DAILY EDITION

Thursday, August 20, 1914

The wreck of the Prince Albert comes as a terrific shock to the people of Prince Rupert being so near home. The fact that there were only a few passengers aboard reduced the loss to a minimum. It is only a mere chance however that there was not a full list of passengers. In such a case the loss of life would have been very considerable.

From all reports it appears that the steamer was away out of her course in a dense fog and that she was going ahead at full speed. The warning given by the loss of the Empress of Ireland was of no avail. Indeed, it is doubtful if mariners will take due heed until such an action is made a capital offence. Moreover there should be no time lost to bring this about, seeing that all other cautions are useless.

It would appear that some irresponsible joker—if the use of the term can be allowed—has been endeavoring to drive the citizens into a panic by asserting that the German cruisers were at hand. Indeed the

report went so far as to say that it was the Leipzig that sunk the Albert. There can be no other explanation than that the report originated in the imaginative brain of some careless individual. It should be pointed out that such conduct is an offence against the country and that for a similar offence in St. John a man was arrested and reported to Ottawa. No excuse possible can be offered for creating a panic and anybody circulating such a report should make sure of his authority or else hold his peace.

It is a regrettable fact that at a time when the city should be conserving its resources the Mayor should insist on living in one of the high priced hotels of the lower coast cities when there is no business demanding his presence there. The Council do not know why he has not returned. It might be a good move to insist that he bear his own expense since he was so very particular about the actions of his predecessor.

