MEETING IN CONFERENCE WITH POLITICAL LEADERS -- \$200 FOR PRIZES TO INDIANS AT THE FAIR

HINDUS EJECTED BY FORCE-- RAINBOW AND 230 MEN IN ACTION

ALL DEMAND SURRENDER--FAILING THIS, BLUEJACKETS WILL BOARD SHIP UNDER FIRE--ANY ATTEMPTING TO ESCAPE WILL BE SHOT

(Special to The Daily News)

Vancouver, July 21.—The Rainbow left Victoria at 10:15 last night with about 230 men aboard, armed, with an assortment of shells and small gun ammunition. A final effort will be made to get the Hindus to surrender. If this fails an action will start immediately. The decks of the Komagata Maru will be covered by a concentrated fire of which the bluejackets on board the ship and batten hatches on the Hindus, possibly with the aid of the steam pipe of the Rainbow.

Sharp shooters will be placed on the wharf to shoot any who attempt to jump overboard and land ashore.

Vancouver, July 21.—The 6th Battalion of Irish Fusiliers are on duty to-day in connection with the proposed defence of the Komagata Maru.

The regiment will go on board the Rainbow which it is proposed to commission to escort the Komagata Maru, with two hundred and fifty Hindus on board, out of Vancouver harbor.

Victoria, July 20.—The cruiser Rainbow probably will leave here at 10:30 tonight in connection with the escorting of the Komagata Maru out of Vancouver Harbor. She has taken on a new crew, calling at the Esquimalt Wharf. The scene has caused much animation among the bluejackets.

The ship hands are busy placing stores on board and getting the cruiser in readiness to sail. She has already got steam up and before the night is over it is expected she will leave to enforce the orders of the Immigration Department in ordering the Hindus to leave.

POURED OIL INTO DEBATE DULL SESSION CITY COUNCIL

GERMAN DISCUSSED NUMEROUS TRIFLING MATTERS AND SOME QUESTIONS OUTSIDE THEIR JURISDICTION

The session of the City Council was dull last evening. Several members were absent including city clerk, the city solicitor, city engineer, and the debate confined wholly to the almanac. It was not as lively as usual.

About the only sensation was solicitude that good socialist Montgomery showed for the sale of the oil stocks. He hoped so that the many with money to invest will not get stung.

Montgomery drew the attention of the City Council to the fact that oil stocks were being sold about the city and he tried to enquire if these peddlers had licenses and whether they were in the power of the City Council to protect the public.

McClintock objected also to the selling of promotion stock. The Acting Mayor did not think the Council could do anything more than recommend the Attorney General taking action.

A motion was passed for the committee to take up the question with J. H. McMullen, permanent agent.

Procedure By-law Again
McClintock drew the attention of the Council to the fact in sending questions to committees with "power to act" that the committees sometimes recommended tenders amounting to thousands of dollars whereas they were not supposed to order anything over \$50 without referring to the Council.

The Acting Mayor admitted this was contrary to the proposed by-law and the breach of by-law was done innocently.

Plans for Telephone Bldg.
Basso-Bert who was glanc-

ing over plans for the new telephone building, suggested that competitive plans be called for.

Ald. Montgomery said the by-law had to go to the electors first and Ald. Dybhavn added that competitive plans would be called for after the by-law is passed.

Building By-law Amendment Killed

The by-law to amend the building by-law respecting air space and plumbing arrangements was brought up again, and Ald. Maitland asked for it to be laid over again. The Council wanted to kill it and refused to lay it over. On a vote it was decided to take up the consideration of it and on the third reading it was killed in committee.

Garbage Scow Tenders
The health committee reported that they required Chas. Benson, whose tender for the garbage scow was accepted, to build the scow in Rupert, and he refused to accept it on that condition as he intended building it in Vancouver. The committee asked for instructions.

Ald. Montgomery and McClintock moved that the next lowest tender, that of Mr. Peterson, be accepted, which was carried.

