GERMAN SOCIALISTS REVOLT BECAUSE LEADER EXECUTED

USED OF TREASON, FAMOUS LEADER WAS PUT TO DEATH
BY THE MILITARY AUTHORITIES

(Special to THE NEWS)
London, August 17.—A Central News despatch says the German Socialists are reported to be in revolt all through the country.

Reaction is caused by the execution of their leader, Dr. Scheuch, the German Socialist leader who has been shot for refusing to do military service.

The Citizen says the story was brought to London by a German refugee, who reported that Berlin, owing to the shortage of food was in a virtual state of revolution.

It is also reported that Rosa Luxemburg, the noted Socialist writer, who declared that soldiers were maltreated in the army, has been shot.

OPS ARRIVED LAST NIGHT— MORE COMING NEXT BOAT

HUNDRED AND SEVENTY OFFICERS AND MEN ARRIVED ON
PRINCE ALBERT—QUARTERED AT OLD PREMIER

Hundred and seventy soldiers arrived here last evening on the Prince Albert. They were in the command of Lt. Col. McSpadden.

Prin Albert docked at eight o'clock and some 1,200 citizens gathered on the wharf to welcome the troops. They disembarked quickly and went to their quarters in an hour in light drill.

Another detachment of troops is expected on the next boat, probably the Princess Sophia.

Troops who arrived last evening are quartered at the old

Premier Hotel, and with good organization in the commissary department the mess was ready for the first meal this morning. The staff are also quartered in the hotel which is still equipped with water, toilets and baths.

There has been nothing given out yet as to what the troops will do in the way of protecting the city and the railroads, but the officers have maps of the city and district and are now forming their plans.

This morning the troops were drilling on the clearing at Market Place.

Lieut Cassari and Corporal Prudhomme, in separate aeroplanes, left the fortress at Verdun in order to reconnoiter the dirigibles in the German fortress. A terrific fire was directed at the aviators. During the fusillade the Lieutenant's motor stopped. He volplaned until he got his engine restarted and then threw a bomb with marvellous accuracy. The corporal also hurled a similar projectile into the German fort and escaped amid a rain of bullets and shells.

GOLD WAS STOLEN DE FOSSETT ARRESTED

\$4,000 in Amalgam Disappeared
But Was Found Buried Near
Camping Place

A man named De Fossett, charged with stealing \$4,000 in gold amalgam, was brought in on the Princess Alice last evening and will await trial here.

De Fossett was one of a party sent out with the box containing the gold from the Thibet Creek mine at Dease Lake up the Skine River. The gold was stolen between the mine and Telegraph Creek and was reported a couple of weeks ago.

The theft was made while the party were camping. De Fossett is supposed to have taken the gold out of the box and filled the latter with clay. The gold was buried and the spot marked. The following day, C. H. French, of the Hudson Bay Company, who was one of the party, noticed the box had been tampered with and found the fraud. After reporting the theft a search was made and the gold discovered where it had been buried.

De Fossett was suspected and Harry Dodds, the Government Agent arrested him. Some gold nuggets which had been in the box were discovered on him. The prisoner and witnesses were brought down on the Alice.

The Thibet Creek mine is owned by Warburton Pike of Victoria, and has been operated for a number of years.

MYSTIC SHRINERS HOLD COMMUNICATION

Many Local Citizens Join Ranks
of the Nobles After Crossing
Hot Sands of Desert

Gezeli Temple of the Mystic Shriners held a communication here Saturday night in St. Andrew's Hall, when the following members were admitted into the fellowship of the order: George Frizzell, Geo. D. Tite, Arthur Smith, A. M. Manson, E. C. La Trace, Mr. McDonald, A. J. Morris, H. F. McKee, J. Hubert, W. J. McLean and Geo. Barrie.

Who has not heard of the great trials of the pilgrim before he is able to reach the beloved mecca of his ambitions? He is compelled to spend many days in crossing the hot sands of the desert and often he is best by wild beasts or worse still by the less humane robbers of the desert. Yet once he has attained to the object of his desires the difficulties of the journey and the biting heat beneath his feet is soon forgotten.

In like manner the pilgrims of Saturday night had to prove their worth. The hot sands of the Sahara would pale into insignificance when compared to those of Gezeli Temple. The lion in the path, the robber by the way-side and the joker with his fun were all there and everybody was satisfied that they got the worth of their money.

