HINDUS LOCKED UP INSPECTOR WHO BROUGHT THEM SUPPLIES

PORT BOARDING SHIP INSPECTOR WAS TAKEN IN HAND AND LOCKED IN ROOM FOR AN HOUR—LATER RELEASED NO MORE PHILANTHROPY FROM BOARD

(Special to The Daily News)

Vancouver, July 10.—When immigration inspector Reid went aboard the Komagata Maru, the Hindus forcibly detained him, locking him in a room for over an hour. Reid loudly protested and the Hindus finally gave way, allowing him to go without molestation.

Reid was bringing a large quantity of provisions for the Hindus who appealed for assistance, stating that they were starving. The Immigration Board does not propose to take further action after the violence being offered to the inspector.

LARGE STRUCK ROCK AND SANK IN SEYMOUR NARROWS SUNDAY

AMUR—CREW TAKEN SOUTH BY VENTURE—VESSEL IS TOTAL LOSS

Vancouver, June 10.—The Amur Venture, Captain Parks, of the Union Steamship Company, was here Tuesday morning in the North, bringing Captain Brown, his wife and seven members of the crew of the American bulk Gerard C. Tobey, which foundered in Seymour Narrows on Sunday after striking a rock. All hands were saved, and were brought to Vancouver by the Venture. Captain and Mrs. Brown are at the St. Francis Hotel.

The Gerard C. Tobey was formerly a well known American schooner of 1389 net tons, and was built at Bath, Maine, in 1878. Not long ago she was purchased by Granby Consolidated Mining and Smelting Company, and cut down to a hulk, and she has been in carrying coke from Tacoma smelter. She has also made a voyage for the company to British Beach, Howe Sound.

The Gerard C. Tobey was in the Tacoma late on Friday last.

At 9:30 a.m. on Sunday, while passing through Seymour Narrows the tidal currents caused the hulk to sheer at the end of the tow rope and she hit a rock which tore a hole in her hull. She commenced to fill, and distress signals were made to the Amur. Captain Nilson, which came to her assistance and took off all hands. The Gerard C. Tobey sank in 45 fathoms, and is regarded as a total loss with her cargo of coke.

The Amur took the captain and crew north to the nearest steamship point of call, and transferred them to the Venture, and then proceeded north to Granby Bay. Captain Brown made the following statement: "The Gerard C. Tobey took a sheer on Sunday at 9:30 a.m., and although I put the helm hard-a-port we could not keep her off the rocks. She immediately began to fill, and I put all hands into the lifeboat and got her clear. As she sank I jumped into the boat and we were taken aboard the Amur, which took us to Alert Bay."

NEW FISHERIES JOB FOR ESSINGTON MAN

A Cannery Storekeeper Appointed Inspector of Canneries

Mr. Mackay, who has been pre-essing at the B. A. Cannery, at Essington has been appointed inspector of canneries, Skeena district.

The announcement was made yesterday and Mr. Mackay's duties will start immediately. This is a new office created by the Dominion Fisheries Department to see that new regulations respecting the packing of canned fish are carried out.

FIRE HONOR SALUTE WOUNDED SIX PEOPLE

Kansas City, Mo., July 9.—A shot that wounded six persons seated on the observation platform of an eastbound Burlington train near Liberty, Mo., was an "honor salute" fired for the women on the platform, according to Fred Scudiero, twenty-four years old, who admitted that he fired it. He said he had no intention of injuring anyone, as he fired his shotgun in the air. His arrest followed the arrest of two companions, who had been hunting near the scene.

Detective Play Tonight

Those who like a detective story should be sure and see the motion pictures at the Empress theatre tonight. It is a mystery play in three parts. The first shows the mysterious murder. Then follows the arrest of the wrong man who is eventually saved by very clever detective work, and the real criminal brought to justice. The pictures are full of thrills and interest.

There is besides a splendid comedy "Brannigan's Promotion," which is full of laughter.

TONIGHT - EMPRESS THEATRE - TONIGHT

A Great Detective Feature

"THE MYSTERY OF THE CORNER HOUSE"

3 - In Three Parts - 3

A fine detective picture showing a murder committed in a most mysterious manner. The wrong man is arrested for the crime, but as a result of some extraordinary work on the part of a great detective the guilty parties are at last brought to justice.

