CANADA GETS JUNIOR PARTNERSHIP IN A COMPANY THAT CANNOT PAY ITS DEBTS—THE CANADIAN PEOPLE WILL BE CALLED ON TO MEET ITS OBLIGATIONS

The following editorial from the Toronto Globe gives some interesting facts and figures on the C. N. R. deal:
In William's "Laurier and the Liberal Party," Vol. I, page 398, it is stated that "sixty-five millions of stock were issued during the progress of construction of the C. P. R. This realized only \$10,000,000, and of this amount \$5,000,000 were used to pay and create dividends. The ordinary stock was issued in three series. The first issue was for \$5,000,000 at par to the original shareholders. The next was for \$20,000,000. This was issued at 25 cents on the dollar, and this realized only \$5,000,000 of general capital. The third, of \$40,000,000, issued at 52 1/2 cents, realized \$21,000,000."
Against this method of financing, and especially against the payment of guaranteed dividends on stock that had been issued at low prices, Mr. Blake declared in parliament, declar-

EXHIBITION HALL MIGHT SPOIL VIEW

General Manager Donaldson Objects to Building on Acropolis Hill

According to a communication received by the city solicitor, the G. T. P. Development company is a little doubtful about the recreation grounds and exhibition hall being put on Acropolis hill. The communication was read at the council meeting last evening. It was from Vice-president and General Manager Donaldson, who drew attention to the fact that in a year or two Prince Rupert will be visited by many tourists and Acropolis hill affords a magnificent view which must not be impaired or obstructed. He also drew attention to the fact that the reservoir needed a railing to protect youngsters from drowning.
Ald. Morrissey said the agricultural hall would be an improvement to the view and wanted a reply sent to Mr. Donaldson disabusing his mind on that point.
A copy of the plans will be sent to him. The city engineer said arrangements are being made for a railing around the reservoir.
The communication was referred to the board of works.

Only 750 Horse Power

"A certain alderman," as he is popularly known at election time, is credited with making the statement that recent engineering observations have proved that it will be impossible to develop more than 750 h. p. for twelve months of the year at Woodworth lake. This means that the city is spending a quarter of a million dollars on a plant that the city will outgrow in two or three years at the most. The plant will then go to the junk heap and the city will have to get down on its knees to the Prince Rupert Hydro-Electric Co. or to the provincial government and beg for the Wark channel power. If the Wark channel power is secured it means the expenditure of another colossal sum. In the meantime the Woodworth lake expenditure goes merrily on, and the property owners will pay.

PRESIDENT WILSON ON PEACE PROPOSALS

Believes That Lasting Peace Depends on Elimination of Huerta and Fair Election

(Special to The Daily News)
Washington, May 19.—President Wilson told the American representatives to the mediation conference to place themselves in a receptive mood and await the proposals of the three South American mediators. At the same time he outlined the peace policy, which seemed to him to be conditioned on the elimination of Huerta and the establishment of a strong provisional government which would conduct an election by giving fair treatment to all factions.

LUMBER AND NAIL TENDERS HELD OVER

The city clerk reported to the council last evening several tenders for nails and lumber had been received in reply to an advertisement.
Ald. Dybhavn suggested that as the finance committee were not sure of getting the money that the tenders be sealed up and laid on the table.
Ald. Montgomery thought this was not fair to the tenderers, who had enclosed certified cheques. It might keep them tied up for a month. He suggested the tenders with the cheques be returned.
It was finally decided to hold the tenders for a week before opening.

