

T. P. WANTS BOND GUARANTEE FOR 15 MILLION

C.N.R. NEEDS FIFTY MILLION TO GET ON ITS FEET--SENATOR BOSTOCK CHOSEN AS NEW LEADER

CARSON DUBBED DEVLIN'S REMARK AN "INFAMOUS LIE"

SHOUTS AND CHEERS GREETED AN ENCOUNTER BETWEEN
THE LEADERS OF THE IRISH PARTIES IN THE
BRITISH HOUSE OF COMMONS

(Special to The Daily News)
London, March 19.—A vote of
confidence in the British govern-
ment was moved in the house of
commons today by Bonar Law,
conservative leader. The motion
was based on Premier Asquith's
statement last night to give details
of a scheme for local option in
the counties of Ulster which
would be permitted to vote sep-
arately on the question of the
Irish government.
The leader of the opposition
asked for a guarantee that
the government would take a
firm stand throughout the
Irish Kingdom on the home
rule local option proposal.
The motionists in both the lords
and commons would place no
limit in the way of carry-
ing out the will of the people.
Edward Carson backed Mr.
Law's offer, saying that if
the premier was prepared to give
a definite referendum he would
support the decision. A sharp
exchange of words occurred during the debate
between Sir Edward Carson and

Joseph Devlin, the Nationalist
member, who declared that Car-
son had at one time been a home
ruler.

"It is an infamous lie," roared
Carson.

When the speaker suggested a
moderation of the language used,
Carson substituted for the offen-
sive expression the statement,
"wilful falsehood."

Shouts of protest and cheers
filled the chamber and it was
some minutes before the speaker
was able to make himself heard
in an appeal for an avoidance of
personalities.

The ladies' basketball club are
trying to arrange a game with
the ladies of the Tango club. It
will be a very interesting match
if the game can be arranged.

T. P. WANT GOVERNMENT AID ASK LARGE BOND GUARANTEE

C.N.R. NEED FIFTY MILLION TO PUT SYSTEM ON FEET--
BOTH CASES WILL BE CONSIDERED TOGETHER

(Special to The Daily News)
Ottawa, March 20.—That the
T. P. is after government
aid, presumably in the
form of a bond guarantee to the
amount of fifteen million dol-
lars, is the statement made by
the government.
The newest turn is the most
important development in the
present situation at the capital.
It is supplying the sensa-
tional side to this session. It is
believed that any direct appli-
cation has been placed with the
government for the amount, but
no overtures have been
made which preclude the appli-
cation of last year, when the G.
N. R. got a large loan and when
C. N. R. secured a subsidy.
Now on both will be con-
sidered together in their de-
cisions.

have to take less and be content,
but the opinion of members
around the house who are well
informed on the situation is that
the amount will be between
forty and fifty millions to put
the Mackenzie and Mann railway
on its feet.

Southbound

Among the passengers on the
Prince George this morning
morning were: E. M. Breed, Miss
Mason, Mrs. Lowe and child, D.
W. Peck, G. McMillan, O. Tatley,
M. Simon, Frank Knott, N. Du-
pras, J. Sidney Smith, Mr. Schaf-
fer, F. G. de Mussey, L. N. Greg-
ory, C. S. Murray, A. Garss, Chief
Wynn, Mr. and Mrs. G. A. Mc-
Nicholl, H. W. Farmer, George
Reid, Mr. Chaffee, A. P. Young, I.
N. Linnell, F. M. Crosby, Miss
Greer, Mrs. R. E. Kingsbury, H.
F. Ashby, and H. S. Elliott.

RAILWAY ACT WILL HAVE RADICAL AMENDMENTS

IMPORTANT LEGISLATION WILL BE INTRODUCED--WILL BE
STRINGENT SUPERVISION

(Special to The Daily News)
Ottawa, March 20.—Tomor-
row Senator Loughheed will intro-
duce a bill for consolidating and
amending the railway act. This
is one of the most important

pieces of legislation that has
been before this parliament. It
is very radical and introduces
many reforms of stringent su-
pervision. The new act is the
work of Samuel Price, K. C., and
Hon. Arthur Meighen.

HOUSE OF LORDS ALIVE DEFEAT MILITARY BILL

WILL NOT STAND FOR COMPULSORY SERVICE AMONG THE
WELL-TO-DO OF GREAT BRITAIN

(Special to The Daily News)
London, March 20.—The
house of lords defeated the bill
introduced by Lord Willoughby
Broke for the purpose of

making military service compul-
sory among the well-to-do.

REFORMERS OF IRELAND, PAST AND PRESENT

With apologies to "The Exile of Erin." Agitations are just as
earnest but not quite so drastically dealt with in Old Ireland
these days as when the artist thus depicted the Irish exile
on the shores of France or America. Inset are the pictures of
Sir Edward Carson, John Redmond, and William O'Brien,
the leading Irish "agitators" of the present day. And if any
exiling was done, which would be the exile.

TORONTO HOCKEY CLUB WON STANLEY CUP

Victoria Professionals Beaten in
Three Straight Games by
Easterners

The third and decisive match
for the Stanley cup, representing
the hockey championship of the
world, was played in Toronto
last night and won by Toronto
on a narrow margin. The series
consisted of the best three
victories in five. Toronto won
three straight games. The score
of the first was 6-2; of the sec-
ond 6-5, and last night the score
was 2-1. It was a splendid ex-
hibition of Canada's favorite
winter game and Toronto gave
the series great support.

Chief Wynn, inspector of pro-
vincial police and former chief of
Prince Rupert, came in last eve-
ning from the interior. He has
been on a trip of inspection
across the Grand Trunk route,
going in at Edmonton. He left
for the south on the George this
morning. Chief Wynn says the
country looks very promising.

