

## C.N.R. INSISTS ON PUBLIC LOAN OR GUARANTEE

### G.T.P. WILL BE LINKED UP NEXT MONTH—PRINCE RUPERT GREATEST FISHING PORT IN AMERICA

#### MACKENZIE AND MANN PERSIST MUST GET LOAN OR GUARANTEE

WE AGAIN RETURNED TO OTTAWA—PROSPECTS OF LOAN NOT GOOD BUT HOPE FOR BOND GUARANTEE

(Special to the Daily News)  
Ottawa, March 6.—The return of Mackenzie and Mann to Ottawa, again, if this scheme is impossible, an extra bond guarantee will be sought to enable the company upon the endorsement of the Dominion to raise money in Great Britain.

idea of securing a loan, but the prospects are not too alluring. Again, if this scheme is impossible, an extra bond guarantee will be sought to enable the company upon the endorsement of the Dominion to raise money in Great Britain.

#### GREATEST FISHING PORT ON THE CONTINENT

H. Greenwood Says This Is Opinion of All the Big Fish Men

H. Greenwood, manager of Skeena River syndicate, with office located in Vancouver, in the city last evening, have come in after a brief visit to company's property at Hays.

Mr. Greenwood said his company would not be in the salmoning and packing business this year, although they eventually expect to have a salmonery in connection with their plant. This year they are greatly increasing the capacity of the cold storage plant. That is well under way and will be completed. The dock has been extended and the capacity of the storage buildings increased to 2,000,000 lbs.

Mr. Greenwood is a well-known Canadian newspaper man taking up the work with the Skeena syndicate. He was one of the best of the profession in Toronto and still scents the ink and news values in Prince Rupert's future. "I believe that the heads of the fishing companies on the Pacific and the fish men of Great Britain are convinced that Prince Rupert will be the biggest fishing port in America. I believe the coast of this district will be dotted for many miles with fish packing plants and canneries," said Mr. Greenwood in conclusion.

#### Big Contract at Victoria

Ottawa, Mar. 5.—A contract has been signed by the government for the harbor development at Victoria, B. C. The successful tenderer was the firm Grant, Smith & Co. and McNeill Limited, the contract being \$2,244,745. A breaker is already under construction in the outer harbor of Victoria, and the present scheme of development provides for a series of piers inside the breaker.

New spring suits and coats at 53

#### QUARTER BILLION TO CANADIAN NORTHERN

How Canada Has Been Building the Railroad for Mackenzie and Mann

Ottawa, March 5.—If the government accedes to the request of the C. N. R. for a loan of twenty-five million dollars, the company will be indebted to the Dominion of Canada in subsidy loan and bond guarantee to the extent of over a quarter of a billion dollars.

The stupendous figure estimated from available statistics does not of course all represent direct present obligation, since a good portion of it is in bond guarantees, but it indicates the extent of the liability assumed by Canada, and money expended by them in aid of the C. N. R. construction. The total amount, including bond guarantees, cash subsidies and land grants, and including the proposed loan, is \$273,735,000. It is estimated that the National Transcontinental will cost the country at the end of 1922, \$234,000,000. It would then appear that the Dominion of Canada, if the present loan is granted, will have assumed liability for and given aid to the building of the C. N. R. for a sum over \$30,000,000 in excess of that paid for the C. N. R.

#### WILSON WILL UPHOLD U. S. NATIONAL HONOR

Makes Personal Appeal for Congress to Protect the Hay-Pauncefote Treaty

Washington, March 5.—President Wilson has personally appealed to congress assembled in joint session to sustain the national honor of the United States in upholding the treaty obligations by repealing the Panama canal tolls exemption, against which Great Britain has protested. He has asked congress to do that in support of the foreign policy of the administration. He has added in his address that exemption of American ships would not only be a mistaken economic policy but a contravention of the Hay-Pauncefote treaty.

Port Edward's harbor is two miles long with a turning basin of two thousand feet across.

