The citizens will remember that at last municipal election the present chairman of finance declared that he would never agree to the city selling 50-year bonds under 90. It will also be remembered that before he was in office very long he had agreed to sell 10 and 20-year issues at 85. The News pointed out on several occasions that an offer of 86 had been made for the 50year issues. Now it appears that an offer of 87 had been made for the entire two million issue and the finance committee not only did not inform the public of this offer, but did not even inform the rest of the council. The News is in possession of a letter from a thorooghly reliable quarter stating the facts about this offer. Instead of accepting this really good offer the
