DAILY EDITION

Saturday, July 4, 1914

In 1911, Mr. E. D. Smith, of Winona, Ontario, was one of the men who were actively joined with Mr. R. L. Borden in proclaiming the folly of "truck or trade with the Yankees." In 1914 Mr. Smith has become Senator Smith as a reward for his devotion to the Borden cause and he is still the head of one of the largest fruit handling firms In Canada. At the close of last May, a circular letter was sent out to fruit dealers by Senator Smith's firm and in that letter there appeared the following significant statements:-

"We are buying strawberries in refrigerator carload lots from the South now for our jam factory and canning factories and so we have an opportunity to supply you at, we believe, lower rates and (with) better quality of berries than can be supplied in any other way. We did this last year and those who bought these berries were extremely well pleased and continued their patronage as long as we had the berries."

Three years ago, Mr. Smith and the other supporters of Mr. Borden were shouting that it would be folly for Canada to increased "truck and with the Yankees.' There would be no benefit to Canada from such business. they cried. To trade with the Americans must mean the annexation of the Dominion and

the disruption of the Empire. Today, we have Senator Smith's admission that his firm had "truck and trade with the Yankees" last year and found it advantageous. We have the further admission that this year, because of "truck and trade with the Yankees," his firm was able to supply strawberries in May at especially favorable prices. The incident is just one of the many bits of striking comment upon the sincerity or the good judgment of the Bordens and the Smiths who asserted their trade restrictionist doctrines so vociferously three years

But it is more than that. It is an incident supplying proof tion taken by the Liberals in 1911 when they argued that the Laurier policy of freer trade would operate to the advantage of the Canadian consumer as well as of the Canadian producer. During the 1911 campaign, it was pointed papers that, owing to differing climatic conditions in the two countries, vegetables fruits, for example, are some-States before they have matured in Canada and that from time to time prices differ with the varying of the seasons between the two countries. Under these circumstances, of course, there must be times when it

would be to the advantage of Canadians to have the opportunity of purchasing in the United States, just as at other times the Canadian market would be most suitable.

The letter sent out by Senator Smith's firm justifies the Liberal position. At the time of which the letter spoke, it was to the advantage of the Canadians to purchase American berries. At another time it might be to the advantage of people in some portions of Canada to purchase other American products. At still other times it would be to the advantage of Americans to buy Canadian products.

The Smith letter serves to emphasize these facts, but it does more than that. It recalls the fact that under the Liberal policy, berries and the United States would have admitted into Canada duty-free as such products the United States free of duty when shipped from the Dominion. But, with the aid of such men as Senator Smith, Mr. Borden was successful in hoodwinking a majority of Canadians into supporting his trade restriction policy so that while it is to the advantage of Canadians to purchase berries and the United States at certain seasons, they must continue to pay not only the price and the there is one of the reasons of likely to cause a political living.

Young and Inexperienced Archduke Becomes Heir to the Thrones of Austria and Hungary

Vienna, July 4 .- The opinion has gained ground in authoritative circles here that the future of Austria-Hungary, now, more than ever, depends on the health of the venerable Emperior Francis Joseph.

It was pointed out in political circles that if the emperor is permitted to reign only a few years more everything may continue as. usual and Archduke Francis Ferdinand's death will have little lasting material effect on the foreign or domestic affairs of the dual monarchy.

It was argued that should a other natural products from youthful and inexperienced ruler like the Archduke Charles Franci Joseph, son of the late Archduke Otto, suddenly be called on to would have been admitted to take the reins of government, a period of anxiety might supervene. The young archduke and his wife, who was Princess Zita of Parma, are both extremely popular among all classes of society and everybody from the emperor down is said to be prepared to do his utmost to help them in every way to rise to the reother natural products from sponsible position so suddenly thrust on them.

#### TROOPS HELD READY FOR IRELAND

London, July 4.—It is stated 3 that confidential orders have been received by Lieut-Gen. Sir Douglas Gaig, commander in chief at Aldershot, to hold certain troops in readiness to move out of camp on short notice. Those particularly indicated are the First Cavalry Brigade, composed of the Second Dragoons, the Fifth Dragoons, the Eleventh Hussars, and the Second Infantry Division. It is understood that the North of Ireland is the destination of the ! troops, which will only be moved as a last necessity. They will march out as for a regular campaign.

Avon, Ont., May 14th. 1913 "I have used "Fruit-a-tives" for Indigestion and Constipation with most excellent results, and they continue to be my only medicine. I am highly pleased with "Fruit-a-tives" and am not ashamed to have the facts published to the world. When I first started, about six years ago, to use them, I took four for a dose, but I cured myself of the above troubles and gradually reduced the dose to one tablet at night.

Before taking "Fruit-a-tives" I took salts and other pills but the treatment was too harsh. I thought I might as well suffer from the disease as from these treatments. Finally, I saw "Fruit-a-tives" adver-

## for Prince Rupert and Northern B.C.

The Daily News goes into nearly every home in Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate opti-

mism and reliability. The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.
