POLICE RAIDED OPIUM JOINT AND CAPTURED INMATES—NEW STEAMSHIP LINE TO CALL HERE

ANOTHER STEAMBOAT LINE TO CALL AT PRINCE RUPERT

DIRECT LINE FROM PORTLAND, OREGON, TO RUPERT—THE
PACIFIC STEAMSHIP CO. HAVE THREE BOATS ON LINE
—WILL RUN OUTSIDE VANCOUVER ISLAND

The Daily Journal of Portland, Oregon, of March 4 has an announcement that the Pacific Steamship company have started a line of boats running from that city to Skagway. They will make a round trip to Skagway, Alaska, calling at the outside of the mouth of the Columbia river to Dixon's entrance. From Rupert they will make the inside route to Alaska. This is the first direct line from Portland to Alaska since 1897. It is backed by many of the big business companies of the Pacific coast.

The first steamer to leave was the Thomas L. Wand, followed by the Quinault, and later by the J. B. Stetson. They will make the trip once a week. The pilot on the Wand is Captain Jansen, who has the record of having made 183 trips to Alaska on the old Cottage City.

The Rupert call shows on the company's advertising, but the first two or three trips it will be passed up. The company anticipates getting considerable passenger and freight business for here as soon as the run is established.

ASIAN DECOLLETE TOO MUCH FOR QUEEN

Lady of England Refuses to Visit French Capital

Paris, March 10.—Queen Mary will not visit Paris with King George in April, it is learned, because she absolutely refuses to meet Paris society women in evening dresses characterized by exaggerated décolleté. She is unable to contract a diplomatic indisposition when King George is about to leave London. For a couple of months Lady Mary, wife of the British Ambassador here, has been hoping the fashion would change for the better, but after the fiasco at the opera this week, society leaders who cannot overlook on the occasion of a royal visit, all appeared in very low cut gowns, décolleté and sandalled feet, she never would brave the ball at the embassy during the visit.

The embassy conviction falls that in order to avoid contempt the Queen will not go to Paris at all.

EXPECTS MINING ACTIVITY

W. Calhoun, a well known mining man of this district, came to the Prince George this morning. He is en route to the Bay and then to Alice Bay where he has valuable silicified prospects which he is having explored. Mr. Calhoun has had faith in the Alice Arm district and believes that the prospects there are going to develop some big mines. He finds investing public are beginning to enquire into mining activities now with the idea of getting in and it is likely to create much activity in the whole northern district.

Free Milling Gold

One of the largest bodies of free milling gold ore that has come to notice recently is located about five miles up the Kitsumkalum lake, and right on the shore. It was discovered something over a year ago by Belway and McLaren, who have been prospecting it ever since. It is fully 400 feet wide and an assay taken across the face shows values of \$4.00 in gold and some copper. It carries a high-grade streak about twelve feet wide where the gold is plainly visible with the naked eye. Another discovery of very fine ore was made late last fall, which carries big gold values, by Mat Allard and some Vancouver parties. It is located about three miles from the lake. This field is expected to command considerable attention this summer.

J. Farrell of Foley, Welch & Stewart's office staff, is in town from New Hazelton. He will return to the interior in about a week.

RAIDED CHINA HOUSE CAPTURED SMOKERS

Pipes and Chinamen Appeared in Police Court This Morning

Two police officers made a raid on the King Tai China house off Fulton street last night. They found several Chinks smoking, some asleep, and others playing cards. Nine of them were captured and taken to jail, along with the pipes and opium. Most of them were let out on bail.

Seven of the boys appeared in court this morning and pleaded guilty. They were all fined \$10 to \$25 each. Some of the Chinamen are visitors from Georgetown.

STEAMER'S LIFEBELT HAD WONDERFUL DRIFT

Picked Up Off Prince of Wales Island—Travelled Forty Miles a Day

Vancouver, March 10.—As evidence of the strong tidal currents which prevail in the north Pacific, an instance is given by C. O. Julian, who returned Saturday from the north, of the wonderful drift of a life belt which was lost from the C. P. R. liner Empress of Russia about 800 miles out of Yokohama.

