHERING—POLICE COMMISSIONERS SHOULD BE ELECTED

The Liberal convention at Victoria last week took up the new municipal act and showed strong opposition to several of its provisions. After one of the most spirited discussions of the session the delegates adopted the following resolution on the municipal bill:
"Resolved, that as the Liberal party has always insisted upon local control in municipal matters, it sets its face resolutely against all attempts to centralize powers in the provincial government for partizan political purposes.
"We therefore deprecate the proposed legislation outlined in the amendments to the municipal

act, particularly the assumption of control over municipal funds by a supervisor attached to the attorney-general's department. If supervision is necessary, it should be exercised by a non-partizan department, in every way independent of the government; otherwise under the pretence of supervision the department will be debased into another vote-getting machine for the government.
"We have always insisted that police commissioners should be elected by popular vote instead of being appointed, supposedly for the purpose of their office, but often as political agents of the government."

MAYOR HAS RETURNED THREE WEEKS' TRIP

Got Usual Promise from Premier—Had Bond Offers in Vancouver

The mayor and city solicitor returned on the Prince George this morning after an absence since Friday, February 13.

The past week the mayor has been in Vancouver, where he was endeavoring to negotiate some of the city debentures, but could not get an offer which the council would accept. "We could sell a big portion of them," said the mayor, "but the council cannot see its way clear to accept the price. Naturally the buyers are all hanging out for as low a price as possible."
When asked about the trip, the mayor said:
"You know it was chiefly to get the consent of the provincial government to retain the loan of \$125,000 for the time being. There was considerable delay in getting the question before the premier and he saw the objection to it that if this favor was granted Prince Rupert there would be requests from all parts of the province for similar favors. The premier is exceptionally busy and he has promised upon the house arising to go fully into the question. If it is found possible to meet the city's request he will do so."

WHIST DRIVE AND DANCE GIVEN BY ODDFELLOWS

Two Hundred Members and Friends Present and Had Evening of Solid Enjoyment
The members of Prince Rupert lodge I. O. O. F., No. 63, were at home last evening to their friends. Never before had the K. of P. hall held such a large and brilliant assembly. There were fully 200 present and the rooms were crowded with charming ladies and happy men.

In the early part of the evening there was a whist drive with some thirty-four tables. The honors were awarded to Miss M. Easson, first, and Mrs. Jack, consolation; Mr. A. Berner, first, and Mr. Wm. Grant, consolation.
Following the whist drive excellent refreshments were served in abundance.
The lodge room was then cleared and dancing was indulged in for several hours. The floor was in good shape and splendid music enticed both old and young to indulge in the terpsichorean pleasures.
The officers of the lodge and the committee in charge made excellent hosts and looked after all the guests present.
Mr. Ben Self was manager of the refreshments and his department was very satisfactorily managed. The whole affair was a great success, and all those present hope the Oddfellows will give another social function soon.

NEWINGTON IS NOT BADLY DAMAGED

Word by wireless gives a few further details of the collision of the Prince John and government cruiser Newington. It seems the Newington was tied up at the Swanson Bay dock, and in making a landing the John scraped her. The damage to the small boat was not sufficient to put her out of business and she is now on her way to Victoria under her own steam.

NEW HAZELTON WANTS COUNTRY OPENED UP

Deputation to Victoria to Get Necessary Roads Constructed

The Citizens' association and Mine Owners' association of Hazelton have sent a deputation to Victoria asking for the opening up of the country in that district. According to the Omicron Herald the New Hazelton deputations are asking for the completion of the Nine-mile road to the Nine-mile mining properties; for a direct road from the Kispix valley to a depot at New Hazelton; for construction of a road across high level bridge to the depot at New Hazelton; for the construction of a horse trail from New Hazelton over Roehar Boule mountain to connect with the Wonder group, the Highland Boy, the Great Ohio and the Roehar de Boule mines in the town. The properties owned are either working or have been worked until recently, and will resume operations in spring. This trail is one of the most important pieces of work so far as this town is concerned that could be done on this side of the Bulkley river. It brings all the mines within very easy reach of the town and the depot. The road across the high level bridge will be the main link road, and will join at Two-mile creek with all other roads and trails to the Four, Nine and ten mountain mines, the Kispix valley, the Groundhog country, the Babine and the Omineca and Ingencia countries.

