PRESIDENT OF MEXICO SHIES AT PEACE PROPOSALS

CHANCE TO MAKE RUPERT LANDING STATION FOR WORLD'S AVIATION RACE-GRIM TRAGEDY

MAKE PRINCE RUPERT STATION FOR WORLD AVIATION RACE

COULD GIVE CITY LOTS OF WORLD WIDE ADVERTISING AT SMALL COST—BOARD OF TRADE SHOULD LOOK IT UP

The "Around the World by Air" feat which will be attempted from the Panama exhibition next year is just now attracting the attention of many of the cities of the continent, with a view to making it an attractive advertisement in other cities besides San Francisco.

The greatest race the world has ever seen will be attempted by many airships. The aviators necessarily make many stops during their trip for rest and for refueling. These stops will be arranged at stations from which the ship in the race must receive wire. A map showing the route and with all these stations marked will be made and will be of world wide circulation. Many cities are making efforts to be made one of these stations.

Why should Prince Rupert not be a station? The route for the race will probably be up the coast from Frisco to Alaska and across the Behring sea. Vancouver has been selected as one station and Sitka, Alaska, is another. Prince Rupert could be an intermediate station.

The requirements which the management insist on where a station is located is that a suitable landing stage be made and that fuel and other supplies shall be on hand for use of the machines if they require it. The cost of such an outfit would be very small.

The board of trade should take this up with the race managers and get Prince Rupert on the map.

"THIS SCENE AND THAT"

President Wilson looks beyond the cheering thousands who watch the troops depart, and he sees another picture.

WASHINGTON EXPECTS PEACE ENVOYS REPORTED PROGRESS

CARRANZA CONTINUES HOSTILITIES WITH HUERTA—VERY DOUBTFUL IF MEDIATORS CAN SETTLE CIVIL FIGHT

(Special to The Daily News)

Washington, May 2.—Assurances of peace are steady with an abatement of war talk. The dominant feature of the Mexican situation is the attention centred on the work of the South American envoys, who reported progress and avoidance of any deadlock between the parties. The failure of Carranza so far to accept the proposal for suspension of hostilities with Huerta has caused a continued doubt for the outlook for broadening the scope of the mediators in the work of settling the entire Mexican situation.

There is a report that Dr. Ryan of the American service was shot as a spy by the Mexican federales. This has caused much apprehension. Reassurances have come direct from Huerta.

HUERTA REJECTS PROPOSAL TO SEND COMMISSION TO U. S.

ALL CARGOES FROM UNITED STATES WILL BE CONFISCATED—MEXICAN PORTS CLOSED TO U. S. STEAMERS—

(Special to The Daily News)

Mexico City, May 2.—A proposition from the foreign ministers to send an official commission to Washington to endeavor to arrange the differences between the United States and Mexico has been rejected by the cabinet. President Huerta has issued an order prohibiting commerce with the United States and permitting commissioners of ports to reject the entrance of American steamers. All cargoes, arriving from the United States will be confiscated by the government. Vera Cruz custom house has been declared closed to international traffic.

GLORIOUS PROGRAM FOR VICTORIA DAY

Drilling Contest Will Be One of the Attractive Features

(Omineca Herald.)

The sports committee in connection with the celebration in Hazelton on May 24 and 25 have drawn up their preliminary program of sports. This list will be augmented as time goes on and at a later date the prizes to be announced, but it may be said, however, that the prizes are substantial and will not only attract the best athletes in the district.

Among the features will be the drilling contest, the first to be put on in the northern interior. This contest has always been most exciting, fascinating and thrilling. There are a lot of good rock men here and there would be at least two or three entered.

The other sports are: Pack race, carrying 50 pounds; 100-yard dash, 220-yard dash, three-mile race, backward race 50 yards, tug of war, horse race, Indian horse race, run hop-step jump, run and broad jump, standing broad jump, standing long jump, log chopping contest. In addition there will be a dance for the children, which will be announced later.