GERMAN MENACE FROM BELGIUM AND HOLLAND

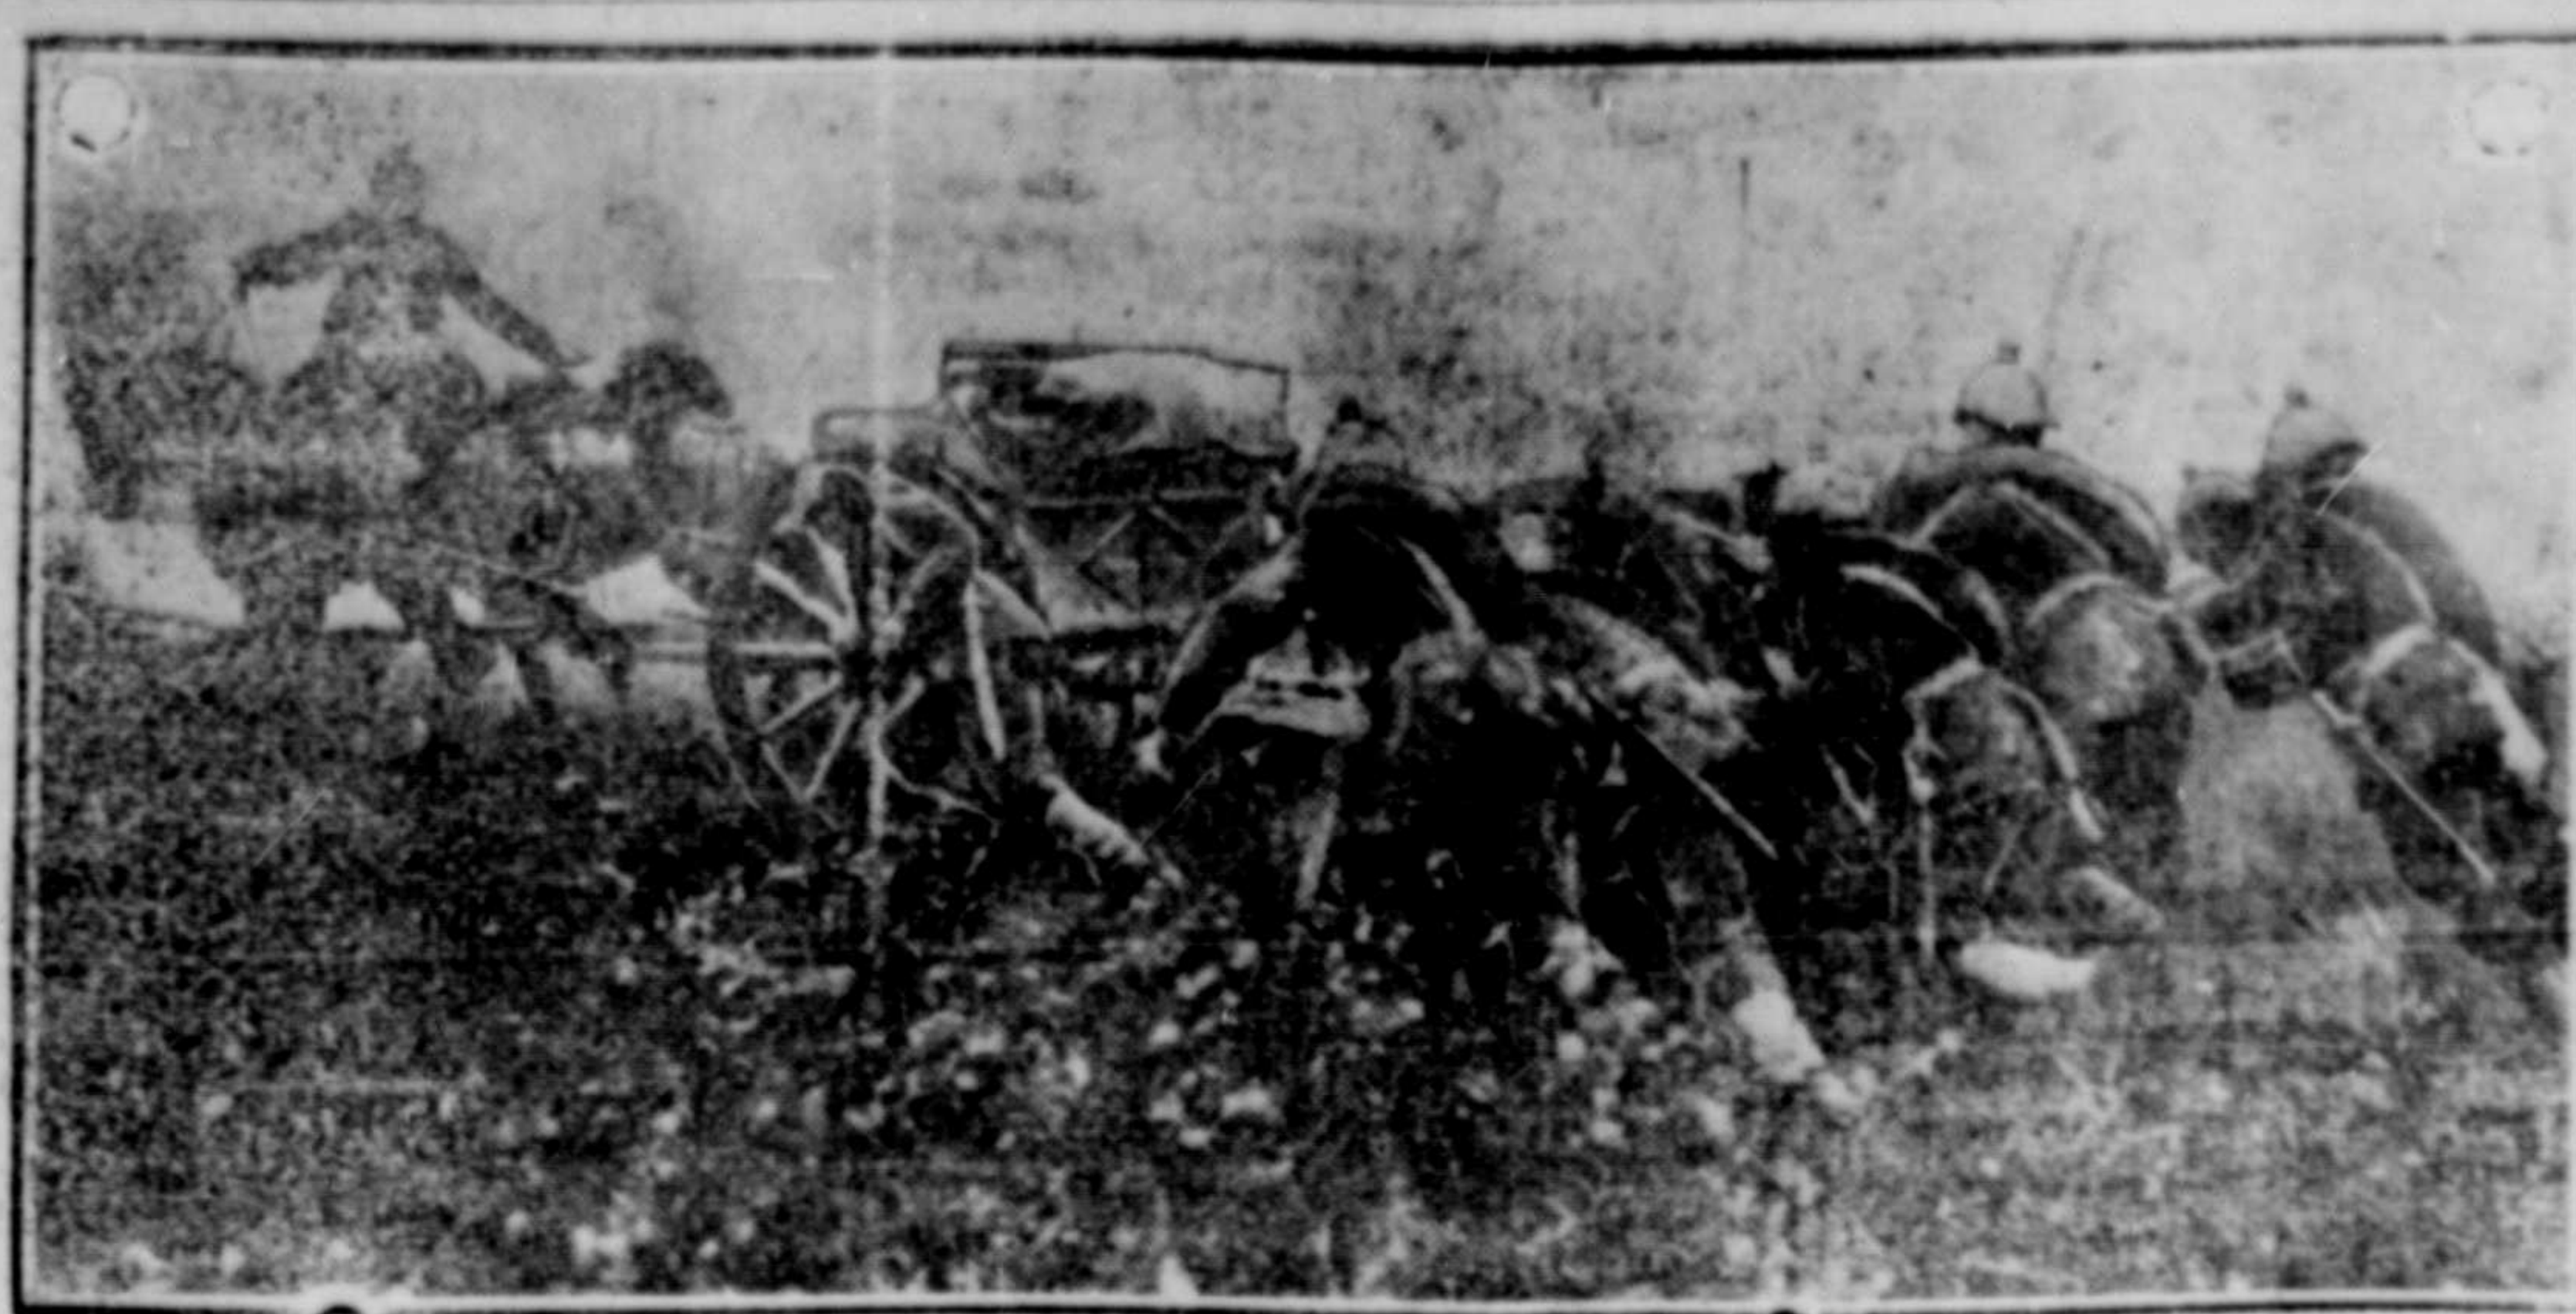

What the German occupation of Belgium and Holland means to Great Britain is readily seen from this map showing the location of the Belgian seaport of Ostend and the Dutch port of Flushing. Ostend is sixty miles from the British coast, and Flushing 100 miles. With German warships on the watch at these ports the menace to British shipping entering the Thames would be terrific.