This second choice is \$460.00 higher than Benson's tender.
Engaged Auditors
The finance committee reported recommending the engagement of the firm of Reddell, Stead, Hodges & Winter as city auditors, one of the principles to act. The salary is to be \$25 per day for the principal and \$15 a day for the assistant with travelling expenses. The total expenditure

(Continued on Page 4)

BOWSER DID NOT LIKE THE ROAD

The Omineca Herald, in describing the visit of the Attorney-General and Hon. R. W. Ross to New Hazelton says:

"It was intended that the party should drive over the high level bridge, on to the old town and then across the Bulkley River and up the heavy grade on the Government road to the South Hazelton station, where the train was to pick them up. Unfortunately it had rained a couple of days before the visitors arrived and it was next to impossible to make the grade up the long hill to South Hazelton without the passengers walking, on account of the mud. The walk did not meet with the approval of the attorney general and he refused to go."

BIG GALE WRECKS VANCOUVER BOATS

Many People Witness Effects of a Terrific Westerly Gale in Harbor

Vancouver, July 21.—Hundreds of people lined the shores of English Bay Beach and other points to witness the effects of a terrific westerly gale that struck the harbor yesterday.

The shore at the bathing beach was littered with wreckage, seven or eight boats having been caught in the gale and destroyed before assistance could reach them.

Many hurried to the shores and rendered what assistance they could, resulting in a number of thrilling escapes and gallant rescues being made, notwithstanding the boiling surf.

The Cradle

Hunter.—Born to Mr. and Mrs. James Hunter, 721 Fifth Avenue, West, on July 20th, a daughter.

FOOTBALL

Last night at the Dry Dock grounds the Callies met the Merchants for the first time under league auspices. Notwithstanding the rather unfavorable weather conditions there was an exceptionally large gathering of spectators when the teams lined up, twenty-five minutes after the scheduled time. After the recent heavy rains the grounds were in anything but good condition. Play however, was indeed always interesting, the Merchants seeming to adapt themselves more to the state of the ground, keeping the ball moving ahead all the time.

This policy soon brought reward, Kinghorn putting his team two goals ahead before half time. At no time in the game did the Callies ever look like winning, their movements being disjointed and without that forcefulness that is necessary to bring success. In the latter period of the game the Merchants secured another couple of goals. Just previous to this however, through a weak clearance from the Merchants' defence, the Callies were enabled to score their only point of the game. Light was now falling and with the lines obliterated the referee called the game at four minutes from time with the score standing 4 to 1 in the Merchants' favor.

The feature of the game was the goal-keeping of Bloomfield, the Callie custodian, who gave the finest exhibition yet seen in this city.

Leather easy chairs and rockers at prices cut in two. Geo. D. Tite's summer sale.

HAZELTON WON BOTH GAMES FROM SMITHERS

Divisional Point Town Now Out of the Champion Class

(Special to The Daily News)

Hazelton, June 21.—Hazelton baseball team won Sunday's league game from Smithers by 15 to 1. The battery was Pike and Rock. On Monday they repeated the good performance and won 11 to 2 against the round house team. Sinclair and Rock were the battery for Hazelton in this second game. These two victories put Smithers out of the running for the league championship.

There is now much interest in the game, here next Saturday between Hazelton and New Hazelton.

GARBAGE DEPARTMENT STYLE ALL THE WHILE

New \$4,400 Auto Car for Tin Can Brigade Arrived Here Yesterday

The city's new \$4,400 garbage auto car arrived yesterday on the Prince Rupert and was housed in the basement of the fire hall in the afternoon. The city garbage department is now "style all the while."

The new truck will be manned by two crews, each having a liveried coachman at the wheel and two outsiders to handle the cans.

The truck is a two ton Packard with a big iron tank that can be elevated and dumped in a moment's time.

The department is having a new wharf and approach built on Section Two waterfront, and a new scow to carry the garbage to sea. The truck will run out on the wharf and dump its load into the scow. The department hopes with this equipment to give a good and reliable service.

It was originally intended to have only two men on a crew but the auto drivers refused to perform the scavenging service.

It is probable that a garage will have to be erected as the fire chief says it can only be temporarily housed in the fire hall building.

