LORD KITCHENER ORDERS 100,000 MORE VOLUNTEERS

ALL OF BRITAIN'S STANDING ARMY TO GO TO THE CONTINENT—VOLUNTEERS WILL BE USED FOR HOME PROTECTION—SUFFRAGETTES RELEASED

(Special to THE NEWS)

London, August 11.—Premier Asquith announced in the House of Commons that Lord Kitchener had directed the raising of a second volunteer army corps of 100,000 men. The announcement is interpreted as meaning that the entire available British army now under orders are for service on the continent. A good portion are already there.

Reginald McKenna, Home Sec-

retary, announced that King George has ordered the release of all suffragettes serving terms in British prisons as a result of militant tactics. The suffragettes have declared a truce and ordered the cessation of all militant tactics when the general European war first appeared to be threatening. The order of the King is another step toward the settlement of all internal troubles.

WHY NOT RUPERT MEN

Word has reached the city that 400 men are being sent to Prince Rupert to guard the city. This is adding insult to injury. There are crowds of able bodied men here who have seen lots of service and who are available. Indeed it is possible that quite a few of them would welcome the regulation pay. Why not organize a local corps? This is not a time for differences of opinion. Can't we act in unity like all good British? A public meeting should be called at once to demand that this be done.

BRITISH COLUMBIA BOUGHT THOSE SEATTLE SUBMARINES

(Special to THE NEWS)

Ottawa, August 11.—All the troops of British Columbia are ordered to mobilize, irrespective of regimental headquarters. Several thousand men are affected by the order and will be kept under arms and in training pending the developments of the war.

Col. Sam Hughes stated that the two new submarines purchased in Seattle from Chile were bought by Sir Richard McBride.

Sir Richard has been in communication with the authorities in regard to the matter, but in view of the fact that negotiations could not be concluded before the war was actually declared, Premier McBride precipitated matters by making the purchase through his Government. By this prompt action, the submarines were secured two or three days before the actual outbreak of the war.

(Special to THE NEWS)

Brussels, August 11.—The London Telegraph's correspondent, who witnessed much fighting at Liege, says the German artillery was excellent. He expresses surprise that the infantry fighting was in close order. Battalion after battalion was thrown into the field in a solid formation. He has just returned from the south where he was attending the wedding of his third daughter, Miss Ada, who was married to Mr. Robert E. Kitson, on Monday, August 3rd. Mr. and Mrs. Kitson will live at Mount Tolmie, near Victoria.

RE-DECKING UNDER INITIATIVE PLAN

The re-decking of Fifth and Sixth Avenues came up in a new form last evening. The City Council, under recommendation of two members of the Board of Works, authorized proceeding under the initiative to re-deck on the plan of the city paying twenty-five per cent out of general funds.

Fifth Avenue from McBride to Green will cost \$2,000 according to the estimate given and the city is to pay \$500.

Ald. Mailand objected. He said the cost would be \$6,000 and he is opposed to the twenty-five per cent from general funds.

Sixth Avenue from Fulton to McBride and Tatlow are to be re-decked at an estimated cost of \$4,600. The city pays \$1,115 out of general funds.

All German steamers found on the coast of the Commonwealth are being detained.

WAR FORCING PRICES DOWN

During the past week everybody has been worrying about the advancing prices of merchandise. Now, while in many instances this is true, at WARK'S JEWELRY STORE, on THIRD AVENUE, just the reverse conditions exist. They are showing in their East Window an assortment of goods—not junk—but the BEST to be found anywhere, at prices so low that you will be almost astounded. Watch this window DAILY. If you have boy friends going to the front, they have just the little thoughtful remembrances you would wish to give. Let them show YOU.

BELGIUM ARMY STILL HOLDING GERMANS BACK

Brussels, August 11.—Reports have reached here from many directions giving the information that the German cavalry have retreated before large forces of French soldiers. The French have cleared already a very considerable territory. The locality of this fighting is not revealed.

Official circles assert there has been no further battle in the vicinity of Liege or the town of Ixelles. No big engagements between the Germans and the allied forces are expected in Belgium now until the French and Belgians combine forces and take the offensive.

Information from the front confirms the report that the German troops have ceased their advances along the valley of the Ourthe. They have retired from that line of march. The reserves are throwing up defensive works.

The German army is making an offensive movement now north of Liege.