Considerable surprise was expressed by shipping men when the vessel steamed for Tacoma to load for the west coast.

While lying in Seattle harbor the pretty white dress of the Colusa was substituted for a coat of the somber gray of war, and it is evident that her role is to be that of a blockade runner on the West Coast of South America.

With lights extinguished at night and following a course well out to sea the Colusa will serve a route which has been abandoned by the German steamships of the Kosmos line on account of the danger of seizure by British cruisers.

BRIGADE DETAILS KNOWN

Ottawa, August 18.—The details of the artillery division of Canada's expeditionary force was announced by Col. Morrison, director of artillery. It will consist of three brigades of eighteen pounder guns each, making a total of 54 guns, with one heavy battery of four 60-pounders additional. The total force will be 23 officers, 772 men and 746 horses for each brigade, making a grand total of 59 officers, 2316 men and 2318 horses, for the three brigades. The heavy battery for the 60-pounders will be taken from the Montreal heavy brigade and will consist of six officers, 190 men and 144 horses.

SECRETARY DANIELS WOULD USE NAVY TO CARRY U.S. CROPS

Washington, August 20.—Confronted with the problem of disposing of the country's enormous grain and cotton crops, the administration made plans for a conference in Washington this week of the representatives of leading shippers and foreign exchange bankers.

The bankers have been asked to come to Washington to make plans for a resumption of the international exchange market and restore the use in of international bills of exchange. The shipping men will be asked to move American grain and cotton to the European markets, which have taken them so liberally in the past.

In announcing the conference call, Secretary McAdoo said:

"It is of vital importance to the country that two things be done as quickly as possible: First, provide ships to move our grain and cotton crops to European markets; the second, restore through the bankers the market for foreign bills of exchange."

Secretary Daniels expressed the hope that freight might be carried to Europe on naval vessels. Congress has granted the necessary authority for handling mail and light freight, but the secretary said permission to use the colliers for carrying cotton and grain would help the situation.

FORT GEORGE HOTEL BURNED

A Sunday fire recently totally destroyed the Dominion Hotel, corner Fourth and Dominion Streets, Prince George. When first discovered the fire had made such headway that to attempt to save the building or contents was out of the question. Financial loss is estimated at \$6,000.

The building was owned by W. G. McCaffery, and was operated by Mrs. Mary Burton. The loss was only partly covered by insurance. Slight burns were received by Wm. Cooke, postoffice employee, of South Fort George, and Mrs. Mary Burton, but are not serious.

WHEN you smell hot bread round our mill know that it's "baking day" in our laboratory.

Peep in and you will find our head chemist minutely examining a whole row of bread he has just baked. These loaves are the final result of exhaustive analytical tests of both wheat and flour.

He only calls his flour **ROYAL STANDARD** after it has made golden, creamy white, velvety bread.

To make bread like that simply say to your grocer:—

The Westholme Theatre last night, besides other pictures of merit, showed the city of Liege, the scene of the struggle between the Belgians and the Germans. Many of their public buildings are real works of art. The River Meuse was also shown. It does not appear to be very large or difficult of access.

William Fraser, of Owen Sound (Ontario), thought to have been drowned because his canoe was found bottom-up, appeared at the home of Ed. Dudgeon, near Chatsworth, and was identified. In the course of his swim to shore Fraser sustained an injury to his head which left him dazed, it is thought.