This belt was picked up inside of Cape Chacon, Prince of Wales Island, and is now on exhibition in Ketchikan. Investigation by the officials of the Canadian Pacific railway proved that, allowing for the buoy being picked up on the day reported, it travelled on an average of 40 miles per day.

The strong westerly gales which have prevailed, of course, would aid the set of the current. This drift surpasses any previous current velocity reported by the United States geodetic survey, which sets bottles adrift at regular intervals to ascertain the strength of the currents.

CITY SOLICITOR REPORTS ON VISIT TO VICTORIA

City Solicitor Peters turned in to the city council a lengthy report of his visit to Victoria. He said the Bank of Montreal had raised the question of the dating and signature on the treasury notes which they were to purchase from the city. The question is not yet settled. He had attended a meeting of the executive of the Union of Municipalities, which organization had asked the provincial government to hold over the new municipal act for another session. Being refused this they had endeavored to get a number of alterations made to the act. Some of these had been promised, but nothing definite would be known until the revised bill is received.

The question of fees for registering the lands granted to the city by the government and G. T. P. was taken up, and Hon. W. J. Bowser agreed to adjust this and refund the fees.

He found it was impossible to get an amendment which would entitle holders of agreements for sale a vote.

The report was filed.

Interdict Sent to Jail

John McDonald, an interdict who has given the police and others a lot of trouble by his taste for booze, was caught drunk again yesterday. This morning the police magistrate sent him to jail for fifteen days without the option of a fine.

Home Rule Bill

(Special to The Daily News)
London, March 11.—The second reading of the home rule bill is fixed for March 30. It is almost certain there will be opposition and an amendment.

THE MAYOR'S "ITEMIZED" STATEMENT

The Mayor's "itemized" statement presented at the Council meeting on Monday night was a farce. Almost one half of the bill was put in as incidentals. That's just what the people want to know about. Everybody knows what a ticket costs and the amount of the hotel bill. Why this extra \$104? Why should the city pay for his cigars and theatre tickets. Why not carry out the rule he laid down for his predecessor? "He that is unfaithful in little is also unfaithful in much." Trot out the rest of your statement, Sam.

W. E. HUME,
Assistant principal of the Lansdowne school, Toronto, who showed great presence of mind in the way he handled the crowds of children in the school, which was destroyed almost as soon as the last pupil was out. Had it not been for his presence of mind, a great number of the pupils might have perished in the flames.

The strong westerly gales which have prevailed, of course, would aid the set of the current. This drift surpasses any previous current velocity reported by the United States geodetic survey, which sets bottles adrift at regular intervals to ascertain the strength of the currents.

Cold Storage on Island

The Wallace Fisheries are putting in a small cold storage and ice plant at their Naden harbor cannery. The lumber and part of the plant is being taken over now on the steamer British Columbia. The plant will be used for chilling the mild-cured salmon put up by that plant. The spring salmon have been running big in the waters north of Graham island the past few years, and a good pack of mild-cured salmon is always assured. The company will make a specialty of this kind of packing at the Naden harbor cannery.

VANCOUVER MAN MISSING RESIDENT IN MEXICO

Not Heard of Since December—Wife Anxious and Asking for Search

(Special to The Daily News)
Douglas, Ariz., March 11.—F. T. Cromwell, a mining man from Vancouver, B. C., disappeared at Sonora, Mexico, last December, according to a letter received from Mrs. Cromwell asking that a search be made for her husband. Cromwell was last seen at Tucson on December 26. He wrote his wife that he intended going to Sonora and would return January 1. He was never heard from since. Cromwell prominent in Vancouver about 18 months ago and was known to be wealthy. It is believed he made most of his money in the Philippines.