THE FORTUNE HUNTER MAKES A BIG HIT AT THE EMPRESS THEATRE

The Royal players will repeat the greatest success that has ever been presented in Prince Rupert, though the Empress has in the past always maintained a standard, wherein only the best there is in the theatrical line is handled, and the Royal players have established themselves as none other has before. The Fortune Hunter last night appealed to everyone, and the most fastidious and critical acknowledged the fact that we have truly a metropolitan company with us.
Miss Elliott charmed her audience again last night, and in the discontented, uneducated girl of the country town, dissatisfied with her lot, excelled anything that has been witnessed in Rupert, and the house went mad when she sang the song written by Mr. Royal, "Prince Rupert You are a Grand Old Town."
Mr. Royal, as the luckless fortune hunter, who would murder a Chinaman for a nickel, caught his audience and proved what has been said of him, that he is the best natural comedian on the coast.

Surplus \$145,000

The treasurer's statement for the year 1913 was handed to the city council last evening. It showed a surplus of \$145,394.34 for the year.

Announcement

Payment of accounts due Scott, Froud & Co. can be made at Peck's shoe store up to May 31, on or before which date all accounts are expected to be paid. 113-16

Boys

Don't miss your opportunity in getting a bargain suit at Jabour Bros. Prices from \$2.50 to \$5.

IMMIGRATION AUTHORITIES WILL NOT LET HINDUS LAND

WITH FIVE HUNDRED TO ARRIVE IN VICTORIA FRIDAY—MAKING TEST OF NEW LAW—AUTHORITIES INSISTENT

(Special to The Daily News)
Ottawa, May 19.—Word has been received that the steamer Yamato Maru, which sailed recently from Shanghai with five hundred Hindus, is expected to arrive at Victoria on Friday next. Orders have been sent to the immigration authorities at Victoria not to allow the Hindus to land, or to deport them from British Columbia. The immigration officials believe they can stop their entry on two grounds. They will evoke the order-in-council passed April 1, and if the Hindus evade this by proving that they are not artisans or laborers, the authorities will use the law prohibiting the entrance of Orientals except by direct passage from the country of their nativity. The steamer, it is claimed, did not sail from India but from Shanghai.

WANT WATER SERVICE BUT WILL NOT PAY

Council Decides to Put in Service Anyway and Trust to Luck

A report from the board of works to the city council last evening was to the effect that petitions for temporary water services had been received from residents of Summit avenue and Eleventh avenue. The council agreed to put in the service if the petitioners would make application and pay in \$10, as the city did not have the money. Only one responded with the ten.
Ald. Montgomery wanted the committee to bring in a report recommending a different system.
Ald. Morrissey said the service ought to be put in anyway. These people wanted the water and ought to have it. The residents of section two were not asked to pay a fee to get their service.
Ald. Dybhavn said the section two main was altogether a different proposition. It was a permanent main, while these people were asking for a temporary service. If they want the water they ought to come through with the money. It was a wrong principle to take this money from the general funds when the people interested won't pay up.
Ald. Morrissey and Montgomery moved the services be put in anyway, and the motion passed.

WEST HOLME OPERA HOUSE

One week's engagement
Commencing Wednesday, May 20

MRS. M LESTER
And
MR. CHAS. RANSFORD

Professional Expert Dancers, in
The Tango
and Other New Dances.
New Dances shown Nightly

FINE
Moving Pictures
With Special Features.

Admission: — 15c and 25c
Children: 10c

TWO GREAT ATTRACTIONS WEST HOLME THIS WEEK

First of all the tango dancers will open Wednesday next for a week's engagement at the Westholme, during which the tango and other dances will be performed. A new dance will be shown every night. Mrs. M. Lester and her dancing partner Mr. Chas. Ransford are expert dancing teachers with a splendid record of long continued and invariable success, and their performance of the tango must not be confounded with the amateur attempts of semi-vaudeville performers.

The second attraction opens Friday in connection with the tango dancing. This is the first instalment of "Our Mutual Girl," a serial story of a handsome young country girl who visits her rich aunt in New York City, and whose experiences in that great city are graphically shown in pictures of unusual excellence.

WILL BUILD SEWER ON FIRST AVENUE

The board of works recommended the city council to build the temporary sewer applied for on First avenue by making a 6-inch wooden pipe extension to Third avenue. It will cost \$2,600 and is to be paid for by one-year debentures which Messrs. Lynch and Besner are to buy at par.