APPROPRIATIONS A BLUFF

When Wm. Manson, M.P.P., returned to Rupert last March after the session at Victoria, he boasted to a meeting of his supporters that he had secured an appropriation of \$216,000 for Skeena roads and bridges, although that amount is only half what the appropriation was a year ago. Now it appears that even the \$216,000 is pretty much of a bluff, and it was never intended to spend that amount in the constituency. For instance at Bella Coola an appropriation of \$14,000 was made, and the work is stopped after \$5,500 is spent. In Rupert we were to have \$20,000 on the road around the island. That, too, has been cut out. These appropriations appear to be a crude attempt to hoodwink the constituency.

PRODUCED BOOZE BUT NO CONVICTION

Police Put Whiskey Detective on Grand View Hotel

The blind pig charge against Antoine Bergnach, of the Grand View Hotel was heard in police court this morning and the case was dismissed.

Frank Ward gave evidence that he had purchased a room for 25c and a pint of whiskey and water for \$1 from Bergnach on Saturday night in the Grand View. He got two one dollar bills from the police, who followed him to the place. He gave the police the whiskey and showed them the 75c change.

In cross examination by Mr. Patmore, he said he had been convicted of supplying liquor to Indians. Witness said he did not owe Bergnach anything for back room rent.

Officers Adams and Marshall gave evidence corroborating Ward and of finding the two one dollar bills which they had given Ward in Bergnach's room.

The defence was that Ward had paid 25c for the room and the \$1 on an old account. No whiskey was sold, and the police did not find any.

The pint which Ward handed the police outside the Grand View was produced in court. The magistrate dismissed the case.

"THE CURSE OF GREED"

Splendid Five Reel Feature Next Wed. and Thurs. at the Westholme

The splendid five reel feature "The Curse of Greed," which will be shown at the Westholme Opera House on Wednesday and Thursday is certainly a highly meritorious production in all its details.

A mere slip of a boy essays the leading role and sustains it throughout the five reels amazingly.

The plot of this picture is complicated but extremely comprehensive. The cast in all respects is strong and typical. Beautiful scenes abound throughout. A cabinet scene embracing over 200 persons including clever professional artists is one of the features, but the court scene in the final reel is an absolute masterpiece of artistic stage production that must be seen to be appreciated. The utmost intensity is prevalent in this offering and photographically it is perfect. A very funny "Bunny" farce comedy will conclude a most excellent program.

Household goods and furniture as good as new at half price. Crosby's Second Hand Store, 839

ROSS RESERVED HIS DECISION ON RUPERT HYDRO ELECTRIC

BOTH SIDES MUST PUT IN ARGUMENT IN WRITING--CONFERENCE LASTED TWO AND A HALF HOURS--RUPERT HAD TWO LAWYERS

(Special to The Daily News)

Victoria, July 21.—The determination to reserve decision until counsel representing both sides had presented written briefs, was the result of the conference Friday between the Executive Council of the Provincial Government, representatives of the municipal council of the city of Prince Rupert and the Prince Rupert Hydro Electric Company, relative to the matter of the application of the latter company to enter the northern city with its wires and poles.

The matter was taken up very fully, the conference lasting from 1 a.m. until 1:45 p.m. Mr. Wm.

Manson, M.P.P., headed the delegation from Prince Rupert, which included Mayor Newton, City Engineer W. McG. Mason and Mr. Fred Peters, K.C., solicitor for the municipality. The latter was assisted in the presentation of his argument against the application by Mr. H. A. MacLean, K.C.

Company's Case Later

Victoria, July 21.—In the matter of the city of Prince Rupert vs. the Prince Rupert Hydro Electric Company, the city presented its case but the company secured permission to defer their presentation till August 10th.

UNIONISTS ARE OPPOSED TO KING HOLDING CONFERENCE

THEY HAVE INSTRUCTED BONAR LAW NOT TO YIELD WITHOUT EXCLUSION OF ULSTER--LABORITES ALSO AGAINST INTERFERENCE

(Special to The Daily News)

London, July 21.—The Unionists are heated over the proposed conferences between the King and the leaders of the parties. They have instructed Bonar Law not to yield without securing the exclusion of Ulster.

The Laborites have passed a resolution condemning interference and a conference with the two armed leaders.