"THE BOYCOTT IS ON"  
High Cost of Living Cartoon from San Francisco Bee

#### LABOR COMMISSION RECOMMENDATIONS

Report Has Been Made to Legislature—No Action Before Next Session

Victoria, March 4.—The commission appointed by the government to consider the various matters connected with labor has made its report, which has been brought down in the legislature. The main recommendations in the report are as follows:

Compulsory state insurance against accidents to workmen to be administered by a workmen's compensation board.

Saturday half-holiday in all stores.

A fortnightly pay day to coal miners and in other industries.

Restriction of the privilege of sub-contracting in railroad construction.

Time cheques to be negotiable. An eight-hour day is declared to be a matter for Dominion legislation.

A minimum wage is not favored.

Women inspectors for shops and factories.

The licensing of operators of elevators.

Discrimination by employers against members of labor unions should be forbidden by law.

A municipal employment bureau should be obligatory on cities.

Scaffolding inspectors should be obligatory in cities.

Miners should be entitled to supplies at cost.

Mine operators should be compelled to establish wash-houses for their employees.

Collective bargaining is favored as a means of fixing wages for miners.

No change in the method of appointing gas committees is advocated.

Asiatic exclusion is favored. Assisted immigration to be confined to farm laborers and domestic help.

Extension of the provisions of the factories, etc.

White labor should not be employed with Asiatic.

Small holdings for workmen's dwellings.

All text books in the public schools to be free.

None but British subjects should be employed on government and municipal work.

Provincial regulations governing electrical construction and the appointment of an assistant inspector is recommended.

#### CIVIL ENGINEERS MAKE SUGGESTIONS TO GOVT.

Want Committee on Transportation Make Preparations for Panama Trade (Special to The Daily News)

Ottawa, March 6.—The appointment of a committee on transportation is urged by the Canadian Society of Civil Engineers in a memorial presented to the government. The pointed out that in view of the early completion of the Panama Canal great developments in all lines of industry in Canada would take place and which call for more than ordinary methods of solution. They suggest the appointment of a commission to make recommendations on the subject of general improvements of rivers, waterways and lakes along with winter port facilities. Their equipment with regard to railways enquiry would be directed to defining a reasonable relation between earnings and expenses and how to improve the Atlantic and Pacific interior terminals and also the Hudson Bay route. #### LINE WILL BE LINKED UP NEXT MONTH

Good Progress Being Made—Tracklaying Will Be Uninterrupted Now

"Splendid progress is now being made on the road construction," said General Superintendent W. C. C. Mehan. "Tracklaying started again yesterday and two miles were laid beyond 37." There is nothing now to interrupt continued work and the 30 miles yet to lay to reach the Nechaco river should go down at the rate of two miles a day.

From the Fort George side to the eastern point of connection is 90 miles. The last report received at the offices here showed 30 miles of track laid, and it is probable that ten more have since been put down. That will leave about 50 miles on that end to complete.

The grading, while not finished yet, will not interfere with tracklaying. At some points temporary track will be laid around the big cuts, the purpose being to get tracks to take material through for the permanent bridges and for ballasting.

While the eastern end has some further distance to go than there is on the western end, there is less snow and fewer bridges on that end. By the latter part of April the linking up will take place.

Weather conditions up the line are very favorable to the work this spring, and no delays are anticipated. It is not expected that the permanent track will be down before June or perhaps July.

#### CEMENT CONTRACTORS HAVE OPENED CAMPS

Started Work on Foundations for Permanent Bridges on G. T. P. Line

The J. A. Mackenzie company, who have the contract for all the cement work for the permanent bridges on the G. T. P., have opened up two camps in connection with their work.

The first is at Kitsumkaluu, 90 miles up the line, and the next is at Lorne creek, 129 miles. The company have twelve bridge foundations to put in and will employ a large number of men for several months. The same company has done considerable cement work for the railway in the eastern section.