Don't forget that you can get a ladies' house dress at Jabour Bros. for \$1.00.

WANTS SIXTY ROOM HOTELS BEFORE NEW LICENSE GIVEN

ALDERMAN PROPOSES REVISION OF LIQUOR LICENSE BYLAW REGULATING HOTEL ACCOMMODATION—QUESTION LAID OVER FOR A WEEK

How many rooms must a hotel have? This was the most important question before the city council last evening, and it is not settled yet. There seems to be a lot of hesitation on the question and it is hard guessing which way the cat will jump so as to be on the right side.
A week ago Ald. McClymont gave notice of motion to revise the bylaw increasing the number of rooms an hotel must have in order to get a license. The city is big enough for another license now and one or two people have a new hotel in sight.
The motion was put up at the meeting last night. Ald. Morrissey seconded it. The change suggested was an increase from the present requirement of 35 rooms to 60 rooms.
Ald. Dybhavn said the question needed consideration and asked that it remain over for a week.
Ald. Montgomery was opposed. He wanted to throw the clause out altogether. It was a tendency towards monopoly. If we allow drink to be sold let everybody sell it. We have no more right to create a monopoly in drink than we have in groceries.
Ald. Basso-Bert thought that in view of our small population the increase to a 60 room hotel is premature.
Ald. Morrissey said that the city is now entitled to one or two more hotels. If these are disposed of without increasing the accommodation what are we going to do to take care of the travelling public? The G. T. P. did not think it premature when they are putting up a 15 storey hotel. There are now at least three hotels with 60 rooms in the city.
Ald. McClymont said we need bedrooms rather than saloons.
Ald. Maitland thought the population was too small to demand a 60 room hotel. He favored compelling a fireproof building.
Ald. Dybhavn moved in amendment that the question be tabled for a week. Ald. Kerr seconded it. Ald. Montgomery called for a vote and the amendment carried.

C. N. R. DEBATE AT WHITE HEAT HIGH COST MEANS HIGH RATES

ESTIMATED ROAD WILL COST \$400,000,000—THIS WILL PREVENT LOWERING OF RATES—WHITE CLAIMS AGREEMENT IS BEST EVER INVENTED

(Special to The Daily News)
Ottawa, May 19.—The chief speakers in the Canadian Northern debate yesterday were White and F. B. Carvell.
Mr. Carvell declared that by the time the C. N. R. system was completed the securities against the line would total \$400,000,000, which makes it impossible that any reduction in the rates could be brought about. Nothing should be done until a thorough investigation was made of the operations of Mackenzie and Mann.
Mr. White maintained that the agreement made by the government was the best attempt ever made by any government. He said the agreement meant that if Mackenzie & Mann should come back to parliament for more aid for the road the government would secure control.

CALGARY OIL BOOM IS HELPING BUSINESS

(Special to The Daily News)

Calgary, May 19.—There is no abatement in the oil excitement here. The Denman well gushes at least once daily with oily substance that burns. When the drill cut into the bottom of the McDougall-Segur Mammoth well it opened a pocket of wet gas. Practically all the other wells are showing up well, although none have been drilled deep enough to show anything material.
The city is full of strongers and business is feeling the effects of loosening money and the restoration of confidence.

Surplus \$145,000

The treasurer's statement for the year 1913 was handed to the city council last evening. It showed a surplus of \$145,394.34 for the year.

DAILY EDITION

Tuesday, May 19, 1914

The "Conservative papers are loud in their praise of Borden's C. N. R. policy. They tell the people something had to be done to save the credit of Canada. They do not tell, however, that the same manipulators are still in charge of the road and that it may again be put in a worse condition than it is at present.

The C. N. R. will not this year earn half its fixed charges and the only way the road can meet those charges is by borrowed money.