The Nationalists held an exciting meeting, the outcome of which is unknown.

HUMBOLDT GOES TO AID OF CRAFT IN DISTRESS

Picks Up Cannery Tender Off Hermken Island and Tows Her to Alert Bay

Seattle, July 21.—Capt. E. G. Baughman, master of the steamship Humboldt, of the Humboldt Steamship Company, in a wireless dispatch received here stated that he picked up the cannery tender B. C. T. at 5:40 p.m. in distress off Hermken Island.

The vessel had a broken tail shaft and was in a helpless condition. Capt. Baughman said that he had the B. C. T. in tow and would take her to Alert Bay. A strong northwest wind was blowing and had not the Humboldt sighted the little vessel and gone to her assistance she would probably have been driven ashore and lost.

The B. C. T. is owned by the British Columbia Packers' Association of Vancouver.

INDIAN DEPARTMENT OFFERS \$200 PRIZE

At Rupert Fair to Encourage Indian Agriculture

As a result of the representation to the Indian Department at Ottawa, the department has decided to offer \$200 in prizes at the Rupert Fair for the purpose of encouraging agricultural pursuits among the natives.

The prizes have not yet been specified, but the most of the money will be offered for products of the soil produced by Indians.

This will result in a good exhibit of Indian products at the big fair and will be quite an incentive to the natives.

Some Handsome Trophies

Yesterday T. D. Pattullo had placed on the walls of his office mounted heads of a moose, a caribou and a mountain sheep. These adornments are all trophies that fell to the rifle of John Horne who is one of the best known old-timers of the North and a hunter of great skill. Mr. Horne is a very modest citizen in Rupert, but it is said that when he strikes the trail in the Yukon that all the big game take to the hills.

The Western Plumbing Company have secured the contract for the plumbing and roofing of the new exhibition building and a contract for similar work on the new Borden Street school.

Launch Ranger. Ph. Blue 400.

DAILY EDITION

Tuesday, July 21, 1914.

The delegation Prince Rupert sent to Victoria to fight for our franchises seems to have acted like a bunch of school boys. The power company evidently saw them coming and had the trap set. They represented to the Government that their chief counsellor was indisposed and asked that the sitting be deferred. Of course, it is possible that this was really the case and the request to have it deferred would be quite in order. When such a request is made in a law court the party asking for the power always pays the bill whether it be legal fees or cost of traveling. But Prince Rupert's school boys evidently didn't ask for that. In fact, the Government suggested very kindly that the city present its case and then they could go home and be good little boys and the power company could reply when they were ready.

No doubt that looked fine to those poor inexperienced diplomats who would save a cent even when it might mean the loss of a thousand and who were so obliging that they did not want to place on the Prince Rupert Hydro Electric Company the cost of another trip to Victoria. They accordingly presented their case like pretty little boys giving a recitation never realizing that the enemy was there pencil in hand ready to take advantage of their arguments. What would anybody think of his lawyer who would

give away to his opponent the vital arguments of his case before the case was tried? The lawyer who knows the arguments of his opponent has a big advantage. But not so the dauntless champions of Prince Rupert. Not only did Wm. Manson show his hand before the Executive but he had to go and blab to the Vancouver Province when he should have guarded well the case he intended to make. The power company will now have till August 10th to tear to ribbons the arguments of the city.

Wm. Manson told a public meeting recently that he would have his way with the Government or there would be a fight. In the first round the Hydro Electric drew blood and William never raised a hand. He probably concluded his address with the remark: "Now gentlemen, this is our case. If the Government in its wisdom can see fit to grant our request we shall be delighted. If not I suppose we must be satisfied."

The playing of a game of baseball last Sunday between Prince Rupert and Ketchikan teams has caused a good deal of unfavorable discussion about town. Canadian sentiment all over the country is against the practice of robbing the Sabbath of its reverence. Whatever may be one's private theological views, most thoughtful people believe that the influence of a reasonably observed Sabbath has a last-

ing benefit on the rising generations and because of that they would not like to see it given over to sport. Perhaps under the circumstances there may be a little excuse for the recent game, but public opinion in Prince Rupert would not stand for too many repetitions.

