PATHETIC SCENES WITNESSED WHEN SURVIVORS GET HOME

WILD RUSH OF FRIENDS COULD NOT BE PREVENTED BY POLICE--FIREMAN ON TITANIC WAS ALSO FIREMAN ON EMPRESS

(Special to The Daily News.)
London, June 10.--Wild scenes were witnessed at the Exchange station, Liverpool, on the arrival of the survivors of the crew of the Empress of Ireland. The station had been packed by a dense crowd for several hours. When the train steamed in there was a rush for the carriage doors. The police officials attempted to hold back the crowd but they were powerless.

Screaming women and babies in arms were crushed against the train. Pitiful reunions were witnessed when women threw themselves hysterically into the arms of their husbands among the survivors.

William Clark, one of the passengers, had the terrible experience of passing through two most terrible sea tragedies, being first fireman on the Titanic, and filled the same duty on the Empress of Ireland.

PAUL RAINIE'S AFRICAN HUNT

And the Linking Up of the G.T.P. at the Westholme Tonight

It is characteristic of the management of the Westholme Opera House to be always on the look out for the best motion picture features that are generally shown only in the largest cities and the largest theatres in these cities. Such a feature is Paul Rainie's African Hunt in 6 reels which will be shown at this theatre tonight and tomorrow night. This series of pictures have been shown and are still being shown the world over. Europe, Asia, Africa, Australia and the Americas have seen these pictures and marvelled at the patience and ingenuity of man in exploring the ends of the earth for new and sensational camera subjects. The wild beasts of the African jungle--hundreds of them are shown in their natural state unaware of the fact that two patient picture men are perched high in a nearby tree, turning away at a moving picture machine by means of which the whole world shall become familiar with their mode of life and habits. Seeing these pictures is an education that can be had in no other way except at enormous expense of time and money.

Another important feature on tonight's programme at the Westholme is the linking up of the G. T. P. near Fort Fraser. Every resident of Prince Rupert is interested in this important event, vitally interested in fact, and there will no doubt be a great turn-out to see these pictures.

INDEPENDENT LICENCES

The Conservatives have been doing a lot of advertising over their political sagacity in creating independent white fishermen's licenses. It was intended for the purpose of making the salmon fishing a white man's industry. The effect is rather different. The new policy takes so many licenses for white men but it does not reduce the number of Japs. The canners cut off the Indians and keep on the Japs. They claim they have to for their own protection. Thus Prince Rupert gets a decided loss. The Indians who fish spend all their money here. The Japs spend it in Vancouver. If the Indians are cut off Rupert loses the trade and she gains very little from the white fishermen because many of them will only fish a couple of weeks during the big run. There is more politics than business in the independent licenses.

A new hydrographic survey of the mouth of the Skeena is being made. The steamer Naden is engaged in this work.

Today the Prince Rupert has in her freight thirteen tons of steel rails for a Stewart mining company. Some further development work is to be done there.

Roy L. Hoire with a party of eight arrived today on the s.s. Prince Rupert. They will leave in a day or two for Banks Island where they will make a survey of some land for agriculture.

The steamer Grey unloaded coal here yesterday for Rogers & Albert. She left later for the Skeena with coal. The Grey is a tender for the whaling stations during the busy season.

The Dominion hydrographic survey steamer Lilloet, which has been tied up here for over a week undergoing repairs and getting supplies leaves today for her work in Hecate Straits, and on the West Coast of Graham Island.

Cannery Football Match

The Dominion Cannery and Inverness Cannery soccer teams played on Sunday last at Dominion cannery before a crowd of enthusiastic spectators and resulted in a somewhat one-sided victory for Dominion by 16 goals to 8. The Dominion scorers were: Paddy Binns (7), Barney Ruddock (4) and Al. Holland (4) while another was put through by a miss kick of an Inverness back. The Inverness goals were taken by Menzies (4), McLoughlin (2), and Anderson (2).

The Dominion forwards were much too fast for their opponents and this combined with a fine defence by Stan Kendall and Walter Lee, gave them the game. Harry Menzies played a splendid game for Inverness and it was no fault of his that his side was defeated as he undoubtedly was the best player on the ground.