SECOND OF FISHERY BOATS SHOWS SPEED

Galiano Made 14 Knots Off Victoria on Friday—Finishes Long Trip from Clyde

Judging from the splendid speed which she made on a trial trip last Friday, it is expected that the new fishery cruiser Galiano will prove a faster vessel than her sister ship the Malaspina. The Galiano was piloted into Esquimalt harbor by Capt. J. Newby, completing a 67-day passage from Greenock, Scotland. About two hours and a half later the little vessel was taken out in the strait and given a try-out. She reeled off fourteen knots an hour, which is an exceptionally fine performance considering the facts that her hull is dirty and her engines need overhauling after the long run of 15,000 miles.

The Galiano is a duplicate of the Malaspina in every respect. She is a sturdy looking little vessel and her sharp bow indicates that she is able to clip through the water at a lively clip. The Galiano has been staunchly constructed and is able to stand any amount of heavy weather. Her splendid sea-going qualities were well demonstrated on the voyage out from the old country.

It is understood that the new cruiser will be used to patrol the west coast of Vancouver island against inroads of United States fishermen, replacing the Newington. The Roman, under charter to the naval department, will be released and there is some talk that the Newington will return to the direction of the marine department.

DAILY EDITION Wednesday, March 4, 1914

Premier McBride and Wm. Manson cannot afford to spend the public money building roads and bridges for the pioneers, particularly in the north, but they can use the public credit to build a railway to connect Alaska and the United States in order to create a friendly feeling with our neighbors.

According to the district papers the settlers and pioneer business men in different parts of this riding are calling for roads to open up the country contiguous to settlements, but which the road department refuses to do because certain settlers or citizens are not in political sympathy with the sitting member or because some politician has a pull which takes the appropriation to some remote spot which will benefit some particular individual.

The settlers are getting tired of the political road system which is keeping the country tied up.

On November 25, 1909, Premier McBride gave a personal undertaking published in the Victoria Colonist over his own name that he would tender his resignation if all the provisions of the undertaking were not carried out. It was in connection with the government's contract with the C. N. R. One of the principal clauses in that undertaking was that the road would be completed within four years. That time has almost expired and instead of Premier McBride getting his resignation ready he has introduced a bill to extend the time for completing the road some two years. The company has fallen down on other clauses of that undertaking also, but the premier evidently has no intention of keeping his word with the electors. In future the premier cannot expect the people to believe him no matter how sincere he may appear.

UNDER TWO FLAGS—SHE INSISTED ON THE UNION JACK

Miss Josie Collins in her dressing room. There was a strike of chorus girls and a real near-riot on the stage of the Princess Theatre, Toronto, last week, during the performance of the "Zeigfeld Follies." There is one scene where the United States flag is shown very conspicuously. Miss Collins, who is British born and bred, insisted that when she played to an audience on British soil that the British flag be displayed. Miss Collins is leading lady and her wish was complied with. Thereupon twenty-one chorus girls quit in the middle of the performance, and the show was concluded for the evening with a very much abbreviated chorus. Eventually, however, an arrangement was patched up, and for the remainder of the week the Union Jack was displayed together with Old Glory, and everybody seemed satisfied. Note the two flags displayed together with Miss Collins. This photo was taken after the flag incident in Toronto.

HERRING REPORT IS MET BY CYNICAL LAUGHTER

ONLY BENEFIT TO CANADIANS IN THE INDUSTRY IS WAGES PAID TO INSPECTORS

Vancouver, March 3.—The value of the herring catch in 1905 was \$212,475 (dry salted). The value of the smoked herring output was \$16,415. Last season the herring industry alone had developed to such an extent that the total value of the catch had increased from \$228,890 in 1905 to \$515,980.