SENATOR BOSTOCK WILL LEAD CANADA'S SENATE

Was Unanimously Chosen to
Succeed the Late Sir
George Ross

(Special to The Daily News)
Ottawa, March 20.—At a meet-
ing of the Liberal members of
the senate, Senator Bostock of
Kamloops, B. C., was chosen as
leader of the opposition to suc-
ceed the late Sir George Ross.
The choice was unanimous.

Getting Pictures of Rupert.
Ferdinand Van Bruyssel, who
is travelling through British Co-
lumbia getting photographs and
data for lectures to be delivered
in Europe and whose work was
described in an article in The
Daily News some days ago, is in
the city now. He has a photo-
grapher from the Montreal Star
staff with him. For a few days
they are operating in the vicinity
of Prince Rupert, and next Wed-
nesday will leave for the interior,
going through to Edmonton. The
visitor is the head of the Franco-
Belgian Investment company,
and he is getting his informa-
tion first hand for the purpose
of interesting investors in the
country.

PRELIMINARY BLOW-IN GRANBY BAY SMELTER

One Furnace Started Monday but
Had to Be Shut Down
Again

The Granby company made a
test blow-in of one of the big
furnaces at the Granby bay
smelter on Monday last. The
charge caused a small explosion
and the furnace was shut down
again.

The company have been hav-
ing a lot of trouble with their
power dam. It is very difficult
to stop the leaks, but they have
been checked successfully. When
the spring floods come the dam
will get a thorough test.

The spring promises to open
up much earlier this year than
usual. Last year the ice did not
go out of the bay until May. It
went this week, nearly two
months earlier than last year.

