Washington, May 1.—Miss Woodrow Wilson, daughter of the president of the United States, will be married to Mr. William C. MacAdoo on May 7. The marriage will take place in the White house.

#### NEWLY ARRIVING IMMIGRANTS NOT GOING ON THE LAND

ARE COMING IN BUT NOT CLASS OF SETTLERS CANADA WANTS-CHANGE NEEDED IN DEPARTMENT METHODS

During the past year 402,000 immigrants arrived in Canada according to the Ottawa returns. This was an increase of 50,000 over the previous year. Of the 150,000 came from the British Isles. There has been a general increase in British and continental immigration, but a falling off in arrivals from the United States.  
Mr. Frank Oliver called attention to the fact that when the immigration was 341,000, in 1911, the homestead entries numbered 44,779, while last year with a total immigration of 400,000, the homestead entries dropped to 33,699. It was announced policy of the government to secure people to go on the land, but the records seemed to show they were travelling in the other direction.  
Mr. Oliver believed that the methods of the department should be revised. It had been looking for quantity rather than quality. In the first nine months of 1913 the government had been under the necessity of deporting no less than 1,500 immigrants.  
Mr. Alphonse Verville, the Labor member, placed himself upon record as opposed to bonusing immigrants. He urged the government to pass an order-in-council similar to the one passed for British Columbia, excluding all artisans and laborers until the present business depression was over.

#### WANDERERS WON AT AUCTION BRIDGE

Leading by 130 Points in First Match of the Annual Tournament

The first whist game in the annual tournament between the Prince Rupert and Wanderers' clubs for the Moore shield was played in the Wanderers' club rooms last evening. The Wanderers led at the finish by a plus score of 130. The Wanderers are the present holders of the shield. The teams were:

President Poincaré, his wife, and the Palace of Versailles, in which the King was entertained. The fact that Sir Edward Grey, Foreign Minister, accompanied their Majesties gave color to the rumor that international relations will be freely discussed with President Poincaré. The Royal party crossed the English channel on the Royal yacht accompanied by squadrons of the British and French warships.

#### LORD MURRAY HAS BEEN EXONERATED

Dealing in Marconi Shares Does Not Reflect on Personal Honor

(Special to The Daily News)  
London, May 1.—The committee of the house of lords enquiring into Lord Murray's dealings in Marconi shares has reported that he committed errors of judgment, but nothing which reflects on his personal honor.

#### BRITISH ARMY MEN GOING INTO PEACE RIVER

News of settlers going into the Peace River country is now an every day occurrence, but to find three men who have served in the British army and in the South African war coming to Canada for the purpose of locating on land is not an every day occurrence.  
Harry and Robert Swinton, brothers, and Ernest Kelly were in Edmonton the other day en route to the Peace River country. All three are from the island of Malta, and have for some years and until recently been members of regiments in the British army. The oldest brother, Robert Swinton, and Kelly served in the same regiment in the Boer war, going from the old country with the first contingent.  
Mr. Swinton said he had first heard about Canada's west when in South Africa, members of the Canadian contingents telling stories about it, and it was a mere chance that he did not come to America then. He states that the country around the Lesser Slave lake appeals to them best and thinks they will likely locate in the Grouard district.

#### New Ore Exhibit

There has been installed today in the board of trade rooms another splendid wall cabinet of mineral samples, being the gift of S. J. Eubank, a well known Alice Arm mine owner. Mr. Eubank, it will be remembered, won the second prize for prospectors' ore samples at the first exhibition, and the cabinet contains 17 exhibits and is designed to hold three times this number. The collection will prove of great service to prospectors in showing the different varieties of minerals that are to be found in the Alice Arm camp, which is now rapidly coming to the front. Besides donating the samples, Mr. Eubank himself constructed the cabinet, which is an attractive piece of furniture.

#### MILITARY MATTERS QUIET IN U. S. CAPITAL

Mediation Program Will Be Worked Out Behind Closed Doors

(Special to The Daily News)  
Washington, May 1.—Preparations for military eventualities have been restrained and everything is quiet during the progress of mediation. That this will be worked out behind closed doors is the outstanding feature of the Mexican situation.

#### 759 Phones in One Hotel

When the entire equipment of the new Vancouver hotel is completed there will be no less than 759 telephones installed. This was the statement given out by officials of the B. C. Telephone company. As soon as this installation is finished, Vancouver will take a position in the front rank of cities from the point of view of the telephone system and second to none in America. One feature which is specially worthy of notice is the telautograph which, so far is unknown in Vancouver.

