#### PRINCE ALBERT STRUCK ROCK JOHN HURRIED TO RESCUE

**BUTTERWORTH ROCKS, BROWN'S PASSAGE, IN A FOG—  
WAS COMING OVER FROM MASSET—THE BOOTS  
TOOK OFF PASSENGERS**

Prince Albert, of the G. T. T. struck a rock in Brown's passage during a fog last evening and is now probably a total wreck. The passengers and crew were rescued.

She was coming in from Masset. She struck on Butterworth rocks, Brown's Passage, thirty-five miles out from the entrance about 10 p.m. A fog was hanging over the sea and there was a strong wind at the time.

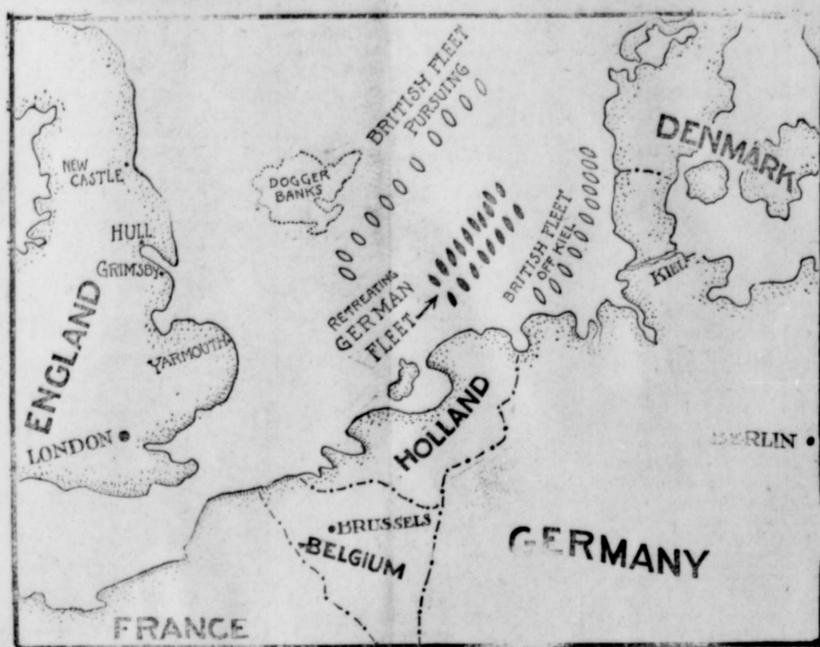

She struck the wireless mast and the S. O. S. which was received here. The John which was loaded at the Cold Storage immediately started to the rescue.

Meantime the Albert was piling up on the rocks and prevented the wireless from getting messages off his mast. Shortly afterwards the wireless operator went dead. The two boats put off with passengers and crew.

The Albert was in command of Captain McKenzie who was in command of the Prince Rupert until she was laid up. Capt. Moorehouse, the regular master of the Albert, is off on holiday, and Capt. McKenzie was taking his place for a few weeks. Capt. McKenzie brought the Albert up last week with the troops aboard. Monday night the Albert went to Masset and was returning when she struck. She was due to leave again last evening for Skidegate. The John was to have left at nine for Vancouver, but was a little late and had not left the harbor when the message came that the Albert had struck. She immediately left for the wreck.

This morning T. C. Chalmers, the railway and steamship agent, left on the tug Stirrett for the scene of the accident. He was accompanied by Capt. Groves. They will probably report on whether the Albert can be floated or not.

There were not many passengers aboard.

**POSITION OF GERMAN AND BRITISH FLEETS IN THE NORTH SEA**  
This map gives the location, as far as is known from the despatches, of the opposing fleets of Germany and Britain in the North Sea. The idea of surrounding the German fleet is shown—one of the British fleets being between the German fleets and the shore.

#### AUSTRIAN SOLDIERS IN MUTINY SHOT DOWN IN COLD BLOOD

**BELGIAN MINISTRY DENIES REPORT THAT LIEGE FORTS  
HAVE FALLEN -- NAVAL FIGHT OFF  
HOLLAND COAST**

(Special to THE NEWS)  
London, August 19.—The Belgian Minister, according to a Brussels despatch, announces that the report of the fall of the Liege forts appears to be false as nothing of it has been heard by the ministry.

**NAVAL FIGHTING**  
An Amsterdam correspondent of the Post says a telegram has been received from Texel Island reporting a heavy gun fire on Tuesday in the western direction off Texel Island in the North Sea,

forming part of the Province of North Holland.

