PRESIDENT ACTED PROMPTLY SEIZING MUNITIONS OF WAR

THE CONGRESS WAS DEBATING PRESIDENT WAS DOING THINGS—VERA CRUZ WAS READY FOR THE FIGHT

Vera Cruz, April 21.—This place has at once assumed the appearance of a place that is to be the scene of military and naval activity in the next few days. The place has taken on the appearance of a fortified city.

The first indications that preparations were under way to receive the landing of the American fleet from the fleet gathering to blockade the port and to take actual possession occurred today.

General Maas, acting under instructions from President Huerta, fortified today the island of Juan Ulua in the harbor with a platoon of machine guns. There is also a rumor abroad that the Americans seized the railroad running from this point to Mexico. The line of the line of railway made twenty miles from where an attacking party had landed without hindrance. Look possession of the line cut off communication with capital.

The seizure was made at a point west of here where a great trestle exists. The possession of this point commands the line to Mexico City. There is no doubt that the United States intends to concentrate her attack upon this point. There can remain no doubt now that an attack will be made, perhaps in a few hours. It is expected that marines from American warships may land by night.

Washington, April 21.—While Congress was debating the Mexican situation, President Wilson did not slow to act. He ordered Admiral Fletcher to seize Vera Cruz customs house.

This was a strategic move on his part to prevent President Huerta from getting several million rounds of ammunition and two hundred field guns now on a German steamer in port about to be landed. By the seizing of the customs these munitions of war pass under the control of the United States and prevent their being used by Huerta.

WOMAN WANTS JOB AS ROAD SUPERINTENDENT

Believes She Can Do Much Better Than the Class of Men Now Employed

Word received from the Naas river tells the same story of government inefficiency that one hears from all over the province. The settlers in that district have formed an agricultural association with forty members, which they hope to raise to one hundred before the summer is over. Their first move is to seek better roads and they demanded a new road supervisor. A petition was sent to Victoria and a copy to Wm. Manson to that effect.

A certain lady who has been visiting the pre-emptors says she could do better work than what has been done, and she will apply for the job. She is a strong believer in woman suffrage, and says if the women had votes they would soon reform matters.

Another matter taken up was to refuse to slavishly follow any one party. They will also refuse to buy their necessities from the government supporters' stores as in the past, where they had to pay exorbitant prices.

Sidney Smith Returns

Sidney Smith, head of the Atlin Fisheries, is back from a month's trip to Kansas City and other western points. Mr. Smith went on business and kept busy all the time, but he says he is glad to get back where the weather is good. He found rain in every part of the country every day he was away.

Mr. Smith is a grain expert as well as a fish man, and he says the fall wheat in the western states is looking better than ever before in history and he predicts a record crop.

EARLY MORNING FIRE IN DYKE'S RESTAURANT

Fire Department Made Quick Response and Prevented Big Fire

A small fire threatened the city's biggest business block early this morning. Prompt action by the fire department saved it. The fire started from the grease around the stove in Dyke's restaurant. The cooks were in the place at the time but evidently asleep, as the alarm was given by a lady living above the place. She was awakened by the smoke and phoned in the alarm.

"The fire department was here before I hung up the receiver," she said.

A squirt or two from the chemical put out the blaze. Had the fire got a little more headway it is quite possible that the whole block might have gone. The value of an efficient fire department was particularly apparent in this instance. The alarm was registered at 2:15 a.m.

BONAR LAW PERSISTS ALLEGED ULSTER PLOT

Asquith Thinks Judicial Enquiry Unnecessary but Will Give Chance for Charges

(Special to The Daily News)

London, April 22.—Bonar Law again asked Premier Asquith for a judicial enquiry into the alleged Ulster plot. The premier saw no reason for such a procedure, but offered if the opposition was sincere in its charges to set aside a day for the purpose of making the charge at the earliest possible date.

New Cars for Fish Trade

The G. T. P. have under construction 250 steel-tired refrigerator cars for operation out of Prince Rupert. These cars are designed for the shipment of fresh fish. They are built to run on fast express trains or to attach at the head of passenger trains. The company expect to carry several carloads a day out of Prince Rupert.