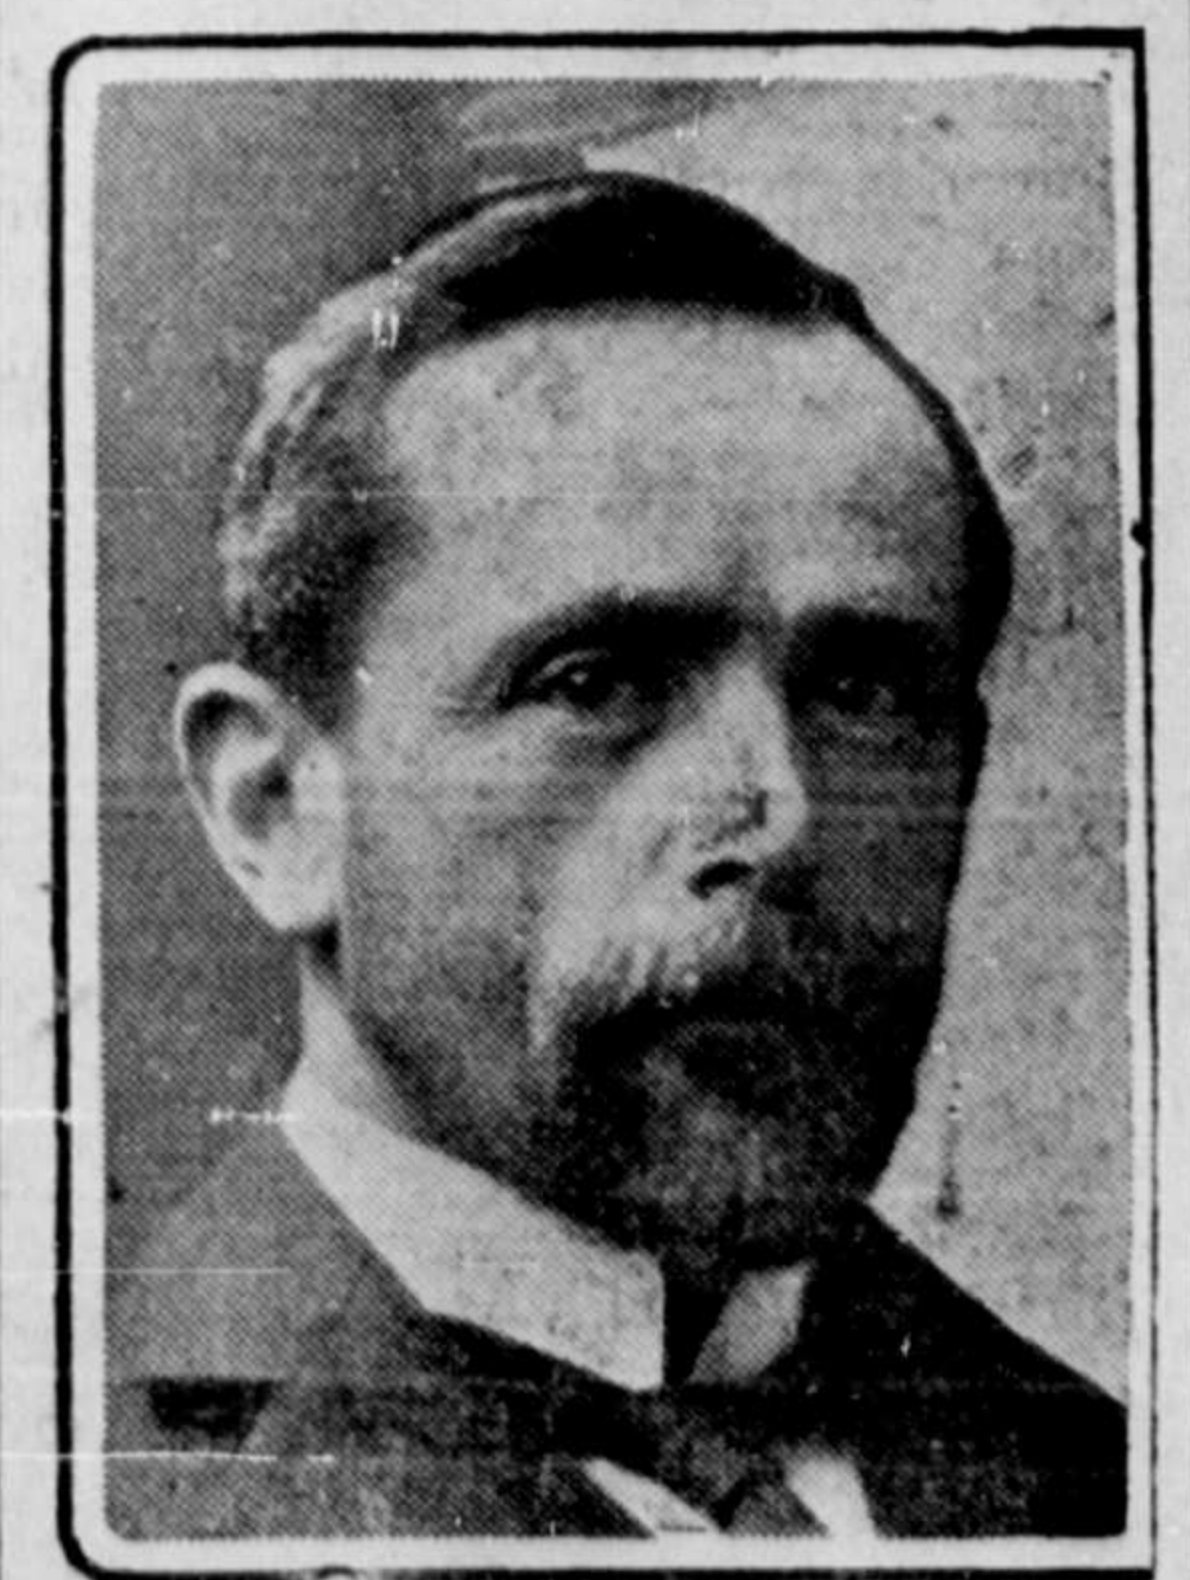

This means early activity
among the mining men.

FINE COMEDY PROGRAM AT WESTHOLME TONIGHT

Following close on the heels of
"Moths," which drew another
crowded and well satisfied house
last night, comes a splendid
comedy program including one
of the best Keystone comedies
ever made, "Barney Oldfield's
Race for Life." Next a fine two-
reel comedy entitled "Pitfalls on
the Instalment Plan" will be
shown. This is both interesting
and funny. There will also be a
fine Weekly Gazette right up to
date, and a newspaper story en-
titled "A Divorce Scandal." This
is as fine a program as has ever
been shown at the Westholme,
and will no doubt draw crowded
houses both tonight and to-mor-
row night.

St. Andrew's Society

The regular monthly business
meeting of the St. Andrew's So-
ciety will be held in the Society
rooms tonight at 8 p.m. A good
attendance of members is re-
quested.

SENATOR BOSTOCK

New Liberal leader in the Cana-
dian senate. Hon. Hewitt Bos-
tock, M. A. (Cambridge), Lib-
eral senator for Kamloops,
who has succeeded the late Sir
George Ross, is a man of fifty
years of age, with a fine pres-
ence, and with good powers as
a speaker and debater. He
graduated from Cambridge in
1885 and was called to the bar
at Lincoln's Inn in 1888. He
came to British Columbia in
1893, where he took up fruit
ranching at Monte Creek. He
is a fellow of the Royal Colo-
nial institute and of the Royal
Agricultural society. He was
elected to the house of com-
mons at the general election
of 1896 and summoned to the
senate in June, 1904, so that
he has had long parliamentary
experience.

ENTHUSIASTIC LIBERALISM POLITICAL SMOKER CROWDED

SEVERAL GOOD SPEECHES AND INTERESTING PROGRAM--
THE POST OFFICE SITE GRAFT TOLD IN PLAIN
WORDS--USELESS MEMBER CRITICIZED

The Liberal smoker in the K.
P. hall last evening was a great
boost for Liberalism in the city.
It drew a big crowd and an en-
thusiastic one—a crowd that ap-
peared to take a keen interest in
the party welfare and which
warmed up to the points of the
various speeches. The musical
program, too, was a good feature
of the evening and the bunch
joined heartily in the choruses of
the popular numbers.

Those who contributed to the
musical part of the program
were A. L. Youngman, piano solo
and vocal solo; Wm. Brown, song
and recitation; Messrs. Couture
brothers, songs.

The chairman of the evening
was the president, T. D. Pattullo,
and with him on the platform
was Mr. Allison, sr., a veteran of
the party.

The opening speech was made
by Mr. H. F. McRae, one of the
delegates from Prince Rupert to
the provincial Liberal conven-
tion in Victoria. He spoke
briefly reporting the delega-
tion's work at the convention, the
enthusiasm of the gathering and
the good work done. He said
that while the convention did not
want to revise their platform,
they were in accord with the
resolution passed by the local
association asking for the road
work to be put under a commis-
sion. There were many strong
men at the convention; also sev-
eral delegates whom a year ago
were officers of Conservative
associations.

Post Office Site Scandal

G. R. Naden put the local post
office site scandal in terse form
and asked the audience to re-
member it. In 1912 V. W. Smith
owned lots 14, 15, 18 and 19,
block 24, section 1. Two of them
were on the market in August at
\$32,000 on terms. Soon after
Mr. Smith bought lots 16 and 17
for \$32,000, and within six weeks
had sold four of the lots to the
Dominion government for \$95,-
000 cash. At that time \$64,000
was the market price of those
lots on easy terms. The cash
price would not have been more
than \$60,000. Just recently lots
14 and 15 were sold by Mr. Smith
for \$42,000, one-quarter cash
and the balance on easy terms.
Either the Conservative govern-
ment lacks business ability in
paying \$35,000 more than the
market price or else the balance
went where it had no right to go.
The Dominion government
paid two commissioners \$42,000
to prove that the Transcontinental
railway might have been built
cheaper, but no graft was dis-
covered. Can anything be more

crooked than this post office
steal right under our nose?
Man from Nova Scotia

J. A. Johnson was glad to see
so many who called themselves
Liberals, but he would not have
been surprised to see everybody
in Prince Rupert a Liberal. This
city is a child of Sir Wilfrid
Laurier. If Sir Wilfrid had not
stood up and said we want the
best railway irrespective of cost
there would have been no Prince
Rupert and the men of this city
would have been scattered all
over the world. He had taken a
pilgrimage over the Grit road
from Edmonton to Winnipeg and
found it as smooth as the floor.
The possibilities of it are tre-
mendous.