A Splendid Comedy: "BRANNIGAN'S PROMOTION"

Brannigan is one of the finest on the police force and the circumstances leading up to his promotion furnish lots of side splitting comedy work.

A new number of the Wapwick Chronicle will be shown. The Chronicle shows a number of interesting views taken in England.

Admission: Ten and Fifteen Cents.

DRIVING NEW WORK ON GREAT OHIO GROUP

Manager Trimble Says Company Develop Chalcophryite Ore at Great Depth

R. P. Trimble, Portland, Ore., was a passenger on the Prince George south this morning. He had just returned from a trip to New Hazelton where he had been inspecting the Great Ohio group on Rocher de Boule Mountain.

The long tunnel which has been driven on the No. 1 vein ran into ore last week and as a result an underground survey was made to determine the advisability of cross cutting from the No. 1 to the main vein, or the Great Ohio upon which there are two ore showings on the surface, one six feet wide and the other four feet wide. These outcroppings are several feet apart and it is the conviction of Mr. Trimble that they are continuous underground.

It has been decided to run the cross cut to the Great Ohio vein, a distance of some seventy-five feet. This, it is estimated, will cut the ore body at a depth of four hundred and fifty feet, the greatest depth yet obtained on any property in the camp.

Mr. Trimble informed The News man that if the ore looks as good at the four hundred and fifty foot level as he expects, his company will immediately start development at great depth. The first work will be another tunnel to tap the ore at the thousand foot level. In the meantime work will be continued on the upper workings.

Just before coming north, Mr. Trimble completed the organization of the Juniper Creek Mines Company, of which he is the secretary and general manager. He has associated with him men high up in the General Electric Company.

This company has mapped out a campaign of development on the Great Ohio Group which is intended should make it a continuous shipper and a large shipper before the present year is out.

LOCAL LABORERS ORGANIZE UNION

First Meeting Wednesday Evening and Formal Organization Next Tuesday

A largely attended labor meeting was held in the Carpenters' Hall on the evening of July 7th. The hall was well filled with enthusiastic wage-earners.

John O'Brien, the district organizer and label agent for the city of Prince Rupert, presided with Bro. Atkins as acting secretary.

Addresses were made by Messrs. Nicol, Denning, Maitland, Cassidy, King and others, in which the object of the gathering was set forth. It was decided unanimously to organize a local labor union.

Most of those present placed their names on the list of charter members and the list will be left open until the next meeting on Tuesday evening next. It is in the hands of W. Denny, secretary pro tem, and laborers are urged to sign up.

The meeting was most agreeable and enjoyable and all present were pleased with having done something for organized labor.

The next meeting will be Tuesday at 8 p.m. in Carpenters' Hall.

Chance for Pied Piper

Galveston, Tex., July 10.—Ten cents each for live rats was offered today by the health authorities here. The rats will be examined for traces of bubonic plague infection. City, State and Federal health authorities and business combined forces today for a sanitary campaign.

BASIL DANCED FOR PRESIDENT POINCARÉ

Old Prince Rupert Boy Makes Society Hit in Gay Paris

The New York Tribune of June 28th says, under Paris date:—"By special request of President Poincaré, Miss Margaret Hawkesworth, daughter of Mrs. R. W. Hawkesworth, of East Orange, N.J., and Basil Durant, of New York, gave an exhibition last night of American society's latest fads in dancing before a company of two hundred distinguished men and women of Paris, including the President of France himself.

"Miss Hawkesworth and Mr. Durant are just closing engagements at the Pre Catalan, in the Bois de Boulogne, and the Cafe de Paris, and will return to America on the Vaterland just in time to dance at Mrs. Arthur Curtiss James's dinner dance in Newport on July 14th. There they will exhibit for the first time in America, the 'Fardo,' latest of Parisian dances."

The paper also has a cut showing Basil and his fair partner. Basil left here for New York last year.

JAP FISHERMAN COLLECTED DAMAGES

Haysport Launch Collided With Fishing Boat While Running Away From Scout

"The old days in the fishing when might was right appear to be returning," remarked an old-timer on the Skeena River yesterday. "In the good old days the cannery bosses were a law unto themselves and today that is about all the law there is on the Skeena."