BANDITS ROB ROYAL BANK, ABBOTSFORD

Five Holdup Men Take \$2000 in Broad Daylight and Get Away

(Special to The Daily News)

Vancouver, March 10.—The Royal bank at Abbotsford, B. C., three miles north of Sumas on the international boundary line, was held up by five armed men, who were masked, a few minutes after opening this morning, and \$2000 in gold and currency was taken. After holding up the bank, the bandits ran south for the boundary line. Posses were organized immediately at Abbotsford and Sumas, and followed so closely that shots were exchanged before the robbers entered a bush there. The boundary line is being closely patrolled for several miles in the hope of catching the robbers.

One bandit remained outside while the four others entered. The cashier and clerk were the only persons in the building at the time. One of the bandits covered the cashier and another of them covered the clerk. The third robber seized the tray containing the gold and currency which had just been placed in the teller's cage. The quartette then ran out and joined their companions.

Meanwhile the alarm was given by an employee of the bank who was just returning to the institution. A squad of special police was quickly sworn in and armed within five minutes' time. The robbers made their getaway from the town with the pursuers after them, keeping the robbers still in sight.

At last reports a running revolver fight had occurred between the bandits and the squad which was pursuing them.

Two bloodhounds from the British Columbia penitentiary have been taken with a band of police from New Westminster to join in the search. The bandits are believed to be Montenegrins.

Vancouver, March 11.—All trace of the Abbotsford bank robbers is lost.

The local manager of the Royal bank at Abbotsford is well known in this city. He was formerly manager of the Royal bank at Port Essington before the branch was opened in Prince Rupert.

LEGAL BATTLE IN THE COMMONS MORE SENATORS FOR THE WEST

OPPOSITION SAY THIS REQUIRES CHANGE OF B. N. A. ACT—NOT YET SETTLED

(Special to The Daily News)
Ottawa, March 11.—Increased representation in the senate for the west as proposed by Mr. J. J. Carriek, and that the government place a bonus on iron ores mined and smelted in Canada, were topics which engaged the attention of the house yesterday.

A long legal argument arose over the bill to increase the Manitoba representation in the house by two. The opposition contended that neither in the

case of Manitoba nor British Columbia has the government power to add to the number of members in the upper house without securing an amendment to the British North America Act. The government contended the contrary. The matter will be the subject of more discussion later on. Resolutions relating to increases of representation for Manitoba, Saskatchewan and Alberta were read a first time.

PLAN IMPROVED SERVICE ALONG NORTHERN COAST

Capt. Nicholson, Manager of G. T. P. Steamships, Back From Eastern Business Tour (Vancouver World.)

Captain C. H. Nicholson, manager of the G. T. P. steamship service, has just returned from a six weeks' trip to Montreal, Ottawa and other eastern points. The object of his trip was one of dual capacity, first to confer with the officials of the company, in Montreal, and secondly as a representative of the British Columbia Ship Owners' association. Asked, when seen by the World representative this morning, as to the future policy of the Grand Trunk Pacific, in the way of further augmenting their steamship service on the coast, Mr. Nicholson was non-committal. He stated that just at the present time the plans of the company were not matured regarding the same and that there was nothing to be given out.

"My trip east," he said, "was merely one pertaining to general business in the service for the coming year. I did, however, wait on the minister of trade and commerce and the postmaster-general, while in Ottawa, in connection with an increased service to the Queen Charlotte islands. Mr. H. S. Clements, M. P. for Comox-Atlin, has also been very much interested in this matter. Heretofore we have only been giving the islands a weekly service during the summer season, and a fortnightly one in the winter. They ask for a weekly one the year round. To bring this about the company have asked that the federal government grant an increased subsidy, as we have found our present service scarcely a paying one.

"It was pointed out strongly the needs of these islands, which are enjoying the largest growth of any on the sound, this being particularly the case regarding Massett Inlet. The government has promised every consideration of the matter.

