

BOARD OF TRADE MEMBERS HAD A GOOD OUTING

SEATTLE YACHT WON FROM VAOCOUVER BOAT-CONSTITUTIONALISTS WANT TO QUIT FIGHT

150 RUPERT EXCURSIONISTS VISITED THE SMELTER CITY

BOARD OF TRADE OUTING ONE ROUND OF PLEASURE AND INTEREST—SIGHTSEEING ENTERTAINMENTS AND MERRYMAKING—ADDRESS BY E. MCGAFFREY

The jolliest trip I have ever had was the way one lady described the Board of Trade excursion to Granby Bay and Stewart and this opinion is the popular one among the 150 excursionists. The Prince Rupert board of trade had a very successful outing, having completed a trip of thirty-two hours during which the party was making almost continual programme of fun. Many of the party got aboard Wednesday evening and enjoyed several hours of cards. At eight yesterday the boat sailed at Granby and following the whole party went on a special train of flat cars up with seats. Pulled by electric locomotive, the special covered the Granby railroad to the crusher back in the hills. The trip was both exciting and picturesque. Then a mushing trip to the mine where the each received a candle and invitation to go in and inspect the ore in its natural state. Then the party visited the big smelter, the ore bins, the furnaces, the converters, the assay office, the machine shops and numerous other works connected with the big undertaking. There were two furnaces in operation and many of the party saw the blast furnaces and smelled the hot fumes for the first time. The converters pouring out their tons of molten blister was a sight worth going to see. At the smelter, General Manager Williams presented a guest with a drinking cup of blister copper.

At the dock, before leaving by, with its city of artistic buildings and modern conveniences, Chairman C. W. Peck, of excursion committee, tendered the hearty thanks to Mr. Williams and the other officers of the company.

The ship sailed away while the cheered and sang parting songs.

S. O. E. AND DRY DOCK PLAYED TIE GAME

Good Exhibition of Soccer Football Last Evening

The large crowd of spectators who took the trouble to visit the Dry Dock grounds last night in the expectation of seeing a hard game between the Sons of England and the Dry Dock team, had their expectations fully realized, the game being easily the best of the league series to date. Both teams have improved almost beyond recognition since their first appearance and, on present form will have quite a little say in the destination of the league cup. Throughout the whole game play was of the give and take order, both teams striving to their utmost extent to get the game in hand. The Sons of England were the first to score through their outside right, who accepted a return from the goalkeeper and made no mistake. The Dry Dock were, however, not very long in getting on level terms, one of the inside forwards, after some mis-kicking by the English defence, putting the teams all square, at which the score remained until half time.

The second half was even faster than the first for, with both defences going in for punting the ball and allowing their forwards to follow up, neither of the teams got any chance to settle to real combined play. Midway through this half the Dry Dock centre half, Gardley, taking a shot from well out, had the satisfaction of beating the English custodian all ends up and thus giving his team the lead. It was now that the Englishmen made the supreme effort to draw level, but as time wore on, it looked odds on them having to suffer defeat. However, just a few minutes from time they were awarded a penalty for an infringement inside the dreaded area, and Tinker again beat Duff. The whistle sounded just shortly afterwards, with the score standing at two goals each, which was indeed a really true reflex of the game. Mr. Geo. Sinclair Russell handled the game and proved himself thoroughly competent in every respect.

The next game will be on Monday night when the City Cup finalists, Callies vs. Merchants, will have their first fight in the league contest. This will be another good game and it is hoped there will be a large turnout of spectators.

NEGRO ATTEMPTED MURDER R. R. FOREMAN

Roderick McDonald Shot Down by Discharged Workman

With four bullet holes in him, Roderick McDonald, a G. T. P. section foreman on section 44, about 300 miles up the line, was brought down to the Prince Rupert hospital yesterday.

He had been shot down by Sam Morris, a negro whom he had discharged from his gang. McDonald was walking along the track Wednesday when he met Morris and when they were within a few feet of each other the negro pulled out an automatic revolver and shot five times. McDonald threw up his hands and one bullet went through his right hand. Another lodged in his right arm, another in the leg and a fourth in his chest. Fortunately none of them were vital and McDonald was brought to Rupert for treatment. He will recover.

The revolver used was McDonald's own which Morris had stolen. The interior police have not yet secured Morris.

Pantorium Pioneer Cleaners. Phone 4.

THE FUTURE OF RUPERT

At the Board of Trade luncheon yesterday, Ernest McGaffrey had the following to say concerning Rupert:— "A great and powerful corporation, farseeing and sagacious, had selected Prince Rupert for their terminal, and when a spot is chosen for an ocean terminal by a big corporation it always brings into being a great city. Prince Rupert, with its harbor facilities, its fish and its splendid position is bound to be as big as Seattle, and it has its wonderful hinterland as well. It will be the north star of Canada's brilliant constellation of cities."