Word has been received from Hazelton that the ball team from that town will come here on May 25 and the boys on the coast are now arranging for a special game to bring a big crowd with them. The ball game will take place Monday afternoon.

Monday evening a dance will be given and special music is being arranged for.

LOCAL IMPROVEMENT TAXES DUE MAY 31

Tax Notices Sent Out—This Year's Levy Is About \$220,000

For the past two days the local post office has had a heavy batch of mail matter from the city hall. In addition to the usual monthly accounts sent out to all residents for garbage, telephone and light, there was an additional bundle carrying the tax notices for local improvements. These tax bills are due on May 31. There is no discount but a penalty of 12 per cent has been imposed if they are not paid when due. This 12 per cent is made under a new act passed by the Bowser-McBride government and the property owners just now realize its importance.

"Back in the eastern provinces," remarked an old Ontario boy, "the governments are trying to stamp out usury, but out here in British Columbia the government itself practises usury."

The excuse given for imposing 12 per cent interest is to make the property holders come through quickly. Whether it will have that effect remains to be seen.

There is \$29,000 outstanding on local improvement taxes from previous years. This year's levy amounts to \$220,000, so that the city has quite a neat sum coming in from this source.

In some instances the rate this year is higher than last year owing to the rate of interest on some of the debentures having been increased from 5 per cent to 6 per cent.

GAVE FAREWELL DANCE FOR MISS MACKENZIE

A very pleasant social dance was given in the Catholic hall last evening as a farewell party to Miss MacKenzie upon the occasion of her departure for Scotland. Those present were: Mr. and Mrs. H. M. Dunn, Dr. and Mrs. L. W. Kergin, Mr. and Mrs. Murray McPhail, Mrs. J. J. Chisholm, Mrs. Haslett, Misses Taylor, E. Taylor, Johnson, Irwin, Morrissey, Jamieson, King, McNair, Fisher, Astori, Mackenzie and Sawle. Messrs. Russell, Johns, R. Rogers, Gil-lingham, H. Rogers, A. McMaster, D. McMaster, Moore, Kissick, Gidley, Little, Price, Ives, Miller, Malcolm, Linnell, Noble, and Scott.

DOG ATE FLESH OF MASTER'S DEAD BODY

Horrible Tragedy of Northern Trail Discovered by Partner of Dead Man

News of a grim tragedy of the north country has been reported to the provincial authorities here. It is of the lonely death of a prospector and of a horrible sequence.

On April 3, W. T. Mazanero, a colored miner who is well known in the north country, arrived in Allin in an insane condition of mind. He reported that he had a few days before found his partner dead on the trail—murdered by Indians. Mazanero had his feet frozen and told several stories of the tragedy. The following day the police found the body of the partner, whose name was J. E. Simon, also a negro. The police, after thoroughly investigating the case, concluded that Simon had died of heart failure. He had been troubled with his heart. On February 7 he had left for his claim on Willow creek, remarking that he hoped he would get over the divide all right, as his heart was bad. Apparently he was stooping down to fix a broken snowshoe when he was overcome. The weather was warm, as he had put his toe in his pocket.

The horrible part of the tragedy was that his collie dog stayed by the body and had eaten a large part of it when the remains were discovered by the partner, about a month later. The horror of it affected the mind of Mazanero.

LOCAL RAILWAY MEN ORGANIZE ASSOCIATION

An enthusiastic meeting was held in Beach Place hall last evening for the purpose of reorganizing the United Railway Employees' association. There was a good attendance and the following officers were elected for the ensuing year: President, Mr. Walter McLeod; vice-presidents, Messrs. T. McKinnon and L. Bell; secretary, Mr. H. Mainprize; treasurer, Mr. J. Ross. Negotiations were set on foot with regard to securing a centrally located hall that would be suitable for the carrying out of the purposes which the committee have in view, viz., the establishment of a gymnasium, reading room, etc.