Presbyterian Literary Society

This evening, in the Presbyterian Church hall, Mrs. G. A. Klower will lecture on the history of Scottish music. The lecture will be illustrated with numerous songs, and amongst those rendering the musical part of the program will be Mrs. Miller, Messrs. A. Clapperton, J. G. Steen and Chalmers. This will be a literary and musical treat well worth hearing, and all are welcome.

UNEMPLOYED ARMY DWINDES TO 20

Followers of "General" Coxey Number Only a Score at Canton, Ohio

Canton, Ohio, April 21.—"General" Jacob S. Coxey's army of unemployed dwindled from 200 to a score of privates, camped here preparatory to starting on the second leg of its march to Washington.

When Coxey left his home in Massillon, O., it was found that only a small percentage of the followers he had counted on were in line. Several had gone ahead on freight trains. The ranks were swelled, however, by Massillon school boys, and when the "general" gave the signal to start, he had a fairly large command.

There was great rejoicing when Henry Vincent, an old man who said he marched with Coxey in 1894, joined the squad and produced a large sack of sandwiches.

MAN AND WOMAN FOUND BOUND UP AND BURNED

Sensational Discovery of Bodies Made in Embers of Lumber Office in S. Dakota

Geddes, S. D., April 21.—What appears to be a sensational double murder has been disclosed here when the bodies of W. H. Menzie, manager of the Farmers' lumber yard, and his bookkeeper, Miss Blanche Signel, were found in the debris of the burned office, lying side by side, faces downward. Both bodies were badly charred.

The feet of Miss Signel were tied with wire, and her hands were wired behind her. Her skull had been crushed with a claw hammer, which was found nearby. Mr. Menzie's feet also were wired together, and wire was found on one wrist, the other end being broken. His hands were under him. His skull had been fractured with some blunt instrument.

No motive for the crime has been discovered.

AMERICANS SEIZE VERA CRUZ MEXICANS IN FULL RETREAT

DETACHMENT OF ATLANTIC FLEET IN CHARGE—SENATE OF UNITED STATES IN FAVOR OF USING FORCE

(Special to The Daily News)

Vera Cruz, April 22.—The landing of forces from the United States warships was not accomplished without loss of American life. The waterfront, customs house and all important piers are occupied, and the territory around the United States consulate is strongly patrolled. Detachments hold other sections of the city.

The Mexican commander, General Maas, offered a stubborn resistance and there were many hours of fighting in the streets. At nightfall the main body of the federals was reported in retreat westwards.

MANY PEOPLE WANT TO GO ON NEW RAIL

C. E. Jenney Says Many Organizations Want Excursion Rates—Trade Good

(Victoria Times.)

Many enterprising organizations of the southern part of this province are now in consultation with officials of the Grand Trunk Pacific with a view to securing special rates for excursions into the interior over the new line. The first local trains to proceed over the transcontinental will start rolling along about August 1, and the members of many organizations are anxious to get on the new ground as soon as possible and size things up. Among the first excursion parties to go over the new line, in all probability, will be the British Columbia Manufacturers' association, including about 500 of the prominent citizens of Victoria, Vancouver, New Westminster and other British Columbia points.

C. E. Jenney of Vancouver, general agent of the passenger department, who succeeded W. E. Duperow, is spending the day in Victoria, and in conversation he stated that the G. T. P. is now considering the requests of organizations for special excursion rates. People are anxious to see what there is in the northern part of the province, through which the new transcontinental has been laid.

Mr. Jenney says that northern travel at the present time is very good. The ships are carrying large lists of passengers and he understands from the freight department that a great deal of cargo is moving north. "Everything is satisfactory," he says. In a short time he expects that many tourists will be wending their way to Prince Rupert and Stewart to see the beauties of the inside passage. The company also hopes to send many of the travellers inland on its rail to show them the delightful scenery of the Skeena and the Fraser, as well as the high mountain ranges.

Society Women Smoke

Ottawa, April 21.—Women of the best social set of Canada's capital and most of the society girls of Ottawa are smokers. This statement was made to the common cigarette bill committee by W. L. Scott, president of the Ontario Union of Children's Aid societies. Mr. Scott is an Ottawa lawyer, a son of the late Sir Richard Scott, and himself a frequenter of social functions; the committee, therefore, were inclined to believe that he knew what he was talking about.