Secured Splendid Collection

William Tomlinson, the representative of the mineral department on the Dominion Exhibition Commission, who is in the north collecting ore samples for the Panama-Pacific Exposition, has secured over fifty splendid specimens from the reserve ore supply at the Board of Trade quarters, and is now busily engaged in labelling and packing the samples. Some of the larger samples will go to the exposition at San Francisco and a number of the smaller cabinet samples will be installed in the Provincial Government's mineral museum at Victoria. The Board has on hand for just such purposes a large reserve supply of ore and is weekly adding to the excellent permanent collection that is kept under glass. It is not generally known that Prince Rupert has today, through the efforts of the Board of Trade, the largest number and greatest variety of ore specimens to be found in any similar collection maintained by a business organization in this province.

Football Meeting Tonight

A meeting of all those interested in the formation of a Merchants' Assistants football club is to be held tonight at 8 p.m. in the St. Andrew's Society rooms when the entering of a team to compete in the Kaien Island Football Association league will be discussed and if a favorable decision is arrived at two delegates will be appointed to attend the League meeting tomorrow night.

The funeral of the late John Beatty, who was drowned in Cameron Bay yesterday took place this afternoon from Hayner's parlors at Fairview. Rev. Canon Rix officiated.

SKEENA RIVER CANNERIES CUT OFF INDIAN FISHERMEN

INDEPENDENT LICENSES CREATES SHORT SEASON--FISHERMEN AND JAPS ARE EXPECTED TO MAKE UP THE HANDICAP

On June 20th the sockeye fishing season will open and all the canneries in the district are making preparations for it. They anticipate a good run of fish this year and as the price is high the canneries ought to have a good year.

Some weeks ago when the independent licenses were issued they were grabbed by white men in Prince Rupert, irrespective of whether they were fishermen or not. This caused a howl from the white fishermen on the Skeena who were left without licenses. In order to appease them the department issued some more independent licenses.

Now that the fishing season is drawing near the cannery men and others interested in the business are beginning to size up the situation. With a large number of independent licenses it means that a lot of the so-called white fishermen will only fish for a couple of weeks when the big run is on, leaving the canneries short of their usual number of boats in the early and late season when they are most anxious to get fish in order to make a profitable pack.

The Canners' Association has made an agreement whereby these independent boats are parceled out among them, but while that distributes the short season fishermen proportionately it does not overcome the shortage. Now the canners have a new plan. It is well known that the Japanese fishermen are the most zealous workmen in the game and in order to make up the shortage resulting from white fishermen only fishing a short season they are giving all the boats heretofore held by Indians to Japanese fishermen, hoping thereby to overcome the disadvantage of the independents.

Prior to the introduction of the iron chick and the sanitary cans certain numbers of Indian fishermen had to be taken on by the canneries in order to get the Indian women to labor inside, but this has now been greatly reduced by the improved machinery and the canneries are becoming independent of the Indians.

When sockeye fishing starts it will be found that there are many Indians without boats and just as many Jap fishermen as usual.