M.P.'S TO MAKE TRIP OF INSPECTION OVER GRAND TRUNK PACIFIC

Ottawa, July 17.—In addition to the Western trip which it is expected the Prime Minister, the Minister of Finance, and perhaps a few others of the Cabinet will make this summer, it is learned that arrangements have been made for a trip by about a dozen members of parliament from Winnipeg to Prince Rupert, over the G. T. P., as the guests of the company.

The matter was arranged before the close of the session and the main reason given by the company for extending the invitation was to let them see for themselves the great engineering difficulties on the section of the line for which the additional \$16,000,000 bond guarantee was voted.

The party will include H. B. Ames, Major Beattie, Major Sam Sharpe, W. S. Sharpe, Gerald White, W. M. Weichel and about as many more.

They will leave early in August and after a short visit to Jasper Park, will stop at various points in the Rockies, where the construction work was particularly difficult.

After reaching the Prince Rupert terminus they will return to Fort George and will be taken down through the Cariboo country in autos to the Fraser river.

The rest of the trip down to Ashcroft will be made by boat, on the Fraser. This is the route of the projected branch of the G. T. P. to Vancouver.

SAWED JAIL BARS WITH BREAD KNIFE

Trio of Prisoners Escaped from City Jail Yesterday

At 4.40 yesterday afternoon three prisoners in the city jail were in the kitchen having supper. At 4.50 they were gone and only a couple of bent bars in the window of the middle cell was left as a clue.

The three who got away were Titus Campbell, an Indian, awaiting trial on the charge of robbing Cunningham's store at Port Eslington; Rich Clayton and Pat O'Mally. The two latter were serving sentences for theft and awaiting trial on similar charge.

They had sawed the iron bars on the high window of Campbell's cell, which is under the city hall. Two bars were sawed and then bent up, leaving a large enough hole to crawl through. The job had evidently been done some days, and the instrument used was a nicked bread knife.

The police suspect Clayton as being the leader of the gang. When the trio got out they headed for the cold storage plant and were seen there at six o'clock but then disappeared.

The police have watched every boat and craft leaving the harbor and believe they will catch the men again.

WILL BE BIG CAMP AT FIDDLER CREEK

Martin Welch Syndicate Will Do Lot of Development Work

Louis Knauss, Fiddler Creek, arrived here last night to complete a deal with Martin Welch for the Fiddler Creek group. Mr. Welch has taken a seven months bond on the property and proposes undertaking extensive development work immediately. The property has been well handled up to the present and the main vein has been uncovered on the surface with open cuts and stripping for several hundred feet. A drift tunnel has also been run for nineteen feet and the ore is shown across a twelve foot vein. The values are gold, copper, silver, and lead and the average values obtained from assays taken from various places on the vein is \$40.

Mr. Welch will run a long drift tunnel continuing the work already started for a distance of about three hundred feet. Should the ore stay with them for that distance another tunnel at a much greater depth will be undertaken. Arrangements have been completed to establish a large camp on the property and to build a wagon road to connect it with the railway.

Reports from various sources are to the effect that the Fiddler Creek group will make a good mining camp and the people who have taken the bond will go through with the work as mapped out and give the property a thorough test.

GREATEST BALL GAME OF SEASON TOMORROW

Ketchikan Coming Down Here to Tackle Prince Rupert Team Again

Tomorrow will see another of those brilliant contests between the Ketchikan and Prince Rupert base ball teams. Each team has a 1 to 0 victory and this will be the deciding match. Both are out to win and a lot of money will probably go up on the match. Ketchikan will arrive about noon tomorrow on the Princess Alice and the game is called for three o'clock.

There will be a general admission of fifty cents and everybody is expected to pay.

PRINCE LAID CORNER STONE NEW B. C. OFFICES IN LONDON

CONNAUGHT BELIEVES DEVELOPMENT OF THIS PROVINCE WILL BE ASSISTED BY THE OPENING OF THE PANAMA CANAL

(Special to The Daily News) London, Eng., July 17.—Prince Arthur of Connaught laid the foundation stone for the new offices of the Agent General of British Columbia, on Charles St., off Regent Street, yesterday.

He said in his address that the progress already made by the

people of British Columbia was conclusive proof of the greatness of its natural resources. He believed that the Province's natural rate of development would be further assisted by the opening of the Panama Canal which should greatly stimulate trade between the Province and Britain.

DUKE OF CONNAUGHT WILL NOT VISIT PRINCE RUPERT ON TRIP

WILL BE COMING WEST IN AUGUST TO SPEND THREE DAYS IN VANCOUVER AND SEVEN DAYS IN VICTORIA

(Special to The Daily News) Ottawa, Ont., July 17.—The itinerary of the Duke of Connaught's western tour includes three days in Vancouver, arriving on August 17th; seven days in Victoria, arriving on the 20th; then leaving for Vancouver and the East on the 27th.

There is no indication that he will visit Prince Rupert.