CALLIES WON FAST GAME AGAINST SCHOOL

Score a Tie at End of Second Half—Sudden Death Finish

Last night's game of basketball between the Callies and the High school was undoubtedly one of the best games yet seen between these two teams. During the early part of the match both teams seemed to be striving for the lead, and at half time the score was 14-11 in favor of the High school. After half time the play became faster and partook of a slightly rougher nature. Near the end of the second half the playing was fast and rough, with both teams playing at their best. At the end of the second half the score was tied—24 all.

With the consent of both teams a "sudden death" finish was played and the Callies secured a basket, caged by Campbell. The teams lined up as follows:

Callies—Backs, H. Foote, B. Ferguson; forwards, Campbell, Dennis, and Brown.

High School—Backs, Dowling, Mitchell; forwards, Anderson, Manson and Rowell.

HINDUS NOT TO LAND IS OFFICIAL ORDER

Ottawa, April 22.—In the house of commons H. B. Stevens asked the minister of the interior if he had received any information that 400 Hindus are on their way from Shanghai and Hongkong to Vancouver, and that their intention is to test the regulations passed by the government regarding the admission of Orientals and others. He asked what steps the government proposed to take in the matter.

Dr. Roche said that the government had been advised by the Vancouver immigration agent of this movement and that he had been instructed that if the Hindus are coming in contravention of the new regulations they are not to be permitted to land.

DAILY EDITION

Wednesday, April 22, 1914

One of the trying needs of British Columbia is a reform in the provincial police. This does not mean that there are not good men in the service. The head of that force in Prince Rupert is a proof of that, and there are many others. The trouble is with the system. In the first place they are not clothed with the authority that puts fear into wicked men. They are men without a uniform, and everybody knows that a uniform lends weight and influence. Then they have several bad precedents to live down. The service has been a joke in the past because on many occasions prisoners have easily slipped through their fingers. These reports come from all over the province. Isn't it time that some genius was put in charge who would bring about an efficient force?

Whenever man outrages nature, sooner or later he must pay the penalty. Nature has been prodigal with her gifts to British Columbia. She has put remarkable fertility in her soil; gold, silver, copper, iron, coal and other minerals in her hills; vast areas of timber on her lands; countless myriads of fish in her waters; beauty of scenery in her mountains and valleys, and the delight of variety in her climate. Puny men have outraged all these gifts, save only the beauty of her scenery and delight of climate.

Doubtless these, too, would have suffered and been handed over for exploitation were it not for the fortunate circumstance that they are beyond the ingenuity of trickery.

British Columbia's fertile lands have been given away to speculators rather than to actual users; her timber areas have been alienated; her vast coal areas are controlled by private concerns so that a famine has been threatened of so necessary a household commodity as coal; the fish of the sea have been exploited for the benefit of a few people, while the whole province has been mortgaged to the extent of two hundred million dollars to foster railroad projects of private individuals.

The province of British Columbia will have to pay dearly for the onslaught upon her natural resources and the men responsible for this waste of heritage will live to see themselves burned in effigy in the public places of the province.

The two Tory governments responsible for the administration of affairs in this province are like the post office wall, they are falling down.

There was a man named Manson, At election time he ran some, But the people now find That he has no spine, And next time he'll run behind some.

QUEEN OF GREECE WITH LITTLE DAUGHTER

Born while her father was fighting the Turks. The young Princess Katherine of Greece, the sixth child of Queen Sophia, sister of the German Kaiser, was born while her father, the King of Greece, was at the front during the Balkan war. While on the battlefield, he was apprised of the birth of the princess, and vowed that every soldier of the empire would be the godfather to his newly-born daughter. As the fighting strength of the Grecian army at that time was 150,000 men, and as there were on the reserve list another 200,000 men, the charming young princess can boast of being the only living infant who has 350,000 godfathers. The Princess Katherine has two sisters and three brothers. Her mother married the present King Constantine in 1889.

NEW LANDS OPENED FOR SETTLEMENT

Minister of Lands Issues Synopsis of Lands in the Province to Be Thrown Open

The Hon. William R. Ross, minister of lands, has announced the opening for pre-emption of a number of areas in various parts of British Columbia. The largest of the many areas to be opened to settlement in the near future are those on the South Fork of the Fraser river. In this valley, through which the Grand Trunk Pacific railway has just been completed, in the reserve created in 1907, about 80,000 acres of farming land will be opened to settlement, the eastern part, in the neighborhood of McBride and east to Mount Robson park, on June 1, at McBride, a divisional point on the G. T. P. railway, where a growing city is situated, 145 miles east from Port George, a special office being opened there for the purpose for one week by the government agent at Port George, and the western half at Port George on June 15.