DAILY EDITION

WEDNESDAY, JUNE 10, 1914

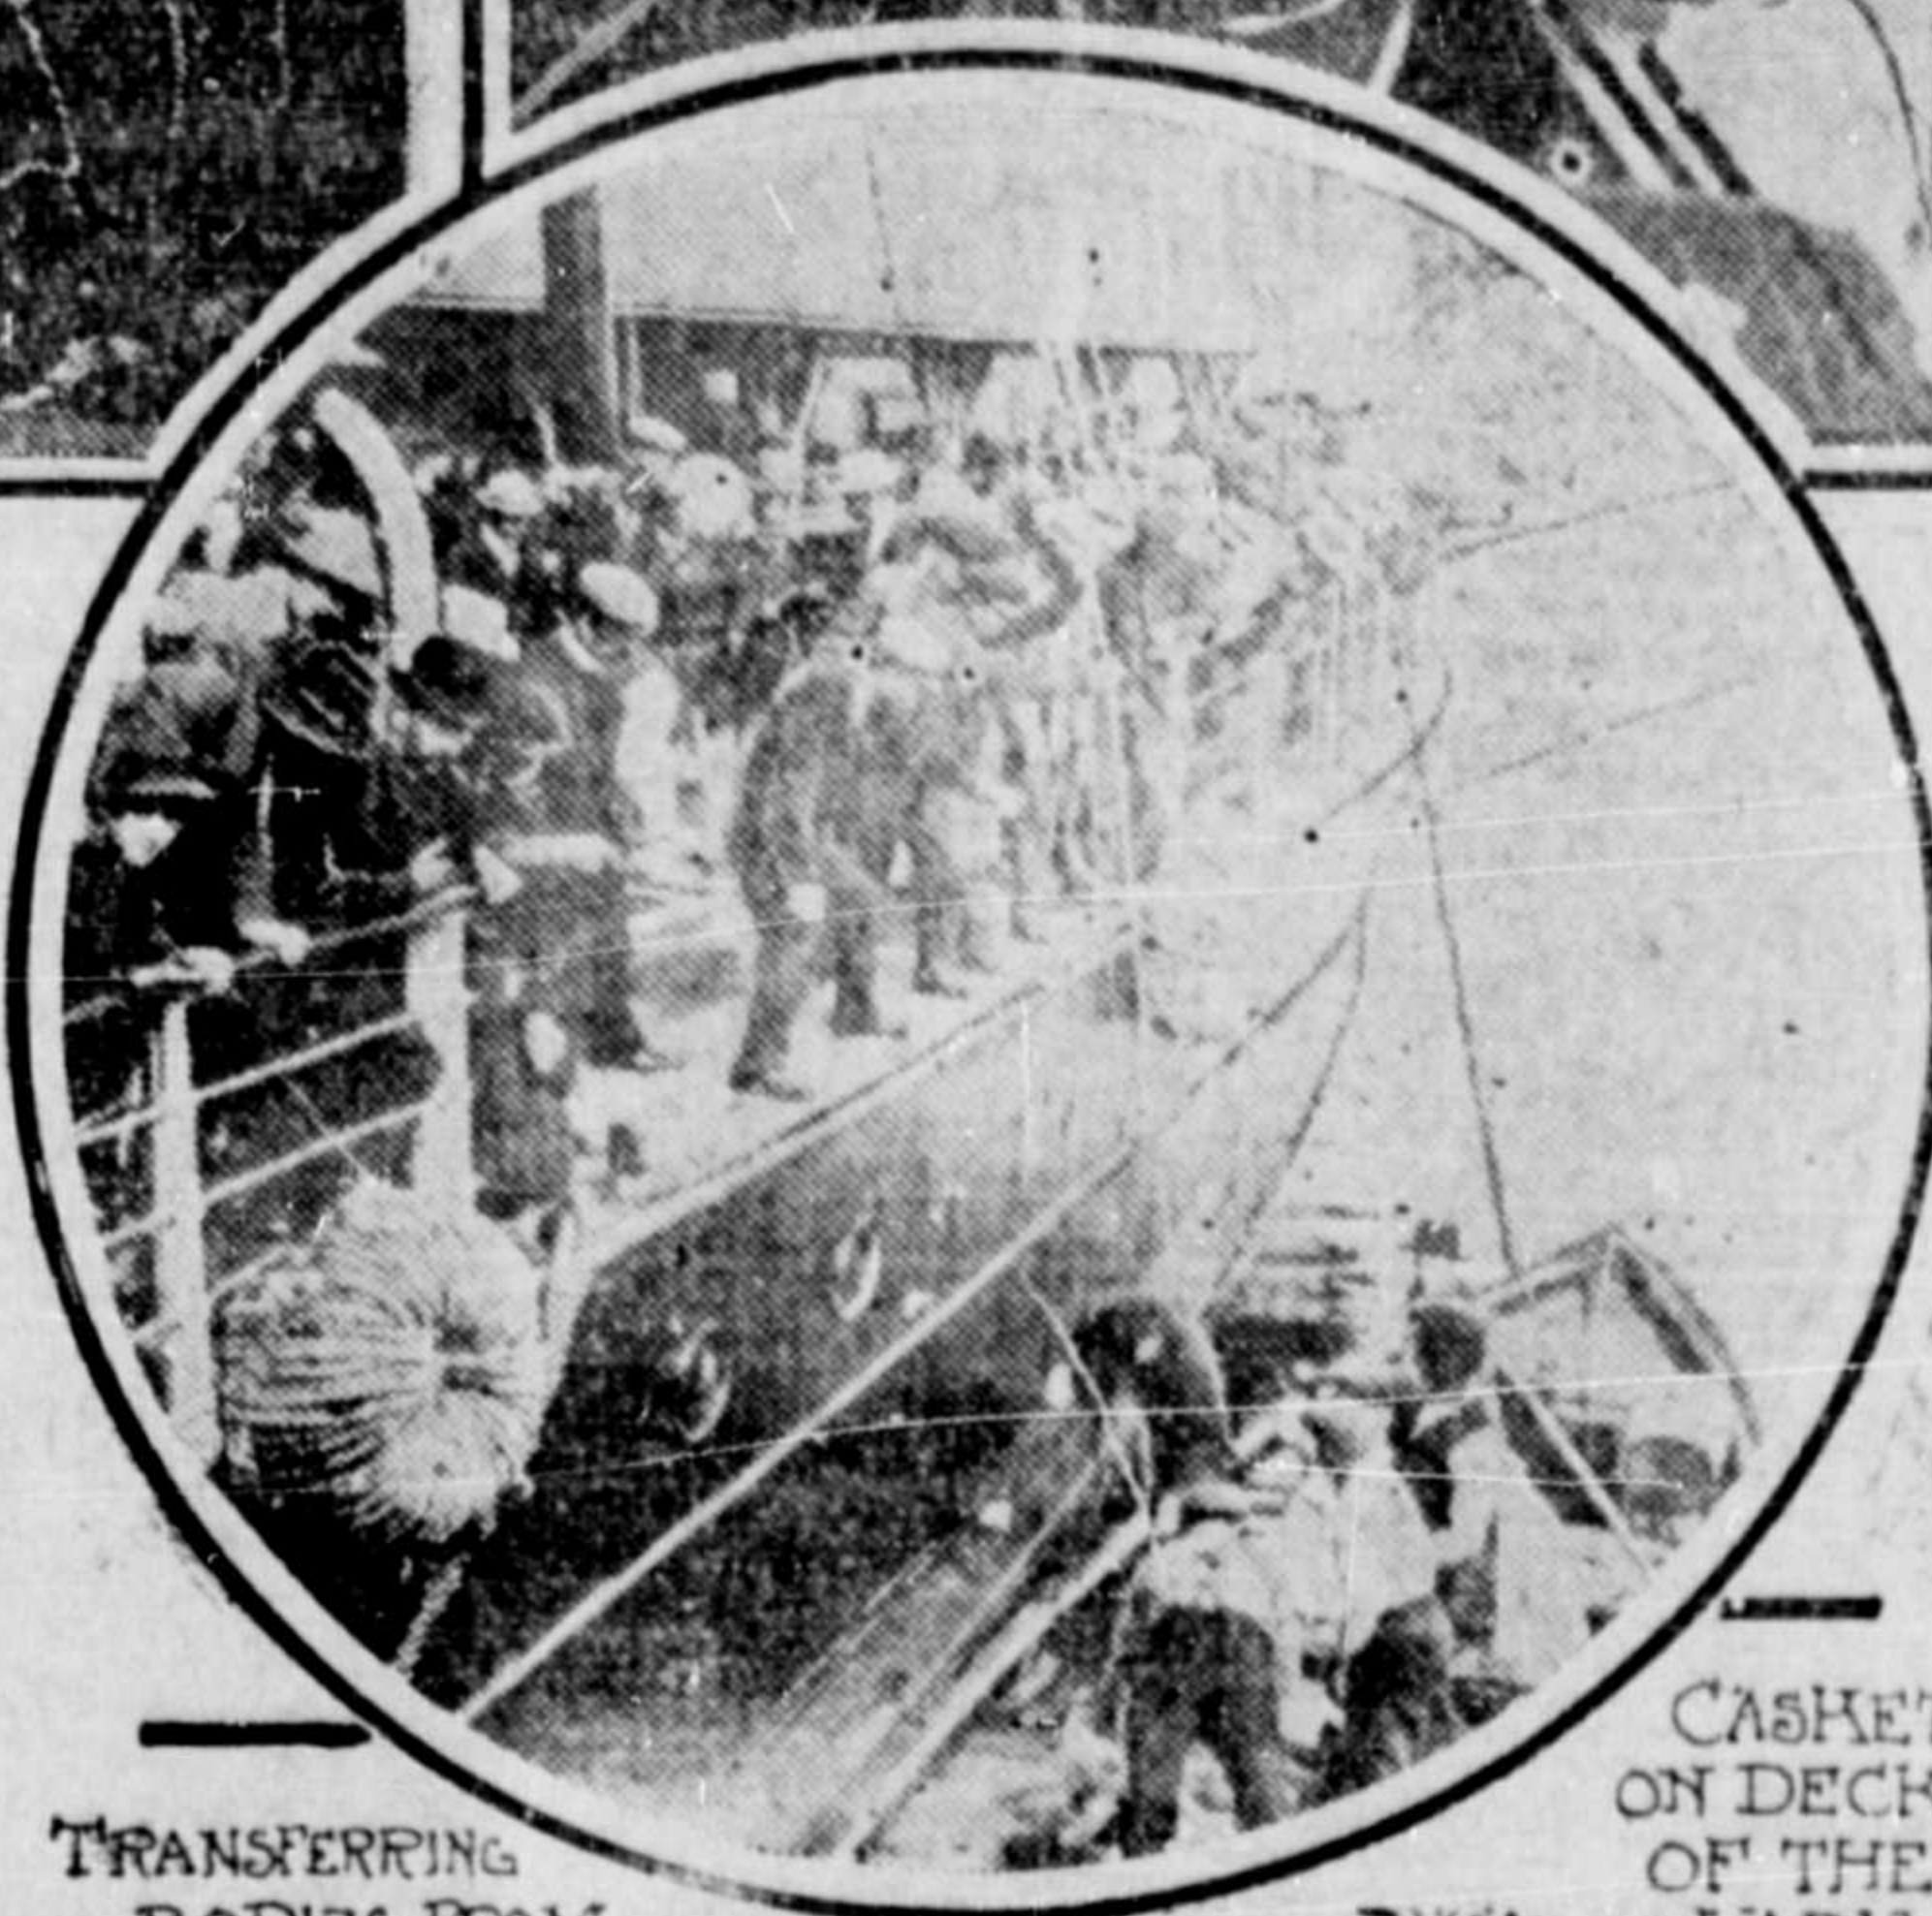

Prince Rupert has never
been noted for its public spir-
it. The only semblance of it
that we ever possessed exist-
ed among the old timers. At
the present time everybody
seems to be working so keen-
ly for himself or his own par-
ticular view that there is little
time for the development of
broader issues. One of the
evidences of this is to be
found in the fact that it has
been found impossible to gen-
erate a brass band in our
midst. In the east every tri-
fying little town has its band
in which the citizens all take
an active interest. Even in
Terrace, indeed, our closest
neighbor they have their own
band, although their popula-
tion is only a fraction of ours.
There are apparently lots of
musicians in Prince Rupert,
and there is no reason why
the council should not assist
in purchasing instruments. Is
there not some self-sacrific-
ing hero who would step into

the breach and remove the re-
proach from the city?

Does anybody need to be in-
formed as to who started
party politics in this city.
There was none in the first
council, nor indeed until the
Conservatives got into power
at Ottawa in 1911. Since that
time their trail has been be-
smirched with some of the
coarsest deals ever pulled off
in Canada, of which mention
need only be made of the graft
on the post office site and the
disbanding of Earl Grey's Rif-
les. What party was it that
pretended to be supporting ex-
Mayor Pattullo at last election
but turned at the last moment
and gave him the double cross.
What party is it that even
compels a workman to pay
his dollar and join their as-
sociation before he gets a job.
But why go further. Even the
man on the street knows that
the Liberals never played the
game as the Conservatives are
now doing.