FOOTBALL

Last night on the Market Place grounds and before a record crowd, the Callies met the Sons of England in their second league game and for the third time this season. Right from the start excitement was intense as the Callies, to keep themselves in the race for league honors, had to secure both points. It was early evident that this they intended to do for before the game had gone many minutes. Hunter, after a good shot from Stewart, managed to beat Brandt. This point was immediately followed by a brace from Davie who was playing inside right. The Englishmen now came more into the game and during a hot attack on the Callies goal, Murray handled within the dreaded area, and with the resultant kick Tinker made no mistake about beating Bloomfield. Play now ruled more even with, perhaps, the Callies always more likely to score. An accident at this stage robbed the Callies of the services of Bob Davie, who was compelled to retire for the remainder of the game having had his eye damaged through getting the ball in the face. With the ten men the Callies still held their English foes at bay and half time arrived with them still leading by three goals to one. During the second half every inch of ground was stubbornly contested, each team striving desperately to improve their position but goals were not to be got this half so easily. During a sharp attack on the Callies goal it looked long odds on the Englishmen scoring, but the last line of the Callies defence always baulked their well directed efforts. Indeed, Bloomfield played his best game of the season, which also could be said of his vis-a-vis in the English goal. After repelling another attack by the Englishmen, the Callies forwards broke away, and just to show that they still knew where the goal lay, Stewart again beat Brandt. This was all the scoring and the game ended with the Callies winning one of the hardest games of the season by four goals to one.