AT THE THEATRES

"The Squaw Man" at Empress

"The Squaw Man" has lost nothing in the transfer from the stage to the screen of those qualities before the footlight. Besides having Dustin Farnum, who created the title role in the original play, to re-create it before the camera, every one of the big dramatic moments is incorporated in the film play which gave the drama so wide and enduring a vogue. The thrilling scenes at the English Derby, where the Earl of Kerkill makes the disastrous plunge and eventually ends in his cousin shouldering the burden of the family's dishonor and going into voluntary exile; the finely executed scenes of the burning schooner in mid-ocean and the rescue of the castaways—these and others during the course of the six reels that tell the story of "The Squaw Man" represent the triumph of the pictures over the stage production. Were it not for such sensational effects introduced at critical points during the first three reels, the prologue to the real life and fortunes of "The Squaw Man" might be liable to the charge of being a trifle lengthy. As it is, James Wynnegate (Dustin Farnum) arrives in America and starts for the region of the ranches with an audience, fresh and unwearied, eagerly following every incident in his career. Then begins the story with which every man, woman and child to whom Jim Carston, Nat-U-Ritch, Cash Hawkins and Lady Diana are the names of favorite characters, are familiar. This is the point where the real test of the ability of the drama to sustain and vindicate itself as a motion picture play takes place.

"JUDITH OF BETHULIA"

At Westholme Opera House Tonight and Tomorrow

Coming direct from New York,

weeks at Proctor's Fifth Avenue theatre, with prices at 75c for orchestra chairs, the gorgeous four-reel spectacular production "Judith of Bethulia" will open at the Westholme Opera house tonight. The management of this theatre guarantee this series of pictures to be the finest ever shown in the city of Prince Rupert. According to the apocryphal story the children of Israel had fortified the hill passages by which any invading army from Assyria would be obliged to enter into Judea. The principal of these fortified places was Bethulia. It is related that Nebuchadnezzar sent Holofernes, chief captain of his army, with one hundred and twenty thousand men to visit vengeance on all the earth. When he came to Judea he met an unexpected defence by the Jews of Bethulia. He stormed the walls, but was unable to capture the city. He then sat down to starve it into submission, having taken possession of all the springs and wells from which the city had its supply of water. The result was that the inhabitants began dying of thirst and famine and begged the elders to surrender to the enemy. From this intolerable situation the city was relieved by the bravery and self-sacrifice of Judith, a beautiful widow of Bethulia. At a great feast given in her honor she induced Holofernes to dismiss his guards and enter a lonely tent with her, and when he was overcome with wine she cut off his head and escaped back to the city. Her unexpected return with the head of Holofernes inspired the Jews of Bethulia with new courage, and making a desperate sally from its gates the invading army was driven back with enormous loss and Bethulia and all Judea were thus saved. Strictest attention to detail in costume, weapons and instruments of war, customs of the people and correct scenic background make this one of the most remarkable spectacles ever produced in moving pictures.

SIR WILFRID MAKES STRONG SPEECH REPLY N.T.R. REPORT

OUTLINES HIS AMBITION TO MAKE GREAT RAILWAY—THE REPORT PARTISAN AND UNTRUE ON ITS FACE

"In the lengthy course of the debate I have had the privilege of having been taken to task more than once, many, many times, and held responsible for the construction of this railway. The statements, charges, reproaches, stigmas, call them what you will, I accept, yea, accept as an honor. (Cheers.) I hold myself largely responsible for conceiving and carrying on this great undertaking, an undertaking conceived to secure for this Dominion a transcontinental railway, all on Canadian soil, the best and shortest on the American continent. (Renewed cheers.)

"I had high aspirations. I sought to bring the western farmer closer to the markets of the world; I sought to do my share to open up the great fertile plains of northern Ontario and

Quebec, I planned to link the producing lands with the great Atlantic and Pacific ports, and I aimed to be in the van of those who courted the new and great possibilities of the dawning Oriental trade. Yes, all these considerations impelled us to construct the best railway that science could devise or money could build." (Cheers.)