The Mystic Shriners is the acme of all secret societies and is very strong throughout the United States and Canada. Among the visiting Shriners were Messrs. W. H. Hanly, Robert J. Hurst, W. H. F. Rixdale and Hon. Thos. Taylor, Minister of Public Works for British Columbia. Sir Richard McBride and Hon. W. J. Bowser are also prominent members of the order.

SKEENA CLAIMED ANOTHER VICTIM

Henry Barton Lost His Life in
Turbulent Waters—Search
for Body Unavailing

While attempting to cross the Skeena river at Hazelton last Saturday morning, Henry Barton, who had but very recently arrived at Hazelton, lost his life. The boat in which he was crossing was attached to the cable of the ferry, but only in a temporary way. The boat capsized and threw him out and into the strong current, which tore the boat from the cable. He was unable to reach either the boat or the shore and sank speedily. He was a native of Waldo, B.C.

A search was made for the body and kept up for several days this week by Constable Meade, but up to Wednesday evening no trace had been found.—Omineca Herald.

SACKING ORE AT THE SILVER CUP

G. A. Clothier Reports Work Going On Steadily at His Property

G. A. Clothier arrived in town Monday afternoon from the Nine Mile hill and reports everything going on quite satisfactorily at the Silver Cup, the property he and his associate are working under lease. The staff at present is necessarily small, owing to the accommodations being very limited. They hope to have this remedied shortly to permit of an increase in the force.

They are stopping from the No. 2 tunnel and two men are now sacking the ore from this work for shipment during the Fall or early Winter. Ore sacking is going on at the rate of about one ton per day, and they expected to have over one hundred tons sacked when the time arrives for making shipments.

Simultaneously with the sacking of ore, No. 2 tunnel is being extended. It is the present intention of the Messrs. Clothier to further this tunnel about forty feet and then upraise to the No. 1. In the work at the mine the Clothier boys are in personal superintendence.—Omineca Herald, Hazelton.

DAILY EDITION

Monday, August 17, 1914

Apart from the subscriptions collected by the ladies of Prince Rupert, this city has done nothing yet to show her patriotism to the British cause. This is not because there is less loyalty here, but because it is not properly organized. Steps should be taken at once to start a war fund. The City Council might well appoint some reliable party to handle the funds. The local papers no doubt would give it all the publicity necessary. The columns of The Daily News are open at all times for movements of this kind. Let the word therefore be given at once and let everybody contribute according to his resources.

It would appear that Germany has begun to realize that she cannot ultimately hope to win against the whole world. First she threatened to use force to compel Italy to stay with the Triple Alliance. This failing she interceded with Spain to join her in the fight. What Germany is up against is the lack of communication

with the sea. With either Spain or Italy on her side she would not only have considerably added to her forces but would have an added area to draw food from and might hope to get additional supplies smuggled through the coast blockade. At present she is practically bottled up and should she win a few land battles she would be still cut off from outside supplies.

When the Irish question had reached the crisis in Britain and the army had taken an antagonistic stand General Sir John French was dismissed by the War Office from command. Today when a common enemy is to be conquered we find him again at the head of the army. That, of course, is what we would expect from British statesmen, who have buried all conflicting questions. Why doesn't Prince Rupert bury the hatchet and follow the lead of the British War Office? There are a lot of able bodied young men about town aching for service. The time is fitting to heal the discords of the past.

WARSHIPS IN U. S. HARBORS AND CONTRABAND OF WAR

The United States declaration of neutrality, issued by President Wilson, said concerning ships and contraband:—

"If the ship of war or privateer of a belligerent shall, after the time this notification takes effect, enter any port, harbor, roadstead or waters of the United States, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, harbor, roadstead or waters, except in case of stress of weather or of her requiring provisions or things necessary for the subsistence of her crew, or for repairs; in any of which cases the authorities of the port or of the nearest port (as the case may be) shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours without permitting her to take in supplies beyond what may be necessary for her immediate use and no such vessel which may have been permitted to remain within the waters of the United States for the purpose of repair, shall continue within such port, harbor, roadstead or waters for a longer period than twenty-four hours after her necessary repairs shall have been completed, unless within such twenty-four hours a vessel, whether ship of war, privateer or merchant ship of an opposing belligerent, shall have departed therefrom, in which case the time limit for the departure of such ship of war or privateer shall be extended so far as may be necessary to secure an interval of not less than twenty-four hours between such departure and that of any ship of war, privateer or merchant ship of an opposing belligerent which may have previously quit the same port, harbor, roadstead or waters."