The report of the railway in-
vestigation commission was a
series of "ifs" which it had cost
\$42,000 to find out and which
any school child could have told
without a commission.

You cannot win elections in a
few weeks. You have to organ-
ize and get the young men in line
and keep organizing.

He had heard a French song
which he held as fitting. The
French had saved Canada. He
had no use for these empire
saviors who wave the flag and
carry it wound around their neck
for a muffler.

He brought the audience a
word of cheer and asked every
man to make a silent vow to do
his utmost to make the grand old
chief premier again. (Loud ap-
plause.)

The First President

Athol Frazer, the first presi-
dent of the Liberal association in
Prince Rupert and who was also
among the pioneer Liberals of
several different parts of British
Columbia, gave a vigorous and
humorous speech. His time
limit was over-run at the re-
quest of the crowd. He claimed
Sir Richard McBride had been
very fortunate. He came into
power just on the eve of British
Columbia's boom. He had sold
the natural resources to specu-
lators from Europe, Asia, Africa
and all parts of the world. The
treasury was thus filled and then
squandered. The speaker re-
cited an instance of one road
boss whom he knew over on the
island. This man could not
handle a pick or a shovel or even
follow a trail after it was built.
The graft of the plank roads put
in this city by the government
was cited. Such big prices had
been paid for the fir that it was
called silver fir. Lots of it you
could gather up with a shovel; it
was the poorest kind of spruce.

Sir Richard McBride had
boastfully said in this city there
was no wharf on the coast like
the government wharf here. The
speaker agreed with him. The
boys roll barrels up and down
the hollows of it and every time
a ton of coal is put on it the
wharf sinks. It was good for re-
pair jobs.

The government decided to go
in for day labor work because it
gave them a better opportunity
to work the machine. Before a
man got a government job he
had to go to Joe Merryfield and
buy a dollar ticket. The speaker
considered a man who gave a
day's work for a day's pay is not
obligated to vote for the party
giving him the work. "Any man
who will wear a union badge and
vote for that jellyfish, Bill Man-
son, is no good."

T. D. Pattullo

President Pattullo supported
the contention of The News that
William Manson should have
made the report of his duties at
Victoria to a public meeting and

DAILY EDITION

Friday, March 20, 1914

WANTED—Two commissioners to make a report to the government which will reflect upon the construction of the Transcontinental railway under the Laurier administration. Will pay for services during the first two years as salaries \$65,500.43, allow for travelling and other expenses \$11,884.96, and provide a private car, porters, etc., at a cost of \$17,500; in other words incur a total expenditure of \$98,885.39. Other rewards may follow. Apply to the Borden government.

Some such advertisement as this would about sum up the position of the Borden government with respect to the report of the Transcontinental investigating commission. The commissioners, Messrs. Gutelius and Lynch-Staunton, were appointed on February 14, 1912, at a salary of \$65 per day each and expenses. By a return brought down in the house of commons a short time ago the government stated that for this report they had paid to Mr. F. P. Gutelius \$27,465.48, and to Mr. Lynch-Staunton \$24,038.01, and for other expenses \$11,884.96. By referring to the government reports it will be seen that Mr. Gutelius has also drawn since the first of May last, at which date he was appointed manager of the I. C. R., a salary at the rate of \$20,000 a year, or to the middle of February, at which time the return above referred to was made, \$14,999.74. Thus for pay and salary allowance alone he has drawn in two years no less than \$42,465.42. Mr. Gutelius was also provided with a private car which cost the government \$17,500.

Is it any wonder that a re-

port helpful to the Borden government was made? No mention is made in the official return as to whether any of the expenses of Mr. Lynch-Staunton when canvassing for the Conservative candidate in South Bruce last October were charged up in this account.

While the Conservative press has decided that the commissioners' report can do them no credit, it is well to point out that their charge of exorbitant contract prices is absolutely unfounded. This road was being built for the G. T. P. and on which they would be compelled to pay interest. Accordingly it was to their advantage to see that the road was built as economically as was consistent with high class work. Their engineers therefore put in a bid on every contract in order to know that the prices were reasonable, and in no case did any of the work fall in their hands.

We hear praise on all sides for the magnificent track that the G. T. P. have laid out of this city. It is believed to be one of the best road beds in the world. It would be a sorry sight if the Tories had their way and east of Winnipeg reduced to the standard of the C. N. R. The Laurier government have built a magnificent monument to their statesmanship when they insisted on having such a high class road.

EXTRAORDINARY CASE OF MRS. McMAHON

A prepossessing woman, widow of the son of the late Justice McMahon of Ontario. Since the death of her husband, D'Arcy McMahon, she has sought to establish her claim to his share in his father's estate, valued at \$33,000. She signed an agreement with a California lawyer on condition that he was to help her establish her claim. Mrs. McMahon is only 25, and stood a gruelling cross-examination by Mr. Hellmuth before Justice Kelly in the Ontario courts.

HIDDEN CREEK PROPERTY WILL DOUBLE GRANBY OUTPUT

VAST RESOURCES AT GRANBY BAY AND OTHER COAST PROPERTIES BELONGING TO THIS COMPANY—GROSS EARNINGS ARE HUGE

The annual output of the Granby Mining, Smelting & Power company will be more than doubled when the Hidden Creek smelter, which will be operating in a few days, is in permanent commission, according to E. E. Campbell of Vancouver, chief engineer of the Granby company. The plant will have a daily capacity of 2,000 tons and the average content of the ore reserves in the Hidden Creek mines is 2.2 per cent copper, which will make the daily blister copper production 88,000 pounds or 31,680,000 pounds a year, allowing thirty days' operation each month.

