SAD DEATH OF

We regret to inform our readers of the sad death, which took place some time yesterday morning, of the political independence of the Empire. What it may mean in this election it is difficult to estimate. The spirit of independence once squelched can never be restored. Its smouldering embers can never be fanned into being again. To the founder of the Empire, John Houston, the public has cheerfully raised a monument. "Take him all in all, he was a man." To his followers, those whom he imbued with the spirit of independence, there is left but the News. There is one other newspaper in Prince Rupert but it

is not independent and it does not claim to be. It is the creature of the gang that by voters list stuffing and other devious practices is attempting to override the independent vote of the people and return to the legislature William Manson, the member of proven uselessness.

WILL FIRST BE SUBMITTED TO THE PEOPLE

Not Only of Protecting Canadian Coasts and Shipping But Also of Helping in Defence of the Empire

(Special to Daily News.) Ottawa, March 19 .- In discuss-

ing the naval estimates last night Premier Borden and Minister Hazen outlined the government's idea regarding the creation of a Canadian navy. The naval services are to be continued on as at present until the government embarks on a policy not only of protecting the Canadian coasts and shipping, but also of helping in the defense of the empire. This latter contribution, Minister Hazen said, must be made on grounds fair to Canada as a selfrespecting part of the empire. There could not be one navy for each different part of the empire. To be effective it must be under an undivided control. All parts For twenty-four hours ending 5 of the empire must be at par if

one part was attacked. Premier Borden said that when the present government goes to England it will tell the admiralty first that it did not believe the are enthusiastic over the outlook Laurier policy would benefit secondly, that the people of Canada thought so, too; thirdly, that

gram afterward," he added.

DAILY EDITION.

TUESDAY, MARCH 19

DO WE WANT "A FRIEND AT COURT"?

In 1908 the Liberal member for the Skeena district secured Magazines :: Periodicals :: Newspapers for his riding an apropriation of \$28,000.

In 1909 the Liberal member succeeded in increasing this CIGARS :: TOBACCOS :: FRUITS appropriation to \$75,000, or nearly three times the 1908 appropriation.

At the same rate of progress the Liberal member would processes the same rate of progress the Liberal member would have secured for Skeena district for 1910 an appropriation ? of \$200,000.

But William Manson managed to get only \$150,000.

In 1909 the Liberal member secured nearly three times the 1908 appropriation, but in 1910 William Manson managed to get barely double the 1909 appropriation.

In 1911 William Manson's influence at Victoria had so slackened that he fell \$75,000 short of doubling his own 1910 appropriation. Had he been able to represent the needs of the riding as the Liberal member did before him William Manson should have secured in round figures at least \$401,700.

Aware, no doubt, of the indignation aroused throughout the constituency by his neglect and failure to secure a proportionate appropriation for Skeena for 1911, William Manson managed to get for 1912 \$551,000, or a little over \$100,000 more than double the disproportionate pittance he secured for 1911. The very fact proves his neglect of the previous year.

Had William Manson progressed at the Liberal member's liberal rate in appropriations he should have secured in round figures at least \$602,000, so that this year he is still over \$150,000 short of where he should be even at a much slower rate in securing appropriations than that of the last Liberal member.

Had William Manson had backbone enough in representing the needs of his constituency to secure appropriations steadily for Skeena during his years of representation, at the same pace set him by the Liberal member in 1909, he should have scured for the riding for this year an appropriation of \$1,074,000 instead of his paltry \$551,000, so that his representation of the needs of the district has really resulted in a loss to Skeena of more than half a million dollars.

And yet it is contended by the heelers that we must have "a friend at court" to get anything at all.

At the beginning of this year the general idea was "Anything to beat Manson for mayor." But Manson did not run for a second term. He and his friends all knew that such a course was hopeless. Again there is the same cry, "Anything to beat Manson for the legislature and give us a real representative.' And it is bound to win.

A friend at court, forsooth. Alberni swapped a friend at court for a manly man named Brewster. And what did Alberni get as a consequence in the way of appropriations? Just look it up and consider what she might have expected if she had had Friend-at-Court Manson in the legislature. hSe tried Manson Lot on Eleventh St., Block 28; \$2,800. for one term and dropped him cold.

