CONFERENCE ON HOME RULE WILL PROVE FAILURE

HINDUS LEFT VANCOUVER THIS MORNING — FLOWER SHOW AUG. 12—WILL STRENGTHEN JAIL

CITY JAIL UNSAFE AND POLICE ACCOMMODATION INADEQUATE

POLICE COMMISSION REALIZE THAT SOMETHING MUST BE DONE NOW THAT COUNCIL HAS CHANGED SITE OF NEW CIVIC BUILDING

At the monthly session of the Police Commission yesterday afternoon, the question of safe and adequate accommodation for the prisoners in the city jail was the chief topic of discussion.

The question was brought up by a verbal report of the chief of police to the effect that three prisoners had escaped from a rear window of one of the cells. The commission visited the cells and investigated conditions. The small windows in the cells on one side all open underneath the city hall. They are barred with soft iron and are easily accessible to anyone to pass in tools or weapons.

In discussing the fixing up of the jail to prevent further escapes, it was shown that the present quarters were quite inadequate. Until a few weeks ago it was anticipated that the new telephone building would be erected on the site adjoining the city hall and that the basement of the new building would be used for jail and police headquarters. The council, however, decided to build a telephone building across the road and the Police Commission is now at a loss what to do. The Mayor thought the Council might reconsider the question.

It was decided by the commission to have the city engineer prepare a plan showing what can be done in the way of increasing the present accommodation by using all the basement. This might be used for about eighteen months when it will be necessary to build a new police building.

The chief of police handed in his monthly report showing \$316.20 collected in fines during June; 26 drunks were fined or committed during the month.

During the discussion, the Mayor suggested that the prisoners be put to work excavating the rock in the rear of the city hall. He admitted the work would be slow and that it would be necessary to hire a practical powder man to work with them.

Commissioner A. S. B. Lucas said the scheme was impracticable and the city solicitor who was present also advised against it.

MYSTERIOUS MURDER AT FREEPORT, N.Y.

The house in which Mrs. Bailey was shot while calling on Dr. Edwin Carman. The man in the inset is Dr. Carman, and the woman is his wife. The marked window is the one which was raised by the person who fired the revolver. This murder mystery is exceptionally interesting in the United States and Canada.

JAP WOMEN ARE OUSTING THE SQUAWS

New Westminster, July 22.—That Japanese women are fast replacing the Indian women and children in the canneries along the Skeena River is the statement of Mr. C. S. Connell, secretary of the Fraser River Fishermen's Protective Association, in a letter to President Maiden.

Mr. Connell declares that the Indians are up in arms over the change and are holding indignation meetings in a strenuous endeavor to have their jobs returned to them.

While many Indian women are still employed on the Fraser River for fish washing purposes it is admitted by the cannerymen themselves that the women of the Jap fishermen, who are coming to this country in larger numbers every year, are slowly but surely ousting the natives from this adjunct to the fishing industry, and while the cannerymen deny that they prefer the daughters of Nippon, they say that Kletchmen are becoming harder to get especially in the off fishing years and the Japs are substituted for that reason. They declare that the Indians are going in for agricultural pursuits to a greater extent than formerly and unless a big run of fish is expected the tribesmen from the upper reaches of the Fraser do not come to the coast to fish.

The duties of the women employed consists mainly in scrubbing and cleaning the fish, the can filling being done by Chinese.

SIGURDSON WINS

(Special to The News)

Granby Bay, B.C., July 23.—Pete Sigurdson won in two straight falls in the wrestling match pulled off here last night between him and Bert Caldwell, Charlie Flood refereed the contest.

The first fall was obtained in thirty-eight minutes with a half-nelson and hammerlock. The second fall in eighteen minutes and a half.

Sigurdson said at the termination of the bout that this had been the hardest battle of his career.

MANY YUKON FOXES DYING IN CAPTIVITY

Dawson, July 23.—The enthusiasm concerning fox catching and farming in Yukon has materially waned during the past few weeks, owing to the fact that the price of foxes has decreased nearly fifty per cent since last summer and that hundreds of foxes held in captivity have died from some unknown cause.

HOME RULE CONFERENCE IS LIKELY TO PROVE FAILURE

CARSON ON THE ONE HAND AND REDMOND ON THE OTHER ARE SITTING TIGHT—PREMIER MAY HAVE TO SAY CONFERENCE WAS A FAILURE

(Special to The Daily News)

London, July 23.—At the close of the cabinet meeting it was known that there was only a small prospect for the Home Rule conference arriving at an agreement. Its termination after today is regarded as certain.

