SAXE, OF COLLIER, PARTIALLY RESPONSIBLE FOR WRECK DISASTER--RETURN OF PROSPERITY

PRINCE RUPERT'S PROGRESS JUSTIFIES FAITH IN FUTURE

CAPT. STORK IN REMINISCENT MOOD REFERS TO OLD TIME CONDITIONS IN CITY IN COMPARISON WITH TODAY—SPLENDID ADDRESS AT B. OF T. LUNCHEON

Capt. Fred Stork was the guest of honor at the Board of Trade luncheon today and delivered the address. Capt. Stork is one of the real oldtimers and when he spoke today in a reminiscent mood there was none better qualified to speak on old time conditions than he.

He said in opening that we were just about to pass a very important mile stone in our history. We were breaking with the past and its primitive conditions and about to enter upon the ways of a modern city. It was therefore fitting to briefly refer to the past.

Six years ago business was done on a one plank street, and all conveyance done by wheelbarrow. Now we have graded streets and automobiles.

Traffic to interior points was conducted by the old S.S. Hazelton. Now we have steel rails and observation cars.

The Board of Trade was an important factor in the early days. It took the place of a City Council and did excellent work in preserving the franchises of the city. Today the Board has expanded

and we have our permanent quarters and a live commissioner. In the gathering today there are many of the old faces and in every case those men are better off. Prince Rupert has been good to them.

Local people are not so well qualified to judge of the future of our city as those who come to us from the outside and they are all enthusiastic.

Looking back over the last six years, however, we can see great developments and it is folly to think that that progress will stop. San Francisco, Portland, Seattle and Vancouver are great cities because they are the terminals of great railways. The terminus of a great road cannot be a village.

While we have all these advantages it is only the spirit of our people that will make Rupert a great city.

In closing, Capt. Stork complimented Messrs. Munro and Rochester on the fine new Prince Rupert Hotel. It was in every way worthy of a great city and it was a fitting tribute to the faith of those pioneers.

BOXING BOUT WILL BE SPLENDID EXHIBITION

Chet Neff and Rough House Burns Will Draw Big Crowd on Tuesday Night

The boxing bout between Chet Neff and Rough House Burns which has been billed for the evening of June 30th, will undoubtedly be the best exhibition that has yet been pulled off in Rupert and the sports are reserving seats in anticipation of a splendid exhibition of boxing. Both Burns and Neff are exceptionally clever in their class and the winner will challenge for the lightweight championship of Canada.

Neff will begin his first workout in the city tonight with Monte Label and many will be out to size him up.

Burns has already won many supporters in the city and they are willing to back him liberally to win.

The bout will be held in the Westholme on Tuesday evening and the promoters are passing the tip to get your seat early.

RATE WAR ON SKEENA ON PRICE OF SOCKEYES

Rupert Cannery Buying From Boats Supplied by Skeena Canneries

The Skeena River cannery are having quite a fight with the Prince Rupert cannery over the independent fishermen. The cannery have an organization which includes all the canneries but the Rupert one, and they have an agreement to pay 15 cents to independent fishermen for sockeye salmon. The independent fishermen are all parceled out among the Skeena River canneries and the Rupert cannery has very few regular fishermen. They buy their fish from the independent fishermen who are using boats and nets belonging to Skeena canneries. They are paying 25 cents a fish for sockeyes.

It is said yesterday one Skeena cannery took the boat and gear away from two white fishermen for selling to the Rupert cannery and others are being warned.

The Skeena canneries, it is understood, are making overtures to the Rupert cannery to settle the rate war by allowing a number of boats to fish for Rupert cannery regularly.

Want to Furnish Free Beer

The manager of the Prince Rupert fair has received a communication from Mr. Post, representing the Vancouver brewery, asking for a space of 250 square feet in the exhibition hall for display purposes. Mr. Post is willing to make what would undoubtedly be a popular attraction by offering to give away free beer, but the management is a little dubious about granting such a concession. They fear the offer would detract from the educational feature of the exhibition.

Lots of Sockeye Outside

Yesterday and last night there was good sockeye fishing outside the Skeena River and nearly all the boats averaged 100, which is a big catch for so early in the season. One seine last night got a bigger catch than the biggest haul of last year. So far the fish are all outside the river.

CALLIES DEFEATED SONS OF ENGLAND

Second League Match Between Soccer Teams Proved Good Game

The second game in the City Cup Competition, between the Sons of England and the Callies was played off on the Drydock grounds last night, when the large gathering of spectators who made the walk from the city had the pleasure of witnessing a rather interesting struggle.