He then related very dramatically a little run-in which occurred Monday, in which one nifty Jap put it over three white men who were out buying fish.

The cannerymen have a scout boat chasing the gasoline launch belonging to the Haysport Cold Storage Company to prevent the latter buying fish from the cannery boats. Detective Matheson is in charge of the cannery private police boat.

On Monday he was chasing the Haysport launch and the latter in trying to get away collided with a Cassiar Jap's fishing boat, doing some damage. The Jap fisherman demanded ten dollars to make repairs and the launchmen refused to settle. With that the Jap threw a line over the launch and boarded her with a knife in his teeth. The three men on the launch crowded into the wheel house. A Jap with a knife did not look tempting to them.

Having sole possession of the deck the Jap picked up the set of scales which were lying on the deck and put them in his own boat. He then informed the launchmen they would find the scales at Cassiar cannery any time they wanted to settle for the damage they had done to his boat. With that the Jap cast off and the launch went back to Haysport.

ALASKA VOLCANOES ARE NOW IN ACTION WEST OF SEWARD

(Special to The Daily News)
Seward, July 10.—All volcanoes along the Alaska peninsula west of Seward are in action according to the report of Captain McMullen of the steamer Dirigo.

Bought 15,000 Acres

Regina, July 10.—The sale of 15,000 acres of wheat land in the Manitou Lake district of Saskatchewan was recently completed by R. D. Waugh, of Winnipeg, at a price of approximately \$200,000, to a syndicate of American colonizers, who intend to operate it as a steam plow proposition and put settlers on the land this fall.

Some increase in number of inquiries for farm lands is to be noted, owing to the splendid prospects of the crop this year.

Russians Reach Dawson

Whitehorse, July 10.—Word has been received here to the effect that the party of nearly fifty Russians who left here early this month in three queerly designed and constructed boats, did not go up White River as they originally intended but continued on to Dawson. Whether they have given up their intentions of prospecting the country contiguous to the head of White River is not known.—Whitehorse Star.

Big Increase in Realty

Saskatoon, July 10.—The sale is reported of fifty feet on Second Avenue, in this city, between the Ferguson Block and the Dominion Bank, to J. H. Ashdown, a prominent capitalist of Winnipeg, for \$42,650. This property is stated to have been purchased eleven years ago by Joseph Sutton for \$150.

PROVISIONAL GOVERNMENT WILL BE SET UP IN ULSTER

CARSON HAS MADE CALL FOR FIRST MEETING—NO INTENTION OF SEPARATION—JUST WANT TO HOLD ULSTER FOR THE EMPIRE

(Special to The Daily News)

Belfast, July 10.—The first meeting of the Ulster provisional government will be called today at the request of Sir Edward Carson. According to Capt. Craig the result of the meeting will have important bearing on the Irish situation, but he declared it was not the intention of the Ulsterites whatever happens to set up a parliament for themselves. Ulster claimed the right merely to hold the province in trust for the constitution in order that Ulster may continue as an integral portion of the British Empire.

but he declared it was not the intention of the Ulsterites whatever happens to set up a parliament for themselves. Ulster claimed the right merely to hold the province in trust for the constitution in order that Ulster may continue as an integral portion of the British Empire.

ASSETS OF B. C. FISHERIES TO BE SOLD BY TENDER IN VANCOUVER

COMPANY OWNS EXTENSIVE PROPERTIES ON QUEEN CHARLOTTE ISLAND, INCLUDING BIG GOLD STORAGE PLANT, TRAWLERS AND BOATS

(Special to The Daily News)

Vancouver, July 10.—The assets of the B. C. Fisheries Ltd. are being offered for sale by tender. The receiver is Mr. J. K. Bell, manager of the Bank of Toronto, at Vancouver.

The company owns a large number of parcels of land situated in different parts of Queen Charlotte Islands. Also an oil works at Skidegate; a fertilizer plant; cannery; vat house; cold storage plant; office buildings; dwelling houses; wharves and storehouses at Alford Bay.

Besides there are five steam trawlers, four gas launches, seventeen fishing boats and 26 Columbia River boats.

There is also an agreement with the Grand Trunk Pacific supposed to be of some value, and the good-will of the company of rather doubtful value.