Sir Edward Carson, it is understood, stands out for the complete exclusion of the six counties of Ulster.

John E. Redmond declines firmly to go beyond the concessions which Premier Asquith has already made.

Unless some way out of the difficulty is discovered at the eleventh hour it is believed that Mr. Asquith will be obliged to announce the failure of the conference.

HINDUS LEAVE VANCOUVER—FULL OF ENVY TO THE LAST

AFTER STEAMER BEING LOADED WITH Eatables THEY MADE A LAST REQUEST FOR GOATS, SHEEP AND FOWLS—CAPT. JOHNSON, PILOT

(Special to The Daily News)

Vancouver, July 23.—Considerable excitement was caused over a letter received last evening from the Hindus on board the Kamagata Maru demanding more food. Owing to the Hindus' scanty knowledge of the English language, this was taken as an ultimatum that the ship would not sail without them. The militia was mustered, but on investigation out at the ship it was found that two or three wanted goats, sheep and fowls put aboard and that the letter was really a request.

When notified that they would not get them the Hindus accepted the answer quietly and agreed to sail at five this morning.

Chance to Make Money
Money is tight and I need it, so here's an offer: Up to August 1st I will supply my regular \$25 heating oil for \$15. I guarantee this to boil water in fifteen minutes, and not to affect the oven. Firemen Had Two Runs
A small blaze in the residence of Mr. Arthur, corner of Fifth Avenue and Dunsmuir Street, called the fire department out about 10:30 this morning. The fire was in the woodwork near a stove pipe which became overheated. The damage was slight.

At noon the pot of a tar furnace in front of Letourneau's shop, Sixth Avenue, caught fire. It made a big smoke but one squirt of the hose put it out. There was no damage.

DRUM EXPLODED—MAN LOSES HIS LEG

Terrible Accident at Swanson Bay—Chelohsin Crew Saved Man's Life

The officers of the Chelohsin caught in a story this trip of a terrible accident which befell the caretaker of the Swanson Bay.

Just five minutes before the Chelohsin tied up at Swanson Bay the caretaker went to examine an empty gasoline drum and put a match to the bung hole. The drum exploded and a piece of the steel shattered the bones of his right thigh.

Fortunately one of the stewards on the Chelohsin was able to render first aid and made a tourniquet until the boat reached Swanson Bay when a doctor was taken aboard. The doctor accompanied the patient to Vancouver. The injured man's wife and family also went to Vancouver with him.

He will lose his leg but will recover.

BRITAIN MAY HAVE MINISTRY OF ART

Parliamentary Fine Arts Committee Considering This Among Other Things

London, July 23.—The parliamentary fine arts committee is being called upon to consider, among other things, the important question of increasing the national collections and obtaining for the British galleries and for purchasing pictures and other artistic treasures and also to endeavor to obtain a substantial increase in the grant to the National Gallery for purchasing pictures. This grant is now only five thousand pounds yearly. Another question to be considered is the proposed ministry of art.

A number of members of both Houses of Parliament have accepted the invitation to join the committee, including Sir George Agnew, Viscount Bryce, Sir Edward F. Coates, Earl Curzon, Sir Alfred Mond, Sir Gilbert Parker, Sir Herbert Raphael and the Earl of Crawford.

The Daily Telegraph welcomes the committee as likely to reduce the export of British art treasures to the United States.

One Output Increasing

Daily shipments from the Pueblo mine to the bunkers at Skagway are now averaging upward of two hundred and fifty tons, having steadily increased during the past three weeks. The price of copper has been less than fourteen cents for the past month and was as low as 13½ cents one day recently.

RICH MEN'S SONS GO TO ALASKA FOR GAME
Search for Adventure Takes Two Parties North Where They Will Hunt
Seattle, Wash., July 23.—On their way to a hunting trip in the interior of Alaska, which will last until some time next winter, there are registered at the New Washington Hotel, C. O. Iselin, Jr., son of the owner of the famous yachts Vigilant, Defender and Reliance; Morgan Belmont, of the Belmont family, and H. C. Morgan. All are in their early twenties and in search of adventure. They purpose going into Fairbanks, thence into the country back of Mount McKinley, where they will spend some months hunting, and coming out over the snow some time next winter by way of the Chisana.