The game was by no means so one-sided as on the previous night, the Englishmen putting up stiff opposition to the Callies who however managed to score four goals in the first half through Macdonald, McIlravey, Abbott and Martin, by which score they led at half time.

In the second portion, play was fairly quiet, although the Englishmen tried desperately to better their position. This they ultimately did, through Hardy, but shortly afterwards Macdonald went through and scored a fifth point for the Callies. With no more scoring, the final whistle went with the Callies winning a good game by five goals to one. The following were the teams:— Sons of England: Hutchinson, Bell and Kelsey; Shrubbsall, Tinker and Kelf; Hardy, Schofield, Davis, Kemp and Craig.

Callies: Gilmour, Willisroft and W. R. Martin; Kelly, Abbott and McIlravey; Gray, Stewart, Macdonald, A. Martin and Murray.

Mr. A. Holmberg discharged his duties as referee in a capable manner.

TENDENCY OF EVIDENCY IS AGAINST COLLIER STORSTAD

VESSEL PUT HARD TO PORT WHEN IT SHOULD HAVE BEEN STARBOARD—THIRD OFFICER OF STORSTAD SAID TO BE THE GUILTY PARTY

(Special to The Daily News)

Quebec, June 27.—Because the wheel was first put to port and ported helm took her into the starboard in charge put it hard to port when he had the steering way. Butler Aspinall in the course of his address to the commission contended that the Storstad was responsible for the disaster and asked the commission to find the testimony of the crew of the Storstad was inaccurate when they claimed the collier answered the helm. He reasoned that the changed course of the vessel on ported helm took her into the stationary liner with sufficient speed

to cause the wound from which the Empress sank.

Aspinall argued that to find the Empress starboarded helm would be to charge Kendall with perjury. He scoffed at the idea of Kendall telling a deliberate lie when he only recently faced death.

The first definite suggestion of personal responsibility for the disaster during the hearing was made when Aspinall held that the third officer, Saxe, not being authorized and who took the collier's wheel from the helmsman and put her hard aport was the culprit in the case.

BOUNTIFUL HARVEST PROMISED FOR THIS YEAR—FREIGHT SERVICE TO RUPERT SOON—LIMITED PASSENGER SERVICE TILL NEXT YEAR

(Special to The Daily News)

Ottawa, June 27.—Morley Donaldson brings encouraging news of the crops. He predicts that the harvest in the West will be considerably larger than last year and declares that with a bountiful harvest will come improvement in trade conditions throughout the country.

About the middle or end of August the G. T. P. line to Prince Rupert from Winnipeg will begin to operate a thorough freight service. In the meantime an early limited passenger service through to the Pacific terminal point will be put on and a first class passenger service will be operated next spring.

IMPERIAL OIL STORAGE TANKS TO BE ERECTED IMMEDIATELY

VICE-PRESIDENT STILLMAN AND ENGINEER MONTGOMERY HERE TODAY—CONTRACT FOR GRADING IS LET—TANKS READY IN SARNIA, ONTARIO

First Vice-President Stillman, of the Imperial Oil Company, and Engineer Montgomery came in on the Prince George this morning to start the work on the new oil storage station of the company at Prince Rupert. They were met by Mr. Woodland, the local representative.

Mr. Stillman says work on the excavation for the big plant here will start immediately. The Beers Company Ltd., have the contract for this work. Mr. Beers is here in connection with his contract at the drydock.

The city site of the storage plant is Hays Creek where they have several acres leased from the G. T. P.

There will be five tanks in all for the different classes of oil. The two big tanks will be 115 feet in diameter. The material for

these tanks is already assembled at Sarnia, Ontario, ready for shipment.

It will take several months to complete the work. When the tanks are ready crude fuel oil will be stored in the big tanks and the G. T. P. boats and engines will draw their supply from this source.

Mrs. Stillman accompanies her husband here. They are registered at the Prince Rupert, and will leave again Monday morning.

"The Flying Circus"

A THRILLING SPECTACULAR FEATURE IN 3 REELS
This is a wonderful picture and entirely out of the usual run. The rescue of a young girl from a burning building by the Tight Rope Walker is thrilling, but the performers second feat is simply marvelous. He walks up a tight rope fastened to the ground at one end and to the tower of a tall building at the other. There are many other features that stamp this as a picture of most extraordinary merit.