**AUSTRIANS IN MUTINY**  
It is officially stated in Paris that the mobilization of the Austrian army was accompanied by much disorder and even mutiny in many places owing to the unpopularity of the war. An official statement says a large number of soldiers were shot at Prague for refusing to fight. During the night of August 9th a whole regiment mutinied. A similar mutiny occurred in Bohemia.

#### ALBERT PROBABLY TOTAL LOSS

Survivors Arrived in Rupert at One o'Clock This Afternoon  
**FIVE LIFEBOATS OUT**

The Prince John arrived in port at one o'clock with the survivors of the wrecked Prince Albert. The passengers and crew were picked up at ten this morning. There was one drowned, the infant baby of Mr. and Mrs. Jos. Deraedt. The little one was drowned in the life boat.

The Albert is high and dry on an island about a mile south from Triple Islands. At low tide she is four feet out of the water. She is probably a total loss.

The Albert struck at 9 o'clock last night in a heavy fog and while running full speed. She shot up on the reef with a grinding roar which everybody aboard realized meant a wreck. The sea was running high and the waves pounded her.

**CARNAGE AT DINANT**  
Details of fighting at Dinant show a terrible carnage. A whole French company is thought decimated. They held a position until reinforced by the artillery and cavalry. The cavalry advanced and after a hot fight drove the Germans into the River Meuse.

(Special to THE NEWS)  
London, August 19.—A semi-official German agency gives out an account of the battle of Mulhausen. One and a half French army corps entered Alsace while our troops were still concentrating. Nevertheless we attacked the enemy who were thrown backward toward Belfort. Their march was afterwards continued. A small section of artillery from Strassburg defeated two batteries which were rendered useless and taken by the enemy who marched towards Schermeck eight miles from Saales. The Alsace invasion now begun will be certain of success unless treachery exists among the local population.

#### CRUISERS EXCHANGE SHOTS

(Special to THE NEWS)  
London, August 19.—A British official press bureau announces that desultory fighting occurred on Tuesday between a British patrolling squadron and German cruisers which were reconnoitering. No losses were reported.

The Germans made another attempt to cross the Meuse by a bridge not far from Dinant where cannonading was resumed. The artillery repelled the attack with considerable loss.

A despatch to the Central News says an engagement occurred early Tuesday morning in the North Sea about thirty miles off Harwich which has been unofficially confirmed.

#### GERMANY CLAIMS LIEGE FORTS WERE DYNAMITED

(Special to THE NEWS)  
London, August 19.—The German movement toward the Belgian center seems to have been checked at London. A German aeroplane four miles south of Namur was brought down by the Belgians. The pilot was killed and the observation officers were taken prisoners. The machine was not damaged.

A report at Rotterdam asserts that the forts at Liege were dynamited by Belgians after being evacuated. The action of the Belgians was due to the arrival of heavy motor batteries.

Mrs. H. R. Grant will receive for the first time on Friday, August 21st, from 4 to 6, in the Mause on Fourth Ave. E. 192-3

#### HOUSE MAY ADJOURN THIS AFTERNOON

(Special to THE NEWS)  
Ottawa, August 19.—The war appropriation is to be fifty million dollars. Notice was given by Premier Borden that he will on Thursday move a resolution in committee to this effect. It is for defraying the expenses for the defence and security of Canada, and to conduct naval and military operations by Canada thereby insuring a continuance of commerce and industry and business communication, whether this means an insurance or indemnity on war risks. Otherwise it is for carrying out any measures necessary and advisable to the Governor-General in Council consequent upon the state of war.

The resolution further empowers the Governor in Council to raise such monies as required by loan. This step is taken to mean that at present there will be no war taxes, but money required will be raised by a loan and added to the public debt.

Preliminaries of the war session of the Canadian Parliament were quickly disposed of. The Premier moved an adjournment until today when the debate on the speech from the throne will be taken.

The session is not expected to last much past this afternoon.

The Government then proceeded with the introduction of the four emergency bills which are required to give authority to deal not only with the present situation but with any that may arise.