#### ALLEGED MURDERERS GET SHORT REPRIEVE

New Evidence Said to Have Been Secured—Case to Be Tried by Dominion Supreme Court

(Special to The Daily News)  
Ottawa, March 6.—An eleventh hour reprieve of fifteen days was recommended by the cabinet at a special meeting last evening and signed by the Duke of Connaught shortly before midnight for the two men, H. F. Clark and Frank Davis, who were to be hanged at New Westminster today for the shooting of Constable Archibald. The reprieve was signed by the minister of justice and wired to Vancouver. It is claimed that some evidence has come out which will show that the two actually did the shooting. The reprieve is to give an opportunity for the case to come before the Dominion Supreme court.

#### MILLINERY OPENING

Mrs. Hamblin, in charge of the millinery department at Demers' announces to the ladies of Rupert that the opening will be held Friday and Saturday, March 6th and 7th.

Port Edward has fine waterfront facilities.

#### RUPERT'S PRESSING PROBLEMS DISCUSSED AT LUNCHEON

FIRST BOARD OF TRADE BUSINESS MEN'S LUNCHEON GREAT SUCCESS—BRIEF ADDRESSES BY T. D. PATTULLO AND MAYOR NEWTON

Eighty-four business men gathered at the G. T. P. cafe at one o'clock today for the first of a series of business men's luncheons. It was a great success and did much to create a feeling of unity for the welfare of the city.

The address of the hour was by T. D. Pattullo on the pressing problems confronting the city for the immediate future. The completion of the G. T. P. had placed a responsibility upon us which we cannot shirk. Added to this is the completion of the Panama canal, which will be a benefit to this city along with the cities of the south. Ships will bring products of soil and factory to this port and must have return cargoes of fish, mineral, lumber and possibly oil. Prince Rupert will be a great distributing centre. We will have to modify present shipping facilities. We must have a line to Cordova, Skagway and to all local ports. Prince Rupert ought to be the controlling factor in the Alaska supply.

Mr. Baudette, who prospected this district in the coal fields, told the speaker that he was now convinced of the future of Prince Rupert. It will surprise people at the arrangements which will have to be made to handle the coal out of this port.

Mr. Pattullo said neither the city nor the G. T. P. were ready for the business which would come to this city immediately. Everyone will have to co-operate to catch up.

The G. T. P. should be inter-

viewed and a definite policy announced as to what they are prepared to do in the way of shipping facilities and industrial sites. The city has got to provide water and electric power.

The G. T. P. is controlled by ordinary mortals who are very busy men. They would probably welcome suggestions.

A publicity campaign should be opened and the city should bear the large proportion of it.

Mayor Newton was delightfully surprised at the success of the gathering and thought it showed a civic awakening. He agreed with Mr. Pattullo on all the points of his address. He considered the pivotal point of the question of publicity is "What can we offer industries in the way of sites?" He did not favor a large expenditure on publicity until that point is settled. The southern cities had made that mistake.

On the question of a publicity campaign he suggested a general committee from the board of trade, the commercial interests, the Real Estate exchange, and from the city council.

He would like to see the board interest itself in getting a boat for local ports which would make its headquarters at Prince Rupert and not go down to Vancouver and Victoria.

The lunch provided by the cafe was very tasty and attractively spread.

#### GOVERNMENT EMPLOYEES ARE BEING DISCHARGED

Charges are Made in Parliament that Dismissals Made Without Good Reasons

(Special to The Daily News)

Ottawa, March 6.—The inland revenue estimates under consideration had the result of much discussion in French, Nantell being persistently questioned with regard to the affairs of his department and more particularly to dismissals. They charged the minister with many instances of discharged employees without any enquiry and without good reasons. Nantell maintained that in every instance of the dismissal of employees they were guilty of political partizanship.

#### KING AGREES TO WITNESS PROFESSIONAL BOXING

(Special to the Daily News)

London, March 6.—The King has announced that he will attend a boxing competition of the Horse brigade, when a professional contest will also be arranged.

#### CANADIAN PARCEL POST NOW CARRIES 11 POUNDS

(Special to the Daily News)

Ottawa, March 6.—The ultimate limit of eleven pounds for the parcel post went into effect today. The restriction to a six-pound package enforced during February, March and April is removed.

