DISORDERLY OPPOSITION FORCES ADJOURNMENT HOUSE

FINAL VOTE ON THE HOME RULE BILL WILL TAKE PLACE NEXT TUESDAY—SPEAKER APPEALED TO BONAR LAW

London, May 21.—As the time for the final vote on the Irish home rule bill approaches the excitement in the house of commons becomes more and more intense. The bill has now entered upon its last stage, it is felt. In the house of commons will vote on the third reading of the bill on May 26. If it then passes it comes law irrespective of what the house of lords may do. Premier Asquith today declined to state the exact terms of the proposed amending bill which he pledged the government to produce. He reiterated that the government was prepared to consider sympathetically any suggestion which might be offered tending to render the proposals with regard to Ulster more acceptable. The sitting of the house had to be suspended till tomorrow in consequence of the persistent disorderliness of the opposition members. By their continued

uproar the opposition succeeded in forcing an adjournment. A motion to adjourn was made by the opposition. This was defeated by a vote of 286 to 176. Immediately after the vote, the Unionist party having been refused an adjournment, entered upon an uproar, loud and long-continued. The speaker, after the continuation of this uproar for some time, finally rose. He asked Bonar Law, the leader of the opposition, whether he assented to this demonstration which was interfering with the progress of business. Amid shouts from his supporters of "Don't answer," Mr. Law refused to reply to the speaker's question. The speaker thereupon said that if he declined to reply the sitting would be adjourned. He added there was nothing else to do since Mr. Law refused to assist in keeping order in the house.

WILL TRY TO OVERRIDE IMMIGRATION LAWS—THE AUTHORITIES PREPARED TO RESIST THEM—VANCOUVER OFFICIALS WILL DECIDE

(Special to The Daily News.)
Victoria, May 22.—With 375 East Indians on board bound for here from Hong Kong and points in Japan, the Komogata Maru arrived off William Head quarantine station last night. They

will be examined in quarantine by officials this morning, and subsequent to securing their release will be boarded at Victoria. The Vancouver immigration officials will decide whether they will be allowed to proceed to their destination at Vancouver.

FINDS ONLY ROMANCE IN THE MINING CAMPS

Dawson, May 20.—Bronzed like a mocha bean and with the grip of a grizzly, and his eye as clear as the sky, Robert Strang, old-time bard of the Klondike, recently hiked back to Dawson. He rushed down the Yukon trail from White Horse.

DUEL IN DIALECT BEFORE P. M. CARSS

Chinaman and Italian Argue Their Differences With Much Abandon
The sensation of this morning's session of the police court was a character sketch in dialect between two imported citizens. Pete Nicolette is a young Italian who is sufficiently Americanized to put on a nonchalant air in police court. He was charged with assaulting a Chinaman.

JACK KONG IS GUILTY OF MANSLAUGHTER ONLY

Chinaman Accused of Murdering Mrs. Millard Will Escape Death Penalty

(Special to The Daily News.)
Vancouver, May 22.—Jack Kong, accused of the murder of Mrs. Millard, was found guilty of manslaughter. Sentence was reserved. The jury were out from noon till seven o'clock, when the court adjourned till eight. At nine a verdict was rendered.

MADE NEW MANAGER OF COLD STORAGE CO.

T. H. Johnston, Who Operated Here Last Year, Will Be in Charge at Seal Cove

The announcement has been made that T. H. Johnston is to be local manager of the Canadian Fish & Cold Storage Co. George Collins, who has been in charge here since the opening of the big plant, will be located in the east looking after the financing and selling end of the business. Mr. Johnston was here last season and handled independently all the mild cured salmon put up by the Cold Storage company. He is a fish man of some prominence and knows the business. Andrew Johnston, father of the new manager, is in the city now. He is of the firm of Johnston, Knudston & Co. of Hull, England, one of the big English fish companies.

CONSTITUTIONALISTS SEND REPRESENTATIVE

(Special to The Daily News.)
Washington, May 22.—The Mexican constitutionalists are preparing to send a representative to Niagara Falls to confer with the South American mediators on the distinct understanding that the representative will give information regarding the purposes of Carranza without committing the constitutionalists to any plan for the pacification of Mexico on which the mediators may determine.

Baby in Badger Hole

Dacoma, Okla., May 21.—Mary Opal Cox, two years old, child of Mr. and Mrs. Ivan Cox, disappeared in the morning from her home, five miles northwest of Garman. At noon searchers found her in a badger hole in the pasture about a quarter of a mile from the house. Only her hands and head were visible. She was unharmed.

PUBLIC NAUSEATED OVER SUFFRAGETTES

Police Attacked Them With Great Violence and Had the Sympathy of Crowd

(Special to The Daily News.)
London, May 22.—Public opinion is nauseated as a result of the militant suffragettes at Buckingham palace. Never was such violence used by the police on the suffragettes and the most significant fact was that no matter how hard they hit they had the sympathy of the crowd.

NOTHING WRONG WITH THE TANGO

Since the days of David and Salome no dance has been so roundly censured and abused as the modern tango, which originated in Argentine and spread from there the world over. Certain exaggerations of this dance may have deserved this censure, but certainly nothing can be said against the tango as danced by Mrs. M. Lester and Mrs. Charles Ransford at the Westholme opera house. It is graceful and beautiful without the least suggestion of anything unseemly or offensive. Compared to the ordinary two-step, it is a distinct step in advance in the art of dancing and its phenomenal success is not to be wondered at. As a matter of fact these new dances such as the tango, one-step, etc., are merely variations of the two-step, while the hesitation, flirtation, etc., are variations and improvements on the ordinary waltz. As a form of exercise they are healthful and as an amusement harmless. All of these dances will be shown at the Westholme theatre during this week and the first two days of next week. A matinee will be given on Saturday at 3 p. m. for the benefit of ladies and children who find it inconvenient to attend the evening performance.