Collingwood Schreiber and R. B. Kelliher Make Official Tour of Road

"I believe the official opening of the Grand Trunk Pacific will be about August 15th," said Mr. Collingwood Schreiber, Chief Engineer of the Dominion of Canada, who is here, accompanied by R. B. Kelliher, Chief Engineer of the G. T. P.

Mr. Schreiber thinks the Duke of Connaught will drive the golden spike, but if he cannot perform the ceremony it is probable that Premier Borden will do it.

Mr. Schreiber has just made his first through trip over the road and is pleased with its construction. The shoe-flies around the uncompleted cuts in the interior are now being removed and gangs are busy all along the line between Priestly and Fort George ballasting the road bed.

Mr. Schreiber is accompanied by his wife. Their party leaves today for the south.

Great Game July 1st

The management of the baseball team are arranging to give the best game on July 1st that has yet been seen in Prince Rupert.

Ketchikan claims to have a classy ball team and they are coming down with a bunch of rooters to help them win. The Rupert team has been strengthened and the boys are putting in a good practice every evening in preparation for the big holiday game.

"Mickey" Howell, of Stewart, is one of the new recruits. He has come down to the hub as the mining town is dead, and he wants to get into the ball game. He was out to practice last night.

Kicks on Small Berry Boxes

H. D. Larhart, of Remo, up the Skeena, makes a protest to the agricultural society about the competition the up river strawberry growers have to meet on the Rupert market.

He says the Rupert merchants buy false bottom boxes of berries at \$2.50 a crate and sell them at \$6 to \$8, while up river growers have to furnish a full quart box under Canadian law and get no more for it than the United States grower. He wants to see a Rupert market without commission merchants.

G. T. P. PAYMASTER VISITS PRINCE RUPERT

Will Make Monthly Trip Between Edmonton and the Terminal Port

J. C. Hill, the G. T. P. paymaster, was in the city yesterday having come through in his car from Winnipeg with the pay checks. This was the second passenger train to come through.

Mr. Hill said he was surprised at the built up appearance and size of the city which he had the pleasure of visiting for the first time. For the present time Mr. Hill will probably make monthly trips from Edmonton to Rupert, but a little later the pay office staff will probably be located in Rupert.

This morning Mr. Hill and several officials who accompanied him, left on the Prince Rupert for the south, while the car will be sent back over the line to Edmonton.

DAILY EDITION Saturday, June 27, 1914

The city has been invited to be heard on July 17th in Victoria with reference to the application of the Hydro-Electric Company for approval of their plans in the carrying out of their proposed operations in the city.

An attempt is being made to make it appear that the city's representatives and the local member, Wm. Manson, will put up the most strenuous possible opposition to the company entering the city.

They will likely give the delegates the accustomed hearing. The smooth members of the Cabinet will probably try to soothe their troubles with soft words and Bowser may burst in at the last moment and scare them out of countenance. Perhaps some little cop will be thrown to them to cheer but the real issue is sure to be thrown aside.

The city is to go to heavy expense employing counsel and is to pay the expenses of the member, Wm. Manson, to look

after the interests of the city at the hearing on July 17th. There was a time when Wm. Manson could have done effective work in keeping the Hydro-Electric company out of Rupert and without any expense to the city as far as his own services were concerned. Wm. Manson failed in his duty at that time in the most cowardly fashion, and while any good citizen must be willing that whatever expense that is necessary should be undertaken to protect the interests of the city, it is farcical to suggest paying the expenses of a representative who did nothing when something could have been done and who has since given every evidence of lack of the courage necessary to protect the city's interests in a tight place.

The hearing to take place on July 17th is not a court of judicature to decide whether the hydro company has the right to conduct operations within the city limits; rather is it the government's tribunal

to decide whether the particular plans submitted by the company for operation in the city should be approved or amended. The opportunity given to the city to be heard is for the purpose of adjusting the location of pole lines or similar matters in connection with the company's operations. The Bowser-McBride Government gave this company a charter to operate various public utilities within the limits of Prince Rupert and adjacent territory as by act of the legislature defined. Subsequently the Bowser-McBride Government refused to rescind this charter. The Bowser-McBride Government are hardly going to repudiate at this late date what they conceded on two former occasions to the company and nobody knows this better than Wm. Manson.

Doubtless William will accompany the city's delegation to Victoria and will carry out the onerous task of introducing them to Billy Ross, who will be nominally acting for the Government, very gracefully, but our member's pugnacious (?) disposition is not likely to do any more for us when it comes down to serious discussion than it did on a former occasion when a single rebuke from the Prime Minister squelched him.