TRACING THE LIFE AND HABITS OF THE HALIBUT

W. F. Thompson Studying the Big Fish of Commerce

W. F. Thompson, of the Provincial Fisheries Department, who is spending the season investigating the halibut, was in Rupert a few days ago.

For two summers previously he has been working on the clams of British Columbia, but this year he was put on the trail of the halibut. Through the big, white fellow is a very important fish and much prized, no one has ever systematically studied him. Little or nothing is known of the breeding habits of the fish or of their age at maturity. What the department is working for—and this is the case with Mr. and Mrs. Sockeye Salmon as well—is an intelligent crop report, one that will give as much as possible the number of available fish in years to come, and also give the best indications in advance of what the run will be like, etc.

Mr. Thompson has so far visited three different halibut banks. On the first he found almost all the fish were eight years old. On the second they were eleven years old, while on the third fifteen-year-old fish predominated vastly. All of which appeared to show that certain definite schools of fish belonged to individual banks.

Determining the age of halibut is quite a feat of fish science. The halibut keeps his birth register neatly inscribed behind his ear. It is bred in the bone. Remove this little bone, carefully shave it down to the thickness of a sheet of mica and by holding it to the light you may with the proper instruments count the number of annual rings recorded there just as you would in determining the age of a tree.

His report will be published in the provincial printing bureau.

AMERICAN SETTLERS ARE SATISFIED WITH PEACE RIVER COUNTRY

Edmonton, July 21.—J. E. George, immigration inspector for Alberta, is authority for the statement that although fewer immigrants are coming into Canada as a whole than for the past few years, there are larger numbers than ever going into the Peace River country.

The fact that immigration is lighter this year than usual he does not look to with apprehension, as the United States experienced similar fluctuations during the years that it counted on its population being added to by outside immigration to a great extent.

Mr. George states that the settlers in the Dominion from the States, particularly those who have gone into the Peace River country, are very well satisfied with conditions as they have found them.

Southbound

Passengers on the Princess Alice sailing Saturday were:—T. D. Prettie, A. Cameron, Mr. and Mrs. C. H. Sawle, Mr. and Mrs. J. T. Allen, Walter Burns, A. J. Levy, D. Brown, Wm. Brown, S. P. McMorde, Mr. and Mrs. Campbell, R. G. Barrum, W. Matheson, A. Golette, T. Antipose, F. G. Parker, W. J. McAfee, N. Foran, G. W. Tornroos, S. Jervelinet, R. Tarants.

Those leaving on the Princess Beatrice Sunday evening were:—A. Thompson, Thos. Wilson, J. A. Collins, G. D. Bain, Mr. and Mrs. H. Nelson.

THE BIG FOUR OF THE SHAMROCK IV.

Sir Thomas Lipton, owner; Mr. Nicholson, designer; Captain Burton, skipper; and Duncan Hill, who will sail the challenger for the America Cup across the Atlantic.

WHAT HAS BOWSER TO DO WITH THE ROADS?

Question on Timely Topic From Bella Coola Courier

The following extract is from the Bella Coola Courier:—

Attorney-General Bowser and Hon. W. R. Ross, Minister of Lands, have started out on a tour of Northern and Central British Columbia.

The purpose of this tour, according to the Conservative press, is to enable Mr. Bowser "to get fully into touch with Northern affairs and conditions, to meet the people and find out personally the worthiness of the various demands made by the Northern districts on the Government."

So Mr. Bowser is to be the judge as to the worthiness or unworthiness of any request from the North on the Government. At the same time it is admitted that he is completely out of touch with conditions in this part of the Province. For instance, fancy Mr. Bowser coming to Bella Coola (of course he will not) and after spending at the most one

day in our valley, condemning one of our most needed requirements as an unworthy demand on the Government. He is going to meet the people and find out personally.

We would like to know what our affairs have to do with Mr. Bowser personally? We have a local representative whose duty it is to meet the people, study their requirements, and to make their needs known to the Government. Are we to understand that Mr. Bowser has no confidence in our local representative? It certainly appears that way to us. It was generally understood that the visit of Mr. Griffith, Deputy Minister of Public Works, to various parts of the country was for expressly the same purpose. It would appear that he did not stand very high in the estimation of Mr. Bowser, either.