At 14½ cents the pound for copper the gross earnings of the Hidden Creek will be \$4,593,600 annually, besides the gold and silver, both of which will be considerable. There are not less than 12,000,000 tons of ore in sight at Hidden Creek at present, Mr. Campbell says, which means that there is a 17 years' run of ore ready for extraction, with the smelter operating at capacity continuously. Provided the values in this reserve hold at or near 2.2 per cent copper and the price averages 14 to 14½ cents the pound during the period, both of which are probable, the gross returns from Granby's new plant will be approximately \$78,000,000, or almost four times the corporation's capitalization, which recently was increased from \$15,000,000 to \$20,000,000.

"The last report from Hidden Creek estimates that there are 9,000,000 tons of ore ready for extraction above the 385-foot level alone," said Mr. Campbell. "This does not include probable reserves not opened, nor does it

take into consideration bodies that undoubtedly exist below that level. In addition there are several other properties under control of Granby that will send their products to Hidden Creek, and because of this it is impossible to make any estimate of the life of the enterprise.

"Among these additional resources are the Mamie mine at Hedley, on Prince of Wales island, originally owned by the Brown Alaska company, which operated a smelter at Hedley in 1905, 1906 and 1907; the Midas, on Solomon gulch, seven miles from Valdez, Alaska, and five miles from the shipping point at tidewater, and the Copper Queen, on Texada island, which Granby is working under a lease and bond. The Midas was acquired recently from the owners, who had it bonded for a time to the Guggenheims.

"The Copper Queen ore contains considerable lime, making it a desirable fluxing material, and in addition the company own a lime property on Portland canal, 60 miles distant from Hidden Creek by water, and two shipments of lime from there already are on the ground at the smelter.

"The Hidden Creek plant is of the most modern type in every particular. Power is furnished by nine big Pelton wheels, which are directly attached to the two compressors, one of which operates the drills in the mine and the other the converters and three blowers, one for each of the three furnaces.

"The company has constructed a model town at Anxox, as the smelter settlement is called, and has erected 65 houses near the smelter and 25 at the mine for

the use of employees. These dwellings contain four and six rooms and are modern in every essential, having baths, sewer connections and electric lights. There is also a mess house capable of accommodating 700 men, a transient hotel containing 20 suites, a store, cold storage plant, hospital, general offices, clubhouse for company employees, a good school, customs house, post office, government telegraph station, police department, and everything that goes to make an up-to-date little city.

"The town now is a regular port of call for the vessels of the Canadian Pacific, Grand Trunk Pacific and Union steamship companies, all of which maintain a weekly passenger service, and will make it a twice a week a little later, and there are a number of freight steamers on the run all the time, some of them operated by the companies named and others by independent concerns."

The Granby shipments to date have passed the ten million-ton mark. And there are millions of tons still left in the mine of Phoenix.—Phoenix Pioneer.

SEVEN OF NINE LABOR LEADERS DEPORTED BY GEN. BOTHA

The deported South African labor leaders are seen here as they are being greeted by the union labor men of England. They have been tendered many receptions and dinners since, including one at the house of commons. The affair has already had effect in British politics.

NEW FISHING FEES FOR SALMON LICENSES

Dominion Department Has Made Announcement Fees Doubled—Nothing to Assist Industry

Ottawa, March 19.—Amendments to the British Columbia license act have been adopted fixing the fee for salmon drift or gill net license at ten dollars, for a drag seine license fifty dollars, for a purse seine license one hundred dollars, and for a trip net license one hundred dollars.

In regard to a despatch from Washington to the effect that the United States congress was endeavoring to strike out the clause prohibiting trap nets in the treaty regarding fishing on the boundary line, Mr. W. H. Barker of the B. C. Packers' association found fault with the Canadian government.

"If that clause is struck out," said Mr. Barker, "it will leave things in exactly the same condition as at present—the condition that we have been fighting about for so many years."

When asked by a Vancouver World representative if the British Columbia fishermen would not take the matter up with the Dominion government, Mr. Barker said: "What good would that do us? Every time we have opened our mouths about or to the government, we have been notified that our taxes have been doubled. So we might as well let the Americans do anything they please. In fact, we will have to, for we can get absolutely no protection or satisfaction from our own government."

"We are told by the Conservative member that we discriminate against the white fishermen; that is untrue, there were more white fishermen on the Fraser last year than there ever has been before, and we are always glad to get them."

"If the government would stop telling us how we ought to run our business and give us more aid and protection we would all get along much better," concluded Mr. Barker.

Trapped
A minister was greatly disturbed by a certain set of women in his congregation who persistently gossiped in a loud tone during service.

One Sunday morning he executed a plan he had devised to stop this annoyance. At a given signal the choir stopped abruptly on a certain word in the middle of a hymn.

Then one of the gossips, unable to check herself, was heard all over the church to say: "I always fry mine in lard!" "As we know," announced the minister, "that she always fries hers in lard, we will now proceed with the singing."

The history of Seattle and Ballard will repeat itself in Prince Rupert and Port Edward.

SCIENTIFIC NOTES

Melted alum will effectively cement broken china or glass.

Spain will hold an international electrical exposition next year.

Violet tinted varieties of white potatoes are the highest in nutritive value.

The opening of a new canal in June will enable ocean vessels to reach Brussels.

It costs the farmers of the United States \$15,000,000 a year to fight insect pests.

Recent high speed wireless tests in England resulted in the sending of 145 words a minute.

The x-rays are being successfully used by a New York surgeon to diagnose appendicitis.

A solid silver bedstead costing \$45,000 recently was made in England for an Indian rajah.

A new sled for boys has a third runner, longer than the others, in front to facilitate steering.

A new English portable vacuum cleaner can be used as a seat, table, cabinet, music stool or pedestal.

Pure turpentine will evaporate from white paper, leaving no trace; if adulterated, it will leave a spot.