CONSTITUTIONALISTS WANT STOP FIGHTING AND PILLAGE

CARRANZA, THEIR LEADER, WILL ENDEAVOR TO NEGOTIATE TO HAVE TROOPS ENTER MEXICO CITY—WAR MAY BE OVER

(Special to The Daily News) Monterey, July 17.—Fighting day that it is his object to conduct negotiations to have the Constitutionalists enter Mexico City without further bloodshed or damage to property.

Gen. Carranza declared yesterday that it is his object to conduct negotiations to have the Constitutionalists enter Mexico City without further bloodshed or damage to property.

AMERICAN YACHT BEATS CANADIAN CHALLENGER

In a Series of Three Days' Racing, Seattle Yacht Club Holds Trophy

(Special to The Daily News) Seattle, July 17.—The American yacht Sir Tom, of the Seattle Yacht Club, in a series of three days racing for the trophy presented by Sir Thomas Lipton, defeated the Canadian challenger Turenga, of the Royal Vancouver Yacht Club, by 12 minutes 39 seconds.

The Lucky Number

Ticket number 416 was the winner of the dinner set given away during Wallace's sale. Miss O'Brien, cook at the General Hospital, held the winning ticket. A very large crowd of ticket holders was present at Wallace's when the drawing was made. Mrs. Mobley and Mrs. Hazlett superintended the drawing and little Florence McNeil drew the lucky ticket from the box and was presented with a handsome doll for her services. While many were disappointed in not holding the winning ticket, yet there was universal satisfaction that the dishes should go to so popular an institution as the hospital.

Launch Rosebelle. Phone Red 400.

CLOSING UP DEAL WITH MACKENZIE AND MANN

Canadian Government Makes an Important Covenant

(Special to The Daily News) Ottawa, July 17.—A feature of the Canadian Northern Railway settlement is a covenant undertaking required of Mackenzie & Mann, personally and jointly, that all outstanding and temporary loans by the C. N. R. or subsidiary companies secured by deposit or security shall be paid out of such deposit or pledged security.

Gets Decision on Foul

London, July 17.—Georges Carpentier was given the decision over Gunboat Smith yesterday in the sixth round on a foul. Carpentier slipped while trying to land a hard right and before he arose Smith struck him in the face. The Frenchman held his head, apparently in great pain, although it seemed as if the blow had hardly grazed him. The crowd hooted Smith, who left the ring a few minutes after the referee had decided Carpentier had won. Smith's seconds protested.

DAILY EDITION

Friday, July 17, 1944.

Notwithstanding the fact that sham and hypocrisy are perhaps the most debilitating and degenerating forces in the universe, it is surprising the number of people who crave after them. In a country like Canada where education, character and persistence are the determining factors of success, one would expect the leading class to be those who possessed these requirements in a pre-eminent degree. Too often, however, it is otherwise and their place is taken by bearers of brass or gold or both. It must be a terribly weary exercise to be all the time trying to be somebody else, when the creator intended each one to be himself. It is no wonder that hard lines and care-worn faces are the possessions of those who try to be "exclusive" and shut out all real human fellowship. Humanity acts and reacts upon itself in currents of feelings of its own generation. This is one of the common places of the newer psychology. Hate, jealousy, fear or "exclusiveness" is the arch-enemy of beauty of countenance or peace of mind. Whether those forces are generated by ourselves or directed by others toward us, the effect is

all the same. No wonder that humanity's Saviour demanded of his followers that they should not only love one another, but that they should love even their enemies. "Perfect love casteth out fear" and all of the other disintegrating forces that destroy the human personality. The world while it has to some degree practiced Christianity for hundreds of years is only beginning to find out that it is proceeding side by side with the fundamental laws of psychology for the restoration of harmony and happiness where before there was nothing but discord and bitterness. If a person, therefore doesn't wish to practice old-fashioned Christianity, let him understand and follow the laws of his psychic being and he will land up in about the same place. Why not therefore put away all hate, malice and hypocrisy—or sham—and all other shabbiness and be ourselves, human to the core, with a great heart of love for all mankind—even the persons you may like to "snub" in public—and all the happiness and fellowship that you have so often longed for will be restored into your bosoms.

McBRIDE STREET PRINCE RUPERT

"DEEPER THEY GO, THE BETTER THE OIL" SAYS EXPERT

INTERESTING ACCOUNT OF A VISIT TO GRAHAM ISLAND OIL FIELDS BY REPRESENTATIVE OF QUEEN CHARLOTTE ISLANDER

A representative of the Queen Charlotte Islander visited the West Coast of Graham Island in a launch and explored the shores and interior from West River to Otard Bay, where the indications of large oil fields can be seen on every side without considering that the whole coast line from Cape Knox to Louis Harbor indicates that oil territory exists along the whole of the island. It is supposed that about forty miles will cover the distance from Masset to Otard Bay although it has not been surveyed and the distance can only be guessed at. Our objective point was Tiahn Point where an oil drill has been at work on an old Indian settlement and some hundreds of feet of drilling has been done. We went where men never trod before; even the Indian guide was lost for some hours, and it is a desolate country without a piece of meadow land to be seen anywhere. We again emerged at the mouth of Blue Creek and struck towards West River where the launch was located. All along the beach we found rocks impregnated with tar and asphaltum and the prospects were the best that could be imagined. Our next move was to Tiahn Point and there the shale we found in place and every indication of oil. There is little seepage but the oil drill has been through black shale and reached warm water before work was stopped. One of the members of the company took a sample of the black shale, placed it in a glass tube and ignited it.