Quarter oak dressers and chiffoniers receive a 25 per cent reduction at Tite's summer sale. tf.

REAL ESTATE is just as good an investment in Prince Rupert today as it was when the market was active and the speculators were making a quick turn over. No man who holds any bulk of property here anticipates or fears a slump. The big owners have perfect confidence in the city and in the real estate. They are improving their property and getting good revenues. That is where the small owner is handicapped during the period of inactivity. He has not enough money to improve his property and get a revenue. But if he pooled his available means with the savings of others, the whole would make a good working capital. That is where the Prince Rupert Building and Investment Co. is helping the small capitalist to make good. This company improves its property and has an income. It has been one of the most successful organizations in the city. It has paid an average of SEVENTEEN PER CENT in dividends in the past three years. We have a limited amount of stock offered for sale.

GRAHAM ISLAND MAY BE A FUTURE NAVAL BASE

OPINION EXPRESSED BY LAND OWNER WHO HAS RETURNED FROM TRIP—PIONEER COMPANY WAS READY TO RECOMMENCE WORK

That there seems a certainty of striking oil on the west coast of Graham Island, and that the pioneer company was ready to recommence work, was the opinion expressed by Mr. S. D. Sewall, one of the heaviest individual owners of land on Graham Island. Although Mr. Sewall has been interested in agricultural and timber land on the island for a long time, he never took advantage of the many opportunities he had to visit the west coast. He explained this by saying that with thousands of other citizens of British Columbia, paid no attention to oil nor oil prospects in the Province until the Calgary oil started.

Mr. Sewall returned to Vancouver last week from a trip north in connection with his land holdings, and this time he went over a trail from Sewall, a town on the west coast, to the drill that is working on the west coast. He brought back with him to show his friends and business associates two boxes of samples of the oil which forms the capping of the oil fields.

"We, who have been interested in the various business enterprises on Graham Island," Mr. Sewall said, "have been hearing for years about the oil indications on the west coast. To be frank, I was skeptical myself. I have associated oil and California and other places where wells are producing. Of course, if one could have stopped to think, there was no reason that oil could not exist in this Province. Now that I have inspected the island, and knowing something of the California oil fields, I am certain that this province has a most promising field on Graham Island."

"I covered a good deal of territory on the west coast, and I should judge the field is extensive. I travelled a good part of the recognized oil field and it is, I should judge, some twenty by ten or twelve miles in extent—that is where the indications on the surface are to be found where there is not too much vegetation. When I left the west coast the pioneer company was getting their drill in shape to recommence operations."

"People of the North, though this field has been at their very doors, finally are excited about it, so that the Alberta oil boom has done at least that much good for British Columbia. The Graham Island field now will be thoroughly prospected. The district is practically all located now."

"When they get oil, which I have not the shadow of doubt about, it will not be a proposition for the Standard Oil trust or some other concern getting hold of it. I believe the admiralty will take over this field. It is the best proposition on the west coast for a naval base that I have ever seen, and this undoubtedly will be the outcome of the discovery that there is oil there in commercial quantities. Olad Bay is a good, deep harbor, and looks out upon the broad Pacific. The storms on the west coast have worn the formation of the island into all kinds of caves and great cracks. It is a dangerous coast for the most part except at Olad Bay, which offers excellent shelter."

News Notes from Smithers

(Smithers Tribune)

A large picnic party spent the day at Lake Kathlyn last Sunday.

Mr. J. Thorp, of Aldermere, was business visitor in Smithers yesterday.

A shipment of farm machinery being made by Henry & Dunlop of the Nechaco Valley.

Miss Kate Carr came over from Carr ranch this week to spend a few days.

It is rumored that work is to start in the railway yards here within the next few weeks.

G. F. McDonald returned from the Coast this week where he had been looking after his interests in land on Graham Island, in which there has been considerable interest around Prince Rupert.

An auto party left here early last Sunday morning for Barrett Lake where they spent the day fishing.

Mr. C. R. M. Gale, teller-accountant at the Union Bank of Canada, Telkwa, has been sent to Vanderhoof to assist in opening the new branch there.