REBELS FIRE ON WARD LINER CARRYING CUBAN FLAG—SUPPORTED BY FEDERAL GUNBOAT

(Special to The Daily News)  
Washington, May 1.—Huerta has accepted the proposal for no further hostilities between the United States and Mexico pending the efforts for a peaceful settlement.  
Admiral Mayo at Tampico reports that the Ward liner Antilla, carrying a Cuban flag, was fired on by the rebels and later steamed into port under cover of the fire from a federal gunboat.

#### WHILE PEACE IS NEGOTIATING MEXICO IS PREPARING FOR WAR

RAILWAY FOUNDRY ORDERED TO MANUFACTURE CANNON AT RATE OF FIFTY PER WEEK—FORTIFICATIONS IN CAPITAL

Mexico City, April 30.—While Washington is conferring with the South American envoys in the hope of reaching a basis for a peaceful solution of the difficulties between the United States and Mexico relative to the Huerta regime, the peace problem does not seem to be playing any very great part here.  
There is no halt in this city in the feverish preparations for war which are constantly going on here and which are everywhere apparent.  
It has been suggested that the public authorities co-operate with the military forces. The commanders have advised the central government that strong fortifications be hastily prepared in order to prepare the capital against siege. The plans of these will be considered in detail and probably carried into effect.  
Conferences are being held with some of the Indian chiefs who know the country thoroughly for the purpose of having them throw forces out in the mountains to harass the American troops that may come in on the way to attack the capital.  
The railway foundry has been ordered to suspend work upon railway equipment immediately. Supplementing this order is one to immediately commence the construction of two hundred cannon to be delivered to the government within a month, at the rate of fifty weekly.  
The first batch of these guns is to be ready for testing within a few days.  
These cannon are to be despatched to points along the waterfront from Vera Cruz.

#### BODIES RECOVERED ENTOMBED MINERS

(Special to The Daily News)  
Eccles, W. Va., May 1.—More than fifty of the bodies believed to be buried in mine No. 5 of the New Rivers colliery have been located. Most of the bodies are badly burned and have the appearance of having been blown into the main passage of the shaft.

#### Pleasant Social Evening

The Baptist Young People's union had a very successful social last night in the church rooms. From forty to fifty members attended and enjoyed themselves immensely. A number of old time games were played as well as several new ones. Supper was then served to all, and everyone had a real good time. Before closing, arrangements were made to hold a series of picnics and socials at stated times during the summer.

#### MORE WILD STORMS ON GREAT LAKES

Steamer Made Landing After Being Battered to Pieces by the Waves

Sault St. Marie, May 1.—With her upper works nearly all torn off, the steamer Franz tied up here today. The waves toyed with her woodwork and the top of the pilot house was washed overboard. The windows were smashed in and the furniture was thrown and broken like matchwood. The sides of the cabin were also broken and bulged on the after side.  
John F. Hall, the Bulkeley valley rancher charged with shooting his partner during a quarrel was let out on \$1,000 bail today. Hall's trial will come up at the assizes. He has been in jail here since his arrest some weeks ago.

DAILY EDITION

Friday, May 1, 1914

The provincial board of health at Victoria is sending out circulars with the end in view of combatting typhoid fever. The financial loss to the country through this sickness is first outlined. During last year in British Columbia 85 died of this disease and 700 cases were affected. The financial loss to the country medical attention and loss of wage-earning power runs up to \$330,000. The loss through incapacitation and deaths cannot be figured in dollars and cents.

"To prevent this disease, besides cleanliness, a method of immunization is now available. This consists of the use of typhoid prophylactic, which is a sterile solution for hypodermic injection." This can be used either by a doctor or a nurse, and will be supplied on application to the secretary of the provincial board of health, Victoria.

A test of this preventative has been made on the Alberta division of the C. P. R., with apparently very gratifying results. It is also said that it has worked wonders with the British army in India. This is something that the medical profession should look into and if found satisfactory should be widely used. Anything that lessens waste and prevents untold suffering and death should be eagerly

sought after, if not from a philanthropic, at least from an economic point of view.

It would appear that saner minds are dominating conditions in Mexico. Huerta has evidently realized that he cannot persistently insult the great nations of the world. Indeed all along he has acted like the bad little boy who thought himself too big to get a licking. If the recent demonstration of force has brought him to his right mind it will be a good thing for all concerned.