Interested in Mining

Mr. A. S. Millar, who has been operating for the last few years in mining properties on Hudson Bay mountain in conjunction with a local syndicate, arrived in town last evening on the Princess May. Mr. Millar formerly lived at Ketchikan but is now located in Texas. Since moving south he has been in touch with a great many mining men, and they are all enthusiastic about the future of northern British Columbia. Mr. Millar is going in to do the assessment work for the syndicate on 17 claims held there. Considering the work done in previous years he expects to be able to make a splendid showing this year and believes he has one of the best properties in that district.

Fire Destroyed Lumber

NOTED MAGAZINE WRITERS FINISH INTERESTING TRIP

Mr. and Mrs. Herbert Vanderhoof and Mr. and Mrs. Edwin Balmer arrived from the interior on yesterday's train and left for the south this morning. They had just completed a trip across from Winnipeg on the G. T. P. and made the connection in the interior on handcars. Mr. Vanderhoof is editor of Canada West and Mr. Balmer is a well known novelist and short story writer. His stories frequently appear in the popular magazines and many local readers of fiction know the high quality of them. New stories with British Columbia scenes may be expected. While in the city the visitors were entertained by Mr. Albert Davidson. They intend taking the C. P. R. back to Winnipeg.

DAILY EDITION

Friday, May 22, 1914

It is very important for all concerned that this city and the G. T. P. should work together for the development of this north country and especially Prince Rupert. This city has given in on many important occasions when disputes arose which the railway claimed were unjust. Large sums in taxes have been rebated and heavy freight rates have been endured and passed over without a murmur. In doing this the city has shown itself willing to help the railway along in what they know to be an expensive undertaking.

In return for these considerations on behalf of the city the railway company should feel themselves obligated to do their share for the development of this city. The most outstanding requirement of Prince Rupert today is the establishment of local industries. Every year there are a large number of people coming here with the necessary capital to fill these wants, but for lack of suitable locations they have gone away without doing anything. Of course, there may have been some excuse for this before a settlement was arranged about the waterfront. Apparently this matter is now amicably disposed of, but still no policy

has been announced with regard to what the company propose doing. This is a matter of vital interest to the city and the council should see to it that something is done immediately.

The sudden somersault of the Borden government with regard to the naval program is rather striking. The cry a year ago was that Canada could do nothing of itself—except pay a cash subsidy. Canadians, we were told, were too busy making money to care for naval service. Now apparently the characteristics of the Canadians have changed. The government is to establish a Canadian naval reserve. The next thing we shall see is Borden swallowing the whole Laurier naval policy. That is the policy Canada wants. If Borden would take a few more leaves out of Sir Wilfrid's book it would be much to the advantage of Canada. But why not let Laurier put his own schemes into effect?

Not only is the city council adopting the short sighted policy of replacing plank roadways when they should be putting down permanent streets, but they are making this change without the request of the property owners. All a great many of these streets re-

The photo shows the entrance or exit on St. Monique street, Montreal, of the new C. N. R. tunnel under Mount Royal. The completion of this tunnel marks one of the greatest engineering feats ever accomplished in Canada.

quire is a little repairing. Next year it is to be hoped the citizens will place authority in sane hands that will proceed with the permanent grading. In the meantime it is a needless waste of money to redeck these streets. To say the least the property owners should be allowed to decide between temporary and permanent streets, especially when the latter means a lower rate per year.

What is the sense of putting a quarter of a million in the Woodworth lake scheme that will only turn out 750 h. p.? With a small amount of power the city cannot compete with the Hydro-Electric company that Bowser has thrust upon the citizens. It would be much better business to have accepted the company's proposals last fall and save the city funds for necessary improvements. This will yet be demonstrated to a finish. Will the city awake before it is too late?

Provincial Election Act

The following letter appeared in the Vancouver Sun and should be of interest to some local people. It was written by John Oliver:

"The amending act of 1914 takes away the right of a naturalized British subject to transfer his vote from one electoral district to another electoral district. I think it would be well to draw attention to this fact.

"Under the original act a person desiring to transfer his vote from his former to his present place of residence, obtained from the registrar of voters in the district wherein he was registered a certificate to the effect that his name had been removed from the list. He then forwarded this certificate with his affidavit, form A, to the registrar of voters for the district in which he was then resident, and after ten days the registrar placed his name on the list. By the last amending act, form A is changed so as to refer only to British subjects by birth, and as a naturalized subject could not take such an affidavit he cannot get his vote transferred."

GOLD MINING UNDER WAY ON PRINCESS ROYAL ID.

Considerable development is now in progress at Surf Inlet, west coast of Princess Royal island, according to the news brought in by the Grand Trunk Pacific steamer Prince John, Capt. Wearmouth. The Tonopah Belmont Development company is now conducting gold mining operations and a large gang of men finds employment there. The G. T. P. has arranged to have the steamers Prince John and Prince Albert call at Surf Inlet on all their trips.

No Men Wanted

Seward, Alaska, May 21.—The spring rush to the Cook Inlet and Turnagain arm district is the greatest this year in the history of Alaska. At the present time there are more men in that section than ever before and there is nothing for them to do in the way of work. There is still a great deal of snow in the hills, and it is impossible for any one to get out to prospect. The Knik Commercial club is sending out letters to the various publications throughout Alaska, asking them to warn men from coming into that section in search of work, as the labor market is already over supplied.

Who Hit Smithers?

Our attention has been called many times to the many knocks registered against this town by representatives of wholesale houses of Vancouver and Prince Rupert, principally the latter. If this is the case, it is about time the business men here, who purchase from these travellers, investigate and see if they can not put a stop to it.—The Smithers Tribune.