The manufacture of a hydraulic binder from iron furnace slag has become a commercial success in Germany.

The wine production of the United States last year has been officially estimated at 43,500,000.

Term Up in October

Ottawa, March 19.—In respect to the Manchester Guardian's announcement that the Duke of Connaught would return to Great Britain next autumn, it is learned in official circles that the old arrangement whereby the duke was given a year's extension to his term holds good. His term will be up in October, unless it is further extended, and as to that there has been no intimation, the duke will then go back. Not long ago, the duke, in acknowledging a souvenir from Dawson City, regretted that he was unable to accept an invitation to visit the Yukon.

The Royal Cafe gives the best meals and the best service in the city. Visitors to the city are advised to make this restaurant their selection.

"Krex" is the name of a new floor rug suitable for bedrooms, dining rooms, etc., very durable and very cheap. Wallace's.

BRITISH COMMONS WANTS TO EXHIBIT

Goes on Record as Being in Favor of Participating in the San Francisco Exhibition

London, March 19.—By a substantial majority, the house of commons has put on record a desire that the government reconsider its refusal to officially participate in the Panama-Pacific exposition and agree to participate. A memorial to this effect, signed by over 350 members of the house of commons, representing all political parties, was presented to Premier Asquith.

LADIES BASKETBALL A POPULAR SPORT

Match Drew Crowd Who Witnessed a Red Hot Game

Another intensely exciting basket ball match was played in the Auditorium last night before a crowd of excited spectators. The ladies played a fast game and showed considerable improvement over the excellent game played last month. Sides were picked and represented blue and white. The blues won by a score of 56 to 52, which shows how evenly they were matched. The instructor who has been training the ladies is Mr. Len Porter. He acted as referee and Mr. E. A. Woods kept the score.

The teams lined up as follows: Blues—Guards, Miss McNair, and Mrs. Gilmore; centre, Mrs. Bainter; forwards, Miss Taylor and Miss Morrissey. Whites—Guards, Miss Stevens and Mrs. Vogue; centre, Mrs. Dunn; forwards, Mrs. Woods and Mrs. L. W. Kergin.

An Objectionable Mixture
A worthy precursor got so irritated at a singer in the congregation who used to show off his musical compass by changing from bass to tenor, that at last he burst out, "Mr. O'More, if you're sing tenor, sing tenor, or if you're sing bass, sing bass. But we'll hae nae mair o' yer shandy gaff!"

Ladies' suits to measure, \$30 to \$40. Wallace's.