This concern was started by the late Sir George Doughty. A worthless little oil plant at Skidegate was put into the company

for a large amount of money. Immense sums were retained as promotion charges. The company's plant was built far away from transportation and everything apparently handled in a reckless manner.

It was a fore-gone conclusion under these circumstances that the business would go down.

The suggestion was never at any time made that the quantity or quality of fish had anything to do with the failure of the concern. The surrounding waters are teeming with all kinds of fish but no concern in the world could carry on business and make it a success in the way that this company did.

Notwithstanding the fact that this district has untold wealth in fish, investors might as well realize that besides capital they require a good deal of experience in order to reap the harvest. Inexperienced boys just out of school cannot be expected to take the place of experts and make a success of the business.

A GOOD SHOW AT THE WESTHOLME TONIGHT

With "Our Mutual Girl," a first-class feature, a Gazette and a fine Keystone comedy, tonight's show at the Westholme Opera House will be an exceptionally good one.

Our Mutual Girl does some new stunts this week. Among other things she visits the various historic churches in New York City. Old Trinity, Grace church, St. Paul's and others. She also visits some famous hair dressing establishments and tries on the new colored wigs—blue, green and various other odd colors. Altogether tonight's bill is well worth seeing.

SCOTCH SETTLERS AND ENGLISH CAPITALISTS

St. John's, N.B., July 10.—A party of sixty Scotch settlers arrived last week to settle on New Brunswick farms. The Farm Settlement Board continues to place settlers on farms under the terms of the Ready-Made Farms' Act, but the demand at present is not large.

To Test Oil Shales

English capitalists have secured an area in Kings County where there are valuable deposits of oil shales, and an eminent mining engineer from London will make tests and begin development work this summer.

DAILY EDITION Friday, July 10, 1914

Reports from the Canadian Prairies and indeed from all over the continent declare that the condition of this year's crops is far ahead of that of last year and of all preceding years. A somewhat late spring was followed by excellent weather and good rains so that conditions are very favorable for a bumper crop. Not only, however, is the quality of crop better than preceding years but the acreage is also very materially increased. Of course the final results can never be known till the last sheaf is reaped but it is very satisfactory to know that conditions so far are so favorable.

The money set loose by even an average crop in Canada is enormous. With an extra big crop there is just that much to the good.

While the crops contribute very materially toward the prosperity of the country it was not because of any failure of crops that we have had the quiet times of the last few years. The average crop for those years was comparatively high. It does not necessarily follow, therefore, that a big crop this year would put the country back where it belongs. There are other indications abroad, however, that the universal stringency is about over and that the old time prosperity is about to return.

Money rates have dropped to almost the vanishing point and this big surplus will soon be looking for investment. Selfishness after all is one of the biggest driving powers in the

world, and the desire for bigger dividends will soon bring about normal conditions.

The Empire cannot understand how The News can have a fresh editorial every day. Judging from their own experience they believe this an impossible task for one man. Where they make the mistake is in assuming that all men are of equal capacity.

Wm. Manson, M.P.P., is going to Victoria to support the city representatives in fighting the Tsimpsean Power Co. He will not have as strong an argument as he could have had when the question was up before. At that time the company had gone to no expense. They could not say that their charter had cost them any money. The new owners of the charter have paid a good price for it. They have also spent a large sum on their water power. The government cannot very well turn them down without a compensation. This indeed should be done rather than that they should have free admission to the city's streets, but Wm. Manson knows that the government will not do this.

If this cannot be done then some sort of an agreement should be struck with the company. The government would surely support the city in this. If there are any features of the recent proposed agreement that can be improved upon they should use their efforts in that direction. They

are hardly likely, however, to get a better agreement in view of the strong position of their case. The city expects Wm. Manson to put up a good fight. It will not do to say that "the government in their wisdom has decided against us and I suppose we must be satisfied."

WANTS BIG DAMAGES FROM HOTELKEEPER

Seattle Man Alleges He Assaulted Him With Serious Consequences

Windsor, July 10.—An action for \$30,000 damages has been instituted against Wolfgang Feller, proprietor of the Wolf Hotel in Sandwich East, by Leroy Paisley, who claims he was set upon and badly beaten by the hotelkeeper last Thursday in a dispute over a diamond ring.