With us was a man experienced in oil drilling and one who owns a section in the oil fields of Utah. He was conservative in his opinion; but his words were: "When they go down two thousand feet they will strike oil or I am much mistaken. The deeper they go the better the oil. I have seen many oil fields and am interested in some of them; but we went to work on indications that could not compare for one minute with what is there. The shale is in place, tar and asphaltum oozes from the shale and there is oil in the shale. All that is needed to test the field is ten thousand dollars invested in a drilling plant and the further they go down the better the oil."

When we visited Frederick Island where the same indications were present and we skirted back along the shores to Cape Knox, going ashore at West River and finding evidence of oil almost all the way along the coast to Naden Harbor.

In our opinion for what it is worth there is not one man we have interviewed who has been down the coast of Graham Island who is not convinced that oil territory exists in all directions. It has been asserted that the country looks volcanic; but this does not appear to affect the existence of oil in such a country. Mexico and Japan with their large oil fields are countries of eruptions and earthquakes that cannot be duplicated anywhere. The recent oil strike at Calgary is interesting capital to the extent of tens of millions of dollars. There is no place in the province of British Columbia where better indications of oil can be found and one of the greatest of geologists, the late Sir G. M. Dawson visited Graham Island and reported on the oil showings many years ago.

It would not be advisable for the people to run away with the idea that there is open ground on the west coast of Graham Island to be located. It is all staked and re-staked by persons applying for licenses; but there is only one drill at Tiahn Point and it has not been working for some time. A start is now being made at Tiahn and it will not be long before that portion of the oil field will be thoroughly tested. More drills are wanted and those who are the forerunners in drilling will reap a rich harvest.

MASSET HOLDS ANNUAL SCHOOL MEETING

The annual school meeting was held in the school house at Masset on Monday afternoon. Mr. Chas. Harrison, secretary, read the reports which were adopted on motion of Mr. Wanless, seconded by Mr. Godwin.