Rev. W. G. W. Fortune, who is supplying the Presbyterian pulpit for the month of March, has taken room No. 15 in the Albert block. Mr. Fortune has asked us to state that in case of sickness or distress he will be found at the above mentioned place.

#### GANGS DREW AGAIN FOR STATIONS 4 AND 5

Previous Winners Refused to Sign Up for Hydro-electric Excavation Work

(Special to The Daily News)

Last evening the city engineer had the six station gangs who drew blanks on the last selection for the Woodworth lake excavation draw again for stations number four and five. The previous winners refused to accept the work at the prices and the new drawing was made. The winners were McLeod and Cassidy. They have not yet signed up. The prices on the different stations are:

- No. 1 and 2 stations, \$1.45 per yard.
- No. 4, \$1.10 yard.
- No. 5, \$1.50 yard.
- No. 6, \$2.10 yard.

The prices are fixed on the average for trenching and side cut. Where there is grubbing to do on the trenches the sum of \$300 an acre is allowed for that work. Earth is fixed at 50c per yard, but there is little or no earth on the work.

#### Wedding Bells

A quiet wedding took place at the Methodist parsonage last evening at 6:30, the principals being Mr. Raymond A. Slaker and Miss Marie Wickstrom. They were unattended. The groom is the yard telegraph operator at the G. T. P. here. The bride arrived from Seattle a few days ago. Following the ceremony there was a wedding dinner at the Royal cafe. Mr. and Mrs. Slaker are residing at the Royal.

#### The British Budget

(Special to the Daily News)

London, March 6.—The chancellor is preparing the budget, and indications are that Lloyd George faces a budget of £200,000,000.

DAILY EDITION  Friday, March 6, 1914

Who could have told a year ago where or what "Kikuyu" was? Today it is almost a household word. The reason is not that Jack Johnson has made his headquarters there, nor that Harry Thaw in another wild escapade had gone thither. It is rather that a few ecclesiastical hair splitters had got together and begun to stir up the troubled fires of religious strife, which most people had hoped were mouldered down for ever.

The several Protestant missionaries of British East Africa had decided that some form of federation between them would be useful in presenting a united front to the armies of paganism. They met, they planned, and they worshipped God together as best they could, even going as far as Celebrating the Christian feast of the Lord's supper. This news reached the ears of high churchmen and the heresy hunt began, with the end not yet in sight. In the meantime the intellectual forces of the low church are siding in with the African bishop, the celebrated Dr. Handy Moule going so far as to say that if the charge be one of heresy, they might as well include him in the list. It is quite evident that a few more years must roll before Christian unity can be established on the earth.

President Woodrow Wilson wants to repeal the Panama free tolls act. This is not because of any promise he has made to the American people. On the contrary, he was elected on a platform which declared in favor of free tolls. Why is it that the president has taken this stand when all his other actions have been

largely decided by the pledges in his platform?

No doubt he wants to retain the friendship of Britain, and the repeal would be an evidence of good faith. Then no doubt he has been studying the question in the light of the Hay-Pauncefote treaty, and like a good many other Americans, he has seen the justice of the British claim. If he succeeds in carrying out his intentions he will place another feather high up in his official hat.

When the British Columbia government guaranteed the C. N. R. bonds for a road to the coast they adopted the most short-sighted policy possible. They did not even wait to realize that the C. N. R. must come to the coast in order to complete their system. Any business corporation would have taken advantage of this fact. The McBride government, however, rushed into the arms of the company. They guaranteed their bonds on the company's own terms. Now they raise that guarantee by another \$10,000 per mile. Will anybody say that those in authority did not get a rake-off?

The provincial government's estimates for the year include \$65,000 for advertising. There are only about a half dozen Tory papers in the province and this amount should make them all very fat. No wonder the little Tory organ does not need to send out its bills. Everything necessary will be furnished by the paternal machine as soon as the printers' union insists on its pay. No wonder the solitary trombone can pipe away at the government's praises without even knowing what it's all about.