#### THE KING'S MESSAGE

"You are leaving home to fight for its safety, your honor and my honor. Belgium, whose country we were pledged to defend, has been attacked; France is about to be invaded by the same powerful foe. I have implicit confidence in you, my soldiers. Duty is your watchword. I know your duty will be nobly done. I shall follow your every movement with the deepest interest. I shall mark with eager satisfaction your daily progress—indeed, your welfare will never be absent from my thoughts. I pray that God will bless you, guard you, and bring you back victorious."

DAILY EDITION Wednesday, August 19, 1914

Recent despatches tell of the execution of the leader of the German Socialist party because he refused to join the army.

Germany, on the other hand, always wants to show her authority. A policeman or a soldier stands at every corner and interferes with even the trivial conduct of the people.

This very act of Germany serves to show the contrast of her rule with that of Britain. The British plan has always been one of tolerance.

All the despatches received so far tell of German reverses. Too much credence must not be placed in this for naturally her opponents will not readily tell of her successes.

# 100,000 MEN AND 500 GUNS DEFENDING BRITAIN'S HONOR

### LANDED IN FRANCE WITHOUT CASUALTY — ADVANCED INTO BELGIUM AND NOW FACING THE COMMON FOE

London, August 19.—The official war information bureau announces that the British expeditionary forces sent to Belgium landed safely on the French shore. The embarkation by transport and the disembarking of the men and the horses was carried through with the greatest precision and without a single casualty. There was a force of 100,000 men and more than 500 guns taken to France. Preparations are rapidly going forward to send more troops to France. The greatest activity has prevailed at the war office.

The French gave the British allies the greatest of ovations on landing.

Every man of the British expeditionary force which landed in France carried in his knapsack a little pamphlet signed by Lord Kitchener containing 200 words of sound soldierly advice.

The Field Marshal tells them to "fear God, honor the King and your country; remember you are fighting on the soil of a friendly country; abstain from liquor and

from looting; be more than courteous to the women."

The official news bureau announces that General Sir Horace Smith Dorrion has been appointed to command one of the army corps of the expeditionary force in succession to Lieut.-General Sir James Grierson, who died yesterday.

The message of the King to the expeditionary force was read to each regiment as it left port. The departure was under sealed orders.

This force, representing the cream of the British army, is now facing the German army in Belgium. It is only a matter of days, or perhaps hours, until there will be a clash between the pick of the British military force and the great army that the German Kaiser has thrown into Belgium in the hope of crushing the allied forces.

With the words of the King ringing in their ears, the British forces may be expected to throw themselves into the fight with all the enthusiasm that can be imagined.

## WILL VOTE FIFTY MILLION DOLLARS FOR SUPPLIES

Ottawa, August 19.—The fourth session of the twelfth parliament of Canada opened here yesterday with no frills and without ceremony. The Governor-General, H. R. H. the Duke of Connaught, accompanied by an escort, arrived at the House and was met by the customary bodyguard.

The speech from the throne described the present conditions and the general sentiment of loyalty of the Canadian people, but refrained from going into detail as to the nature of the various bills to be introduced, which include an addition to the supply bills of from \$50,000,000 to \$75,000,000.

The bills will further validate the action already taken in the defence of the Dominion and the sending of the expeditionary force to aid Great Britain; the control of the price of foodstuffs and other products, and will authorize the Government to declare a moratorium should the conditions warrant, and other legislation of a less important character made necessary by the war.

It is thought the prorogation of the House will take place on Saturday, but this is not confirmed.

## STAMPEDE TO GOLD STRIKE IN AUTOS

Fairbanks, Alaska, August 19.—The first stampede with automobiles in the history of Alaska took place when word of the discovery by Ed. Hammer of pay dirt on Healy River, a tributary of the Tanana, on the right limit, was received by Captain Morgan.

Two automobiles, owned by L. Paris and Sumner Waite, got away with full loads of passengers for McCarty, ninety miles south of Fairbanks. Others left on bicycles, mules and horses.

The reported strike was made at a depth of 120 feet. The drift is said to average 10 cents a pan.

## HAMBURG-AMERICAN MAY SELL THEIR BOATS

New York, August 19.—The Hamburg-American line issued a statement saying that it had under consideration offers to purchase some of its steamships in American waters valued at \$20,000,000. The fleet embraces the Vaterland the greatest ship in the world. If sold, the vessels would fly the American flag.

## REPORTERS RESTRICTED

Paris, August 19.—Detailed instructions have been issued by the French Minister of War concerning newspaper correspondents accompanying the French armies in the field. Only representatives of the French press who are of French nationality and not subject to military duty and correspondents of newspapers published in allied countries will be allowed to follow the operations of the armies in the field.