May Not Be Detained

"No ship of war or privateer of a belligerent shall be detained in any port, harbor, roadstead or waters of the United States more than twenty-four hours, by reason of the successive departures from such port, harbor, roadstead or waters of more than one vessel of an opposing belligerent. But if there be several vessels of opposing belligerents in the same port, harbor, roadstead or waters, the order of their departure therefrom shall be so arranged as to afford the opportunity of leaving alternately to the vessels of the opposing belligerents, and to cause the least detention consistent with the objects of this proclamation."

Limit Set on Supplies

"No ship of war or privateer of a belligerent shall be permitted, while in any port, harbor, roadstead or waters within the jurisdiction of the United States to take in any supplies, except pro-

visions and such other things as may be required for the subsistence of her crew and except so much coal only as may be sufficient to carry such vessel, if without any sail power, to the nearest port of her own country, or in case the vessel is rigged to go under sail, and may also be propelled by steam power, then with half the quantity of coal which she would be entitled to receive if dependent upon steam alone, and no coal shall be again supplied to any such ship of war or privateer in the same or any other port, harbor, roadstead or waters of the United States, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within the waters of the United States, unless such ship of war or privateer shall, since last thus supplied, have entered a port of the government to which she belongs."

"And I do further declare and proclaim that the statutes and the treaties of the United States and the law of nations alike require that no person, within the territory and jurisdiction of the United States, shall take part, directly or indirectly, in said wars, but shall remain at peace with all the said belligerents and shall maintain strict and impartial neutrality."

"And I do hereby enjoin all citizens of the United States, and all persons residing or being within the territory or the jurisdiction of the United States, to observe the laws thereof and to commit no act contrary to the provisions of the said statutes or treaties or in violation of the law of nations in that behalf."

"And I do hereby warn all citizens of the United States and all persons residing or being within the territory or jurisdiction of the United States, to observe the laws thereof and to commit no act contrary to the provisions of the said statutes or treaties or in violation of the law of nations in that behalf."

NEFF AND BURNS
FOUGHT A DRAW

Crowd Saw Good 20-round
Contest in National Sport-
ing Club

House Charlie Burns
Chet Neff met in another 20-
round bout Saturday night and
draw. The contest was
in a crowded house at the
National Sporting Club arena. It
was a faster fight than the previ-
ous exhibition between these two
fighters, the decision proved a popu-
lar one, although it was arrived
at in an irregular way. Owing to
promoters being unable to get
a referee satisfactory to all par-
ties, two members of the press
were asked to turn in a ballot
in their judgment of the win-
ner.

The referee did the same.
The three were different, one be-
lieving Burns, one for Neff and one
a draw. These undoubtedly re-
presented the general opinion
of the crowd, and the award was made
a draw. Neff, as in the first contest,
showed cleverness in boxing and
was much faster on his feet but
never had a dangerous punch.
His whole effort seemed to be
concentrated on getting Burns' face
up and damaging his face. His
tactics were different. He had
plenty of punishment on the
body but protected his body well
and went after Neff with swings
to the kidneys. They were ef-
fective, too, but Burns could not
be knocked down sufficiently to land
a blow on the mat.

In the fifth round Burns had
a good swat with a smash in the
head but the latter covered up
and was able to come up the
round in good shape. In the
sixth round both opened up
and after some vicious
exchanges, Burns had the decided
advantage over his opponent but
did not follow up and lost the best
chance of the bout to get a
knockout.

It came up well in the Ninth,
tenth and eleventh rounds. He
after Burns' face and work-
ed him considerably. In the
twelfth he got in a whirlwind of
punches and Burns took them like
a man.

In the twelfth and thirteenth
rounds the fighting was
good swat on Neff's face and
work on the stomach.
In the last few rounds both
fighters were tired but had moments
of energy, and it was evident that
the fight would go the limit. At
the end of the fight Neff showed the effect
of punishment much more than
his opponent who was unscratched.
The referee, Cockney,
was matched with James
but the local boy quit in
the second round, deciding that
punishment was heavier than
the prize.