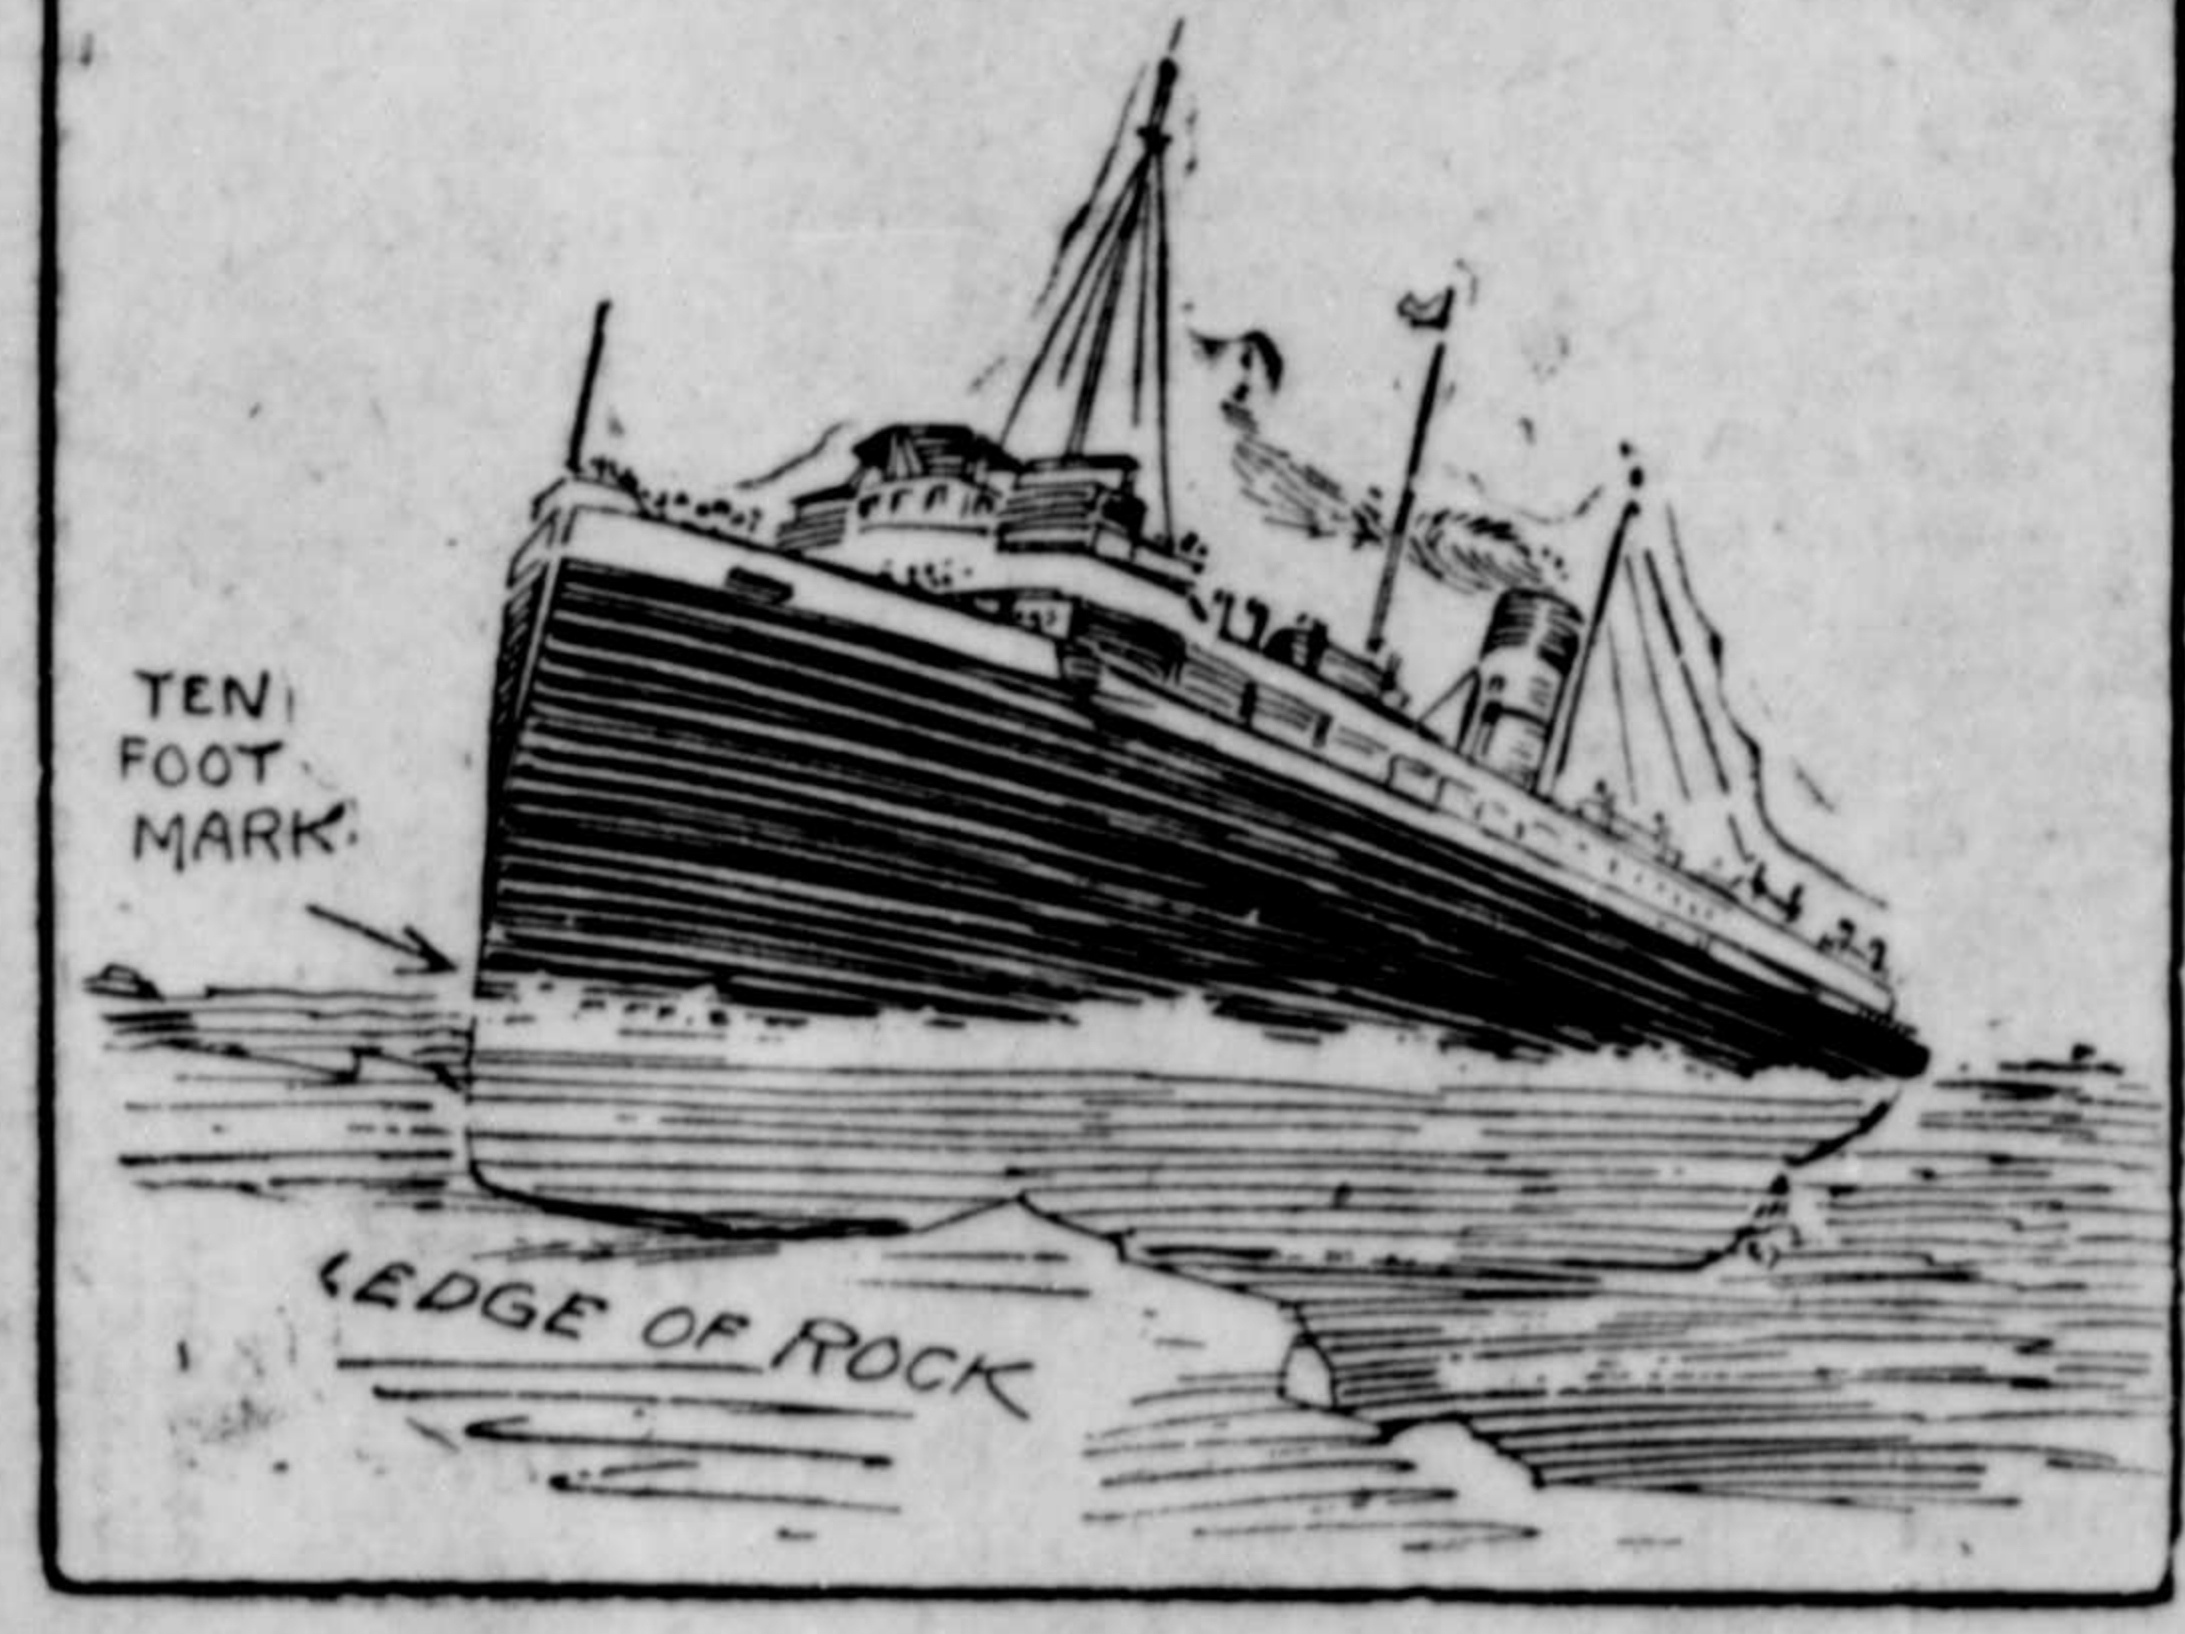

It was unanimously agreed to that the sum of \$1,000 be assessed for the district for school purposes, \$500 to supplement the teacher's salary, and \$500 for incidental expenditures.

On motion of Mr. Orr, seconded by Mr. Campbell, G. M. Wilson was elected a trustee for the next three years.

J. M. Campbell was appointed auditor on motion of Mr. Hicks, seconded by Mr. Wanless.

There are 46 scholars on the roll, 28 boys and 18 girls.—Q. C. Islander.

SALVATION ARMY'S PAGEANT OF THE NATIONS

The assembly of Salvation Army members on the Thames embankment in London, prior to the march to Hyde Park. The world-wide work of the Salvation Army was brought home to Englishmen when the representatives assembled on the embankment and marched to Hyde Park. The Congress numbers several thousands, representing fifty countries, and speaking over thirty languages. In the foreground of the picture we see a group of German peasants from the Black Forest in costumes consisting of bright red waistcoats and long blue and emerald green coats. Behind is a mounted American Salvationist with a megaphone. There were fifty-seven bands in the procession.