With a monkey-wrench for a weapon, Feller is said to have knocked Paisley to the floor of the barn, and then struck him a blow on the shoulder, which shattered his collarbone and dislocated the joint in such a way that he may lose the use of his right arm. Although nearly stunned from the blows, Paisley was able to crawl to the road, where he was picked up by a passing motor car. Little attention was paid to his story by the Windsor police. When he came to the station barely able to walk he was merely directed to the nearest doctor, he says. Paisley is an American, coming here from Seattle, and he has laid his case before the American Consul, Col. H. A. Conant.

When notified by the police that he was charged with assaulting Paisley, Feller claimed that he did not even know the youth, and had only seen him once or twice. Paisley claims he received a letter from Feller today offering to settle the matter for \$1,000.

BIG STEEL BRIDGE ON G.T.P. COMPLETED

Advice has been received at headquarters in Montreal that the Grand Trunk Pacific is now carrying passengers from Fort William to Prince George, B.C., over an all rail route, a distance of 1,729 miles. As the steel bridge across the Fraser River at Prince George has now been completed, trains will run directly to and from Prince George station and no ferry transfer is necessary. From Prince Rupert, eastward, passenger service is in operation to Priestley, 337 miles, and while steel is laid over the gap between Priestley and Prince George, work is going forward to bring the road bed up to the highest standard before inaugurating through passenger service between Winnipeg and the Pacific Coast terminal of the line.

SERVED TEN YEARS FOR ANOTHER'S CRIME

Washington, July 9.—A case of the two men serving sentences for the same crime was revealed today when President Wilson signed a commutation which will open the doors of Leavenworth penitentiary to Samuel Coltrane, doing a life sentence there for a murder to which a prisoner in the Oklahoma state penitentiary recently confessed.

Coltrane has been confined for more than ten years for the crime, which a jury decided last September Tom Watson, now in the Oklahoma penitentiary, committed. He has been in Leavenworth since February, 1907, when he was convicted, but was in jail also for nearly four years previously awaiting trial.

SALINE SOLUTIONS ARE MORE EFFECTIVE

Atlantic City, N.J., July 9.—Dr. Claude A. Burdett, of Ann Arbor, Mich., discussing infected wounds, asserted that saline solutions as a wash accomplished more than antiseptics in many instances.

"There will rise up out of the field of investigation," he said, "some one who will prove to the scientific world that for every infection with its myriad of symptoms, there is a drug which, matching those symptoms, is able to call forth a reaction on the part of the body cells for the cure of that disease. This same principle of action will be carried into the field of preventive medicine, and the production of immunity will be produced by a small dose of a single remedy."

Chink Wore Diamonds

Edmonton, July 10.—The arrest of a Chinaman well known in the west, by the name of Pon Yeun, took place Sunday night, on a charge of aiding and abetting in the carrying on of a gambling resort. With him were taken in the raid thirty other Chinamen. When arrested Pon Yeun was wearing diamonds to the value of \$2,500.

Bail of \$1,000 was refused by Police Chief Hill. The Chinaman is a large owner of property in Edmonton, Saskatoon and Vancouver.

Silica Sand at Redcliff

Redcliff, July 10.—A deposit of silica sand has recently been discovered on the farm of James Fleming, two miles west of Redcliff. The sand has been tested in a number of kilns in the town, and is reported to "stand up" under a temperature of 3,000 degrees of heat.

A Lovely Frock of White Embroidered Voile

The man who puts his savings in oil or mining stocks takes a gambler's chance. He is not an investor; he is a speculator. The man who works for wages and puts by savings for a rainy day cannot afford to take the chance. He wants a safe investment where his capital is secure and brings him in generous rate of interest.

That is the kind of investment we recommend to you in the stock of the Prince Rupert Building & Investment Co., Ltd. This company deals solely in Prince Rupert properties. It used the combined capital of many small investors to purchase city property, improve it and make it revenue bearing. The company has no paid officers, the operating expenses do not eat up the profits. It has paid an average of seventeen percent per annum in the past three years.

A limited amount of new capital is being taken in at \$11 per share. We recommend it to our clients.