The attitude of the South American republics in the Mexican imbroglio is hopeful. They are in a position to understand the needs of Mexico and their kinship will enable them to a respectful hearing with the dictator Huerta. These conditions make the chances of a peaceful solution more hopeful than at any period since the assassination of Madero.

Seeing that the paternal feelings of the United States for the Latin republics is so badly reciprocated it might be in order for Uncle Sam to let the little boys have their fling. What if Germany should step in and get a foothold—indeed secure an empire—would it not have the result of letting off some of

the international steam? Germany wants colonies and Germany has a right to them if she can secure them, and if they get a slice of South America or Mexico it would mean peace for the world for the next hundred years. It would mean that Germany and Britain would cease to be rivals and between them they could assure the peace of the entire world.

## CANADA'S ENORMOUS FISHING GROUNDS

Are the Greatest Cheap Food Asset in the Whole World

Counting the water areas within, and adjacent to, her own shores, Canada possesses the most extensive and abundant fisheries in the world, and no other country can claim to have within its territorial waters the vast amount of food fishes to be found upon the fishing grounds of the Dominion. Fringing the Atlantic, the coast line extends from Grand Manan, in the Bay of Fundy, to Labrador, on the Straits of Belle Isle—an approximate shore measurement, counting bays and indentations, of some 5,500 miles. Upon the Pacific coast, the coast line, owing to its irregular nature and the number of coves and islands, measures over 7,000 miles, while the Great Lakes, rivers, and lesser bodies of fresh water, aggregate a total area of 220,000 square miles. Without counting the fishing "banks" which lie outside the territorial limits, all of the great mileage mentioned can be called "fishing waters," as, with the numerous harbors, bays, coves, straits and islands on both the Atlantic and Pacific coasts, the inshore areas are favorite spawning grounds for fish and incidentally well sheltered and easily accessible for the fishermen pursuing their vocation in the vicinity.

In addition to the territorial waters, Canada has the most of the great fishing banks adjacent to her coasts, and upon these great areas of shoal water lying from 10 to 150 miles offshore, Canadian fishermen reap a rich harvest from the vast schools of cod, haddock, halibut, hake, cusk, and pollock which feed upon these banks in their unknown migrations. The quality of the fish is of a very high class owing to the low temperature of the water caused by the Arctic currents on both sea coasts, and the frigid origin of the streams flowing into the inland rivers and lakes.—Canadian Fisherman.

### Should Govt. Provide Work?

Ottawa, April 30.—John H. Burnham, M. P. of Peterboro, believes in government action to deal with the conditions of employment. He has given notice of resolution "that in the opinion of this house the government should be empowered to restrict immigration, acquire land, expend money, and generally to take such measures as will provide work and wages for the unemployed, to the end that recurring periods of unemployment and undeserved destitution may cease, and that the true functions of the government be further realized."

### AN IMPERIAL PRAYER

The following poem was clipped from the Winnipeg Weekly Telegram. Mr. Scott is well known to many in this city, having supplied the Presbyterian church at Terrace and preached a couple of times in Prince Rupert. He appears to be a very promising young man.

God Save Our Gracious King:  
This is the prayer we bring  
To Him who set the King  
Upon his throne.  
Turn, King of Kings, Thy face:  
Grant unto him Thy grace,  
That in his rule we trace  
Marks of Thine own.

In majesty and might  
Grant that his reign be bright,  
And only to the right  
He ever cling.  
So that his people may  
Still with assurance say  
Thou hearest when they pray  
God Save the King.

Echoes from strand to strand,  
God save our Motherland;  
Still make us strong to stand,  
Cry we again.  
Thy will for us make known;  
Still be Thy favor shown:  
One Crown, one King, one Throne,  
Let us retain.

Thou God of Battles great,  
In all affairs of state  
We on Thy counsels wait;  
Our faith increase.  
Let never bloody war  
Rent Empire near and far;  
O keep us as we are,  
With all at peace.

O, Saviour of the world,  
Let sin without be hurled;  
Love's banner be unfurled  
The whole world o'er.  
Then shall an anthem ring,  
As all the nations sing,  
Love's advent welcoming  
From shore to shore.

For King and Empire we  
Humbly petition Thee,  
That Thou their guardian be,  
Lest they should fall.  
Our hopes on Thee depend;  
Unto our prayers attend,  
As say we in the end  
God Save Us All.

WILLIAM SCOTT.  
Prince Rupert, British Columbia.