GREAT NORTHERN INTERIOR EMPIRE IN ITS VASTNESS

INDIAN AGENT AT FORT FRASER TELLS OF IMMENSE POSSIBILITIES FOR DEVELOPMENT OF THE NECHACO VALLEY

"People resident at the coast big rush to occur as soon as the Grand Trunk Pacific commences to operate a regular train service. A very large proportion of the land has been taken up in some form or another, but there is room for much settlement, and under the most favorable conditions in respect to the price of land.

"The climate of that section of the province is excellent. It is cold in the winter, but usually the season is characterized by bright, bracing weather. It differs from climatic conditions which prevail on the prairies in that there is almost complete immunity from blizzards.

"There is every indication that sections of this area are rich in coal deposits. Occasionally the Indians have come in with samples of fine coal, but any attempts that have been made in the past to interest capital have been fruitless, the argument having been advanced, and with some reason, that owing to the lack of transportation facilities and the remoteness of the district it was premature to open mines. But now that we are promised railway connection within a few months,

Anticipates Big Rush

"Settlers have been going into the country to a greater or less extent for the past eight years, but of course we anticipate the

FILING OIL LEASES MAKES RECORD

Calgary, July 17.—Sixteen thousand filings have been made during the month of June on lands situated within the district controlled by the Calgary land office for oil and gas rights.

A total of \$120,000 was paid for fees into the government, and W. E. Talbot, of the Dominion lands office, states that if the present rate of filing oil leases keeps up the record of the current year will be more than double that of any previous year in the history of the land office.

Sixty new oil companies, with head offices here, have been registered with the registrar of companies from June 9 to 22, according to the latest number of The Alberta Gazette.

this situation will change, and in my judgment, we shall very shortly witness great activity there on the part of investors.

"Not only is the Nechaco country most inviting from the standpoint of the farmer and the agriculturalist, but to the sportsman it offers rare opportunities. There is an abundance of game, and as for fish why in one stream I have made a cast with three flies and caught three trout at a time.

"As indicating that British Columbia is a country of great distances, I may mention that the territory over which I have jurisdiction as Indian Agent is 60,000 square miles in extent. It runs from the Blackwater River on the south to the Laird River on the north, and from Fort George on the east to the Bulkley Summit on the west. In this great area there are not more, perhaps, than 1,400 or 1,500 Indians, but that does not alter the fact of the immensity of the territory over which the jurisdiction of the Indian Agent extends.

"We, in that section of the country, are looking forward with great eagerness to the consummation of the scheme for the construction of a line of railway to the Yukon and Alaska. Not that the Nechaco country or Fort Fraser is in the direct line of route, for that is not the case, but we believe the road will open up a magnificent country and be the means of bringing about much development in which we shall share indirectly.

"I had the pleasure of an interview with the Premier, Sir Richard McBride, and we talked much of the Alaskan railway project. I have been over a great part of the territory which will be traversed by such a line, and was able to assure the Premier that no part of Western America today contained such great potential wealth, and that it is my conviction that not only would the proposed road result in marvelous development, but that it would be a paying line almost from the start.

"The main object of my visit to Victoria was to lay some matters before the Royal Commission on Indian Affairs. The members of the commission are about to visit my agency, and they proposed to do the trip in about two months. I told them the extent of the territory they would have to travel and assured them that they could not possibly cover the country in less than two seasons."

Mr. McAllan mentioned that the famous Indian outlaw, Gun-Ah-Noot, was still at large. Public opinion is so strongly in his favor, both among the whites and Indians, that many hold that should he be brought to trial for the murder of two white men some four years ago near Hazelton he would be acquitted by any jury.

OUR MUTUAL GIRL AT THE WESTHOLME THEATRE TONIGHT

The tenth instalment of Our Mutual Girl will be shown to-night at the Westholme Opera House and as usual this number promises to be very interesting and popular.

A fine two-reel Spanish feature "The Bells of Austi," will be shown. The story is quite out of the ordinary and with its quaint Spanish setting and intense emotional interest it is sure to please.

"Double Crossed," is a Keystone comedy and one of the best ever, which is "huff ed."

A new Mutual Gazette concludes the performance.

Household goods and furniture as good as new at half price. Crosby's Second Hand Store, 839 Third Avenue. 153-17

FIRST BLOOD IS DRAWN BY WHITE FISHERMEN

Many Japanese Unable to Show They Are Bona-Fide Residents of District

New Westminster, July 17.—The Fraser River Fishermen's Protective Association has won the first round in the battle of Japanese elimination on the Fraser River in the fishing industry by the forcible exodus of Asiatic fishermen from fishing drifts above the Fraser River bridge.

This was brought about by the action of the Dominion fishery officers who, last week, made a thorough inspection of all licenses held by upriver fishermen. Any that were not officially stamped to show that they were bona-fide residents, irrespective of nationality, were ordered below the bridge.