DAILY EDITION

Thursday, July 23, 1914.

The High Protectionists who for selfish reasons, try to hood wink the people into the belief that the tariff has nothing to do with the cost of living have a hard nut to crack if they are to explain what has taken place in the United States in regard to sugar prices since the reduction of the American prices a few months ago. When the tariff on sugar was lowered, the price of sugar came down, too, with the result that already there has been a net saving of many millions to the consumers in the Republic.

A statement recently issued by the Federal Sugar Refining Company—a United States corporation—makes the facts plain. Following the reduction of the sugar duties, the price of the commodity fell to 3.849 cents per pound as compared with an average price of 4.40 cents per pound in other years. Figured out on the basis of the quantity of sugar consumed in the United States in the preceding year, the company declares, the saving to the people as a result of the reduction in duty would be \$47,714,708. But the best is yet to come—from the standpoint of the American consumer—for in 1916 the United States duty on sugar is to be wiped out. As the company's statement says: "While the 25 per cent. reduction in the tariff affords some relief from the exceptionally high rate that we have been laboring under, the real benefit to the consumer will come in 1916,

after with a further saving of some \$100,000,000 per year will be effected."

What is happening in the United States in the case of sugar will happen in every country, under normal conditions, in the case of every commodity when tariff taxation is reduced. In Canada itself, in recent weeks, we have had proof of the effect of the tariff upon prices. During the recent session of parliament the Borden government increased the duties upon a number of articles, including wire rods and some classes of structural steel. Almost immediately the price of the structural steel affected by the tariff changes was increased. The Canadian purchaser paid more to the protected producer. Similarly, the price of nails—which are manufactured from wire rods—was raised twenty-five cents per keg. The tariff increases made greater the profits of a few manufacturers and the people generally are paying the piper.

In the United States tariff reduction has brought decreases in the cost of living. In Canada tariff increases made by the Borden government, in spite of the protests of the Liberals in Parliament, have forced the Canadian people to pay higher prices than formerly for articles which they must use. The lesson to be drawn from the two facts is plain enough. It gives additional support to the Liberal policy of considerate tariff reduction.

QUEEN MARY AS COLONEL-IN-CHIEF OF THE 28TH (QUEEN MARY'S OWN) HUSSARS

A most interesting announcement was made recently to the effect that Her Majesty the Queen had been appointed Colonel-in-Chief of the 18th Hussars. The distinctive characteristics of the uniform of the 18th, blue, like the rest of the Hussars, are the gold trimmings, the bag of garter blue, which hangs on the right side of the busby, and the red and white plume. There are twelve regiments of Hussars, which are chiefly distinguished from one another by the busby bags and plumes.

SHIPOWNERS OBJECT TO PANAMA CHARGES

COMPLAINT MADE THAT TOLLS DECIDED ON ARE TOO HIGH—PROMINENT MARINE OFFICIAL DOES NOT LIKE MEASUREMENT RULE

San Francisco, July 23.—Shipowners and merchants engaged in foreign trade, and intending to use the Panama Canal route when opened are finding some perplexity in figuring out what the actual cost of operation of ships will be through the canal under the tonnage measurement ordained by the Government. The toll will be \$120 a "net registered ton," but a shipowner or merchant does not know what amount of money he has to pay until he knows the measurement the United States government will use.

According to the monthly report of Gov. Goethals to the secretary of war on the canal work in April, dated Culebra, May 18, excavation and installation work was progressing rapidly in nearly all sections and departments to completion. The Canal Record of May 27, which gives the report, speaking of the barge service maintained for handling the cargo from vessels of the American-Hawaiian Steamship Company, says:

"The local authorities have been advised that vessels of the company will be coming to Balboa regularly until at least the end of July, by which time it is probable that steamships will be allowed to go through the canal."

One difference between the Suez and the Panama rules is in the rule, if fresh water is carried in the double bottom of a ship these loads will be measured and charged for, whereas the Suez rules do not charge for deck loads.

Rule is Antiquated

The Board of Trade recognizes this by excluding the shelter deck spaces from their measurement when fitted with a tonnage opening. Unfortunately, as we interpret the advance issue of the Panama regulations, it is not proposed to deduct such space from the canal register of this build of steamer. If that is not altered we shall be compelled to dis-

card this superior type, or cut out the Panama route altogether, as to pay each trip on the empty non-earning shelter deck space would quickly put us out of business."