"As the representative of the British Columbia Ship Owners' association, of which I am a member," he stated, "I also interviewed the minister of marine and fisheries regarding the new rules pertaining to life-saving regulations. These the government have based on the result of the London conference. We felt it not only not a necessity, but also a hardship, that the coastwise service in protected waters such as we have should be called upon to provide the same regulations as ocean-going vessels. The minister pointed out that Canada had reserved the right at the conference to adjust these matters as applying to her own coasts. As a result, some of our requests were granted and we have been promised consideration on the others we asked for.

BRITISH TORIES WOULD CENSURE LLOYD GEORGE

(Special to The Daily News)

London, March 11.—The house of commons defeated a vote of censure on Lloyd George by 304 to 240. The resolution contemplated expressing regret for the repeated inaccuracies of the chancellor of the exchequer and his gross and unfounded attacks on individuals.

Doing Night Work

The railroad contractors are doing everything in their power to rush the completion of the grading work. Yesterday they sent a wire for 120 men to be sent up on this morning's train, and the gang was quickly organized. The men will be distributed among the different camps who are now working double shifts.

Port Edward's power plant machinery has arrived. 54tf

graphs, was the new system of radio-telegraph. One of the principal points that we recommended was to avoid if possible the carrying of two operators on coastal vessels. This will be arranged. A further point we asked for was that no regulations be enacted that would place the wireless operator beyond the control of the master of the vessel. The department conceded this point, as it is imperative that the captain of his vessel be superior in command and in a position at all times to censor an operator in the despatching of messages. This particularly should be the case in times of distress."

Questioned as to commercial and industrial conditions generally throughout eastern Canada, Mr. Nicholson stated that he had found them in eastern cities very much the same as here. He said, however, while real estate was a very dead issue, nevertheless there was a buoyant spirit prevailing and a gradual easing up in business circles.

DAILY EDITION

The request of the pool rooms for an open Sunday is one to which considerable objection can be raised. It is not necessary to look at this question from the old theological point of view in order to decide its merit. The weekly day of rest has secured its place in modern society and no man would dare to get up and oppose the principle. What is good for one man is therefore good for another, and as the Sunday pool can be shown to encroach upon that principle it should not be tolerated.

The mayor went south a few weeks ago on urgent business. He was commissioned to endeavor to have the government loan deferred. Apparently he got a very cool reception, for he had hardly reached Victoria when he trotted off the Seattle and Vancouver on a makeshift errand. For a couple of weeks he loitered around the expensive hotels of Seattle and Vancouver, until he was finally summoned by the council to return. He now presents an expense bill with one-half of it under the head of "incidental expense." This surely does not look very good from a man who was so precise in his demands of his predecessors.

An offer was made to the

city this year of 94 net for three-year 5% treasury notes. This was a much better offer than was accepted from the Bank of Montreal.

An offer was also made of 86 net for the long-term bonds. This would be infinitely better than financing by treasury notes. Yet these were all turned down, and that without the citizens being informed.

Mayor Newton secured his election by promising to consult the people on every issue. He promised that as soon as he had sized up the situation he would call a meeting of the citizens and take them into his confidence. That was the last we heard of it. As soon as he got elected he forgot all the pledges he had made, and he now endeavors to do everything in secret. Why this change of heart, or is it that he never meant a word of what he said?

The government at Victoria has passed a bill giving the Pacific Great Eastern railway tax exemption at Squamish. It joined with the G. T. P. in compelling the people to practically grant an exemption here. This government cares nothing for the people when it comes to a conflict with the big corporations.

TORONTO SOCIETY OFFICIALLY WELCOMES THE TANGO

Although banned by ecclesiastical authorities of Montreal and other Canadian cities, the tango, hesitation waltz, and other new dances were given the unqualified approval of Toronto society on the evening of February 24, the day before Lent commenced, when they made their appearance at the Rose ball, given by the Imperial Daughters of the Empire, considered to be the premier society function of the season in Toronto. The new dances were on the program as waltzes, but the newspapers agreed that the tango was the popular dance of the occasion.