The various governments guaranteeing C. N. R. issues

may as well dig down, because that is what they will have to do unless the Dominion government takes over the whole burden.

Last year Mr. Horne-Payne, who is closely associated with the Canadian Northern, did Canadian municipal securities a great deal of harm in the London market, yet there cannot be the slightest doubt that the Canadian Northern has done Canada more injury in the past few months than all other causes combined.

In fact, looking over the situation in the light of the information now available, it seems certain that had it not been for the manipulations of the Mackenzie-Mann people and the consequent drain upon the resources of the country, we would not now be suffering from the depression generally existing and our credit would not have received the black eye which it did receive in the London market.

What do the people think of the financial joy riding of Bowser and McBride? A pretty bill will be presented for payment one of these days.

Don't forget that the local member, Wm. Manson, is one of the men who is responsible for the pledging of the credit of the province to the extent

of approximately \$200,000,000 to assist railway enterprises owned by private individuals. Don't forget that our local member supported the McBride administration in the last guarantee of the Canadian Northern issues in spite of the fact that the Canadian Northern people were not in a position to complete their transcontinental system without further help from the Dominion government.

Don't forget that in spite of the fact that the provincial government refused to include in the incorporation charter many things of importance asked for by the citizens, and had already given away the rights of the city, our local member, Wm. Manson, stood on the floor of the house and said we ought to be satisfied.

SOCIAL WASHINGTON IS IN A FERMENT

President's Daughter Sings for a Graphophone Company

Washington, May 18.—Social and official Washington is gossiping and fuming over an advertisement in all the Washington newspapers announcing that "Miss Margaret Woodrow Wilson, daughter of the president," had sung exclusively for a graphophone company and that three of the records are now on sale at from \$1 to \$1.50.

Social Washington is dividing into two camps on the subject. One defends Miss Wilson and holds there is no impropriety in turning an honest penny by selling her voice to the canned music company. Others, and these are the older residents, maintain her action is unprecedented—a charge that does not stir the Wilson family greatly—and that it is in bad taste.

SURVEYORS LEAVE WITH CREWS FOR SEASON'S WORK

The local land surveyors have all their crews made up for the season's work in the field and a start will be made during the coming week. Each surveyor will have only one party at work this year owing to decreased appropriations for surveys.

C. DeB. Green, B. C. L. S., left with his survey party for Skidegate on the last boat. Mr. Green will be engaged surveying in the vicinity of Lawn Hill and Hydah this summer. Most of last year's field crew have been re-engaged. J. C. A. Long, B. C. L. S., will be engaged this season in the vicinity of Yakoun lake, where a party left to prepare camp this week. Mr. Long has been engaged during the week on private work on the west side of the inlet, opposite old Massett.

Fred Nash, B. C. L. S., leaves on Tuesday for Queen Charlotte City. Mr. Nash's work this year will be on townships four and five, at the south end of Graham island. D. M. McKay and H. B. Lehrman, who were with Mr. Nash last year as assistant surveyor and chainman respectively, will resume the same positions. G. Y. Baker will look after the culinary end.

Notice

Storage belonging to Joe Jorgenson left in the Houston Cafe will be sold by private sale after 30 days if not settled for and removed.

Henry C. Evans, pioneer piano tuner, now in your city. Phone orders received at No. 351 or No. 146.

FOURTEENTH WHITE HOUSE BRIDE IN HER WEDDING DRESS

Beautiful gown and trimmings worn by Mrs. McAdoo, formerly Eleanor Wilson, second daughter of President Wilson, to be married at the United States Executive Mansion.

Table with 3 columns: Name, Score, and Range. Includes 'Holland Won Spoon' and 'Southbound' sections.