THE 17" AT THE
MAJESTIC TONIGHT

The big feature at the Majestic
tonight and tomorrow
night is a Rex two-reel drama
based on July 30, entitled "Cir-
cumstances." This play draws a vivid
picture of a famous secret or-
ganization and tells a gripping
and an interesting story of love and
adventure and intrigue. A pro-
ducer of music incurs the enmity
of the organization, and with his
wife he flees to America. He
followed by the agents of the
organization and then follows a series
of incidents strange, enthralling
and interest-sustaining. The
film finishes in a very pleasing
manner. In addition to this feat-
ure the management have a
stunning good comedy. Special
attention is being paid to the
film which is now one of the
most pleasing parts of the enter-
tainment. Manager De Lasalle is
giving neither time nor expense
to give his patrons the best pro-
duction, and that his efforts are
appreciated is evidenced by the
large houses he is receiving
nightly.

BEWARE
IN PASSING THE BULL

Way of a timely warning to
local jokers, the newspapers
reporting a case in St. John,
New Brunswick, which shows it is not safe
to joke with the soldiers.
When the artillery were en-
gaged at that port a man named
John was remarked to the soldiers:
"After look out; there are a cou-
ple of German cruisers out there."
The Colonel in command im-
mediately reported the incident
to Ottawa and the man is under
arrest charged with disseminat-
ing false information regarding
the enemy in time of war.

GERMANY WILL FINANCE
WITH PEOPLE'S SAVINGS

Berlin, August 15.—The Nord
Deutsche Zeitung declares that
Germany has successfully con-
quered the financial difficulty
which followed her mobilization.
The Reichsbank, the newspaper
adds, came up to expectations and
all the great banking institutions
in Berlin and the provinces fol-
lowed suit. In the public interest
no moratorium is desirable or
necessary. The people's savings
of thirty billion marks (about
\$7,500,000,000) will be taken first.
All fears are unfounded that the
mobilization will interfere with
the harvest.

BRITISH SHIPPING
SAFE IN THE SOUTH

New York, August 15.—The
Western Atlantic Ocean is clear
for shipping in the area as far
south as Trinidad, according to
announcement made by Admiral
Sir Christopher Cradock, of the
British cruiser Suffolk, through
the British consulate here. The
Suffolk is now not far from New
York City. The consul said that
there were five British warships
in the Western Atlantic and that
their patrol was so effective that
all British shipping interests had
been assured that there was little
danger from German craft.

OLAV SOLD FOR \$760

Hinkson Siddall, marshal of the
Admiralty Court of Victoria, was
in the city Saturday and held an
auction sale of the fishing
schooner Olav which was seized
some months ago fishing inside
the three mile limit and was con-
fiscated. The boat and its equip-
ment sold for \$760 to Collart and
Bainter. The boat is said to be
worth about \$3,500 new and is in
good shape.

The purchasers have not yet
decided what they will do with it.

AVERAGE YIELD 12 BUSHELS

Regina, August 15.—According
to the estimate of the Depart-
ment of Agriculture for Saskat-
chewan, ten per cent of the wheat,
five per cent of barley, and fifteen
per cent of oats are now cut.
Harvesting will be general by the
first of next week. From present
indications the average yield of
wheat will be 12 bushels to the
acre, oats 20 bushels and barley
20 bushels.

OBSELETE FIGHTING OF
GERMANS CRITICIZED

London, August 15.—One of
the most important developments
in the eye of experts is the gen-
eral testimony that the German
infantry formation is obsolete
and ineffective against weapons
of today, and means an enorm-
ous slaughter if retained.

France and Austria are finally
officially at war, the ambassadors
having left the respective capi-
tals. The French Government
broke off diplomatic relations
with Austria on the ground that
Austrian troops were reinforcing
the Germans.

AMERICAN CITIZENS
WANT TO AID CANADA

Ottawa, August 17.—Col. Sam
Hughes, Minister of Militia, said
that he had received enough of-
fers from American citizens in
various parts of the United States
to compose four companies, to
go to the front.

ALMOST COLLIDED
WITH THE RAINBOW

San Francisco, August 15.—
The American schooner Salva-
tore, Captain Flynn, which ar-
rived here today from Oahu (T.H.),
reported that she was nearly in
collision last Sunday night off
Point Reyes with a foreign war-
ship. The stranger was burning
no lights and the schooner came
so close to her before she was
sighted that a crash was narrow-
ly averted. Captain Flynn could
not read the cruiser's name, but
thought from her build that she
was the British cruiser Rainbow.