Dollar Makes Complaint

This apparently is the view of Robert Dollar, a steamship owner of the Pacific Coast, who complains that the Panama rule if enforced as at present laid down, will seriously affect the lumber trade of the Pacific Coast.

Robert Dollar, in pointing this out, gives the following comparison of the various measurements after the steamer Robert Dollar had been measured under the new Panama regulations. All deck space will be measured in the Panama rule. This ship, it is noted, was the first to be so measured:

	Gross	Net
Panama Canal	5,909	4,482
American	5,528	4,079
Suez (Danube)	5,578	4,374
British	5,356	3,420

A similar complaint was recently made by the chairman of the Nitrate Producers' Steamship Company, John Latta, at the annual meeting of the shareholders in London.

Mr. Latta then said: "The innovation of the Panama canal caused us to hesitate. These, contrary to expectations, substantially follow in the now antiquated system long ago adopted by the Suez canal management. They were based on a type of ship which in no way compares with the varied structures of the different types of today, which have been built to meet developments in trade not then apparent. Our steamers are shelter decks, the most practicable and safest type of sea-going ship afloat."

Canal Ready End of Month

New York, July 23.—According to Frederick Alecock, general manager of the Pacific Steam Navigation Company, the Panama Canal will be ready for commercial traffic on or before July 31st.

Mr. Alecock, who has recently returned from Colon, said that Governor Goethals would most likely inform Washington of this possibility within a few days.

TITLE-HOLDERS MUST PAY MORE TAXES

Chancellor of British Exchequer Is Urged to Levy Additional Duties on Lords

London, July 23.—The chancellor of the exchequer is being urged to make the holders of titles pay extra duty for the privilege of using "handles" to their names.

The tax, it is suggested, should be so graduated that titles of superior precedence should be charged more than lower styles. Dukes should pay at the rate of a supertax on an income of \$50,000 and lower ranks proportionately less.

It may be that the chancellor will be ready and willing to tax the dukes, whom he has made the butt of all his recent democratic oratory, but there is doubt if he will dare to tax any person less than a duke. You see, in this country you can easily get a title—at a price. If you are prepared to give, say, \$250,000 to the party war chest you are pretty certain of a knighthood. But then your title dies with you.

Possibly another quarter of a million will get a baronetcy and that goes on to your male heirs. It is an open secret that a large number of recent titles have been given to men for what they have done for the political parties and it is hardly likely that the chancellor will dare further tax the men who have found the "fuel" to keep the party machine in motion.

REAL ESTATE is just as good an investment in Prince Rupert today as it was when the market was active and the speculators were making a quick turn over. No man who holds any bulk of property here anticipates or fears a slump. The big owners have perfect confidence in the city and in the real estate. They are improving their property and getting good revenues. That is where the small owner is handicapped during the period of inactivity. He has not enough money to improve his property and get a revenue. But if he pooled his available means with the savings of others, the whole would make a good working capital. That is where the Prince Rupert Building and Investment Co. is helping the small capitalist to make good. This company improves its property and has an income. It has been one of the most successful organizations in the city. It has paid an average of SEVENTEEN PER CENT in dividends in the past three years. We have a limited amount of stock offered for sale.

The Berlin, Ont., police arrested the president and several members of the Serbian Students' Club and searched their rooms for evidence of a Pan-Serbian conspiracy.

Believing that the four controllers of Ottawa, unseated recently, can be reappointed without a general election, a special meeting of the City Council has been called.

Having cut the price of each lamp from \$47 to \$22, the Hamilton Parks Committee awarded the contract for lighting Dundurn Park to the Cataract Power Company.

While returning a verdict of accidental death in the case of Sir Denis Anson, who was drowned in the Thames, a London jury added that Anson was "sober, but full of fun."

The Cobalt Miners' Union has written to Sir James Whitney asking that representatives of organized labor be placed on the administration board of the Workman's Compensation Act.

The Judge in Chambers at Montreal has granted a stay in the action of the C. P. R. against the owners of the steamer Storstad, which rammed and sank the Empress of Ireland.

A train was derailed in the middle of the Simpon tunnel, when a stream burst through the wall and flooded the tunnel to a depth of two feet. No one was injured but the passengers were forced to walk several miles.

The third accident in the McRae family of Guelph occurred when Mary, daughter of Fred McRae, who was killed a few weeks ago in a sewer excavation, had her collarbone broken when she was thrown from a wagon.