An attempt is being made to make the people believe that any appropriations that are made for the conduct of the public services by the Government are conferences of great favors for which the people should get down on their knees and do obeisance to the Federal member, which in the case of Prince Rupert, is a gentleman from Vancouver who was foisted on the constituency by Dick McBride.

Of course we know that the Vancouver gentleman referred to, Mr. H. S. Clements, is extremely "popular" especially with the present Mayor of the city, but we have it in mind that long before Mr. Clements achieved popularity with the Mayor, in fact long before anybody in these parts knew there was a Mr. Clements, this district received appropriations for its public services. It must be said also that these appropriations were much more heavy in proportion to the importance of the district at that time than are the appropriations now made in relation to the newer and larger importance of this district.

Some of the supposed appropriations for the district this year indeed are re-appropriations from last year, and they will probably serve for several years to come. There is the road around the island, the bridge, the court house and the McBride Street approach which have done service similarly and why not other appropriations as well?

"Some two years ago, I was a great sufferer from indigestion. I treated with a prominent physician here for some time, but I did not get any better so I went in to see him one day and said 'Doctor, what do I owe you? I am not getting any better and am going to quit you.' I paid him his bill and he remarked to me, 'Charlie, you have a case of chronic indigestion that will be hard to cure.' I left his office and as I stepped out on the street my eye caught a bill board advertisement of 'Fruit-a-tives'—that big 'Fat Man and Thin Man' and I said to myself, 'If Fruit-a-tives will build me up like that, it's good enough for me.' I walked directly over to Park's Drug Store and I bought a box of 'Fruit-a-tives.' After taking these wonderful tablets for only three weeks, I found myself greatly improved. I continued taking them for a short time longer and cured myself entirely. My case was so light one either, for many times when I was on the street, I was compelled to go into some store or business place until the acute spasms wore away. Gas would often form in my stomach and I was in daily fear it would get around my hear and kill me. To-day, I have no such fears. 'Fruit-a-tives' is the only remedy for Indigestion, Dyspepsia and Stomach troubles." C. T. HILL. Perhaps your case is exactly like Mr. Hill's. If so, do exactly as he did—take 'Fruit-a-tives' and cure yourself. 'Fruit-a-tives' will prevent the formation of gas in the stomach by making digestion complete. It will insure the food being promptly digested by providing an abundance of gastric juice in the stomach. It keeps the stomach sweet and clean, not only by helping the digestion but also by regulating the kidneys and bowels and toning up the system. If you suffer with Indigestion, Dyspepsia, Sour Stomach, Belching, Gas on the Stomach, Heart Pains after Eating, take 'Fruit-a-tives.' 50c. a box. 6 for \$2.50, trial size, 25c. at all dealers or from Fruit-a-tives Limited, Ottawa.

SERIOUSLY INJURED IN RUNAWAY ACCIDENT In a runaway accident last night, David Miller, who drives a stage between Hazelton and New Hazelton, was seriously—perhaps fatally—injured. About midnight Miller was returning from Hazelton when his team ran away on Two-mile hill, throwing him out of the stage. His chest was badly crushed, several ribs being broken. Dr. McAuley rendered first aid, and the victim was removed to the hospital. The extent of his injuries is not yet known, but there appears to be little hope of his recovery.—Omineca Miner.

PLACER MINE YIELDS PROFITABLE RETURNS

Prospects Bright for Season at Manson Creek—Miners Bring Out Coarse Gold Reports of favorable development in the Manson Creek district are confirmed by Ed. Kohse and Arthur and William Leverett, who returned from the goldfield last evening. With Walter Aitken and George Hauck, they hold leases at the old town of Manson, and their prospecting operations this season have resulted very favorably. They brought out some coarse gold from the rim, and state that there appears to be plenty of pay dirt. It is necessary, however, to get water at a higher point necessitating the construction of 2 1/2 miles of ditch and flume. Aitken and Hauck remain on the ground to drift to bedrock. Future plans will depend upon the result of their work. The Kildare company is reported to be doing well on Slate Creek. The late arrivals from the camp state that Manager Otersson got a \$32.50 nugget the day they left. F. T. Child has good pay on his ground below Skelton Gulch. There has been a shortage of food supplies and tobacco in the district, but packtrains have arrived with supplies, and there will be no further inconvenience.