### Sold Government Timber

A deal in standing timber in the neighborhood of Fort George has just been carried out by the government sale to H. N. Sereth, of the Riverside Lumber company of Calgary, of 32,000,000 feet of lumber at the following prices: Douglas fir, \$2.54 per 1,000 feet; spruce, \$1.07 per 1,000 feet; and cedar, \$1.07 per 1,000 feet. The total value of the timber reaches \$37,000, the purchasers to cut this within the next two or three years and leave the ground as nearly as possible ready for settlers, with the brush burned off.

## WOMAN WAS SOLD AT THE AGE OF THREE YEARS

AMAZING EVIDENCE GIVEN BY CHINESE WIFE IN CRIMINAL COURT AT VANCOUVER

Vancouver, April 30.—Sold into servitude when a child of three by her mother in order to pay her father's funeral expenses, Mrs. Wong Lai, a young Chinese who, according to Chinese standards, is a very pretty young woman, gave some amazing evidence in the Vancouver county criminal court. The woman, who had been erroneously described as a Chinese heiress, was principal witness in the prosecution of Wong Chong, Lee Kwong Yip and Lew Chew on a charge of abducting her from the custody of her husband, Wong Lai.

In answer to the question of Crown Prosecutor O'Brien, she told Judge McInnes that Wong Chong had taken her away in a taxicab from a restaurant at

which she worked at a waitress, and after giving her some champagne, had taken her, attired as a boy, to Port Moody and thence to Edmonton. While in Edmonton she said she had lived an immoral life for four days, the proceeds of which had gone to Wong Chong.

The more amazing part of her story came in answer to the questions of Mr. Charles Macdonald, who appeared for the defence. She told of having been sold as a child of three to a woman who later sold her at the age of fifteen to be married. After the death of her husband and one of her children she was taken by relatives and sold to a dreadful life with other women in a resort in China. It was here, she said, she met her present husband, Wong Lai, who wanted

her to be his third wife, and bought her for a sum of \$280 from the keeper of the resort.

"How many children and wives had Wong Lai then?" asked Mr. Macdonald.

"Two wives. One had five children and the other one child. He took me to his house and I lived with his other wives," said the witness.

Shortly afterwards, she said Wong Lai brought her to Canada, paying the poll tax for her. She was detained at the immigration shed on landing, and was only allowed to go on a form of marriage being undergone with Wong Lai. After her marriage, she said, Wong Lai took her to Chinatown, where she worked as a waitress and as dealer of a fan game. In addition, her husband made her earn money by immoral means. On a trip which her husband took her to visit the Chinese quarters in Kamloops, Ashcroft and Penticton he made \$1,500 out of her earnings.

"He told me he only got \$200, but he used to keep a book, and I got hold of the book and found that it was \$1,500," she said.

The money thus earned, she said, Wong Lai kept for himself, and never gave her any. In addition he used to beat her and use bad language and threats to her, so that she was afraid.

"I wanted to get away. I don't like him," she told counsel. Chong, she said, had told her that he knew of an uncle in Edmonton to whom he would take her. Mr. Macdonald produced a certificate of marriage, which purported to show that the woman and Wong Chong had gone through the form of marriage at Edmonton. The marriage purported to have been performed by a white clergyman, in the presence of two white witnesses, but the witness said she did not understand what it was about.

At the conclusion of the crown's case, Judge McInnes discharged Lee Kwong Yip from custody on the ground that there was no evidence against him. The defence of the other two men is proceeding.

### World's Largest Elevator

Port Arthur, Ont., April 30.—The Port Arthur elevator now holds 8,300,000 bushels of grain, which is more than it or any other elevator in the world ever held. In the C. N. R. yard are 700 cars, for which there is not room in the elevator. Since September first last the Canadian Northern terminals here handled 8,000,000 bushels more than in the same period last year.

### Fisheries of Hudson Bay

Ottawa, April 30.—An investigation into the fisheries of Hudson bay is to be made by the department of marine and fisheries, and a schooner with a scientific party will leave Halifax shortly after the opening of navigation. Preliminary investigations indicate that the bay and strait are exceedingly productive of superior grades of fish.

Do not follow others, be with the leaders; invest in Port Edward before the industrial development.

ROYAL STANDARD "feels good" because it is  
sifted ever so fine at the mill, over and over again  
and finally passed through a silken screen emerg-  
ing "smooth as velvet," "fine as silk."

ROYAL STANDARD will impart to scones, cakes