RAILWAY PLANNED TO THE CANADIAN BORDER

TAKU COMPANY FILES NOTICE OF RIGHT-OF-WAY IN THE ALASKA LAND OFFICE

Juneau, Alaska, June 10.—The Taku Railway & Navigation Company has filed in the Juneau land office right-of-way and terminal plats for the proposed railway line up the Taku River from a point on Taku Inlet to the Canadian - Alaska boundary. About two miles of side cut rack work on the lower end is encountered. The line for the most part is tangent and free of short or sharp curves. It follows the flat in the valley almost the entire distance and traverses three tracts of good timber. The grade is said to be considerably

less than one per cent. The terminal is located on the south side of Taku Inlet, just opposite Windom Glacier, which has been dead for some time. The inlet is narrow at this point and not over forty feet in depth and the feasibility of bridging the canal at this point and continuing the line to Juneau has been discussed and is believed by F. J. Wetrick, of Wilhelm and Wetrick, who made the survey for the American line of the railway, is now making a preliminary survey on the Canadian side to Atlin.

LEADERS HAVE LITTLE TILT RHETORIC USED AS WEAPONS

SIR WILFRID PRESUMED TOO MUCH ON THE SINCERITY AND COURAGE OF PREMIER BORDEN

An interesting tilt between the leaders in the House of Commons came up during the discussion of the Canadian North-west deal. Sir Wilfrid Laurier, who followed in part: "When the company with which we are now dealing comes for the fourth time in four years asking for the assistance of this country, assistance which has been given annually for the past three years—more than \$60,000,000—and now asks for \$45,000,000 more, I think everyone will agree that it is time for an investigation, that we may know exactly what is the status of the company before us." Sir Wilfrid was dubious of

Premier Borden's intimation that he would appeal to the country on the issue. "He has told us many times," added the Liberal leader, "that he was going to the country on certain issues. But he never goes; he does all he can to put it off." "I did not say that I would appeal to the country on this," put in the premier, amid ironical Liberal laughter. "I thought my Rt. Hon. friend intimated that a moment ago," observed Sir Wilfrid. "I did not," retorted Mr. Borden, "I said that by-and-bye there would be an opportunity of discussing this matter before the electorate, and that we would be willing then to discuss it."

"I had an election campaign we discuss things before the electorate and get their verdict," observed the Liberal leader. "If this is simply to be an academic discussion before the public, it is a different matter. If I misjudged my right hon. friend I apologize. I presumed too much on his sincerity and courage. For this I also apologize. (Liberal cheers and laughter)."

BANKING FIRM FAILED BOUGHT TOO MUCH G.T.R.

A. M. Grenfell and Several Canadian Companies Involved

London, June 8. — Chaplin, Milne, Grenfell & Co., Limited, a well known firm of merchants and bankers in Princess Street, have suspended payment. The failure is believed to be the result of large operations in Grand Trunk by Arthur Morton Grenfell, formerly a member of the firm, and whose dealings re-

cently have been the subject of much gossip. It is said several Canadian and other companies wherein he was interested are involved. Earl Grey, whose daughter was Grenfell's first wife, is reported among the heavy losers. The affairs of the bank were largely involved with those of the Canadian Agency, Limited, which is controlled by Arthur Grenfell. He and the Canadian Agency have been engaged in a campaign for the purchase of a controlling interest in the Grand Trunk Railway, but when those securities depreciated, the obligations he had created were taken over by a strong group of financial houses in order to protect the many stock exchange firms involved.

HER LITTLE SON WAS DYING

Gave Him "Fruit-a-tives" And Saved His Life.

CAMPBELLVILLE, ONT., May 5th, 1914. "Our little boy, Lawrence, was sorely affected with Chronic Indigestion, and the doctor did not think he would recover. He started with a sore mouth and it developed into this other trouble. Everything he ate just passed right through the system without change. He cried incessantly and life was a misery to him. My husband had been using "Fruit-a-tives" for Indigestion, getting much benefit from them, and I thought what did him good, might help our boy. We tried "Fruit-a-tives" giving Lawrence 1/2 a tablet at a dose, and the result was marvelous. Today, he is the picture of health, and he is perfectly well". MRS. J. VANFLEET. 50c a box, 6 for \$2.50, trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.