OFFERS PRIZE FOR FIRST GERMAN FLAG

Paris, August 11.—A substantial cash prize will go to the French soldier who captures the first German flag taken in the war. Paul Charnier, manufacturer of flags in Paris, has offered a reward of 5000 francs (\$1,000) to the Frenchman, no matter what his rank, who wrests away from its bearer the first Teutonic standard. He posted the money in cash with a daily newspaper. Great enthusiasm was aroused by his offer.

COL. SAM HUGHES MAY STAY AT HOME

Ottawa, August 10.—General Lessard, district officer commanding the Toronto military district, is mentioned as the probable commander of the first Canadian army division. General Lessard had a fine record in South Africa, and is all the more likely to be chosen because the officer commanding must possess a good knowledge of French.

It is extremely unlikely that Hon. Col. Sam Hughes will take command of Canada's expeditionary force as it is the desire of the Prime Minister that he should remain at his post in Canada.

AMERICAN MERCHANT MARINE IS GROWING

New York, August 11.—Fourteen steamers belonging to the International Mercantile Marine Company will be placed under the American flag when Congress has passed the amendment to the Panama Canal Act, repealing the six months notice of change and the five year's age limit of steamships. BRAZIL FEELS PINCH OF THE STRINGENCY

Rio Janeiro, Brazil, August 11.—The financial situation in Brazil, which was already a very serious one, has been considerably aggravated by events in Europe.

The Bourse has been paralyzed and the price of provisions is rising.

"Notify all steamship companies and masters immediately that no vessels will be permitted to clear from your port until they have filed their full manifests and also that all outgoing foreign vessels will be subject to the inspection of their papers and cargoes by United States authorities within the territorial waters of the United States."

"Every possible means will be taken to prevent shipments of articles contraband of war from the United States. The administration has not determined specifically what articles outside munitions of war shall be regarded as contraband by this nation."

Britain Defines Contraband of War

Washington, August 11.—Great Britain's contraband of war proclamation has been cabled to the State Department by Ambassador Page.

It places arms, ammunition and all distinctly military supplies on the list of "absolute" contraband, and designates food, grain, money, horses and general supplies as "conditional" contraband. Everything under the latter head becomes subject to seizure when intended for the use of a power with which Great Britain is at war.

The proclamation follows the usual lines, and those issued by other powers involved in war probably will be virtually identical.

SILVER STANDARD STRIKES GOOD ORE

Showing at Present Workings on Four Hundred Foot Level Encouraging

They are getting a lot of high grade ore on the four hundred foot level at the Silver Standard mine. Steady improvement has lately been the reward of this work, and the present workings are very favorable for a large body of pay ore near at hand. It is expected that the work will run into No. 1 vein this week. They are now encountering ore in the seam, which is a good indication that there is the large body of ore that the owners have been expecting near at hand.

Last month's work shows that over two hundred feet of tunnel, 5 x 7 feet, has been driven and by five machine men. This is looked on as very good work as the rock lies.

McCrimmon & Stewart, lessees of several claims of the Silver Standard property, are sinking a shaft on Black River. They had to put in a siphon to relieve the workings of water flowing in from the excessive rains. The boys have taken out quite a lot of ore and such as they have mined is quite up to the uniform high quality of stuff previously extracted from Glen Mountain.

All German steamers found on the coast of the Commonwealth are being detained.

The city solicitor's report said the contractors, Roy & McKay, agreed to make good all damages in the written permit and they should be held responsible.

The owners made a deposit of \$50 to pay the cost of cutting the street wires, but the actual cost was about \$145. The extra amount will be paid, according to the statement of the light superintendent.

The Count of Monte Cristo

An extraordinary spectacular feature in five reels, "The Count of Monte Cristo," with James O'Neill in the title role, will be shown at the Westholme Opera House on Wednesday and Thursday.

The story is a familiar one and does not need to be repeated here. Suffice to say that these pictures are superbly staged and cannot fail to produce a veritable sensation. The story is completely told with none of the important incidents left out and a large attendance is expected.

FOR A HOSPITAL SHIP

A very large gathering of women took place yesterday in the K. of P. Hall to consider the raising of money for a hospital ship. Prince Rupert's share is about \$5000 and the ladies decided to solicit for the money.

The Daughters of the Empire are taking a leading part in this but many of the ladies who do not belong to this organization turned out and are giving excellent assistance. It is to be hoped that the ladies will be well received and that everybody will be ready to contribute when they call. The money must be in by Thursday morning.