## BULGARS TO BE NEUTRAL

Sofia, August 19.—Premier Radoslavoff announced in the Sorbanje that Bulgaria had determined to observe the strictest neutrality, but must take measures to repulse any violations of her frontiers.

## PIONEERS TO ISSUE HANDSOME VOLUME

The Prince Rupert Pioneers' Association, which gives promise of becoming one of the strongest organizations in the city, will soon issue a very handsome book to be styled "Souvenir Charter Number."

Under the careful supervision of the Association historian and the Executive Committee, the book will cover the authentic story of the city's growth from primeval forest of yesterday to commercial centre of today, and should prove a much prized souvenir for all who have taken a part in the city's phenomenal growth.

Profusely illustrated with interesting photographs of the early days never before published and others showing the splendid later development of the city, the volume will be of genuine value to send away to friends, and already a large list of reservations have been forwarded to the compiling department.

The complete history of the founding and development of what is now the city of Prince Rupert, will comprise one section; photographs of members of the Association, together with carefully prepared biographies will complete another interesting feature. The book as a whole will very creditably fulfill its mission of further cementing the organization.

There will be approximately 60 pages, printed on ivory finish art paper, cover attractively embossed in purple and gold, and a wide circulation is already assured.

## GERMANY'S EXPLANATION OF REVERSE AT LIEGE

London, August 17.—An official announcement in Berlin concerning the losses at Liege says only a small number of troops were engaged to mask the movements of the main army. The despatch says:

"The Emperor did not wish to sacrifice life unnecessarily, but as soon as the heavy artillery arrives the forts will be taken without the loss of a man."

General Von Stein admits that the capture of the forts is a difficult problem, because of the unfavorable ground about them and further because the population of the town, including the women shot at the German troops from behind, firing indiscriminately, hitting the surgeons and the wounded. The German commander concludes with the remark that "it must not be forgotten that the Belgian force is numerically superior to ours."

## WOMAN CATCHES SPY RELEASING PIGEONS

Brussels, August 19.—A woman caught a German spy on the train from Antwerp in the act of releasing carrier pigeons, which he had concealed in a bag. She seized and held him until other passengers came to her assistance. The man was handed over to the military authorities. He was later tried by court-martial and shot.

London, August 19.—A despatch from a Namur correspondent says that on the eve of the first great battle aeroplanes are circling overhead. Six hundred thousand Germans are sweeping on towards the Meuse.

The first meeting for instruction to men under the auspices of St. John Ambulance Society, was held in the Board of Trade rooms last evening. There were some twenty present. The instructions were given by Dr. Cade. All men are invited to these classes and the information is something everyone should possess. Classes for ladies will be formed later.

General Superintendent W. C. C. Mehan has a magnificent grizzly bear skin rug decorating the floor of his office. The bear was shot by Charles Barrett of the Bulkley Valley and is one of the biggest ever seen in that country of grizzlies. It is certainly a splendid trophy and even Charlie, that great hunter of big game, was proud of getting the big fellow.

The Synod of the diocese of Caladonia, which was called to meet in this city next week, has been postponed by Bishop Du Vernet on account of the uncertainty of communication.

Yesterday a short circuit in the electric light wires at the Royal Hotel caused a small fire which set fire to the ceiling. The alarm was sent in but the blaze was extinguished before the brigade arrived.

Mosley, the negro who is to appear at the next assize court on a charge of stabbing a woman in the arm, was yesterday re-arrested as his bondsmen refused to go bail any longer.

Don't forget to see the feature show at the Majestic Theatre tonight. It's full of fun and dash, and the music is superb. The Majestic has taken on new life and is worth a visit.

With the addition of a few more names the ladies class of St. John Ambulance Association will shortly be ready to start. Those who have not yet handed in their names to Percy F. Godenrath, secretary of the local Association, are requested to do so at the earliest possible moment at the Board of Trade rooms.

## Brought Down for Trial

Sam Morris, a negro, was brought down from Hazelton and lodged in the jail to await trial at the assize court. He was committed for trial on the charge of attempt to murder Rod McDonald, a section foreman up the line near Topley. Morris was an employee on the line gang. He was discharged and before he left he stole a revolver belonging to McDonald. When the theft was discovered McDonald gave chase with his gang on a hand car. They came up with the negro who drew and shot five times at McDonald. Two shots missed, one hit him in the wrist, one in the left thigh and one in the chest. Fortunately none of them were fatal.