Remember

There will be two Manson names on your ballot paper. careful to make the distinction between the McBride Manson, who has been tried and found wanting, and ALEX. M. MANSON, the people's candidate, and a true representative of Skeena riding. To save confusion at the polls put your cross opposite the name of ALEX. M. MANSON, which is the second name on the ballot, exactly as indicated thus:

Write or ask our Local Manager to explain our system to

Prince Rupert Branch-F. S. LONG, Manager.

Reasons Why Wm. Manson Must be Defeated

1. The growth and prosperity of Prince Rupert is being hampered and retarded by the attitude of the McBride government in direct opposition, in order to serve the interests of the rival port of Vancouver.

2. That Prince Rupert can raise no voice of protest so long as she is represented in the

legislature by the silent and obsequious William Manson. 3. That the said Silent William did once or twice gently purr in mere explanation of what this city was seeking from the legislature, but never sufficiently loud to wake up any other member of McBride's huge majority.

4. That even on Prince Rupert matters he always voted with the government.

5. That when a respectful petition was sent to him asking when the government wharf would be completed he never brought the matter before the house at all, and that this matter was brought directly before the house by the Liberal representative of another constituency, H. C. Brewster.

6. That with an able and energetic Liberal from Prince Rupert in the house, such as is Mr. Alex. M. Manson, the Liberal nominee, this city might shame the monopolists of political

representation into giving at least a certain measure of justice. 7. That the Silent William never brought before the house the subject of the sale of government lots in Prince Rupert, but in default gives us his interpretation of what the premier is alleged to have said, namely, that the government was in the real estate business good and hard and as it had passed laws exempting taxation on these lots it could hold them without

expense until the people had made them enormously valuable, and the people could go to. 8. That the Silent William is alleged to have presented a petition from the people of the city for a government wagon road around Kaien Island, and that as an ante-election statement he is now promising the road will be built, but he whispers in an aside that he does not know the amount of the appropriation.

9. That these are the things the Silent One claims to have attempted to do in the interests of this city.

10. That what he ought to have done and which he didn't even try to do would take from now until election day to enumerate.

Long Looked For Report on Important Subject in Ontario Has at Last Been Presented for Consideration.

The long awaited report of Dr. F. W. Merchant on the English-French schools of Ontario has been tabled by Hon. Dr. Pyne, minister of education. The report is a comprehensive one, covering the bilingual schools in Twelve Tables the counties of Essex, Kent, Russell. Prescott, Stormont and Glengarry, the unorganized dis- +---tricts of Ottawa.

In all 269 schools, with a total of 538 teachers, were visited by Dr. Merchant. These schools had a total enrolment of 20,465 pupils, 18,833 being French. Only 76 schools were left unvisited three-quarters of them being in the unorganized districts and difficult of access.

Briefly summed up, Dr. Marchant's report shows that in the junior grades the instruction in a large majority of cases of the schools is given either entirely in French, or both French and English. It shows that English more than holds its own as the language of instruction in the senior

RETURNS FROM THE SMELTER

and Twenty-five Dollars to the Ton on First Smelter Test.

William Sloan is back from Tacoma, where he went with ten and a half tons of practically surface ore from the claims on American Creek, Portland Canal district, owned by the Northern Terminus Mines Company, Limited. The values in silver and lead from this first trial shipment runs \$120 to the ton, which may be accepted as distinctly encouraging.

Mr. Sloan says he hopes to do development work on a larger scale this season and will start as soon as possible with about twelve men. They have a shaft down forty feet right on the ore shute and at that depth it was twenty-two inches wide in clear gray copper for two hundred feet. This ore assayed \$275 the ton. The company has nine claims and on one has a tunnel in sixty feet Altogether Mr. Sloan estimated they have \$200,000 worth of ore in sight and calculates to mine and ship this and make it pay for the necessary machinery as is goes. The claims are four miles from the Red Cliff mines. along a good trail, and the ore can be placed on the cars at Re