Frank H. Frank, of Vancouver, has located ten sections of coal lands in the vicinity of Lake Kathlyn, three miles from Smithers, and is now stopping at Jennings Bros. road house. He expects to do some work on this property in the near future.

A force of between twenty and thirty men are now working on the Hudson Mining Company's property just above Lake Kathlyn. The property is being opened up from three different places.

Jos. Fisher is building a trail from the main Hudson Bay mountain trail to his mining property, and as soon as completed will make a small shipment of ore. The ore sacks have already arrived for that purpose.

THE VISCONTESS CURZON: A LOVELY TYPE OF ENGLISH WOMANHOOD

Wife of Viscount Curzon, eldest son of Earl Howe. Lady Curzon is rightly considered to be the most beautiful blonde in London society. Last year she was the Queen of Beauty at the Earl's Court tournament, a part which she played to perfection. Lady Curzon generally spends the winter at the Riviera, golf being one of her favorite outdoor amusements.

TERRACE NOTES

(Special Correspondence)

The Progress Club dance on Saturday night was well attended in spite of the bad weather. The music was furnished by the Terrace band. The dance was given in honor of several lady visitors, and was greatly enjoyed by all who attended.

The bell for St. Matthew's church arrived this week from the East and will be installed within the next few days.

Work on Mr. Little's house and on the new school is proceeding rapidly; the recently erected newspaper offices are now fully completed and the presses in position for early operation.

During the season from 20 to 40 crates of strawberries have been shipped daily to various points up and down the line. The ranchers report a splendid crop this year and the welcome rain promises success in vegetables and other growth which has been backward owing to the prolonged fine weather.

The Lakelse Hot Springs are becoming increasingly a tourist centre. Excellent hunting and fishing may easily be obtained and there is stage accommodation out from town. Visitors also report good sport at Kitsunkalum Lake. Both of these districts are within easy reach of Terrace.

A very successful afternoon tea was given at the rectory on Thursday afternoon in honor of Miss Ethel Evans of Toronto who is the guest of Mrs. W. J. H. Petter. The early part of the afternoon was spent in rifle shooting, the prize for the highest number of points being won by Miss Ivey Ross. After the contest the ladies assembled at the house where refreshments were served. The guest of honor wore a French gown of Copenhagen blue silk, trimmed with point lace. Among the other guests were Mrs. Munro, Lazelle, Gordon, Large, Firestone, Sparks, Giggey, Long and Whitlow, and the Misses Schenk, Brennan, Beste and Ross.

At this time there is more activity in mining in this section of the Omineca Mining Division than there has been in any previous year. Practically every claim owner or prospector is busy in the hills with the season's work, consisting for the most part in developing his property with a view to shipping ore as soon as possible, and this fall should see something doing in the way of loading cars with ore at many of the sidings along the G. T. P. Being able to make these shipments of ore will enable the mines to be worked all winter with a considerable force of men in addition to those actually interested in the claims, thus creating a small payroll in the district.

ORIENTAL LABOR

Edmonton, July 21.—It seems that the Oriental labor difficulty which until comparatively recently has been confined to British Columbia, is extending to other parts, where hitherto Oriental labor has been engaged chiefly in the laundry business. In this city, for example, it is stated that there are some 52 Chinese restaurants as well as two conducted by Japanese. Some of the hotels also are said to employ Chinese cooks and Japanese waiters. Chinese restaurants, it is said, pay white girls about \$20 a month as waitresses, while the union scale calls for \$12 a week and a ten hour day.

An Early-Morning Tale

"Quills has had a story accepted at last," remarked a journalist to a colleague.

"Surely not," was the rejoinder.

"Yes, he went home at two o'clock this morning with an awful yarn, and his wife believed it."

Everything in season cooked the way you like it. London Cafe. 139-1f.

Accounts Were Padded—Southampton Railway Probe Reveals Graft Methods

Fredericton, N.B., July 21.—The inquiry into the cost of the Southampton railway opened in the York County Court House, with Mr. Pringle presiding. T. J. Carter, K.C., M.P.P., appearing for the Railway Department; C. D. Richards for the railway company, and M. G. Teed for J. K. Pinder, M.P.P., president of the company, who also was in court.