## COMMITTED FOR TRIAL

Raymond M. De Fossett, the man charged with stealing \$4,000 in gold on the trail near Telegraph Creek, was given a preliminary hearing before Magistrate McMullin yesterday and was committed for trial. He will appear before Judge Young Monday on the arrival of the Princess May. The witnesses will probably be able to get north on the same boat. The Judge is now in Victoria.

There's a turning point in every man's career—even if he isn't a crank.

## MISCREANTS BUSY

Several complaints have been heard about town that some thoughtless or culpable individuals persist in picking the choicest flowers and roses from the local gardens. It means a great deal of toil and care to bring flowers to maturity under the local conditions and naturally the owners resent very strongly this action of kleptomaniacs. Whether this is the work of a thoughtless schoolboy or that of an adult who should know better, it should be stopped at once. Somebody has suggested that a steel trap be put in place to catch the vandals but a sharp rebuke of the law might be equally effective.

## PICKWICK PAPERS IN MOVING PICTURES

One of the gems of English literature, Charles Dickens "Pickwick Papers" has been made the subject of a moving picture play which will be shown at the Westholme Opera House tonight and tomorrow night. The inimitable John Bunny takes the part of Mr. Pickwick and he certainly fits the part to perfection both in looks and action. The kindly geniality of Mr. Pickwick is admirably portrayed by Mr. Bunny and causes no end of amusement. The entire program consists of entertaining comedies and there is not one dull moment in the show.

A special attraction will be a scenic picture of Liege, the Belgian city which has nobly defended itself against the invading armies.

## CANOE OVERTURNED

T. C. Chalmers, G.T.P. steamship and railway agent here, was paddling in his canoe out in the harbor last evening when the craft suddenly overturned in a choppy sea. He was half way across the harbor and found the distance too great to swim with his clothes on and in the cold water. He tried to get into the canoe but could not. Finally his calls for help were heard and five boats put off from Cow Bay and picked him up. He had been in the water half an hour and thoroughly chilled.

## SUBMARINES NOT DANGEROUS AS ANTICIPATED

Edinburgh, August 17.—The Scotsman has printed the story of an eye-witness of the naval battle between British cruisers and German submarines, in which the submarines U-15 was lost.

"The cruiser squadron on Sunday," the story runs, "suddenly became aware of the approach of the submarine flotilla.

"The enemy was submerged, only the periscopes showing above the surface of the water. The attitude of the British in the face of this attack was cool and the enemy was utterly misled when suddenly the cruiser Birmingham, steaming at full speed, fired the first shot. This was carefully aimed not at the submerged body of the submarine, but at the thin line of the periscope.

"The gunnery was superbly accurate and shattered the periscope.

"Thereupon the submarine, now a blinded thing, rushed along under water in imminent danger of self-destruction from collision with the cruisers above.

"The sightless submarine was then forced to come to the surface whereupon the Birmingham's gunner fired the second shot of the fight. The shot struck at the base of the conning tower, ripping the whole of the upper structure clean and the U-15 sank like a stone.

"The remainder of the submarine flotilla fled."

## HOLLAND ADMIRES BELGIAN DEFENCE

Brussels, August 19.—The Dutch greatly admire the Belgian defence at Liege. Throughout Holland, appeals are being made for volunteers. It is understood an explanation is to be demanded from Germany of the concentration of troops along the Dutch frontier. If the troops are not withdrawn, it will be considered a casus belli. It is believed to be the opinion of Queen Wilhelmina and the Prince Consort that they will alienate public sympathy if they do not allow for the nation's anti-German feeling.

## KIDNEY TROUBLE AFFECTED HIS SPINE

Suffered For Forty Years Until He Used "Fruit-a-Lives"  
BRONTE, ONT., OCT. 31st, 1913  
"For about forty years, I was troubled with Lame Back brought on by Kidney and Bladder Trouble. I was never confined to my bed with the trouble, but it affected my spine and I had to rest for a time. I took various remedies which never did me any good. Then I saw "Fruit-a-Lives" advertised and decided to try them. They did me more good than any other remedy. My son suffered from the same trouble and frequently had to leave his working, but "Fruit-a-Lives" remedied it for him. I would strongly advise anyone suffering from Kidney and Bladder Trouble to use "Fruit-a-Lives".