BIG LEGAL LIGHTS AT THE EMPRESS ENQUIRY

Prominent lawyers from New York and London as well as from Canadian cities who argued the merits of the case before Lord
Mersey and his co-investigators.ROMANCE OF COLONIZATION
HAS BEGINNING IN DREAMSIn the history of colonization no land offers such a wide and
vivid appeal to the imagination as the Dominion of Canada.
Any review devoted to this great country would be ill-balanced
without some brief reference to those men who in other days
turned the earth in preparation for the harvest which we are
now reaping.

(Written for The Daily News by T. W. Sheffield)

One of the most valuable poli-
tical common-places is contained
in the priceless truth that "when
there is no vision the people
perish." Leaders of men, wheth-
er they have sat with tilted hats
on the front benches of parlia-
ment; whether they have, sword
in hand, carried on the oldest
tradition of leadership; or, pen
in hand, observed the latest, have
had somewhere in their make-up
the essential characteristics of
the visionary.It was this faculty that caused
Napoleon to re-arrange Europe;
that made him capable of stretch-
ing a hand towards the pyramids
and exhorting his weary soldiers
to remember that "forty cen-
turies" looked down upon them.

The Pioneers

Whenever colonization is men-
tioned the mind immediately re-
verts to the reign of Elizabeth,
which was the greatest period of
vision England has known. It
has aptly been termed the Age of
Discovery. It was an age which
bred the pioneers who cast
abroad the seeds of Empire. At
that time, although England was
devoid of possessions, she was
afire with an intense national
spirit—the furnace in which the
roots of empire were forged.
There were more dreams to the
square mile in Elizabethan Eng-
land than there had ever been be-
fore, or have ever been since.
Each little tavern in every sea-
board town was thronged with
dreams; they were exchanged
over each tankard of ale by the
bronzed, bearded men who told
strange tales of wealth beyond
hopes of avarice. And these ad-
venturers, men with large hopes
and long swords, set the paws of
their galleons westward in search
of terra incognita. They were
the earliest builders of Empire.Once the British had been
planted in Newfoundland in 1583
by Sir Humphrey Gilbert, atten-
tion was rapidly given to the pos-
sibilities contained in this new
world, this marvel of the age.
Actual colonization grew slowly.
At the end of the seventeenth
century only Gambia and the Gold
Coast in West Africa, St. Helena,
the Bermudas, Barbados, and Ja-
maica, a few West Indian Islands
and the New England States flew
the British flag.At this time, and during the
first few years of the eighteenth
century, Canada suddenly sprang
into fame as the battle ground
of colonial strife. The Treaty of
Utrecht in 1743 finally decided
the fate of the Dominion.

Settlers Life

Then in the welcome relief
from natural contention, the set-
tlers in Canada began to peg out
their claims and to make that his-
tory which reads like an epic in
human endurance. In imagina-tion we see this strange, stub-
born breed, the pioneers, steadily
subduing the great forces to
which they were opposed. We see
them marking out the site of
their homesteads; we see them
hewing down the forests, sowing
grain, and building a barricade
as a refuge from the terrible on-
slaught of the aborigines. This
epoch in the development of
Canada has been preserved in
juvenile fiction and has helped to
make the fortune of cinematog-
raph syndicates.Then we see the fur-capped
hunter with snow-shoes and his
pelts, his adventuresome life a
dual struggle with nature and his
fellow men, give place to a more
important person—the farmer.Strength and pertinacity have
brought their due reward in the
mushroom growth of the small
community, the town with its
garrison.

Titanic Achievement

Now the resources of the great
Dominion were being realised.
The wealth of Canada, locked in
the stronghold of nature, would
need, apparently a race of Titans
to wrench it from the treasure-
house of the earth, to set a sea
of golden wheat upon a wilder-
ness, to blast the hills and turn
the resources of the river and the
sea to account. But in the short
space of the last century a change
came over the face of the east
territory. A fastness whose si-lence was only broken by the war
signals of rattle-faced braves
echoed with the shriek of the
huge G. T. R. and C. P. R. engines,
whose metal paths had been tun-
nelled through mountains and set
over gorges. A splendid system of
canals joined waterway to water-
way and consequent advance-
ment in agriculture was recorded.
Truly titanic achievements were
effected by these pioneers.And pioneers they remain. They
are still exploring, still finding
other resources, widening the
old, opening up the new. Today
vast fields of endeavour await
the energy of the workman, and
the most valuable asset he can
take to his labour is the faculty
of vision. Those who review the
marvellous growth of industry
in company with the harmonic
and integral national spirit, and
those who realize the promise of
the future, may feel that there
was something singularly appro-
priate in the unconscious vision
of those old mariners who
thought of this continent as the
land of golden possibilities. In
a smaller but none the less im-
portant degree the oldtimers of
the Pacific Coast have added their
share of work in making Prince
Rupert an important part of the
Empire.