APPOINT MANAGER TO RUN CITY BUSINESS

Experiment in Municipal Government being Tried by Dayton, Ohio

Dayton, Ohio, has begun an experiment in city government which will be watched with close attention, says the Toronto World in discussing the question of city government by manager. It has placed the conduct of affairs under Mr. Henry M. Waite as city manager, and made him accountable for his action in that capacity to the city commissioners. The new system is frankly based on the method employed in great business corporations, where the shareholders elect the directors, and these in turn appoint the executive head of the concern. So in the corporation of Dayton, the electors return the commissioners, whose position toward the city manager parallels that of the directors of a commercial corporation towards its general manager. In this way Dayton hopes to secure administrative efficiency and to eliminate the political and personal influences that too frequently intervene to the detriment of the public well-being.

Dayton's city manager is reported to have started his official career in the spirit of a man placed in control of any considerable mercantile or industrial business. It will be his object to fill the various offices with the best men he can find, and will require from the same quality of service expected in ordinary commercial life. Mr. Waite will, as we understand the scheme, carry out the policy adopted by the commissioners, who will be in effect the legislative representatives of the community, with power to secure that it is followed and to call the city manager to account should the desired results not be attained. The working out of this experiment cannot but be instructive, and should help in arriving at a system of municipal government which will stand the test of experience.

LACROSSE THE RING FOOTBALL BASEBALL LAWN TENNIS HOCKEY

With the draw for the Davis cup preliminaries announced, the Canadians being drawn against Australasia, coast lawn tennis officials are endeavoring to have the preliminary round played in Vancouver or Victoria, thus giving coast enthusiasts an opportunity of seeing Australia's famous players.

Kid McCoy, the veteran fighter, who was one of the top notchers of the ring years ago, will try and "come back" on Mar. 14, when he meets Georges Carpentier in Paris. The master fighter of twelve years ago is to meet the latest and most sensational "comer."

That the day is not far distant when Canada will capture the Davis cup, emblematic of the world's tennis championship, is the opinion expressed by Mr. R. B. Powell of Victoria, captain of the Canadian team in 1913.

Connie Mack, the wily manager of the Philadelphia Athletics, who makes a specialty of turning out champion teams, has succeeded in signing up every member of last year's pennant winning aggregation.

Percy Quinn, president of the Dominion Lacrosse association, has announced that the eastern magnates will raid the coast cities for players this season unless Con Jones, with whom the easterners have an agreement, remains in the game.

Hilliard Lang, Canadian welterweight champion, has accepted terms for a fifteen-round bout with Frank Barrieau at the Steveston arena. The pair may be matched for Easter Monday.

Fielder Jones, president of the Northwestern league, says he would consider an offer from the Federals if they would offer him enough money.

Len Turnbull, Buck Marshall, Cliff Spring and Gordon Spring are in receipt of letters from R. J. Fleming of Toronto, asking them to name their own terms for playing lacrosse with the Torontos this season.

The Westminster Lacrosse club cabled arrangements with

the British Columbia agent-general in London to place a wreath on the grave of Lord Minto, donor of the lacrosse trophy which bears his name.

John C. (Hans) Wagner, veteran shortstop of the Pittsburgh National league club, has just sent in his signed contract to club headquarters. It was Wagner's fifteenth contract with Pittsburgh and his eighteenth in organized baseball.

Battling Nelson is holding fast to the property he owns in Hegewich. He recently turned down an offer of \$23,000 for two corner lots.

What's in a name? In Paris the other night Willie Lewis made a fighter named Balzac look like a Mexican soldier beating it for the Texas border.

Counting 'em before they're hatched is poor business, as the Torontos probably realize now.

Victoria hockey players will be regular easterners before they get a chance at the Stanley cup.

If the Federal league plays baseball up to the standard of President Gilmore as a publicity promoter, organized baseball will just have to recognize the Feds., that's all.

Eddie McGorty, the Wisconsin boxer, now in Australia, will meet Georges Carpentier, the French champion, in a bout in Ireland some time in May. The bout is expected to have an important bearing on their claims to the world's championship.