Demand the Brand

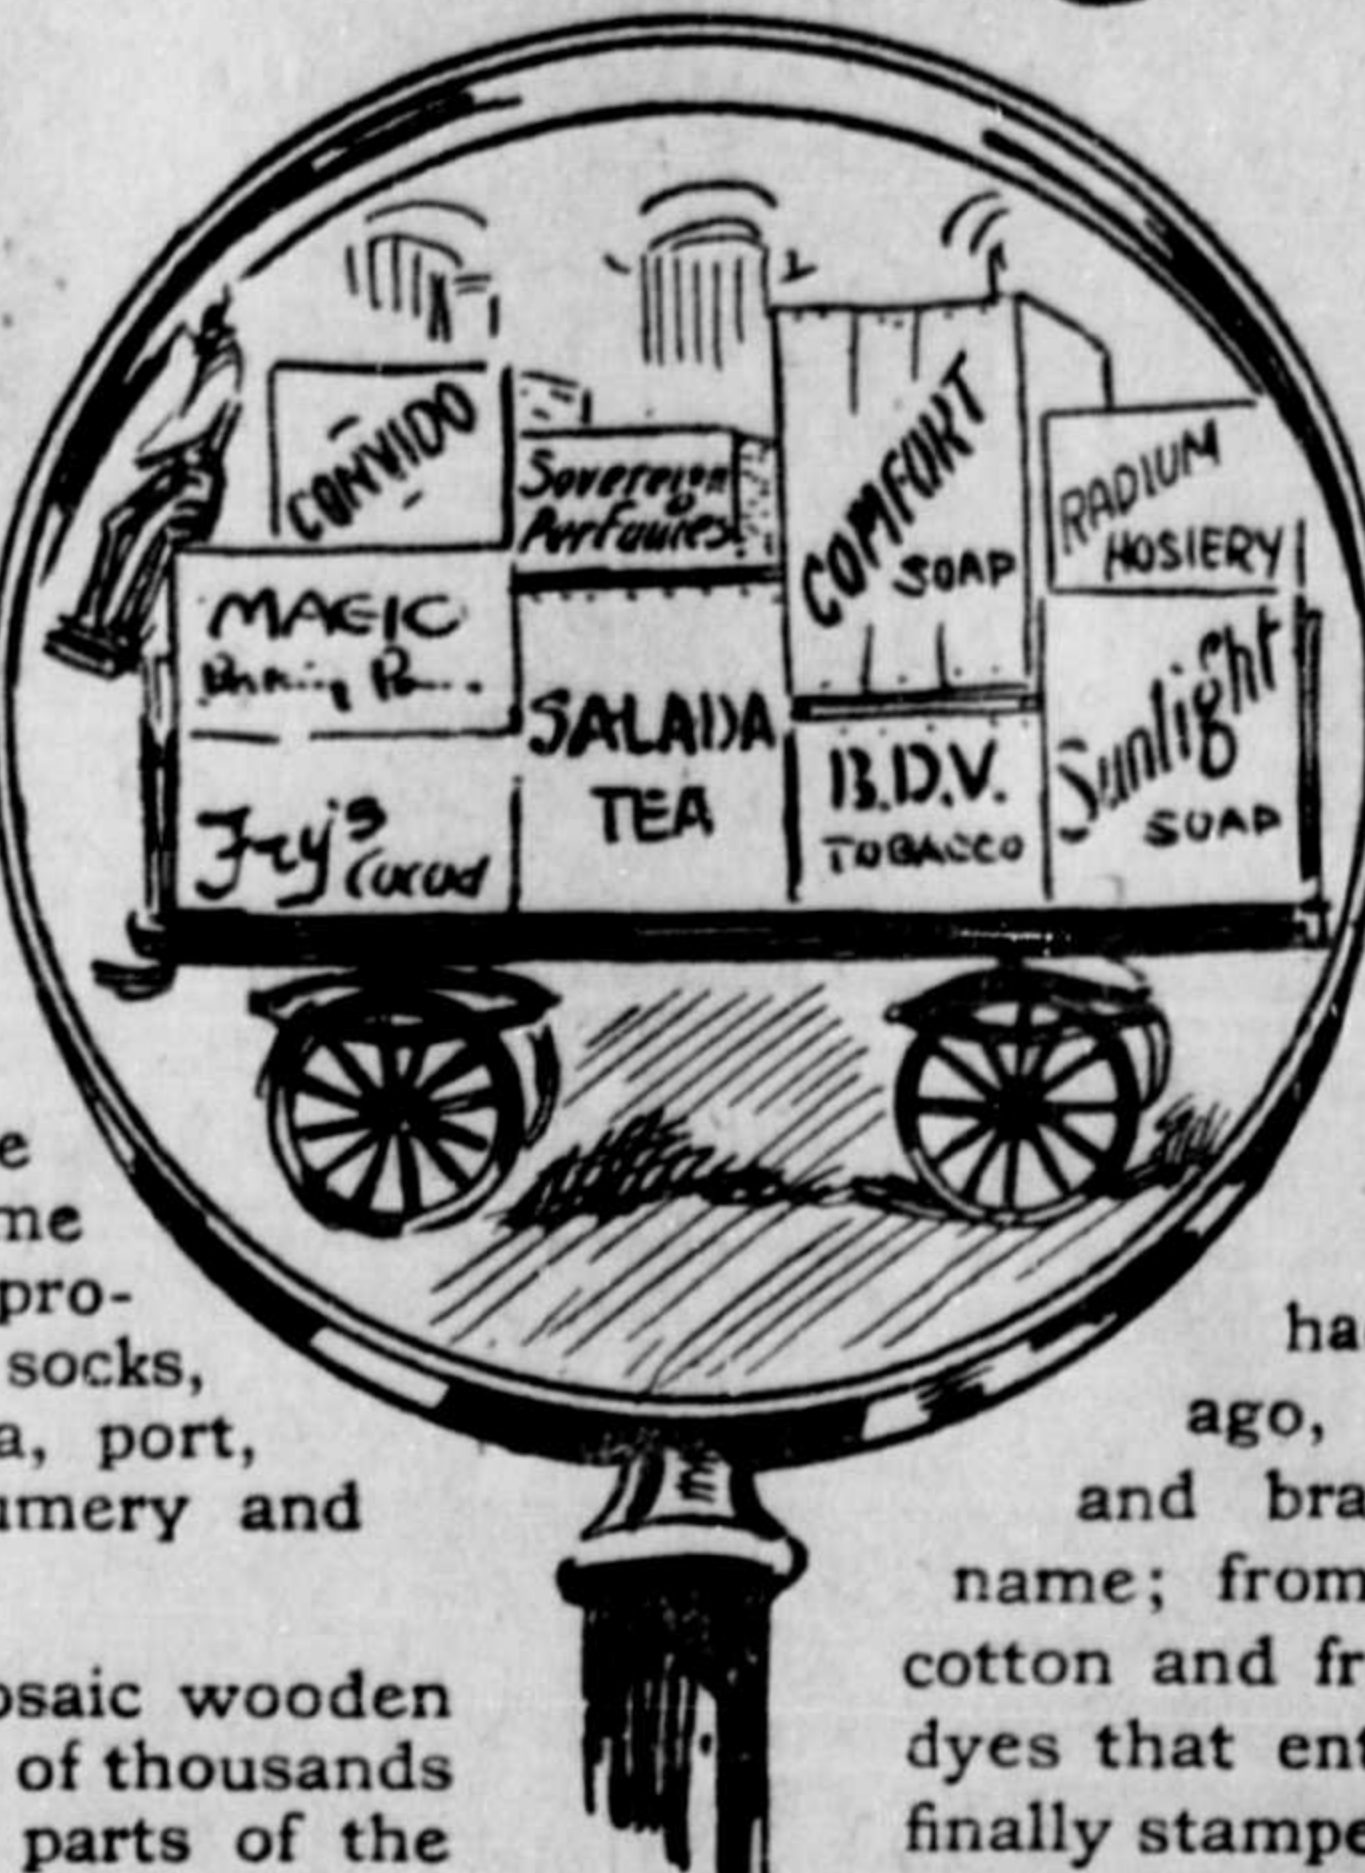

The Tale The Wagons Tell

My office window faces a street, close to the railway freight sheds.

All day long a steady stream of trucks and lorries lumber by—loaded with boxes, barrels and bales.

One truck I noticed the other afternoon was particularly interesting. No two boxes were the same, and stencilled on the end of each was the name of some well-known product—soap, tobacco, socks, breakfast food, cocoa, port, tea, chocolates, perfumery and baking powder.

Gathered there in prosaic wooden boxes were the results of thousands of hand's labor in all parts of the world.

The cocoa had been grown in Brazil, shipped to Bristol, transhipped to Montreal and finally distributed from Toronto.

The tea was gathered by swart-skinned natives of the romantic island of Ceylon; from sunny Portugal the luscious, big grapes had been gathered years ago, fermented, bottled and branded with a famous name; from Egypt had come the cotton and from South America the dyes that entered into the product finally stamped with the brand of a well-known hosiery.

There, behind that obviously prosaic truck-load of freight was the whole romance of modern commerce—the skilled production, the universal demand for food, drink and raiment, and the world-wide distribution of the things we use every day.

And then I speculated why we use these things every day, instead of some other things; and that brought me plump back to my own job of advertising.