The investigation is the result of charges made in the House of Commons by F. B. Carvell, M.P., that the report of the Federal engineer, upon which the railway secured a double subsidy of \$6,400 a mile, was inaccurate.

As a result the inspecting engineer was suspended, and R. A. Pringle, K.C., of Ottawa, was appointed as a royal commission to investigate the cost of the road. Testimony was given by David W. Brown, engineer in charge of construction for a period; D. G. Kilburn, who succeeded E. V. Johnson as government engineer. Jas. Cunningham, concrete contractor, and William and Robert McDonald, construction contractors.

A dramatic feature of the investigation occurred when the commissioner forced a witness to admit that his receipted account was made up for \$1,000 more than he received after the investigation had been ordered. With unceasing indignation the commissioner showed the witness what he thought of the proceeding and drove him from the stand.

Some of the discrepancies uncovered were found in the accounts of James Cunningham, who testified that he received \$3,104 and gave a receipted bill for \$4,040, and whose work is included in the inspecting engineer's report as costing \$7,440.

Capt. Trotter of Amhurstburg, in company with an Indian driver has recovered two boilers from the sunken steamer London off Pelee Island.

PRINCE GEORGE AND DISTRICT NOTES

(Fort George Tribune)

The Fort George Gun Club held their opening shoot Sunday, July 12th, on the new club grounds about one mile west of the town-site.

Saturday afternoon the Cache team handed the Fort George aggregation their second defeat at baseball within a week, this time by a score of 6 to 3.

The Council of St. George's Church is prepared to receive tenders for the moving of their buildings to the new site recently purchased on First Avenue.

A meeting of the Prince George Conservative Association was held on Friday last week and took the form of a smoker. About 60 were in attendance.

About a hundred couples turned out for the opening dance in the new Ritts-Kifer hall last Saturday and expressed great satisfaction at the accommodations arranged for them.

A large company from all parts of the district attended the concert given in Virginia hall Wednesday evening by the Fort George Conservative Association. The Fort George Musical Society was formed at a meeting held Thursday evening with Geo. E. Watson, of Prince, as president and leader. Practices will be held in the auditorium of the new Presbyterian Church every Thursday evening at 8 o'clock. The society started out with 17 members, and in order to provide funds for the purchase of music a concert will be given August 8. The scope of the society includes both vocal and instrumental music, and its membership is open to residents of the entire district.

The annual school meeting was held last week in the Board of Trade hall. H. G. Perry was in the chair and William Bell acted as secretary of the meeting. Mr. Perry reported that there was lack of adequate school accommodation for the 120 pupils, but that the promise of the department would take care of this situation. Mr. Shearer reported that the school board had not been well treated by the government but that better treatment should be looked for in the future. The vote of \$10,000 asked for two years ago was rescinded and a sum of \$3,000 was voted as the estimates for the next two years. A motion of thanks to the trustees was adopted and the meeting adjourned till 1 o'clock when the order of business was the election of a trustee to take the place of C. W. Moore, the retiring member of the board.

The receivers of the Pere Marquette Railroad have been ordered to secure no more licenses and ablish the sale of liquor on the system.

will be about \$700. The report was adopted.

Petition Against Sidewalk

The Prince Rupert Building & Loan Company petitioned against the proposed 16-foot walk on Summit Avenue West as being too expensive and of not much service. The city clerk reported that the petition was not sufficiently signed to have legal effect, and anyway the by-law had been passed and the debentures prepared.

Ald. Montgomery pleaded that the road would prove much too expensive and suggested the finance committee consider the question.

The petition was left to the finance committee with power to act.

Miscellaneous Items

The Prince Rupert Auto Company complained about the garbage wagon standing on the road at night without an attendant. No action.

H. C. Edmond was officially appointed acting clerk in the absence of Ernest A. Woods on his holidays.

Tenders from a number of firms for pipe for the waterworks extension and for valves were opened and turned over to the Board of Works to report on. O. H. Nelson told the Council that Contractor Hilditch was complaining about Borden Street.