Three Mighty Forces Close Linked

Have you ever noted how an audience yawns in the face of an uninspired speaker?

On the other hand, have you noted how an audience will lean forward and grasp the chair arms when the speaker reveals enthusiasm?

Enthusiasm is the buoyant expression of truth. To impart belief in anything, a man must believe it deeply himself. We call such a man an enthusiast.

This applies to the written word also—particularly to advertisements. When the manufacturer really believes in his wares, his enthusiasm will almost inevitably find expression in Advertising. And enthusiasm will be contagious—his audience—the readers of the newspaper—will, figuratively speaking, "lean forward and listen intently."

To be convincing an advertisement must convey an unmistakable impression of enthusiasm. This it will only do when the article advertised has inherent worth.

Thus we have:
Sincerity -- Enthusiasm -- Advertising:
Three mighty forces, close-linked.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have the counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

A NEWSPAPER

for Prince Rupert and Northern B.C.

The Daily News goes into nearly every home in Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate optimism and reliability.

The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.

ENGLISH HAND-MADE LACE

MADE BY THE COTTAGERS OF BUCKINGHAMSHIRE.

This is the old-fashioned lace made on the cushion, and was first introduced into England by the Flemish Refugees. It is still made by the village women in their quaint old way.

Our Laces were awarded the Gold Medal at the Festival of Empire and Imperial Exhibition, Crystal Palace, LONDON, ENGLAND, for general excellence of workmanship.

BUY some of this hand-made Pillow Lace, it lasts MANY times longer than machine made variety, and imparts an air of distinction to the possessor, at the same time supporting the village-lace-makers, bringing them little comforts otherwise unobtainable on an agricultural man's wage. Write for descriptive little treatise, entitled "The Pride of North Bucks," containing 200 striking examples of the lace makers' art, and is sent post free to any part of the world. Lace for every purpose can be obtained, and within reach of the most modest purse.

Collars, Fronts, Pinafores, Jabots, Yokes, Fichus, Berthes, Handkerchiefs, Stocks, Camisoles, Chemise Sets, Tea Cloths, Table Centres, D'Oyleys, Mats, Medallions, Quaker and Peter Pan Sets, etc., from 25c. each, \$1.00, \$1.50, \$2.00 up to \$5.00 each. Over 300 designs in yard lace and insertion from 10c. to 25c. 45c. up to \$3.00 per yard.

COLLAR—Pure Linen. \$1.00.

DAINTY HANDKIE—70c. No. 210.—Lace 1 1/2 in. deep.

IRISH CROCHET. Mrs. Armstrong having over 100 Irish peasant girls in connection with her industry, some beautiful examples of Irish hand-made lace may be obtained. All work being sold direct from the lace-makers, both the workers and customers derive great advantage.

No. 122.—80c. per yard.

Every sale, however small, is a support to the industry.

(1 1/2 in. deep.) STOCK—Wheel Design. Price 25c. each. (Half shown.)

No. 122.—80c. per yard.

No man does a really big business until his name is a household word. Why don't you let The Daily News boost for you?

Word has been received here that Mr. Archie McDougall, who has been very ill at a hospital in Seattle, is getting better, though not yet able to leave his bed. For several days he was very low and his life was despaired of.

The big cement chimney, 175 feet high, at the dry dock was completed yesterday and nothing now remains to be done but fastening up the lightning rod, an unnecessary precaution in a land where there are no thunder storms.

One Kiss Stirrs Trouble

Los Angeles, March 10.—Protests, threats of recall and denunciations poured in today upon Judge Willis of the criminal department of the superior court in consequence of his action in sentencing to thirty years' imprisonment Charles Guyton, a youthful negro, who was convicted of highway robbery, although his only loot was a white girl's kiss.

Headlines in the Los Angeles papers such as "Kissing Bandit Gets Thirty Years," "Thirty Years for a Kiss," started the trouble for the judge.