This paragraph, given out by E. G. Taylor, inspector of fisheries for district three, to a government newspaper has aroused the persons of Vancouver and Victoria who are interested in the business to a cynical laughter, which will be followed by a strong protest to the authorities. They say that while it is all very well to congratulate the country on the increase of an industry, it would be more to the point if the country benefited thereby. In this case the benefit is all going to the United States and Japan.

The herring fisheries in Vancouver are controlled entirely by the Japanese. There are practically no white men able to obtain licenses as all the licenses are handed over to Orientals. In this way the money is sent out of the country as soon as the Japanese have sold their catch. This, however, is not the grievance which most concerns the shipping men. They state that all the salt used in curing the fish is bought in the United States and shipped in by American bottoms and that American ships later carry away the lion's share

of the catch to Puget Sound ports.

A prominent shipping man of Vancouver who in former years has had a large share of the herring lighterage, said yesterday that this business is being removed from Canadian vessels and that the majority of Japanese have transferred the trade to ships flying the stars and stripes exclusively.

"I can't see where Canada is benefited by the herring industry," he said, "when the salt is brought from the United States in American bottoms, and the work is done by Japanese and the finished product carried away again in American ships. All that Canadians have to do with it is to pay the wages of the inspectors."

More than ten companies are concerned in the loss of this trade by Canadian vessels. This means that they have to lay up their ships and the skippers and crews are without work. Some fifteen vessels have been cut out of the herring lighterage, which runs from 15,000 to 30,000 tons a year.

Want Survey of Omineca

A largely signed petition has been forwarded by those interested in the interior country to the Dominion premier asking for a geological and topographical survey of that portion of the Omineca mining district contiguous to Chicken lake, Smithers, Telkwa and Aldermere.

GRAHAM ISLAND CASE DEEMED CIVIL ACTION

Father Coccola Trying to Recover Money Paid for Land He Did Not Get

In finding Alphonse Emond not guilty of forging and false pretences in Vancouver last week, His Honor Judge McInnes remarked that the case was one for the civil and not for the criminal court as the evidence was insufficient to warrant a criminal action.

According to the evidence submitted, Emond undertook to obtain land from the government for Rev. Father Coccola, a Roman Catholic priest at Powell river, said land to be situated on Graham Island, for which the Father was to pay \$2.50 per acre and on account of which the plaintiff parted with sums amounting in all to \$685. As no news of the land was forthcoming, the plaintiff endeavored to get an accounting from Emond, whereupon accused offered him land on the island at \$10 per acre, which was refused.

Evidence was given showing that the accused had not applied for any land in the name of the plaintiff, or that there was any application in the name of Coccola in the past two years. The defense was a denial of the evidence of the plaintiff, and of any intention to defraud, inasmuch as the accused, being unable to get the land for the plaintiff, had offered him land which he had previously bought. The only action possible being one for the recovery of the money paid by the plaintiff, His Honor delivered judgment as stated. Mr. W. McKay appeared for the crown, the accused being represented by Mr. W. Pollard Grant.

Members of the V. A. C. lacrosse team, world's amateur champions, met with their friends in a little "get-together" session last week. During the evening medals were presented to the members of the team who were successful in defending the Mann cup last year. Much enthusiasm was manifested over the prospects for the coming season and the promise was made that every member of the team will be on hand this year to once more defend the trophy.

In the international association football match at Glasgow on Saturday neither Scotland nor Wales were able to score, the result being a draw. The ground was rain sodden, but notwithstanding a splendid exhibition of good football was witnessed. Scotland was rather disappointing, while Wales played above their reputation. Only ten thousand people attended. The goalkeepers beat both sets of forwards by remarkable saves. Radical changes on the Scottish team to meet Ireland on March 14 are predicted, the halfback being very weak on Saturday.

The championship of Australasia was won by the All-American track and field team at Melbourne, January 26, according to mail advices just received from the Antipodes. The silver shield awarded annually to the winning team, however, went to the Victoria state team, which made second place, the rules governing the award specifically providing that only Australasian teams be its recipients.