EASTERN ARTILLERY
IN VANCOUVER

Vancouver, August 17.—The
Coburg (Ontario) Heavy Battery,
118 strong, has arrived from the
East and brought with them four
heavy guns which have been
placed in certain places for the
defence of Vancouver.

BRITAIN'S NAVAL STRATEGY

This map gives a good idea of the Admiralty's probable move
against the German fleets. The German fleet unless it skulks
behind fortresses, will probably fail to elude the British
cordon and be compelled to give battle between the north
coast of Scotland and the rocky shores of Norway.

WOMAN PASSENGER
SUING GRAND TRUNK

Mrs. M. Patterson Claims \$10,000 From G. T. P. for Injuries Received in Washout

Mrs. Marion Patterson, a newspaper woman who is on the staff of the publicity department of the Panama Exposition, has entered suit against the Grand Trunk Pacific Railway for \$10,000 damages for injuries and shock she received on May 5th this year, when a train in which she was travelling ran off the track near Rose Lake in the Bulkley Valley. The accident was caused by a washout on the track, and Mrs. Patterson alleges that she was painfully cut and bruised on the face and limbs, in addition to receiving a sprained wrist and considerable nervous shock. 1t

It is alleged in the statement of claim prepared by the plaintiff's solicitors, Messrs. Taylor, Harvey, Grant, Stockton & Smith, that at the time of the accident the stretch of line on which the accident occurred had not been sanctioned by the railway board for public service, and that at the time the train was proceeding at an unreasonable speed. 1t

The suit is the first suit brought in the local courts by a passenger against the Pacific branch of the new road since it was opened for service. 1t

CALLIES DEFEAT THE
DRYDOCK BOYS SATURDAY

Under the Football League auspices the Callies met the Drydock Club on Market Place on Saturday evening before a good gathering of spectators. What was, however, expected to be one of the hardest games of the league was undoubtedly spoiled by the unfortunate injuries received by two of the Drydock forwards, which necessitated their retirement from the game just fifteen minutes from the commencement, and at a time when the Drydock's were leading by 1 goal to nil. The Drydock Club are due all sympathy at the loss of two such valuable players and it is hard to conjecture what the result might have been had they been able to continue the game at full strength. As was to be expected, under such circumstances the Callies soon gained the lead crossing over at half time with a lead of 2 goals to 1. In the second half the Drydock defence adopted the one back game, much to the discomfort of the Callies forwards. This style of play is never at any time beneficial to the game, but in these methods alone lay the Drydock's only chance of victory. However, the Callies still held the game and another goal by Adam settled the issue, the Callies running out winners by 3 goals to 1. Mr. A. Clapperton acted as referee. 1t

By the treaty of London, signed in 1867, the grand duchy of Luxembourg was declared neutral territory. Its integrity and independence were guaranteed. 1t

LEAVE FOR ATLANTA
ON HUNTING TRIP

District Said to be Sportsman's Paradise—All Kinds of Game

Mr. and Mrs. F. H. Mobley and Harry Mobley leave today for Atlanta, B.C., where they will spend three months, most of which time they will spend in the wilds shooting game. Mr. Mobley says that district is the greatest sportsman's paradise he has ever seen. It is an easy matter to shoot wild fowl by the hundred and there are an abundance of mountain goat, bear and moose. Mr. and Mrs. Bainter are also making the trip. Judge Young is expected there about the first of September. 1t

RIOTS IN BERLIN

London, August 15.—A Copenhagen despatch to the Daily Mail says:—

"Travellers from Berlin assert that riots are occurring there daily, owing to the great rise in prices of food. Fruit, bread, potatoes and salt are among the foodstuffs, the price of which has bonused up tremendously. Many shopkeepers have been arrested and their shops closed by the police. Paper money is being refused everywhere, and food can only be purchased with gold and silver." 1t

Wedding Bells

A quiet wedding took place on Thursday evening at the residence of Rev. Canon Rix. The groom was Mr. Horace Hale, a sawyer, and a well known young man in the city. The bride was Miss Gertrude Flack, a charming young lady who came over from Grimsby, England, a few months ago. She made the trip over in the last run of the ill-fated Empress of Ireland from Liverpool. The bride and groom were supported by Capt. and Mrs. Walters. Following the ceremony a wedding supper was held at the Knox Hotel. Mr. and Mrs. Hale are for the present residing with Capt. Walters. 1t