Chief Justice Howell of Winnipeg has received a letter signed by the "president of a determined mob" in which it is stated that if the death sentence of Krachenko is carried out punishment will be meted out to all connected with the case.

As an inducement to harvesters, a Nebraska farmer has offered \$3 a day wages, chicken once a day, and every worthy young man will have a chance to marry one of his five pretty daughters, with 160 acres of land thrown in. He has had more than fifty applicants.

An apparently rich vein of gold has been discovered near Charlton, Ontario. The vein is 14 in. and contains free gold. The prospects are said to be very promising.

A million and a half barrels of apples, is the forecast of the fruit growers in the Annapolis Valley for the present season. But for the frosts of early June the crop would have been much larger. Indications are that the quality of the fruit will be superior, as

there are no signs of black spot or scab.

A placer strike on the Fraser River, 35 miles south of Big Eddy has caused quite a rush from Fort George. Some 15 claims were staked a few days ago when the news leaked out.

A number of Winnipeg hotels have been prosecuted for having opened their bars on election day after the closing of the polls. The liquor act states the bars must be kept closed until the next morning.

Wolves are overrunning Renfrew County, Quebec, and destroying the farmer's sheep. They are supposed to have come down from Algonquin Park. The bounty is now so small that no one hunts the wolves. Renfrew has not been troubled this way for twenty years.

The court of appeals has decided that Heintz must pay taxes on 615,000 acres of British Columbia land, which he has of the Columbia & Western land grant. Half of the original grant was repurchased by the Provincial Government two years ago.

Early in June the foundation stone of a chapel for the use of the Presbyterian students at Oxford, England, was laid by Lord Bryce.

President Wilson, addressing a party of Virginia editors, at the White House, last week, predicted that the country was on the verge of a great business revival.

The first cargo to reach the Atlantic coast by way of the Panama Canal reached New York last month. It was a cargo of sugar from Hawaii—21,000 sacks.

Sir Baden Powell has already received over a third of the million dollar endowment asked from the British public for the endowment of the Boy Scouts movement.

Extensive floods in the Provinces of Kwangsi and Kanton, China, caused damage to property and crops estimated at \$5,000,000. It is stated that thousands of lives were lost.

It is announced that a famous hotel in St. Louis, which was lately re-opened, is to be a "tipless" institution. Placards inform the guests that it is against the rules of the house for employees to accept gratuities of any kind.

During July and August all the Wanamaker stores will close from Friday evening to Monday morning, giving the employees a full holiday on Saturday. We do not believe they will lose anything by this generous treatment of their servants.

The British Admiralty announces a new scheme for the organization of a naval air service, manned by officers of the navy. Naval officers who have retired

into civil life will be allowed to volunteer for limited periods. Civilians who have proved themselves to be suitably qualified may become officers, or "air mechanics."

"Tango foot" is a new ailment brought on by some of the modern dances. In a recent number of the "Medical Record," Dr. Gustav F. Boehme, Jr., states that he has recently been consulted by a number of dancers who complained of "pain in the front of the foot." In every instance he found the same symptom-complex, and on investigation, discovered the cause to be the modern dance.

A proposal by a member of the French Chamber of Deputies to tax foreign workmen, who, he alleges, are taking the place of the young men of the country, was very coolly received, the Premier refusing to support the measure.

Four counties in which the Canada Temperance Act (the Scott Act) was in force, voted for its repeal on June 25th, with the result that the Nova Scotia Temperance Act goes automatically into force in those counties. The counties voting were: Pictou, Cumberland, Kings and Hants, and the Temperance Alliance carried the day. The Nova Scotia Temperance Act abolishes the bar everywhere in Nova Scotia, with the exception of the city of Halifax, which will now be the only "wet" place in the Province.

The International Opium Conference, which has been sitting at The Hague, before adjourning on June 25th, adopted a resolution requesting the Minister of Foreign Affairs of the Netherlands to obtain as soon as possible the ratifications from the adhering powers necessary to put the convention looking to the suppression of the opium traffic into force. This convention was drafted by the conference in 1912.

MAKING AUTOMOBILE ROAD AT REVELSTOKE

Revelstoke July 18.—Fifty men are now at work on the completion of the automobile road to the summit in the Revelstoke national park.

200,000 Have Learned to Play the Piano In One Hour

Without Lessons or Knowledge of Music Anyone Can Play the Piano or Organ in One Hour.

Wonderful New System That Even a Child Can Use.