Wants to Walk Around World

Ed. N. Clark, the magazine writer and musher, now wants to walk around the world, starting and making his finishing point at Prince Rupert. He will ask the city council to fit him out and will advertise the city on his trip. He will start at Prince Rupert and remain at the Panama exhibition for the summer advertising as a representative from Prince Rupert. He is to make the world tour in three years. The city council will have the offer placed before them Monday.

Civilian Rifles to Shoot

The Civilian Rifle association will hold their first shoot of the season tomorrow, leaving the government wharf at 10 a. m. The officers of the association are as follows: D. C. Stuart, president; W. J. Green, vice-president; Don Brown, treasurer; Guy Cameron, secretary. This rifle corps has made some excellent scores in the past, and with their eagerness for practice, should be able very soon to compete with the best in the land.

Misread Code Signal

(Special to The Daily News)

Manila, May 2.—The Pacific Mailer Siberia arrived here today. The captain reports an uneventful voyage from Nagasaki to Manila. He expresses the belief that the reports of a vessel in distress off the coast of Formosa sending calls for assistance, arose from a code signal of the Persia, "M. B. S." being mistaken for "S. O. S."

The Empress Theatre

...TO-NIGHT...

Comedy—"A STAGE DOOR FLIRTATION"—A new Lubin release. It's good.

"AN UNINTENTIONAL HERO"—A late release. Very funny.

Scenario—"PATHE'S WEEKLY"—An excellent number.

Drama—"THE CHAIN OF HONOR"—Two parts—High-class detective picture.

"GENTLEMAN JOE"—A drama that will interest.

A special feature of the evening will be the musical program by the new Empress Orchestra (Mr. P. Howett, leader).

MATINEE SATURDAY AFTERNOON AT 3 O'CLOCK

CAPTAIN OF NANTUCKET HAS LICENSE REVOKED

Berry's Vessel Ramm'd and Sank Old Dominion Liner Monroe

Washington, May 1.—Captain Osmyrn Berry of the Merchants' & Miners' packet Nantucket, which ramm'd and sank the Old Dominion liner Monroe, with a loss of 41 lives, off the Virginia capes in January, has been found guilty of negligence and his license has been revoked.

A board of steamboat inspectors at Philadelphia divided the responsibility for the disaster between Captain Berry and Captain Johnson of the Monroe. On appeal to Captain Seeley, the inspector commanding, Captain Berry has been held guilty alone.

Inspecting Bridge at Hazelton

A. A. Cox, provincial architect, accompanied by Mr. Griffiths, deputy minister of public works, came in on the Prince George this morning and left for the interior on the morning train. They were accompanied by Wm. Manson, M. P. P. The party will go to New Hazelton, where they will inspect the high level bridge over the Bulkley with a view to having it connected up by roads. The government may take over the bridge. Messrs. Griffiths and Cox will return to Rupert and look over the proposed work here.

CONSTRUCTING PONTOONS INTERESTING WORK

First of Twelve Sections Now Being Built at Big Dry Dock Site

The frame work of the first of the dozen pontoons for the big floating dry dock is now being constructed by Mr. Crowell on the dry dock site. The construction of these pontoons is a splendid piece of work and very interesting. They are made chiefly British Columbia fir. The calking is made with white pine and the outer cashings are treated with several coats of tar, sheet iron, paper and creosoted boards. They will be invulnerable to teredoos. The pontoons are 135 feet long, which makes the width of the dock when they are in position for lifting a ship. Every piece of timber used in the construction of the frame work has to be cut from a pattern and made to fit within an eighth of an inch.

Ed. N. Clark, the journalistic musher, who has an interesting article in this issue on the ethics of walking, is spending a few days in the city prior to leaving for Spokane on the last leg of his trip from Spokane to Prince Rupert overland. Clark intends to go to Frisco as soon as he returns to get some local color at the big fair.