As no licenses had been issued by the department in that district they were compelled to float down stream below the bridge. This new order affects half a dozen large colonies of the little brown men in connection with the sock-eye fishing.

INFANT SENT BY POST

Baby Has Narrow Escape Being Sent to Dead Letter Office

Laporte, Ind., July 16.—Uncle Sam's parcel post proved its efficiency when it delivered a two-year-old baby boy to his father in this city, the sender being the mother, who is staying at the home of friends seven miles in the country.

Rural Carrier Fred J. Stoll was astonished when he drove up in his automobile to the mail box in front of the home of L. J. Lentz, near Stilwell, to find there a baby, with a tag pinned to its coat bearing directions for delivery to Henry Euler, 719 John Street, Laporte. Beside the box stood Mrs. Euler who paid the 17 cents postage. The baby weighed 25 pounds.

When the carrier arrived with the baby at 719 John Street, H. Euler was absent, and Mrs. Chas. Euler, the grandmother, declined to receive the piece of mail.

The carrier knew that if he brought the baby back to the postoffice it would be necessary to wire Postmaster-General Burleson for instructions as the baby could not be sent to the dead letter office. However, the father was sent for and he decided to accept the baby.

DR. PRICE'S CREAM Baking Powder

Purity in food, lower cost of living—these are the demands of the day.
Pure food is health, and health is economy itself. We cannot have health without healthful food.

The most healthful foods are the quickly raised flour foods—biscuit, cake, muffins, crusts and other pastry, when perfectly made from wholesome ingredients.

Dr. PRICE'S baking powder makes these foods in specially attractive, appetizing and wholesome form, and for both economic and hygienic reasons, such food should be more largely substituted for meat in the daily diet.

But bear in mind that alum, or unwholesome baking powder, can never make pure, wholesome food.

150 EXCURSIONISTS VISIT THE SMELTER CITY

(Continued from Page 1)

a marvellous and unfailing harvest of fish. Close to Rupert are some of the most wonderful mineral areas of the world. Here has the ingenuity of man turned forces of nature against nature to wrest the treasures from the everlasting hills. Our timber will be another great channel of industry. And still a greater asset than all, and without it all is of no avail, are the men and women of the north. We owe a debt of gratitude to them.

In speaking of the slogan "develop the north," he advised Rupert to remember that there was a south and an east and an interior and co-operation is necessary to build well. He advised patronizing home industry and buying at home.

The Provincial Government bureau from which he came, was a clearing house, for provincial information. He anticipated making a visit to every part of the Province to collect this information and Prince Rupert was the first point of that missionary pilgrimage. The Board of Trade commissioner at Prince Rupert was complimented for the way in which he made out and forwarded his reports.

A great and powerful corporation, farseeing and sagacious, had selected Prince Rupert for their terminal and when a spot is chosen for an ocean terminal by a big corporation it always brings into being a great city. Prince Rupert with its harbor facilities, its fish and its splendid position, is bound to be as big as Seattle and it has its wonderful hinterland as well. It will be the north star of Canada's brilliant constellation of cities.

In closing Mr. McGaffrey said they were to keep British Columbia a white man's country. We will have to apply the law of self preservation to keep from being inundated by the Orientals.

A vote of thanks was moved by A. J. Morris and J. Lorne McLaren.

Other Pleasures
Aboard the Rupert Thursday afternoon there was a ladies' bridge tournament which attracted many candidates. The top scores were won by Mrs. P. F. Godenrath and Mrs. C. W. Peck. Capt. Nicholson, manager of the steamship line, offered pretty Jap fruit baskets as prizes and these

were presented to the ladies by Capt. D. McKenzie.
At 4:30 afternoon tea was served, and at five-thirty the party landed at Stewart and paid the Portland Canal town a three hour visit.
In the evening a splendid programme was given in the drawing room, the ship's crew taking a prominent part, and later there was a dance.

Organized Labor Union

The Prince Rupert General Labor Union was organized in the Carpenters' Hall on the evening of July 16th, and considerable business transacted. President D. Dunlop and Secretary W. H. Denney were installed for the ensuing term and a number of new members were initiated.

The remaining officers will be installed at the next meeting to be held on the evening of July 23rd at 8 p.m., and in a very short time the new labor union will have a greater membership than any other union in the city. There were a number of very interesting speeches and the evening was a combination of pleasure and business.

J. O'Brien, district organizer, officiated, and he is highly satisfied that the new union will carry on business in such a way as to maintain the same high degree of respect and public opinion as do all the other unions at present in Prince Rupert.

Father Cocola Takes Holiday

Father Cocola, who has been in charge of the Roman Catholic Indian Missions in the interior for many years, went south on the Rupert today. He is bound for Europe for a well earned vacation.

Father Cocola is beloved by the Babine tribes. Many of them accompanied him to Hagnelgate to bid him farewell and several chiefs even came to Rupert to see him off.