He—"You surprise me! You told me yesterday you couldn't play a note!"
She—"I couldn't! I learned to play in one hour by the wonderful 'Easy Method' Music."

Impossible, you say? Let us prove it at our expense. We will teach you to play the piano or organ and will not ask one cent until you can play.
A musical genius from Chicago has invented a wonderful system whereby anyone can learn to play the Piano or Organ in one hour. With this new method you don't have to know one note from another, yet in an hour of practice you can be playing your favorite music with all the fingers of both hands and playing it well. The invention is so simple that even a child can now master music without costly instruction. Anyone can have this new method on a free trial merely by asking. Simply write saying, "Send me the Easy Method Music" as announced in the Prince Rupert Daily News.

FREE TRIAL

The complete system together with 10 pieces of music will then be sent to you free. All charges prepaid and absolutely no one cent to pay. You keep it seven days to thoroughly prove it is all that is claimed for it, then if you are satisfied, send us \$1.50 and one dollar a month until \$25 in all is paid. If you are not delighted with it, send it back in seven days and you will have risked nothing and will be under no obligations to us.
Be sure to state number of white keys on your piano or organ, also post office. Address Easy Method Music Co., Wilson Ridge, Toronto, Canada.

NEWS FROM THE ISLANDS

Henry Edenshaw and Mr. Cheeseman visited the West Coast recently calling at Tiahn Point and other places. They returned on Monday.

The Indians left during the week on a sea otter hunt. Ten boats will be engaged on the West Coast in quest of the valuable animals.

The handsomest lady in Masset and the loveliest baby may obtain their Dominion Day prizes by applying at The Islander office. Miss P. Troleum won the ladies prize, and Baby D. Riller is the most talked of squealer in the neighborhood.

Correspondents are hereby notified that the cognomen of our nearest neighborhood is "Woden." The name is an abbreviation of the Indian name "Watun." "Kundis" and "Yagwan" were the names of the point further up the inlet.

A resident disposed of fifty thousand shares in an oil company which he held for three years. This should be proof that everything comes to the man that is willing to wait for dame fortune to knock at his door. Drills and rumors of drills are circulating in all directions, while the one company now at work are "saying nothing and sawing wood."

The Wallace Fisheries closed down last week after filling the tierces of salmon that were on hand. The launch Fredelia brought the Indians home and left for Skidegate with the white and Indian fishermen for that place.

Mr. J. K. Anderson gave a dance last Monday night in the Smythe Building, which was well attended and greatly enjoyed. Mr. A. Orr called off the dances while the music was supplied by Mr. Smith on the violin. Mrs. White, of the White Inn provided refreshments.

F. Stocks says that the report of his absence from the island was grossly exaggerated, he having been living on his ranch all the time. It is his neighbors that are all away and Fred says that he feels like a snail living in a circle of empty snail-shells—and about as active.

A NEWSPAPER

for Prince Rupert and Northern B.C.

The Daily News goes into nearly every home in Prince Rupert. It is the popular newspaper of the city because it is clean and reliable. It has all the news of the city, and keeps in touch with events and topics interesting to Northern British Columbia. It treats these subjects with moderate optimism and reliability.

The Daily News is the most valuable paper to advertisers because it is read by the buying public. It has a bigger circulation than any other paper in the city. It is read by the class of people the advertisers want to talk to.

"THE CURSE OF GREED"

Draws Big House at the West-
holme Last Night

A capacity house turned out to
see the big five reel feature pro-
duction "The Curse of Greed" at
the Westholme Opera House and
the verdict of those present was
one of unanimous approval.

These pictures are without
doubt among the very best ever
seen here or anywhere for that
matter. The story is exceedingly
interesting and plausible, and
some of the sunset and water
scenes, particularly the great
storm scene showing a real storm
at sea with lightning and im-
mense wind-swept waves, are
absolutely marvelous and photo-
graphically perfect. This feature
will be repeated tonight.

White Horse Bumped

On her last trip down the river
to Dawson the steamer White
Horse had her house on the port
side badly damaged by striking
while passing through Five Fin-
gers. While about thirty feet of
the house was smashed, no dam-
age was done the body of the
vessel which continued on her
way and returned from Dawson to
this place where she is now be-
ing repaired. The accident was
due to the remarkably high water
which, in passing through the
Fingers, is a raging torrent. At
last reports, the water at that
point was rapidly falling.—White
Horse Star.