**Canadian and British News**

Forty black fox companies, up to date, have been incorporated in Nova Scotia.

Acadia college has received a bequest of \$100,000 through the will of Miss Mark Cramp, daughter of the late Rev. J. M. Cramp.

A bonspiel was held at Halifax recently, attended by curlers from various parts of the maritime provinces and Newfoundland.

Following serious charges of corruption in the police department of Edmonton, the chief of police, Silas Carpenter, formerly chief of the detective force of Montreal, has been summarily dismissed from office, and A. C. Lancey, formerly chief of police, has been appointed in his place.

The city engineer, Montreal, has submitted to the board of control a report recommending, among other works, the laying of twenty miles of new permanent pavement involving an expenditure of a million and a quarter, and also two hundred thousand dollars for macadamized streets.

The car ferry steamer built to the order of the Canadian gov-

ernment for use between Quebec and Levis, to carry the trains of the National Transcontinental over the St. Lawrence until the new bridge is completed, has been launched at Birkenhead. She is called the Leonard, is 326 feet long, 65 beam, has a draft of 15 feet, and is capable of carrying a locomotive and train of 1400 tons.

The thirty-foot ship channel between Quebec and Montreal is practically completed. The total length of dredging in the project was seventy miles and the length yet to be dredged, says the annual report of the department of marine, is 4.20 miles. This, of course, was at the beginning of the present fiscal year. A good deal of work was accomplished last summer. The total cost of the ship canal from 1851 to the present time is nearly sixteen millions.

It is reported that the largest dry dock in Canada, or even in the world, is to be constructed in Halifax harbor. The site spoken of is at Tuft's Cove, on the Dartmouth side of the harbor. It is said that as soon as the site is fixed, the preparation of the plans will be begun, and the work will proceed this year. This

dock will be of the same class as those to be constructed at Quebec and Esquimaux, and will cost upwards of \$3,000,000.

Thirty students of the Normal School of Physical Education, Montreal, have started a three months' diet test, announcing the result next June. Five will take the full meat course, three times a day and between meals. Fifteen will try a modified meat-vegetarian, or hash diet; and four will attempt a strict vegetarian diet. A few will take a "strictly scientific" course of eating, the menus not being indicated. It is said that the future menu of the school will depend on the success of the experiments.

**Gum and Suicides**

Milwaukee, Wis., Mar. 5.—Investigation shows that Geza Sabadi, who shot a fellow boarder yesterday and then committed suicide, had consumed two pieces of a package of chewing gum. The authorities at the county morgue recall that the last seven suicides in Milwaukee have been found with the same number of unchewed fragments of gum in their pockets. The police are searching for the answer. Milwaukee is America's city of suicides, there being more lives ended in this city by self-destruction in proportion to population than in any other American city.

### BRITAIN'S GREATEST HEROES

Are Her Missionaries in North Africa.—This was one of the statements of Rev. Dr. Rainsford, noted preacher and author of New York City, who is visiting Canada, addressing Canadian clubs. Thirty years ago he was assistant rector of St. James' Anglican church, Toronto, and the people of that church wanted to have him appointed rector, but the Bishop of those days wouldn't hear of it. Rainsford was very democratic. He went to New York and transformed one of the struggling missions of Gotham into one of the most influential churches of United States Episcopalianism.

### No Smoking in Zion

Zion City, Ill., March 5.—Six men were arrested here for smoking in spite of a recent ruling of the state supreme court that city ordinances forbidding the use of tobacco were unconstitutional. The police explained they had received no official notification of the court's decision. Enoch Pearson resisted arrest and was severely beaten, he alleged. He swore out warrants in Waukegan for Policemen Shepard and Wright, who arrested him. Wilbur Glen Volivia said the war against smokers would be continued in spite of the supreme court ruling. "If we can't get rid of them any other way, we will turn 500 women loose on them," he said, "and drive them into the lake."