143tfPAPER TRUST SIGNS
UP WITH THE UNIONSNew York, July 9.—After a five
months' dispute, representatives
of the International Paper Com-
pany, which employs between
8,000 and 9,000 men in thirty or
more plants located in a score
of cities of the United States and
Canada, and the committee rep-
resenting the employees' unions,
have arrived at an amicable ad-
justment of their differences.The conferees signed a new
agreement for one year only,
which will supersede the two-
year agreement that expired May
first last.UNEMPLOYED WAIT ON
OTTAWA GOVERNMENTOttawa, July 9.—W. D. Scott,
superintendent of immigration,
was waited upon yesterday after-
noon by a delegation representing
400 Ukrainians, now out of em-
ployment in Ottawa.They were told that the de-
partment could do nothing in the
matter of ordering employment,
except in cases where farm hands
were needed. As the demand for
this class of worker in Eastern
Ontario is at a minimum, there is
little chance that any will be
placed in jobs on the land.MOUNTAIN FEUD IN
ARKANSAS REVIVEDParis, Ark., July 9.—The Hue-
kleberry mountain feud, which
has existed in this section of Ar-
kansas for many years, was re-
vived last night when Frank Rose
a mountaineer, shot and killed
Hobart Horn and probably fatal-
ly wounded Chatham Sherrill.It is said Horn and Sherrill at-
tacked the Rose home. The of-
ficers have arrested all known
factional leaders in the feud to
prevent further trouble.We buy and serve only the best
the market affords. London Cafe.

A Pure Cream of Tartar Powder

Dr. Wm. Sedgwick Saunders, Medical Officer of Health of the city of London, Eng., was good enough to say that a long and universal experience has proved a cream of tartar powder the most efficient, safe and economical, making food which could not be deleterious to the most delicate stomach.

In England the sale of baking powder containing alum is absolutely prohibited.

Frank B. St. Amour and partners have on exhibition in the Board of Trade rooms a big specimen of ore having four per cent copper besides good values in gold, silver and zinc. It is taken from five claims which they hold on Gibson Island at the head of Granville Channel.

Is Last Survivor

Dawson, July 10.—Capt. Al. Mayo, of Rampart, Alaska, the last surviving member of the pioneer party which crossed to the Yukon basin in 1873, is to be invited to visit Dawson August 17th, to participate in the Discovery Day celebration as the guest of Dawson Lodge of the Yukon Order of Pioneers.

To Help Stock Raising

Lethbridge, July 10.—The Rural Relations Committee of the local Board of Trade has raised a sum of \$10,000 from the banks by way of personal guarantees on the part of leading citizens for an amount of \$150 each. This sum will be used for the purchase of stock which will be distributed among the farmers of the district who are unable to afford the purchase of stock themselves.

When the ladder to success is pointed out to you, do not waste time in looking around for a moving stairway.

And the Mistress Took the Hint

Mistress—That was a very nice letter of Patrick's offering you marriage. Mary. What shall I say in reply for you?

Mary—Tel him, mum, if you please, that when I get my wages raised next month, mum, I'll begin to save for the wedding things.

Society Not in His Line

She—There's always a crowd around the dear old professor. He's such a wonderful conversationalist.

He—Lor! You really think so! I tried him just now on every possible topic—hounds, bridge, golf, music halls, everything—and he was simply useless!

NEARLY IN CONVULSIONS

With Acute Indigestion, "Fruit-a-lives" Cured Me.

NEWBURY, ONT., May 29th, 1913

"I am not an strenuous user of medicine or patent medicines, but I have taken nearly everything recommended for Indigestion and Constipation."

I have been so bad with Acute Indigestion that I was nearly in convulsions and had to be held. I have used "Fruit-a-lives" and I have not had another attack nor suffered at all with indigestion since taking them.