CARRIES MATERIAL FOR TWO ALASKA CHURCHES

Material for the construction of two churches in the Arctic, part of the equipment for an Eskimo gymnasium in Seward peninsula, tons of soap, sugar, coal, food supplies, oil, coal stoves, ammunition, knockdown chairs, flour and other variegated supplies will be carried north by the four-masted schooner C. S. Holmes, owned and commanded by Capt. John S. Backland, Arctic trader and missionary. He expects to set sail May 20. The cargo now being loaded in Seattle aggregates nearly 1,400 tons.

A Pretty Bungle

Hon. Dr. Roche, minister of the interior, stated that the Indians still held title to the Kitsilano reserve and that the Dominion had not yet given its consent to the transaction between the band and the province. This is the reserve for which the province paid something like \$300,000—\$80,000 of which went to two friends of the attorney-general who negotiated the deal with the Indians.

For Sale

Fishing boat 41 feet long, 12 feet 7 inches broad, 3 feet 9 inches in depth, equipped with 30-h. p. 4-cycle Canutan Fairbanks-Morse marine engine. Price \$1,500. Apply Akerberg, Thomson & Co., Prince Rupert, or A. Bailey, Inverness Canada.

HOW MACKENZIE & MANN WORKED BORDEN GOVT.

(Continued from Page 1)

and in turning over \$40,000,000 of the stock to the government and submitting to a reduction of the face value of the remainder of the stock to \$60,000,000 the C. N. R. magnates give that which cost nothing and is at the present time worth nothing, for the returns show that among the securities pledged for advances to the C. N. R. the common stock does not figure.

Will this alleged gift of \$40,000,000 in stock to the people of Canada in return for their continued financial backing ever have any value? The Canadian people, in cash subsidies, land grants, and bond obligations, have contributed or assumed obligations to contribute if necessary almost two hundred and fifty million dollars to the building of the road. What chance is there of dividends on the common stock? How great are the prior obligations before the common stock can rank for its share of the earnings. In an official statement issued by Mr. W. H. Moore, secretary of the company, it was stated that up to December 31, 1913, the C. N. R. had received the proceeds of \$131,322,000 of bonds guaranteed by the Dominion and the various provinces, and of bonds or other unguaranteed securities to the amount of \$134,123,000. In addition Mr. Moore stated that public cash subsidies totalling \$21,000,000 and \$17,000,000 obtained from land sales had been spent upon the work of construction.

No information is available as to whether the bonds and securities at present pledged for temporary loans are included in this total, but, assuming that they are, there remains to be added to the securities now outstanding \$45,000,000 of bonds to

be guaranteed by the Dominion government, \$11,000,000 to take up floating liabilities, \$27,000,000 for rolling stock, \$6,000,000 for Montreal terminals, and \$10,000,000 for betterments. Here is a total of \$99,000,000 that must be added to the \$265,000,000 of bonds or debenture stock already issued, making the capital on which interest has to be earned before anything is available for common stock dividends at least \$364,000,000. The average rate of interest on these securities will not be less than 4 1/4 per cent. and may even reach 4 1/2 per cent. Putting it at 4 1/4, it is evident that the C. N. R. will have to earn, above operating expenses, no less than \$45,470,000 a year to pay its fixed charges and prevent default on its bonds before anything is available for common stock dividends.

Can the C. N. R. within a measurable period after completion earn the huge interest bill it must pay to meet its obligations? If it does not, what will happen? This is a time for plain speaking. The Globe believes that years will elapse before the completion of the road before the C. N. R. can earn interest on its hugely-inflated bond and guaranteed stock issues, and that, knowing this to be so, the keen, far-seeing men who frame C. N. R. policies are deliberately engaged in tying the people of Canada to the C. N. R. by an alleged gift of \$40,000,000 of common stock so that the country will feel under obligation to meet the interest not only on the bonds guaranteed by the various governments, but on the unguaranteed bonds. In plain English, Canada becomes a junior partner in the enterprise, and as the junior partner has unlimited credit and cash, he will be called upon ere long to save the firm and prevent national discredit abroad.