### License to Drink

Why not make a man take out a license to drink? Pay \$5 for it and have the government take away his license if he indulges not wisely, but too well. Make him show his license upon demand by any bartender and also take up his license if he is found buying after hours. This would be limiting the liquor traffic and regulating it right down to the minute. In connection with the treating system, for instance, just imagine a friend calling out to you: "Come on in, and have a drink," while you would be forced to reply, "Sorry, old scout, but I haven't got a license."—Ottawa Journal.

The rule adopted by some theatres compelling latecomers to stand until the end of the first act is a good one. Besides enhancing the comfort of the punctual, it will make it easier for the latecomer to walk out if he does not like the show.—Washington Star.

The Royal Cafe gives the best meals and the best service in the city. Visitors to the city are advised to make this restaurant their selection. 521f

## MAGNA CHARTA GIVES ALL THE RIGHT TO CATCH FISH

### PROVINCIAL GOVERNMENT WILL CONTINUE TO TAX SALMON FOR REVENUE INSTEAD OF BY LICENCES—WHALES ARE PROPERTY OF PROVINCE

At the Saturday night sitting of the legislature, Hon. Mr. Bowser moved the second reading of the fishery tax act. In explaining the motives of the bill, the attorney-general said the bill had been drafted in view of the recent decision of the privy council definitely deciding that the Dominion only had power to regulate the fisheries. Discussing the position thus created, the attorney-general said:

"The rights exercised in the past by the province have been in no wise curtailed by this judgment, but we have felt that it is more in accordance with the spirit of the judgment referred to to collect the revenue, which in the past we have done by regulation under powers conferred by a section of the provincial fisheries act, under and by means of regulations based upon a formal revenue act.

**Powers of Dominion**  
 "We have always recognized the fact that the power of regulation of the fisheries is vested in the Dominion under section 91 of the British North America act. Under a judgment of the privy council in 1898 the property right in the fish caught in provincial waters was declared to be vested in the province. Since 1899 there have been differences of opinion as to the exact definition of the two jurisdictions, and the recent judgment removes some of these.

"Pending the settlement of this case, the sole right exercised by the province has been that of collecting a revenue by issuance of fishing licences. In the recent judgment the law lords were very careful to refrain from expressing an opinion or judgment which would limit our right to tax those engaged in fishing, whether in tidal or non-tidal waters. This we will continue to do. But we believe that instead of doing so by regulations made under authority of section 30 of the provincial fisheries act, we should do it by regulations made under a formal taxation act.

**Province Owns Fish**  
 "To summarize the judgment recently delivered, I may say that it decides that the province possesses the property rights in the fish and fisheries above tidal waters, whether rivers are navigable or not above that point, provided of course that the beds of the rivers are not in the rail-

way belt, and owned by the Dominion. In tidal waters there is no property right vested in either the Dominion or the province, since under Magna Charta, this fishing was a common right of all the people. The Dominion and province may raise revenue from those engaged in fishing, but exclusive privileges under the guise of regulations cannot be given by the province.

"The judgment further declares that with the transfer of the solum or property rights in the lands of the railway belt to the Dominion, the fisheries therein passed with them.

"With the exception of the fisheries within this belt, our ownership of the fish in our great rivers and lakes is undisturbed.

"We shall continue to raise a revenue from those engaged in the fisheries, and the money so realized will be devoted, as in the past, to the encouragement of the fisheries. The work of the provincial fisheries department will be expanded instead of being curtailed. I may state that the value of the swork is recognized both by those engaged in the industry, and by the Dominion

HON. DR. PAYNE  
The temporary leader of the Ontario Government.

department of fisheries as well.

"We have retained scientists to work out the life history of important food fishes, to chart our shell fish beds and to study animal life inimical to the fisheries. We have been enabled not only to give valuable advice to the Dominion in this direction and to blaze the way along lines of this nature, but to place in the hands of the canners and fishermen information of great value to them in their industry and business.

"In the past our sole licence fees have been collected from those engaged in salmon fishing. We have no intention at the present time of extending that tax to other fisheries, but we want to have the power to do so when necessary. Of course such taxes have fallen upon only the commercial fisheries. Anglers within the province are not affected. Upon a provision in the Game Act we collect an angler's licence fee from non-residents of the province."