TERRIBLE PLIGHT OF FOREIGNERS IMPRISONED IN MEXICAN TOWN OF CORBODA

Meichling went to the jail in Corboda on Sunday and talked to the prisoners. They begged him to make their plight known to Consul Canada and Rear-Admiral Fletcher in an endeavor to secure their release. Among the prisoners is a young American woman with a 4-months-old infant. There are several other women and children, and the total number of all nationalities, according to Meichling, is 85.

One of the imprisoned men is Supt. Emery of the Vista Hermosa sugar plantation of Vera Cruz state, who entertained John Lind, President Wilson's representative, a few months ago.

Meichling says there are 87 persons, chiefly Americans, held at Tuxtepec, state of Vera Cruz, from surrounding plantations, and that Consular Agent White is in jail at El Hulo, near Tuxtepec.

"U.S. WAR-SHIP 'UTAH'."

"U.S. WAR-SHIP 'FLORIDA'."

Most of the casualties among the United States troops were attached to these two vessels. Private John McMillan, of the United States Marines, whose home is in Mayfield, Manitoba, was attached to the Florida.

ETHICS ON WALKING

There are some who want the sea
And some who want the pine,
But pine and sea are both for me
Since wander-thirst is mine.
The long-trail call is on me
Wherever I may be;
I'm blessed or cursed with the wander-thirst
And so the road for me.

The main requirements of a successful walker are a sound pair of legs, a stout heart undiminished by any setbacks or difficulties that may cross his path, and the ability to forego food and often water for unlimited periods. Regarding the latter, on my recent walk just terminated I was on several occasions from 15 to 24 hours without a meal, not happening to strike a "live" one as the dinner or supper gong went, and most of the camps west of Fort George being now shut down on completion of construction, it often occurred that I found a weary trudge of 40 miles between eats. But that's all in the game where the going's rough, and it's easier to screw up the belt and shut off the grub than run out of tobacco, which has happened me more than once on this and previous trips. When the pipe or the matches give out on a lonesome trail—well, that sure enough Hades from my point of view.

Walking exercises practically all the muscles of the human frame, and had Ponce de Leon but realized its value he would never have wasted time and thought searching for the spring of eternal youth. I feel younger today than previous to my first long hike across Canada five back, and while on a trip my appetite is prodigious—I eat like a horse as long as anything's in sight and the nightmare of indigestion has no terrors for me.

My stride is a fairly long one and gets me over the ground at a steady four-mile gait, day in and day out, over mountain and valley and plain, and never varies as long as the going's good. But hopping unballasted ties like a cat on hot bricks tires more quickly and cuts the pace to three miles an hour, often with sore and bleeding feet at that, the entire strain coming on the ball of the foot with instep and heel resting on air most of the time.

All sorts and conditions of men are met up with on the long trail and funny experiences are oftener the rule than the exception. For instance, take the case of the dour old Scotsman encountered at one of the Cariboo roadhouses around midnight after a day of plowing

through six-inch mud. There he sat in a stiff-backed chair pulling at an empty pipe in front of an equally empty stove. The stage had broken down ten miles back and wasn't expected for another hour or two, but notwithstanding my entreaties to be allowed to shed my soaking boots and obtain some warmth for a while, that economical Scot could not be persuaded to fire up his old stove till the stage passengers came in, and I dragged my freezing limbs another three miles to more congenial shelter. Or again, the case of the sporting Dago section hand on the G. T. grade who took me enthusiastically to his bosom directly he heard the stunt, fed me and sent me off with a note to his brother farther down the line written in Italian. Being unable to decipher this epistle and fearing it might be a message from the Mafia ordering my throat cut, I refrained from delivering it, but getting it translated later by another Dago found to my sorrow it had been written in good faith, as follows: "Caro Fratello—A compagno—questo. 3 o 4 miglie sono vento." (Dear Brother: A friend—treat him good. Take him three or four miles on your handcar.) Oh, yes, many quaint experiences are met up with on the road.

ED. N. CLARK.