The C. N. R. official statement of net earnings for the nine months of the fiscal year ending March 31 indicates that the road will come short millions of dollars this year of earning its fixed charges. The net earnings available for bond and debenture stock interest amount to \$3,920,000 for the nine months. Assuming that the road will earn proportionately as much in the three months that remain, its net will total \$5,227,000 for the year. The interest on the \$265,000,000 of bonds issued on December 31 at 4 1/4 per cent. will amount to \$11,260,000. It will thus be seen that the C. N. R. this year will

not earn half its fixed charges, and that over six million dollars will have to be borrowed to prevent default. This is the present condition of the business in which Mr. Borden proposes that Canada shall become a junior partner. How do the people like the prospect of getting in beneath this big deficit and toting it along for Mackenzie and Mann, not for one year, but probably for six or seven?

Delkathah News

(Queen Charlotte Islander.)

Fred Nash and his survey crew has been busy the past two days surveying a new street between Mr. Goulet's store and Mr. Lamb's shoe store, to extend from the bridge to the limits of Delkathah townsite. This is about the best laid out street on the island and has not a snag or stump in its entire 700 feet length. He has also surveyed C. M. Wilson's tideflat lease of some 54 acres, extending to the big span on the bridge, also subdivided the dyked land into quarter acre blocks. Chas. M. Wilson and a gang and team are working daily on his south dyke, making it twice the width that it was last year. Now that Mr. Thomas has plowed the land, quite a few remarked that they have not seen a prettier four-acre piece in Canada. Everything will be under crop before the end of the month. Mr. Wilson will rent quarter-acres, all plowed, for \$10, which should provide pleasant and profitable occupation for summer evenings to local residents.

Court of Revision June 4

The court of revision on the proposed local improvements which have been put through the preliminary formalities by the city council will be held in the city hall on June 4 at 10:30 a. m. The court will consist of the mayor, Ald. Dybhavn, McClymont, Morrissey and Basso-Bert.

Early Morning Sunlight

YOU will find your washing finished earlier—and better—and your work will become far easier by using Sunlight Soap, for it cleanses and purifies clothes more quickly and thoroughly than ordinary soap.

Sunlight is the most efficient Laundry Soap sold on the Canadian market today—It is pure beyond compare.

You try Sunlight Soap according to directions, and you'll see the early morning sunlight shining on a line of the whitest clothes that ever spoke of housewife's pride.

Sunlight Soap

5c. It's kind to the hands. Follow directions. Sold at all grocers. A \$5,000 guarantee says there is not a particle of adulterant or impurity in Sunlight Soap. 5c.

"Safety First" Gillette Safety Razor. Some men, sometimes, can board the flying street car or "monkey with the buzz-saw" in a mill or factory, and get away with it. But that's how accidents happen. Some men, sometimes, can shave with an open blade razor and avoid cutting themselves. But thousands agree that the chances are against it. THE Gillette Safety Razor was the practical forerunner of to-day's "Safety First" movement. What engineers are doing now to safeguard tools and transportation, King C. Gillette did ten years ago for that much used tool, the razor. And while he made the razor safe, he also made it keener, harder and handier than the old open blade. That thin, electrically tempered blade, gripped rigid in the adjustable holder, gives the cleanest, smoothest and quickest, as well as the safest shave man has ever enjoyed. Standard Sets cost \$5.00—Pocket Editions \$5.00 to \$6.00—Combination Sets \$6.50 up. At Hardware Dealers, Druggists and Jewelers. GILLETTE SAFETY RAZOR CO. OF CANADA LIMITED. Office & Factory: The New Gillette Building MONTREAL.

Wear them—Give them PERRIN'S GLOVES. For Holiday Social Affairs or for Seasonable Gifts. See that the well known trademarks as shown in cuts are on every glove you buy and you will then be sure of perfect Style, Fit and Finish. Best dealers everywhere sell the genuine PERRIN'S GLOVES.