In discussing the powers of tax whaling industries, Hon. Mr. Bowser said that as whales were described as mammals and not fish there was no question as to the rights of the province. A very curious fact had been brought out in the discussion before the privy council. That was that sturgeon and whales were royal fish, and as such belonged to the king. The transfer of the old crown colonies rights of British Columbia and Vancouver Island to the Dominion had not included these royal fish.

Therefore, as successors to the old crown colonies, the province of British Columbia had jurisdiction over these, as they still belonged to the crown.

The amendment to the Provincial Fisheries Act, which was also read a second time Saturday night, provides for royalties to be paid by owners or lessees of oyster beds, in British Columbia coast waters, the fixing of the rates to be in the hands of the Lieutenant-Governor in Council.

Port Edward has a perfect natural harbor. 471f

Many lines of goods to be sold at half price in the next 15 days at Wark's. 491f

MR. N. W. ROWELL, K.C.  
Leader of the Opposition in the Ontario Government.

## The Poor Man's University

**JONES** knows more about motor cars than any other man I know," said a man to his friend. "He has obtained his knowledge chiefly from motor car advertisements, and the catalogues and booklets circulated through them."

"All I know about photography," declared a well-known amateur, "I have learned from the men who advertise cameras, plates, papers and films."

Advertisements have been well called "The Poor Man's University," but other than poor men have been schooled thereby.

Much of what the average individual knows concerning personal and domestic hygiene, modern office methods, books and authors, electricity, precious stones, investments, and almost everything else, he has learned from advertisements.

Advertisements have stimulated our intelligence, added enormously to our knowledge, and given us aspirations which have raised us to higher levels of thinking and living. Advertising is indeed "The Poor Man's University."

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper.

If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

## A NEWSPAPER

for Prince Rupert and Northern B.C.

The Daily News goes into nearly every home in Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate optimism and reliability.

The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.

The Misses Scott left this morning for California, where they will spend the rest of the winter.

Our suits are ten dollars cheaper and ten dollars better than any in town. See us. American Tailor. 52lf

Sweder Bros. opened today a large shipment of the newest fabrics for ladies' suits. You are invited to inspect them. 11

The machine shops on the waterfront are all very busy. There is considerable activity among the power boats and canneries in getting fitted up for the season.

The Pacific Transfer Co. have decided to extend their Ninth avenue barns very considerably. Work on the foundations will be commenced at once in charge of Mr. Angle.

A. Swanson returned yesterday on his launch Regal from Port Simpson and Union Bay. He has been engaged towing scows of herring for H. C. Breckenridge.

Wm. Angle transferred his pile driver from the Scheinman building to Cow bay yesterday. He is going right ahead with the foundation for Mr. Eiler's new planing mill. The building will be three storeys and will be a thoroughly up-to-date mill when finished.

The new schedule for the Pacific Coast steamship boats is out. The Spokane sails from Seattle on March 13 and 25 and April 6 and the City of Seattle comes out March 31. There will be a boat every five days after that date.

It is expected that the Admiral line boats or the Pacific-Alaska Navigation Company will make a big bid for the Rupert trade this season. It is said the boats of that line will make a regular call here this year and possibly cut the freight rates some. An announcement is expected in a few days.

A Fort George citizen is mourning the loss of his house, which was carried away on a sleigh one night recently. He is charging a livery man with the crime.

The G. T. P. dock was a busy scene this morning. A large number of local people assembled to bid farewell to departing friends.

Many new small craft will appear on the harbor this season. The Rupert Marine & Iron works have sold four engines recently for new power boats. Most of them will be used for commercial purposes.

Mrs. Jas. M. Carmichael left this morning on an extended visit to her home in Glasgow. She intends to stay with her brother at Hamilton, Ont., for a few weeks and will sail for Scotland some time in April.

The rock excavations around the terminal yards here have been progressing very favorably lately and it is expected that by May first all will be cleared up, including the hotel excavation, the dry dock yards and the excavation west of the freight sheds.