The names of some of the boxes on the lorry were known everywhere to-day, but had been unknown a few years ago; and I saw then more clearly than ever before that Advertising is really a great channel digger. It is like the Panama Canal. You can sail from Montreal to Vancouver now, around the Horn. You can get there, but it is going to take months. A year or so from now you will sail through the Panama Canal and chop the journey to less than half. A new channel will have been dug.

The great names in commerce to-day are those of the manufacturers who have let modern advertising steam-shovel a channel across the isthmus of distributing difficulties.

The great names in the commerce of to-morrow will be those of men who widen and dredge this channel so that the greater traffic may pass smoothly and quickly from the source of production to the homes of the consumer.

If you are doing a local business talk over your advertising problems with the Advertising Department of this newspaper. If you are doing a provincial or national business it would be well for you to have counsel and assistance of a good advertising agency. A list of these will be furnished, without cost or obligation, by the Secretary of Canadian Press Association, Room 503, Lumsden Building, Toronto.

A NEWSPAPER

for Prince Rupert and Northern B.C.

The Daily News goes into nearly every home in Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate optimism and reliability.

The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.

Weddings. No nicer present than fine china or the every day kind. Big variety at Wallace's.

Mr. Richardson, a mining man in charge of some development work near Kilselas, is in the city for a few days.

Ferdinand Van Bruyssel and photographer were in Port Edward yesterday getting photographs of the townsites.

Mr. Frank Dowling leaves for New Hazelton tomorrow on a trip of inspection of the government telegraph offices.

Mr. J. Sidney Smith, head of the Atlin Fisheries, left this morning for a trip to Kansas City. He will be absent a month.

A large number of laborers have been let out on some of the construction camps and are now in New Hazelton cashing their checks. They will be down on Sunday's train.

Constable Munro, of Hazelton, took a demented man from Wordsworth south to the New Westminster asylum this morning. He also picked up a prisoner here bound for the penitentiary—Chas. Ryan, an Indian, sentenced to nine months.

Mr. J. A. Johnston, manager of the Great West Life Insurance company, came in on yesterday's

train and went south today on the George. Mr. Johnston was making his first acquaintance this great country which is fast opening up.

SEWARD PREPARES FOR RAILROAD ACTIVITIES

Transportation Officials Putting Wharf in Readiness for Arrival of Materials

Seward, Alaska, March 20.—Officials of the Alaska Northern railroad have begun the work of putting their wharf in first-class condition, in anticipation of the coming of material for the Alaska railroad. Seward is sanguine that the signing of the bill by President Wilson insures this port as one of the terminals of the proposed lines. Because of the report of the Alaska railroad commission, which made a trip through the territory in 1912, it is regarded as certain that work toward the interior will start from here.

Real estate prices are climbing and it is next to impossible to obtain leases or options on property within the city limits. The feeling is decidedly optimistic, and business is brisker than it has been for months.

The special meeting of the Seward Commercial club, which was called after the news of the signing of the bill had been received, lasted well into the night. Speeches commendatory of President Wilson and his cabinet, as well as Delegate Wickersham were made.

Editor Found Guilty

Nome, Alaska, March 20.—Hugh O'Neill, editor of the Nome Democrat, was found guilty of criminally libeling O. D. Cochran, an attorney, after a trial that lasted for two days. The jury was out all night before reaching a verdict. Judge Schofield imposed a fine of \$200 on O'Neill. The case will be carried to the circuit court of appeals at San Francisco. Intense interest was manifested in the case during the trial.

not at a meeting of his own friends.

The C. N. R. increased guarantee was excused because the C. N. R. wanted to build a better road than first planned in order to compete with the other roads. When Premier McBride went to the country on that C. N. R. proposition he said the road was going to be a first class road. Now he says it will only be a jerk-water road if more help is not given. Why did he not have engineers investigate those plans before he made the first guarantee?

William Manson says the P. G. E. road is to benefit Prince Rupert, but Sir Richard McBride and the other Conservatives say it is to help Vancouver.

All the legislation passed at Victoria this past session was with the object of centralizing power because the McBride government is dependent on the machine for re-election. This government takes advantage of a necessity to use it for party purposes.

William Manson says he believes in uniformity of methods as an excuse for not giving Prince Rupert assistance in guaranteeing bonds, but he did not believe in uniformity of methods when he supported the guaranteeing for terminal and sewerage bonds for the municipalities in the south.

The speaker predicted that the government will have to pay the interest on the C. N. R. bonds. At the present time he believed the interest was being paid out of capital.

What has McBride ever given Prince Rupert? We have got no waterfront; we had to buy our own water supply from a prominent Tory; we have got no recreation grounds. Why is not the foreshore now being granted the provincial government by the Dominion government given to the city?

A submarine boat with wheels to enable it to run on the bed of an ocean or river has been added to the United States navy.

Sardines have appeared within the last two years in the Sea of Galilee and a packing house will be established on its shores.

DEPUTY SHERIFF IS KILLED BY WOMAN

Double Tragedy Enacted in Tacoma When Assailant Turns Gun Upon Himself

Tacoma, March 20.—Geo. E. Stone, a deputy sheriff, was shot and killed by Mrs. Sadie King, who then killed herself. Two men across the street from Mrs. King's home saw the man run from the house, pursued by the woman, and heard the shots that followed. Stone was married.

Mrs. King, who conducted a rooming house, was about 35 years of age and had a husband, Roy King, a stationary engineer, living in Butte, Mont. The motive for the tragedy is not known, but the police assert that the couple had been on intimate terms for three years.

Neighbors heard several shots in the house and a moment later Stone emerged, screaming: "Help, help, I'm being murdered."

The woman pursued him across the yard, firing two shots. When Stone fell dead, Mrs. King placed the revolver to her breast and fired, and sent another bullet into her brain a second later. Her 7-year-old son, who was playing across the street, was the first to reach his mother's side.