FATE OF PROFESSIONAL LACROSSE IN BALANCE

The next few weeks will probably decide the fate of professional lacrosse as far as the Pacific coast is concerned. Just now a strenuous fight is being waged for control of franchises in the B. C. L. A. Con Jones is anxious to get back in harness, although he will not listen to any argument from Westminster unless the world's champions are under control of one manager instead of as heretofore, a committee of the citizens.

That the situation is a critical one for lacrosse is admitted on all sides. New Westminster has

been known as the lacrosse nursery of the Canadian west for years. In fact the championship teams turned out during the past ten years have been practically composed of boys who have been born and brought up in that city.

The straight professional basis, however, has since proved the undoing of former years. At the present time the prominent citizens who have financially backed the Salmonbellies through thick and thin, are now missing. Mayor A. W. Gray, Ald. Keltington, Herb. Ryall and others, all past stars at the game, have pulled up stakes following private meetings among the players who failed to invite the executive, with the result that unless almost superhuman efforts are made during the next few weeks, the curtain will fall upon the professional game, leaving the field open to amateur lacrosse teams and semi-pro. baseball.

May Have New Government

(Bella Coala Courier.)
We regret to learn that the bridge across the Nootsatsum river at the old crossing, so urgently needed by the settler, and so confidently expected, is not to be built this year. We can only advise our friends to keep this matter in mind. The government may be able to afford it some day. At any rate, if this government won't build it the next one may, and that may not mean long to wait either.

The most talked off prize fighter in the United States. He trains on fighting and has four or five battles a week.

White Sox, just brought to an end in London, England, has netted the teams a profit of \$75,000. The White Sox won 24 games against 20 won by the Giants. Four games were played with native teams in Japan and Australia.

Alf Morsy, a middleweight pugilist, defeated Johnny Summers, former welterweight champion of England, on a foul in the seventh round. Summers fought unfairly throughout the bout and struck the referee when the decision was announced.

The signed contract of E. C. Quigley, a member of the National league staff of umpires, has been received at the National league offices. According to Secretary Heydler, Quigley had been negotiating with the Federal league.

Reports that Hal Chase, the Chicago American's first baseman, was wavering between resigning with the White Sox and joining the Federals are in circulation, but have not been confirmed.

The Poor Man's University

JONES knows more about motor cars than any other man I know," said a man to his friend. "He has obtained his knowledge chiefly from motor car advertisements, and the catalogues and booklets circulated through them."

"All I know about photography," declared a well-known amateur, "I have learned from the men who advertise cameras, plates, papers and films."

Advertisements have been well called "The Poor Man's University," but other than poor men have been schooled thereby.

Much of what the average individual knows concerning personal and domestic hygiene, modern office methods, books and authors, electricity, precious stones, investments, and almost everything else, he has learned from advertisements.

Advertisements have stimulated our intelligence, added enormously to our knowledge, and given us aspirations which have raised us to higher levels of thinking and living. Advertising is indeed "The Poor Man's University."

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.
If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

A NEWSPAPER

for Prince Rupert and Northern B.C.

The Daily News goes into nearly every home in Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate optimism and reliability.

The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.

Mrs. McColl at Home

One of the most enjoyable "teas" ever given in Prince Rupert took place yesterday afternoon when Mrs. G. P. McColl held a farewell reception for Mrs. Andrew Stewart at her home on Fifth avenue west.

Many of the guests declare that they have never seen tables more beautifully decorated. The display of flowers and silver was exquisite. A selection on the pianoforte by Miss L. Stevens was very much appreciated, as was a recitation by Mrs. Patterson. The tea tables were in charge of Mrs. D. G. Stewart and Miss MacTavish. Mrs. Merryfield served.

Among those present were: Mesdames Eggert, Wilson-Murray, Melville, Carmichael, Steen, Tobey, Jamieson, Douglas, Arnold, Humble, M. M. Stephens, Hilditch, Paterson, D. C. Strang, Arthur Smith, Dimmick, P. Stevens, Fortune, Brady, Warner, Martin, and Misses McWilliams, L. Stevens, and Moore.