The Ladies' Aid of the Baptist church invited the friends of the church to be present last evening at a social held in the church parlors. A large number gathered shortly after eight to await the program of the evening, which was of a most interesting character.

After the opening exercises and a few remarks by the chairman, Mr. Murray, and a few words from the pastor, a social evening was indulged in. Games, competitive contests, memory contests and other features assisted in making the evening a very enjoyable one.

Miss Morgan gave a most delightful reading to an appreciative audience. Shortly before 12 a dainty luncheon was served, which with the previous numbers on the program, reflected highly on the painstaking care of the Ladies' Aid.

Vienna, March 5.—Radium worth \$3250 disappeared down a patient's throat in the general hospital yesterday. She was being treated for cancer. When the doctors discovered, by an electrical examination, that the woman had swallowed the radium tube, they prepared immediately for an operation, fearing grave danger to her interior from the radium's presence. The operation was successful and the radium was recovered without harming the patient.

H. S. Irwin, the district forester, and A. P. McCorkindale, his assistant, leave tomorrow for a two months' trip into the Naas valley on a tour of inspection. They go to Terrace, and from there across country on snowshoes to Aiyansh on the Naas, which place they will make their headquarters for a time. It is impossible to get to Aiyansh by boat at this season on account of the ice running in the Naas river, although the boys expect to return by that route.

## JABOUR BROS. NOW HAVE COMMODIOUS NEW STORE

Jabour Bros. are busy fixing up the store for their grand opening on Saturday. They have a large stock of high-class goods which makes a fine appearance in the new place.

The building itself is of concrete and they will thus have the advantage of a low insurance rate. The fixtures were put in by A. H. McPherson and are second to none in town.

Notwithstanding the fact that their store has been considerably out of the business centre, this firm has always done a large trade, due largely to persistent advertising, in which they strongly believe. Now, however, that they are located closer in, being almost opposite the Empress hotel, they should do a still larger business.

In order to celebrate the opening of their new store they will give away free flowers to all who call on Saturday.

### Southbound

Passengers on the Prince George this morning: P. H. Cowherd, A. Stowell, A. E. McCready, Mr. and Mrs. J. Springstein, Mrs. Frank Derry, Wm. Thompson, J. R. Murray, A. L. McHugh, Mrs. Jas. Anderson, R. A. Simmons, Miss A. Davidson, S. S. Glass, Mr. Piercy, W. A. Lawson, Miss Bennett, Mrs. J. M. Carmichael, Miss L. Scott, Mrs. J. Scott, Mrs. H. Grove and family, J. L. Evans, W. M. Cowals, Mr. Woodhouse, Mrs. Turner, C. A. Howard, Mrs. McLenaghan, Mrs. T. Sprout, Mr. and Mrs. J. Kirkpatrick, J. Hatch, G. Strachan, Miss A. M. Strover and J. H. Swearingen.

### Indian Got Off

Arthur Stewart, an Indian charged with the robbing of a mail sack between Aiyansh on the Naas and Prince Rupert, was tried before J. P. Mullen this morning. He was dismissed, there being no evidence to show he was the guilty party.

Elocution doesn't go far enough. It merely teaches us how to speak, not when.

## THE BATTLE OF WHO RUN AT WESTHOLME TONIGHT

A Keystone comedy is always an event at the Westholme theatre, and the coming of the "Battle of Who Run" is sure to please the many patrons of this popular playhouse. Another good picture on tonight's program is the two-reel Reliance feature entitled "The Clown's Daughter." The Westholme orchestra is preparing an exceptional musical program for this picture. A selection from Leoncavallo's "Il Pagliacci" will be played in the first half of the picture, and Verdi's famous "Rigoletto" for the second half. A fine new Weekly Gazette and a Broncho comedy entitled "Sure Cure" will also be shown. The "Sure Cure" is a suffragette comedy that is sure to interest the ladies.

On March 11 and 12 there will be another great star feature program with "Moths" in four reels as headliner. This picture was procured at considerable expense and is sure to attract overflowing houses at both performances.