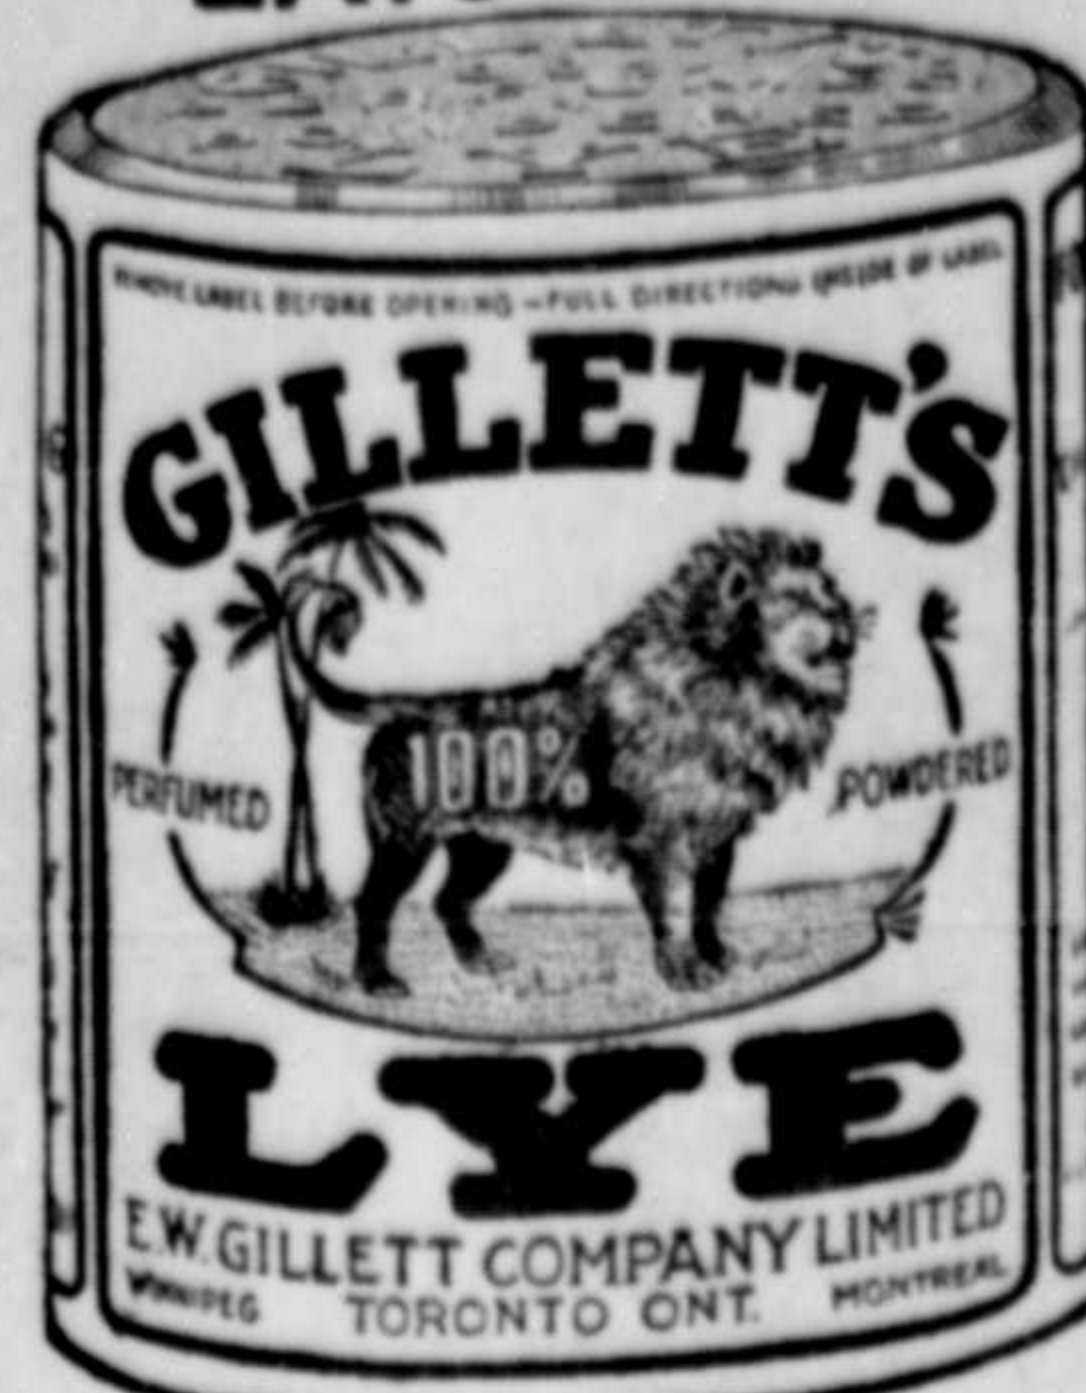

Mr. A. Holmberg handled the game to the satisfaction of all.

ANY DYSPEPTIC CAN GET WELL

By Taking "Fruit-a-tives" Says Capt. Swan

Life is very miserable to those who suffer with Indigestion, Dyspepsia, Sour Stomach and Bilelessness. This letter from Captain Swan (one of the best known skippers on the Great Lakes) tells how to get quick relief from Stomach Trouble.

"A man has a poor chance of living and enjoying life when he cannot eat. That was what was wrong with me. Loss of appetite and indigestion were brought on by Constipation. I had had trouble with these diseases for years. I lost a great deal of sleep and suffered constantly. For the last couple of years, I have taken 'Fruit-a-tives' and have been so pleased with the results that I have recommended them on many occasions to friends and acquaintances. I am sure that 'Fruit-a-tives' have helped me greatly. By following the diet rules and taking 'Fruit-a-tives' according to directions, any person with Dyspepsia will get benefit."

H. SWAN

"Fruit-a-tives" are sold by all dealers at 50c a box 6 for \$2.50, or trial size 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

THE PANAMA CANAL
This wonderful waterway cost \$175,000,000 and involved a nine-mile cut through a mountain, the erection of six pairs of gigantic locks, and a dam 150 feet high and a mile long. The distance it saves—6,000 miles—will revolutionize commerce and place the United States first among the leading nations of the world. The Anheuser-Busch plant cost about one-seventh as much as this canal—one was built by a nation, the other by an institution.

Panama Canal and Budweiser

The supremacy of Budweiser has been built up by the natural and continued choice of the people. Its sales exceed those of any other beer by millions of bottles—proving its ever-increasing popularity.

Budweiser is brewed, aged and bottled in the largest and most perfect plant in the world, occupying 142 acres covered by 110 separate buildings. More than 7500 people are required to help Budweiser keep pace with the public demand.