"We fell before our task was accomplished. To other hands was committed the completion of the work. We have our responsibility on this side; yonder they have their responsibility on the other side. We have the responsibility of building; we accept it gladly. They have the responsibility of destroying; they cannot escape it.

"We have the report in our hands. We have examined it. What do we find? From first to last, sir, it is unblushing parti-

san libel. From every syllable partisanship oozes out in distortion and misrepresentation. But amid all this insinuation and falseness one fact rings true. There has been no graft. (Liberal cheering.) Not one dollar has been diverted from the object for which it was voted by parliament. If the railway has cost \$150,000,000 every dollar has gone into the road.

"The charge is that we have built too well, too substantially, with too much regard for Canada. Our faith has been great, but not greater than it had reason to be; our expectations were high, but not higher than they should have been. Sir, this road will fulfil the object with which its construction was undertaken, fulfil the hopes with which that construction was carried on; this it will do provided—provided it is not degraded by those at present in power."

If the statements made by the commissioners were true, Sir Wilfrid continued, there must have been a great crime against the country. "But when the report is false what language is strong enough to describe the calumny upon Canada? In that report," he explained, amid Lib-

eral cheers, "there are not only statements which cannot be maintained, but which are untrue and intentionally dishonest." No better indication of this was needed than the fact that, taking the statements of the commissioners themselves, it is impossible to total up the \$40,000,000 which they boldly assert was wasted."—Sir Wilfrid Laurier in the debate on the National Transcontinental railway in the House of Commons.

Agency Conducting Robberies

The Omineca Herald says: A representative of the Burns Detective agency has been in town all week studying the recent bank robbery case. He is of the opinion that there exists a powerful organization of foreigners with headquarters possibly in Seattle, which is directing and conducting all the robberies and holdups in the west. He states that these men have completely baffled the police and detectives, and his mission here is to connect the local prisoners with the believed agency in Seattle. Some of the men who are supposed to be connected with the gang are also wanted in Europe.

Royal Standard Sweet Muffins

No. 4—Cut Out and Paste in Recipe Book.

2½ cups Royal Standard.
½ cup sugar.
2 eggs.
5 teaspoons baking powder.
1½ cups milk.
3 tablespoons melted butter.
A little salt.
Bake in cups or gem pans.

BETTY BROWN.

"Do you know the muffin man?
Do you know his name?
Do you know the muffin man
Who lives in Drury Lane?"

DO you remember chanting this doggerel when you were THAT high? How good those muffins tasted!

But now-a-days it is not necessary to have a speaking acquaintance with the Drury Lane celebrity to obtain good muffins. You can beat his wares hollow by making them with ROYAL STANDARD FLOUR. He, poor fellow, had to be content with any flour he could get. The recipe quoted is more popular than his.

If you are out of "flour," ask your grocer for a sack of ROYAL STANDARD—your "buy word" for the best.

Messrs. Reg. O'Neil, Leo Waugh, Joe Roreig, G. W. Nickerson and E. C. Gibbons left this morning on a fishing trip to Lakelse lake. The boys have promised to stock up the larders of all their friends on their return.

A Vancouver paper kicks because the aldermen of that city attend the baseball games instead of attending city business. This leads a local groucher to remark that it is too bad Prince Rupert hasn't got a ball team.

Dr. W. T. Kergin has had his flyer launch The Sunbeam put into commission after having been tied up for a couple of years. This is without doubt the fastest launch in the harbor, being fitted up with a 24 h.p. engine and with a hull specially built for speed. She makes about twelve miles per hour.

Chief Minty of the provincial police, who has been in Fernie, arrived in Prince Rupert this morning and went on to New Hazelton, where he will be located. He left Fernie Friday night, which makes a pretty quick trip through. Chief Gammon of Hazelton will come to Prince Rupert in about ten days to take the office here.

Mr. Milligan, surveyor, and staff of Victoria, have just returned from a six weeks' business trip over the G. T. P. east. He says that the interior is opening up well. Most all the people who can afford it are talking of cattle raising as soon as the railway opens up, which will enable them to import stock from the prairies. At the present time some of the ranches have thirty, fifty and a hundred head of cattle on them.
